WOMEN PERMITTED IN DORM NOVA COUNCIL ESTABLISHED

On Thursday, September 19, a meeting was held at the poolside of the Nova Road Dormitory. This meeting concerned the possibility of forming a self-governing dormitory.

Since then a dormitory Council has been established on a volunteer basis. Headed by Carl Diefenbach, the Council has held several meetings, discussing everything from room damage complaints to female visitors. The Council, comprised of three representatives from each building, has drawn up revisions to the existing rules and will ensure, regulate and enforce their new policies under the authority of the Administration.

The first objective of the Council was to enable the residents of Dorm #2 to have female guests during specified hours. The Council decided on the hours of 6:00 p.m. to 11:00 p.m. Monday through Thursday, 12:00 noon to 1:00 a.m. Friday and Saturday, and 12:00 noon to 11:00 p.m. Sunday.

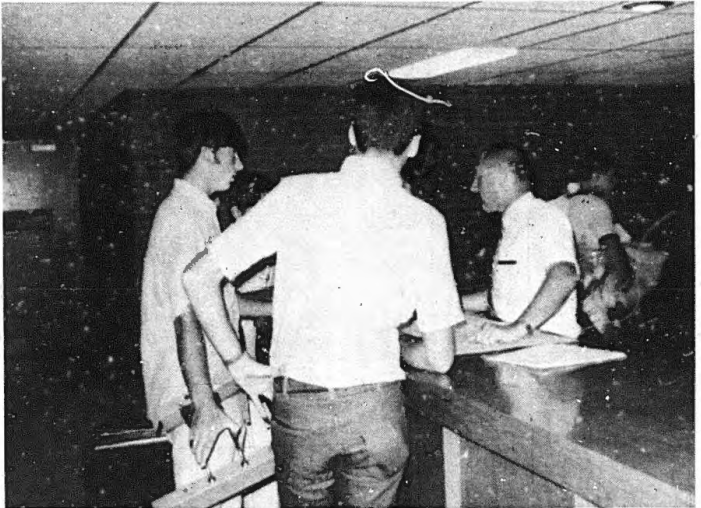

A guest register will be provided in the front office of the Dorm, accompanied by a Council representative during visiting hours. All female visitors must be signed in and out by their escorts. No female under the age of 18 will be allowed in any room.

The Council is acting in behalf of Dorm #2 residents and, therefore, the cooperation of these people is expected. The Council urges your support in maintaining an adult atmosphere commensurate with adult privileges.

THE NEW DORM ACROSS THE MOAT

THIS IS THE FRONT VIEW OF THE NEW DORMITORY LOCATED ON THE CORNER OF CLYDE MORRIS BLVD. AND CATALINA ST. THE NEW BUILDING WILL HOUSE 386 STUDENTS. IN THE PLANNING STAGES IS AN ADDITIONAL WING AND A CAFETERIA.

STUDENTS CHECKING INTO THE NEW DORM

ON SEPTEMBER 26 STUDENTS STARTED MOVING INTO THEIR NEW DORMITORY. THEIR ROOMS HOUSE TWO STUDENTS AND FOUR SHARE A LAVATORY.

SPEAKING OUT

The opinions expressed in this paper are not necessarily those of the Institute or all members of the student body.

the president's corner

Dear Students,

The new SGA is off to a roaring start. Social events are in the making and already several problems have come before the Student Council. The new Council can only be termed enthusiastic on the students' behalf.

In the next issue the INFORMER will print the candidates for the offices of president, vice-presidents, secretary, and treasurer. Hopefully, the Council members will sign up for office soon. To date only one man has volunteered himself.

The Nova Road Dormitory Council has shown great promise. Dean Spears has accepted the recommended rules. Now the Nova Road residents should give serious consideration to the need of a Dorm Council Constitution and operating laws. This is to insure that the Council will be a permanent body representative of the dormitory and able to continue to carry out the students' will. The gain already accomplished by the Dorm Council is admirable. Keep up the good work.

