“Submarines for Aviators”

by Randy Hoffman,

Commander USN, Retired & PASM Docent

What does a docent at the Pima Air & Space Museum know about submarines? A lot! Find out in this light-hearted yet informative look how they developed, how they ‘fly’ through the water and what they can do. Learn their history from WW II to the birth of nuclear propulsion and the modern missile and attack submarines. Remember, aviators may look down on them but the subs are also looking up!
