Spring Registration Reflects E-RAU's Expansion

By Mark Shumway
AVION Reporter

INTENSE CONCENTRATION - Registration strains one's brain

Now that the mass confusion of registration is over, the tallies have started coming in. Although there are still a few students who haven't registered as yet, the total as of last Monday stood at just over 2,500 students. Over 1,050 of these are working for the aeronautical science degree, which is the largest group. The next largest group were the AMT students who totaled approximately 340, followed by Aeronautical Studies at nearly 300, and the engineering students with close to 260.

Graduating Local Man Newest Member Of E-RAU N.A.C.

In keeping with E-RAU's desire for high academic achievement, the following students graduated in December 1977 with honors.

Those students receiving honors upon completion of the B.S. degree in Aeronautical Studies are: George Edward Bell - Magna Cum Laude, Norman M. Hills - Summa Cum Laude, David Aegon Keith - Magna Cum Laude, Harry Maier - Magna Cum Laude, Steven M. Varsano - Magna Cum Laude.

Students honored upon graduating from the B.S. degree program in Professional Aeronautics are: Mark Ziembinski Connell - Cum Laude, Thomas Hale Gerblick - Summa Cum Laude, Kenneth A. Hibel - Cum Laude, William J. Potte - Summa Cum Laude.

One student completing the B.S. degree in Aviation Management received honors. He is Urban Clement Irish who graduated Summa Cum Laude.

And Terry Allen Smith graduated Summa Cum Laude in the B.S. Management degree program.

Congratulations to all of you!

NEW E-RAU National Advisory Council member - Pat Moore.

Pat Moore, an Ormond Beach resident and longtime aviation enthusiast, is the newest member of Embry-Riddle Aeronautical University's National Advisory Council.

Moore's appointment to the organization was announced recently by E-RAU National Advisory Council Chairman Kimball J. Scribner. The Council represents Embry-Riddle in professional aviation circles and serves as liaison between the University and all areas of the aviation industry. Its members include many well known names in aviation, as well as national political figures including Sen. Barry Goldwater and former astronaut Thomas P. Stafford.

Moore, 63, has been an Ormond Beach resident since

1958. His wife, Patricia, moved to Ormond Beach in the early 1940's. The two were married here in 1968 and now live at 35 Dormont Drive.

Moore's intense interest in aviation began when he was a child. He became a pilot at 14. From that time, he has earned certification to fly as command pilot in literally hundreds of different types of aircraft, ranging from radial engine, open cockpit biplanes to modern business jets. His interest in all facets of aviation also has led him into aircraft design, maintenance and fabrication, as well as airport construction. In the early 1950's he built and equipped an entire airport near Hutchinson, Kansas. That project served as a model for the modern day fly-in community concept.

NOTICES

ATTENTION INTERNATIONAL STUDENTS

All students who are not U.S. Citizens (including those on permanent resident status) must report his or her address to the Immigration and Naturalization Service before January 31, 1978. This is a mandatory requirement by law.

Alien Address Report forms are available in the International Student Office in the University Center. It is important that you stop by and take care of this requirement.

TO: EMBRY-RIDDLE STUDENTS WHO ARE COVERED BY STUDENT INSURANCE

When a student is treated at the EMERGENCY DEPARTMENT OF HALIFAX HOSPITAL for illness, the \$25 deductible must be paid at the time of treatment.

However, in case of an accident, this is not required.

The above allowances are contingent on the student presenting a valid Student Identification Card.

TO ALL FLIGHT TECH STUDENTS

Your Health and Accident Insurance POLICY ran out January 6, 1978. Please come into the Health Services Office and renew your policy.

Rosemary O'Brien
STUDENT INSURANCE

Will the student from New York who put his bags in the Student Activities Office on Wednesday morning, January 4 for Orientation, please stop by that office as soon as possible.

INTERESTED GOLFERS

The E-RAU Varsity Golf Team is now beginning practice for the Spring Season. Experienced golfers interested in trying out for the team are requested to contact George Smith, Golf Coach at Ext. 318.

