DORM II B-B-Q SITE

THE FREE DELIVERY PROVIDES THE SOUNDS, THE SGA PROVIDES THE SMOKE AT LAST SATURDAY'S BAR-B-CUE.

The ERAU guzzlers did it again. They consumed 8 kegs of beer in an hour and a half at last Saturday's Bar-B-Q. After an emergency loan, five more kegs arrived and the contents disappeared. This was in addition to all the suds brought, because it was a BYOB function, and the coke and mixers from the coke dispenser. Someone said it was a hot, dry and thirsty afternoon. They must have been right.

The music was provided by the Free Delivery, who put on a great performance. Even President and Mrs. Hunt enjoyed the concert.

*****

EAGLES OPEN SEASON WITH LOSS

The ERAU Eagles soccer team opened their regular season, last Saturday, by losing to Rollins College 11-4.

The Eagles opened the scoring early in the game by scoring 2 goals within the first 54 seconds of the opening quarter, on individual efforts by Felix Ebuwa and Gary Haupt.

The Rollins Tars, stunned but not out, scored midway in the period on corner kick, when the ball was accidentally headed out of Eagle goalie Paul Vargo's hands. The Tars took the lead, scoring 3 more times before the period ended and were not behind again.

Two additional Riddle goals, both by Keith Leach, ended the Eagles' scoring at 4.

This was Embry-Riddle's first loss to Rollins in soccer competition, and will be the only meeting between the two teams this season.

STUDENT OF THE WEEK.....13
We at Embry-Riddle AFB are used to such quaint regulations as the No Sandal Rule and the No Cut-Off Blue Jeans Rule. I have to commend our administration on the fine job they are doing in keeping this objectionable apparel off campus. Sometimes, however, I wish our commanding officers would turn their attention toward a few minor problems that many students feel are slightly more important than covered toes on campus.

How many of you have found yourself charged for dormitory damages you didn't even know existed? You thought rug-cleaning and wall-washing were included in your dorm rental fee, didn't you? Don't bet on it! Daytona Apartments receives $260.00 a month for a four-man apartment in dorm two. This gives you the right to live there, but, children, don't bruise the merchandise or you'll pay extra.

How many of you have shown up at the flight line on a sunny weekend day and been told you couldn't fly because the duty pilot wanted to go home early? This is especially nice when you don't own a car and had to hitchhike from dorm two. The hours of operation printed clearly on the board state 0700-2000, not "we close at duty pilots discretion." It would seem that Riddle could at least keep to its own schedule. If they're not willing to, why don't they change the hours?

In the service, administrative incompetence was expected from our superiors. It was a way of life. Here at Embry-Riddle, we actually have to pay for this same brand of incompetence.

James T. Quinn

---

The SGA elections are over and the new senators will be notified by mail. They will be sworn in at the meeting next Tuesday at 12:15 in Room 108. Congratulations to them all.

Those of you who voted for a senator from your section should make yourselves aware of who represents you. They are the people who can air your complaints at the SGA meetings and get things accomplished for your benefit. If your senator is not doing his job he is only hurting you and yourself. If he is not working in the SGA we will let people know in the Avion.

They (the students in that section) should tighten up their elected senator because they are the ones who will lose.

On the student parking map, there are spaces designated for student parking. This is the only place you will not get a ticket (unless you take two or three spaces). Just because it does not say anything does not mean that you can park there. The roads around the student center and the roads into the Academic Complex are two prime examples of what I mean. These roads have to be kept clear for emergency equipment. Around the student center is especially important because of the fire station and their need to be able to go anywhere on a moment's notice.

Terry Miner
President
SGA
occupy the top spots in monetary priorities. If the school is well known, then naturally a larger, better qualified enrollment will follow.

I believe that if more Ph.D.'s are paid for and better qualified teachers are hired here, the higher qualified student body will follow them. The more students, the more income for buildings. If dorms were run in competition with local apartments in service, price and restrictions, I doubt there would be a need for students to want out—look at the ideal location.

