blood drive a success!!

Once again, on July 11, the ERAI students center became a place of happening. New and old faces gathered in the student center to give their time and most of all their blood. At 9:00 AM Red Cross Volunteers began taking temperatures and blood pressures from new and familiar faces. School spirit was demonstrated by students, faculty and the school administration. Gene LeClair-SGA Blood Drive Chairman-reported that 111 pints were donated of which 34 were contributed by the Embry-Riddle Veterans Association members.

Coverage of the Blood Drive was advertised on the radio by WMFJ disc jockeys who were also on hand in the student center to encourage the blood donors on.

At the last SGA meeting Gene presented letters of appreciation and thanks to the following students: Rich Hilton, Brenda Bridgeman, Bonnie Brant, Ralph Mancuso, Bob MacCutcheon, Jerry Berndt, Stan Podlasek, Dan Sturm, and Bill Ferguson.

The AVION extends their thanks and appreciation to the students, faculty and administrative members for the spirit demonstrated that made the summer blood drive a big success!!

Several vacancies have developed through students leaving for the second half of the summer trimester. Because of this, Tony Shans, Reggie Prezbyl Warren Sherman, and Hugh McCoy were recently asked to join the Student Council.

The SGA would like to thank Don Nichols for his work concerning a matter before the Disciplinary Board. The Chairman of the Student Conduct and Grievance Committee has the opportunity to go before the Board and speak in behalf of the students concerned. Don's work on this turned out to be quite beneficial.

SGA Briefs

Captain Scribner will be here on campus this week and will attend the Board of Trustees meeting of the evening of July 25th.

President Collins discussed a program on student members to a Draft Board Advisory. Anyone wanting more information on this can contact the Embry-Riddle Veterans Association.
SGA BRIEFS CONT

Students willing to work for the AVION are urged to see Gene LeClair or Rich Hilton.

The Constitution Revision Committee has made the recommendation of changing the name of the Student Government Association to the Student Senate with all representatives being called Senators.

Dean Mansfield reports that the insurance fee will be increased from $10 to $11 per trimester or $33 per year.

THE PRESIDENT'S CORNER

As everyone knows by now, the Blood Drive here at ERAI was a success. This success could not have been realized without the help of Gene LeClair (Chairman of the Blood Drive), all the committee members and one hundred and eleven donors. It's because of these people that everyone here at ERAI, students, staff, and faculty, can draw unlimited blood if the necessity arises.

Now that the new campus has been landscaped and some semblance of a road has been constructed, I would like to ask all students to become part of a campus-cleanup drive. This includes not only waiting to throw miscellaneous trash away until proper receptacles are available, but also cleaning up any milk cartons, cups, etc. that may accumulate at your table in the Student Center. With a little cooperation from everyone, here on campus, we can accomplish this worthwhile project.

Jan Collins
SGA President

NEWS & VIEWS FROM THE EDITOR’S DESK

The Blood Drive was a success. We totaled 111 pints of blood altogether. It was a very good campaign for the summer. All the members of the Blood Drive Committee were commended and given letters of thanks and appreciation. ERAI totaled 547 pints of blood for the year 69-70. So on an average enrollment of 1200 students, we produced 54.7% donated pints of blood in relation to the enrollment. Quite a feat! Keep up the good work for next year.

Well, you students voted down the referendum SGA increase and "Student Club". It was an overwhelming majority, I am afraid. It's too bad! But when we keep running into inflationary prices in the next two years, maybe you'll come around. $6.00 a year ($2 per tri) really isn't going to hurt that much, is it? Apparently it is!!

Well, finally a road was carved out of the older campus, leading into the new academic complex. It was done in about 2 days. Flattened out and made relatively smooth, it presents us with a fine improvement as regards the other road. It seems though that this will not be called or hard-topped. Maybe sometime in the fall. Hopefully!!