Cam McQuaid

FROM THE SUGGESTION BOXES

EDITED BY RAY LOEHNER

What's the difference whether or not the parking stickers are placed on the front or rear of the car? All of the cars here usually back into parking places, thus hiding the sticker from the rear. When I came here in August and registered my car, it was not specified to me where to put the sticker, so I put it on the front windshield, and I've noticed many other cars with them in the same place. What's the difference where they're placed, as long as they are visible?

Bob Urbon

Ed. The main reason for having the parking sticker placed on the rear of cars is for standardization purposes. If the campus patrolmen have to search a half hour on each car for a sticker, the vehicle parking illegally would never be ticketed. Also, in the Student Handbook 68-69, it was plainly stated where the sticker is to be placed.

We have come to the conclusion after sitting on the floor in the library, that we need more chairs. How can something be done about this?

John Lewis
Bill Morrison

Ed. This will be turned over to the SGA for consideration. By the way, there are open class rooms in the Academic Building where students can sit and study throughout the day.

What is in store for Riddle students in the way of Bar-B-Ques, dances, etc.?

Is there a schedule out for students so they can make plans?

No?

Well, how about getting on the stick and putting one out for us?

(Name Withheld)

Ed. A dance has been planned by the new SGA for the 19th of October. Further information will be in the INFORMER and on the SGA Bulletin Board. The schedule is in this edition; just keep turning

Dear INFORMER,

As a student with a car, I suggest something be done with the cables behind the Academic Building. It's a nuisance climbing over and under them. If they would take them out and replace them with phone poles on the ground, it would save many complaints.

(Name Withheld)

Ed. Your ideas will be placed as a resolution in the proper SGA committee.

Oh, Most Omniscient Informer,

The presence of such a large number of females at Embry-Riddle is inconducive to study.

The phasing out of the Aero-Commander 100's is astonishing, unbelievable, and illogical.

The Capri Theatre should be declared off-limits to ALL Embry-Riddle students.

My profound thanks,

Lawrence Gallagher, III

Ed. You're welcome!!

EDITOR'S COMMENTS

We recieved a letter from "Enfrom" asking what the meaning of "Fubar" is. Under our policy, we cannot print any letter that does not have a signature. However, we will answer the question.

"Fubar" is an acronym extracted from military graffite meaning "Fouled up beyond repair".

Would you please explain the meaning of "Enfrom", which appears at the end of your letter? By the way, please sign it.

Mr. Maklavic has told me that a service man will be repairing the water fountains around campus (including Building 14). Also, Dr. SAIN will send a work order to Mr. Maklavic for pencil sharpeners in all classrooms. In about two weeks 200 of the 600 new tablet chairs will be arriving for Building 14.

Don't worry, students, we're thinking about you.

COURSES AT ERAI

BY BOB NAWROCKI

Contained in Embry-Riddle's curriculum are courses in all divisions which are unknown to many students attending this institution. From time to time I will try to sift out the most overlooked but informative courses and try to present them to the students. From this

article you may get a better picture of the different courses offered in divisions of Engineering, Aeronautical Science, Management, Technology and Flight.

This week I would like to enlighten the students, especially those in the Engineering curriculum, about a course called "Special Topics in Engineering". (ES-450) This course includes lectures, laboratories, or seminars on selected topics in Engineering Science. The only prerequisite is the consent of the instructor.

Special topics is a course of two basic aims:

1. It accomodates special interests of the students. This means that students are allowed to pick an area which maybe of special interest to them and use this as their course outline. (upon agreement with instructor).
2. It offers special selected courses or topics of interest not part of the regular curriculum but which meet the requirements of a certain group of students.

In previous special topic arrangements, students have studied, and

TOO BAD PATRICK HENRY
CAN'T COME BACK AND SEE
WHAT TAXATION WITH REPRESENTATION IS LIKE.

done research on some interesting areas. These include:

- Dynamics of Gyroscopes
- Landing Gear Design
- Use of plastics in Aero Space Systems
- Special Test Equipment for Wind Tunnel Use
- Water/Air Analogy of Supersonic Flow
- Design of Dryer for Air in Subsonic Wind Tunnel

Some of the projected course offerings in special topics include: Course in A/C Stability Control, Automatic Control of Missles, Seminar on Thermodynamics, Introduction to Dynamic/Measurement Techniques, and Analysis of Engineering Data.