In closing, I want to say that last week's article was not a personal attack on Dr. Sain. I am solely interested in stimulating students into using channels available to them—to stimulate change for the good of this university...I am interested in a change of priorities. Dean Mansfield's door is open (especially if he wants to see you). If you have a complaint, don't complain to me. Go directly to the dorm, in force to Department Heads and administrative Deans. It pays you to do this; after all your diploma can mean more than "the piece of paper."

Dear Current SGA:

On behalf of my fellow A & P students and myself, it gives me great satisfaction to administer the praise you so richly deserve.

We are awed at your dynamic accomplishments, and we don't know quite where to begin to thank you for looking out for our best interest.

Let's begin by thanking you for using your broad powers to influence the granting of the entire A & P Division a whopping 2 complete pages in the '70 Yearbook. That sure gives us a feeling of brotherhood, brother.

Next, you have our total support in financing the $5,000 cadmium plating of the relief tube old Gill Robb used on his first flight. This is to be donated to the new proposed combined Memorial, Flight Ops, Snack Bar and Museum. How could we ever have gotten along with it? It's such a necessity at this stage in our development. But at this point, let us apologize for the suggestion rendered by one of our A & P's to donate the entire Maintenance Technology Hangar and its entire contents as a museum annex. We agree this statement is entirely off color. Your idea of financing the $5,000,000 to update the curriculum and supply fine grit sandpaper to the current SL-17 class to remove the invasion stripes on the A-26 was warmly received. You kept your promise to help us strive for academic excellence—thanks, fellas.

Is it true that you plan to install pay toilets in the hangar, like the ones at Daytona International? Boy, that's real aviation orientation—guys are getting us ready for the big time! We recently had to dispel a slanderous rumor that since the Desert Inn folded there will never be another formal function. Tell us it isn't so.

We have real faith in you guys. Your last barbeque is a prime example of administrative foresight and executive planning. (You guys are really going to be in demand when/if you graduate) We think it was just great to WAIT IN LINE for hot dogs and hamburgers. It's in keeping with the military tradition of the school. Keep up the good work, you representatives, my wife and kid didn't mind at all.

I would like to make a suggestion, though. Since you only receive 16 thousand dollars every 4 months through our voluntary contributions, (as it stands now) why don't you double it again so at the next student barbeque we can afford a few baked beans or pickles or a case of cokes—and date I say a pony keg?

Please don't take offense, but your proposal to dump ice blocks in the pool and pass around dixie cups would severely limit the family recreation provided for the students and their families.

I hope we can afford to finance a SGA committee to look into the possibility of providing a few games for the students families as well as the children. I hope this doesn't put you under the barrel especially the barrel you take to each of your SGA meetings.

In the academic atmosphere of your meetings, A & P participation in some, if not the majority of the opinions, is considered a necessary evil. And you people wonder why apathy is our general consensus of opinion. I would rather be confronted and called a snot than be branded with your intangible stigma of (A & P): anti-academic; red-neckish technical-non-degreed-only certificated—give-us-in-academics—ac-had-name-and—if-you're-not-careful—one-might—marry-your-sister—and-after-all—THE—VA—classifies—and—pays—them—dif-

ferently—attitude.

May we now in effect present to you our highest award for the services you professional administrative have so richly rendered while soiling your hands on our so-called behalf. We bestow to each of you 41 gallon cans of "Go-Jo" hand cleaner with our printed instructions on the back, in speaking for myself and those who hold my opinion.

C.F. Harris, Jr.
Dear Editor:

I have been informed by some Air Science students that the new GAT Link Trainers, pictured on page 72 of ERs 1970-71 Bulletin, are not available for students' use, or, to be more explicit, students that have not had prior military service.

It does not seem proper or just to me that ex-military students should have the privilege of using this flight equipment.

Although I am currently enrolled in Aviation Management, I was once in Air Science. To me it does not sound logical or fair to have "special" flight students.

My final word is that I believe my money as well as my fellow student's, is as good, or worth as much as theirs - or am I wrong?

