E-RAU gets the low-down, on ho-downs!!

If you can’t “get down” — just stop to snap your fingers!!

I’ve got everything & everybody I need!

We couldn’t get enough pictures of Jack and Vaughn! They could get enough beer!!

OUTDOOR BLUEGRASS CONCERT

Country-time at E-RAU hit with a giant twang! The sounds of Sunshine Bluegrass Boys, The Bluegrass Pardners and Red & Murphy & Company made this afternoon session a time of basic knee-slapping, hand clapping and foot stomping. Beer flowed, the sun blazed and Daytona Beach Community College, Embry-Riddle and WELE Radio gave the students and community a great day of country!

Cruisin’ on green grass — listenin’ to Blue Grass — Mellow Day!!
OCTOBERFEST — BRINGS OUT THE GERMAN "SPIRITS" IN US.

Your SGA provided a unique and lively evening drunk October 20 with an evening concert featuring the "Hungry Six" a real German Oom, Pah, Pah, Band. To say the least — everyone was busy singing and drinking — to say the most — most of those attending were totally mellowed out by evening's end.

Being German — at Octoberfest — can be a wild and crazy experience!

You would not have BELIEVED how much beer was consumed!

The band provided fine sounds — though some "children" found shooting airplanes at the performers a "fun time" — No Oomp Pah Pah for you!!

I'm cuttin' down on beer! I'm pregnant — you know what? more, say no more, say no more!!
Kelly Monteith — so much humor — hurts your stomach — you laugh long and hard!

Flying enthusiasts learned much from Richard Collins, Flying Mag. Ed.

Rocking, hard sounds & rough times made up the formula for Rotagilla.

FALL BRINGS A DIVERSITY OF ENTERTAINMENT TO EMBRY-RIDDLE STUDENTS

A diversity of entertainers and personalities provided good, informative and fun evenings here. Kelly Monteith, nationally known comedian gave a fantastic, one-man-act — providing two hours of belly-laughter as he gave his show. For you flyers — Richard Collins, Editor of FLYING Magazine was extremely interesting and well-received. Rotagilla gave their ever-popular wild hard-rock get-down show and the audience was wild and wonderful in their response. Also presenting his unique abilities as a trick pool player was Paul Guerny, who added to the fun during the Fall Trimester of student activities.

Eye on the cue ball — plenty of english in Paul Guerny’s game.
He was riding tall in the saddle till his blister broke... old joke — sorry — but it fits, now, doesn’t it?!

IF YOU EVER THOUGHT THIS PLACE WAS STRANGE — THIS HALLOWEEN’S FESTIVITIES REAFFIRMED YOUR SUSPICIONS. THINGS THAT GO BUMP IN THE NIGHT!!

This mild-mannered monster took one too many progs — now he gets a mad desire to stick his head under water — instead of in the air — Notice that he IS WAITING for the nurse!

This noteless trio will be featured on the first edition of the new Gong Show! Hey, Chuckie, Chuckie, Chuckie

Hey, you on the left — your tongue just isn’t long enough... a sure give-a-way that you’re just a KISS away from looking like the real thing!!

There were pink panthers, two coneheads, an ape and a number of togas, as spirits kept high and the music of “Devastation” played on for the Halloween Party this year. In the group category, 1st prize with $30 award went to “KISS” — featuring John Smaltino and friends. Second place in the Group Division went to Family Vermicelli which included Kevin Quinn, Mark Ridolfi, and Paul Strevey. The group won $15. First place in the Male Division won $25 and dressed as “Calculator” — the ‘figurative’ character was really Hank McConnal. Second prize in the Male Costume Division went to Kelly Lyons who dressed as Fokker Biplane — and he won $15. The Ladies Single Award was given to Ms. Dollar who came as a Balloonist. She won $25. And The Student Publications’ secretary, Jeanie Snyder won second prize in the Female singles division and won $15 for her ‘Newsman’ costume.
THE MAN, THE REASON FOR E-RAU'S TRIBUTE ... GEN. DANIEL "CHAPPIE" JAMES.

TRIBUTE GIVEN TO GREAT MAN

B-CC Honorary Chancellor — Dr. Richard V. Moore leads prayer.
Through a truly inspiring memorial service, organized by The Brothers of the Wind, General Daniel “Chappie” James, Jr., the first black four star general in U.S. history, was honored this February 24, 1979 at Embry-Riddle Aeronautical University.