I believe special topics to be an interesting addition to the Engineering curriculum and one which allows the student to express his own views on an array of technical subjects.

SGA BRIEFS

* * * *

The 1st regular meeting of the Student Council was held in Room 200 of the Academic Building. Twenty-six of the newly elected members were in attendance and individual pictures were taken for use on the representative posters.

* * * *

Brent Bruns is the chairman of the newly formed social functions committee. He states that his first social activity is scheduled for October 19th. Roy Skinner, Terry Miner, Boyd Curry, Pete Havrilla and Roger Harwood will assist in making arrangements.

* * * *

Problems at the Holiday Inn were discussed, Peter Daly motioned that the SGA should investigate the complaints, and recommend some corrective action. Dean Mansfield and Dean Spears are meeting with the officials of the Inn Thursday at 9:00 a.m., to rectify this situation.

* * * *

The candidate roster for election of officers is in the SGA Office. A ballot will be prepared by next Tuesday. Election of the officers will take place on Wednesday, October 9th. Bruce Rozett is the chairman of the election committee, which will insure that election procedures are followed.

* * * *

Cam McQuaid and Jan Collins met with President Hunt to discuss student participation in the fund raising drive which is being organized. Terry Miner is to meet with the Board of trustees on the same subject.

WE SUGGEST YOU PATRONIZE
OUR ADVERTISERS

Partially-baked Ideas
by **FUEBAR**

I have it on good authority that the assignment for one economics class is to set up a business on paper with attention to such details as financing, personnel, production and marketing. Undoubtedly about 85% of these businesses will be airlines, ferry services, air taxis, fixed base operations and other projects that show a lack of imagination.

The truly enthusiastic management student will put his mind to work on more practical and feasible projects. Just by looking around the Embry-Riddle campus one can find a multitude of opportunities for really workable enterprises.

Competing with the bookstore should not be too hard. Presently the bookstore finds that it can make unreasonable mark-up on books and supplies because it is too inconvenient for a student to shop all around town for supplies.

Overhead for the outlaw bookstore could be cut to a minimum by pitching a GP medium tent on the lawn to the west of the library. A meager 8- to 10 percent mark-up would be sufficient to defray costs, insure a tidy profit and still cut ERAI

by about 80¢ per book. Even if profit is not as high as you would like for the first several months, the satisfaction of giving students the service they deserve at prices they can afford will be worthwhile.

Another fact of life at ERAI is that many of the students do not have cars. To these students the problem of eating at lunchtime is reduced to about three alternatives. They can wait endlessly for the bus to pick them up and deliver them to a local eatery where they will wait endlessly for a bus to get them to class late. Or they can subject themselves to the Airport Cafe which is nearly as prohibitive to the student pocketbook as the bookstore. Or they can join the long lines in the Student Center to look longingly into the empty windows of Tioga's slot machines. Does this suggest something to anyone?

For those budding entrepreneurs who are interested more in manufacturing than sales and service, I have designed and blueprinted a vehicle I call the Riddle-Buggy. It is a surplus T-34 tank minus 75-mm gun with a fiberglass body and pontoons installed. This, in my opinion, is the perfect transportation for the ERAI student. Our parking lot is such that you need the pontoons when it rains and the treads when it doesn't. Bids are open.

EMBRY-RIDDLE

MEMORANDUM

UNAUTHORIZED TRAFFIC
ON AIRPORT

Mr. Charles Boothe, Airport Superintendent reports that ERAI students have been walking, and in some instances driving, across Runway 16 between our flight area and the new dormitory.

This practice is extremely dangerous both to the offenders and to operating aircraft, and a cause of great concern to the Airport management and Control tower operators.

