SGA DANCE

SGA PIER DANCE

The SGA presents two great bands from Jacksonville, the Boys Noyze and Brass and the Rowe Brothers, this Saturday, 8:00 p.m. at the Pier. It will be a BYOB for students over 21 and we supply the set-ups. All students attending must have their Riddle I.D.s to enter. The dress will be school clothing. Anyone wearing shorts or levis will not be admitted. Come early and have a great time.

NO FISHING, HOWEVER, . . .

FISHING LICENCES MAY BE OBTAINED THROUGH MR. CASWELL, DIRECTOR OF MAINTENANCE TECHNOLOGY. THE FISHING SEASON IS EXPECTED TO LAST THROUGH THE SPRING TRIMESTER.

SGA BRIEFS

Don Nichols reported that the legal procedures for towing away illegally parked vehicles has been finalized between Judge Luke and Dean Spears. The traffic policemen will have the power to recommend such action when conditions warrant. Towaways will cost the owner \$25. This fee includes the actual towing expense and storage with Spence Chevrolet.

* * *

The Investigatory Committee on meal tickets, headed by Pete Daly, will report next Tuesday on the adequacy of improvements.

* * *

Jan Collins, Bill Ferguson and Cam McQuaid met with students of DBJC and Bethune-Cookman College to help kick off the Coffee House for this trimester. The purpose behind the Coffee House is to allow young adults to have a place to express their ideas, to have any entertainment of their desire,

the president's corner

I would like to thank all of the students who took the opportunity to vote in the SGA election, and also to extend congratulations to the rest of the candidates on the high level in which the whole campaign was conducted.

During the next year there will be many things happening at Embry-Riddle from the dances and Bar-B-Ques to moving in the new academic campus. The newly elected officers, the student council and myself will do everything in our power to make sure the student's views are known and acted upon.

Thanks once again for your support for myself and the rest of the Student Government. You may look forward to a year of support from all of us and continued active leadership which has been displayed in the past.

Terry Miner

Terry Miner,
President

A LETTER TO THE EDITOR

Dear Editor:

The quality of interest in the life of the students at Embry Riddle expressed by the INFORMER is gratifying. I wish especially to tip my hat to Mr. Don Nichols for his recent article entitled, "On Philosophy and Education."

A statement in the last issue of the INFORMER by one of the candidates for president of the S.G.A. caught my attention and leads me to express a thought concerning it. The statement referred to the desire of students to retain their self identity as persons with names and not become just numbers on a card with holes punched in it. This is a genuine concern for all people, but especially for college students today. Few of us like to be referred to as, "Hey, you!" or simply by a general category such as "student" or "teacher." We have names and we desire to be identified by them. However, it is difficult for most persons to learn the names of a large number of people in a short time. The last report I have lists 1290 students enrolled at Embry Riddle. No one at ER will

ever learn all of these people by name, and some people will probably never even see many of them. In our high speed, mechanized way of life today, the punched card and social security number are very much a part of the package of tags by which we all are identified, and in many instances, the only way.

At the same time, every one can make an effort to learn to know others on an individual basis. There are so many pressures and frustrations on all people today, that any small amount of recognition and interest shown to one by another is appreciated and uplifting. Happiness is many things, as all who read the INFORMER well know, and near the top of the list I would say happiness is being recognized, accepted, and appreciated by others. Contrary to most laws of math and physics, happiness is something whose sum grows rather than diminishes by giving it to others; thus we find that by making others happy, we discover more enjoyment in life for ourselves. As we have occasion to accost others whose names we do not know, in place of "Hey, you," we could maybe say "Sir," or "Miss," or "Madam," or how about, "Hi, friend!"?

Sincerely yours,
Daniel D. Sain,
Associate Dean
of Faculties

FROM THE SUGGESTION BOX

EDITED BY RAY LOEHNER

Dear Suggestion Box:

Walking around the campus lately, I have noticed that Embry-Riddle is able to purchase twenty new Cessnas, six new Mooneys, and build at least three new buildings. Add to this, the rise in tuition. These would all indicate considerable assets. So how come no one can get off of his asset and buy just one little section of rain gutter to attach to the roof near Dean Spear's office?

Since almost all of the water drains off of the roof at the area between the building and the fence it is very difficult to get from the parking lot to the front of the academic building during the Daytona Beach monsoon season.

Walking under a waterfall might be a great tourist attraction in Florida, but it's really lousy trying to do it with an armful of books.

Soggily,
C.M.L.

