The Department of Management Information Systems and Assurance at the Longwood University College of Business and Economics, a member of the Commonwealth of Virginia University system, is seeking candidates for a tenure-track/tenure-earning faculty position at the Assistant or Associate Professor level beginning August 2012. Candidates with leading expertise in Cyber Security, particularly Digital Forensics, Computer and Network Security, and/or Information Assurance are sought. The successful candidate must be able to participate effectively in multidisciplinary research with scientists in Information Systems, Computer Science and Homeland Security for advancing Cyber Security research at Longwood University, as well as participate in the advising of students, University/Departmental service, professional service, and research funding.

A Ph.D. or D.B.A. in Information Systems, Computer Science and/or related area from an ABET-accredited or AACSB-accredited program is preferred. Practical industry experience and/or certification are also highly desirable. ABD applicants will be considered if there is strong evidence that they will complete their degree requirements by August 2012. All applicants should have an established record of excellent teaching and research.

Founded in 1839, Longwood University is one of the oldest public institutions of higher education in the Commonwealth of Virginia. Today, Longwood is a coeducational, comprehensive public institution offering 100 majors, minors, and concentrations to over 4800 students with undergraduate programs in business administration, education and human services, nursing, the arts and sciences, plus graduate programs in education, communication sciences and disorders, English, sociology, and an MBA program. Longwood University’s College of Business and Economics is accredited by AACSB International. For more information see http://www.longwood.edu/business/.