Please have the following announcement made to all classes and posted on appropriate bulletin boards under your control:

Pedestrian and vehicular traffic on the runways and taxi-ways of the Airport are prohibited. Violators imperil their own safety and that of operating aircraft, and are subject to arrest.

SIGMA PHI DELTA

BY BOB NAWROCKI

Last Saturday, September 28th, Pi Chapter held formal initiation of seven new brothers into the fraternity. The festivities included a banquet at the Holiday Inn West and a party following at the Frat House. Dean Spears, Dean of Men at Embry Riddle Aeronautical Institute, was guest speaker at the occasion. He gave an interesting talk on "The Task of the Special Forces in Viet Nam." The talk was very informative and I believe all present were enlightened on the subject. Dr. Ritchie, Head of the Research Department at the Institute was at the banquet along with Mrs. Ritchie. Dr. Ritchie is Pi Chapter's Faculty advisor. We were also honored by the presence of one of our very active alumni, Mr. Harold Kosola. Harold is employed as a field representative with Piper Aircraft in Vero Beach.

Mrs. Spears was also present at the occasion and honored us by tapping her first "keg" of nails? At the party which followed. Thank you, Mrs. Spears!

Our sincere congratulations go out to all the new brothers. We hope that their active membership may be both profitable to them and the fraternity.

We wish to welcome to our fold three new pledges. They are:

- Rick Wilbur
- Ron Alberts
- Charles Hoover

We hope their pledge period will be as profitable as the preceding one.

On October 17th, four brothers, along with Dr. Ritchie, our faculty advisor, and Mr. Kosola will fly up to Angola, Indiana for the Eastern Province Convention of the Fraternity. The brothers embarking on this trip will

be Don Nichols, our Chief Engineer, Vic Wahlberg, Business Manager, Dave Getman, Vice-Chief Engineer, and Bob Nawrocki, Assistant Delegate. We all hope they gave a good time and that the convention proves profitable to the chapter's standing.

Until next week then, we will keep plugging to bring you more information about Embry-Riddles' only professional organization on campus.

PI SIGMA PHI

BY RICHARD COOK

Our pledge party came off very well last Friday. It started relatively slow, but the pace picked up after the Animals show let out. Needless to say, a good time was had by all.

Now we are getting down to the job of organizing and running our fraternity this fall. Nothing definite yet of course, but a couple of parties and a few other functions are planned. There is also going to be fun with the pledges and some practical jokes. Keep an eye out for them in the coming weeks.

This Sunday will be the day of the football game of games, Phi Sigma Phi versus the friendly engineering fraternity, Sigma Phi Delta. We both lost last Sunday and neither of the teams were very happy with the mud and rain. The solution decided on for rainy Sundays is to

give each player a can of "Bud" and play the game over the telephone.

Kidding aside, we are going to play the real thing, or as real as flag football can be. It's going to be a fun game so come out and cheer.

As I said, we lost last week's game by an embarrassing 65-14. Scott Kramer's team put on a good show. Our fleet footed brother Ray Palant put us on the score board, with both touch-downs last week and our only one the week before, with Spruance and Eckenrode going for the extra points.

The Fraternity does this week were of the quiet nature with dates and studies predominating.

An exception was Larry Grondski's and my trip to Cape Kennedy to watch the Titan 3C launch Thursday morning at 3:37. It was truly beautiful and well worth the drive and lost sleep.

Next week I will have more information on the pledges and their activities.

See you on campus.

COLONEL DEADLY DEFENDS SANDBURRS

BY GARY ANDERSON

One of the most frequent complaints voiced on campus lately is the problem of the sandburrs. Anyone who has been pierced by these little devils in the parking lot or accosted while on the way to the showers from gym know they can be rather annoying. I wasn't too concerned about the whole thing until last week at football practice when I was forced to watch two of my teammates and a water-boy assassinated by a group of them. Somewhat shaken by the experience, I hurried down to the office of Colonel Dan Deadly, U.S. Army Retired. Colonel Deadly is the Dean of Sandburrs here at Riddle:

"Colonel, what do you intend to do about the sandburrs?"