TENNIS ENTHUSIASTS: Tennis Team - People who would like to play intercollegiate tennis for school contact Carl Brown in H-103, Office hours are MWF from 10-12. Phone 426-T & TH. hours are 9 a.m. to 10:50 a.m.

SLOW PITCH SOFTBALL

E-RAU's Slow Pitch Softball intramural softball meeting will be today, Wednesday, Jan. 18 at 5:00 p.m. in the Common Purpose Room, of the University Center.

Students will organize their own 10 man softball teams and will attend the meeting to discuss rules of the league. Games will be played on Sundays.

*NO late entries will be accepted.

FREE FOR YOUR HEAD!

The DBCC Cosmetology department will be offering free haircuts to the students at Riddle. The haircuts will be given from 9:30-10:00 a.m. and from 12:30 - 1:00 p.m. on Monday-Friday. Department officials recommend making an appointment first by calling Marion at 255-8131 Ext. 463.

This is a great opportunity to help out some DBCC students get some practice and at the same time save some money.

Students Honored for Achievement

Congratulations go out to the following students who achieved high academic excellence at E-RAU during the Fall Trimester, 1977. The students are listed below in their respective college's dean's list and honor roll list.

To achieve placement on the honor roll, a student must maintain a 3.20 to 3.49 average. To receive the higher honor of Dean's List member the student must have maintained a 3.50-4.0 average for the trimester.

A Campus in Arizona?

Dec. 29, 1977

Embry-Riddle Aeronautical University's President Jack R. Hunt responding to questions and stated today:

"E-RAU has submitted a proposal and plan to the trust authorities in Prescott, Arizona, concerning re-opening of the previous Prescott College campus and facilities. Details of the proposal are still being discussed by principals of both parties and have not been firmly concluded as yet. The Embry-Riddle Aeronautical University Board of Trustees must approve the agreement before final consummation of the transaction, Hunt said. If the parties do reach agreement, Hunt continued, it is the University's intention to open the facility under the name of Embry-Riddle Aeronautical

University Aviation Academy.

"Initially Embry-Riddle would plan to present the Prescott Campus facilities as an Academy, open only to boarding students - both domestic and foreign - from the 11th and 12th grade categories. The curriculum would be structured to utilize aviation as the student study motivator while containing the professional disciplinary systems inherent in the aviation sciences such as mathematics/physics/oral and written skills, etc.

"Embry-Riddle officials said that if agreement is reached in January, 1978, the 11th and 12th grade classes would open on September 5, 1978. While it is not planned to offer college level programs immediately, it is expected that college level programs would be offered within two years.

OPINIONS

THE OPINIONS EXPRESSED IN THIS PAPER ARE NOT NECESSARILY THOSE OF THE UNIVERSITY OR ALL MEMBERS OF THE STUDENT BODY. LETTERS APPEARING IN THE AVION DO NOT NECESSARILY REFLECT THE OPINIONS OF THIS NEWSPAPER OR ITS STAFF. ALL LETTERS SUBMITTED WILL BE PRINTED PROVIDED THEY ARE NOT LEWD, OBSCENE, OR LIBELOUS. AT THE DISCRETION OF THE EDITOR, AND ARE ACCOMPANIED BY THE SIGNATURE OF THE WRITER. NAMES WILL BE WITHHELD FROM PRINT IF REQUESTED.

EDITORIAL

Ellen L. Nagourney
AVION Layout Editor

Hello again to all returning students and welcome to all new students!

Congratulations are in order to Nena Frost and Jimmy Hill-burger. Since taking over the student activities office in August, they and all those working with students activities have brought the programming from near nil to almost extraordinary. The school is finally becoming a real university. If the Gil Eagles show was any indication of the entertainment in store for this year it should be a year well worth looking forward to.

While I'm congratulating people I'd like to congratulate the AVION staff for the job they did putting this paper together. Because of internal problems many of the staff members are new. If you notice the columns a little crooked that's the reason why. By the way, if you've been here a year and haven't picked up a PHOENIX yet come on up and do so.

