Undergraduate Enrollment: 4,525
Graduate Enrollment: 278
www.db.erau.edu
We once traveled a familiar path -- a stable, comfortable path, chosen by many. On this path, we felt our first love, or at least what we thought was love, and we felt a broken heart. We found adventure, in even the most subtle places, and we found boredom. We met our friends for life, and we met those whose names we soon forgot. We experienced pure pleasure, and we experienced unbearable pain.

Each of these experiences became a part of us, molding us into the people we are today. But these experiences were left behind, becoming mere memories that we still held onto, just not as tightly as we once did. Instead, we began to grasp new feelings, new friends and new challenges.

We stood on that path, anxious and ready to experience the turn of the century. The election of George W. Bush as President of the United States concluded the year of 2000, and the first year of the millennium brought with it several changes. Our school continued to grow as well. New degree programs were added to the curriculum to accommodate the demands in the aviation field, such as Communication, Human Factors and Computer Science. And finally, the headline of a recent article featured in the Avion that read, "Up from the ashes," described the position of this Phoenix yearbook, as the staff of 16 students began from scratch and worked throughout the year to present this book of memories.

We stood at the edge of the path that would begin the rest of our lives. We stared forward and raised our heads upward, knowing where we were going and how we would get there. As we embarked upon our journey through The azure sky, we took our first steps down an unfamiliar path -- an unstable, uncomfortable path, chosen by few.

by: ASHLEE FISER
The sun sets on the Wright Flyer as the millennium draws to a close. Over the past century, we have witnessed the most rapid technological and sociological advancements in all of human history. The dawn of the new millennium brought with it opportunities our parents never had.

Photo by: Dave Wong
Members of Alpha Phi Rho fraternity, including Andy Baezillo and Jake Donatto, test their strength in a game of tug of war during Greek Week. Events during the Week, such as tug of war and chariot races, allowed fraternities and sororities to display their unity and team spirit.

Photo by Kyle Martin
In our journey to the sky, we came across many detours -- detours that kept our hearts racing, our minds searching and our bodies aching. While we twisted and turned along these unpaved paths, we discovered that it was important to balance work and play, and often overemphasized the latter.

We broke the regimen of rigid class schedules when the nights and weekends finally approached, signaling the end of another exhausting week. We took advantage of the night life offered in Daytona Beach, from the pounding techno at 600 North, to the calming crash of ocean waves along the shoreline. And just when the thrill of life outside the confining classroom walls seemed to begin to fade, the annual Daytona 500 race week brought millions of spectators to the Daytona International Speedway, just minutes from our campus. Bike Week soon followed, canvassing the city in silver chrome and black leather, just before Spring Breakers invaded the white sandy beaches under the scorching sun to enjoy a week of thrills and parties.

Whether we staggered until 2 a.m. on the dance floor during The Groove’s “Disco Nites,” or sipped on a frothy cappuccino while sharing secrets with our best friend, we found our escape routes from class demands and pressures. As we ventured outside the boundaries of academics, we discovered that our college experience involved more than textbooks and classroom lectures. Traveling down these unpaved pathways and choosing unfamiliar detours taught us the lessons that shaped our lives and ourselves...

by ASHLEE FISER
... Riddle night life becomes day life as well ... summer jobs where you don't have to show up, but you still get paid ... rippling muscles ... amusement parks ... visiting old friends from high school ... long road trips just because you can ... bikinis ... more classes to make up lost credits ... earning money just to pay for the costs of next semester's books ... AOL Instant Messenger - it's cheaper than long distance phone calls ... surf contests ... swimming pools ... feeling the sun penetrating your skin ... traveling across the country for an internship ... Riddle becomes a cheerleading camp ... feeling free and reckless ... it's the only time of the year when the amount of money in your bank account actually rises ... back to being under your parents' watchful eyes ... finally learning what your parents meant when they said "I can't wait 'til you have your own kids" when you became a camp counselor ... having nothing you have to get done and not knowing what to do with yourself ... working 18 hours a day ... looking forward to coming back and reuniting with friends ... sleeping in until noon and not feeling guilty about it ... working that internship that looks so good on your resume ... finally getting to work on your tan ... the only time we have a chance to experience that thing called relaxation ...

What was the highlight of your summer vacation?

Professional Development Training at Vandenberg AFB
Touring the Apollo Sites at KSC
Visiting my dad in New York
Working at U.S. Space Camp
Flying IFR to New York
Parties at my house
... Flipping a coin to decide who gets the good side of the room ... deciding where the posters should hang -- a very important decision ... "Bunk beds or no bunk beds? That is the question" ... beginning a new life with someone that you have only known for five minutes ... deciding what to bring with you according to what actually fits in your car ... perfecting the technique of stuffing boxes ... realizing that the rooms don't come already stocked with toilet paper ... invading K-Mart next door for all those things you soon realize you need ... opening the door and seeing a room the size of your bathroom at home ... learning dozens of neighbors' names in less than ten minutes -- and forgetting them even faster ... Sam's Club carts never looked so great to you before ... the last time that you will ever see your floor again ... "How is all of this going to fit in here?" ... trying to fit down the hall with three boxes to get to your room while everyone else is trying to do the same thing at the exact same time ... mooching as much as you can from your parents before they leave you ... collaborating materials with your roommate to conserve space ... realizing you're more creative than you thought as you find new ways to store things ... creating a new home away from home ...
Below: On Day One of her college life, freshman Kelly Bowman stocks her new home in McKay Hall with the necessities of every college woman.

Left: Although the size of residence hall rooms were nothing to write home about, most students brought enough stuff to fill them past their intended capacity.

"ONLY THOSE WHO RISK GOING TOO FAR CAN POSSIBLY FIND OUT HOW FAR ONE CAN GO."
- T.S. ELIOT

"And now I'm glad I didn't know ~ The way it all would end the way it all would go ~ Our lives are better left to chance I could have missed the pain ~ But I'd of had to miss the dance."

~ Garth Brooks
"The Dance"

It was the last lap at the Daytona 500. It was the last turn at the Daytona 500. It was the last race for Dale Earnhardt at the Daytona 500.

Appropriately titled "The Intimidator" by other racers, Earnhardt was known for his aggressive style whenever he climbed behind the wheel. His successful racing career reflected that aggressiveness, as he captured seven Winston Cup championships, 76 point wins; and in 1998, he finally conquered the Daytona 500 — the Holy Grail of stock car racing and the prize that had eluded him for 20 years.

Dale did what he loved and with that, he attracted people from all over to join in the racing world. After racer Kenny Irwin passed away, Dale Earnhardt said, "If this ever happens to me, I want people out dancing and celebrating in the streets. Celebrate my life. I lived a wonderful life . . . ."

It was the last turn at the Daytona 500. It was the last time car #3 would spin its wheels on the track at the Daytona 500. It was not the last day however, that Dale Earnhardt Sr. would touch our lives. On this day, February 18, 2001, a hero was born at the Daytona 500.
Finding the drive to win

... The blur of the checkered flag slicing through the air... watching F-16 Falcons paint a spiritual picture against the baby blue sky... tasting the spray of the champagne as it escapes from the bottle in Michael Waltrip's hands... falling asleep to the constant sound of revving engines after the sun goes down... skipping class to watch the Citation X ascend into the metal frames as they collide to form a 16-car pileup... picking up a Dodge Viper from Dodge City... working copters pulling advertising banners that resemble sleeping to when the races end... spending an hour at the mall... feeling the vibrations shoot through No Vacancy signs at hotels and hour-long waits camp sites set up around the track... watching eruptions with fire... Dodge returns with advertising—cheering stands with the sound of your own breath... a main attraction... 24-hour races keep you in the city, its reputation... finding the drive to win... white puffiness on the horizon... hearing the crush of the... spending the afternoon cruising down ISB "test drive at the races to raise funds for your club... helicopter... planning your daily commute according to the safety of the driver who's taking dominance... drowning out the noise of the ing and pounding heart... "You can dream, create, design and build the most wonderful place in the world... but it requires people to make the dream a reality."

- Walt Disney

"It was good to see all the fraternities and sororities come out and compete against each other and promote greek life."

~Sean Cantwell
Sigma Chi

Forging bonds of brotherhood and sisterhood that would last a lifetime...
Homecoming 2000, festively titled "Riddle Reggae," packed an extended weekend with an entertaining lineup that left students, faculty and alumni with a lingering feeling of school pride.

Kicking off the celebration was Talent Night, hosted by comedian Chris Johnson Thursday evening in the UC. Adam Green, who sang a medley of Dave Mathew's songs, took home the $100 cash prize for winning in the Individual category.

The Velvet Lounge, made up of four students imitating the New York Lounge scene, tied for second place in the Groups category. Performing in this group was Tony DeTora, the poet, Sammy Beagley, the guitarist, Kaure Erickson, the brass instrumentalist, and Martano ROSales, the bassist. Tying for runner-up in the Groups category, Martin Getz and Marie Joseph performed a singing duet of "Phantom of the Opera."

Winning for the best Band category was Airborn, who played "Low," a cover by Cracker. Members of the band include Justin Simms, Andy Ilg, Lloyd Richardson, Julian Suszynski and Mike Difalco.

Also performing was returning participant Matt Gordon, who entertained the audience when he juggled luminous balls in the dark fruit, a student band including members Brent A. Terwilliger, Erik Copeland, David R. Thomas and temporarily added Jason Brown, covered "All Along the Watchtower," and pianist. (continued on next page)
Steve Thomas played a medley of original pieces.

Friday afternoon, club members and Homecoming court nominees proudly displayed their floats and themselves to the crowd and to the judges.
The parade included hired stilts-walkers, the pep band, lots of candy and lots and lots of energy. "The best part [of Homecoming] was riding in the convertible and throwing candy," said Diana Rivera, court nominee.

Members of FCA (Fellowship of Christian Athletes) created a replica of Gilligan's Island for their float, while members of the Gamer's Guild built a pirate's ship out of plywood. Also among the wide array of floats was a pick-up truck made into a biplane, constructed by the Flight Team.
The crowd followed the parade to free food and music at the Fieldhouse, where the annual tailgate party and pep rally was held.
The Eagles Basketball team took on the Brevard Tornadoes before a capacity crowd in the Fieldhouse at 7 p.m. With the support from Ernie the Eagle, the cheerleaders, the pep band and the Greeks, who showed up with painted faces, the Eagles defeated their rivals 88-77.

Half-time included the crowning of Homecoming Queen, Diana Rivera, and King, Ken Bomongeag, G-Force, the campus dance squad, also performed at this time, adding to the energetic atmosphere.

Concluding the entertainment line-up was a live concert by BigSky and headliners The Mighty Mighty Bosstones Saturday night in the Fieldhouse.

By Ashlee Fiser
from performing at night.

...Double D... Matt's glowing balls... colorful leis - a need to have one of those around... 'the wheel of death'... in grass skirts - now there's a bold fashion statement... they're pretty good! Should I get their autograph before I... that's Trebor Yocum laughing in the front! - we don't even to look; we just know... "Of course we all remember the p... the booties - they were the best!"... Phantom of the Opera... to town... guitar reunion night... "Woman, Wooo-man, W... free stuff, free stuff... 'The Piano Man' wows the crow.

"The talent show was really cool to watch.

I never knew Riddle had so much talent."
2000 homecoming 2000 homecoming 2000 homecoming

Checkwise from top, in step, the pep band struts their stuff for the enthusiastic crowd. — Rebecca Billmeier sings to the students for her final ERAU performance. — Riding in decorated convertibles was the highlight of the parade for many. — The Caribbean Students Association (CSA) added some brightness to the parade. — Jason Pryon rocks the UC during his drum debut. — The Velvet Lounge brings a new twist of entertainment to the students with their blues-style jazz and poetry.
Clockwise from top: Documentary team members and students - Marie Joseph and Martin Getz perform a piece from "Phantom of the Opera." - Alumna join in the tailgating activities preceding the basketball game. - Matt Gordon mazes students with his juggling abilities. - A hired stilts-walker demands the attention of the crowd. - Using jets of paint and rope, students construct their float for the parade planned for that afternoon.
The parade brought out the best school spirit in the students again this year. Riddle Reggae created lots of excitement!
Homecoming 2000, festively titled “Riddle Reggae,” packed an extended weekend with an entertainment line-up that left students, faculty and alumni with a lingering feeling of school pride.

Kicking off the celebration was Talent Night, hosted by comedian Chris Johnson Thursday evening in the UC. Adam Green, who sang a medley of Dave Mathew’s songs, took home the $100 cash prize for winning in the Individual category.

The Velvet Lounge, made up of four students imitating the New York lounge scene, tied for second place in the Groups category. Performing in this group was Tony DeToma, the poet, Sammy Beagley, the guitarist, Kaare Erickson, the brass instrumentalist, and Mariano Rosales, the bassist. Tying for runner-up in the Groups category, Martin Geiz and Marie Joseph performed a singing duet of “Phantom of the Opera.”

Winning for the best Band category was Airborn, who played “Low,” a cover by Cracker. Members of the band include Justin Simms, Andy Ig, Lloyd Richardson, Julian Suszanski and Mike DiFalco.

Also performing was returning participant Matt Geordon, who entertained the audience when he juggled luminous balls in the dark. Utpna, a student band including members Brent A. Tervilliger, Erik Copeland, David R. Thomas and temporarily added Jason Pyron, covered “All Along the Watchtower,” and piano (continued on next page).
The parade brought out the best school spirit in the students again this year. Riddle Reggae created lots of excitement!
Left: Head Basketball Coach Steve Riddle gives his players some final words of motivation and encouragement before the game gets underway.

Below: Harold Pierson focuses on his lay-up despite major defensive obstacles.

Above: The G-Force Dance Squad puts on an energetic half-time show for the spectators.

Far left: Paul Yale puts up a jump shot over his Brevard opponent.