"Well, we've got big plans for them. First of all we're planting them in the student center. . ."

"Colonel, I don't think you understand. We don't like sandburrs."

"That's impossible! Everyone loves sandburrs. God must have loved sandburrs, He made so many of them."

"But they get on our socks and in our shoes and make us bleed."

"So does the financial office but nobody wants to get rid of them."

"This may be true, Colonel, but isn't there anything that you could do with them?"

"Why don't we have the cook at the Holiday Inn see if he can prepare them?"

"That may not be a good idea. He's still got problems with preparing water."

When I left, I warned Colonel Deadly that if steps were not taken immediately that there would be more burrs than people. He promised that he would investigate the situation. Two days later he was reported missing in the area of the soccer field. An

extensive search was begun immediately. So far, however, all that has been found is a rather large sandburr wearing a good conduct medal. It appears to be suffering from acute indigestion. ●●●

JAMES GEBHARDT DRIVES HIS PORSCHE TO A 1:29 FINISH AT SPRUCE CREEK AND TAKES SECOND OVERALL TIME OF THE MEET.

Larry Grondzki's MG took two firsts at the Spruce Creek gymkhana. Larry drove it to first place in D class, and later his girlfriend drove it to the top spot in the ladies' class.

SOCCER

Last week's effort finally produced a team in the second half of the game against Naval Air Station at Glynco, Georgia, on Sunday, September 29. Despite the slippery field and the peculiar wind currents next to the dirigible hangar, the Eagles managed to get thirty shots at the "Flyers'" goal and four of them counted. The Navy had many fewer attempts, but two of them got past our goalie. Only fourteen players made the trip and,

therefore, this game was a real test of the eleven.

Hopefully, the cheerleaders will get into action soon. The start of our collegiate season kicks off at the University of Florida at Gainesville, at 10:15 a.m., Saturday, October 15. Maybe the Alpha Eta Rho Eagle can get hatched before our first game in this area at Stetson University, Wednesday afternoon, the 9th of October. We hope that a good number of students will travel to Stetson to cheer the team on. It would be appreciated.

GUTTER TALK

BY JOHN LEBLANC
AND GILL GAUTHIER

Well, the Embry-Riddle keglers are at it again. Wednesday nights at 9:15 they can be found at Halifax Bowling Lanes, doing what comes naturally.

I can see Bill Ford up in the 10th frame trying to make it. Oops! He didn't make it. Gill Gauthier shot a 182, not good enough for the pot.

GUTTER TALK CONT.

IS THERE A BETTER WAY?

OF COURSE THERE'S A BETTER WAY.

WE CAN'T BE AS CLOSE TO YOU AS YOUR HOME TOWN
BANK-- BUT WE'LL TRY. HAVE A NICE DAY --
BANK BIG "C" ALL THE WAY.

COMMERCIAL
BANK AT DAYTONA BEACH
DAYTONA BEACH, FLORIDA
Member Federal Deposit Insurance Corporation

GUTTER TALK CONT.

Vern Peterson upped his average by 28 pins, so he says.

Bowler of the week goes to Rick (Fury) Giesbrand, because he said he deserved it.

Welcome to two new teams; #13, A. Jensini, R. Vagnozzi, V. Vogt; team #14 K. Backer, B. Palesch, and D. Connor.

Fred Weiler shot a 179, not good enough to beat the high man, Mark Baker, who shot a 211 to wipe out the competition. Everyone watch Mark. Ken Baker, who by the way is not related to Mark, went the opposite way and shot a 243, (that is total for three games.) Better luck next week, Ken.

And now for the height feature. Jim Pflaum, a member of the bowling league has something new. Jim's wife gave birth to a 9lb., 2oz. baby girl at 5:15 a.m., Wednesday, September 26. Keep the ball rolling, Jim.