Special guests included Mrs. James, the wife of the late General James; Dr. James O. Plinton, Jr. V.P., Market Development, Eastern Air Lines; Mr. Charles Cherry, President, Florida NAACP; and Mr. Lawrence J. Kelly, Mayor, Daytona Beach.

For all who attended, the service was an inspiration only akin to the man who was inspiration — General “Chappie” James, Jr.
And now children — we're going to show you how to make a . . . Slow Gin Fizz!!

Santie Claus can't please all the kiddies — all the time.

Christmas time is a time for festive songs — We will now sing “99-Bottles of Beer on the Wall!”

Somewhere in this picture Jack Hunt is hiding — find him — then, let us know what you were on! O.K.?

CHRISTMAS PARTY — ’78

Actually, this Christmas provided E-RAU students with the 2nd Annual Christmas Party. Bethune-Cookman College's Choir and Daytona Beach Community College's choral group provided the main musical moments. Special note, however, should be made to the infamous Dorm group who sang their little sore lungs out in original renditions of favorite holiday tunes. Santi Claus needed more fat, but he was jolly and everyone present felt the spirit of the holidays, no matter what the religious persuasion. HAPPY HOLIDAYS!!
THE ANNUAL ERAU DORM PIG ROAST

This event features a sacrificed sow (or two), people "pigging out" and WERU wailing. Great Day for everyone except Porkie!

This little porker never got away! He is indeed — "out-to-lunch!"

Pigging out at the Pig Roast

...and All the King's men couldn't put piggie together again!

This is a real class-act picture. Two old pieces of pork — and surprise — A RUMP ROAST!!!

This pig got the point for the benefit of all!
Sunshine day brings lay back looks — happy glows as we listen to the mellow.

Ladies, Ladies everywhere — some tall — few square, today!

This act is so funky that we can’t stand ourselves. Whoooo! Get down, low!

Larry, Moe and Joe’s female counterparts, Becky Boo, Sally Poo and Susie Loo. Don’t be shy now, this is your big break!!

SPRING

Oh! You can call me Johnson or you can call me Keith, or you can call me K or you can call me W or you can call me KW or you can call me KWJ or you can call me KW Johnson, but don’t call me a red head — because my hair is ORANGE.
Country-rock hits the big time — with picker plucking pea-pickin’ players. Oh my God, I think I broke my mouth.

Keith always wanted the staff to lend him a hand with the Avion — it took FOOD to bring this “hand” out good going Joe!

By the time the comedian hit the stage, some of us had mellowed ourselves one foot underground — maintaining permanent eye-glaze and lack of coherent speech.

You couldn’t help feeling the warmth and beat of the day and the music. Only problem is it’s raining and the concert ended three hours earlier — these people are STONED!!

SPRING FLING 1979

Spyro Gyro, voted “most promising group”; Bobby Kelton — comedian, and Delbert McClinton “King of Texas Rock” brought such excellent music and fun to this year’s continually beer-laden concert that everyone was getting off on the day and I’m sure — were getting off that night. You know what I mean, say no more, say no more. Wink, Wink, nudge, nudge! What a uniquely great day at E-RAU.

SOCCER — YOU TOO CAN WORK YOURSELF INTO A TOTAL BALL OF SWEAT FOR THREE LOUSY POINTS . . . GREAT GOING TEAM!!

The pace continues, as two players both seize the opportunity to kick the ball — next film frame shows two players — no ball — lack of consciousness.

Lack of balance, it would seem is this player's basic problem — but it sure shows stamina as he wipes his face in the dust just to get to the ball!!

This is the ol' one two step in Soccer. One — leap up in mid-air and whack the dung out of your brain — and while in mid-air — Two — experience the new pain of cleated Soccer shoes whamming into your hind side. All for the love of Soccer.
EMBRY-RIDDLE’S VARSITY SOCCER TEAM
1978-79 SEASON

This international team has brought the qualities of all of their country’s soccer style to the Embry-Riddle field of battle. Their efforts were rewarded with a fairly good season and good representation for this University to the community of University Varsity Soccer play.

The fellow on the left is a member of the National Aeronautics and Space Administration and is demonstrating his hidden space-age flight belt. The only problem for him is that the last time this team member was seen he was somewhere over Alburquerque. As for the rest of the Eagles — even their internationally flavored maneuvers are being thwarted by a sexy-legged Goalie — who will be featured in the next issue of Playgirl.

When it’s time to relax — bring out the beer and STOP THE PLAY!
GOLFING SEASON 1978-79.
AT EMBRY-RIDDLE

Well, I bought all the right clothes — but can I hit the ball? I'm sure going to try!

