HUNT SELECTED FOR
AVIATION BRIEFING

President Jack R. Hunt has been selected as one of 150 educators to participate in a nationwide "Aviation Briefing for Community Colleges", planned in Kansas City, Missouri, April 1-3.

The purpose of the conference is to explore and answer for top-level junior college administrators some of the critical problems and questions that must be considered in the development and expansion of aviation-related curriculums.

Featured speaker at the conference will be Najeeb H. Halaby, Senior Vice President of Pan American World Airways, and former Chief Administrator of the Federal Aviation Administration. Other discussants and speakers include representatives from National Aviation Trade Association of Junior Colleges, Federal Aviation Administration, Aerospace Industries Association of America, Ziff Davis Publishing Company, and California Congressman Donald H. Clausen.

A unique feature of the three-day meeting will be tours of the Technical Services Headquarters, Flight Training Center, and Hostess Training Center of Trans World Airlines, and the P.A.A. Traffic Control Center.

E.R.A.I. COMPUTER CENTER

DESCRIPTION

The Embry-Riddle Aeronautical Institute Computer Center is being established to serve the Institute in the following areas:

1. Student Instruction
2. Research
3. Administration

An IBM model 1130 Computing System has been ordered for installation in July, 1968. (A similar system at Florida's Institute of Technology is being used temporarily.) This is a small digital computer with extensive use. It consists of a central processing unit, disk-pack storage of a half-million words, and internal storage of 8,000 words. It has a printer capable of printing 80 lines per minute and a card read-punch that reads cards at 300 cars/minute and punches at approximately 60 cards per minute.

The purpose of the sorter is to re-arrange the cards using information from some source document. The card punch operator reads the source document and depresses keys on the keyboard (much like a typewriter or calculator) which causes the card to be punched with the information.

After the cards are key-punched, they are arranged in a desired order by use of the sorter. The cards are passed through the sorter once for each column (twice if being arranged alphabetically rather than numerically) being sorted.

Cards that have been sorted are ready for processing on the computer, or they may be compared with other cards or merged into another file of cards by use of the collator. The collator reads one or two decks (depending on the need) of cards and matches, merges, selects, or sequence-checks the cards (as determined by a wired control panel). The resultant selected or merged or matched cards may be processed on the computer, the sorter, or the collator (in a different manner).

Other equipment-reproducing punch, interpreter, and tabulator at DBJC is also used to process cards or prepare reports.
SPEAKING OUT

the president's corner

Dear Student,

March 25, 26, and 27 are perhaps the most important days in the history of Embry-Riddle Aeronautical Institute. These dates mark the period that the Southern Association of Colleges and Schools will have an evaluation committee on our campus. The principal role of the evaluation committee is to judge how well the Institution meets the requirements for accreditation.

The visiting committee members are evaluators and not inspectors. As evaluators they will study the quality of the institution in the light of its stated purpose and objectives. Through information obtained from interviews and from documents, the committee will consider the strengths, weaknesses, and approaches to the solution of problems.

Accreditation cannot be granted by the evaluation committee; rather, the committee's report and recommendations are used in the review by the Commission on Colleges and the Commission, in turn, may recommend to the College Delegate Assembly that accreditation be granted.

Even though final approval of the committees report will be given in December, 1968, by the College Delegate Assembly, all students who have graduated during 1968 will have been graduated from an accredited institution.

Those students who graduate from this university receive several offers for employment before they graduate. Most big name colleges can not duplicate this achievement in the aviation industry. All of this plus the rigorous college programs that are offered by Embry-Riddle lead me to believe that Riddle will receive accreditation.

Sincerely yours,

Donald F. Kaltenbach

FROM THE SUGGESTION BOXES

Dear Editor and Staff,

Curiosity is said to have killed the cat. Why is it the INFORMER'S policy to require a name on the article?

Does a name contribute to the message of that article?

John Doe

Dear John Doe,

A name may not contribute to the message of the article but it may matter if the INFORMER decides to give the writer a personal answer.

It is also wise to know where the articles we print come from. If we cannot account for our stories we are really putting ourselves in the same situation you would be in if you wrote a research paper and gave no bibliography. See the similarity?