NEW ADDED ATTRACTION

Two brand new Mooney Rangers have been added to Embry-Riddle's flight line. These 180 h.p. aircraft with pitch control and electric retractable landing gear will aid the flight program by being used as transition trainers. The aircraft has a faster air speed and easier handling ability. It will give flight students experience at handling a retractable gear type aircraft.

Happiness is grafitti on the desks?

★★★

BOB'S OPINION POLL

BY BOB WISHNEK

I have been riding on the school bus system for the past week. During this time I have noticed that students seem to be dissatisfied with the bus service. The bus drivers are also unhappy with existing conditions. Under the current schedule the buses run every half hour during the rush hour period. For the rest of the day they run every hour.

Rush Hours Are:

- 7:00 - 8:00 a.m.
11:00 - 1:00 p.m.
5:00 - 7:00 p.m.

The schedule might work if the bus that makes the hour run would ever show up.

The bus drivers proposed a new schedule that would place a bus at each stop at twenty minute intervals with individual trips taking 20 minutes. The bus that currently runs on the hour would make runs at 40 minute intervals. This proposal was turned down by the Administration.

Students, if you favor this new proposal express your opinion to the poll that will be taken soon. SPEAK OUT FOR WHAT YOU WANT! □□□□

TELL THEM RIDDLE SENT YOU

HOW WELL DO YOU KNOW YOUR STAFF AND FACULTY?

by TBA

The purpose of this light hearted exercise is to test your knowledge of some of the personalities around the campus. Simply write down the name of the individual who you would associate with the following sentences or phrases.

1. "Balderdash!"
2. Sing along with me!
3. Comely and a blue corvette.
4. "The purpose of the drill,"
5. May be observed scratching left ear from behind with right index finger.
6. He surfs and is called "kahoona" at the beach.
7. "You will have to speak to the department head," or he is simply down in Miami.
8. "Glad to see you!" or "You know it's the fifth of the month."
9. Administrative Assistant with a strong aversion to hair growing from chins.
10. Smiling, cherubic man from the flight-line who actually likes students and/or bowling.

Answers may be found on Page 13. Score one point for each correct answer. If your total score was 0-2; you are like everyone else. If 3-5; you are quite observant. If 6-8; you may consider yourself

GANDHI CENTENARY CELEBRATIONS ESSAY COMPETITION,

The Sub-Committee formed in India for the celebration of the Gandhi Centenary abroad will conduct an Essay Competition during the Centenary celebrations.

The subject of the Essay is: **GANDHIJI AND THE EMANCIPATION OF MAN.** The Competition is open only to foreign nationals and not to Indians. Terms and conditions for the Competition are given below:

a. Two prizes will be awarded to students and two to the general public on a worldwide basis in each of the five languages mentioned below in (c.) For this purpose, the term students will be defined as bona fide students of any educational institution in the age group 16-24. Those above 24, whether students or not, will be treated as members of the general public.

b. One economy class return air fare for a month's trip to India in October 1969 will be offered as a prize. The entire expenditure during stay and travel in India will be met by the Sub-Committee for the Celebration of the Gandhi Centenary Abroad.

c. The essay will be written in English, French, Spanish, Russian, or Arabic.

d. The length of the essay should not exceed 8,000 words.

e. The last date for receipt of entries is January 31, 1969.

f. Names of prize winners will be announced on August 15, 1969.

Competitors in the USA may kindly send their entries, in triplicate, in a sealed cover to Miss K. Nair, First Secretary (Education), Embassy of India, 2107 Massachusetts Avenue, N.W., Washington, D.C. 20008, who will forward them on receipt to the Secretary, Sub-Committee for Celebration of the Gandhi Centenary Abroad, in New Delhi.

Dear President Hunt:

As you know, the birth centenary of Mahatma Gandhi is being observed from October 2nd, 1968 to October 2nd, 1969. India has planned the celebrations on a very wide scale and UNESCO has passed a Resolution calling on all Member States to join with her in this commemoration.

We have pleasure in sending you details of the world-wide Essay Competition, which is one of the many events planned in India for this occasion. The subject of the essay is:

"GANDHIJI AND THE EMANCIPATION OF MAN"

The last date for the receipt of entries is January 31st, 1969.

