EMBRY-RIDDLE V.P. SPEAKS TO AD CLUB

A. Lauderdale, vice v. for development at Riddle, told the Ad Club recently how ERAI students. He showed the ads that played a part in building enrollment from 165 in 63 to the present roster. He also showed the brochures used in a f a i l activity, the follow up to the first. A & P students and EMBRY-RIDDLE BLOOD BANK

The establishment of an Embry-Riddle Blood Bank, which will be available to all members of the Embry-Riddle family, including alumni, got a healthy boost in November, 1966 with the deposit of 57 pints. The goal was to collect 250 pints in the month. The total was far in the lead by contributing 32 of those pints.

The establishment of this Blood Bank provides a great number of useful advantages to the school and to the individual. A member of the immediate family is also privileged to share in the Blood Bank. He said that one characteristic was shared by the student or faculty member. Let us all contribute toward this healthy undertaking by assaying in the d r t v e to build the Embry-Riddle Blood Bank. The next donation is scheduled for March 1967, and Mr. Tutis is in overall charge, assisted by the president of the two fraternity's campus.

NASA INVITES EMBRY-RIDDLE OFFICIALS TO GEMINI SUMMARY CONFERENCE AT HOUSTON

Jack R. Hunt, president and Frank Forrest, vice president of Embry-Riddle Aeronautical Institute, were invited by NASA to attend a summary conference on Gemini operations. The meetings were held in Clear Lake City, Texas, near Houston, on February first and second. Eight hundred leaders including many of the astronauts, who discussed subjects as body positioning and restrictions, extravehicular maneuvering, controlled re-entry, space photography and a flight experience.

Mr. Eric Richards has been appointed as a Director of Student Housing and is to be consulted with respect to dormitory planning. His office is located in the new dormitory complex on Nova Road. Telephone: 252-4047.

The Financial Aid Office now located in Room 114 of the Engineering Building. All student time cards a r e to be delivered at this office.

Mr. Forrest said the invitation expands the invitation in a significant way to the alumni and faculty of the school and to the Embry-Riddle Blood Bank. Mr. Tutis is in overall charge, assisted by the president of the two fraternity's campus.

The meetings were held in Clear Lake City, Texas, near Houston, on February first and second. Eight hundred leaders including many of the astronauts, who discussed subjects as body positioning and restrictions, extravehicular maneuvering, controlled re-entry, space photography and a flight experience.

Both Mr. Hunt and Mr. Forrest said the invitation expanded the invitation in a significant way to the alumni and faculty of the school and to the Embry-Riddle Blood Bank. Mr. Tutis is in overall charge, assisted by the president of the two fraternity's campus.

Mr. Eric Richards has been appointed as a Director of Student Housing and is to be consulted with respect to dormitory planning. His office is located in the new dormitory complex on Nova Road. Telephone: 252-4047.

The Financial Aid Office now located in Room 114 of the Engineering Building. All student time cards are to be delivered at this office.

All student are reminded that the Placement Office in Room 103 is also handling part-time job requests on and off-campus.

EMBRY-RIDDLE GETS NEW GRANTS

Frank G. Forrest, Vice President for Planning at Embry-Riddle Aeronautical Institute, has announced approval of a new Federal grant amounting to $30,750. The grant is from the Department of Health, Education and Welfare, under Title VI of the Higher Education Act of 1965. Mr. Forrest said these funds will be used for new equipment in the physics laboratory at the college.

The H.E.W. approval was relayed to Embry-Riddle in a telegram dated February 1, 1967 and signed by Senators Speckard, Holland and George Smathers, also by Representative Sydney Herlong, Jr.

The same time, Herbert V. Mansfield, Dean of Students, announced approval of an additional $1,366,166 as a Federal Capital Contribution to the National Defense Student Loan Fund established at Embry-Riddle pursuant to Title II, Public Law 85-864. Mr. Mansfield said this latest contribution brings to $24,320 the total allocation for student loans made available to Embry-Riddle for the 1966-67 academic year.

FROM THE OFFICE OF THE DEAN OF STUDENTS

The forward progress of Embry-Riddle can be enhanced by increased communication a mong the students, faculty and administration. The institution of day-long hours in our centralized post office will help considerably.