Patrick J. Phelan

NEW PROF ON CAMPUS

LYNDA DOWDELL

Coming from East Greenwich Rhode Island, Lynda A. Dowdell is the first coed to indulge in ERAU's Applied Math program.

Cycling, cooking and sewing are included in her hobbies.

Lynda is working for her B.S. Degree in the Math program hoping to pursue a job with the Government.

VETS ASSO.

BY DAVID L. CRACKMAN

Now that everyone is back into the grind of term papers and long homework assignments over the weekend, why not come to the VA meeting tonight at 7:30 at the American Legion on Palmetto and Volusia. Seems there is a "keg" left over from our last blast and it has to go. It would be a real shame if it had to go to waste.

The used bookstore took in almost $3,000 this trimester. So roughly, that means $300.00 for the Vets Association Treasury.

Some issues to be tackled tonight at the meeting will be the incorporation issue, the bar for Dorm 2, and more - the Association is on the move, don't be left behind, come out and join in the activities. Hope to see a full house Friday night.

DAVE BARBER

There is another new face in the Economics Department this tri at ERAU- Dave Barber. Mr. Barber is teaching Labor Economics here at Riddle in addition to his present personnel job at GE in Daytona.

A resident of Daytona Beach, the former "Okie" attended Phillips University at Enid, Oklahoma and finished his graduate work at the University of Illinois where he also taught. His major at school was Psychology and he has also taught an Industrial class at GE.

SEAPLANE RATING

THE BUNNELL AIRPORT IN BUNNELL, FLA. IS NOW OFFERING A SEAPLANE RATING 1970 CITABRIA on floats

For Further Information Call 904-437-3846
On Saturday Pi Chapter held an initiation banquet for Ron Johnson and Steve Isaacs at the Holiday Inn North. A party in their honor was held afterwards at the House.

Pledge initiation was held Sunday and the pledge class is totaling out to an even ten. We wish these men a lot of luck during the next weeks. You'll know these pledges by the traditional black berets they will be wearing. Their names are: Al Chelini; Chase Bradly; Hassib Aribi; Jim Correll; Richard Simpson; Gary Plasman; Jim Burchfield; David Conner; Howard Burgess and Bett Spitalny.

The first football game is this Sunday (our team will play without its first practice). Many brothers have been working on the House due to high spirits. Recently a study room with drawing boards and reading areas was set up to help the brothers who are pressed for study area.

Congratulations to the Half-Way House at 207 South Street - it was a good Frat House to us, and we hope it holds up for you.

"The Professionals"

This past weekend at the Rho House may very well have been the inadvertent cause of the sudden rise in the meeting ship of the local Alcoholics Anonymous Society. The brothers barely had time to grow accustomed to this brand new year when droves of people crashed through their open front door for the semestery rush party. Anheuser-Busch can tell you the party was a success, as their stock jumped eight points Monday morning. We would like to thank all the people who can remember being there for making the party something good to remember. This brings up another subject: Those of you who attended the party probably got the complete story on our new pledge period. For those of you still in the dark about all this, call 252-9503 and speak to anyone who answers - it's 50-50 he knows what he's talking about, but he'd never steer you wrong. The pledge period begins shortly, so make that call soon.

A special thanks goes out at this point to Ed and Jack for their musical arrangement at the party; to president Jeff for finally making it back - we understand one-legged quarterbacks are really in this season - and to Jim Frye for not disposing of me for forgetting his engagement last week. Anyone else? Jim is engaged to a home town girl and will take those vows this December.

The season hasn't started yet, so our gallant gridiron greats are still unscathed, till next week anyway. We'd like to warn archrival Sigma Chi and tell them their statistics aren't really that impressive. Our defensive line tips the scales to a 130 pound average, and they're fast too. Along with a one-legged quarterback, a blind half-back and a nine-foot tall end we should have quite a team. Somebody please help us!

To close off, we'd like to see a really spirited pledge class this semester so if you're at all interested in ERAU's number one fraternity, give us a call and let us explain Alpha Eta Rho to you. See you next week!