Left: Heath Fabacher shows the opponents exactly how to make a dunk.
and the winners are...
From Alpha To Omega

Greek Week... the sweet smell of victory
... deafening cheers from the sidelines.
pyramids... battle-painted
the finish line downfield after
the true meaning of brother
... learning to go out on a
that you obtained during a
join... sweat-covered bod-
Rush Week... from

... the groans from the sore losers... chariot races... laughter
... grass-stained clothes... mud-covered faces... human
faces lined up ready for combat... struggling to see
just spinning face-to-face 30 times... finding out
and sisterhood... dirty games of twister (literally)
limb and trust others... tending to your rope burns
brutal game of tug-of-war... inspiring crowds to
ices... “Rush Delta Chi”... Nights at the pub
Alpha to Omega...

Captain Georges Anyansah, member of African Students Association, uses the Blessing dance to show spirit and pride for his school and his heritage. Approximately 14 percent of the school’s population were international students, raising it to the top five among other private Florida universities for attracting international students.

Photo by T.L. Grimes
e suddenly realized we were not alone on our journey, as we met others heading in the same direction along the way. Faces represented a myriad of cultures, heritages and even social norms from over a hundred different countries and all 50 states. While the largest group of us, 20 percent, traveled across the state of Florida, 14 percent left our family and friends in countries like Korea, India and England to pursue our ambitions. Over 30 percent of us came from the fast-paced city life of the northeast, bringing with us our defining lifestyles and accents.

As we strolled across campus, we overheard random conversations spoken in different languages, colored by various accents from around the globe. Through our daily encounters with one another, we overcame potential language barriers and became more culturally aware, perhaps learning more from our classmates than from our classes themselves.

Along with the unusually high amount of out-of-state and international students, the extreme lack of female students also added to our campus' uniqueness. With female students equalling only 15 percent of the total population, we landed in second place for Playboy's Top Ten List of the "Worst Institutions to get laid," which was heralded as front-page news in a fall issue of the Avion newspaper. Furthermore, with over 900 hired staff members, we were given a significant amount of individual attention in each of our classes. We felt as though we were more than a colleague number and a mere name on a class roster. As our professors acknowledged and greeted us by name as we passed them outside of class, we knew we had a recognizable face, even among over 4,500 peers.

In the end, it was our subtle differences and unique backgrounds that blended together to create a culturally aware and well-rounded student body. As we looked beyond our differences that once separated us, we realized that it was those unique characteristics and contrasting personalities that united us. We adjusted our steps to match one another's as we continued our journey, keeping side by side our lifelong companions.

February 22, 2001,
Derek Schobay and Melissa
Gaines were chosen from the
top 5 finalists as Mr. and Miss Embry-Riddle Aeronautical University. Runners-up were Mark
Cappello, James Failat, Marcus DeOre and Darine Carver for the Mr. ERAU title, while Diane
Boehler, Pam Morgan, Lisa Palmer and Noorani Ali were runners-up for the Miss ERAU title.
Candidates were nominated by faculty, staff, and students, and then the ten semi-finalists
were selected by a campus wide vote. The top 5 finalists were then selected from which Derek and Melissa were chosen. They were selected based on
their academic standing, leadership skills, service to the community and
university, activities involved in on campus and overall character.
Derek graduated in December with a degree in Aviation Business;
he is now pursuing a Masters degree in Aeronautical Science. Derek hailed
from St. Louis, Missouri. He loves life and has greatly enjoyed his studies
here at Embry-Riddle. His favorite subject taken was “Airport Planning and
Design.” Derek’s best advice to his fellow classmates was summed up in two
words: “Be disciplined.”

Melissa is a senior in the Aerospace Studies program. From the
great state of North Carolina, her favorite subject taken was a psychology
course in her junior year. Melissa is friendly and outgoing. She loves
sports, long walks on the beach, music, traveling and lots of friends to share
fun times. Melissa hopes to obtain an internship in Vero Beach to enhance
her studies. Her best advice to fellow classmates is “to live life to the fullest.”

The faculty, staff, and students of ERAU join together in
congratulating Derek and Melissa on winning their titles and we all wish
them well in their future plans. We believe that they will represent Embry-
Riddle Aeronautical University in an excellent manner.

Message from University President, George H. Ebbs

The Phoenix has once again done a fine job of capturing special moments in the life of this exceptional University. As we complete this school year, my hope is that you are taking with you some of your own special and memorable experiences. Some of you will have graduated and are looking forward to your chosen career. Many of you will return for our next academic year to complete your goals. Regardless of your future plans, your time with Embry-Riddle Aeronautical University should have challenged you to question, learn, and grow. Beyond that, I also hope it was fun!

My best wishes to each of you.

The ability to influence was one of the many characteristics teaching encompassed. It was this uncanny mastering of the mind that triggered students to learn. Only the best teachers had the ability to mold and influence the paths of their students, and the ones that do could never be forgotten. Embry-Riddle's Dr. Robert Fleck was one such teacher that was both admired and respected by the University community.

Sophistication, leadership and general excellence were characteristics Dr. Fleck exemplified. He had been a part of Embry-Riddle's community for over twenty years, and had grown and adapted with the University, the faculty and most importantly, the students.

Dr. Fleck taught a wide variety of courses in the physical science department. He challenged his students to perform at their maximum ability with every task, and helped them in every way to go beyond. Nothing less than the best was expected from each and every one of his pupils.

During the Summer 1999 semester, Dr. Fleck showed his dedication to the students by participating in Embry-Riddle's study abroad program. He spent the semester in Paris with twenty students. Because that semester was so successful, he also worked on a similar study abroad program in London during this spring semester. He believed every student should participate in such an exhilarating learning experience.

Due to his outstanding work ethic and dedication, Dr. Fleck was awarded the Outstanding Teacher Award for the year 2000. This prestigious award was presented to him during the Spring 2000 Commencement Ceremony. His top-notch dedication to education, and more importantly, his dedication to students, made him the clear choice for this honor.

With his innovative teaching styles and enthusiasm for learning, Dr. Fleck helped many students matriculate into the world. He also became a model for many faculty members. He was a professor that many students would remember when their days at Embry-Riddle came to an end. Using words borrowed from Sir Isaac Newton, Dr. Fleck advised graduating seniors to "be never at rest."

Rudolph “Rudy” Stubbs was everyone’s favorite Housing Safety Officer. But who was the man behind the uniform?

Rudy came to work at Riddle after retiring from the New York City Police Department. After working as a homicide detective for 15 years, he was ready for something a little slower paced. Retirement was too slow for him, so in 1997, he came to work at the Student Village.

While working here for four years, he has seen a lot. One of the biggest problems he saw on campus was the underage drinking in the residence halls. “Student have friends over and start drinking, or come back from the clubs already drunk and start causing problems”.

He’s dealt with students punching holes in the walls and throwing the dorm furniture into the canal by Doolittle. “Right now if you and your roommates are over 21 then you can drink, but that’s difficult to enforce and underage students can stop by at any time. It would improve the image of the University if they banned alcohol altogether.”

Aside from the vandalism there were also some serious accidents caused from drinking. “We had one student speed into the Challenger lot, wipe out five cars, back into a sixth one trying to get out and speed away. When we caught him, he was drunk. My main purpose here is to provide safety for the students and when you have to call an ambulance because someone drank too much again, you have to wonder if the present policy is good enough.”

To be fair though, it wasn’t just the students that were drinking that did crazy things. One sober student sped off from the Student Village, lost control and took out part of the wall holding up the bridge; it seemed he was trying to impress a female student.

Although there was a problem with drinking on campus, he didn’t see it as being widespread. “The majority of the students here are good kids and are very focused on doing well. It’s the handful of individuals that are the ones causing the problems.”

After working with criminals for 15 years, the students here were a welcome change. He tried to be fair with students and work things out on a one-to-one basis. In return, the students showed him respect and listened to him. “Interacting with the students here is my favorite part of the job; they keep me young.”

By Rachel Brizendine

At left: Dr. Brad Bennett, Phoenix Yearbook Advisor, begins recruiting early for future staff members. Here he is shown with Joseph Donaldson, newborn son of John and Jackie Donaldson.
A s days passed and our journey became a routine made up of study sessions and nights spent hanging out with the guys, we strained our necks and peered up ahead in search of some variety. What we found were over 140 clubs and organizations with purposes as unique as those of us who joined them.

Social clubs, including the 14 Greek fraternities and sororities, formally initiated dozens of new brothers and sisters at the close of each semester. Other organizations, such as Alpha Omicron Alpha, the aviation honor society, Sigma Tau Delta, the national English honor society and Society of Women Engineers (SWE), emphasized our academic performance and required us to maintain a high grade point average, be involved with school and community service projects and meet other specific qualifications.

For those interested in team sports at the intramural level, ice hockey, crew, rugby, flag football and other sports were offered through the athletic department.

In response to the cultural diversity among us, the Caribbean Students Association, the Indian Students Association and the Korean Students Association, among others, were created. The Student Government Association (SGA) was a powerful organization on campus, as it held the executive offices of the student President, Vice President and Treasurer. Its branches included the Student Representative Board, the Student Finance Board and the Student Court, which handled the numerous judicial matters including traffic tickets. Its four divisions provided news and entertainment to students and faculty throughout the year.

Other organizations, including the Skydiving Club, the Surfing Club, GALBA (Gay and Lesbian Bisexual Association), Christian Fellowship Club and the Flight Team, provided outlets for us to fulfill our desires in activities among others with the same interests. We were soon engulfed in our involvement with these organizations, from social clubs to academic organizations, and our journeys were no longer stagnant and dull. As we brought together our talents and interests, we enhanced our journey by seeking pleasures beyond our daily schedules.

BY: ASHLEE FISER

...and interests...
brought together

Teammates of the Iron Eagles Rugby Team line up for a scrum before the start of a game on the Richard Petty Field. The team, although sponsored through the Daytona Beach community, was made up primarily of ERAU students.

Student Government
Association

Mission: to ensure the excellence of student life

The Student Government Association is designed to help the student population in any way possible. The SGA provides services from copies and faxes to entertainment on campus. Through the three branches including the Student Representative Board, Student Finance Board and Student Court, under students are provided to apply for funding and organizations, talk other students about relating to classes, and other aspects of life, and appeal to a peers for judicial dec student issues.

The four divisions including the Avion per, the Phoenix Year Touch-N-Go Productions WERU Radio provide entertainment to students, faculty and. From the weekly paper, the annual yearbook, radio broadcasts, to performers, the division the SGA are an integral part of getting and keeping students involved.

This year's administration focused primarily on financial issues relating to the clubs and organizations, and how much money was available to the SGA as a whole. Raising the SGA fee is something no student wanted to see happen, so this administration delved into other opportunities to increase funding. Program sponsorships, revenue sharing agreements and fundraising have been implemented and successfully carried out to provide for increased club funding in the following years. In addition, the executive board was devoted to strengthening struggling divisions and providing new services such as color laser printing.

by: Robert "Sammy" Beagley
It started as a few words scratched on a piece of paper. After members spent hours on a Saturday afternoon, sprawled across Andrew’s living room floor rejecting, repeating and recording ideas, not to mention devouring over $100 worth of Olive Garden take-out, they molded their words and visions into the theme of the 2000-2001 Phoenix yearbook. Over a period of nine months, 204 pages of memories were created—a no small feat for a staff of only 16 members.

Susie Oswald, the Student Life editor, designed over 30 full-color pages that covered events outside the boundaries of academics, such as Greek life and Homecoming. Michelle Rea and Adia Barreau, Co-People editors, featured over 600 students’ and faculty portraits, along with off-the-wall quotes gathered from students around campus. Using layouts designed by Marcos DelOrbe before he graduated in December, editors Aydin Ozkazanc and Kelly Bowman harassed over 100 club sponsors for content for their Clubs/Orgs section. Sports editors Mark Cappello and Henry Alvarez created and filled 26 full-color pages of the Varsity sports teams. Ryan Martin, the photo editor, along with photographers Michael Moran, Dave Wong and Mariano Rosales, captured the year’s events on film at the editors’ requests, often last minute and sometimes at two o’clock in the morning. Besides bringing the Phoenix back into existence last year, Trebor Yocum contributed as the Political Liaison and provided connections with nearly any information source they needed. Joining the staff in the spring semester, Rachel Brescimonde and Christopher Grable offered their assistance to editors during crucial deadlines, often working on the weekends and late weeknights. Besides keeping track of funds and avoiding facing debt, Andrew Phillips maintained contacts with advertisers, organized sales promotions and designed 36 pages of color and black-and-white advertisements as Business Manager and Community section editor. Their advisor, Dr. Brad Bennett, remained involved and active throughout the year, offering suggestions and help when they needed it.

Looking back on that day in Andrew’s cramped living room where it all began, the Phoenix staff realized they did more than just make a book of pictures and words. By creating a book of memories, they created their own memories at the same time.

by: Ashlee Fiser

WERU Radio

WERU’s purpose was simple—to provide programming not readily available on local commercial radio for the education, the entertainment and the enlightenment of the student body. At 104.7FM, WERU broadcast a wide range of music throughout the Student Center and the Residence Halls. One of the improvements the members implemented was audio-based broadcasting over the Internet. After acquiring enough funds, they hoped to broadcast through Low Power FM. Though the name may have been misleading, Low Power FM would enable their programming to reach the entire Daytona Beach area.

Until then, the DJs of WERU contracted in entertainment and educate students through a variety of unusual times and outrageous personalities.

The freedom to express oneself is at the heart of any free society, and the Avion Newspaper provides an outlet for such expression among the students, faculty and staff at Embry-Riddle as well as coverage of news and events specific to the University.

Published 12 times per semester and six times over the summer semester, the Avion features campus news, opinions, student organizations and university sports, as well as news and reports from the various fields into which most students will graduate.

As always in a volunteer organization, the people are the backbone of and the story behind the Avion.

The Fall of 2000 saw a nearly unanimous vote that returned Mark Cappello to office for a fourth and final term, during which he and the remaining staff from the previous year began to see a turnover of staff in progress. Cappello, Advertising Manager Todd Fortier and Copy Editor Ashlee Fizer were simultaneously involved in a journalism class taught by Avion Advisor Dr. Thomas Vickers, in which they educated students about the trade and their student paper.