The Competition is open to students and the general public on a worldwide basis and I enclose for your information a leaflet giving full particulars regarding the Competition.

As you will note, it is open to all residents of the U.S.A. Only those who are of Indian nationality are not eligible to compete, since this is basically an Essay Competition meant for our friends from abroad. I thought I would mention this specifically as the term "foreign nationals" mentioned in the general circular enclosed refers to nationalities other than Indian.

We are sure you will want to give this Competition the widest publicity on your campus.

I would appreciate a line in acknowledgement.

Yours sincerely,

K. Nair (Miss)
First Secretary

HELP

If you have a desire to do something for yourself and Embry-Riddle, the opportunity awaits you.

Our yearbook has 16 pages of color photography and no one to put it together. It is in great danger of faltering due to lack of help from the student body. If you have any experience in this line of work and are willing to give a little of your time for a good cause, please be at the next meeting. It will be held in the Engineering Building next Tuesday, October 8th at 8:00 p.m. Even if you have no experience in this line of work your help would be appreciated.

CONCERNING THE PARKING LOT BY CHARLES H. CASWELL

My sincere apologies to the students of this division, many others of the Institute and to visitors for the deplorable shape of our parking lot.

This condition has existed for more than a year despite innumerable requests, demands, threats and other pressures by Maintenance Technology Administration. All have been met with double-talk, buck-passing or at best with "half-fixes". So we're left with a swamp or a desert - depending on the season.

Maintenance of the lot, I am told, is the responsibility of the "City" and/or the "Airport". But no one has been able to tell me the difference between the two.

But a ray of hope! At the time of my most recent growl - this one to Mr. Mondschein - he came up with the idea that the Institute make permanent repairs and deduct the costs from the rent we pay to the city.

Thank you and good luck, Burt, from all of us. Perhaps the day is near when I'll no longer greet students and other important visitors in my office while they hold their shoes and socks in their hands.

However, I must add that I haven't minded at all carrying our secretary, Nell Martin, to and from her car - I'll miss that.

DANCE TENTATIVELY SET

BY PETE HAVRILLA

The first SGA social function is in the making. Tentatively, the date is set for Saturday, October 19th. Since we already have a Bar-B-Que planned for November 2nd with the Flagler College girls, our first social function will be a dance.

In the past there have been numerous complaints concerning the "semi-formal" attire usually required at our dances.

This dance will be different. We are planning to have something in the nature of a "barn-dance" with "appropriate attire". School dress is preferred.

The Social Functions Committee can use any help available, as well as ideas, in carrying out our "barn-dance" motif. Anyone who can donate help and ideas, as well as opinions concerning the dance are asked to contact any of the following committee members at the SGA office:

Brent Bruns
Boyd Curry
Roger Harwood
Pete Havrilla
Terry Miner
Lynn Raske
Roy Skinner

EMBRY RIDDLE

VETERANS ORGANIZATION

ERVO had its first meeting last week Thursday, September 26. Only 13 veterans came to our first meeting. Topics for discussion were selection and hiring of new teachers, selection of books for courses, and inconsistent testing and grading systems used at school. These topics should be of interest to every veteran enrolled at Embry-Riddle, but only 13 vets showed up.

Richard Martucci, President of the ERVO reiterated the organizations policy of maintaining a liaison between the school administration and the veterans organization. He

recommended that the organization form two committees. The first committee would look into veterans' grievances, compile facts, and make recommendations to the school administration. On the social side, the second committee would be formed to promote the social aspects of this organization.

Our next meeting is on October 10, Thursday, Room 212, at 7:30 p.m. Elections will be held for the four top offices, only organization members can vote. An initial fee of \$1.00 will be collected; this fee includes the first month's dues of 50 cents. Be sure to attend.

Happiness is.....
moving to the new campus

ANSWERS TO STAFF AND FACULTY QUIZ,

1. Herbert V. Mansfield, Dean of Students.
2. Mrs. Hilda Stickles, Admissions and Advisor to the Folk Singing Group.
3. Mrs. Becky Lusk, Public Relations.

