E-RAU Chooses Cessna Skyhawks for Training Fleet

This is the AVION. It is your newspaper. It is made by and for the students who attend Embry-Riddle Aeronautical University. The paper comes out weekly during the Fall, and Spring terms and is published by the students in the newspaper program.

This newspaper can mean much to you. It provides a place to gather new information in a variety of aviation and non-aviation oriented news events. The AVION provides a medium for clubs and organizations to inform members of on-campus events and recently past happenings.

Students may use the AVION as a means of selling, buying, and inquiring for services and objects in the Classified Ads section. This section is free for students to advertise in. Clubs and organizations also have an added option to put in the paper for advertisement purposes. The AVION provides a quarter page of free advertising space to each club, however, two clubs cannot get together to double their advertising space.

There are just a few of the points of interest in reading and using this student publication. But more importantly, there are advantages to you, the student, becoming part of the AVION staff and helping put out this award-winning weekly newspaper.

Money, prestige and good learning experience, development of your sales skills and fun are all end-products of working for the AVION.

Vacancies will also occur in editorial positions. Now is the time for all interested students to come to the AVION. The workers in the newspaper now could well become the leaders of this university newspaper in the future.

During this next year if you are interested in training for positions of leadership, this time will prove you with the experience, management and knowledge you need. If you provide your interest in the paper more in tune with general journalism skills, this is your opportunity to write articles, take photos, sell advertising, work as a layout artist, act as a copy reader or as a columnist.

All of these functioning jobs provide the aviation oriented student or any outside university student a chance to broader media knowledge and background.

If you are interested in working for the AVION come by the office, this one on the right on the second floor of the University Center. Students interested in working in the AVION should consult with the AVION editor at a very early date.

Last but not least, this is the AVION. It is your newspaper. It is made by and for the students who attend Embry-Riddle Aeronautical University. The paper comes out weekly during the Fall, and Spring terms and is published by the students in the newspaper program.
WELCOME BACK!! to those of you returning. Welcome to Embry-Riddle!! those of you here for the first time.

Now that it’s been said, (and I’m sure you’ve all heard it to the point that you don’t really feel welcome anymore) let me say a few words as a fellow student. First, and probably most important – sitting there watching it all go by isn’t going to help anybody. Get involved, even if it’s only with your own studies. Spending time on the beach, after paying so much for tuition, makes for a rather expensive summer. If you have some free time, there are numerous organizations that can make your education go a bit easier, or as in the case of the AVION or any of the other S.O.A. organizations – we need your help.

Which brings me to my next point – the S.O.A. and all the organizations that are part of it need your support to continue functioning. The AVION needs staff members, so if you have any talent, or if you want the desire to learn, come see us. The AVION isn’t the only organization in need of members, Social Practitioner Committees, Phoenix, and even, WHER, are also looking for personnel. It doesn’t matter if you are a first year freshman, now is the time to get involved.

My last point is in regards to the upcoming referendum. I can’t tell you how to vote, only that you should vote. The AVION will attempt to publish any and all data that would be pertinent to the issues, as well as any letters to the Editor expressing opinions on these subjects. We’ll try not to be biased, but we’re here to keep you posted about the going on around campus. Have a good year, study hard, and I’ll be seeing you around.

We’re Going Through This Together

By Ray D. Katz
AVION Editor

We’ll try not to be biased, but we’re here to keep you posted about the going on around campus. Have a good year, study hard, and I’ll be seeing you around.

FEEDBACK

FEEDBACK is a weekly feature of the AVION, based on the questions, comments and complaints from the Suggestions Box in the University Center reception area. We used to say that not all questions could be answered in this space. This week this is all we found in the Suggestions Box. All suggestions are considered, and passed on. This is a good way to let your feelings known without going out of your way – please use it!!

QUESTION:

“Lower tuition or fix air conditioners.” When asking Ted Williams, Director of Physical Plant, this question, his answer was “Let’s fix the air conditioners.”

QUESTION:

“There should be separate telephone numbers for security and dorms, so when the switchboard is closed someone can be reached. And there should be someone who can be reached every 24 hours a day at this school in case of emergencies.”

ANSWER:

Mr. Robert Sperling, University Center Manager responded to this message: “The University main telephone number (255-5561) does have 24 hour service. When the switchboard is closed this number is routed to the Security Department. Any emergency telephone call made at this time and the switchboard is closed will be handled through the Security Department.”

WORK FOR THE AVION

You’ll watch your mana and start required in the Univer- sity Center and throughout the campus?