Well, I guess this is my first and last editorial, so nice writing to you and BYE!

Letters

WHO NEEDS FRATS

By Raymond Guldner

There comes a time in every college man's life when he is confronted with the question of whether or not to join a fraternity. Some take this opportunity pass them by, while others like myself see its value and become involved.

The major value of a fraternity is the challenge it can offer its members. The challenge is to participate, to organize, and to lead. The challenge to take what is learned in the classroom and apply it to day instead of ten years from now.

However, beyond the decision to go Greek is the question of which Greek? Here the decision boils down to one thing, the members. A house can offer all the opportunity and challenge in the world, and if its members aren't the type of people which whom you want to live, then you might as well look elsewhere.

It was both the challenges and the guys that made me choose Delta Chi. It is also these same two things that still hold my interest today. The challenges to participate, organize and lead increase with every year that I am a member. Although the brothers may change some from year to year, it is still because of them that I want to answer these challenges.

If the magic of a fraternity seems to have lost your interest, over the years, maybe it's because you can't meet the challenges it offers (but more than likely, it's because you don't want to) or maybe you have forgotten why you once called someone your brother.

Why did I join Delta Chi? Well, I didn't join for athletic competition. I know that even the most powerful bodies shrivel in time. And I didn't join for intellectual esteem because even the most dynamic of minds falter.

I didn't join for the parties or for the women. Nor did I join for the chance of being elected to an office. Neither did I join so my transcripts would show that I was an active member of an organization.

So why did I? I joined Delta Chi Fraternity, a brotherhood of individuals, no two alike, no two trying to be alike. A brotherhood indeed, for all Delta Chi's are really my brothers. We all share the common bond.

And the bond is forever. That's why I joined Delta Chi.

(Continued next week.)
(Submitted by Delta Chi Fraternity, E-RAU)

I want to quit!

PRESIDENT'S CORNER

Bob Allen
SGA President

Welcome back, Spring tri is upon us, with the everpresent weather and academics that accompany this time of year. This Spring is just the beginning for some, but for you graduates it means an increased apprehension of jobs available. Send resumes out early and avoid the rush.

The S.G.A. staff is rolling again, with Budget approvals, social functions, et. al. We sincerely hope your holidays were joyous, albeit too short, and are looking forward to working for you in the coming year.

Many committees are being newly formed this spring. I in-

vite one of you to step by the S.G.A. office and recind out your academic life by assisting these committees. The more help we acquire from you, the better your Student Government can function.

Many of you enjoyed Gil Eagles, the "world's fastest hypnotist." This is just a sample of the fine entertainment our social functions chairperson has for you this Spring. If you have any suggestions, opinions, complaints, or just want to talk, stop on in and we'll get together.

Until next time,
Bob

VP THOUGHTS

By Alfred Graves

Welcome back all. Hope everyone enjoyed their holiday break. As Vice President of the S.G.A., I strongly urge you, the students, to familiarize yourselves with the S.G.A. and its functions. Our concept is to represent the student body and to try to fulfill their needs in a way that would most benefit all. We need student input however, to achieve any of our goals. By providing us with more input, we can therefore accomplish our set goals, making the S.G.A. a stronger, more effective type of organization.

For you new students, the S.G.A. is composed of an Executive Cabinet and ten Senators. This representation of Senators includes four from the College of Aviation Technology, four from College of

Aeronautical Studies, as well as two Senators At Large. A list of their names is posted on the S.G.A. bulletin board, so feel free to contact any one of them if you would like to be recognized at a Senate meeting or if you would just like to discuss a problem or issue.

There are various committees forming within the S.G.A. which need your support and opinions in order that they function properly. If you have some free time and are interested, stop in the office and inquire about possibly assisting one of our committees.

On behalf of the S.G.A. members, I invite you to come on out and take advantage of your equal representation.

Later,
Al

Do You Need A Fla. Drivers License?