At the start of Spring 2001, Philip Ciani won a close election and immediately set about making changes to the organization. Restoring the News Editor position, Ciani chose Ryan Campbell to fulfill the role, while Aydin Ozkazanc became the Managing Editor. Along with management, Avion coverage shifted dramatically to world events, rather than the campus news staples of years past. New and strict production deadlines were instituted, and met most weeks. The semester saw the addition of a number of new members, including Christian Tougas and Lucas Couch. After previously declining many times that he would not run again, Ciani stated his intention to run for Editor in Chief again in the Fall.

Tougas, a new addition to the staff in the Spring, was the sole nominee for the Summer 2001 term after Cappello, a graduating senior, declined.

by: Mark Cappello

Touch N Go Productions

Touch-N-Go Productions wants to know, "What are you doing tonight?" As an organization, they brought entertainment to campus by means of 24 box-office movies, between five and ten small shows and two large productions-- one during Homecoming and the other in the Spring. Acts such as Mike Rayburn, The Winfields, Acoustic Duo, The Mighty Mighty Bosstones and Harley Newman were featured in this year's entertainment lineup.

Wanting to branch out, T-N-G also began a coffeehouse series. While there weren't any sold-out beverages offered, there were Open Mic Nights, Game Nights with the Gamers Guild, Improv with the Riddle Players and some cool student bands. Drink chivalry.

by: Kern Retiner

WERU Radio

Riddle Riders
Motorcycle Club

The Riddle Riders received a grant from the SGA this year, boosting their club to new proportions. Through their promotion of motorcycle safety, and provision of a way for riders on campus to meet, the Riddle Riders purchased and rebuilt a 50 cc motorcycle from two Yamaha RX-50s for club members to learn to ride. They used the funds to buy worn parts, and were still able to sponsor 40 club members and students to take their Motorcycle Safety Foundation courses.

Above: Club members pose for a photo while standing next to their motorcycles. photo by Robert Byrne

Top right: Artistic riders lay down the rubber in the shape of a smiley face :)
Muscle Car Association

The Embry-Riddle Muscle Car Association brings together American Muscle Car enthusiasts and owners at Embry-Riddle to participate in drag racing, car shows, and other muscle car events. During the Thanksgiving break, they sponsored their first annual Late Model Car Show at the Embry-Riddle Fieldhouse with much success.

A Chevrolet Monte Carlo sits on display among other muscle cars on the West Lawn during the Activities Fair.

Various club member's muscle cars, including Mustangs, Barracs, and Pontiacs, proudly line the Tomsot parking lot.
Shelana Jewish Club

The Shelana Jewish Club provided an outlet for Jewish students on campus to interact with one another, and to participate in cultural activities not otherwise available to them through the University. To relieve the stress of finals, they held a traditional Shabbat dinner in which they lit candles and made blessings over wine and braided bread known as challah.
Greek Week Champions, Alpha Eta Rho fraternity promoted contacts between its members and those in the profession of aviation, while instilling a strong bond of brotherhood among themselves. Each semester they participated in an aviation, a community, and a University project. This year, they painted taxi numbers on the Riddle ramp, as well as hosting an “Into the Streets” program and co-sponsoring an Aerospace Science Department forum.

Brothers of Alpha Eta Rho rose to the top to win the title of Greek Week Champions.

Men of AHP pose for a group shot.
The Riddle Players put on many performances for the Embry-Riddle Community throughout both the spring and fall semesters. In January, they staged a presentation of Frederick Knott's "Wait Until Dark."
The Players' end of the spring semester festival included acts titled "House of Bake" and "The Politics of Sleep."

As these Rugby players demonstrate, teamwork was essential in defeating their opponents.
Iron Eagles
Rugby Football

The goal of the
Iron Eagles Rugby
Football Club was to
promote this intense
sport throughout the
Daytona community.

Teammates
spent most of their
time working on
done events such as
security for the Venus
Swimwear Competi-
tion and the “War”
concert during
Bikeoberfest.

They also
participated in their
annual parking
fundraisers at the
Daytona 500 and the
Pepsi 400, not only to
earn money for their
club, but also to gain
free infield admission
for everyone who

Ascendents League

The women of the
Ascendants League strived to
pursue education by participating
in activities that promoted
economic and educational
development.

One of their activities was
the Annual Hat Show with the
National Society of Negro Women.
They sponsored other events for
this historical black women's
organization to bring themselves
closer to the community. They
also hosted Green and White Ladies’ Night each semester for
incoming female students. This
night served as a safety tool to
introduce college life to incoming
females on the campus. In
January, they held “Ascendants
Week.” During this week, events
including a historical black film
show and an aviation-related
speaker were featured in the hopes
of uniting the group and making
the League well-known around
campus.

The week culminated in a
celebration of the organization.
Eagles Ice Hockey

At the Daytona Iceplex, the ice hockey team fights hard for the win against their opponents in several games throughout the season.

Sailing Club
It wasn’t only about spending time with their sisters; members of Theta Phi Alpha were active in the community as well.

Taking a moment for the camera, the Theta Phi Alpha sisters enjoy their time together.

Alpha Xi Delta

Alpha Xi Delta, the largest sorority on campus, made every effort to inspire women to realize their full potential. They assisted the Children’s Advocacy Center with various fundraisers throughout the year, providing support for unfortunate children. They also participated in Greek Week and sponsored “By the Numbers,” a presentation to educate students about the dangers of alcohol and sex.

Sport Aviation Club
Theta Phi Alpha

The women of Theta Phi Alpha provided an organization where women on campus could get together and be the best that they could be, while producing a tight bond of friendship that would last long after their years at ERAU.

As an organization, they constantly participated in community service projects including Habitat for Humanities, Council on Aging and numerous others.

They also have taken a few trips to become closer with one another, such as Sea World and social events held around campus.

Well, I guess they're allowed to have a little fun.

The girls worked hard and had a blast preparing their float for the Homecoming Parade.

GALBA
Gay and Lesbian, Bisexual Association

Embry-Riddle's Gay/Straight Alliance
Strives to create a positive working environment between people of different sexualities here on campus.

GALBA works hard to ensure that gay, lesbian, and bisexual students at the University are cared for by offering programs and sessions for those students. Their largest program is the National Coming Out Day Program, which brings in people from all across the state to discuss diversity amongst gender and sexuality. A candlelight vigil was held this year to raise awareness of those victims of hate crimes.

At the candlelight vigil, Trebor Yocum, (left), Andrew Phillips and Eddie Hernandez held their candles and participate in the evening's event.
Rotaract

Embry- Riddle Rotaract proved successful as members were involved with many events and activities that helped to better the Daytona Beach area with a touch of aviation.

As done every year, the club took the Young Eagles program under its wings and helped many young minds soar. As well as flying, members were also involved with peer mentoring, Boy Scout merit badge instruction and general aid to the community.

The year ended with the club’s annual sponsored trip to the Lakeland area for Sun N Fun.

by: Aydin Ozkazanc
Various pictures show the Rotaract members interacting with their Young Eagles.
The Ninety-Nines

Taking advantage of the growing population of female students, the Ninety-Nines promoted the education of women pilots and provided an environment to encourage and support women in an aviation career.

They worked collectively with the Society of Women Engineers, helping the Florida Girl Scouts earn their aviation badges. They also volunteered at elementary schools, teaching children about basic aviation and promoting interest in the field.

To represent their chapter, members also offered their time and service at several air-shows.

It was an honor for the Ninety-Nines to meet the group's founder.

Student Activities

Through Student Activities, Hypnotist Tom Delane visits campus and entertains students at a fall show, as seen in photo at right. Photo by Marnie Posner.
The Omicron Delta Kappa National Leadership Honor Society (ODK) recognized juniors and seniors who showed great leadership and academic qualities. Early in the year, they participated in the Halloween activities on campus. ODK’s biggest event was the Student Leadership Conference. Students from five area high schools participated in leadership sessions run by the group members. This worked to encourage young people to take an active role in their school and community.

In an effort not only to reward, but also to recruit prospective members, ODK recognized those students at the end of the fall semester who had made the Dean’s List. At the beginning of the spring semester, ODK recognized the underclassmen who made the List by giving them a notice of appreciation and a piece of candy to congratulate them on their “sweet success.”

ODK provided a photographer for the Halloween festivities on campus so that parents could capture their children on film.
Society of Collegiate Journalists

The Embry-Riddle chapter of Society for Collegiate Journalists (SCJ) was founded in 1979. The journalism honors society supported and celebrated the accomplishments of students involved in the mass media organizations of the University, including the Avion newspaper, Phoenix yearbook and WERU radio station.

The society's members were chosen based upon their moral character, hard work ethic, scholarship and journalistic integrity. Promotion of these valued characteristics through the organization helped to ensure that members properly represented SCJ and their respective organizations to the University. In turn, these members often played major roles in the leadership and direction that the organizations took.

Each year, the SCJ undertook a project mostly associated with the school newspaper. The Orientation Issue was produced each year by current and alumni membership of the chapter and distributed during the first week of each fall semester. The result was a quality issue for thousands of entering students and their parents to get a glimpse of what the University had to offer. This issue continued to grow as various departments realized the importance of getting their messages to new students.

Another project of SCJ was Creations, a literary magazine composed of poetry, short stories and photographs created by students. Published once a semester, Creations provided students the chance to see the artistic work of their peers.

Indian Students Association

The Indian Students Association was an active student organization that prided itself on being part of the ERAU student community. The organization's primary focus was to showcase the wealth and diversity of Indian culture, and also to promote an understanding of India's national integrity. This was accomplished through several cultural events organized throughout the year.

One of these was a "Diwali Night," where Indian faculty and students came together and celebrated this "festival of lights" that heralded the beginning of the Hindu New Year in a relaxed and festive atmosphere. The organization also held its annual "Welcome Back to the Spring Semester," where club members cooked Indian dishes and asked trivia questions about their country.

During the NASCAR Daytona 500 races, members donated their time to raise funds for the earthquake relief victims in India. Through their philanthropic efforts, they hoped to ease the pain and suffering of those tragically affected by this natural disaster.

Finally, the Association had a strong showing during the annual "International Day," with their artistically decorated Indian booth and mouth-watering dishes for visitors. Female members performed a fabulous traditional dance to an Indian song and captured the audience's attention with their perfect synchronization and colorful outfits.
Special Operations

The Brigadier General William W. Spruance Special Operations Precision Drill Team, or more familiarly known as SO, was founded nearly two decades ago and was based upon traditions of excellence and togetherness. It was a group of highly motivated cadets who were dedicated to the U.S. Air Force and its mission.

The team was comprised of freshman and sophomore cadets (GMC), seeking a commission in the U.S.A.F. Once a cadet was accepted onto the SO Team, they immediately assumed many responsibilities. Team members also displayed characteristics of pride, honor and loyalty, all of which were founding principles of SO. Beginning as just six hours of practice a week, SO soon became a way of life for its members.

SO trained top cadets for Detachment 157, both within and outside the Daytona Beach community. Members traveled to the Mardi Gras Drill Meet in Louisiana, where they represented their service, detachment and sponsors respectfully. Their success was a result of the countless hours of hard work, dedication to excellence and a desire to represent themselves to the rest of the nation. Members also performed at the end of each semester during the entire corps Pass in Review.

Throughout their training, members of SO were taught the importance of team unity. Those who joined did not gain teammates; they became part of a family of many generations.

Above: Colorguard members Christy Maress (left), Charity Harmon, Mike Colon and Francis Marini lead the Drill Team in a parade.
Left: Sean Ruane, Fred Tolman and Nathan Jones demonstrate the importance of teamwork, especially in practice.

Tau Alpha Pi, Florida Epsilon chapter of the American Society for Engineering Education (ASEE), was the elite society for engineering technology students, and was organized exclusively for charitable, scientific and educational purposes. More specifically, the society recognized students of high scholarship in engineering technology programs. The organization promoted and encouraged scholastic achievement by offering membership to outstanding students, and engendered certain desirable qualities of personality, intellect and character among its members.

Caribbean Students Association

Left: A speaker entertains questions during a CSA aviation forum.
Eagles Flight Team

Throughout the year, the Eagles Flight Team used their skills and determination to promote flight safety and to represent the University in the National Intercollegiate Flying Association (NIFA) SAFECON competition. They also co-hosted the Region 9 NIFA SAFECON competition in Melbourne, Florida, while competing in it as well. In addition to winning the competition overall, they were awarded the Team Safety Award.

Wrestling Club

Under the leadership of professor and coach Glen Dorn, wrestling club members practice technique and strength training several nights a week in the racquetball courts on campus. All photos by Robert Byrne.
AIAA

Through many events scheduled during the year, AIAA officers and members hoped to expand students' horizons in the aerospace industry by interacting with professionals. One of these events was their annual dinner meeting hosted by the organization. Students, faculty and professionals in the field of Aeronautics and Astronautics enjoyed a speech given by Retired Admiral William Pickavance. Other activities included a trip to Kennedy Space Center, where members participated in Community Appreciation Day and a student faculty barbecue and pizza party, to foster better student/faculty relationships. Members also co-hosted the annual AIAA Southeast Region Student Conference, held in Atlanta, Ga.
Sigma Tau Delta's central purpose was to confer distinction upon students of the English language and literature in undergraduate, graduate and professional studies. STD also recognized the accomplishments of professional writers who have contributed to the fields of language and literature. One of the largest members of the Association of College Honor Societies, STD has close to 600 chapters, 700 faculty sponsors, and inducts approximately 7,000 members annually. Our members had the opportunity to be recognized for their outstanding achievements, enrich their education and advance their careers.
Led by President Kelvin Ampofo and VP Sarah Day, 12 new members were inducted into the National English Honor Society at the end of the spring semester in the Key West Room. The ceremony included a welcome by advisor Steve Glassman, a motivating speech by a local professional author and a candle-lighting induction pledge.
During a fall game at the University Fieldhouse, center Heath Fabacher slams the basketball into the net over his Brevard University opponent. The Eagles team returned to Branson, Missouri in the spring where they fell just shy of reclaiming their national title.