The Constitution Revision Committee consisting of Jerry Berndt and Rit Welch are moving right along. I had a chance to glimpse at the new proposed Constitution. I think you'll like it. It's fluid and flexible as well as redefining with good precision such jobs as Treasurer, Secretary, etc. When it comes to adoption late September of next trimester, they should pass well. I predict that it will last around 5 to 7 years without major changes. Of course, time will tell!!

The yearbook Committee Chairman said they would have a detailed report on the yearbook by next meeting. I hope to say now with no reflection or derogatory implications, that the insurance fee with all representatives was commended and given letters of thanks and appreciation. ERAI totaled 547 pints of blood for the year 69-70. So on an average enrollment of 1200 students, we produced 54.7% donated pints of blood in relation to the enrollment. Quite a feat! Keep up the good work for next year.

Well, people the next Barbeque is set for August 3rd, Sunday. Student Activities Chairman, Dave McCall will have a breakdown by next meeting concerning this function. Also, you graduation Seniors, your Senior Cocktail party is scheduled for August 1st, Friday Evening. More details will come by mid-next week sometime. So keep looking and enjoy yourselves.

I must comment on one more subject before I close. I have been approached now by various people within the activities of this school and asked if it were possible to stop and not publish stories written by people about other people that may be derogatory in nature. Let it be known now that as long as I'm Editor and as long as the AVION is a safety valve for this school, I'll not censor.
any material coming through here, if it has been properly submitted. Signed and noted as opinion, classified as Editorial. If no one cares to agree with me, then write it up and submit it. Your right to speak freely will not be denied by me. Anyone who wants to publish any material in this house organ will be allowed to do so, if it is above board. This is how I feel, and this is what it will be as long as I am Editor.

``THE EAGLE HAS LANDED``
BY GENE LECLAIR

In all my life, I have dreamed that maybe one day I could participate in a space venture. Of course, I have not achieved my goal yet! But, this country has and I must say that I am truly impressed. Late Sunday evening Commander Armstrong stepped onto the moon's surface. There is no question in my mind that this achievement and shows to me what can be done when men put their minds to it. "Star Trek" is out of date. I wanted to write this Editorial because as an individual I was extremely moved by this achievement. But as I sit up Sunday or Monday morning, blurry eyed I began to think what does this mean to young people today. You and me, now in college or just getting out and entering into the labor force. This achievement, I believe is going to open to us such vast opportunities that may be right now a little incomprehensible. Everything that has been achieved on this space venture has been through ideas by people of 30 to 40 years ago. These people are getting along now and will soon yield to our generation. Will we have another Von Braun in our generation? Will we be able to come up with unthought of, unheard of concepts, let alone ideas? Will you or I be a part of one utterly fantastic world just around the corner? Yes, I feel we will.

COMMENDATION
Please allow me to commend the student body of Embry-Riddle on the wonderful turnout at the Blood Drive held July 11, 1969. In these times of unfavorable publicity given colleges in light of demonstrations, unrest and whatever, it is gratifying to see the students of Embry-Riddle respond to a much deserved cause as this. Again, as a non-student, please allow me to say "Thanks".

Al Brunsnahm
ERAI Mail Room

The trouble with being a good sport is you have to lose in order to prove it.

BY DENNIS KROL

The 17th regular meeting of the ERVA was again held at Shakey's pizza on Tuesday, July 8, 1969 at 7:30 PM. The executive committee noticing the POOR turnout decided that the staunch regulars should get their whistles whetted so free liquid refreshment was enjoyed by all. This meeting although operating under very severe conditioning was again very productive.

Mr. Nixon organized a committee to increase benefits and also asked for suggestions from his fellow veterans. As of this writing no suggestions have reached Box 1131. If you want better bennies then you better suggest.

This Youth Advisory Committee needs a local representative and our attending gallery produced these candidates, Sue Peck and Charles Matlock. A very sincere letter was received from Tina Allen's parents. They thanked us for our life-line of blood, but stated that upon Tina's last physical good news was received. The hole in Tina's tiny ticker was healing and if it continued to do so surgery would not have to be performed. Our blessings go with her continued healing process.