For the new students who have been puzzled and are still in doubt about whether they must have a valid Florida driver's license while attending this university:

The following persons may drive in Florida without having a Florida driver's license:

1. Any non-resident, at least 16 years of age, who has a valid license from his home state, unless he becomes employed or places children in public school or becomes a resident of Florida, at which

time he must then secure a Florida driver's license within 30 days.

2. Any non-resident, attending a college in state, who has a valid license from his home state, unless he becomes employed or becomes a resident, or enters children into a public school. The word employed includes on-campus employment.
3. Study booklets and testing for Florida driver's licenses are handled through the Department of Highway Safety and Motor Vehicles, Division of

Drivers Licenses at 995 Orange Avenue, Daytona Beach. Office hours are 8:00 a.m. to 5:00 p.m. - Monday through Friday. Total cost for testing and license is \$9.50. For more information call the Driver's License office at 255-6485.

4. I hope this information will assist you in abiding by the rules of this state while attending this university.

Your Director of
Security
A.G. Moccia

dear WRONGWAY

In this column it is your chance to have your confidential problems answered by an unargumentative authority in aviation, Wrongway Corrigan. Simply send your questions to: Dear Wrongway, The AVION Office, E-RAU Regional Airport, Daytona Beach, Fla. 32014.

Although the letters are original, the replies are in fun and should by no means be taken seriously. We want you to ask Wrongway any questions you have, just remember the answer will be given in the spirit of fun!

DEAR WRONGWAY:

I am extremely worried about having to make a forced landing at night while on a training flight. What should I do if I should encounter this situation?

Night Flight Fever

Dear Night,
Don't Panic! Turn your landing lights on, and if you like what you see leave them on; if you don't - turn them off!

DEAR WRONGWAY:

Did you know that there is a lack of flight instructors and aircraft at E-RAU? Is this true? Concerned freshman

Dear C.F.:

There is no problem with a shortage of aircraft or instructors as assured by my good friend J.H. My suggestion to you is to wish your parents Merry Christmas now because you won't be going home for the holidays.

DEAR WRONGWAY:

What should I do if I should encounter a total electric failure in solid IFR?

Electrically Confused

Dear Electric,

Wind the altimeter down to "0" with knob,

open door and step out!

DEAR WRONGWAY:

How should I respond when told by ATC "Radar Contact Lost" and position is requested.

Lost Thoughts Willie

Dear Lost:

Just say "Not far from where I was last seen!"

DEAR WRONGWAY:

I have a little problem. I'm 1,000 miles out to sea and its presently pitch black out, no moon, no nothen. My fuel gauges read "E". The engine is sputtering. I'm just wondering if you have any advice.

Calm in the cockpit

Dear C.C.:

Trim for minimum descent speed, move seat aft, tighten seat belt, take a deep breath, place head firmly between legs, and kiss your ass good bye.

And for all you literary fans, here is one of my favorite classic poems, cards and letters have come into my office to reprint this gem!

The Airline Pilot Jill

When flying had such a thrill

"The Airline I commend,

The Stewardesses now are men

And I'm sure glad they invented the pill!"

ARNOLD AIR SOCIETY
BILL ROSS WILSON, SQ.

By Kittv Blaisdell

Coming soon and sponsored by the Gull Robb Wilson AAS Squadron is the once A Term Pledge Party. How soon you ask - is Friday night soon enough? It is a good way to end a hard boring week of classes and to forget that the one class you thought was unimportant, and decided to miss, had a pop quiz that day. What is even better about the Pledge Party besides having a good time is meeting everyone in AAS and finding out what we do before deciding that you want to join. The time and location of the party will be posted on the ROTC board in the U.C.

Last Wednesday was our first meeting and for some of us our first two meetings. Besides Commander Dave's disorderliness let's see what was accomplished or planned. First we need new squadron projects to keep us all busy. Are there any suggestions? (cue)

Enter Capt. Merdix - sit in the back - demand to know about the Pledge Party. Please read the first paragraph. Now back to business. Area Conclave at Orlando - everyone planning on going should already have turned in their registration. We want to show FTU what we're like in full force and to let everyone else know that we would have been and will be next time, the BEST choice for Area Headquarters. Also our friends and honorary member Tony in Miami will bid for Area Conclave for next year.