The man on the left is exhibiting the trick over the right shoulder shot, the guy in the middle has no class, and the one on the right doesn't know which end is up.

Though we kid about the various varsity sports at this campus — this year's Golfing Team did considerably better for the university in all their contests and should be commended on their outstanding sports achievements.

Good Going, Golfers!

These golfers exhibit the sure sign of golfing success, bent shoulders, bent head, bent feet and bent out of shape if they don't hit the ball — after all that bending.
GREAT IMPROVEMENT IS SEEN IN THIS YEAR’S GOLF TEAM

Embry-Riddle’s Golf Team showed great improvement in their putting, iron and woods game as they faced each new collegiate competitor. For a school that sees fit to provide very little enthusiastic side-line support, our varsity Golf Team has represented this University well, and for the first time in the team’s history, was able to get a 302 team score, the lowest in the history of E-RAU’s team in one of their many season’s games. We of the Phoenix staff salute your spirit. May you always make the green and may you never find the sand!

This is the E-RAU Golf Team. Take a look, most of you didn’t even know we had one!

Singletary takes his time and checks the lie of the green before trying not to miss the hole.
What we have here is your rather fun and kinky Wesson Oil Party.

These guys had so much fun playing the Twister Parlor game that they decided to hook themselves up in that immovable position permanently — notice how excited everyone is. Everyone loves Twister!!
The next picture on the film roll saw this athlete eating dirt.

FOOTBALL WILL ALWAYS BRING OUT THE BEST IN FRIENDS AND THE WORST IN COMPETITORS . . .

THIS YEAR WAS A TOUGH ONE, Congratulations, Brothers of the Wind for winning this year's Intramural Football (Flag-football) and becoming the 1978-79 Champs.

This irresistible force will soon be hitting this immovable object and the result will be a new form of non-objective art — with the consistency of mush, Great Sport, FOOTBALL. The brothers of Brothers of the Wind will soon be Brothers in the dirt!

It's mine, no it's mine . . . CRASH — give it to anyone else — I'm going back for a beer!
What we have here are six grown men playing stick-ball. But in their eyes — this is a powerful game of strength, precision, luck — and team work!

This is the Egyptian God — Bendtoo-much — who is said to have died from a pulled ligament.

The story has it that when Rip Van Winkle woke up he realized that he had to play in the E-RAU Varsity Baseball game. Little did he know that while he had been sleeping, so had the team — so the game was called on account of sluggish hitting. Sorry — So don't get Ripped because of this news — do you hear, Winkle!
This man can disco, jump over rocks and may possibly catch this ball in his glove — all at the same time.

BASEBALL SEASON — At EMBRY-RIDDLE

This is the brother to the Egyptian god on the left — this is BITEMYLIPOFF, and he is waiting for someone to bend him back in shape.

You can see that the fans at these games just go wild as this young man puts his entire system — every sinew into his play — I hope to God he hit the ball!

We entered Embry-Riddle with determination to accomplish and endure the right for recognition, we searched endless days for notification, we wanted unity in the form of an organization.

We’re a group of men and women with one common aim in sight, we’re the “brothers of the wind”, our aims and purpose as you see is to encourage others to join the aerospace society.

We aim to help those in need and better ourselves by doing the deed, each member we hope will be a better person by being a part of this organization.

Our wings are spread we take to flight, like an eagle who soars through the heavy winds of the night, to encourage others to continue to strive in bettering themselves and obtaining self pride.

Annie — you've come a long way — doing so much for so little but where'd you go? Did we scare you off?

This lady is smiling because the Phoenix can't find her — she is out to lunch for the weekend!

OK — You staffers — now that I'm in control — let's get this book finished. . . Hey, where'd everybody go?

There are many people in this school who are still looking for this guy!
This man is the terror of the 25 mph zone! And is a pretty nice guy — even though he’s from Connecticut — but we won’t hold that against you Mike!