Bob Martin of the Housing Committee stated that everything is running per Apollo II. Full operations will begin around the second week of August and continue until mid-September when a part-time schedule will go into effect. So fellow students if your Penthouse will be available for rent, come in and see friendly Bob Martin for the best deal in you humble abode.

All you athletic high-school heroes, Donn your caps, stretch your muscles buy some liniment and join the Vets baseball team. This team will be in competition with the Pro's (MVP and that league). So if you're not getting enough out of life and you want to receive that old highschool spirit and see your wife in her sweetheart form attend the next Vets meeting and get all of the particulars on how to feel 17 again.

IBM registration cards will be coming in the mail from St. Pete. Sign them and return them quickly so that your bennies will keep right on coming.

If you have never attended a school function because you thought or heard they were a drag, Friends, I'm warning you don't miss the Vets First Picnic Sunday, July 27, 1969 at 10:00 AM at Deleon Springs. This will turn you into a social nut. Activities are planned for all from the big and the tall to the short and the small.

Active VA members, this is part of the bennies. All others including faculty are invited for a donation of one George Washington. Little ole George will cover park entrance for the older folk and all over 12, and free liquid refreshment for all. The younger folk sneek in free. We allow that you know. Maps and posters will tell you more.

Yes Folks, Embry-Riddle might be a safe place to attend after all. The security guard is now being formed. You and YOU! valuable will be able to sleep easy. The Vets are watching you.

EMBRY RIDDLE VETERANS ASSOCIATION
Box 2411 — Daytona Beach, Florida 32115

Meeting
Next Tuesday at 7:30 PM
Shakey's Pizza Parlor
1515 N. Ridgewood Ave. H. H.
ERVA HOUSING

The Embry-Riddle Veterans Association has formed and is now sponsoring an Off-Campus-Housing Committee. The committee is now operating as a division of the Embry-Riddle Housing Department. Its purpose is to assist students in the acquisition of off-campus housing by maintaining up-to-date listing of reasonable rentals available in the community, and to screen some rentals for more details in an effort to reduce placement time of married students enrolling in Embry-Riddle and new to the area.

The Off-Campus Division is presently located in the Housing office, Rm 111 in the old academic building. Current hours of operation are from 10 AM to 1 PM, Monday through Friday, with service scheduled to increase from 8 or 9 AM to 4 or 5 PM as the September registration period approaches.

We are endeavoring to develop a presently occupied file for the purpose of increasing the turnover efficiency through rentals which become available from students graduating or otherwise leaving school. Therefore, it would be greatly appreciated if those students presently living off campus would drop by the Housing office and list their pertinent rental information with us.

Robert F. Martin
Chairman

The Embry Riddle Veterans Association will be having their first picnic Sunday, July 27, 1969, 10:00 A.M., at Ponce Deleón Springs. All card carrying members and their dates or wife and family will be admitted free to the Springs to enjoy the benefits the park has to offer. Drink all the free beer and soda you can hold.

Any student who is not a member of the Vets Association can purchase tickets for this picnic on July 24 and 25 at the Student Center for $1.00 per person (adult) and children free. This will entitle you and your family or date to the same privileges that the veterans will be enjoying.

Student Charges

The Registrar has the responsibility for accumulation of student charges on the Registration Form. The Registrar is assisted by the Dean of Students in assigning charges for dormitory, meal ticket, SGA and insurance. Questions concerning these charges should be referred to the Dean of Students' office. For all other charges, tuition, lab fees, etc., students must contact the Registrar's office.

The AVION presents this timely crossword puzzle to commemorate the landing of a man on the moon and to stimulate our readers' interest in current aerospace vocabulary. As usual it is expected that a few or none will be able to correctly complete this lunar brain teaser. If your duodenal stamina and vocabulary forte endure, we will print your name in the next issue of the AVION. All completed puzzles should be returned to AVION office by July 31st for grading and recognition. Good Luck!

Cam McQuaid

PRAYER

Ed....The following is a prayer given to me by Dr. Sain written by Mary Hamilton. It is entitled "A Prayer for the Men Who Fly". Dr. Sain felt it ought to be published. I agree!

Lord, guard and guide the men who fly Through the great spaces of the sky; Be with them traversing the air In darkening storms or sunshine fair.

Aloft in solitudes of space, Uphold them with thy saving grace. Oh God, protect the men who fly Through lonely ways beneath the sky.
PEARSON HOLDS SHAKY POINT LEAD

The scramble for points and money on NASCAR's GN circuit has been torrid all season but Pearson's victory in a 125-miler at Thompson, Conn., last Thursday and his Northern 300 win at Trenton, N.J., last Sunday have given him momentum.

Pearson who won $118,842 last season, pushed his earnings to $94,420 at Trenton and is ahead of the pace set last year by Cale Yarborough when he posted a record-breaking season of $136,786.

The current money leader with $121,610 is Lee Roy Yarbrough, who scored his fourth major victory of the season in the July Fourth Medal of Honor Firecracker 400 at Daytona.

The $37,150 'Bama 400 for Grand Touring cars kicks off the busy inaugural weekend at the huge 2.66 mile new facility here. The 40-car GT field takes the green flag at 2 PM., Saturday, Sept. 13.

Bad public officials are elected by good citizens who don't vote.
BY BRENDA BRIDGEMAN

This week, the AVION spotlight is on the new co-ed at Embry-Riddle, Miss June Murray, 18, 5'7", blue eyes and long brown hair, is from Emporium, Penn. Miss Murray graduated this past June, 5th in her class and began classes at ERAI on June 26 in the curriculum Aeronautical Science.

Miss Murray comes from an aviation-minded family. Mr. Murray flew during the war and also instructed as an airplane mechanic. June's mother met her husband while working as a metal sheet strip worker riveting and stripping airplanes. June's father and 22 year old brother fly and own their own planes. June added, "Most of my free time was spent at Keystone Airport in Penn. After supper everyday I would hurry over to the airport. There I flew with my dad and friends in a 3 Cub. Being the only girl around the airport, there were many great times spent with my dad and friends flying and just having a good time."

Some of June's hobbies include horseback riding, camping, coon hunting, and fishing. She also plays the guitar, writes music, poetry, and lots of letters home to her friends and family.

When asked what she thought of Embry-Riddle, she replied with, "It's quite an adjustment to make. Everyone here is really friendly and helpful. I'm looking forward to meeting the new and old girls in September. Right now, my flying and studies keep me fairly busy, but I'm sure when I'm settled and adjusted I'm really going to like it here."

I asked June what she planned to do after graduation from ERAI. She replied, "Embry-Riddle has everything I'm looking for. I want to graduate with all my rating and a B.P. Then I will definitely return home and hope to fly for an airline corporation some day. I would also like to be a flight instructor. Aviation has been my life and I intend to make a career in the aviation industry." June ended the interview with, "I'm still homesick. I miss my family and friends but with a little time for adjustment I'm sure I'll feel a part of the school and really like it here!"

June, the AVION would like to welcome you to Embry-Riddle. Although girls here are a minority, we are glad to have some feminity on campus and if you have any questions or problems, feel free to ask any of the students for help. Once again, June welcome to ERAI!
SGA Job Descriptions

Ed....The following are the new and revised job descriptions that will be incorporated into the new SGA Constitution in the fall. Read them and become familiar with these functional committees. This will help you understand and know how to use and get the most out of these committees. In your last year here, you will try to have the remainder of these descriptions.

DORMITORY COMMITTEE

DORMITORY COMMITTEE

Consists of duly elected SGA representatives. They shall absolve those problems brought before the SGA that concern dormitory accommodations, off-campus housing, and any other living conditions of Embry Riddle students.