Sprinting past her race competitors, Melissa Cabrera heads toward the finish line of the Gator Invitational held in Gainesville, Florida. Because Cross Country races were held all over the state, the men’s and women’s teams competed in different climates throughout the season.

Preston Kahikina puts some power behind his serve in a match at the International Tennis Association (ITA) Regionals. A junior from Hawaii, Kahikina played at no. 4 singles for the men’s team.

Feeling the sweat pour down our face and hearing the footsteps of our opponent at our back, we sprinted toward the finish line of our journey. We tested our stamina and improved our endurance through season after season of intense games, matches and meets. Ranked as a top program across the nation at the National Association of Intercollegiate Athletics (NAIA) level, we were finally seen as a competitive university on the court as well as in the cockpit.

The basketball team proved this status once again by earning a spot in the playoffs and returning to Branson, Missouri to defend their national champion title. An increased number of female athletes further heightened our position in the eyes of our varsity opponents. Over 60 Eagle women competed against other women, whether it was on the soccer field, the tennis court, the green, the volleyball court or the rugged cross country path. The women’s volleyball team, who emphasized teamwork and agility, finished with an overall season score of 28-12. Also reaching the peak of their potential, the women’s soccer team had a best-ever season score of 14-6. The cheerleading squad, made up of eight males and nine females, returned to the National Competition in Tampa, Florida to reclaim their championship title.

In recognition of the athletic program’s potential, the new Sports Complex was designed and built. The Complex included a second-story addition to the University Fieldhouse with four new locker rooms, the University Ballpark where the baseball team hosted home games from November to April, the Soccer Complex and the Clyde Morris Recreational Field. As many as 80% of the approximately 150 varsity athletes were offered financial assistance to pursue a degree in aviation while experiencing the thrill of victory on a winning team.

Whether we were spiking the ball over the net, sliding into home plate, dribbling down the court or sprinting across rugged terrain, we were victorious. As we climbed toward our dreams of glory, we used the determination and competitive edge we gained on the field as we traveled across the challenging and uphill path that led to the rest of our life.
In 11.bome ~ Clint DeCoux (33) hits a line drive to right field and earns a base hit. The Eagles, who played their home games at the newly built University Ballpark, entered the 2001 season ranked as No. 16 in the NAIA.
**Driving the lane**

Demonstrating that team spirit is just as important off the court as on the court, team players cheer on their teammates to a 113-94 victory over Palm Beach Atlantic at University Fieldhouse. This win marked the program's 100th all-time victory in the building.

_Senior guard Kyle Mas leaps over a Warner Southern defender for lay-up, adding two points to a career total of 1,928 that ranks him second all-time in Eagles' history._

Shocking upset ends Eagles’ stellar season in NAIA Div II quarterfinals

With the weight of a No. 1 ranking and expectations of a championship repeat on their shoulders, the defending NAIA Division II champion Eagles drove through their regular season opponents to rack up a 28-3 season record.

In a two-day road trip to close out the regular season, the Eagles faced opponents Nova Southeastern and Florida Memorial. Sophomore guard Harold Pierson put up 17 points to lead the Eagles to a 76-52 victory over Nova and clinch the regular season title, as well as finish with a 10-1 Florida Sun Conference record. The second game saw the Eagles lose a close contest to Florida Memorial, 79-82. Junior guard Ryan Rothrock led the Eagles with 20 points, while senior guard Heath Fabacher added 15 and a team-high eight rebounds.

After the conclusion of the season and their victory in the FSC Tournament, the defending champions traveled to Branson, Mo., to await their first opponent in the national tournament.

The College of the Ozarks stunned the Eagle faithful, jumping out to an early lead before the long-distance shooting of Scott Moore brought the team back and gave them a five-point edge at the half. The Eagles held on in the second, with Rothrock sinking 13 and Pierson adding 11 to take a 93-86 victory and advance.

Taking on St. Mary in the second round, all five starters registered double digits in the 95-91 victory. Senior center Heath Fabacher led the Eagle defense, recording his first double-double of the season with 10 rebounds and 10 points.

The top-seeded Eagles were in for a shock when they faced ninth-seeded Cornerstone (Mich.) in the quarterfinals. Taking a one-point lead from the locker room, the Eagles and Golden Eagles exchanged the upper hand seven times in the first 15 minutes. With 3:39 remaining and the score tied at 71, Cornerstone’s Brian Robinson went on a 5-0 run to take the lead. The Eagles fought back to within three points but could not close the deficit and were defeated 87-80 to end their bid for a second NAIA Division II Championship.

The trio of Rothrock, Mas and Pierson, who earned postseason honors, led the Eagles to a 32-4 record, the highest in the history of the program, and their seventh NAIA Tournament berth in the 13 years of the program’s existence.

by Mark Cappello and Ashlee Fiser

Junior guard Ryan Rothrock was named a first-team NAIA All-American for his leadership, presence and sheer talent on the court. The Rock led the Eagles to their sixth consecutive appearance in the NAIA National Tournament with the highest 3-point percentage in the country for most of the year, and set a program record for assists in a season with 242 over 36 games. Rothrock started every game and played a team-high 1056 minutes, as well as led the team in steals.

Sophomore guard Harold Pierson led the Eagles in scoring on the season, posting a total of 545 points in 2000-01 and 1,002 points in his two-year career. Pierson averaged 25.8 minutes per game, second only to Ryan Rothrock, and finished the season with a scoring percentage of .552. Pierson is only expected to improve in his next two years, filling the shoes of departing seniors and taking the Eagles back for another shot at the big dance.

Senior forward John Davis started 34 of 36 games, leading the team in offensive rebounds with 67 in 34 games, and was third in defensive rebounds with 107. Davis played an average of 22.6 minutes per game and posted a .435 field goal percentage.

A cast of stars...
The 2000-01 starters

On every team someone has to step up and lead the way, whether it be to the first taste of championship victory, or on the long, expectation-ridden defense of a hard-fought title. For the defending NAIA Division II Champion Eagles this was no small task, but junior guard Ryan Rothrock (4), sophomore guard Harold Pierson (11), senior guard Kyle Mas (23), senior forward John Davis (31) and senior center Heath Fabacher (52) proved they had what it took to start for the team, to bring themselves and their fans the glory of another winning season, and to lavish in the spotlight for those too-brief minutes they will remember for the rest of their lives.

By Mark Cappello

Senior center Heath Fabacher was a serious presence under the net, pulling down a team-high 217 rebounds over 36 games. Fabacher led all starters in field goal percentage with .533 and averaged 11.9 points per game.

photo by Creative Images

Senior guard Kyle Mas finished his distinguished career with the Eagles as the second all-time leading scorer with a total of 1,926 points, and is ranked in the program's career top-10 in seven other categories. Mas was a threat from anywhere on the court, putting up a team-high 103 3-pointers in 240 attempts over 36 games, and was named a second-team NAIA All-American.

Connie Echterling returns a volley to her Valparaiso College opponent at Pelican Bay Tennis Club, where she helped the Eagles to a 7-2 win with victories at the No. 5 singles and No. 3 doubles spots. Connie posted a 10-0 season record at the No. 5 singles spot.

photo courtesy Sports Information
In only its second year of existence, the women's tennis team earned its second consecutive trip to the NAIA Women's Tennis National Championship in Lexington, Ky., advancing to the second round and closing out their season with a record of 18-9, which ranked them ninth in the nation.

Also in Lexington, the Eagle men advanced to the second round of the NAIA Men's Championship, and finished the season ranked 16th in the nation.

Both teams combined to produce six NAIA All-Americans. For the women, the doubles team of Regan and Vojtisek finished the season ranked No. 7 in the nation, earning them a spot on the NAIA first team. The team of Kozyura and Francis claimed second team spots as the 13th-ranked pair in the nation. In singles play, Kozyura and Vojtisek earned the 29th and 33rd spots, respectively.

Georgi Beloretchi and Alexandre Beaux of the men's team were named second team All-Americans and combined to form the No. 14-ranked doubles pair. Beloretchi finished as the 19th best player in the nation for his singles game.

Christine Regan normally handled No. 1 singles duties for the Eagles, with Natalia Kozyura in the second spot, followed by Sylvia Vojtisek, Jamie Criselli, Cornnie Echterling and Kristyn Echterling. Lisa Francis played in the first, third, fourth and fifth positions.

The team of Regan and Vojtisek routinely played in the No. 1 doubles spot, amassing a record of 12-9, while Francis and Kozyura racked up a 9-5 mark in the No. 2 spot and Cristelli and Cornnie Echterling posted a tally of 10-5 in the No. 3 spot.

Beloretchi played the lead spot in singles, with varying combinations of Beaux, Oliver Retting, Preston Kahituna, Dustin Sipka, Jurrian de la Bijn filling the remaining spots. The pair of Beloretchi and Beaux often played at the No. 1 doubles spot, with de la Bijn and Retting at No. 2 and Brian Douglas and Sipka pairing up at the No. 3 spot.

by Mark Cappello and Ashley Fiser
The Eagles improved tremendously over last year, posting a best-ever overall conference record of 14-6. The Eagles dismantled Coach Dan Blank’s former team, the Brewton Parker College Barons, by a score of 3-1. Blank had led the Barons to two NAIA National Tournament appearances and three conference titles.

Asked what improvements the team had made since the previous year, high-scoring forward Lisa Lundgren (2) responded, “I think the fitness level is a lot better. We’re more in shape than the other teams in the conference because Coach made us run so much pre-season.”

Freshman Julie Greenlee (40), at right, makes a save during a practice session prior to the Eagles’ final home game against Nova Southeastern. Greenlee and senior Heather Balin (23) combined to blank the Knights through two regulation and two overtime periods. Marissa Wyssling (16) scored with five minutes remaining in the second OT to give Eagles a 1-0 victory in their last home game of the season, and further fuel a developing conference rivalry with the ladies of Nova Southeastern.

Teamwork is key to the success of any winning team, and the 2000-01 Eagles were a close-knit group under coach Dan Blank. Senior midfielder Abby Stephenson (3), below, catches five from her teammates. Freshman forward Megan Earlsbrother, at right, put away five of a team total 31 goals on the season, including a hat trick against Avila College in November.
Young Eagles establish ERAU as a Florida Sun Conference powerhouse

The roster of the 2000 Embry-Riddle women's soccer squad read like a list of stars, stars that burned bright enough to propel the Eagles to record finishes overall (14-6) and in the Florida Sun Conference (11-3).

In only the third year of the women's soccer program at ERAU, without a winning team in the previous two years, the Eagles took the FSC by storm. Under the guidance of coach Dan Blank and assistant coach Mike Cole, and led by team captain and midfielder Joelle Zucali, midfielder Michelle McCoy and lightning-quick defender Abby Odom, the Eagles dominated balloting for the all-conference team, with McCoy, Zucali, Odom, midfielder Kati Schwiker and forward Lisa Lundgren claiming five of the eighteen spots.

Odom, McCoy and Zucali were also selected for the NAIA Region XIV all-region team, and all three were recognized as NAIA honorable mention All-Americans. Odom for the second straight year.

Lundgren again led team scoring with 11 goals and 12 assists, followed by McCoy, with 10 goals and four assists, and Schwiker, with eight goals and eight assists.

Senior Heather Balin and freshman Julie Greenlee shared goalkeeping duties for the Eagles, each guarding the net for half of most games. They combined to allow a meager 17 goals in 20 games, forcing 10 shutouts.

The explosive Eagles offense combined for 51 goals, including a hat trick by freshman midfielder Megan Fairbrother during a 4-0 victory over Webber College on Nov. 4, and an amazing four-goal performance by McCoy in an 8-1 romp against Brewton Parker College on Sept. 8.

For the most part, the Eagles were a young team, but they did field four seniors who the team will miss next season. Midfielders Abby Stephenson, Lindsey Williams and Schwiker, as well as goalkeeper Balin will be leaving the team next year and moving on to bigger and better things. May their winning ways with the Eagles serve them well!

by Mark Cappello
Sophomore forward Lisa Lundgren looks to steal the ball from her opponent. Lundgren led the team in scoring with 11 goals and 12 assists over the course of the season. 

Both on and off the field ...

Freshman Midfielder Paul Buckley of England at right, boots a corner kick towards a waiting Eagles defense under the lights. Buckley was named to the Florida Sun Conference second team. photo by: Ryan Martin
The 2000 season was a mixed blessing for the Eagles, with the team posting an overall losing record of 7-12-1 and a 7-6-1 Florida Sun Conference record. Behind the numbers, the year was a strikingly successful one, with sophomore midfielder Jasmin Kadiric becoming the first-ever Embry-Riddle soccer player to be named a first-team All-American. Kadiric led the Eagles with a phenomenal 72 shots that led to 14 goals, as well as eight assists, moving him into second place on the Eagles’ all-time scoring list. Kadiric was also named the NAIA Region XIV player of the year. Joining him on the regional team was fellow standout Connally Edozien, with six goals and seven assists on the season. Senior Thomas Eriksson followed Edozien on the points list, with eight goals, two game-winning goals and two assists. The other major story on the team was freshman defenseman Matthias Mueller, named to the NAIA honorable mention All-American squad. Kadiric and Mueller were named to the Florida Sun Conference first team post-season, and Edozien, sophomore midfielder Philip Jones and freshman midfielder Paul Buckley were named to the second team.

Proving that they liked the road: the men dropped six of nine home contests and posted an even away record of 4-4-1. Averaging fewer fouls per game than their opponents throughout the season, the Eagles were hit with only four red cards.

Dashing the Eagles’ post-season hopes, rivals St. Thomas and Nova Southeastern advanced to the NAIA Region XIV Tournament.

The Eagles will be without senior star forwards Edozien and Eriksson next season and, with only Junior John Haworth remaining in that position, will have to undergo some roster reorganization.