●●●

HUNTING & FISHING SUPPLIES

Cheaper than anywhere else in town. See Jerry in book store or call 253-5209 @ night.

Dear Box,

I wish to correct you on your spelling of the complimentary close, "Soggily CML," as it appeared in today's issue of the "Informer" under the heading, "Editroial Comments." That's Soggily, C.M.L. In the future, I shall endeavor to sign my letters.

Ed. We would like to thank you for sending us your name in the second letter. By the way, "Editorial" is spelled with the "o" before the "r", not "Editroial". Your first letter brought up a very damp subject of which I have been a victim. This will be placed in the proper committee in the SGA as soon as the next ferry leaves for the SGA office.

●●

REQUEST

During Orientation, Dean Spears made it clear that there would be basketball courts in the vicinity of the new dorm on Catalina Road. I also understand that the money has already been allocated for these courts. Why not, then start work on the courts now while the crew's paving the parking lots are working there. Since the dorms should be completely occupied some time in October, it would be nice to have the courts completed by then.

A lot of students are looking forward to using these courts. It provides a good form of activity.

L. Sweeney

Ed. I checked with Dean Spears and he stated that the courts were just in the planning stages. The money for the courts has not been allocated this year, but may be included in the new budget for the next dormitory phase of the new campus.

●●

Happiness is.
Pantry Pride needing an English Instructor.

Happiness is.
Dean Mansfield's flight to Daytona cancelled because of gross excess weight.

Happiness is.
the new Post Office employee.

I am afraid I cannot agree with Don Nichols in his article "On Philosophy and Education". I feel he is criticizing the protestors and reformers unjustly when he states:

"The reality is that education is not for uniting wrongs and for supporting the insecure individuals who must associate with people whose only education is to protest and reform the world by any selfish means they are able to derive."

In the next paragraph he continues:

"I have been with these student philosophers, at the love-ins, the pot parties, and the protests. The whole selfish purpose of these gatherings is to glorify the students' warped ideas and impossible dreams. This can only promote more discrimination and unruliness than that which existed today."

Education is not only to learn the past and present, but to enable us to make for a better world to live in, in the future. Does Don believe that the status quo should remain unshaken and unchanged?

SUGGESTION BOXES (Cont)

Progress is brought about by changes in the status quo. Without protestors and reformers the world would become stagnant. In the U.S. Negroes would not legally have civil rights. Women would not be voting. These changes were brought about by people like you and I who have had these so-called "warped ideas and impossible dreams." How can we know what is "warped" or "impossible," until we try?

George Bernard Shaw once said:

"The reasonable man adapts himself to the world;

The unreasonable man persists in trying to adapt the world to himself;

Be a
Blood
Donor

Therefore, all progress depends upon the unreasonable man."

Rick Kline

Ed. We hope Don Nichols can comment on your ideas.

Dear Suggestion Box,

The individuals who placed the sign "No Swimm" in the A&P parking lot deserve recognition.

Name Withheld

Ed. They've got it!

Does this jargon bring back old memories? If so, Dean Mansfield has promised to be D.I. for a day for all those who miss the old service life. Meet him at 5:30 A.M. Saturday, Airport Parking Lot.

ERVA held elections last Thursday and the four (4) top elected officers are:

Pres. - Richard Martucci
V. Pres. - Gene LeClair
Sec. - Emerson Lathe
Treas. - Jerry Brandt

Dan Hogan volunteered to be chairman of the Social Functions Committee with Gil Gauthier and William Hass as active members. Phil Woodruff volunteered to head the Grievance Committee with Red Williams and John Murphy as active members.

No sooner than elected, Rich Martucci pledged that his elected staff would conduct "mission impossible", a top secret trip through Veteran Administration Headquarters, St. Petersburg, Florida. Rich Martucci hopes that this redonnaissance will help ER Vets in future encounters with the federal bureaucracy of the Veterans Administration.

Headquarters are made for sitting and tongues for wagging. You can do both at our next meeting, Thursday, October 24, Room 210, at 7:30 P.M.

EDITORIAL COMMENTS

It has been discussed by the Administration that the Stearman will be sold and that the money will be put into the building fund. What's your opinion? Should it be kept, since it was built by a dedicated group of A&P students, or should it be sold to help the development of the new campus? We would like to hear from the students concerning this matter. Be sure to sign your name so we can print your letter. Remember that names will be withheld upon request.

BOB'S OPINION POLL

BY BOB WISHNEK

Here are the results on a poll taken over the proposed bus schedule: This poll was taken Friday, October 11.