(This letter to President Hunt verifies that L.B. Maytag will be guest speaker at the Embry-Riddle Commencement Ceremonies of April 19.)

Dear Jack,

Thank you very much for sending me the pictures. I'm very happy to have them for my scrapbook.

It would be a great honor for me to address your graduating class on April 19. I'll look forward to receiving the details from you as to how long you want me to talk, etc. In the meantime, I'll get to work on my speech.

I hope the old B-26 is holding up well in its retirement.

Very truly yours,

Bud

MANAGEMENT NEWS

By Tom Davis

The placement office has released the names of the 12 students who will participate in the co-op program with Aero-Commander. The 2 students are: Management - Van Cleveland, Richard Cook, Shanon Dunlap, James Kerr, Paul Moorman, and Robert Weber. Engineering - Charles Broom, Robert Finley, Gil Gauthier, Bruce Muller, Raymond Roetman, and Walter Thompson.

The first participants will report to the Aero-Commander facilities at Albany, Georgia in May.

The Dean of the management division has announced a new course offering. The new course is Traffic Management and has been designated MS 330. The Dean also disclosed that about 125 students are currently enrolled in the management program. The Dean of Admissions anticipates about 85 new students enrolled in the management program by September of this year, a 59 percent increase over the present total.
Before preparing your summer and fall course selections, it may be well to reflect on an article which appeared in the January issue of "Airline Management and Marketing." The article consisted of an interview with United Airlines President, George E. Keck on the subject of management in 1980. Mr. Keck stated that the future airline manager will have to be more knowledgeable in the areas of computer sciences, sociology, political science, international economics, and marketing.

The Dean of the Management division has expressed appreciation for the support he has given in his crusade for a proper name plaque for his office door.

TOWAY CAMPAIGN

The students who received parking tickets at the dorms this week for not having a current parking sticker, will be subjected to paying a $5.00 fine or having their vehicles towed away or both.

All cars and motorcycles must have the 1968 parking stickers by Monday, March 18, 1968. This is the deadline!!! Students may stop by the S.G.A. office between the hours of 1:00 p.m. to 4:00 p.m. to get these very important stickers. It is to your benefit and safety to have your vehicle properly marked.

Chuck Leister, Traffic Judge

THE 1967 PHOENIX

THE 1967 PHOENIX HAS EVERYTHING EXCEPT A CENTER-FOLD.

ONLY A LIMITED NUMBER OF YEARBOOKS LEFT...

THEY ARE AVAILABLE NOW IN THE STUDENT BOOKSTORE FOR ONLY $3.00.

COFFEE HOUSE EVERY FRIDAY

Yes, here it is - your own Coffee House! Every Friday from 8 to 12 p.m., it will be open to students of ERA!, DBJC, and Bethune-Cookman. Free admission and minimal charge on coffee, hot chocolate, tea, donuts, and cookies. Informal dress and entertainment.

If you want to entertain, bring your guitar. Drop in and enjoy yourself.

Place: The First Congregational Church on Dunn and Seneca. "See maps on posters around campus.

VARIETY SHOW

DON'T forget the Variety Show. We need your support. Come and see us, the S.G.A., and volunteer your services. The more acts and support we get the better this show will be. Also, we have a prize for the best act.

Let's get together and show what kind of team spirit we at Embry-Riddle have. We beat you-know-who in the blood drive so let's get going and show one and all what we can do.

Paul Richard

BUY INTO A JOINT BUSINESS

A corporation is now being formed by a group of ERAI students for the purpose of leasing and operating a restaurant in Daytona Beach. This will be a closed corporation limited to ten qualified students. The restaurant has already been located and inspected and will be shown to qualified interested persons. Previous restaurant experience is not necessary because we will have a training program. Approximately 10 to 15 hours per week is all that is necessary. The required investment necessary is $500.00. This investment is nominal and the return of investment can be expected during the first six months of operation. After that initial period much better returns are anticipated. All ten members involved will participate in the management and overall operation of the business. Outside help will also be hired as needed.

This will be a rewarding experience financially. Everyone in the corporation will have equal status and receive equal pay for hours worked in the establishment. Bookkeeping, typing, dishwashing, grill work, and cash handling are but a few of the many jobs involved.