While not ending in a championship victory, the 2000 season and the post-season honors garnered by the team showcased the high level of young talent in the Embry-Riddle program. That talent will only grow as the Eagles seek those championship wins in future seasons.

and support

echoed throughout

the Fieldhouse...
The Eagles smacked down the competition to post a winning season

Another tremendous year for the Eagles ended with a winning record of 28-12 and an amazing second place finish in the NAIA Region XIV Tournament held in West Palm Beach.

This year's team was once again led by head coach Trina Keeton, who had the pleasure of passing the 100th career win mark when the Eagles defeated Warner Southern early in the season. On the court, the team followed the senior leadership of Andrea Gutierrez and Sherry Foster, who was named to the All-Florida Sun Conference team. Joining Foster on the prestigious team were juniors Moriah Cain and Storm Walker, and freshman Brooke Geiger. Foster and Cain both received the honor of representing ERAU on the regional all-tournament team.

The team leaders on the offensive were Storm Walker and Moriah Cain, both posting over 400 kills each, and Brooke Geiger with an outstanding total of 1160 assists.

On the defensive side of the Eagles' squad, Sherry Foster led the team with 402 digs on the season, and the tall and dangerous Cain led the team in blocks with a total of 167.

The volleyball team proved once again that they should not be taken lightly in the conference. As a young team with a strong bond keeping them together, they were probably one of the best women's volleyball teams that Embry-Riddle has seen in the history of the program.

by Henry Alvarez
Spiking with a vengeance...

Sherry Foster had a tremendous ability to spike the ball at fearsome speeds, at left. Foster backed this up with her 335 kills on the season, which helped the Eagles reach their 28-12 record.

Ashley Geiger, at left, helped in the teams winning ways by posting 29% of the team's 2375 digs for the season.

Senior Andrea Gutierrez, below, prepares to receive the serve during a match against St. Thomas early in the season. The Eagles came away with the win, which they did far more often than not.

Lindsey Yadens, left, was an important asset to the volleyball team both offensively and defensively, accounting for 204 digs and 18 aces over the course of the season.

The team, seen here, embrace in unity after after scoring another one of the many points they put up this season. The Eagles led in almost every category this year against their opponents, including kills, set assists, server aces, digs and blocking.

One of the newer and lesser-known teams on campus, the Eagles men's and women's cross country teams continued to make their presence felt both at home and among the competition.

Over the course of their seasons, the Eagles competed in six meets hosted by Florida Universities and against long-established programs. Both teams performed well for a startup program, routinely putting at least one runner in the top 20 of the events in which they competed.

Philip Midler and team captain Chris Hess stood out among the Eagles men, taking team high honors at most races. Captain Shannon Connolly paced the women's team, leading the Eagles in point standings throughout the season.

Both teams made their presence known at the major area invitational runs, including the Florida Southern Moccasin Invitational, hosted by FSU, the Gator Invitational, hosted by the University of Florida, and the Jacksonville University Invitational, among others.

The runners had fun attending the meets, and the dinners afterwards, that led them to bonds of friendship and team spirit despite the individual nature of their sport.

Accomplished runners and husband and wife Eric and Susan Hill shared coaching duties for the team, with Eric serving as Head Coach. Dr. Eric Hill teaches undergraduate- and graduate-level courses as a faculty member of the Aerospace Engineering Department. Both Eric and Susan routinely compete in USAF Masters and local and national seniors competitions, taking home many top-three finishes.

Cross country will continue to grow at Emory, with the men and women of the 2000 season helping to lay more groundwork for the future, and having a blast while they were at it.
Women’s team demands to be reckoned with in their first year, while men’s team maintains a strong hold on the competition

With the goal of a successful season in mind, the women’s and men’s golf teams hit the links under the watchful eyes of coaches Maria Lopez and Tom Vickers. Practicing on their driving and short games, the teams readied themselves for their scheduled tournaments.

During the women’s team’s inaugural year, under the guidance of first-year head coach Maria Lopez, the Eagles claimed a season-best finish of second place at the Flagler College Invitational in November. This remarkable achievement was reached due to three players’ stroke averages of less than 90, including a team-best mark of 87.2 by freshman Mari Lynn Nado. Freshman Hillary Hurley and sophomore Brooke Cummings followed close behind with averages of 88.3 and 89.3. Hurley also posted the team’s best finish of the fall season with runner-up honors at this match.

Heading into the spring season, the team was ranked number 16 in the nation, according to the NAIA Preseason Poll. At the Lady Eagle Invitational, hosted by the team at the Daytona Beach Golf Club’s South Course, Nado fired a six-over-par 78 to claim the individual lead on the first day. This score marked a four-stroke improvement to her best round of the year thus far — an 82 at the Spring Hill Invitational. Nado followed this with a second-round 85 for a tournament total of 163, tying her for second place in the individual category. Hurley, with a total score of 165, tied for fourth place individually. After the two-day event, the Eagles took home fourth-place with a team score of 691.

In the end-of-season Florida Sun Conference/NAIA Region XIV Championship, Brooke Cummings posted the only eagle in the tournament on her way to scores of 83 and 86, earning her second place honors. Nado and Hurley tied for eighth and tenth place with scores of 181 and 182, respectively. Heather Muns and Theresa Kubal also contributed to the team’s overall third-place finish with individual scores of 188 and 205.

From the Nova Southeastern Fall Classic in October to the Embry-Riddle Golf Classic which concluded their spring season, the Eagle men hit the course for six tournaments. The team, made up of Rob Anderson, Lee Barthold, Andy Briggman, Mark Lutke, Brian Schifferman, Brandon Scholz and Joe Valente posted a team-score of 1004, to earn seventh place in the FSC/NAIA Region XIV Championship. Freshman Lee Barthold racked up a three-day total of 234 to lead the Eagle men and tie for a seventh-place individual finish.

By Mark Cappello and Ashlee Fiser

photo by Ryan Martin
On the mound, Jamie Walters, Kyle Kuykendall and Ron Patrick filled out the starting rotation for conference play, while Bryan Anderson and Kevin Hawkins pitched relief. Justin Smith and Scott Ward caught for the reliable stable of talent.

In the batters box, the batting order was often changed, but center fielder Jim Hannah could still be counted on to lead off, followed by DH Dan D'Antonio, catcher Justin Smith and first baseman Garrett Jones hitting cleanup.

They were followed by third baseman Greg Coleman, right fielder Adam Smith, left fielder Andy Touche, second baseman Regan Hagestad, and shortstop Zak McDonald rounding out the order.

With eight successful years in the book, Greg Guilliams continues to guide the baseball program and the student-athletes entrusted to him. Guilliams has guided the Eagles to three Florida Sun Conference titles, three regional tournaments, two top ten finishes and the 1999 NAIA World Series. Nine players he has coached have since moved on to sign professional contracts.

Assistant coach Doug Wollenburg is a new addition to the staff, hired in September of 1999. Wollenburg worked with Eagle hitters, infielders and outfielders on the field, and as an Academic Enhancement Coordinator, had the responsibility of ensuring that student-athletes excelled in both areas.

n our journey, we were constantly surrounded by gusts of wind that encouraged and inspired us to continue the pursuit of our dreams. This motivation came not only in our times of struggle, when our path narrowed and we lost sight of our direction, but also when we least expected it, and we were grateful just the same.

These gusts of wind represented our teammates' and coaches' cheers from the sidelines as we sprinted toward the finish line of a cross country race. They also symbolized our physics professor, who congratulated us when our late-night study sessions were apparent in our high test scores.

Financial support from ERAU alumni and community sources was evident on sites around campus, including the recently named L. Gale Lemerman Auditorium. Our parents' words of advice and acts of kindness also supported us when we were consumed with feelings of homesickness.

We realized our journey down this narrow path would not have been possible without this motivational, financial and emotional support. To express our gratitude, we offered our services to the community through the numerous opportunities provided by our campus' volunteer network.

Whether we donated our blood to the Red Cross, improved the landscaping at the Botanical Gardens of Volusia County, or participated in Habitat for Humanities, we became aware of these services' significant impact on our lives. As we prospered from the support of those around us, we finally understood the true meaning of generosity.

by: ASHLEE FISER

of those around us...
Taking advantage of one of the most convenient ways to help those in need, a generous student donates her blood during the fall Blood Drive. Those who were able to and chose to donate their blood were given refreshments and a t-shirt.

The training I got from the New Hire Program was the best I've ever had. I've been with EJA for three years now and we go back to FlightSafety for recurrent training every six months. I look at it as an opportunity to train with the best.

Three pilots who made all the right connections.

WELL OVER 5,000 PILOTS—like John, Geran, and Neil—have landed in the right seat of regional airline and executive aircraft through the FlightSafety New Hire Program. A division of FlightSafety International—the world's largest pilot training company—the New Hire Program has become a valuable resource for both qualified, employment-seeking pilots and regional airlines and flight departments looking to hire.

The steps are simple: a one-day evaluation identifies qualified pilots who are then matched with airlines and flight operations who are ready to interview and who rely on this screening process to find attractive candidates. With a conditional offer of employment in hand, the candidate begins four to six weeks of type-specific training, that may require self-financing, at a FlightSafety Learning Center selected by the employing airline or flight department. Training is conducted on employer-specific equipment, and the program includes indoctrination in the operation's particular culture and procedures.

The FlightSafety New Hire Program—it's a training and employment resource for qualified pilots. And, as many New Hire participants are quick to tell you, it's the most direct route to a career in professional aviation.
Smiths Industries Aerospace is an excellent place to get your career off the ground. We are renowned for cutting-edge developments within the fields of military and civil aircraft avionics. Our products fly on hundreds of commercial airlines throughout the world, and practically every type of military aircraft including Air Force One. If you’re ambitious and eager to test your skills in the real world, Smiths Industries Aerospace is a perfect fit for you. Consider joining us in the following area:

CO-OPS/INTERNS AND NEW GRADS

SOFTWARE ENGINEERING

Responsibilities will include design, development, implementation, maintenance, configuration management, and quality control of embedded Avionics software. Strong communications skills required for technical interactions with Systems engineering and effectiveness in a team environment. Development environments are varied including Vax, Rational Apex, and Unix. Flight Management Systems (FMS) programs include B737, Air Force One, C-130, A300, A320, A340. A company sponsored mentoring program helps ensure the new hire is effectively integrated into our environment and necessary technical knowledge is provided. Appropriate degrees include CS, EE, CE, and AE along with a strong Software background.

If you enjoy creating the kind of technology that keeps the world’s aircraft flying, join us in Grand Rapids! Here you’ll enjoy a lifestyle and cost of living that enhances your personal as well as professional life. From the cultural, educational and recreational activities on Lake Michigan to the affordable housing and excellent schools of Grand Rapids, it’s an all-around situation you shouldn’t miss.

Please forward resumes in confidence to: Smiths Industries Aerospace, Attn: Human Resources, 3290 Patterson Avenue SE, Grand Rapids, MI 49512. Fax: 616-241-7269. Email: collegejobs@si.com

VISIT OUR WEBSITE at www.smithsind-aerospace.com

Smiths Industries Aerospace is an Equal Opportunity Employer promoting diversity in the workplace. We invite and encourage responses from women, persons of color, veterans, and disabled.
Not surprisingly, it’s built in a place called Independence.

Where it’s built is what it’s all about. Flying, fun, independence. Owning a new single-engine Cessna is the purest, most uninhibited way to enjoy all of the above. Forget the hassles of trying to get lucky on a rental schedule. Or keeping that older aircraft out of the shop long enough to enjoy it.

With the keys to a new Cessna, you’re free to go — anytime you like. And with Cessna’s two-year “spinner-to-tail” limited warranty, you never have to worry about costly maintenance surprises.

To see where the real fun starts, come visit our new assembly plant in Independence, Kansas. Or call or click: 1-800-4 CESSNA. 316-517-6056 outside the U.S. www.se cessna.com.
IMC departure...Busy terminal area...one less thing to worry about... During the next five minutes, your PowerLink™ FADEC system will check vital engine operations 27,000 times. Reduced pilot workload. Confidence your engine will be operated within limits. Just when you need it. Whether you need best power or best economy, count on PowerLink FADEC to deliver. Never before has an engine offered so much flexibility, redundancy and reduced cost of operation.

SIMPLICITY
Highly reliable components and redundant systems deliver security and confidence. Dual channel controls with fail-safe battery backup let you enjoy the simplicity of turbine engine operation while PowerLink FADEC both monitors and controls vital engine parameters.

PERFORMANCE
No more three-handed hot start mumbo jumbo. Gone are the rich/lean of peak guessing games. When you-know-who slam-dunks you from altitude, PowerLink FADEC will even adjust engine temperatures to help offset some effects of shock cooling. PowerLink FADEC is designed to help your engine operate at optimal fuel efficiency during every phase of flight.

VALUE
It may not be a free lunch, but PowerLink FADEC helps deliver the reduced cost of operation you’ve been waiting for. Fuel burn reduction is enough to make you sit up and take notice. Factor in easier starts, less thermal stress, no magneto maintenance along with cleaner spark plugs and engine oil add up to a money saving combination! And we didn’t even mention the long list of moving parts that don’t need to be checked, rotated, adjusted or replaced. Because with PowerLink FADEC they’re no longer needed! It’s solid-state with built-in diagnostic routines.

TIMING
For the complete story on PowerLink FADEC, call Teledyne Continental Motors. Factory installations are available on select engine models on a first-come, first-served basis. Act now so you can fly with one of the most advanced engine control systems available...
NOW TAKING ADVANCED DEPOSITS...DON’T WAIT!

READY FOR FLIGHT

Your Best Path To The Airlines Is COMAIR.

After nearly a decade of partnership, Delta Air Lines recently purchased COMAIR. Now, Comair Aviation Academy has become the only flight training facility that is owned by a subsidiary of a major airline. The simple fact is that we have the pilot positions and resources no other school can offer. That's great news for you!

