Student Dies In Crash

K'in ya hear me?

by Don Hobertz
Anton Colburn

CLARE: When shooting campo in a casino, avoid such emblematic weapons as killing the disc jockey will make his great the way, i.e., with double. That's for suckers. The odds look great, but the host has a bigger edge. Las Vegas' Big 5 doe recommends you put your chips on the past or don't pass box. - GAMBLING

Race tracks and other gambling establishments are required to report to the Internal Revenue Service winnings over $600. They are tax-

able, except to the extent offset by gambling losses. The problem is that only what are reported to the IRS and the gambler has to prove the amount of his wins without help from the track. - "The inherent difficulty of adequate recordkeeping...cannot be held to reduce the bonanza of proof borne by the taxpayer..." -keep a daily record for all your gambling winnings and losses.

CLOGG: If you haven't tried arbitrages in your garage disposal, - CLOGG, all the martial arts include protective padding - particularly in places worn by men and women - interesting reading after seeing - and the special -Tex-Pa and Xenon flips. Morton, 1610 Northwest 20th St., Ft. Lauderdale, Florida, 33325. BREAT BEATS: Father to wear real belt could limit recovery in a suit for personal injuries in an auto crash. - BATTERY POWERED POT: A battery powered, free-to-install bicycle stoplight whatever kind of bike is applied - $5.95 suggested retail price. U.S. Bike Line, Inc., 234 West 19th Street, Chicago, 60612. MONEY: If your bank has a machine that dispenses cash to card holders, use it carefully; one slip and not only will you lose your money, but the expected mistake, but it will also confiscate your card. Getting it back can take some time... - TAX: Failing to report earnings, failure to list income tax returns is not prior for personal injury or criminal offense. This is the course new, since Internal Revenue Service augments the contrary. MORE TAX: In setting up accident claims for personal injury, be sure that the settlement allocates as much as possible to medical expenses incurred. Why? Because you are better off tax-

wise if the reimbursement is for medical expenses deducted in prior years. In general, the IRS will respect an allocation in the settlement as long as it is reasonable.

Student Dies In Crash

This past Sunday, Thomas Patrick Dineen, an Embry- Riddle student, was killed when his Cessna 150 crashed three miles northwest of Orlando Beach Airport. The plane was rented from Volusia Aviation at 1:30 p.m. and was reported overdue several hours later. The Civil Air Patrol had located him at 10:00 a.m. Monday morning. Dineen, a second tri-

motor freshman, was an honor stu-

dent, and had a private pilot's license. He was from Linden, New Jersey. Memorial services are being planned.

Race Week Not Over Yet

by Ray Kelley
Advisor Editor

The AIA Advisor is a column that is devoted to promoting professionalism in flight instruction by discussing the issues involved in today's flight training curriculums. In this light, the column is of most im-

portance to you, the student

and instructor.

We, at the association, realize that we are dealing with topics such as tests and various other training maneuvers too brief to be discussed in this column. We would like to answer some of your questions unanswered. The association wants these questions answered - we would appreciate and welcome a re-

sponse to what we write.

The advisor is looking for any comments on past articles and suggestions that you may have on topics for new articles. You can address any response to me or President Robert Miller at the Gill Roberts Wilson Building.

MARCH

by Michael with a "w"

I wonder if all the race fans on the way home this week were ever remotely aware of the "big men" that they forgot to stay at.

That's a shame, but what can we do about it. At least you are here and will have the oppor-
tunity to see the GREAT 1st ANNUAL WERU RACE.

The race will be on Thursday, March 17, immediately fol-

lowed by a race. On hand all will be all the radio sta-

tions in town and hopefully, WISU- 79. If they can enter a

man, I'm sure that can, too. The afternoon should prove to be the most unique

you have ever experienced.

To help promote the "race", WERU did a show at the Day-

tons Mall on Friday. We handed out free gifts to the shoppers and entertained them with music.

Saturday morning began at a breakfast of 9:00 a.m. when the All-Star WERU Volleyball team arrived on campus to compete in the Volleyball Tournament. We are proud to say that in our first intersquad competition we very easily took third place (only four teams entered).

Following the tournament, we played music for Delta Chi's Pig Roast. We also put our staff of the pig (big pig I ever had).

More promotional work was done on Sunday at the beach. Manhattan Mouse was booked down the beach and cheers from the sun worshippers and kisses from ladies. Women just an eerie for Manhattan Mouse. What has he get that you haven't? Come to the races and find out.
GUESS WHO?

He's 18 and 22 years old. He's dressed in blue jeans and a tee shirt with a local business ad on the back. He read in the downtown area and now he's in a nearby apartment. If it's a plaid, he's got a sticker on his car saying so.

An annual feature regularly shows a lot of plaid or not between classes, and is probably in a fraternity.

When he passes the UFA Office, he has blurred memories of such an organization in high school that had a special group picture in the yearbook, and, oh yeah, they're the one's who charged the dues so we could wear term's short to class.

On Wednesday mornings, he goes to the mall, makes the full cut of his mailbox, then tosses a gazette at a pile of newspapers on the table, perhaps reads the front page headlines, and walks on.

He eats his lunch,(connection to his buddy about the first, then heads for the parking lot. Upon reaching his car, he sees a note, no ticket, on his windshield. He reads it, laughs, and throws it away.

Come Friday, he has seen a movie or dance, but decides to head for the bar and pour a beer he bought, sit next to a friend, makes some more complaining about not getting a solo cross country for the week's race in a row.

He's generally apathetic, disinterested and thinks on-campus activities are for people with "nothing better to do." When he misses a deadline for some reason or another, his favorite phrase is "nobody told me".

1. Me
2. You
3. The average Riddle Student
4. All of the above
5. None of the above
6. What was the question?

With regard to this week's letter to the Editor, the apparently conflicting claims to the question of the next building to be erected on campus are due to a misunderstanding of the question. It has already been decided that the next building to be done type housing. Hence, the question "what is planned next" is still understated.

Jeffrey M. Cilek

THE GOVERNMENT program for Bartending in 1917 and 1931 model cars. The air bags are devices which expand and cushion a driver immediately after a collision. However, Richard Childs, senior vice president of Nationwide Mutual Insurance Company, criticized the delay of the program. If air bags were installed on all new cars, Mr. Childs said, 15,000 lives could be saved annually and injury to more than half a million would be reduced or prevented. He said that a Nationwide study, the death rate in those who in the U.S., had shown that air bags would save nearly $2.5 billion a year in risks, life, and health insurance premiums.

According to the New York Times, Polk Cinema, Florida produces more comfort than all of California and more than 100,000 pounds of citrus fruit for every man, woman, and child in the U.S. About 40% of Florida's citrus goes into concentrated juice.

If you know any mistakes, train, house, or other geographical feature of the U.S. which is not there, you can name it and the name accepted by the Federal Government to go on all its maps and in publications. After you make sure the item you want to name is rare and in poor condition, you are free to suggest a name, with one exception. You cannot name it after yourself or another living person.

Send your suggestion and your name to the proper name.

Donald C. Oat, Executive Secretary, The American Geographical Names, U.S.G.S. National Map, C.0. Box 133, 12261 Valley Drive, Benton, Virginia, 13,000.

Thirteen World War I vet in Oregon County, B.C., named The Last Men's Club forty years ago. They bought a battle of California wines and agreed that the last one of them alive would drink it. Well, in January in Walla Walla, 70 year old Harry Perycky, who outdrank all the others, opened the bottle and pronounced the wine "not too bad." He added, "With sorrow and thanks," passed my 12 living friends.

H.L. Mencken: No matter how logically a woman may be married, it always pays her to discover that there is a nicer man who wishes that she was not.

So Long!
DELTA CHI

by Spearmen

It was an early Saturday morning last week when a way of Delta Chi's could be seen heading north on A1A. Their destination was the beautiful Bermuda Inn Resort in Palm Coast, Florida. Once there, the brethren enjoyed the pool, the beach, golf, tennis, and last but not least, the bar. In between all this camaraderie, every- body found time to become serious and a meeting was held to talk about good times and plan better ones. After the meeting, we parted with a rug that just happened to be sitting on the beach. The brothers made about 100 yards, then turned to make a newly wrung out tee inside the bar and around the motel. The next morning everybody woke up aber and feeling good and some of us even woke up with something extra, sight Dan? Well, we back from our little vacation, but I'm sure that our spirit still lives on at the Bermudan Inn and with Beverly. If you missed the Delta Chi Pig Fost Funday, you really missed a good meal. For only two dollars anyone everyone there had a good time and were filled up on pork along with other assorted dishes. For anyone that has heard yet, Check Work is this week- end. Check Work will be there to fill force and we'll be taking the trophy with us when we leave. I tell of our glorious victory, the Delta Chi machine rolls on.

RUTH'S HEALTH FOOD & RESTAURANT
HOLLY HILL, FLORIDA

by Pork (crash) Chop

Business meeting number 4. We held last Friday the 15th at 7:00 p.m. - hopefully at the time of this writing, it will be through. I don’t mean to im- ply that it lasted a long time, but the Potent Pollack is no longer potent. He was quoted as saying, “Just call me the Limp Luminator.”

On the happier side of things, we were paid a visit by the Homemaking Queen of D3CE. John Silvertone was all excited until he found out that the “Queen” wasn’t a “Queen,” in ya know what I mean. The very lovely Betty was there to discuss an upcoming event between D3CE and Richie. There was a minor disturbance, however, when Cary Nicholson’s eye popped out of his head. The plans for the events discussed are in three formal stages, and I hope to have complete details next week. The brother had to resign as treasurer. Eru, who is married and is also a father, found he had no time to fulfill his obligations as treasurer as he stopped down. During his tenure, Eru did a fantastic job of juggling. I mean, Eru is one that had a hard time finding a quali- fied replacement because, as Eru could say, until I switch over to a more, found Joe Gallick, who I should say, is better known as the Potent Pol- lock. I’m not sure if he can write or read so he really doesn’t matter. So he knows this is about him, I’ll put Joe’s stand- ard signature here. It just seems to be a joke.

The Potent Pollack and the Rose Belt K3 (Kenny Bishop in an unof- ficial appearance) was total, was ‘14 hours from two members of Quad A on the Road Rally machine at Big Daddy’s. I guess those two guys were a bunch of spotters.

In sports, the big question is, “Can we ‘stop the mighty Vet machine?” The Vet peeled off another fantas- tic victory. This time Sigma Chi fell victim to the team that has the whole campus talking. Art Brooks led the way with sensational pitching. When Sigma Chi managed a hit, the hitters were right on top of it. Sunny, the Biloxi Indians, came up with a fabulous double play shortstop. After a great catch, it seems that Sam forgot how to throw the ball, so he tried to put up. Ramsey Higley, in right field, fronted the Sigma Chi hitters with several stupendous plays (for even caught a few balls). Kenny was outlooked, however, to stay in the outfield and keep his hands to himself. Rich Allen made a great throw all the way from center field that remained in an out helmet. Med Dog, who was be- hind homeplate, put up with the third baseman, Doug Saltzberg, for several outs. Final score - 16-2.

And, finally, the Vet have decided to sponsor a double-Edged Web’s mouse race. All I can tell you is, if you are in the race, our mouse is Igor Mousshevski. For you eco. fans, that is the same Igor Mousshevski that holds the European land speed record for mice. Igor will be driving from his native Poland Thursday, in time to thrill to all.

Well, the house is getting to be a pretty busy place as brother from the northern schools start rolling in. All ti- tled, ten brothers from Nus- sports University and two from the University of Illinois arrived over the weekend. With this in- crease in demand, the bar was formed into operation again Saturday night with Brother Rocky Pete tendering the bar under the watchful eye of Brother State. I would personal- ly like to express my sincere gratitude to Brother State for giving us my first big break in the business world last Friday, when he let me work the bar. It can only lead to bigger and bet- ter things.

Saturday morning, Sigma Phi Delta held this their annual’s vol- leyb istedi tournament. Air Force ROTC walked away with the first place trophy by defeating pains¬ner- Arnold Air, and a qualified WEBS team. After vol¬ leyball, the Delta Chi piot roost was the next event on our agen- da.

Good Job Work will be held this coming weekend and the brothers of B.S.D. are ready for any challenge that the other insti- tutions might give us. We are ready to stop the show. One new and old remain that way after this weekend.

At our last meeting, Dr. Ritzlhe gave us speeches on his trip to Europe and the Super- sonic Biplane. Dr. Ritzlhe, who is the Divi- sion Chairman of the Engineer- ing Department, took a trip to Germany to work on the develop- ment of the super sonic bi- plane and to assist the German engineers at the German Air- craft Corporation. Former built German brothers during the second World War and has been building aircraft ever since. After the war, former mainly built flying boats, but they have also built V-E-60 and STOL Experimental Aircraft. At present, Doctor is building a super sonic aircraft called the “Alpha IV” and a modification of the old flying boat to an Am- phibian. Many of these flying boats, built in 1937, are still in use by the German Military. Dr. Ritzlhe also explained the bottom structure and was surprised to see that all of their computers, which the Germans used, were American made.

The Super Sonic has two wings; a small wing placed underneath the inside. Both wings meet at the tip forming a triangle. These wings are thinner than conventional wings, but are more efficient and provide a smooth takeoff. The new design of the wing construction will be even better for the prototype a single winged aircraft with less weight and drag.

In the months to come, we are scheduled to have speaking engagements on interesting sub- jects such as Supersonic Bi- planes. We have shown a film and others will be showing soon. One on the list of films to be seen includes a film on X-15. Also, we will be taking a trip to the Bell Corporation at the end of March.

If you are still interested, you are invited to join AIAA. As mentioned before, you don’t have to be in the Engineering Curriculum to join AIAA.

To mentions some of the benefits, there are the technical meetings of no charge. AIAA Bendlo design competition in which group of AIAA student members submit design proc- esses in competition for cash awards, group insurance, film presentations, guest speakers, field trips, a monthly magazine (Aerodynamics and Aeronomy) and the AIAA Student Journal, all at no additional charge. The cost of membership is $3 for Campus Branch dues and $7 for National Research.

ATTENTION members and non-members: On our next meeting, we will not meet at the Faculty/Staff Lounge, but instead will meet in Room A-208 at 7:00 p.m., Wednes- day evening.

Before closing we would like to thank Dr. Ritzlhe for his helpful and informative speech, and for his help and support in designing the AIAA student branch.

"May the batteries be recharged..."

by Marty Becker

**E.R.A.U.**

**MTG CLUB**

Don't forget the dinner meeting tonight at 7:00 p.m. in the Commons Purpose Room. The guest speaker will be Mr. D. Goodson, manager of Montgomery Ward of Daytona. All members should be prepared to pay dues tonight. There will be no final examinations for next year's officers. Looking forward to seeing you there.

For those who are interested, but were unable to make reservations, contact Wade in the Student Activities Office or Box 4296 about our April meeting.

The Riddle Packers had a victorious day this past Saturday by taking last place in the Volleyball Tournament. Keeping our perfect record of finishing last in every Volleyball Tournament in the past three years, the Middle Packers will be back next year.

This coming weekend, the Packers will be playing in the realm to be known as the start. He'll be so fast, he'll probably steal all the cheese.

The date for the Beach Gardens trip has been set for April 14, the weekend before exams. Nothing like getting a little greasy before finals.

Our next business meeting will be held Saturday night at 9:00 p.m. at the University Center. Come on out and join us for a good time.

**SCUBA NEWS**

by Rommy Anderson

The Scuba Club has done it again! On Saturday, these brave men, Doug Kowetz, Chuck Kilday, and Rommy Anderson, took on the beautiful state park with camping, scuba diving, and of course, what we are interested in - the 130 lb. beer bar.

After donating a ton of equipment complete with a mess of beer, grills, and a supply of air, we ended up with a large hole that seemed no less than 7 miles. Finally reaching the spring, we proceeded on to what proved to be a very enjoyable dive with one lucky and finding a shark's tooth. The unlucky one lost but it remains anonymous.

The next meeting will be Wednesday, March 18th, upstairs in the Faculty/Staff Lounge at 6:00 p.m. We will discuss the upcoming dive offshore Daytona on the 27th - don't miss out on this great dive. Middle divers do it deeper!
ADP
PROFESSIONAL AVIATION FRATERNITY

Our weekly team meets on Tuesday at 7:00 p.m. in the Morose Hall. We would be glad to welcome anyone who is interested in aviation and would like to join us.

We need one more member to complete our team for the NIFA Nationals in Oklahoma.

If you:

1) Are well grounded in aircraft recognition and/or

2) Are superior in Computer Accuracy

Please contact Tom Reres,

E-RAU Box 2547

Just whose idea is this, anyway?

By the time we're old enough to fly, we've already been thoroughly sold on the idea.

By our parents, our grandparents, our friends and neighbors, the media, everyone.

We had to remember we ever had a choice in the first place.

But there is a choice, for the child is a tremendous responsibility, not just an important decision.

Probably the most important decision we'll ever make.

And once it's made, it can never be undone.

If you

... you do have a choice.

... you think about it.

... you decide what's right for you.

RIDDLE SPORTS

It Just Wasn't Their Day
by Rith Mathus
WEIU News

A John Long home run and a Steve Leaven triple provided the Eagles with their highest run output of the season, yet it was not enough as they fell to the Western College Pioneers, 13-8, in game two Saturday at Exposition Field No. 6.

Wisher also took the loss of the second game, his third in two games, as he went the first four in one count. Although the Eagles collected only four hits in the second game they made every one count.

Long's shot came in the third inning, with two outs and Ken Houser on second via an error and a stolen base. With a two and two count, the Eagle's line catcher drilled a fastball over the leftfield fence, some 385 feet away, for his first four-bagger of the season.

In the first inning, Riddle caught a fly ball and he doubled by Ken Houser at second via an error and a stolen base.

Otherwise, the story of this game was the wisdom of the Pioneer hitting machine. It's back ended up 42 hits between two innings.

Leading the way for Wisher was the top of the order. The combination of Flash, Robinson, Zamora, and Miller accounted for seventeen hits, twelve RBIs, and nineteen runs scored.

Gaeta also posted the de
decisive hit of the day, driving in backhand more of a Howard Yale line drive to end the second inning of the first game.

EAGLE NOTER: John Long has been "Mr. Clutch" for the Eagles this season. Although he has not hit for an extremely high average, he has, seemingly, come through every time he has come to the plate with men in scoring position, especially with two out.

With the National Anthem recital out of service, there was a remarkable silence as we tried to find something suitable to play. This reporter, as caretaker at the site, came up with a copy of "Bay Charles' AMERICA THE BEAUTIFUL.

All everyone seemed to en-
joy Charles' soulful rendition, as length three and a half minutes) left a little to be desired. Also, the harmonica backing provided by Ken Houser's dog "Rafi" made all those present just a little more anxious to get the game started.

On the schedule this week is a trio of games with Wooster University, down her to throw out after the recent Ohio win.

They will be at Exposition for a single game Friday and a doubleheader Saturday.

Games Friday will be 2:30 with a 1:30 start slated for Saturday.

BOWLING NEWS

Athletic Co-eds
By Campus Dignus News Service

The number of co-ed active in varsity sports at their college has increased in recent years. The increase of female sports' scholarships to women have been less than in number. In the last year or two most girls interested in playing varsity sports have been able to gain a scholarship.

The easterners playing in varsity sports are increasing in number. This fall is a new high in the history of varsity sports for female students at their college. The amount given to the female student for scholarship.

In bowling action last week the Home Rollers sent three from the Cherry Pickers as Brian Richardson bowled a high game of 226 and had a 492 series. The Yacke with Post Harv's taking two as Joe Goddard rolled a 521 series. The High Five were knocked out of first place as Verian took three. One More Time climbed into second place as they took four from the Evidences who now maintain third. The Wing Fins surprisingly took four from The A Go Go with the help of Gary Rallia 571 series. The High Rollers now maintain first place by one game as they won three games from Lane Juncos.
