HAPPY EASTER TO THE STUDENT BODY AND FACULTY FROM THE STAFF OF THE INFORMER

V.A. OFFICE

Students receiving V.A. benefits have a new procedure to follow. Next week during pre registration students will have to present their names at the V.A. desk in the pre-registration line. The V.A. office will prepare the forms during spring break. As soon as the people pickup their school attendance slips on May 3, the forms will be sent to the Veterans Administration.

Questions and Answers on Draft Proposals By United Press International

Here are some typical questions and answers about the Johnson draft proposal:

Question: How is the Status of a draft age youth changed?

Answer: No change yet. The changes are for some future date to be decided by the president who has allowed two years to work out a lottery plan.

Question: If and when the changes are brought about, how would they affect 18 year olds?

Answer: At 18, a youth will undergo physical and mental tests and if he passes will be classified 1-A and put into an available pool for drafting sometime after his 19th birthday.

Question: How would the lottery system work?

Answer: Each year about 2 million 19-year-olds become available. The number to be selected-by chance- for service depends on how big a military force the United States needs. Generally, somewhere between 100,000 and 300,000 will be drafted, about one in ten.

Question: Suppose a 19-year old is passed over in the first go round?

Answer: His chance of being called after that goes down very sharply with only a major crisis prompting another draft. After being passed over he would go into the 20-year old pool, then the 21-year old pool and so on down the line.

Question: How about deferments for fatherhood?

Answer: Would make little difference unless extreme hardship can be shown, not just the normal amount any wife and children would suffer with the breadwinner in the service.

Question: How about occupational and student deferments?

Answer: The only occupational deferments that would apply would be if extreme hardship could be shown. As for students, undergraduates who are called get deferred at least until the end of the academic year and may even be able to finish their education, but graduate school deferments are out except for medical and dental students.

Question: What about after college?

Answer: After graduation, students -- and anyone else who has been deferred up to the age of 26-- are placed in the 19 year old pool. Those who receive medical or dental school deferments would be eligible for the draft until age 35.

QUESTIONS AND COMMENTS

Question: Should Student Government regulate student dress?

Answer: This is a problem of the Individual. I believe any restrictions will only stir opposed feelings. If the hobos are told they look like a bunch of hobos often enough the point will get across.

Answer: A talk with a long time student pointed out the fact that the appearance of students of E.R.A.I. have improved their appearance over the past although they still have a long way to go.

Comment: Student Government should announce time and place of meetings.

Answer: Room 2C2 Thursdays at 11:30

FROM A STUDENT

HYM. TO THE WELFARE STATE

The government is my shepherd.  
Therefore, I need not work.  
It alloweth me to lie down on a good job.  
It leadeth me beside still factories.  
It destroyeth my initiative.  
It leadeth me in the path of a parasite (sic) for politics sake.  
Yea, though I walk through the valley of laziness and deficit spending.  
I will fear no evil, for the government is with me.  
It prepareth an economic utopia for me, by appropriating the earnings of my own grandchildren.  
It filleth my head with false security;  
My inefficiency runneth over.  
Surely the government should care for me all the days of my life!  
And I shall dwell in a fool's paradise forever.

DORM NEWS

Dorm I Guests are invited from 9:00 A.M. to 9:00 P.M. in the COURTYARD, seven days a week.  
Young ladies are allowed in the individual living areas of the Nova complex on a two weekend trial basis from 1:00 to 6:00 P.M. Saturday and Sunday.

Remember the rules ; sign all guests in and out!!  
Washing machines have been installed in the north end of Blg. E.  
Should the need for additional machines arise they will be installed.  
Rooms must be neat and clean on Saturday and Sunday.

Mt.  
Vernon If All goes well the pool will be ready for use this Saturday.  
Guests will be welcomed until 9:00 P.M. around the pool.  
No beer allowed around the pool at any time.

ADS FOR THE INFORMER ( CORRECTION)

All ads for the informer should be left at the S.G.A. office not in Dean Mansfield's office. The S.G.A. office is in room 106A in the Engineering Building.

BOOKSTORE: SPECIAL OF THE WEEK

Mapcases-- ideal for carrying all types of papers for class , when not being used for flight maps. Color available is black. \$2.50

T- shirts, plain and dress, the dress T- shirt can be worn to class , so if you are looking for something cool to wear to class, check into the dress T- shirts. \$1.00 ; \$1.50; \$1.79 \$1.99

STATE LAW

For students and the faculty's information in the state of Florida there is a state law stating that anyone who lives in Florida and draws wages must have and are required to have a Florida tag( license plate). This law pertains to students as well as the faculty. If you are one of the unfortunate to have an auto accident, you'll find out what happens. To be on the safe side get yourself a Florida drivers license also.

From one who has found out the hard way.

FACULTY SPOTLIGHT

To all you curious Riddle men who have wondered where this paper came from you need only to look in room 210 in the engineering building at 9:10 A.M. on Tuesdays and Thursdays. The inspiration for this weekly journal came from the mind of a young literature and public speaking teacher named Lynn Sawyer.

The men who have her for Public Speaking know that she's all work but I have found her to be a very pleasant and highly intelligent lady in talking to her. She was born in Dover, Delaware. At the age of 15 she was accepted by Stetson University before she had even started her Junior year in high school. She eventually received her B.A. and M.A. at Stetson. It was no easy road for this young lady to travel for she worked her way through every bit of her college life.

I asked her why she decided to come to Embry Riddle to teach. She told me that after teaching high school students for a while she felt that she was ready for more formidable subjects which college introduced. She particularly enjoys teaching boys because she says that college men have a more serious goal in sight than girls do. A man is expected to get a job and support a family on the basis of what he has learned here. He, therefore is more serious and mature.

Mrs. Sawyer is now married to a Stetson University mathematics professor. She came to Florida in 1960. She is writing a poetry text book which she hopes to publish some day. An interesting note is that her mother has done everything from stock racing, and airplane flying to motorcycle racing. She shoots skeet with a 90 out of 100 average and is presently bone fishing on Tavernier. None of this " pep and zing", as Mrs Sawyer tells me, has she inherited. As you can well understand she is one of the bright lights of our faculty and Embry Riddle is proud to have her.