✦ 97% of our graduates are hired by airlines as First Officers.
✦ Our graduates are GUARANTEED A JOB INTERVIEW WITH COMAIR.
✦ Federal Student loans are available for those who qualify.
✦ Airline-paid First Officer training (value over $11,000) upon being hired by COMAIR.
✦ Call to arrange a tour of our Academy.
Complimentary travel on COMAIR provided.

The Dawn of a New Age

From the first experiments with the science of flight to the heroics of the astronauts and engineers trained in space exploration, aviation has indeed changed the world in the 20th century. As an eyewitness to this change and an engine of professional and educational growth for more than 73 years, Flying Magazine has been instrumental in helping to create an environment supporting and encouraging these accomplishments.

As we enter the 21st century, Embry-Riddle graduates in the fields of aviation science, aerospace engineering, space exploration, technology and business are already contributing to the birth of a new era. As you join their ranks we salute you in your pursuit of excellence.

Congratulations from all of us at Flying.

FLYING
World's Most Widely Read Aviation Magazine
Premier I The future is fast, spacious, and economical to own and operate. The Premier I represents a unique blend of comfort, performance, and efficiency that no other light jet, in production or on the drawing board, can match. The Premier I delivers a takeoff length of 3,000 feet, the largest cabin in its class, a high-speed cruise of 530 mph, 1,300 nautical miles of range, and a price tag and operational costs far below other light jets.

For more information call Karl Childs, V.P. Sales & Marketing at 316-676-2978 or visit our website at www.raytheon.com/rec

YOU'RE LOOKING AT THE FUTURE OF BUSINESS AVIATION.
At McCauley, we do things a little differently.
For starters, the propellers we design and build
deliver product innovations that make the industry's
best aircraft even better. Innovations like our oil-
tanked hubs that provide constant lubrication for
longer life. The same single-piece, high-strength,
lightweight sealed hubs that eliminate leaks and
reduce maintenance. Then there's, McCauley's
unique threadless blade retention system—simple,
safe, and strong. All assembled with ISO Certified
precision and quality.

What's all that innovation mean to you?
It means unparalleled propeller performance.
Unsurpassed safety and reliability. It means the
longest TBO available anywhere. It means zero
ADs on turbine applications—even after logging
more than 5 million hours. And it means both
McCauley standard OEM propellers and our
BLACK MAC STC upgrade models continue to set
the pace for durability and dependability.

It means value.

Call us today for the McCauley dealer nearest
you. And find out for yourself why all propellers
aren't created equal.

McCauley
800-621-PROP (7767)
FOR THE DEALER NEAREST YOU.
McCauley Propeller Systems
P.O. Box 5883
Sarasota, FL 34278

Think All Propellers Are Created Equal?
Think Again.
Think McCauley!
Congratulations on another successful year!

Continue your membership even after you graduate! Because now when you join the nation’s number one pilot’s association, AOPA will donate 10% of your dues to the Career Pathways Scholarship Fund* that gives financial assistance to students who want to study at Embry-Riddle Aeronautical University.

*To date, over $3,000 in unrestricted funds have been donated to ERAU for endowed scholarships.
Airborne Express, a Fortune 500 Company and leader in the overnight delivery service, is looking for Maintenance Technicians and Engineers to work at the operational headquarters and airport in Wilmington, Ohio. The Company's Maintenance & Engineering employees maintain a fleet of DC-8s, DC-9s, and 767s. More than 1,500 employees work in this department to provide 24-hour coverage. ABX is an FAA-certified repair station, enabling it to provide contract maintenance for the airline.

As an industry leader Airborne Express rewards associates with competitive salaries and comprehensive benefits: including medical, dental, vision, and life insurance; profit sharing; relocation assistance; tuition reimbursement; and discounts on air travel.

For current hiring information, please call (937) 382-5591 or toll free (800) 736-3973. Fax (937) 383-3838

Airborne Express is an Equal Opportunity Employer M/F/D/V
In 1986, we pioneered the field of fractional jet ownership with our NetJets® program. Today, we are the world's largest purchaser and manager of business jets. NetJets offers a highly efficient and cost-effective way for companies of nearly any size to meet the demanding travel requirements of their executives. By selecting aircraft from the leading manufacturers including Boeing, Cessna, Dassault, Gulfstream and Raytheon, we can provide a Citation V Ultra up to the new 737 Business Jet to meet our clients' travel profiles.

At Executive Jet, our focus is on safety and customer satisfaction. With over 400 aircraft on order and a fleet of nearly 200 aircraft, we provide more individuals with safe and cost-efficient aviation solutions than anyone else in the world. With more than 35 years of aviation experience and success, Executive Jet combines a pioneering legacy with an unparalleled record of innovation. For more information on Executive Jet, please visit our web site: www.netjets.com

Scarc with our opportunities! Executive Jet has the most experienced, motivated, highly trained and safety-minded flight professionals in business aviation. Perhaps you are interested in becoming part of our growing team. We're currently recruiting:

- Information Systems Professionals
- Pilots
- Maintenance Management Technicians
- Flight Operations Dispatchers
- Flight Coordinators
- International Flight Planners
- Meteorologists

Executive Jet provides a full benefits package and competitive salary based on experience. If you enjoy a fast pace, a challenging position, and a company with room to grow, please forward your resume, indicating position you are applying for, to:

Never heard ‘GE’ and ‘aviation’ mentioned in the same sentence? You will at SimuFlite.

**Aviation Training Services**

**Solid Organization**

Chances are you recognize the name GE from some of our well-known, high-quality consumer products and services. In the aviation field the name you should know is GE Capital SimuFlite in Dallas/Fort Worth.

SimuFlite provides high-quality, advanced aviation training services for professional pilots and maintenance personnel operating turbine-powered aircraft in corporate, government, and military service. Our two modern, state-of-the-art Dallas/Fort Worth locations have been designed specifically for simulation training and we’re continually expanding to accommodate even more of the latest simulator technology.

**Outstanding Company**

We can adapt our programs quickly to any special training our clients might need while maintaining a consistent standard of instruction on every aircraft. And, pilots of varying experience levels and type-ratings can mingle, interact, and share experiences, providing a more thorough and in-depth learning experience.

So whether you want to utilize our services or further your career and join us, you can be confident you’ve made the right choice.

**Contact Us**

To explore career opportunities, send your resume to: GE Capital SimuFlite, Attn: Human Resources, P.O. Box 619119, DFW Airport, TX 75261. Fax: 972-456-6104. To check out our services, visit our website: www.simuflite.com. An Equal Opportunity Employer.

Gulfstream Aerospace salutes Embry-Riddle Freshman Class

Welcome! Your decision to enter Embry-Riddle means you are excited about the world of aviation. We encourage you to utilize your potential to its fullest extent, in all of your classes, and then consider joining Gulfstream Aerospace Corporation when you graduate. With us, your learning opportunities will continue to expand. Please note our location choices, and think about where you would like to go. Chances are, we can take you there.

Get details about Gulfstream at www.gulfstreamaircraft.com. Gulfstream is an equal opportunity employer and supports a drug-free workplace.

Central Florida Press specializes in printing fine quality multicolor printing. Whether the sky in a photograph or illustration is a dreamy blue or a stormy violet, we are inspired to achieve perfect color in printing.

Gulfstream®
Today, Rolls-Royce is a leading supplier of civil aircraft engines in the United States.

In fact, there are more than 2,100 U.S.-registered civil aircraft powered by Rolls-Royce engines flying in the U.S. — including large commercial jetliners, regional jets, turboprops and corporate jets.

Another 1,400 Rolls-Royce powered civil aircraft are on order or option from U.S.-based customers.

And these figures do not include U.S. military aircraft, both fixed and rotary wing, powered by Rolls-Royce and Rolls-Royce Allison engines.

Nor do they include civil helicopters. (Our Model 250 engine powers about one-half of the world’s fleet of light helicopters.)

Finally, these figures do not include the Rolls-Royce gas turbine engines used in marine and industrial applications throughout North America.

In North America, we are some 8,500 people strong, serving our customers with advanced technology air, land and sea power systems.

For more information regarding Employment, Apprenticeship, and Internship opportunities, please contact Cindy M. Oliver, SPHR at 305-871-3383. Send resume to 305-871-3387 or send via e-mail at cindyoliver@miami.curtisswright.com

Curtiss-Wright Flight Systems, Inc. is a wholly owned subsidiary of Curtiss-Wright Corporation.
Virtually every achievement in modern American flight has been made by an AIAA member. For over 65 years, AIAA has been the principal society of aerospace engineers, scientists, academics, students, and industry professionals. AIAA has more than 31,000 professional members in its 65 local sections and 6,000 student members in 145 branches across the country.

AIAA provides its members resources that keep them informed of industry changes and developments, helps expand their professional network, provides employment assistance, access to research information, and other important benefits.

Atlantic Aviation, one of the leaders in the corporate/business aviation industry is seeking experienced mechanics at our Wilmington, Delaware base. Corporate/business aviation experience strongly preferred. The following positions are available:

- Electricians (Aircraft)
- Maintenance Mechanics (A&P Required)
- Engine Mechanics (A&P Required)
- Quality Control Inspectors (A&P Required)
- Wood Finishers
- Cabinet Makers
- Sheet Metal Mechanics
- Painters
- Avionics Technicians

For immediate consideration, send resume, including work experience and salary history to:

ARINC is a $400-million company with a 70-year success story. We started by developing the VHF in 1929 to support rapidly growing commercial air traffic. Now, ARINC provides technological solutions in civil aviation, national defense, and transportation/communications networks to customers around the world.

Our Products
ARINC develops and operates communications and information processing systems and services that are essential to ensuring the efficiency, operation, and performance of the aviation and travel industries. We engineer, develop, and integrate hardware, software, and network systems to meet the increasingly complex operational requirements of government and industry.

Visit our Web site at
www.arinc.com

ARINC is an equal opportunity employer committed to workplace diversity.

Where to Apply
If you're interested in a job with a world-class, high-growth communication and engineering company, apply today to: ARINC, Dept. IO, 2551 River Road, Annapolis, MD 21401; fax: (410) 573-3201; E-mail: staffing@arinc.com.

Congratulation to the
Embry-Riddle
Aeronautical University
Class of 2001

All Ratings, Private Through ATP, In New Schweizer 300 Series Helicopters - Advanced and Turbine Transition Training In Bell JetRanger

"What differentiates us from other rotorcraft operators is our ability to offer competitive pricing while providing superior quality, aircraft maintenance and flight instruction. There is a substantial difference between the Schweizer helicopter and the B-22 (reference Special Federal Aviation Reg. 73, establishing special requirements for pilots operating B-22 or R-44 helicopters). Our records show the 300's are the fastest piston-powered helicopters on record.

Come visit our beautiful new facilities at Oceana Beach Municipal Airport to discuss a career flying helicopters."

Tomlinson, President and Embry-Riddle Alumni
UPAS Your Passport to an Aviation Career

UPAS works for pilots and employers

Offering the only custom software Human Resource Tracking System in the industry, UPAS helps match up employers with pilots that meet their qualifications. Pilots who join UPAS can update the information in their profile as experience is gained, and employers can search the database for candidates who meet their qualifications.

Join 18,000 other pilots in the industry's most efficient and effective employment network.

Join UPAS today and your qualifications will be instantly available to the recruiters at numerous major, national and regional air carriers. Including:

- Delta Air Lines
- Alaska Airlines
- TWA
- Air Wisconsin
- Atlantic Coast
- USAirways Shuttle
- Emyr Worldwide

FLIGHT INSTRUCTORS
Opportunities Abound in the Land of Enchantment!

It's a great time to be a flight instructor with one of the most highly regarded pilot training programs in the country. Pilot demand is high. Eager students abound. Mesa Pilot Development Program has flight instructor openings at San Juan College in Farmington, New Mexico, near the recreationally rich Four Corners area.

Fly/instruct in A36 Bonanzas and B58 Barons. CFI, CFI, Commercial/Multi rating, MEI preferred and no minimum flying time required other than 100 hours dual (given) preferred.

Flight instructors earn approximately $30,000 a year averaging 35-45 hours/week. Receive full benefits and future employment opportunities with Mesa Airlines, one of the nation's largest regional carriers. EOE

...we couldn't have done it without you...

To the SGA Executive Board,

Thanks for your continuous support and encouragement in making this year a success. Without your moral and financial support, the production of this book would not have been possible. We sincerely thank you.

~ The 2000-01 Phoenix Staff
Each day of our journey, we stretched our exhausted bodies out of bed as we began the new day; we pushed through our opponents on the basketball court as we leaped toward the net; we threw our arms into the air in exasperation at the end of a frustrating chemistry lab; we slapped our teammate’s hands as she scored the winning penalty kick; we pointed to the sky as our roommate flew a Cessna 172 overhead; we raised our arm to ask a question during our Meteorology class; we pushed through the final repetition of our 120-pound bench press in the University Fieldhouse weight room; we raised our drum sticks in unison with the rest of the Pep Band as the Eagles took a foul shot; we waved to our crush as she walked toward us smiling; and we realized something. With each leap into the air, each exasperated sigh, each question we asked, and each wave we offered to others, we treaded deeper into the path that led to the rest of our life. As we reached upwards, we knew that we were becoming closer to our destination.

by: ASHLEE FISER
I am very pleased to announce the senior who is receiving the Chancellor's Award -- Glaci Lacerda. Glaci Lacerda is graduating today with a Bachelor of Science degree in Aerospace Studies, Summa Cum Laude and a cumulative GPA of 3.97. Glaci has been an active participant and distinguished student leader throughout her Embry-Riddle experience. She has been on:

[The National Dean's List
Embry-Riddle's Dean's List every semester
Omicron Delta Kappa National Honor Society
Phi Theta Alpha International Scholaristic Honor Society
Coca-Cola First Generation Scholar Award
Embry-Riddle Outstanding Student Scholarship
The President's Advisory Board
Student Government Association
Student Representative to the Faculty Senate
On campus she has volunteered her time as:
Study Abroad Student Ambassador
Student Orientation Leader
Eagle Volunteer Network
2000 Senior Class Committee
ERAU Chapter of Int'l Society of Air Safety Investigators
International Student Services Volunteer Team
Big Brothers/Big Sisters Program in Daytona Beach]

Her most notable accomplishment is her work developing a student exchange program for the Summer A term, 2000 between Embry-Riddle and the leading aviation university in Brazil ....