ANSWER: Standards of appearance and decor, relating stairs, and doors, are directly related to the philosophy and ob- jectives of E.R.A.I.D. It is in your best interest that students make the most favorable possible im- pression on the multitude of visitors to campus who are concerned with our product – the student – or our develop- ment as a university.

The way that men and women dress is primarily a pri- vate matter of personal pride and good taste. However, when one’s actions cause embarrass- ment to others, it is the responsi- bility of the university to call this to the attention of those involved. Befuddled and un- dressed have caused students and guests to feel uncomfortable in the University Center and are prohibited.

Dr. Jeffrey H. Lockwood
V.P. of Student Affairs

Welcome back to Embry-Riddle!!

Emory University

College of Arts and Sciences
INFO ON REFERENDUM

Many issues have been simplified and made more writable, like the role of the Senate for example – trimmed from a maximum of fifty Senators down to ten. The judicial branch will consist of seven justices, but now has six. Groups that were called committees are now Boards and Divisions. Repeal organizations have been brought as an example of the restarting of the SGA COMMUNICATIONS BOARD (ACB). I speak of the AVION and the FUNERAL student newspaper and yearbook) now combined into the STUDENT PUBLICATIONS DIVISION, the radio station (ERGO-AM), and the SOCIAL FUNCTIONS DIVISION. Likewise, the HEDC Division is now the HEALTH, EDUCATION, AND WELFARE BOARD, with its own Division.

The Student Court members were elected by the student body and kept their positions for "life." Now they are appointed by the Senate for a term of one year. One of the major changes is the time of elections. Following the elections this September, they will always be held in March. The reason for this is to ensure that there will be an active SGA during the summer trimester. Likewise, the Senate membership has dwindled from about 35 members during the Spring to maybe four or five in the summer.

The Secretary-Treasurer will now be a paid position. This person will maintain the financial records of all groups affiliated with, and receiving funds from the SGA. Even though the budgets of all groups will be approved by the Senate, the Secretary-Treasurer will be responsible for issuing checks (for bills, etc.) for each funded organization. This will enable a uniform accounting and monitoring of all SGA monies.

A big problem in the past was attendance at Senate meetings. Absence, under the new system, will not be tolerated. Any member who fails to attend three meetings in a trimester, that includes the Student, Student Court, Executive Cabinet, and all committees of the Senate and Divisions.

In order to improve communication and coordination between all branches of the SGA, the following changes should be noted: the Chief Justice will have to attend at least one SGA meeting per month and the same goes for the members of the Executive Cabinet and Board and Diversity Chairman. One of the student Senators and a Student Court Justice will now sit on the Executive Cabinet (without a vote).

The ACB will include the advice of each division and those three advisors will have a vote on that issue. It should be noted, however, that the entire ACB consists of four students and three advisors. Another improvement in this area is the function of the AVION Secretary. She will now serve as the ACB Secretary and her duties will include taking care of the entire AVION and the ACB Divisions. Her efforts will be coordinated by the student Chairman of the ACB and, in collaboration with the Publications Director, the best producers.

It has been agreed that this new ACB secretary position will be a trial blust to see if it is feasible for her to handle the entire workload.

The new SGA Constitution and By-Laws are available for examination to anyone. Step by step the SGA or Student Activities Office will mail them to you if you wish to see them. Unfortunately, the documents cannot be mailed to all SGA offices until the referendum, after which time copies should be made available.

While I speak on the subject of elections, all candidates for office please take note: petitions for the office of President/Secretary must be submitted by noon, September 8th. Petitions for the offices of Senates are due on noon, September 16th. Elections for SGA officers and senators will be on September 27th.

Dates to remember: September 8 – Constitution Referendum
September 22 – Elections
Please make an effort to vote, over $60,000 of your money is at stake!

There are several new provisions for the AVION which will be in effect immediately. The first is that only the three elected editors will be able to submit articles which will be published. The second is that the AVION will be able to print three times a week at its own expense. The third is that the AVION will be able to sell advertising space directly to the public, without the intervention of any SGA office. The fourth is that the AVION will be able to sell subscriptions and advertising separately.

The AVION \nBox 2111, Daytona Beach, Florida 32115

The AVION is now offering subscriptions for a nominal fee which is designed to cover the cost of printing, addressing, and mailing. If you wish to subscribe, please fill out the form below indicating the length of the subscription and your address. Thank you for your interest in the AVION and Emily.

Full Summer Subscription, $2.00
Full Trimester Subscription, $3.00
Full Year Subscription, $7.00

For advertising space, please contact your local newspaper or radio station for rates. The AVION will also accept advertising space from local businesses for a nominal fee. The AVION will accept advertising space from local businesses for a nominal fee. The AVION will accept advertising space from local businesses for a nominal fee. The AVION will accept advertising space from local businesses for a nominal fee.