David Raben, a student, has many years of ownership and operation of restaurants. He is one of the three that have already committed himself to the corporation. He will advise and help set up and train people for the initial phase of the operation. He will also put up the $500.00 for his share and participate with the others.

There are still seven openings available. For further information please contact David Raben by calling 255-3284 or by leaving him a note in Box 1083. This is a genuine opportunity for a good income while going to ERAI. Your investment should be highly saleable when you graduate or otherwise leave the area. The restaurant is equipped and the lease has been negotiated. We can be in business in ten days. Call Dave at 255-3284.

Easter Seals 1968

Help Fight Crippling.
GUTTER TALK
By Gene Mustin

For the fourth week in a row Larry Garot has hit over the 500 mark. He has had a series of 534, 538, 589, and 596. Since the start of the season he has improved his average from 126 to a present 159. He currently holds high game and high series; 242 and 596 respectively.

The week of March 3rd saw relatively little change in the standings. The high game went to Joe Boligitz, who rolled a 222; the high series was earned by Garot, who fired a 534.

The standings are as follows:

1. #4 21-11 13740
2. #7 21-11 13134
3. #3 20-12 13440
4. #1 19-13 13561
5. #2 18-14 13325
6. #5 17-15 13167
7. #6 14½-17½ 13313
8. #8 19-21 11315
9. #9 9½-22½ 12688
10. #10 9-23 12525

Sports

Practice games such as this can give valuable practice in correcting these mistakes. The Eagles, who play in the Volusia County Baseball League, will begin regular play in May.

In order that the team may play in an inter-collegiate conference, there must be a considerable growth in interest, support, and action by school officials. Except for the initial organizing and buying of the necessary equipment, the school has displayed little interest in the team. In fact, an attempt was made to remove baseball from the list of active athletics, but a student petition prevented this.

The conference is being coordinated by Metropolitan Junior College of Kansas City and co-sponsored by the Link Foundation.

GOLF MATCH

On March 28 the Eagles Golf team has a match with DBJC at the Tomoka Parks Country Club.

EAGLES LOSE AGAIN

By Bernie Roke

Good pitching backed up by poor fielding led to a 3-0 defeat of the ERAI baseball team by the Al Somers Umpire baseball team. All three runs were scored in the first inning on errors and the Riddle pitchers gave up only three hits, but the batters were not able to get one hit.

LASAGNA - $1.25

 Derby Plaza O 255-4678
February 22, a few of the Brothers and Pledges commenced waiting at 1:00 a.m. at Montgomery Wards for their annual George Washington Birthday Sale. When the doors finally opened, a mad rush for the various articles on sale started. The result was that Brother Clift got a tape-deck for his car for $6.00. The Pledges tried for a T.V. set, a chair and a sewing machine??? It seems that a ten year old boy was a little quicker than the Pledges, and ended up with the T.V. set. He must have run under their legs. Again we say, they're only pledges but we do have to give them credit for trying.

Saturday, March 10, a closed party was held at the House and, for a change, we finally had enough girls around. However, we did run out of liquid refreshments.

The Pledge period is rapidly drawing to a close with the Pledges anxiously awaiting "Hell Week". Too bad, Pledges, we're not telling when it is, but you'll find out soon enough.

This week we find Fred Robinson in the spotlight. Fred is the chapter Pledgemaster. He has completed the A&P section of Embry-Riddle and is a licensed mechanic. Fred is a commercially rated pilot, with an instrument and multi-engine rating. He is now completing the Instructors course at the school. Good luck to Fred Robinson in the future.

Now it's time for the PLEDGE OF THE WEEK AWARD. This week's winner is Larry Gronski. Upon returning from a week's vacation at home, he immediately proceeded to break in a brother's room and wreak havoc. When dragged out of bed to make the necessary repairs, he cried, "I have been unjustly accused!!!" Yeah... and so was Benedict Arnold.
IT ALL BEGAN AT E.R.A.I. ON MARCH 1ST WITH A SMALL PAINLESS PRICK OF THE FINGER BY ONE OF THE RED CROSS NURSES.