Fall Rush is just about over. If you are interested in pledging Delta Chi and haven't done anything about it yet, stop by the House before this Monday.

CONTINUED NEXT PAGE
DELTA CHI CONTINUED

Last weekend's Rush Party turned out extremely well considering such things as beer not showing up. A representative from the Police Department took the beer's place. After a lot of running around, we got some refreshments and the fun started. Before the night was over, about thirty-five invitations to return on Monday evening had been given out.

Saturday most of the brothers attended the SGA barbecue. Brother Art Ericson tried to lead the rest of the brothers in the fraternity cheer. Unfortunately, brother Ericson got stage fright and forgot how to spell Delta. Congratulations, Art. Better luck next year!

Sunday was spent recovering from the weekend and getting the House ready for Monday night's first meeting with the new pledges.

Monday night arrived along with the largest pledge class we've ever had. A formal pledging ceremony and an introduction to the brothers was held along with a short "talk" session to set up the ground rules.

Thursday marked the first day of football as we readied the team for a duel with the Rho Boys this weekend. It should be a good game.

That's about it from Delta Chi for this week. See you later!

Sigma Chi Delta
BY STEPHEN L. AVERY III

This week, Sigma Chi Delta is expecting a National Sigma Chi representative to visit the Fraternity and university campus. Mr. Harry Halleck Dean of Students at Michigan, will talk with several members of the faculty and students. His visit to this campus concerns Sigma Chi Delta and the Sigma Chi National Fraternity. This is one of the final steps in Sigma Chi Delta's long awaited acceptance for formal petitioning which will begin in October, if all standards and qualifications are met by Sigma Chi Delta.

Candidates for Sigma Chi Delta's Sweetheart are from several colleges and universities in Florida. So far, candidates from the Daytona Beach Junior College, University of Florida and Embry-Riddle have been nominated. The nominations are still open until next Monday when the new Sigma Chi Delta Sweetheart for 1970-71 is selected.

This weekend the social functions chairman Mike Busch is planning a special party with the theme of Ship Wrecked Unlimited.

The football intramural games start this Sunday. Sigma Chi Delta's coach R. Chris Sherr hopes to put his veteran defense and offense into action. The Blue and Gold Sigma Chi Delta's invite all students to come out and support a team of your choice.

**********

BY OLLIE GAGNE

On Sunday evening, September 27, 1970, we the GAMMA PLEDGE CLASS of Sigma Chi Delta were formally initiated as Pledges. The following people received pledge pins from their Big Brother: Jack Barsin; Clyde Ehrhardt; John Feliu; Ollie Gagne; Joe Gamarrano; Rodney George; Bill Jakes; Tom Kappel; Ken Kuhrt; Dave McBee; Mike Meck; Terry Roberts; Guy Shore; Harry Wilkes; Tim Wollem and Cliff Servos.

Monday evening we began our formal training. Mr. Steve Foster, our Magister began the hard but rewarding task of training us. At the end of class, elections were held and the following people were elected Pledge Class Officers: Harry Wilkes, President; John Feliu, Vice President; Ollie Gagne, Secretary; and Terry Roberts, Treasurer.

With the variety of experience and the amount of enthusiasm we Pledges have, Gamma Pledge Class should be the best class ever.

A statement this week from Mr. Mike Wurzbach, Athletic Director, revealed some super improvements in the Athletic Department.

First, a varsity basketball team will be formed. There will be a meeting on Friday, October 2, at 7:00 pm in Room 110 of the Academic Complex for those students who wish to participate in basketball.

Second, within the very near future, the fenced-in area behind Dorm 1 will be completely finished, and will consist of a basketball court, a volleyball court, and a tennis court. Intramural volleyball and 3-man basketball will also begin soon.

Third, on the third floor of Dorm 1, a training room will be set up for the students' use. It will house a whirlpool bath, training tables, and other items.

Intercollegiate sports for this tri will include golf, soccer, basketball, and tennis. Watch this column for announcements regarding all intramural and intercollegiate events.

