Editor's Note

The Association of Digital Forensics, Security and Law (ADFSL) is pleased to provide this 4th quarterly issue of the first volume of the Journal of Digital Forensics, Security and Law (JDFSL). I am very thankful for the contributions of the many manuscripts that we received as well as the contributions of time and energy by our editors and reviewers. In the "Reviewers" section of this issue, we acknowledge those who contributed their services over the past year in reviewing the many manuscripts that we received.

Effective with this issue, we have provided, in addition to our section on peer-reviewed manuscripts, a section for book reviews. In future issues of the JDFSL, we will provide an editorial section where opinions of interest may be presented. These opinions may be of general interest, or may specifically relate to the current or past contents of the JDFSL.

Again, I would like to give my heartfelt thanks to all of those who have contributed to a successful JDFSL making it possible in its first year of publication.

Glenn S. Dardick
Editor-in-Chief

Call for Papers

The Journal of Digital Forensics, Security and Law is now calling for papers in, or related to, the following areas:

- 1) Digital Forensics Curriculum
- 2) Cyber Law Curriculum
- 3) Information Assurance Curriculum
- 4) Digital Forensics Teaching Methods
- 5) Cyber Law Teaching Methods
- 6) Information Assurance Teaching Methods
- 7) Digital Forensics Case Studies
- 8) Cyber Law Case Studies
- 9) Information Assurance Case Studies
- 10) Digital Forensics and Information Technology
- 11) Law and Information Technology
- 12) Information Assurance and Information Technology

To be considered for inclusion in the next issue of the Journal of Digital Forensics, Security and Law, manuscripts should be submitted prior to midnight February 15th, 2007.

Call for Papers: Special Issue on International and Comparative Digital Forensics, Security and Law

The purpose of the special issue is to contribute to the discussion and understanding of the current status and perspectives of digital forensics in different parts of the world. Particular interest is given to comparative aspects of digital forensics and related disciplines, as they change from country to country.

Prospective authors are invited to submit regular technical papers or position papers. The later should present novel ideas at an early stage of development or share future vision. All the submissions should describe original and unpublished work, not currently under review by any other journal or conference.

All submitted papers will be blind reviewed with respect to their relevance, originality, adequacy, contribution, correctness, readability and presentation.

Topics of interest include, but are not limited to:

- 1) Localization of digital forensic techniques
- 2) Distributed and collaborative forensic investigations
- 3) Working with foreign forensic investigators
- 4) The creation of international standards for digital forensic investigation
- 5) The influence of foreign law, forensic methods and tools, on the evolution of local forensics and law
- 6) Aspects of cultural diversity that affect the issues involved in digital forensics
- 7) Admissibility of electronic evidence, privacy concerns, investigation and presentation.
- 8) Heterogeneous law systems issues
- 9) Case studies involving cross-border events
- 10) Procedures and tools design and evaluation
- 11) Tutorials, market surveys, performance evaluations, practical applications, and theoretical studies in the field.

To be considered for inclusion in this special issue of the journal, manuscripts should be received no later than midnight (EDT) of Wednesday, January 31st, 2007. Prospective authors should submit an electronic copy of their complete manuscripts through the journal's manuscript tracking system at <http://www.jdfsl.org/submission.asp> or may be submitted by email to the special issue editor, Pedro Sanchez, at pedro.sanchez@poli.usp.br.

Guide for Submission of Manuscripts

All manuscripts should be word-processed (letter or correspondence-quality font). If the paper has been presented previously at a conference or other professional meeting, this fact, the date, and the sponsoring organization should be given in a footnote on the first page. Funding sources should be acknowledged in the "Acknowledgements" section. Articles published in or under consideration for other journals should not be submitted. Enhanced versions of book chapters can be considered. Authors need to seek permission from the book publishers for such publications. Papers awaiting presentation or already presented at conferences must be significantly revised (ideally, taking advantage of feedback received at the conference) in order to receive any consideration.

Manuscripts should be submitted through the JDFSL online system in Word format using the following link: <http://www.jdfsl.org/submission.asp>.

Manuscripts may also be submitted to the editor in Word format as well. The editor of the JDFSL, Dr. Glenn S. Dardick, may be reached via email at editor@jdfsl.org.

The copyright of all material published in JDFSL is held by the Association of Digital Forensics, Security and Law (ADFSL). The author must complete and return the copyright agreement before publication. The copyright agreement may be found at <http://www.jdfsl.org/copyrighttransfer.pdf>.

Additional information regarding the format of submissions may be found on the JDFSL website at <http://www.jdfsl.org/authorinstructions.htm>.