EMBRY-RIDDLE AERONAUTICAL UNIVERSITY

AUGUST 31, 1977

E-RAU ORGANIZES RESEARCH COLLECTION

The E-RAU Research Collection library was formally dedicated the past spring. The new collection is one of the most comprehensive aviation literature displays in existence. Many rare and valuable documents ranging from early 19th century maps to balloon flight to current NASA laboratory reports are part of the collection. Numerous foreign works are also included.

The Research Collection has been under development for several years. After slow initial growth, the collection increased greatly when the Manufacturers Aircraft Association (MAA) donated its vast library to the University.

Under the direction of MAA General Manager J.W. Murphy, more than 10,000 volumes and accurate and valuable information was placed on the shelves of the new MAA Library.

The collection included the cornerstone of the University's Research Collection, with many other documents from a variety of sources included.

The collection might be available for broader applications in the near future. As soon as possible, the University intends to open the entire display to the aviation community at large.

According to Judy Luther, E-RAU's media Services director, procedures for general access to the Research Collection will be announced as soon as all the publications are recognized and re-stated.

NEW COMMITTEE NEEDS CONTINUED SUPPORT

There is a special and important committee within the Student Government Association which needs students to continue their support and membership. This is the HEW Committee.

The HEW Committee is divided into three sub-committees consisting of the Dormitory Committee, Academic Affairs Committee, Long Range Planning, and Food Service Committee. Here is what each of these subcommittees consists of:

The Dormitory Committee monitors student complaints concerning dormitory accommodations, off-campus housing, and living conditions which may affect the students welfare.

The Food Service Committee shall render student complaints concerning on-campus food service facilities.

The Academic Affairs Committee monitors student complaints related to curriculum, academic advisors, student records, grades, instruction, and other matters of an academic nature.

The Long Range Planning Committee provides the University with student views concerning proposed construction projects and shall assist the University Planners in calling upon to do so.

This committee is one of the most important in our S.G.A., in a way that if properly run can bring the S.G.A. and student body closer together.

If you would like to be on one of the sub-committees, please leave your name and box number in the S.G.A. office located in the U.C.

Career Center Activities

Career Center provides students with career counseling, direct assistance in obtaining jobs at graduation and career enhancing courses related to their jobs through the Cooperative Education program while affiliated through the University.

Students should drop in to the Career Center located on the second floor of the University Center to meet Jack Ricks, Assistant Director, for Placement and Career Counseling.

Good luck and a successful job search.

**Lambda Chi Alpha Fraternity**

Lambda Chi Alpha Fraternity has held beach parties, mouse training, field trips to various beach locations including Beach Cottage, has provided free beer for everyone during a party at the club in the beginning of the spring. The club also has been active in sports and in community related activities including supportive help at the Speedway during their week.

**Brothers of the Wind**

Brothers of the Wind is another RAU organization that has been active in the organization. Members of the organization are responsible and mature. The club has had activities like basketball tournaments, special Olympic programs, interscholastic and campus activities, not to mention acting responsibly. If this club appeals to you contact the Student Activities office for further information.

**The Triumph of Success**

-Sweet and cream quiet must have inspired this exhilarating moment in interscholastic sports competition. (AYVON photo)
Winston-Salem, N.C. — Piedmont Airlines is signing an agreement with the Civil Aeronautics Board requiring authority to provide service to Boston, Massachusetts.

The regional carrier’s Boston entry application proposes a new route to Winston-Salem, North Carolina, Knoxville, Tennessee, and DeKalb-Vinny’s, Virginia, and Boston, Massachusetts.

Piedmont intends to offer initially four round-trip flights into Boston’s Logan International Airport. All flights would be operated with Piedmont’s Boeing jet equipment.

The company’s proposed answer to many requests by various Piedmont cities for direct service to Boston. One of the most significant benefits of this service would be the fact that thousands of travelers would be relieved of the current necessity of changing planes on their trips to Boston.

Since the application, Piedmont said the proposed flights would serve 710,000 new passengers in the first year including 17,000 in markets that now have no single plane service to Boston.

Piedmont President. T. H. Davis, commenting on the application, said, “There is a real need and we are sure our passengers agree, for single plane Piedmont service linking many of our passenger states, for single plane Piedmont service linking many of our communities with Boston. We hope the CAB will move swiftly on our request and we know our friends in the states we serve support us in this move.”

Piedmont Airlines currently serves over 50 cities in 12 states, plus the District of Columbia, with a fleet of 23 Boeing jet airliners.

**AIRLINE NEWS**

**WISE UP!**

A few words of wisdom. Dr. Jeffrey L. Landsee

In order to better inform our students (and staff), the Division of Student Affairs has compiled a file of interesting and informative materials which we call “Consumer Information” (letter—original). If you have any interest, questions, or problems, feel free to stop in the Vice President of Student Affairs office and we will be pleased to share our findings with you. Below is an excerpt from THE CONSUMER’S WORLD SOURCE.

**CONSUMER RESPONSIBILITIES** — All too often the consumer is quick to select the business not for providing him with his rights, but the consumer is often not exercising proper judgment and restraint. A store that does not fill properly may not be one of the failures to do so. The final flaw may be with the manufacturer and the main problem operations. But an imperious, irresponsible consumer can take his anger on the local salesman and thus impose on his rights as a person. It is the responsibility of each individual to maintain proper perspective on the entire transaction.

With each consumer there are certain responsibilities, as can be seen from a shopping experience of Mrs. Caldwell of Cleveland, Ohio. Mrs. Caldwell purchased a new dress for which she paid $60, and she seemed very pleased with her choice until her someone pointed out to a crooked seam that she had not noticed. After a brief discussion, Mr. Caldwell suggested that she return the dress and get her money back. Mrs. Caldwell thought, saying “I am in such a minor flaw that I doubt if anyone will ever notice it. And yet it’s such a bother to return a dress.”

Mrs. Caldwell did not carry our her responsibility as a consumer, she said for a dress with a flaw, she returned it for a refund and priced it at a second. It may even have been the salesperson’s intention to sell the dress with the flaw to another customer. Mrs. Caldwell, knowing she was an “irresponsible” consumer rather than a “responsible” one. If all consumers were active in defending their rights, there would probably be more salesmen than there is in the quality of goods and services produced.

But it is not enough of course, to have only a few responsible consumers to carry the load for the many. For example, when you select the wrong room at a hotel and have difficulty getting your room corrected, do you bring it to the attention of the management? Or do you simply sit there and suffer until you leave?

**YOU CAN HELP KEEP FOOD COSTS DOWN**

The Food Service Department is making an all-out effort to keep food prices as low as possible in our cafeteria. We are facing a serious and potentially expensive problem. We are using an average of 120 pieces of silverware a week, over half of the beer glasses and many regular glasses are stolen. The Food Service operation has spent over $2,000 in replacing silverware, glasses, and plates. This trend just can not continue without prices increasing. This can be prevented with a little cooperation. If you have silverware, glasses, or plates that do not belong to the cafeteria please return them.

There will be no item on sale. If you take one out of the cafeteria please take a plastic eating utensil or bring back the regular utensil. Help us keep food prices as low as possible.

**WELCOME INTERNATIONAL STUDENTS**

For those of you who are continuing at Embry-Riddle, you should aware about the International Student Office. This office is intended to help the new students, this article is written to show you that the International Student Office exists, with Mrs. Nan Mayfield being the Student Office. She is capable of solving any problems international students may encounter while studying on the Daytona Beach campus of Embry-Riddle. The office is aware of the cultural adjustments and problems encountered by international students. It is the purpose of the International Student Office that no student be forced with the fear of the International Student Office. That no student be confronted by those young adults who are not informed or well prepared. Mrs. Mayfield is the right person to contact when you have a problem that is bothering you. She will give you advice and can answer any questions you might have.

As she says, “The office only works when you make it work. If you won’t cooperate, therefore, it is highly needed. If you have a problem, you must let Mrs. Green know about it before it is too late. Don’t keep your problems inside. Sometimes a problem can be solved by helping yourself; but it makes it easier for you and others to have a solution. When you have a problem, you must let Mrs. Green know about it. We will do our best to help you.”

The International Student Office is located in the International Student Office. Please also keep in mind that the International Student Office is there to assist you. For example, a notice could concern the international student. This notice could concern the International Student Office. Please cooperate to make your lives easier.

Finally, the International Student Office wishes you a happy and successful school year.

**Demand Increases for Flight Courses**

Based on projections made by several University Committee leaders, the demand for E&LA flight training will increase again this fall. While we are eagerly putting our plans into place, we must still compensate with the quality of our programs, and therefore we will be limiting the enrollment in the flight programs, and therefore we will be limiting the flight programs to this fall. Space will be allocated on a first-come-first-served basis until the spaces are filled. The Flight Division has structured the fall offerings so that they are priced to be attractive to the students, in that we will have all the flight courses offered during the trimester. We will start a group of students in the first of September, and another group of students in the middle of October. Both start dates have advantages for the student, and depending on your personal preference you can make a reservation for either first or second half of the trimester to take your flight course. In cases where you will be able to register for both flight courses during the trimester, and therefore we will not be able to accommodate you.