Last, but not least, a tip of the Sports Editor's hat and a hearty thanks to Mr. Wurzbach, Athletic Director, and his assistants, John Ballentine and Mike Hoyle, for their fine efforts in finally organizing sports at ERAU. This is a department which has never really existed in the 3-plus years that I have been here. I am sure that many thanks from other students are extended with mine.

According to Mike Hoyle, Assistant to the Athletic Director, flag football will begin at 8:00 am on October 4th. Four games will be played each Sunday with only one game being played at a time. A meeting will be held on Sept. 30, in Room 110 of the Academic Complex at 8:30 pm for all captains. Please plan on attending.

Daytona Beach Sports Car Club

Is sponsoring a GYMKAHNA for the benefit of the American Cancer Society, on Sunday, October 4, 1970 at the Academic Complex.

Registration Fee: Donation of $2.00

EMBRY RIDDLE
DIVING EAGLES
On Monday, September 28
the Diving Eagles elected
new offices for the tri-
semester. The results are
as follows:

President: RON BYERLY
Vice President: ED THORNE
Secretary: RALPH WICKLUND
Treasurer: LARRY DEEMER

Trish Redmond was ap-
pointed to the position of
Club Historian by the new
president.

Club activities this
past weekend included an
offshore Daytona dive, a
Blue Springs dive, and
continuance of the SCUBA
course.

Under the supervision
of instructors Ralph Wick-
lund and Ron Byerly, the
students in the SCUBA
course met Saturday morn-
ing at Blue Springs for a
swimming evaluation and an
introduction to basic div-
ing equipment.

The dive schedule for
the next three weeks in-
cludes a trip to Del Ray
Beach on October 3, headed
by Divemaster Ron Byerly
and assistant Dennis Gerle
an Itchetucknee River
Float on October 10, head-
ed by Divemaster Ralph
Wicklund and assistant Ron
Byerly; and a trip to Bin-
ini on October 17-18,
headed by divemaster Ralph
Wicklund.

SCUBA instruction and
club membership are open
to anyone who wishes to
dive. You need not be
connected to Embry Riddle
to participate.

Meetings are held every
Monday night at 8:00 PM in
room 108 for all interest-
ed persons.

1. Any two points on the
surface of the earth may
be joined by either a
Great Circle or a Rhumb
Line. Which of the two is
the most direct?
2. A pilot of an aircraft
bound on the front
course of an ILS notes
that the vertical needle
of the Cross Pointer
indicator is right of center.
The horizontal needle is
below center. The posi-
tion of the aircraft with
respect to being "on-
course" is:
3. A pilot wants to land
at an airport within an
airport traffic area.
There are two airports
within this area, one of
which has an operating
control tower. Must the
pilot contact the field
with an operating control
tower to land at the
airport without the tower?
4. In a single engine
airplane of high horse-
power there may be a
tendency to a
left steep turn due to
torque effects and rig-
ning.
5. In the operation of
distance measuring equip-
ment the aircraft
unit is.

5 right - flight instruct.
September 29, 1970

The eighteenth regular meeting of the SGA Senate was held today in Room 109, with 10 members attending. The meeting was called to order at 12:15 by Speaker of the Senate Terry Owens. The minutes of the previous meeting were accepted as written unanimously.

President's Report. President Miner read through a proposed alma mater for ERAU (to be sung to the tune of Stephen Foster's "Aura Lee"). A letter has been written to Virginia Polytechnic Institute requesting information on their honor system.

First Vice President. Stephen Avery pointed out the need for a permanent crest for ERAU and suggested that the student body be invited to submit designs.

Other Business. Dean Spears conveyed his compliments to the SGA on last Saturday's barbecue.

It was felt that the SGA should not become involved in the "Dollars for Scholars" campaign, since ERAU scholars have enough difficulty raising their own dollars.

Ring sales are still at a standstill—students will be notified when they resume.

We offer the best, not the cheapest, seaplane rating courses.

We use a modern, high performance airplane on floats, for student training. A 1970 Citation 7-G200, for this course, nothing but the best equipment available plus experienced and competent instructor. H.C. "Speedy" Bernard, FAA Examiner and Rana Bernard, CFI-A.