Glaci participated in an internship with American International Group. Her plans include Project Management for International Business.

Glaci Lacerda clearly exemplifies a well-rounded, exceptional Embry-Riddle student and leader. I am pleased to recognize her many academic, professional and community achievements by presenting her this award.

Congratulations, Glaci, on receiving the Chancellor's Award for your outstanding scholarship and leadership. Best wishes for continued success with your career.

Dr. Connolly
Commencement Ceremony
Dec. 16, 2000
With my heart full of gratitude, I THANK those who have helped me achieve this milestone:

Ty Hines
Mr. and Mrs. Peitz,
My Family and Friends,
Embry-Riddle’s faculty and staff

Glaci Lacerda

Mark Takvorian

Mark,
From the moment we saw you, we knew that you would be a very special person. We are so very proud of your many accomplishments! Reach for the stars; they are there for you to take.

Love,
Mom and Dad

May your dreams take you as far as Jupiter. Congratulations on your college graduation . . . the 777 is awaiting your arrival!

Love,
Erika

J.T. Cappetta

Congratulations J.T.!!
We remember feeling proud when you won the Kiwanis essay contest, saved someone’s life at Water Works, and made the U.S. Ski Team in Colorado, to name a few. And now, we congratulate you on your graduation and feel proud of the man you have become. We watched you overcome obstacles, meet new challenges, work hard, and oh yes, play much along the way! You have a strong character, a kind heart, and a smile that lights up our lives.

Love you!
Mom, Dad, and Doug

"Somewhere, over the rainbow, bluebirds fly; Birds fly over the rainbow, why then, oh why can't I?"
Lyrics from "Somewhere Over the Rainbow," sung by Judy Garland
... we were

Before taking our final step on this worn path, we paused and took a deep breath, remembering all the twists and turns and unexpected detours we encountered along the way. Looking back, it seemed as though so much had happened since that day we embarked upon our journey to the azure sky, only eight months ago.

We ventured outside the classroom to experience the thrill of the annual Daytona 500, where we witnessed race legend Dale Earnhardt’s fatal crash. And we looked beyond the current fiscal year as the Master Plan 2010 got underway, with the set up of the Tomcat parking lot and the building of and continued construction to the Sports Complex. Joining others, we brought together our school spirit and energy for a festive Homecoming celebration themed ‘Riddle Reggae,’ with seniors Diana Rivera and Marcos DelOrbe crowned as queen and king. Over 170 of us climbed towards the cockpit of a Cessna 172 for our final flight before receiving our multi-engine license and completing the Aeronautical Science degree program.

Through generous donors, many of us prepared from the hundreds of thousands of dollars awarded by the Scholarship Committee for the upcoming semesters. And at the conclusion of the fall and spring semesters, 540 of us reached upwards to proudly grasp our Bachelor’s degrees at the graduation ceremonies.

As we took our last steps upon this well-treaded path, we looked upon the clear blue sky above, and knew that we had changed -- physically, intellectually, emotionally -- we were ascetically turning our heads back for one final glance, we realized that, with no path to guide us, our journeys had only just begun.

by: ASHLEE FISER

After completing their Fluids class, Aerospace Engineering students, Jennifer Myers (left), Terri Murphy and Charles Hatton throw their assignments into the air with exasperation. Engineering students were required to complete a series of classes including Statics, Solids, Dynamics and Fluids. photo by: Dave Wong

At the December graduation ceremony, David Wong triumphantly holds up his diploma after receiving his degree in Aviation Business Administration. Of the 330 Fall graduates, 30 received Bachelor’s degrees in ABA.

photo by: Brian Myrick

Lying on the lawn outside the UC, Aeronautical Science student Brian Upman rests his body and his mind after a stressful week of final exams. Spring semester finals, which lasted from April 19 – 24, represented only a glimpse of the demands put on students from the past four months.

photo by: Dave Wong
ascending!
Throughout the year, the Phoenix staff combined its creativity and ingenuity to produce this lasting piece of the year. Each element, from the texture of the pages to the design of the cover, came together to form the final product — one that could not have been achieved without attention to every detail. This book of memories began its formation over the summer on the living room floor of Andrew’s apartment, among emptied Olive Garden take-out boxes. It was there that fragments of our ideas slowly formed into the theme of this book, we were Ascending! As Walsworth sales representative Bill Hartley, in-house service representative Joyce Blanck and cover artist Mary Ellen Danko guided us, our cover and endsheets were created. Six 4-color photographs of well-known campus sites, taken at an upward angle by staff photographers Dave Wong and Ryan Martin, were placed in ascending order across the front and back covers. These pictures were Regular Embossed over a Matte Laminate Lithocote cover run in Maroon. Brite Silver Hot Foil was used for the title and frames on photos. The front endsheets were run on Standard White Stock in different percentages of a matching Maroon color. The body of the book was printed on Monarch Gloss paper and Smith Sewn bound. The folio was created in Adobe Pagemaker 6.5. Oliveoil and Berkley were chosen as the main fonts and used on the cover and on the divider pages. Body copy was 9 point Lynn, with 8 point Lynn for captions and 6 point Lynn Bold Oblique for photo credits. Each section editor put the finishing touches on his/her layouts using chosen fonts that complimented their layouts. Foxy for the headings and Lamar for the subheadings were Susie’s choices for the student life section. She also used Gunner and Jasper for the 8-page homecoming fold-out. Michelle and Adia chose Kent and Snooze for the seniors section, Cameron and Emilee for the underclassmen and Iron Maiden and Baskerville for the faculty section. Clubs/orgs section editors Aydin and Kelly chose to put their headings in Constance, while Mark and Henry used Fatback and Lunchbox for the sports pages. Finally, Sleepwalker and Lynn were used in the index section. Using Adobe Pagemaker 6.5 on one of only two Dell computers, editors worked frantically to complete formal layouts for submission to our publisher. As each section neared completion, the book began to take shape. Off we sent it to Walsworth Publishing Company in Marceline, Missouri, where 450 copies rolled off the press. As we flipped through the crisp pages of our newly created book, we recalled all the stress and late nights we encountered as a small staff of only 16 members. Our determination to produce a high-quality book was only surpassed by the endless support we received from the SGA Executive Board and our advisor, Dr. Brad Bennett. It was through the dedication and teamwork of the Phoenix staff that we bring you this book of memories to remind you of the 2000-01 school year long after graduation.
What happened? The Election at a Glance:

November 7 (Election Day): Shortly before 8 p.m. EST, the major television networks estimate Al Gore and vice-presidential running mate Joe Lieberman the winners.

With a too-close-to-call election throughout much of the nation, Florida becomes the key state in deciding the winner, as the next president will need Florida’s 25 electoral votes to win.

November 8: At 2:15 p.m., results from Florida begin to suggest George Bush carries the battleground state. Gore concedes the election to Bush, thinking Bush has at least a 50,000 vote lead. Forty-five minutes later, Gore gets word Bush’s lead has shrunk to only a few thousand votes, and retract his concession.

Due to the closeness of the election, the focus turns to questionable ballots and fair voting practices.

In St. Louis, Mo., a controversy arises over a lower court’s ruling to keep the polls open past the 7 p.m. deadline.

In Palm Beach County, Fla., an unexpectedly large number of votes for Reform Party candidate Pat Buchanan leads to questions about the legitimacy of the punch card-style “butterfly ballot.”

November 9: Gore’s team requests a hand recount of ballots in four Florida counties, Palm Beach, Miami-Dade, Broward and Volusia.

November 16: Bush’s lawyers submit written arguments to the U.S. Federal Appeals Court to end recounts.

November 22-December 8: Hand recounts and legal battles continue, making the word “chad” (the small piece of paper punched out of the ballots) a household word.

December 9: The U.S. Supreme Court halts the manual recounts and sets a hearing for two days later.

December 13: In a public concession speech, Gore states he no longer wishes to prolong the election, and yields the presidency, making George W. Bush the nation’s 43rd president, and the first chief executive since Benjamin Harrison in 1888 to claim the office with the majority of electoral votes but a minority of the popular vote nationwide.
Tragedy struck when Concorde, one of only 13 Concordes jetliners in use, caught fire upon takeoff and crashed into a small hotel in the French town of Genesse. The 109 people aboard were killed, as well as four people on the ground.

Barack Obama became the first active first lady of the United States to win an elective office when she defeated Republican U.S. Representative Rich Lazio for one of New York's U.S. Senate seats.

Elections in Yugoslavia turned angry when Socialist President Vojislav Kostunica lost to the people's choice Vojislav Kostunica, 35 percent to 55 percent. The election's close margin of error would have warranted a recount, but Milosevic refused to hold another election, declaring himself the winner. The outraged public rallied violently in the streets of Belgrade, and the riots combined with pressure from the U.N. and Russia finally forced Milosevic to concede the election to Kostunica.

In a stunning surprise move, Israeli Prime Minister Ehud Barak announced his resignation. Barak's popularity had dropped during the ongoing conflict between Israelis and Palestinians. Barak stood for re-election, hoping for a vote of confidence from the Israeli people, but lost to Likud party leader Ariel Sharon.

Many thought peace between Israel and the Palestinians would never happen, but the past year saw warming relations between the two countries, which are still technically at war. Images of North Korean leader Kim Jong Il entertaining South Korea's Kim Dae-jung at a June peace summit in Pyongyang were considered some of the most surprising news pictures of the year.
A nation mourned the lives lost on the Russian nuclear submarine Kursk, which sank to the bottom of the Barents Sea after being shattered by a huge explosion. Despite the prolonged rescue efforts of Russian and Norwegian divers, all 118 men aboard the Kursk died.

As the price of crude oil reached a 10-year high of $34 per barrel, angry truckers and farmers throughout Europe blacked oil depots and put a chokehold on much of the nation's fuel supply. The high petrol prices led to an unprecedented show of public dissent in European countries, particularly Britain.

Violence and tension in the Middle East escalated once again when the USS Cole, United States Navy destroyer was attacked while moored in Yemen for routine refueling. Suicidal terrorists on a small boat crept up and bombed the Cole, killing 17 United States sailors and Marines.

Bitter cold and freezing water did not deter an estimated two and a half million people who bathed in India's Ganges River on the first day of a Hindu religious festival. The Maha Kumbh Mela, or Grand Pitcher Festival, takes place every 12 years and sees millions of devotees bathe in the Ganges to purify their sins.

James Perkins, Jr., a former computer consultant, was chosen as the first-ever black mayor of Selma, Ala., with 57 percent of the vote in a runoff election. He defeated long-time Selma Mayor Joseph T. Smitherman, who was going for his 10th re-election.

A 7.6-magnitude earthquake devastated the suburban neighborhood of Las Colinas in El Salvador. More than 600 were reported dead. In Washington state, Salvadoran Americans numbering about 135,000 rushed to organize relief efforts while individuals coped with losing relatives and friends in the Central American tragedy.

Violence and tension in the Middle East escalated once again when the USS Cole, United States Navy destroyer was attacked while moored in Yemen for routine refueling. Suicidal terrorists on a small boat crept up and bombed the Cole, killing 17 United States sailors and Marines.

After 15 years of co-hosting with Regis Philbin on "Live with Regis and Kathie Lee," Kathie Lee Gifford bid farewell to the show. The 46-year-old entertainer, wife of former football star and Monday night sports announcer Frank Gifford, cited concerns about spending more time with her two young children, son Cody and daughter Cassidy, as reasons for leaving the show. ABC soap opera actress Kelly Ripa was selected as Gifford's replacement.

The Food Network brought popular Japanese cooking show "Hibachi" to the United States, where it quickly became a cult hit. The theatrical Japanese program featured an unusual combination of WWF Smackdown-type competition and gourmet cooking, pitting the world's best chefs against each other in a culinary battle using eclectic ingredients such as pork belly or giant edamame.

Web superstar Napster, founded and created by 19-year-old Shawn Fanning, was pulled into court as the Recording Industry of America sued to stop the extremely successful Internet music file-sharing company in aiding the distribution of copyrighted songs. The legal pressure led a federal court ruling for Napster to stop its users from trading copyrighted material and also to an alliance with German media giant Bertelsmann.

Two years after announcing he had Parkinson's disease, actor Michael J. Fox made his final appearance on the ABC sitcom "Spin City." Despite his degenerative disease, Fox saw the series through its 100th episode. Movie actor Martin Sheen took over for him, not as Fox's "Spin" character, but as a new deputy mayor on the show.

YOU SAID...

How often do you use Napster?

Never 36%  
Frequently 37%  
Once in a while 27%
became a pop-culture phenomenon with the summer debut of CBS's "Survivor" and "Big Brother." 

Richard Hatch was the first contestant to survive "Survivor," winning the $1 million grand prize. The shows feature screened contestants placed in real-life situations with no scripts or predetermined outcomes. MTV's "The Real World" was the predecessor to the popular "real" shows, followed by "Who Wants to Be a Millionaire," "Greedy," and "Making the Band."

New bride Britney Spears may have taken his eligible bachelor status, but People magazine had no problem crowning actor Brad Pitt the Sexiest Man Alive in 2000. Also named Sexiest Man Alive in 1995, Pitt is the first two-time title-holder since the magazine began its "Sexiest" tradition in 1985.

Despite pleas from the band for fans to move back because people were being pressed up against the stage, eight Pearl Jam fans suffocated in a mosh pit at Lollapalooza. A ninth victim died five days later in a hospital. Twenty-five were injured at the four-day festival, where approximately 50,000 people turned out to see 200 bands play.