THE PHOENIX YEARBOOK ’79

This has been quite a year — with people coming and going and coming and going and phew! it got pretty hairy some times when deadlines hit and we weren’t quite — that’s a nice way to put it — we weren’t quite ready for the deadlines. Chuck started with some good ideas — but then again so did the others who wanted to help and there were lots of words but few actions. But the staff grew — at one point there were some 21 volunteers who showed up for the Phoenix meetings. Mike Simmons — even with all the hassles from the hecklers came through and helped put much of the beginning work into finished form. For such a new person he really hustled for us. Chuck kept taking photos, and so did Mike and Scott and Brian and gosh knows how many other Canon toting “experts” who came and went and flashed the staff their “professional” photo notebooks. We do, sincerely, thank all for helping — no matter how short-lived your stay. Back at the old Phoenix office, Mike needed help and found it time and time again from Mike Toth — who, following a middle of the trimester election — became the new Editor of the Phoenix for the Spring Trimester. With the aid of the staff who stayed here — many times — most of the night, a good looking Phoenix Yearbook has been designed and sent in on time. Thanks must also be given to Marvin Meyer, Taylor Publishing Company’s representative for ALL his help and to Eric Gruber and Jean Snyder for their support. But most of all the Phoenix Yearbook would not have been finished if it were not for the enthusiastic staff who continually supported and worked for FREE.
The Administration told these reporters that the Jack Hunt World story was too hot to handle and to sit on it for a while. To do as we are told — this group is doing *JUST THAT!!*

Why are most of these people smiling — because they just got goosed! And why are the guys on the end so somber — they were standing in the Jungle Cruise line at the time of the goose!

Jeff works at typing by the hunt and peck method — he hunts for the typewriter and uses his nose to peck out his story!
It took 20 years — 4 in the service, marriage, thousands of dollars in debt and close to graduating — he learned to cut and paste.

Much can be said about each and every member of this infamous lot of perverse individuals — their ways are the ways of all budding journalists — trying to see how wild and crazy they can stay every hour of every day and still get out an "award-winning" newspaper to this university's student body every flipping week.

At the helm this fall and spring was Keith Kollarik, Jeff Barrow, Ed Milner, Marty Monteiro, KW Johnson, Joe McEvoy, Chuck Henry, Rick Arndt, Jimmy Blinker, Dennis Mitchell, Joe Armetta, Dan Mihuc, Joe Rossi, Wes Oleszewski, Shawn Meagher, John Bean, Joe Rossi, Mike Sturges, and others.

To say the least their secretary — (recently deflated to a more fashionable clothes size) — Jeanie Snyder — was never bored and always busy telling KW to stop bugging her, and for West to go away and for Keith to come in and for the staff to think pay increase. Marleau Adams also played a unique part in the Avion — he is our advisor — and we thank him for all his advice.

We at the Avion Staff want to thank all of the student body and the administration's support in 1) reading the paper and reacting to it and 2) for not trying to interfere in the freedom of the press.

FLASH: More on Jack Hunt World this summer — for all you folks who love to spend money — have we got a park for you!!!

And we still want a recall — the Avion has reason to believe that Klyde Morris should have won this year's SGA elections. He was the popular candidate (the only other candidate to get his act together). Sorry about that, Dave!

Now, this looks like a pretty innocent guy — ready to help write great articles for the AVION. He's really a crazed soul brother — the only E-RAU student to attend E-RAU Sex Seminar.

SCUBA CLUB
SIGMA PHI DELTA

The Fall of 1978 saw the Sigma Pi chapter of Sigma Phi Delta graduate three engineers into the surrounding community. We continue to expand every trimester; in the fall seven new brothers were initiated and in the spring a six man pledge class ensured. The spirit of Sigma Phi Delta continues. We maintain our standards here at school, and our graduating brothers carry the brotherhood they have enjoyed with them wherever they go. Memories live on! We wish the best of luck to our graduates as they expand their horizons, seeking the future which waits for them.

THE CODE OF ETHICS

The Code of Ethics of Sigma Phi Delta is founded upon the basic principles of truth and honesty. The quotation "Whatsoever things are true, whatsoever things are honest," should be the light guiding the footsteps of an Engineer towards service and success.

An Engineer should at all times be mentally, physically, and morally clean, and should conduct himself as a gentleman. He should be courageous in following his own convictions, mentally awake to make use of every opportunity, and consider the welfare of others before his own.

To his superiors, an Engineer should be dutiful; to his workers, helpful to his subordinates, generous, to all men, brotherly.

An Engineer should take a good guy on the joys of life. He should fight against nothing so hard as his own weaknesses, and should endeavor to gain in strength.

He should live that his actions shall never besmirch his own honor, and thus maintain the honor of the Engineering Profession.

IN MEMORIAM

Born of the sun they travelled a short while towards the sun
And left the vivid air signed with their honor
Stephen Spender

Randall Roe
William McGrade
Blake Frankenberg
Kevin Navieks
Tragedy, Monday evening, November 20th. A rainy, windy evening. It is 7:30 pm, and the tower loses contact with an Embry-Riddle Cessna 172 on a routine training flight. On board are two students, Blake Frankenberg and William McGrade. Accompanying them is instructor Paul Erling.