I polled 70 students, all of whom voted "yes" for the new schedule. Many of them expressed their view in some form of comment. Here are some of them:

"Let's have the bus go to the beach on the weekends."

"This new schedule will relieve the long waiting for a bus."

"Fire George."

"I keep missing my bus because the bus is slow."

"Get rid of the bus drivers."

To the participating students, thank you for making this poll a success.

PI SIGMA PHI

BY RICHARD COOK

The past week has been spent planning and organizing the Fraternity's activities and functions for the trimester. With the SGA's planned schedule of events in hand, we started working on our ideas. Our first activity is a beach cook-out and scavenger hunt. This is planned for the weekend after the SGA dance. Another activity planned is a party/dance, tentatively scheduled for the week following the school's barbecue.

Other things we are looking into are tours (Busch Gardens, Cape Kennedy) and sports activities (University of Florida football games).

Many other ideas for functions were brought out at the last meeting. Some were just too expensive, and some were impractical due to facilities though they are all worth considering.

Football went as usual. We lost. Boy, did we lose. For example, imagine a bad score, say 45 to 0. Now imagine one even worse, say 60 to 0. We did even worse than that, 69 - 0. I know it is hard to believe that we were on the field but we were. Next week will be our last game. We will be battling for last place against the "Crunchers". (They are in last place and we are in next to last.) Should be an interesting game.

We have had some outside help in becoming one of the top six teams in Riddle's football league. Of great help has been our line. His name is Jerry Bopp, a good natured 6'4", 200 lbs. + A&P student with lots of spirit. Fran Hoffman has also been very helpful in adding effort and spirit to the team.

Pledging is going smoothly even if it is a quieter pledge class than

usual. So far no one has been shanghaied and practical jokes have been infrequent.

Next week we will have more news on our social functions and our last game.

See you on campus. ●●

ALPHA ETA RHO

BY RAY LEE

Good afternoon, everybody. Here is just a little news from Epsilon Rho chapter. We would like to offer our condolences to Pi Sigma Phi on the outcome of last Sunday's football game. It was an extremely close and well-played game which ended up in a score of 69 - 0 in favor of the Bandits, (which is composed of many Alpha Eta Rho members and a few well chosen close friends of the Fraternity.) Pi Sigma Phi played a very good game (considering the fact that they were heavily out-classed), but showed much spirit. We hope they will be back again next fall. All members of the Bandits were in extremely high spirits for the game because of the pre-game celebrations that took place on Saturday evening.

We hope that most of the students attended last Saturdays' soccer game and got a look at our pledges sign backing our soccer team. We would like to see another fraternity make some attempt to top this in order to get more team backing.

We would also like to inform the student body and our pledges that we are growing much fonder of the super energetic pledge class we have this trimester. They are definitely one of the best groups of pledges we have had in several trimesters. Don't get big-headed, however, pledges, because you still have quite a while to go yet and we are expecting even better ideas from you if possible.

GREEKS - CONTINUED

I hope Bob Drehr was able to sleep all right when he got home Monday night after he finished straightening up his apartment, which was slightly redecorated, remodeled, overturned, and demolished. I'll bet his knotted sheets and bed spreads were cold to sleep after they were taken out of the refrigerator. The burners on his electric stove are definitely the only burners with a three inch coating of shaving cream. Too bad he wasn't home to help us with the remodeling.

Alpha Eta Rho will have their own portion of the Pier Saturday night at the dance and would like to take this time to invite and welcome the student body to join us in our section for a night of fun and festivities. This may give any student the opportunity to get acquainted with Epsilon Rho members and start thinking towards the future and the spring rush party and pledge period. You will all be very welcome to join us at this open social function. There are several more social and professional events planned for the Epsilon Rho's in the near future. We are going to the Air Traffic Control Center in Hilliard, the Piper Aircraft in Vero Beach, Busch Gardens, and we have a cocktail party and dinner combination planned with a very prominent speaker. (A weekend trip for an Alpha Eta Rho conference is also planned for the middle of November in Atlanta, Georgia.)

That's just a brief outline of what we have been up to lately. We'll see you all around the campus and hope to see a big crowd at the dance to make it a smashing success.

SIGMA PHI DELTA

BY BOB NAWROCK!

This week's column is a bit on the hurried side because of all the activity being drummed up about the convention. Friday morning, four brothers, along with Dr. Ritchie and Harold Kosola, our Chapter counsellor, will embark for Fort Wayne, Indiana with hopes that we may enlighten our National officers of our present situation. All informative material has been gathered so that we may make a good impression.

Our professional program is really on the ball now. Mr. Woodie Van Why, the chairman of the professional committee, is doing a fine job of scheduling movies and informative excursions and trips. Through the help of Dr. Ritchie, he has set up a tour of Cape Kennedy for the 26th of October. It is a specially guided tour and one which will possibly allow us to see a little more of the Cape than most people. We all hope it will turn out fine, with plenty of knowledge acquired, as I'm sure it will.

Our flag football team bowed to the G.I.Q.'s this past week by a whopping score, which I hate to mention at this point. You can probably find it in the standings if you're

really interested. That puts us two winds and two losses for the season.

That's about all the news I have this week from Embury-Riddle's outstanding fraternal group - "The Professionals".

ON ACTIVISM

BY JONATHAN

Our good friend Webster defines activism as "a doctrine or practice that emphasizes vigorous action." Recently activism on the campus has developed a poor connotation, perhaps because we are too quick to assume that activists are anarchists. There is a great distinction. Campus activists are not necessarily looking to overthrow the establishment by violent means, but, hopefully, they are the working reagents of change to the better.

Activism should be a guiding doctrine on the campus. The indifferent, impassive and apathetic student or administrator does nothing to help our school. Healthy activism can be a powerful force to correct our deficiencies and aid in our growth. It is not an end in itself, but it is an effective means by which we may accomplish our goals.

Our new SGA would do well to attach itself to a doctrine of activism. Our administration and faculty can also be "campus activists."

GUTTER TALK

BY GIL GAUTHIER

Another week has gone by and already the competition in Riddle's bowling league is getting so fierce that "Bud" power may soon not be enough to handle the difficult moments. Joe Boligitz came on strong in the first game of last week's competition by rolling a fantastic 222. Joe's game shattered the previous record and may stand untouched for quite a while.

Last week's fickle finger of fate award goes to team #2 who so richly deserved it after losing all four points to team #13. It is rumored that the reason for this apparent slaughter was that the runner who was sent out for the much needed magic potion (Bud) was captured by the opposition and held until the match was over.

Doug Watkins rolled the high series of 537 and not far behind was Jerry Coffman, who bombed the pins for a 531 series. Giesbrant lost the most valuable player award last week by merely forgetting to mention that he deserved it. The award has not yet been found, but I'm sure that someone will recover it by next week.

Remember, every Wednesday nite there's a great happening at Halifax Lanes. If you want to see a group of people really enjoying themselves, just drop in and choose your favorite "power", which is available in great quantities.

TRACKSIDE NEWS

Cale Yarborough is picked to take the National 500 at Charlotte, North Carolina by the Pure Oil Panel. Second and Third are Richard Petty and Dave Pearson respectively.

SOCCER

The ER Eagles fell to the St. Leo's Monarchs 3-2 last Saturday afternoon. Goals for the Eagles were scored by Hoene; one after 3 shots on goal, and Ali; one goal and one attempt. The goalie, Stitling, made 4 good saves but was overpowered by St. Leo's Martina and Baucher, who racked up their 3 goals after 7 attempts.

The sidelines at our first home game were decorated by the smiling faces of the Riddle cheerleaders. They did a fine job of leading the crowd in many rousing cheers.

Next week the Eagles engage the University of Florida at the home field, Saturday at 2:30, so come out and support our team next week. I am sure that you will enjoy the experience.

Net Play

BY BOB NAWROCKI

Coach David Dewey held a brief meeting this week concerning this year's tennis program at Embry-Riddle. Most of last year's regulars showed up, plus a few newcomers. Coach Dewey hopes we can establish a team with a lot of stamina through regular practice sessions and pre-season matches. We will be playing many industrial league teams as well as colleges to obtain a well rounded, tactical offensive.

The coach mentioned that anyone interested in playing for Embry-Riddle should contact him or leave your name and address at the Phys. Ed. building, No. 14. Some experience is preferred so that we may get off to a roaring start.

COLONEL DEADLY INJURED IN COUCH MISHAP

BY GARY ANDERSON

The gang over at the Nova Road Dorm has been complaining about the rotten state of their furniture and walls. Things are getting so bad that a group of guys from A-24 grabbed a guy with a wooden leg from A-73 and are using him as a kitchen table.

To find out more about this situation I talked to that crack administrator Colonel Dan Deadly, who is Dean of Furniture:

"Colonel Deadly promised to look into the situation further. The next day he was seriously injured when

THREE NEW COEDS - SUSAN LAW (LEFT), BRENDA BRIDGEMAN, (MIDDLE) AND TERRY TABER, (RIGHT)

the couch he was sitting on did a "gear-up-landing."

Witness Elmer Frugle, who was one of the first at the crash scene said, "I saw the great chaise lounge disaster of '57, but this was the worst. It was horrible, just horrible."

"Colonel Deadly, why hasn't the furniture in the dorm been fixed?"

"Basically, the problem is a lack of trained repair personnel."

"With 400 trained A & P students we have a lack of repairmen?"

"Very few of them have had Furniture Repair Operations one and two."

"What difference does that make?"

"Plenty, we can't have a bunch of klutzes running around fixing furniture. Why, in ten days time the dorm would be as loused up as the flight line. Anyway, the F.F.A. would get on our backs."

"The F.F.A.?"

"The Federal Furniture Administration, they are responsible for that sort of thing. Anybody that tangles with them is off his rocker. . .if you'll pardon the pun."

AN EXCITING DAY AT THE DEMOLITION DERBY

BY FRANK ALEXANDER

Hi! This is Clark Barry, your sports reporter bringing you the first coverage of the 28th daily running of "ERDD," the Embry Riddle Demolition Derby here at the Pearl Harbor Field, named in honor of Miss Pearl Harbor, who was crushed between two cars in yesterday's derby.

For those of you who have never seen an ERDD, here are some of the basic rules. The start is "Gran Prix" style with the drivers all sitting in a room. When the starter gives the word, the drivers run to their cars and try to get out of the parking lot, and onto either Guadalcanal St., or Catalina Blvd. The winner is the driver whose car is unscathed when he makes the street. In the history of the race there has been only one winner, Rip Steele in his K-34 Patton Tank. However, he was disqualified when it was found that he sued his 75 mm turret to ward off the competition.

Oh! I see it's almost starting time...let's switch to Wanda Runit for the start... "Thanks, Clark, it's now 5:04, the drivers are seated in their starting positions...only 40 seconds to go...the starter looks up at the drivers...I can feel the tension...10 seconds...the starter opens his mouth..."Gentlemen, class dismissed." And they're off!! The green Tempest is the first one off...he is wiped out broadside by the TR-4...now a blue Plymouth makes a tight turn, avoids an onrushing Dodge Dart, and runs head-on into a Yamaha 305, they are really mixing it up out there...the action is shifting to the front of Building 14...Can you see it, Clark?"

"Yes, I've got some real fender benders over here. An MG Midget is under the front axle of a '59 Cadillac, and...Oh! WOW!! WHAT A PILE-UP!! A green Healy was almost out to Guadalcanal, and a Maroon Mustang almost to

Catalina, when a white Pontiac cut off 6 other cars, jumped over the trunk of the Mustang and drove into the Healy. Then a brand new 69 Vette backed into the Pontiac while trying to avoid an oncoming VW Bus. The driver of the bus broke out into hysterical laughter but soon regained his composure as he ran into the three-foot ditch and broke his bus in half. Any more action on your side, Wanda?"

"Yeah! We have an accident right outside the door. Manny Ack, who drives an Orange Cougar, was slow getting out to his car and was about to open his door when a red 442, trying to beat a Camaro to the driveway slammed into the left side of Manny's car, trapping him in the stereo tape deck. Race officials are on the scene trying to turn off the tape deck, but they are having trouble because his leg is four track while the tape deck is eight...it looks real bad...Let's switch to Harriet Scape in the GEAR-YOUR BLIMP, high above the ERDD.

"We've got quite a view of the overall picture from up here. Of the 65 cars that started the Derby, only six are left, which is surprising because usually there are less at this point...30 seconds into the race, and I...OH!OH! A red Firebird just ran up the back-end of a Fastback Mustang GT and is still climbing upwards...it's...it's coming right at us!! The radiator fan has cut through the Blimp's skin...we're going down!! Can you see us, Clark?"

"Yes, I believe I can...uh...you're wedged under a Continental and an Imperial which just ran into each other head-on. The starter is waving his red flag...the derby is over!! We do not have a winner. There is no winner for the 28th daily running of ERDD. History has repeated itself. So now we must wait until tomorrow for the 29th daily running of the Embry Riddle Demolition Derby held at Manny Ack Memorial Field. This is Clark Barr, your sports reporter signing off and reminding you..."watch out for falling blimps!"

MR. MANN

Certainly one of the most interesting new members of Embry-Riddle's faculty is Mr. C.F. Mann of the Engineering Science Department. Mr. Mann teaches Fluids, Statics, Dynamics and Structures.

He is a native of Boothbay, Maine, But he attended the University of Florida where he graduated with a B.S. in Civil Engineering in 1936. During W.W.II, Mr. Mann was in charge of the ST. John's River Shipbuilding Company's shipyards in Jacksonville.

Mr. Mann is very well traveled, having been around the world 4 times. He has been living in Daytona for the past 13 years, where he had owned and operated the C.F. Mann Construction Company.

Mr. Mann took the job as instructor at ERAI "For a change" and admits being very impressed with our faculty and student body. He enjoys teaching and hopes to go on to get his Masters degree in the near future.

NEW YORK (FP)—The Golden Award for Achievement in Fire Prevention was given to Boy Scout Troop 131. After accepting the award, scoutmaster Oedipus Fingerblat noted, "It is significant that since our troop put Smokey the Bear posters in all the subways, there have been no major forestfires in New York City."

COMPUTING CENTER

An International Business Machines Corporation (IBM) model 1130 Computing System is being installed in the Old Academic Building, Room 119. The IBM 1130 is a low-cost computer with extensive capabilities. Programming is primarily in FORTRAN IV, input is by punched card, and output by printer, punched card, and typewriter.

Students will be using the IBM 1130 in the MA-309 Computer Programming and MS-309 Data Processing Systems courses and in other courses to be established in the future. In addition, students who have taken those courses will be encouraged to utilize the IBM 1130 in their other courses.

The IBM 1130 may be used by the faculty for research, problem solving, and other work associated with the instruction. They will also encourage students to use the IBM 1130 in special assignments where feasible.

There are several general and specialized references in the library which students, instructors, and administrators may use for assistance in employing the IBM 1130.

The IBM 1130 will be used extensively for maintenance of student records and for the production of student record information for appropriate faculty, administrative, and student government use. For example, grade reports are to be prepared by employing the IBM 1130.

Student flight records are recorded on punched cards and information will be summarized for reporting to Flight Technology, Accounting, the Registrar, and the student.

Other applications planned include the Alumni office and Accounting office. In addition, the computing system will be employed "in line" in the registration process by September 1969.

The Computing Center will be open from 8 A.M. to 9 P.M. Monday through Friday except when classes are held. The Center will also be open for several hours on most Saturdays. Students' and instructors' computer work will be run in afternoons and evenings, and most administrative work will be run in mornings and at other times when IBM 1130 time is available.

Students will have priority on use of the IBM 29 card Punch machine 11:30

A.M. to 12:30 P.M., and 6:00 P.M. to 8:00 P.M. Monday through Friday, in order to punch programs and data.

Other equipment in the Computing Center include an IBM 85 Collator and an IBM 82 Sorting Machine. These peripheral machines are used for manipulating punched cards prior to input to the IBM 1130.

BUILDING FUND DRIVE PHASE I

HOWGOZIT REPORT

The second week of the Building Fund Drive-Phase I has been filled with organizational meetings, research, exchanges of ideas and a lot of hard work.

A special committee meeting was presided over by General Electric's own Mr. Skip Wahlin who outlined an excellent basic public relations program that was accepted and is being worked out in detail. Mrs. Becky Lusk is coordinating the Embry-Riddle facts with Skip. Frank Forrest is doing the research and getting the basic facts together for the preparation of material by Skip and Becky.

Jay Adams has his committee hard at work evaluating lists of names and potential donors. He asks that everyone submit prospective donor names to this committee as soon as possible.

Paul Riddle and Len Povey have been collecting names of former students, instructors and staff members of the World War II Embry-Riddle schools. They sent a November, 1967, yes, 1967, edition of the Embry-Riddle school paper, the FLYPAPER, which contains the names and current addresses of many of the old grads.

Gregory Allen, the newly appointed Alumni Director, is already coordinating the alumni effort. He has made arrangements with Harold Kosola, National President of the Embry-Riddle Alumni Association, to meet and plan alumni strategy.

You are urged to keep thinking about our drive and how to make it succeed. Remember the key dates and keep them open:

INSTRUCTIONAL MEETINGS (PLANNING)

Tuesday, Oct. 15, 4:30PM
Wednesday, Oct. 16,
7:30 PM

KICKOFF BREAKFAST
Tuesday, Oct. 22, 7:30PM

You are the most important person in the entire Building Fund Drive-Phase I. Without your help, the drive cannot succeed. Your confidence and effort will insure success.

Charles L. Proctor
Chairman
Building Fund Drive
Committee