It seems we have a problem with Wednesday meetings. There is a schedule for everyone to sign at the times they are busy so that a time for everyone to meet can be arranged. If you have not signed it already then get in touch with Dave.

Occasionally this column will be featuring one of our eight graduating seniors. Now that they will be leaving us soon, it will be safe to get to know them a little. To know them much longer than that could be hazardous. If you want to be, O.K.A.Y. if you don't, then don't read the following - welcome back.

"Hey, Charlie! Let's get off this grind and do something really worthwhile. Let's go to work on the AVION staff! We can work as writers, layout artists, copy readers, artists, or photographers. What do you say Charlie, huh?"

DELTA CHI

By Lee Clements

We hope everyone had a good vacation and welcome back to the Spring Trimester. Santa Claus was good to Delta Chi as we are now in a partnership for the ownership of our fraternity house and property. Delta Chi and Sigma Phi Delta are now the only fraternities on campus that own our houses.

We have already had our first chapter meeting and

it looks like there are several good activity plans in the making for the trimester. Keep reading the AVION and looking for posters for announcements of happy hours, rush parties, etc. throughout the trimester. If any new students, or returning students are interested in finding out more about Delta Chi, feel free to stop by the house at 538 S. Ridgewood Ave. during the week.

LAMBDA CHI ALPHA FRATERNITY

The Lambda Chi Fraternity would like to welcome back the returning students of E-RAU, hoping they had a wonderful vacation and are looking forward to a fun and enjoyable trimester.

This week Lambda Chi held its first meeting of the new year in which it held elections of fraternity officers. The election for 1978 fraternity officers brought returning alumnus John Kala the position of Vice President. He is entering E-RAU's new local Graduate program. Welcome back John, and good luck in your new position.

Other new officers included Bill Prescott - Instructor of Associates; John Matthews -

Chairman of Social Events; Mike Richards - Chairman of Recruitment; and Mark Dallaire - Editor (That's me). Good luck in your new positions gentlemen.

Also, starting soon classes for new associates and we're hoping to meet some of the new and old students of E-RAU who are interested in joining. And for those who are interested in joining a great frat, our meetings are held every Saturday night in the U.C. at the Common Purpose Room at 8 p.m. Hope to see you there!

Fridays will be short days for Lambda Chi, so be looking for us.

See ya,
Rock
P.S.: Attention Phil - Carina has been seen in Volusia Mall.

Marines Here Today

The Marine Corps Officer Selection Team will be here today and tomorrow (Jan. 18-19) at the Campus Cafeteria entrance.

If you want a career in aviation, make it a career in

Marine Aviation. The Marines are looking for a few good men... who want to fly.

If you are unable to talk to the team while they are here at E-RAU, call 305-420-6461 in Orlando for further information.

Career Center Activities

By Warren Messner

The challenges of a new year and trimester are upon us. Seniors graduating in April and entering Placement services must fill out a Qualification Record form with Jan O'Steen. This form is used to match students meeting employer job requirements and notifying students that particular jobs might be considered by them. Don't forget, career hire jobs are continuously being developed and employers expect the Career Center to pre-screen potential candidates. So now that you understand what is happening give us the opportunity of working for you by filling out the QR form as soon as you can.

Students with summer jobs or who wish careers/courses later summer jobs should discuss the cooperative education program and its many benefits with a Coordinator. Don't wait, it takes time to locate the employer you may be interested in working for, processing your information and obtaining employer acceptance. If you talk with us now, we can work the situation to your benefit. Time runs out very quickly.

Speaking about timing, most students are like the proverbial square peg trying to fit into a round hole. They wait and wait

until their education is nearly completed and then decide to amble up to the Career Center and tell the world here I am, come and get me. Surprise surprise: not only is the world not listening but those getting job interviews suddenly discover how little they know about interviewing. Man those jockey shorts, long flowing hair and torn tennis shoes really impressed that interviewer.

