“Apollo 13: The Longest Hour”

by **Sy Liebergot**, Author-Lecturer,
NASA Flight Controller (ret.)

The epic story of Apollo 13 is well known, but hear the inside details from the NASA flight controller who was on duty when the unthinkable happened. Author of *Apollo EECOM, Journey of a Lifetime*, Sy Liebergot's space experience began in 1966 and spanned the entire Apollo Lunar Program; Skylab; the Apollo-Soyuz project; early Shuttle and even the International Space Station, but Apollo 13 would become the unwelcome highlight of his flight controller career. Don't miss this exciting talk by the man who was at the console when it all happened.

Embry-Riddle Aeronautical University
Davis Learning Center (DLC) Auditorium
Prescott, Arizona

Wednesday, 13 January 2016

7:00 – 8:00 p.m.

FREE, everyone welcome! For more information contact:
