This Front Matter/Back Matter is brought to you for free and open access by the Journals at Scholarly Commons. It has been accepted for inclusion in Journal of Digital Forensics, Security and Law by an authorized administrator of Scholarly Commons. For more information, please contact commons@erau.edu.
Editor’s Note

The Association of Digital Forensics, Security and Law (ADFSL) is pleased to provide this 1st quarterly issue of the second volume of the Journal of Digital Forensics, Security and Law (JDFSL).

We have again provided, in addition to our section on peer-reviewed manuscripts, a section for book reviews. In future issues of the JDFSL, we will provide an editorial section where opinions of interest may be presented. These opinions may be of general interest, or may specifically relate to the current or past contents of the JDFSL.

Glenn S. Dardick
Editor-in-Chief
Call for Papers

The Journal of Digital Forensics, Security and Law is now calling for papers in, or related to, the following areas:

1) Digital Forensics Curriculum
2) Cyber Law Curriculum
3) Information Assurance Curriculum
4) Digital Forensics Teaching Methods
5) Cyber Law Teaching Methods
6) Information Assurance Teaching Methods
7) Digital Forensics Case Studies
8) Cyber Law Case Studies
9) Information Assurance Case Studies
10) Digital Forensics and Information Technology
11) Law and Information Technology
12) Information Assurance and Information Technology

To be considered for inclusion in the next issue of the Journal of Digital Forensics, Security and Law, manuscripts should be submitted prior to midnight May 1st, 2007.
Call for Papers: Special Issue on International and Comparative Digital Forensics, Security and Law

The purpose of the special issue is to contribute to the discussion and understanding of the current status and perspectives of digital forensics in different parts of the world. Particular interest is given to comparative aspects of digital forensics and related disciplines, as they change from country to country.

Prospective authors are invited to submit regular technical papers or position papers. The later should present novel ideas at an early stage of development or share future vision. All the submissions should describe original and unpublished work, not currently under review by any other journal or conference.

All submitted papers will be blind reviewed with respect to their relevance, originality, adequacy, contribution, correctness, readability and presentation.

Topics of interest include, but are not limited to:

1) Localization of digital forensic techniques
2) Distributed and collaborative forensic investigations
3) Working with foreign forensic investigators
4) The creation of international standards for digital forensic investigation
5) The influence of foreign law, forensic methods and tools, on the evolution of local forensics and law
6) Aspects of cultural diversity that affect the issues involved in digital forensics
7) Admissibility of electronic evidence, privacy concerns, investigation and presentation.
8) Heterogeneous law systems issues
9) Case studies involving cross-border events
10) Procedures and tools design and evaluation
11) Tutorials, market surveys, performance evaluations, practical applications, and theoretical studies in the field.

To be considered for inclusion in this special issue of the journal, manuscripts should be received no later than midnight (EDT) of May 1st, 2007. Prospective authors should submit an electronic copy of their complete manuscripts through the journal's manuscript tracking system at http://www.jdfsl.org/submission.asp or may be submitted by email to the special issue editor, Pedro Sanchez, at pedro.sanchez@poli.usp.br.
Call for Papers: Special Issue on Security Issues in Online Communities

The purpose of the special issue is to contribute to the discussion and understanding of the current status and perspectives of digital forensics, security and law as it applies to security issues in online communities.

Prospective authors are invited to submit regular technical papers or position papers. The latter should present novel ideas at an early stage of development or share future vision. All the submissions should describe original and unpublished work, not currently under review by any other journal or conference.

All submitted papers will be blind reviewed with respect to their relevance, originality, adequacy, contribution, correctness, readability and presentation.

To be considered for inclusion in this special issue of the journal, manuscripts should be received no later than midnight (EDT) of December 31st, 2007. Prospective authors should submit an electronic copy of their complete manuscripts through the journal's manuscript tracking system at http://www.jdfsl.org/submission.asp or may be submitted by email to the special issue editor, Nick Flor, at nickflor@unm.edu.
Guide for Submission of Manuscripts

All manuscripts should be word-processed (letter or correspondence-quality font). If the paper has been presented previously at a conference or other professional meeting, this fact, the date, and the sponsoring organization should be given in a footnote on the first page. Funding sources should be acknowledged in the "Acknowledgements" section. Articles published in or under consideration for other journals should not be submitted. Enhanced versions of book chapters can be considered. Authors need to seek permission from the book publishers for such publications. Papers awaiting presentation or already presented at conferences must be significantly revised (ideally, taking advantage of feedback received at the conference) in order to receive any consideration.

Manuscripts should be submitted through the JDFS online system in Word format using the following link: http://www.jdfs.org/submission.asp.

Manuscripts may also be submitted to the editor in Word format as well. The editor of the JDFS, Dr. Glenn S. Dardick, may be reached via email at editor@jdfs.org.

The copyright of all material published in JDFS is held by the Association of Digital Forensics, Security and Law (ADFS). The author must complete and return the copyright agreement before publication. The copyright agreement may be found at http://www.jdfs.org/copyrighttransfer.pdf.

Additional information regarding the format of submissions may be found on the JDFS website at http://www.jdfs.org/authorinstructions.htm.