I am sounding the call GET WITH IT. Whether you are marrying the box's daughter, going into the military, continuing your education or hanging around the University Center, come up to the Career Center on the second floor and find out about jobs, career trends, how your desires and capabilities relate to what is actually going on in the wonderful world of work. You just might find out something you didn't know.

Signed,

Warren O. Messner

SigmaPhi Delta

By Joe Biebel

As the new trimester is getting under way, the brothers of SPD are gearing up for another socially and professionally prosperous trimester.

On the social side of life, the brothers and little sisters of SPD will be looking forward to another trimester of weekly Friday night "happy hours" which usually last the evening. Another fun and thrilling event in which everyone seemed to have a blast were the Saturday afternoon BBQ's which were held in the backyard of

the SPD Castle. On the professional side of life, there was the trip to Vero Beach to tour the Piper Aircraft Plant. With a special tour arranged, the engineers of SPD had a good excuse to take off a day from school, and see the industry.

Any AE or A/CET student who would like to know more about Sigma Phi Delta Fraternity is welcome to come to our rush party, 8:00 p.m., Friday, Jan. 20 at 519 S. Ridgewood Ave. If you need a ride, feel free to call 252-9374.

Audience Mesmerized By Hypnotist

On our first weekend of the trimester, Embry-Riddle's social events department decided to start off the year with a bang by inviting Gil Eagles, a very different type of performer to our University Center.

He was different in that he was a type of hypnotist. Hypnotism is something in which most are very curious about, and after seeing his show, made these people even more curious.

His evening consisted of almost three hours of captivating his audience by doing things most out of the ordinary. Including being totally blindfolded and identifying objects completely unknown to him. These objects were picked out of the audience by two Riddle students and Eagles had no possible way of knowing what objects had been brought up on stage.

Also while blindfolded he had any people who wanted to, write a question on a piece of paper with their name on it, had them place it in a large pot, and proceeded to pull some out, saying the persons name, reading and answering their question, sometimes even stating what the person was wearing.

The second half of his show

consisted of hypnotizing 12 students and having them do all kinds of out of the ordinary things by the power of suggestion. Throughout this whole show, he kept emphasized the fact that anything he did was only by "the power of suggestion."

He had some of these students believing they were Tarzan, Miss Universe, a police woman, a flamenco dancer, the road runner, and a couple of other wild ideas.

The students involved all cooperated well and seemed to have an enjoyable time. As for the audience they also only had favorable comments on the evening, and were thoroughly amazed at the end of the show.

Seeing that your student activities fee pays for these shows, I think that we should see many more students at the functions. Almost all the entertainment that has been put on this year by Riddle has been extremely well liked by most of the students asked, and there is always room for more students to fit in our U.C. So give the people putting on these shows a chance, you'll probably end up being amazed that these not so well-known names can put on such good shows.

S.G.A. Presents Dynamite Concert/Comedy

TOM PARKS

RICHIE LECEA

On Saturday, January 21, the S.G.A. will bring you another evening of fine quality entertainment. On the bill are Richie Lecea, singing and playing the guitar and Tom Parks, comedian.

Richie Lecea was born

June 22, 1946 in Long Beach, California. At the age of ten he received his first guitar from his father and formed a group called "The Pharoahs". Richie later joined a group called "Shango" and continued to write songs. As a result of his association with 20th Century Music, Chubby Checkers recorded one of Richie's songs, "She's a Bad Woman".

He has recorded two albums on Wooden Nickel labels, "Magic" and "It's All Done With Mirrors". Richie says of his talent: "Everyone has his own particular gift. I believe, and I feel that singing and communicating the song are the gifts I have received..."

At 25, Tom Parks is one of the most impressive comedians to appear on the scene in the past few years. A very funny man, Tom has opened concert dates for Neil Sedaka, The Spinners, Dr. Hook and the Medicine Show, Jimmy Buffet and more. As a headliner, Tom is a favorite at the Great Southeast Music Hall in Atlanta, where he got his start.

