Call for Papers

The *Journal of Digital Forensics, Security and Law* has an open call for papers in, or related to, the following subject areas:

1) Digital Forensics Curriculum
2) Cyber Law Curriculum
3) Information Assurance Curriculum
4) Digital Forensics Teaching Methods
5) Cyber Law Teaching Methods
6) Information Assurance Teaching Methods
7) Digital Forensics Case Studies
8) Cyber Law Case Studies
9) Information Assurance Case Studies
10) Digital Forensics and Information Technology
11) Law and Information Technology
12) Information Assurance and Information Technology

Guide for Submission of Manuscripts

Manuscripts should be submitted through the *JDFSL* online system in Word format using the following link: http://www.jdfsl.org/for-authors. If the paper has been presented previously at a conference or other professional meeting, this fact, the date, and the sponsoring organization should be given in a footnote on the first page. Articles published in or under consideration for other journals should not be submitted. Enhanced versions of book chapters can be considered. Authors need to seek permission from the book publishers for such publications. Papers awaiting presentation or already presented at conferences must be significantly revised (ideally, taking advantage of feedback received at the conference) in order to receive any consideration. Funding sources should be acknowledged in the *Acknowledgements* section.

The copyright of all material published in *JDFSL* is held by the Association of Digital Forensics, Security and Law (ADFSL). The author must complete and return the copyright agreement before publication. The copyright agreement may be found at http://www.jdfsl.org/for-authors.

Additional information regarding the format of submissions may be found on the *JDFSL* Web site at http://www.jdfsl.org/for-authors.

Contents

Call for Papers 2

Guide for Submission of Manuscripts 2

A Power Grid Incident Identification Based on Physically Derived Cyber-Event Detection 5
Travis Atkison, Nathan Wallace

File Type Identification – Computational Intelligence for Digital Forensics 19
Konstantinos Karampidis, Giorgos Papadourakis

Forensic Cell Site Analysis: A Validation & Error Mitigation Methodology 33
John B. Minor

Towards a More Representative Definition of Cyber Security 53
Daniel Schatz, Rabih Bashroush and Julie Wall

Applying a Contingency Framework to Digital Forensic Processes in Cloud Based Acquisitions 75
Diane Barrett

SQL Injection: The Longest Running Sequel in Programming History 97
Matthew Horner and Thomas Hyslip

Signatures of Viber Secure Traffic 109
M.A.K.Sudozai, N.Habib, S.Saleem, A.A.Khan

Protecting Digital Evidence Integrity and Preserving Chain of Custody 121
Makhdoom Syed Muhammad Baqir Shah, Shahzad Saleem and Roha Zulqarnain