**Why pay more... for what?**

1. BASIC ORAL 1.5 HRS.
2. BASIC WATER TAXI
3. CROSS WIND TAXIING
4. TAXIING ON THE STEP/PLANNING PRACTICE
5. AIRWORK: MEDIUM & STEEP TURNS, STALLS AND SLIPS TO LANDING
6. NORMAL WATER TAKE-OFFS & LANDING: POWER ON AND POWER OFF
7. X-WIND TAKE-OFFS & LANDING: (LATEST TECHNIQUES)
8. EMERGENCY PROCEDURES
9. ADVANCED ORAL 1 HR. OR MORE—NO EXTRA COST
10. POUGH WATER TAKE-OFFS AND LANDINGS (FULL FLAPS OUT AND 1.5 OF VSO FULL FLAP APPROACH)
11. GLASSY WATER TAKE-OFFS & LANDING: INCLUDING STEP TURNS TO TAKE-OFF AND ONE FLOAT TAKE-OFFS
12. GLASSY WATER LANDINGS
13. DOCKING, SAILING AND BEACHING
14. WEIGHT AND BALANCE
15. AIRCRAFT PERFORMANCE DATA SHEET
16. EQUIPMENT LIST
17. INSTRUCTIONS FOR COPING WITH BAD WEATHER IN A SEAPLANE
18. SEAPLANE PILOTS RESPONSIBILITY WHILE OPERATING ON THE WATER
19. X-WIND PLANNING FOR SEAPLANE PILOTS
20. OPERATING IN RIVERS, WHERE THERE ARE CURRENTS: SMALL BODIES OF WATER AND WHERE THERE ARE NO BASES AVAILABLE
21. CARE AND MAINTENANCE OF THE SEAPLANE AND THE FLOATS
22. CERTIFICATE OF COMPLETION AWARDED, SUITABLE FOR FRAMING
23. LIST OF OPERATORS & FIRMS USING SEAPLANE PILOTS & INSTRUCTORS
24. LETTER OF RECOMMENDATION TO ANY OF THE ABOVE

**Stated Aid Fund Grant Applications Are Still Available—Somebody's Going To Be Awarded Money, And It Could Very Well Be You!**

September 29, 1970

The eighteenth regular meeting of the SGA Senate was held today in Room 109, with 10 members attending. The meeting was called to order at 12:15 by Speaker of the Senate Terry Owens. The minutes of the previous meeting were accepted as written unanimously.

President's Report. President Miner read through a proposed alma mater for ERAU (to be sung to the tune of Stephen Foster's "Aura Lee"). A letter has been written to Virginia Polytechnic Institute requesting information on their honor system.

First Vice President. Stephen Avery pointed out the need for a permanent crest for ERAU and suggested that the student body be invited to submit designs.

Other Business. Dean Spears conveyed his compliments to the SGA on last Saturday's barbecue.

It was felt that the SGA should not become involved in the "Dollars for Scholars" campaign, since ERAU scholars have enough difficulty raising their own dollars.

Ring sales are still at a standstill—students will be notified when they resume.
SAFETY TIPS FROM SID

There are two basic types of birds who frequent the portion of earth commonly called "the wide blue yonder."

The first type is natural, with wings and feathers. The second type, however, must augment his natural ability (nil) with some form of mechanical device. Since the natural aren't required to be certified (and their ability is never in doubt) we will concern ourselves with the other types -THE AVIATOR.

Although aviators look more or less alike, they do come in various sizes and shades of age and experience. There are certain subtle differences not noticeable if you are not looking for them.

When suggestions of proficiency check flights are made, they spread their plumage in righteous indignation. When refresher training is recommended, they screech and flap their wings. When asked to take the PROFESSIONAL APPROACH to flying, a few squeal and eventually "lay an egg" - often times a costly one.

Periodically, we are all required to report to an FAA Medical Examiner for the physical exam that stamps us A-OK. We don't have a physiological condition that could endanger our own life and the lives of others while piloting an aircraft. The law, however, does not require most pilots to take refresher flights to confirm their skill as pilots.