The Beatles 1966 release "Revolver" has been named the greatest rock album ever in a poll conducted by the cable music channel VH1. The Beatles capped a list of the 100 best rock albums taken from a VH1 poll of 500 rock journalists and musicians, including Britney Spears, Jackson Browne, Elvis Costello, Roberta Flack, and Art Garfunkel. The Fab Four are still topping the charts with "1," a collection of all the Beatles' number one hits.

set a record for the most Emmys earned by a show in its first season. The NBC political drama won nine Emmys, including outstanding drama, at the 52nd Annual

The show surpassed the record previously held by "ER" and "Hill Street Blues." The NBC comedy "Will & Grace" also turned 11 of its nominations into awards, including outstanding comedy.

YOU SAID...

What is your favorite TV show?

1. Friends
2. The Simpsons

The show surpassed the record previously held by "ER" and "Hill Street Blues." The NBC comedy "Will & Grace" also turned 11 of its nominations into awards, including outstanding comedy.

11-year-old British actor "Tom" snagged the role of Harry Potter in the upcoming Warner Brothers movie, "Harry Potter and the Sorcerer's Stone."

Versions of ABC's hit smash "Who Wants to Be a Millionaire?" hit the airwaves in 31 countries, with more on the way. In India, a Hindi-language version became the country's most popular program ever.

After a high-profile bidding war with other filmmakers, Universal Studios finally won the prized rights to Dr. Seuss's popular children's story "How the Grinch Stole Christmas" when director Ron Howard impressed Seuss's widow with his take on the tale. Comedy icon Jim Carrey stole the show as the nasty green villain. A blockbuster smash, the movie was the highest grossing film of the year.

Film director "Steven Spielberg," American creator of "E.T.," "Jurassic Park," "Schindler's List" and "Saving Private Ryan" was given an honorary knighthood in recognition of his contribution to the British film industry. He did not become "Sir Steven," as knighthood per se is only for British citizens, but he was able to put the letters "KBE" after his name, for Knight of the British Empire.
More than 10,000 of the greatest athletes from around the world gathered in Sydney, Australia, to participate in the 27th Olympiad. Despite being dubbed "the best ever" by leaders of the International Olympic Committee, a 15-hour time difference between the United States and Australia kept many Americans from watching live as the United States came away with an unprecedented 97 medals.

Spectators beheld a dazzling opening ceremony, including the lighting of the torch by Australian runner (and native Aborigine) Cathy Freeman, who was later overcome with emotion when she won the gold for the women's 400-meter race.

Although the games received the lowest television ratings since 1968, many athletes gave inspirational performances.

United States sprinter Marion Jones fell short of her goal to win five gold medals, but still got the gold in the 100 and 200 meter sprints, and the 4x400 meter relay, as well as the bronze in the long jump and 4x100 meter relay, winning the medals in spite of the distraction of husband and shot put world champion C.J. Hunter's positive drug test.

Maurice Green, U.S. sprinter, not only took home the gold, but he also retained the title of "World's Fastest Man" after finishing the 100-meter sprint in 9.8 seconds.

In the water, Laura Wilkinson had a surprise victory over a superb Chinese team to move from fifth place to first and win the first U.S. gold in the women's 10-meter platform in 36 years.

On the mat, U.S. heavyweight wrestler Rulon Gardner toppled the undefeated Russian wrestling icon Aleksandr Karelin.

Medal-rich swimmer Lenny Krayzelburg and the U.S. men's relay team won the 400-medley relay in 3:33.79, lowering the mark of 3:34.84 set by Americans at the 1996 Atlanta Games. It was Krayzelburg's third gold after victories in the 100- and 200-meter backstrokes.
Having never played each other in the World Series before, the New York Yankees battled the New York Mets in what was dubbed the "Subway Series." Victorious at Shea Stadium, the Yanks defeated the Mets, 4-2, in Game 5 of the Series, becoming the first team in more than 25 years to win three straight titles.

The New Jersey Devils defeated the Dallas Stars, 2-1, in double overtime during game 6 of the Stanley Cup finals, earning the team their second Championship. The Devils took the best-of-seven series, 4-2. Devils captain Scott Stevens won the Conn Smythe trophy as Stanley Cup playoffs MVP.

The Baltimore Ravens stomped the New York Giants, 34-7, in Super Bowl XXXV, giving the city of Baltimore their first NFL championship in 30 years. Defensive player of the year and game MVP Ray Lewis led a defense that intercepted four passes from the Giants and held New York to total 152 yards. The second and third touchdowens on three plays late in the third quarter were back-to-back kickoffs returns by New York wide receiver Ron Dixon and Baltimore wide receiver Termaine Lewis, creating a Super Bowl first.

The Kansas City Wizards downed the Chicago Fire, 1-0, for the MLS Cup at RFK Stadium in Washington, D.C. The win was a surprise comeback for the Kansas City team who finished last in 1999, and had not been to the MLS post-season since 1997. With 12 saves in the Chicago game and a record 16 shutouts in 2000, Wizards goalie Tony Meola had one of the best seasons of any player in MLS history, earning MVP honors from MLS and Honda, as well as Aqualina Goalkeeper and Ace Comeback Player of the Year awards.

After three and a half years off the ice, Hall of Fame hockey center and former team owner Mario Lemieux returned to play center with the Pittsburgh Penguins. Lemieux was responsible for leading the Penguins to consecutive Stanley Cup championships in 1991 and 1992. He also brought the financially strapped team out of bankruptcy last year, becoming the first former player from the four major North American sports leagues to own a team.

The Texas Rangers made shortstop Alex Rodriguez the highest-paid player in baseball history when he agreed to a 12-year, $252 million contract with the team. The 25-year-old All Star previously played for the Seattle Mariners.

You Said...

What sports figure would you name MVP of the year?

1. Tiger Woods
2. Kobe Bryant
3. Randy Moss
4. Marion Jones
5. Michael Jordan
The Houston Comets pulled ahead in overtime for their fourth straight WNBA Championship with a 79-73 victory over the New York Liberty, making Houston the first professional basketball team to win four straight titles since the Boston Celtics captured eight in a row in 1959. The Comets defeated New York 2-0 overall in the series with the help of four-year MVP Cynthia Cooper, who hit a 3-pointer with 21 seconds left, forcing the tied game into overtime.

Indianapolis University’s volatile basketball coach Bobby Knight was dismissed after 29 years of leading the Hoosiers. Knight was fired for “a pattern of unacceptable behavior” and for allegedly grabbing and swearing at a student, violating the “zero tolerance” policy instituted by university president Myles Brand. Thousands of devastated students protested the decision.

The Los Angeles Lakers beat the Indiana Pacers four games to two to win the NBA Championship. The win marked the team’s seventh championship, and coach Phil Jackson’s first win without Michael Jordan. Jackson’s New Age coaching style, which included meditation combined with his triangle offense and suffocating defense, led the Lakers to a league-high 67 wins.

Sports Illustrated magazine’s Sportswoman of the Year Venus Williams proved power ruled in 2000. The female tennis phenomenon captured the ladies singles title at Wimbledon, not only claiming her first Grand Slam victory, but also becoming the first female black champion at Wimbledon since 1958. She and younger sister, Serena, teamed up to win the doubles crown at the All England Club. Williams later went on to win the U.S. Open, and take the gold in both singles and doubles (with Serena) at the Sydney Olympic Games.

Named Sports Illustrated magazine’s Sportsman of the Year, golfer Tiger Woods continued to set amazing records in 2000. Woods is the only athlete to earn the “Sportsman” title twice, the first golfer to win nine PGA Tour titles in a year since 1950, the second ever to win three professional majors in a single season, and, at 24 years old, the youngest of five golfers to complete a career Grand Slam.
Demonstrating the convenience of e-commerce, former computer systems manager Mitch Maddox rented an empty apartment in Dallas, and, armed with only a laptop, lived exclusively online for a year without leaving his apartment. He ordered everything online, from food and furniture to a personal artist who decorated the apartment. The 26-year-old Maddox changed his name to Tom Riddle and hosted a 24-hour live feed of his experience.

After years of urging recruits to "Be all you can be," the Army decided it was time to update their image and change slogans. Targeting recruits between the ages of 18 and 24, the Army launched new promos focusing on technology, training, benefits and the individual with the new tagline "Army of one." The old slogan was ranked the second best advertising campaign of the 20th century.

Sony's much-anticipated PlayStation 2 game console was released, but much to the disappointment of waiting gamers, a production delay caused demand to far outstrip supply. The coveted console has DVD and CD playing capabilities, advanced graphics, and the capacity to connect to the Internet.

Lee Muren, was granted a full scholarship from the New York Times to attend Harvard University. Homeless for several years after her drug-addicted parents lost their house, Muren finished high school in two years while camping out in New York City parks and subway stations. Her single dorm room at Harvard was her first steady lodging in four years.

Lee Muren, the 32-year-old Gulf War veteran convicted of murder in the April 1995 truck bombing of the Alfred P. Murrah federal building, was sentenced to be executed by lethal injection. The bombing killed 168 people in what was considered the bloodiest terrorist attack ever on U.S. soil.

EarthLink, the world's largest Internet service provider, stunned the world with the news it planned to merge with the world's largest media company. The $18 billion deal is considered the largest corporate merger in U.S. history.

Mari Tirotta Andrews gained international notoriety when she brought her pig, Charlotte, on a Boeing 757 airplane flying nonstop from Philadelphia to Seattle. The pig joined her owner in first class, having been granted “service animal” classification usually reserved for seeing-eye dogs. Andrews, who suffers from a heart condition, brought the pig along on her doctor’s recommendation, claiming Charlotte helped her feel more relaxed.

Nearly 100,000 mothers converged in Washington, D.C. and nearly one million rallied across the country in the
The demonstration was meant to put pressure on Congress to enact tougher gun control laws, while memorializing those senselessly killed by gun-related violence.

One of the hottest holiday items of the year, the turned out to be more hazardous than fun. More than 120,000 scooters were recalled due to complaints the handles unexpectedly came out of the steering column, causing riders to fall. The U.S. Consumer Product Safety Commission reported nearly 10,000 people, mostly children, were treated in hospital emergency rooms for scooter-related injuries by the end of the year.

“Caring capitalism” yielded to creamy profits when
otherwise known as the hippie co-founders of Ben & Jerry’s ice cream, finally sold their company to multinational conglomerate Unilever, despite public protests of “don’t sell out!” Childhood friends Cohen and Greenfield founded the company in 1978.

U.S. District Judge Thomas Penfield Jackson ruled for the breakup of
the world’s largest software company, stating it was a monopoly and had operated illegally using anticompetitive means and attempting to monopolize the Web browser market in violation of the Sherman Antitrust Law.

The commandant of the Marine Corps grounded all aircraft activity following a crash in North Carolina that killed four Marines. The crash was the second fatal accident for the troubled $40 billion program. In April, an Osprey crashed while attempting to land after a test mission, killing all 19 Marines aboard. At $82 million apiece, the aircraft is part of a new generation scheduled to eventually replace all of the Marines’ primary troop-transport helicopters.

Both Honda and Ford suffered major blows after Firestone, a unit of Japan's Bridgestone Corp., was forced to recall six and a half million 15-inch ATX, ATX II and Wilderness tires, most of which were mounted on Ford Explorers. The faulty tires separated from their threads, causing major accidents, personal injury and more than 100 deaths. The recall is one of the largest in U.S. history.

The Army tested the newest, bigger mobile howitzer intended to replace the Paladin. The $23 million system can travel up to 29 miles per hour, with a shell distance of 25 miles. It can also fire a series of 100-lb. shells in rapid succession at different trajectories so that the shells all land in their target zone at the same time.

A statue of wheelchair-bound Franklin Delano Roosevelt Memorial in Washington, D.C. Only two pictures exist showing the President in his wheelchair. Stricken with polio at age 39, which caused him to lose the use of his legs, Roosevelt kept his handicap a secret for political reasons. The National Organization on Disabilities fought for six years to get a statue that showed the President as he lived.

Unusually cold temperatures and the lights of the holiday season put a crunch on the exorbitant electricity prices coupled with the threat of rolling blackouts angered consumers, who were urged to conserve power, and even turn off holiday lights. Despite a cap on the state's utility rates, the California Public Utilities Commission approved a 26 percent rate increase to help the two largest utility companies out of $9 billion dollars of debt. Blackouts throughout the area caused local merchants to suffer and lose revenue.

Six and a half million acres burned in fires that raged across 12 western states throughout the summer, including Montana, Idaho, Wyoming, Arkansas, California and Nevada. In Montana alone, firefighters were mobilized from 38 states, Canada, New Zealand, Australia, and numerous military units to help battle the blazes.

The University of Surrey in Britain has appointed the world's first-ever professorship in the study of in-flight catering. The professorship is being established through a grant from the International Flight Catering Association.
Later generations know him primarily for his role as Ben (Obi-Wan) Kenobi in the 1977 film “Star Wars,” but British actor Alec Guinness was also an Oscar-winning talent known to many as the “man of a thousand faces” for his ability to play and look like a variety of characters.

The death of Dale Earnhardt, dubbed the greatest driver ever, came as a shock to NASCAR fans nationwide. Also known as “The Intimidator” for his aggressive attitude on the track, Earnhardt died of head injuries in a 142-mph crash during the last lap of the 2001 Daytona 500.

Latin jazz musician, 77

Named the original “Mambo King” in the 1950s, Puente was a bandleader and percussionist who helped define Latin jazz. He recorded more than 150 albums and won five Grammy awards.

Archbishop, 82

Known best for his work on behalf of the poor and his ministry at St. Patrick’s Cathedral in New York City, Catholic Archbishop Cardinal O’Connor was a national figure, with influence and friendships among world leaders.

Probably known best for his role as Oscar Madison in “The Odd Couple,” both on Broadway and in the movie, Matthau brought his dry humor to the stage, television and many movies, including “The Fortune Cookie,” “Grumpy Old Men,” “IQ” and “Dennis the Menace.”

A syndicated columnist and bestselling author once called America’s “most visible black journalist,” Rowan was known for his columns exploring race relations and was a champion of civil rights. Rowan also served as director of the U.S. Information Agency under President Lyndon B. Johnson, and as the U.S. Ambassador to Finland from 1963-1964.