Newly chosen members are:
Bob Batts - Chairman
Brenda Bridgeman
Bob Eliassof
Bob McCutcheon

CURRICULUM COMMITTEE REPRESENTATIVE

Purpose: To have representation on ERAI curriculum committee, which decides present and future changes, additions, deletions, or revisions in the curriculums at Embry-Riddle.

Qualifications: One (1) representative shall be appointed for one (1) year from September to August of an academic year. He will have full voting rights. He must be rising junior or above and if enrolled in Maintenance Technology or Professional Pilot curriculum, he will be identified as a junior according to classification in his respective curriculum.

He must be appointed by the SGA. He shall have a cumulative point average of at least 2.80. He must be enrolled at ERAI for at least two (2) trimesters before appointment.

Duties: He will attend all working meetings as directed by the Chairman of the Committee. He must get a complete student opinion as possible or until time permits, for representation in voting. He shall work as closely as possible with all Department Heads. He should handle himself with the utmost of decorum and try to be objective as possible in meetings.

SPEAKER OF THE COUNCIL

Purpose: To have a moderator and judge for council business and to make judgements concerning any disputes on rules of order, procedures, writing of resolutions, and procedures for voting.

Duties: The Speaker shall call all meetings to order, recognize members in discussion call for any and all votes, and make rulings concerning conflicting views so as to speed the meeting to an end because of our particular time element.

He should be fair and impartial as possible. He should not railroad legislation through and should allow full discussion on any issue. He should help members formulate motions made out of order or worded wrongly.

He should not give any opinions on any issue unless (1) he is the sole authority. Then he must lay the gavel aside and state his opinion. He has only one (1) chance to state his opinion fully. (2) If he gives up the gavel. He should do this very sparingly if not at all. Any other situation are hereinafter referred to in "Robert's Rules of Order".

SCOPE: The Speaker should be considered an officer of the Council. He wields much power in handling the meetings. The job should require a brief training period and the person filling the position should be of good judgement, character, integrity and even temperance. All rulings made in council meetings in session are final.

EVALUATION BOARD

Purpose: This committee will take action on resolutions with substantial evidence, from the student body and SGA members to judge the performance of any member of the SGA. It will also interpret the constitution and make judgements on the written statutes and bylaws of the SGA.

When valid resolution has been presented to the board, the resolution will be investigated immediately and presented to the Council only after completion of the investigation. This investigation should take approximately one week. The member that is being investigated will be notified that he is being evaluated by the board and also informed from whom the resolution evolved.

If said member is found not guilty of the resolution he will be so informed and the Council will be informed. There will be no further action taken.

If said member is found guilty, he will be issued warning, in writing, to dispense with or correct the offense he is guilty of. If within a period of one week no corrective action has been taken by him, this
fact will be brought to the council and a motion voted upon to either suspend or expel that person from the SGA.

If any member of the evaluation board is to be investigated, he will be asked to relinquish his position on the board for that judgement. The Chair will see that another member is nominated to fill the position for that judgement.

In the event that it is proven that any member of the board yields to bribery, coercion, or any form of persuasion which would compromise the fair judgement, on any resolution, he will automatically be expelled from the board and censored by the council.

BLOOD DRIVE COMMITTEE, CHAIRMAN

To be responsible for the coordination between the Daytona Red Cross Division and the student body for a mass blood donation at least once a trimester.

DUTIES: To publicize well enough in advance to get good coverage. To contact enough people to ensure proper actions. To write letters of excuse so committee members can participate effectively through the time of the drive.

To write articles to go into the AVION for publicity purposes. To fully encourage all faculty, administration, and student body to turn out for the blood drive.

PURPOSE: To contribute as an aggregate group to the local blood bank. In the interest of public service, to publicize the school and present ERAI in the best light with worthwhile endeavors.

The promise of some people to be on time carries a lot of wait.
