This Front Matter/Back Matter is brought to you for free and open access by the Journals at Scholarly Commons. It has been accepted for inclusion in Journal of Digital Forensics, Security and Law by an authorized administrator of Scholarly Commons. For more information, please contact commons@erau.edu.
Subscription Information

The *Journal of Digital Forensics, Security and Law (JDFSL)* is a publication of the Association of Digital Forensics, Security and Law (ADFSL). The Journal is published on a non-profit basis. In the spirit of the *JDFSL* mission, individual subscriptions are discounted. However, we do encourage you to recommend the journal to your library for wider dissemination.

The journal is published in both print and electronic form under the following ISSN's:

- ISSN: 1558-7215 (print)
- ISSN: 1558-7223 (online)

Subscription rates for the journal are as follows:

- Institutional - Print & Online: $395 (4 issues)
- Institutional - Online only: $295 (4 issues)
- Individual - Print & Online: $80 (4 issues)
- Individual - Online only: $25 (4 issues)

Subscription requests may be made to the ADFSL.

The office of the Association of Digital Forensics, Security and Law (ADFSL) is located at the following address:

Announcements and Upcoming Events

The ADFSL 2014 Conference on Digital Forensics, Security and Law
Richmond, Virginia USA
May 28-29, 2014

http://www.digitalforensics-conference.org

The ADFSL 2014 Conference on Digital Forensics, Security and Law will be hosted by Longwood University and held in Richmond, Virginia, on 28-29 of May 2014.

The ADFSL Conference on Digital Forensics, Security and Law is a unique and innovative event. It is managed by the Association of Digital Forensics, Security and Law (ADFSL).

The conference focuses on the current and expanding role of digital forensics within investigations and the courts as well as its important role within cyber security—both national as well as corporate. Topics not only include technology and evidence, but also are very much focused on how to prepare students for careers in digital forensics. Curriculum is a very important topic and the new DoD initiative on certification and Centers of Digital Forensics Academic Excellence will be very important areas of discourse.

Conference submissions are double blind refereed and provide a forum for high quality research, communication, and debate on the subject of digital forensics and directly related fields.