Few will disagree that it is just as important to maintain pilot proficiency as it is to maintain good physical condition. FAA's require airline and charter pilots to take periodic flight checks in addition to conforming to recent flight experience criteria. This is to protect the fare-paying public from incompetent operation. But what about the GA pilot? The answer to that is simple - he must be his own protector. So let's examine the benefits to be accrued by adopting a personal flight check system.

The "low time" pilot who flies only on weekends or a few hours per month has the most to gain from refresher flights. Emphasis should be on INCRESS-CONTINUED NEXT PAGE.

ING proficiency by practice and instruction. If he hasn’t flown as a pilot for several months, the best insurance is some solid dual with an instructor pilot.

If he or one of his buddies is the “I fly so much that I keep sharp” type, stop him right there. If the airline and other fly-for-pay pilots are required to take check and refresher flights, how sharp must a fly-for-fun be before being considered exempt? Certainly the true professionals do not feel that check flights cast a diverse reflection on their skills. Instead the pros take those checks to confirm the currency of previously acquired proficiency and to make sure that they haven’t picked up any dangerous habits—bad habits that they may not be aware of.

So, the next time there is reason to doubt your proficiency—whether it be due to a long delay in flight, not staying current with the many changes or just because you want to sharpen your skills, charge off $5 to proficiency and safety...for your own and your passenger’s safety.

**FLIGHT COUNCIL MEETING**

On September 24, the first Flight Council meeting of the tri was held in the famed Holiday Inn. After lunch, the first subject brought up was the new Flight Schedule Board now on the flight line.

This Board will hold info on solo flight, the instructor if a dual, the FC number and the observer’s name if any.

From this board, the flight brass can see what is going on and catch any problems. It will provide for “a minimum waste of time and effort.” For example, if a student gets a solo rained out, he can schedule for a make-up without waiting around for an aircraft. Maintenance will also be scheduled. The schedule will be made day by day by the dispatcher. Says Mr. Tacker,...if we don’t get maximum utilization (out of the aircrafts), then we will have to raise the tuition.

Mr. Tacker pointed out that the slow start on the flight line is due to the 136 FC 101 Students. All the instructors are trying to get these students soloed, then things should settle down. At that time we got a rare pleasure: President Hunt made the scene. General Spruance will be in the area October 23—perhaps we’ll be lucky enough to hear his fabulous flight safety lecture (?)

I put the question about the land to President Hunt; and he said not to worry—by next week should be all settled. After President Hunt left, Mr. Tacker told us of the Mooney Bonus (if you are scheduled for a dual and all the 172’s are in use, and still be charged 172 rates).

Also, advanced instrument courses will have fewer hours in the air and more time in a Gat-l, thus costing less.

The last part of the meeting had to do with minor items: any instrument student who is taking link for the first five weeks do not have to check-in at the flight line, just the link room.

Also, Mr. Walker is looking into our CURRENT weather board. And another thing: the flight books must be kept at the flight line in the boxes in Room 2. Speaking of flight books, those of you who have had the FC201 in the old book should keep the old book for FC 202. The new books have the X-C split into the two courses 201 and 202.

Those of you who are old BSAS students will like the following: The multi-engine course has been changed from a required to an elective because of cost increase. However, this does not pertain to those who have just enrolled. The cost went from $870 to $1,095.

A note from Mr. Barnes: “caution: IBM cards must be filled out legibly, including pressing hard enough for all copies to be readable. This includes both ‘student’s and instructor’s signature.”

Last but not least, those of you who did not receive a student operations manual should pick one up in operations.

Student of the Week

AL HAYDEN

Allen Hayden, this week’s student of the week (?) hails from Peewee Valley Ky, is a redneck in every sense of the word. Al, a busy A&P student who hopes to enroll in Engineering upon graduation, took time out from his hectic schedule to grant the following interview.

AVION: What do you plan to do upon completion of Engineering?

ALH: I’m going to take over dad’s farm. I’m only in school to avoid the draft.

