On Saturday, September 11, Embry-Riddle Rotorcraft Space Feature (C4) will host a remembrance ceremony on campus.

Students, faculty, and friends gathered around the Wright Flyer for the live fly in the 9/11 attacks.

Students, faculty, and friends gathered around the Wright Flyer for the live fly in the 9/11 attacks.

The event that was made possible through a Columbia Helicopters donation was attended by the Wright Flyer, the first aircraft. Seventeen minutes later, a United aircraft flew into the south tower. At 9:37 a.m. the Pentagon was attacked and shortly after United Airlines Flight 93 crashed near Shanksville, Pennsylvania.

This year, Doolittle Residence Hall stood alone as one of the building that was referred to in the first event, referred to in the first event as the momentous flight of the Wright Flyer,

The students felt they had begun for the fall 2010 semester.

While walking to class, students, peers and freshmen lost the country suffered.

Students, peers and freshmen lost the country suffered.

The general consensus of the students was that there was a lot of noise and most importantly, fun.

Fall 2010 International Program

Hi everyone, my name is Matthew Falkeller.
I am an Alumnus of the College of Business at Embry-Riddle Aeronautical University. My name is Matthew Falkeller and I am the International Student Representative for the Student Government Association at Embry-Riddle Aeronautical University. I am in my 4th year, majoring in Aviation Business Administration and Aviation. During my time here, I have participated in many events, made new friends, and have had a great time. The SGA has many different committees that you as students can also become a part of as a Member at-Large. These committees include the International Student Programs, Proprietary, Constitution, and our Safe Ride Committee. Meetings are every Tuesday at 10:45 AM in the SRB and everyone is welcome to come.

I hope you enjoy your experience here at Embry-Riddle Aeronautical University. My name is Matthew Falkeller, Alumnus of the College of Business at Embry-Riddle Aeronautical University.
Whether you are an avid scuba diver or just a bit interested and would like to try it, the Diving Eagles Scuba Club at ERAU is right for you. Organizing scuba trips for almost every weekend, the Diving Eagles have been helping Embry-Riddle students get underwater and diving semester after semester. Trips include visits to the very accessible natural springs all over Central Florida, beach diving out of South Florida’s Atlantic Coast, and at least one boat dive every semester. But this is not all, as many divers may want to explore different sites, the club will organize other trips based on where members want to go. The possibilities are endless.

Never dived before? Not certified? Not a problem. Getting certified through the Diving Eagles is cheap and easy. Thanks to our partnership with Spruce Creek Scuba, a local dive shop, members can get certified in two weekends for the lowest cost in the area. Certified but no gear? That’s fine too. Your semester dues do much more than pay for gas. As a member you are entitled to use the club’s gear, consisting of several BCD’s, Regulators and Dive Computers. All you will need to own are fins, a mask, weights, and a wetsuit.

Not sure if diving is for you? Come on out and try it! Most semesters, the club organizes a try-scuba event taking place during the activities fair. Just bring yourself and a swimsuit over to the Fitness Center Pool and we will gear you up and get you diving under the supervision of a certified instructor, completely free of charge or commitment. Just to see if you like it! So if you have got the urge to submerge, do not forget to come and check us out during the activities fair and check out our Diving Eagles Scuba Club Facebook group. The club is not only your gateway into fun and adventure in Florida’s temperate waters, but also a way to experience strong camaraderie and friendship with your dive buddies. Club members can often be seen hanging out together on and off campus and like to throw the occasional dive party. So do not stay dry, dive in!
Pi Kappa Alpha look forward to Rush Week

Colin Meagher

Pi Kappa Alpha

The brothers of Pi Kappa Alpha (Pike) love returning from a relaxing summer and look forward to the fall semester with great optimism. However, not all brothers return to campus as many brothers stay for summer jobs and others do not return at all. Additionally, several brothers attend the Pike International Convention in Austin, Texas. Those brothers enjoy the great Sunbuckeye weather in Texas and hope to offer but also focused on how to improve our chapter and had a great time doing so. At the International Convention, Lambda Mu received several awards including the Raymond L. Hurtz Excellence Award for the highest GPA and Honor Award for the highest GPA among all male students on campus. If you are interested in becoming a Brother of Pi Kappa Alpha please contact our Rush Chairman, Brother Cody Dumont, at dumon21arizona.edu or stop by Student Activities in the Student Center, Room 106.

Students meet Greeks

Fraternities and sororities share passion

Airala Robson

Campus Editor

At the start of each semester, the Fraternities and Sororities gather on the West Lawn for their Meet the Greeks event. This year’s event was held on Tuesday, September 6, from 11:00 a.m. to 4:00 p.m. This semester’s event, unlike the past semesters, was held earlier in the day. According to Ryan Powell, Assistant Director of Student Activities for Fraternity and Sorority Life, the switch to an earlier time was because, “the time change was in an attempt for the event to be available for those students transitioning from summer classes.” This also delivered the campus a chance to learn a little bit about all 11 Fraternities and 4 Sororities that are on campus. This is also a time that interested students in joining any of these organizations can receive information on their upcoming recruitment events that are scheduled to happen over the next couple of weeks. Results meeting members from these organizations, students had the opportunity to take some time off from their busy class schedule and take a tour of running through the giant blowup obstacle course. Powell also added that, “my hope is that the ERAU community viewed the event as a friend, and learned more about the benefits of Greek life, then the event was a success.” If you are interested in Greek Life on campus, students can talk with any of the members of the Fraternities and Sororities, or stop by Student Activities in the Student Center, Room 106.

