This Presentation is brought to you for free and open access by the Conferences at Scholarly Commons. It has been accepted for inclusion in ERAU SMART@ER Educators Conference by an authorized administrator of Scholarly Commons. For more information, please contact commons@erau.edu.

ENGAGING STUDENTS WITH AVIATION GOVERNANCE ISSUES: THE AIRSPACE AND CHICKEN FARM EXAMPLE

2023 SMART@ER Conference Presentation Description

This presentation explores how teachers can effectively use foundational law and policy concepts, and research, to examine and analyze future challenges in the aviation industry with students. Through an entertaining story about the history of airspace ownership controversies, the presentation highlights how to engage students and teach foundational governance concepts through the lens of current aerospace issues. The presentation provides an example of a unique way to engage students in discussions about the various governance challenges created by the advent of novel aviation technologies.