AVION: If you could be anyone else in the world, who would you be?

ALH: Barge Donohue, Duck Editor of the Muncie Hog-sheet.

AVION: What is your favorite color?

ALH: Green.

AVION: What is your favorite song?

ALH: The ripped my heart out and stomped that sucker flat by Ned Nasel and the Nose-Pickers.

AVION: What is your favorite food?

ALH: Soup.

AVION: A real soup-or hero, Al? ALH: That wasn’t the least bit funny? Why don’t you shut up? Better yet, why don’t you leave?

AVION: Okay.

NEWS FORECAST

BY GARY ANDERSON

Here’s a capsule forecast of the headline-making events of the 1970-71 school year:

DECEMBER 3, 1970

RIDDLE TO GET MISSILE

President Hunt today announced that ERAU has purchased a surplus Nike Missile to be used as a sign outside the new administration building. The missile will point northeast toward Clyde Morris Boulevard and will have the ERAU symbol painted on it.

DECEMBER 4, 1970:

HALIFAX HOSPITAL DISAPPEARS

Shortly after six AM this morning a large mushroom cloud appeared over Clyde Morris Boulevard and the Halifax Hospital ceased to exist. Although many ERAU students will be sad to hear of its demise, they will be glad to hear that the administration has purchased the crater to be used as the Dorm One swimming pool as soon as the rainy season starts.

SEPTEMBER 26, 1970

WATER POLO TEAM TO HAVE BAR-B-QUE

Coach H.V. Minefield announced today that the members of the water polo team will be his guests at a combination picnic and swim party in his backyard.

SEPTEMBER 27, 1970

WATER POLO TEAM DROWNS

Thirty seven water polo players were found floating in Coach Minefield’s swimming pool yesterday. Cause of death was listed as cramps by the county medical examiner. Coach Minefield could not be reached for comment at his home where he is adding more chlorine to the pool.

END OF AN ERA
BY DON NICHOLS

Some of the students and administrators who have been here for a while are witnessing the end of an era - the tearing down of the barracks at the corner of Guadalcanal and Catalina. At the time ER moved to Daytona Beach, the barracks were used to house approximately 200 students. ER used one half of the barracks, and various pro baseball teams such as the Cleveland Indians, Pittsburgh Pirates, and the Kansas City A's, used the other half for spring training camps, and of course, Al Summers Umpire School was housed there.

The barracks was originally built in 1942 and was used as the Navy's BOO. When ER moved here in April of 1965, housing, a mailroom and the cafeteria were put into use. Frank Miklavic and Jerry Lauderbaugh were in charge at that time, later followed by Dean Mansfield and Stacy Parcells. The cafeteria was serviced by Tioga Cater - a subsidary of S & S Catering. (Not much improvement in the quality of food since then). Finally, in October of 1966, Riddle moved out, much to the happiness of all the students who lived there.

With the end of this era of roaches, rats and poor food, the students complain about Dorms I & II. Those of you complaining, stop for a minute and look over what's left of the Old Dorm. It didn't look much better then than it does now! No one is ever really happy until they see what has been in the past. With this, we bid a fond farewell to the Old Dorm with no remorse, and a token of thank God for this break.

ERVAWA
BY PEGGY KIDDER, SECRETARY

The Veterans' Wives Auxiliary was pleased to greet 2 new members at our meeting September 22.

The discussion was mainly the up coming tea on September 27. Last minute instructions were given and everything was in order.

We are now beginning plans for our Annual Christmas party for the Volusia County Headstart Children. And in conjunction with this, we discussed money raising projects to buy toys. We are now saving aluminum soft drink & beer cans. If any kind would be so kind as to save cans for us, we will be happy to pick the cans up. Just call Peggy Kidder 255-3523. We will be saving until Christmas.

We would also like to invite any veterans' wife interested in meeting other veterans' wives and having fun to our next meeting, October 13, 7:30 PM at Daytona Beach Federal Bank Building, Beach & 3rd Street adjacent to Sears. For information call Linda Moore, 253-0732.