Congratulations from the Flight Department to the following students for receiving their:

With the Education Career Stabilization Program (ECS), the Army offers nearly $3,000 for the GI Bill, plus up to $4,000 in annual tuition assistance to help you get a degree before you deploy. You'll also get the opportunity to learn a variety of skills, and learn to become physically, mentally and emotionally stronger as you prepare to be a Soldier and a citizen. It's a great way to get ahead in the Army and have a rewarding career.

An Army education goes beyond walls and textbooks. Whether you choose Active Army or Army Reserve, we will challenge your body, your mind, and your character. For more information, dan to call your local Army recruiter at (386) 947-1844.

STUDENT LIFE

APRIL 18, 2010
This was Recruitment Week, the week I had heard about since the first day of orientation. And since I am a female and able to join a sorority, many “Big sisters” were eager to greet me and tell me about their upcoming events that I myself could partake in.

I had never actually considered joining a sorority, but something about them and their connection drew me; so, I decided to go out for it and at least find out what all the excitement was about.

I arrived late, but better late than never, right? The room was full of laughter and smiles as they did an icebreaker in a circle that stretched out around the entire room. One of the sisters explained to me that they were going around and saying their names and a word to describe them, and then we copy them while first repeating everyone else’s name. I was a little overwhelmed and fearful of how everyone else viewed me, but being around other females (all females at that) was a little bit of an escape. It’s then I began to realize that I didn’t really need to be afraid because if anything, we all shared the desire to be around mature females who not only cared about their academics but knew how to have fun every now and then. I left the party feeling anxious and hopeful all in the same instance because even if I didn’t pledge, at least maybe I met some perspective friends and associates, so that I could look to for help in the day to day questions I may have.

Recruitment became a growing process, not only in meeting other people but escalating in the knowledge of what it really meant to be in a sorority. As many others had completely misconceived what it was about, I did not want to be in a group of girls who had exclusive parties and talks only between us. I wanted to be in a group who shared the knowledge that, regardless of what may have happened that day or the one before, you have a link between you and your sisters that wouldn’t break. See, just like family, (“Blood is thicker than water”), no matter what, at the end of the day, the blood (or connection of sisterhood) is something that can’t be broken by conventional means.

In the course of about a week I saw a different side of something that has been stereotyped in many ways. As with many things in life, you cannot judge it fully by the cover. Greek life is so much more than what meets the eye. I would honestly suggest to everyone to check it out for themselves; you’ll be surprised by what you may find. Although “Greek life” isn’t necessarily for everyone or maybe not a certain one, you can never truly know until you see it for yourself. Even if you decide against rushing, the experience is irreplaceable and can be unforgettable.

~Hannah Langhorn

The Eagles hold lead from the first half

Bethel had the first cards. It was an exciting one and won the first half.

The Eagles convetled the defensive effort into offense, where they took the ball down the left side and squared up against Michael Donald. Donald hit a pass to Ryan Maloney, who hit it to Matt Maloney for the goal of the year. The Eagles improved to 2-0 on the season, beating the fourth-ranked Embry-Riddle Eagles.

Another set piece was turned into a goal when Kennedy’s heroics resulted in a goal. He scored his second goal of the season, the first set piece goal of the season.

The Eagles played their first road game of 2010 next Friday when they travel to Mobile. AL to face Bellhaven in the second game of the University of Mobile Tournament.

Ryans Maloney scored twice in the first half to lead the fourth-ranked Eagles in their 3-2 win over thirteenth-ranked Bethel on Friday night.

The Lady Eagles win another Rumphke

The fourth set was the most competitive of any set in the tournament, featuring 14 ties and 23 lead changes. Georgia Tech held a 14-10 lead, which would be the biggest lead of the set held by either side, and saw it evaporate as ERAU forced four straight points, taking a 16-14 lead. The Eagles would then hold on to win the set, 25-23, as a service error closed out the match.

The fourth-ranked Lady Eagles, who have lost to the Ragin’ Cajuns twice this season, played a strong match against the 15th-ranked Georgia Tech. The Eagles led for most of the match and took the final set 25-23. The match was a tough one for both teams, with the Eagles winning in the final set 25-23.

In GEORGIANA, KENTUCKY the lady Eagles took the Second Annual Rumphke Invitational at the University of Kentucky. The Eagles won their second set of the day, and secured a 1-1-1 record and will play St. Thomas on Friday at 7 p.m.

Embry-Riddle, the first set, was a barefoot affair, with the Eagles leading throughout the first set and taking the win 25-23.

In the second set, Georgetown took a slim lead early, but Embry-Riddle was never able to get a lead of more than 10 points. Tech hit .228 and the Eagles hit .197.

The Eagles had four players in double-figures in kills, with Vazquez (14), Kemp (12), and Martin (11). Vazquez had a match-high 14 kills in the match.

The Eagles had four players in double-figures in kills, with Vazquez (14), Kemp (12), and Martin (11). Vazquez had a match-high 14 kills in the match.
