Radio Control Fly-in

Riddle Cinema

This Weekend

Sunday, Sept. 17 The Prescott Flyers will be putting on a demonstration at the Field House of R/C model flying. The demonstration will include precision aerobatics, stunt flying, smoke laying, balloon busting, bomb drops, dog-fights and radio controlled sailplanes.

The festivities begin at 12:00 p.m. so don't be late because you'll miss a great show!

Riddle Cinema has a great movie line-up this fall including many about flying. The list is too long to be published here but we will try to let you know what's playing two weeks in advance.

This weekend's movie is 12 O'Clock High, a classic film about the 8th Air Force starring Gregory Peck. It starts at 8:00 p.m. Sunday.

Next weekend Riddle Cinema will be showing Young Frankenstein with Marty Feldman.

## Editorial

For those of you who don't know me (most of you I believe) I am from the Daytona Beach Campus where I was the editor of the Avion, that campus's student newspaper. It is my belief that a communications medium such as a newspaper is very necessary to keep the students on top of what's happening in their school. Though it will be a long time before we are a fully fledged newspaper like the Avion we can do the best with what we have.

I cannot do it without your help though because I have my schoolwork to attend to like you. I would sincerely appreciate any help, however little, that you can give me. You won't just be helping me but also yourselves by helping this paper get off the ground.

The Pioneer is only a temporary name. Any suggestions for a better name would be appreciated.

If you have a suggestion for a name or would like to work on the newspaper staff, come and see me in dorm 161-5 or leave a note with Gary Upton in the Student Activities Office.

*Jonathan Bailey*