UNIVERSITY STUDENT STORE, OR

STATEMENT
The Student Store is one of several auxiliary service facilities which Embry-Riddle Aeronautical University provides for the benefit of the Student community. The Student Store is operated primarily for the benefit of the Student community, and all assets, obligations and policies are under administrative control.

PURPOSE
The Student Store is a service-oriented organization with the primary responsibility for providing students with all the "tools" necessary to continue their education.

HOURS
Monday through Friday 8:30 a.m. to 4:30 p.m.

TEXTBOOKS
Textbooks, both new and used, produce over half the dollar sales of the store. Those carefully selected "tools" of the trade are expensive, but not expensive in comparison to required "tools" of other professions. These high prices do not produce exorbitant profits for the university store. In fact, the gross margin is 20% (not including freight) and the average cost of operating a college store is 32%. Simple arithmetic reveals that a 2% deficit would prevail if either fixture or personnel costs were increased.

To help cushion your textbook dollar, the Student Store procures as many used books as possible. We purchase used textbooks from book companies and Embry-Riddle students, and place them on shelves along with new books. Our purchasing procedure is the same as followed throughout the country, namely, buying a book at one-half the current new price (whether it was originally new or used) and reselling it at three-fourths the new price.

It is the policy of the Student store to price textbooks according to the publisher invoice or price as received.

On occasion, this will cause books of the same type to have multiple prices. This is due to the fact that is a Student Store Policy not to raise the price of the book currently on the shelf, to agree with the new price. All textbooks are subject to being returned to the publisher the week following and thereafter.

STORE POLICY
Do not write your name or put other marks in a book until you have attended class and are certain the book is the correct title for your course. When you rent, immediately make the book unread and proceeds receiving a full refund.

KEEP YOUR CASH REGISTER RECEIPT. All refunds must be made within 10 days of purchase.

FULL REFUNDS WILL BE MADE ONLY UNDER THESE CONDITIONS
1. A current cash register receipt is presented.
2. Book is in an unmarked, new, salable condition.
3. The book is returned within 10 days of purchase.

To ask that all customers leave books, notebooks, and other purchases outside the store on the shelves provided for this purpose. Question of the request will eliminate any possible embarrassment for you or the cashier as you arrive at the checkout counter when ready to leave the store.

don't forget!

RIDDLE SPORTS

GETTING A FEEL FOR SPORTS EXCITEMENT AT E-RAU
(March 33, 1977 issue of AVION)

"Propelled by six men in their last three at bat and anchored by outstanding Nolan Black pitching, the Eagles were able to experience the joy of victory for the first time in many moons Friday as they crushed the Winter Scotia (Roch), 7-2, at Exposi, Feild, No. 33."  

"In bowling action the High Jollies maintained 1st by winning 4 games from the High Flyers with the help of Tom Tarrer's 537 series. One more Time moved into 1 game of first by taking 4 from Ventic. Walt Stimane rolled a 212/214 series for them. The Horse Pulers stayed close in the lap by taking 3 from the Wing Park. Brian Edmundson rolled a 530 series for the Horse Pulers and Guy Sanders had a 602.  

This is just a small taste of the sports available at Embry-Riddle.  

E-RAU is a member of the National Collegiate Athletic Association and the NCAA, participates in intercollegiate competition in soccer, tennis, basketball, baseball and golf. Students who are on academic probation may not compete in intercollegiate athletics. 

Intercollegiate and/or league competition is available in baseball, basketball, bowling, flag football, golf, softball, volleyball, and gymnastics. The women's sports are: basketball, bowling, flag football, golf, softball, and volleyball.  

A TRUE RUNNING GAME – Flag football in all its varied maneuvers continues to delight spectators and its participants. (Avion Historical Photo)

CO-EDS ACTIVE IN SPORTS

The number of co-eds active in varsity sports at their colleges has doubled in three years. In addition, athletic scholarships for women have also risen in number. In 1973, the number of girls involved in college varsity sports was 500,000, and in 1976 that number had risen to 100,000, according to the Association for Intercollegiate Athletics. The association also reported that 200 women's athletic scholarships were awarded in 1971. In 1977, 200 college and universities are handing out from five to 60 women's athletic scholarships.