THE ANIMALS IN RETROSPECT

review by Jonathan

After a thirty-three minute wait, which proved to be the most exciting time of the night, the Animals appeared on the stage. Later it was learned that Eric Burdon and his group had erred in their trip to Daytona Beach, landing in Deland - poor souls. The time was 9:03 p.m., Friday September 27th, and Peabody Auditorium was filled to capacity with students from Embry-Riddle, DBJC and Stetson.

The rock group started their performance with two horrendously boring numbers which set the pace for the night. Except for an occasional short interlude, there was no evidence that the group knew more than two chords. I suppose there was some suspense for the audience to guess when the Animals would finally find their second chord. Many people didn't wait through the second number though, as over a hundred people filed out. They didn't miss a thing, save the curtain closing.

Individually, the performances varied. Barry Jenkins, the drummer, kept a steady beat. John Weider, the lead guitarist, wore a handsome pair of pink slacks. Eric Burdon showed great dexterity throughout with a novel display of microphone twirling. Danny McCulloch's weak attempts at innovation were wasted.

Technically the ten amplifiers were a bust. One amp sputtered and cracked to the tune of "Dirty Jacks." Another merely hummed with the volume of our DC-3 at twenty-five foot altitude. When they all worked, the resultant vibrations measured 8.5 on the Richter Scale. Eric Burdon and his microphone were so fuzzy that neither was coherent.

Perhaps the one redeeming factor of this sit-in was the lightshow. Equally interesting visual effects, however, may be obtained by observing a purple amoeba under a poorly focused microscope. Included in the light show

was a good war flick which starred Adolf Hitler.

the future SGA never buys tickets to another Animal exhibit.

What can be said? Hope

The math department has set up a math clinic to help students with math difficulties. Students enrolled in math courses from basic college math through calculus may come in for help any time the clinic is in operation. It is not intended to replace the help a student may receive from his regular instructor, but it is a supplementary aid. The schedule is as follows:

DAY	TIME	ROOM	ASSISTANT
MONDAY	12:30-2:00	118	GAYNOR
TUESDAY	12:30-2:00	118	WHITTEN
WEDNESDAY	12:30-2:00	118	DERKS
THURSDAY			TBA
FRIDAY	12:30-2:00	118	ABHIBAL

EXCERPTS FROM LETTERS WRITTEN TO THE BOARD CHAIRMAN FROM DISGRUNTLED WELFARE CLIENTS.

1. I cannot get sick pay. I have six children; can you tell me why?

2. This is my eighth child. What are you going to do about it?

3. Mrs. Brown has had no clothing for a year and has been regularly visited by the clergy.

4. I am glad to say that my husband that was missing a year is dead.

5. I have been cohabitating with several officers at headquarters, but without results.

6. Sirs, I am forwarding my marriage certificate and my two children, one of which is a mistake - as you will see.

7. Unless I get my husband's money soon, I will be forced to live an immortal life.

8. I am sending my marriage certificate and six children - I have seven but one died which was baptized on a half sheet of paper by Rev. Thomas.

9. I am writing to say my baby was born two years old. When do I get my money?

WOULD THE JOKER WHO LIFTED MY WALLET PLEASE RETURN THE PAPERS, CARDS, AND LICENSES IT CONTAINED?

10. Please find out for certain if my man is dead. The man I am living with now can't eat or do anything until he knows.

11. I am very much annoyed that you have branded my boy illiterate. This is a dirty lie - I married his father a week before he was born.

12. In answer to your letter, I have given birth to a boy weighing ten pounds. I hope this is satisfactory.

13. You have changed my little boy to a girl.

Will this make any difference?

14. Please send money at once, as I have fallen in error with my landlady.

15. I have no children yet. My husband is a bus driver and he works day and night.

16. In accordance with your instructions, I have given birth to twins in the enclosed envelope.

17. My husband had his project cut off two weeks ago and I have not had any relief since.