The other side of this coin requires that everyone visit the mailroom each day that he is on campus. Everyone is reminded that all official communications are sent through the post office and that the individual is responsible, within the next two weeks, for each monthly message in his box.

It should be of interest that the school has acquired all of the individual post office boxes presently situated in the New Smyrna Beach Post Office. This system will be installed in the Student Center as soon as the boxes are re-leased from New Smyrna (a new post office is under construction at New Smyrna Beach).

er even in flying t h
e's and F ACTO R S
book, HUM IN FACTORS
ND SPACE TRAVEL, i s
commended for h our

The operator of t h e 130
mph private plane, the super-
sonic jet pilot, and t h e a n-
tomast should know: Basic As-
pects of f Skilled Performances
covered by William A.Wilbanks;
Human Operator Performance Un-
der Non-Normal Environmental
Operating Conditions covered by W.Guy Matberry;
Aircraft Accidents a n d Flight Safety
covered by Harry G. Mosley. There are, in fact, fourteen
chapters, each a highly interesting and informative paper.
In these papers the problems to b e encountered in high
speed flight are presented along with some solutions
already worked out, and other solutions are suggested. The
solutions pertain especially to the psychological and phys-
ical problems which, after all, are the heart of these
problems of any flight. We speak of them often as t h e
man-machine relationship, the human factor involved. We
can't get away from it; t h e successful machine must be de-
dsigned around the limitations of its operator. This book b o o k
helps us to understand those limitations applied to flight, with emphasis on h ig h speed
flight.

EMBRY-RIDDLE HIR ES WOMEN'S
ADMISSION OFFICER

T h e response to Embry-
Riddle's current drive to en-
list women students has become
so great that the college has
appointed Nan Green a s a Asso-
ciate Director of Admissions
for Women.

Mrs. Green studied for two
years at Mississippi St a t e
College for Women. She trans-
ferred to the University of
Mississippi, where she majored
in secretarial science a n d
economics. She received her
Bachelor of Science degree in
Commerce. After graduation she
attended the Southern Airways
Stewardess School in Atlanta. She
became a stewardess with
Southern Airways, where she
stayed for three years before
joining Embry-Riddle.

Nan has realized the
dream of many airline steward-
esses and is now married t o
Walter Green, who was captain
on the same Southern Airways
plane on which she was a stew-
dard. (2)

Mr. J.R.Wynn, 258-3593 or
677-2264, is anxious t o seek
additional attendance at t h e
local Corporate College t o t 3-67.
This is a U.S. Navy unit a n d
commanded by Commander Jim
Riddle is currently driving in
Pensacola. Meetings are held Wed-
nesdays at 8:00 P.M. in t h e
Navy Room of the Na v a 1 Rese rve
Center on University Drive. The team will also play
in t h e Deland Invitational
Tournament on February 9th and
10th.

GOLF

Embry-Riddle Winter Golf
Tournament was played under
the lights on February 3, 1967
at Par 3 Course. Steadman
was the winner who shot a 62;
runner up was Bill Ford with a
67.

EMBRY-RIDDLE FUND DRIVE
PASSES $100,000 MARK

Jay Adams, fund chairman of
Embry-Riddle's drive to raise
$300,000 toward a building pro-
gram costing $2,500,000 a n nounced recently that the drive
has passed t h e $100,000 mark.

Adams said the response so far
indicated an awareness in t h e
community of the importance of
Embry-Riddle to the growth and
image of t h e Daytona Beach
area.

The $2,500,000 total will go toward construction of a
permanent ERAI campus on about
50 acres between Mainland High
School and the Municipal Air-
port. The drive funds and Fed-
eral aid will be used to build a
b group of academic buildings,
a dormitory and a flight line
center adjacent to a n airport
runway.

BASKET BALL

Embry-Riddle's newly for-
mixed Basket Ball Team is a com-
peting in Industrial league at the
Y.M.C.A.

The team will also play
in t h e Deland Invitational
Tournament on February 9th and
10th.

GOLF

Embry-Riddle Winter Golf
Tournament was played under
the lights on February 3, 1967
at Par 3 Course. Steadman
was the winner who shot a 62;
runner up was Bill Ford with a
67.