At 8:37 p.m. an Apache disappears off the radar screen a few miles northeast of Ormond Beach. An Embry-Riddle flight instructor, Randy Roe, and a former Embry-Riddle student, Kevin Navickas, are on board.

With the rising of the morning sun comes the news. This is the news of classmates, of friends, of fellow aviators. Officials confirm the worst. Both aircraft have crashed, and rescue workers report there are no survivors.

We remember the shock and the lingering grief brought by this day of tragedy. In the memory of our lost comrades, we re-dedicate ourselves to man’s continuing conquest of the sky. And, we carry on.
1928 LEARNED TO FLY

Year later, his life changed dramatically. Trying to rescue a girl who was walking into a spinning propeller, he was hit himself, sustaining brain damage that affected his speech, reading, and writing skills — but not his ability to fly.

Six distance and endurance records logged more than 50,000 hours in light planes.

Ferried 150 Light Planes across Atlantic.

Ferried 30 Light Planes over the Pacific.

Soloed Single-Engine Plane from Casablanca to Los Angeles staying aloft 58 hours and 38 minutes.

HEY! WHAT DID WE DO ALL YEAR?
TO THE GRADUATING STUDENTS:

The Phoenix '79 yearbook would like to congratulate each individual for his or her own personal achievements in the aviation field. The road to graduation has been long and hard. The Phoenix commends you for your efforts and extends to you best wishes for a happy and prosperous future.

ALLEN, FRED B. — B.S. — Aeronautical Science Member — Sigma Chi Fraternity, Licenses: Private, Commercial Instrument, Multi-Engine, CFI.

BELOTTI, RICHARD — B.S. — Aviation Management Public Relations Chairman — E-RAU Management Club, Dean's List Member — Omicron Delta Kappa Honor Society.

BODZEK, RICHARD S. — B.S. — Aviation Maintenance Management. Magna Cum Laude (hopefully), Dean’s List, Airframe & Powerplant License, Commercial Pilot’s License, Instrument, Senior Class Fund Raising.

BREW, DARYL J. — B.S. — Aeronautical Science. Multi-Engine rating, CFII, ASEL, President and Vice-President of The Brothers of the Wind, Varsity Baseball — 2 years.

CARYL, RAY G. — B.S. — Aeronautical Studies. Member — Quad A.

DRACOPOULOS, THEODORE NICOLAS — B.S. — Aeronautical Engineering. Dean’s List (Fall 1977 and Spring 1978), Honor Student in all the other trimesters except Fall 1978. Undergraduate Physics Lab Assistant, Varsity Soccer player (1977 and 1978).

DOTSON, WILLIAM A. — B.S. — Professional Aeronautics. Member — Quad A.

DUEMLING, GARY M. — B.S. — Aeronautical Science. Dean's List: Fall '76, Spring '77, Spring '78, Honor Roll — Fall '77, Commercial Pilot/Instrument, ASEL, ASES, AMEL, CFI-A&I, BGI, AGI, IGI.

FURMAN, RICHARD A. — B.S. — Aeronautical Science. CFII, IGI, Multi-Engine, 3 years in University Weather Room as Lab Assistant.

ZORC, WILLIAM J. — B.S. — Aeronautical Studies.
CFIAI, and AGI, Member — Experimental Aircraft Association, and International Aerobatic Club Member.

GALLOWAY, ANDREW K. — B.S. — Aeronautical Science.
Area of Concentration — Aviation Management, Certified Flight Instructor.
I would like to thank the few that helped put the Phoenix '79 Yearbook together. These few are the ones who stayed aboard through the hard times, frustrations, missed deadlines, and blind guidance. Without Mike Simmons, Keith Gordon, Anna Marie Fadden, Chuck Henry, Glen Bergman, Mike Sturges and Scott Bowman, the Phoenix '79 would never have made it. A very special thanks to Jean Snyder, Avion-Phoenix Secretary for her help and guidance through those very hard times. Thanks to the SGA, Julie Rankin and Dave Wiepert for getting the Phoenix '79 back on its feet when we needed it. Finally a special thanks to Eric Gruber for his time and efforts in the production of the Phoenix '79 Yearbook.

MICHAEL S. TOOTH

Phoenix Editor: Michael Toth
Assistant Editor: Michael Simmons
Underclassmen Editor: Anna Marie Fadden
Senior Class Editor: Mike Simmons
Faculty Editor: Keith Gordon