What is the secret of Tom Parks' recent success? It must be his smooth, good natured delivery combined with his overall cooperative attitude. Since his outstanding performance at the 1976 Southeastern Regional NEC Convention, Tom has traveled to many college campuses, spreading the word... IT'S REAL.

Everyone is invited to enjoy an evening of solid music and comedy this Saturday at 8:00 p.m. in the U.C. Don't miss this one!

Bowling News

By Doug Balauf

This Thursday night marks the beginning of the Spring season for the Embry-Riddle Bowling League. For those who were not in attendance at last Friday's meeting, I'll repeat our agenda for January 19, and the weeks following. An 8:00 p.m. meeting for team organization and rules discussion will precede an anticipated 9:15 bowling time. Aspiring members not already engaged with a team will be given choice or assigned. First night fee is \$5.00 to cover sanction fees and lane rental. The following 12 weeks fee will be \$3.50 per week. Prizes and incentive awards will be distributed during the course of the season culminating with our gala awards banquet.

The Riddle Bowlers are a mixed league, comprised of students, staff, and friends, who enjoy a competitive but enjoyable evening of bowling. So whether your average is superb, mediocre, or maybe a little rusty, you'll find plenty of "experts" to provide advice, sympathy, or occasional chastisement all in good fun.

Congratulations to last season's champs. The Pins-A-GoGo triumphed behind the efforts of Bob Allen, Dave Warner, and John Keck. Can they repeat once more? Come and see beginning this Thursday night starting at 8:00 p.m. at the Halifax Lanes on Mason Ave. You too can enjoy the thrill of victory... join the Riddle Bowlers.

AFROTC

By Oz Alfert

Welcome back to the Spring Trimester of 1978. With one and a half weeks into the term, everyone has probably been able to settle back into the normal study routine. But for the cadets in AFROTC, the trimester holds much more than that.

On February 16, we will be having this term's first drill competition. On March 4 is the Field Day. A base visit to Wright-Patterson AFB is scheduled for March 30, 31, and April 1. The second drill competition will be on April 6. And finally, on April 7, AFROTC will be having its annual Military Ball. The trimester promises to be very rewarding, indeed.

Last Friday, the term's first (and only) AFROTC event was held.

Pretzel Hour was held at the AFROTC trailer. This is a fine way for the cadets to get together, talk, relax, and have a good time. All the cadets should plan to attend future Pretzel Hours. It is an excellent way to get to know everyone, including the officers, on a less formal basis.

Finally, to all those students interested in AFROTC and a future commission as an officer in the Air Force, check out the brochures on the information stand in the University Center. We feel that quite a few of you might just be what the Air Force is looking for. The opportunity is there with the United States Air Force. Think about it seriously.

Spring Into Sports

By Chuck Henry
Sports Editor

The spring trimester is the most eventful time of the school year. At the school itself, there is a variety of interscholastic baseball and tennis. On the intramural scene is softball and bowling. Plus, many different sports oriented clubs are active.

If these sports aren't enough for you there is always the beach and plenty of action there. Also, starting with the first weekend of February, are the races at Daytona Beach Speedway. The first race of the season is the 17th Annual 24 Hours of Daytona, a sports car road race over the 3.84 road/track course. This race begins the party at Daytona Speedway that lasts until February 20 with the Daytona 500 Stock Car Race. There's a 3-week recuperating period for

race fans until March 6-12 when the motorcycles come to town and all kinds of racing goes on, the biggest being the Daytona 200 Expert Road Race.

So it's a full calendar both on-campus and off. All of the sports at Embry-Riddle need your support either in physical participation or mental support by coming out and cheering for your team. Cheering should definitely be given for the varsity sports.

There will be schedules in next week's paper of the games being played. Keep a look out for posters on the walls. They will tell you of the meetings for each sport. So come on out and give a damn for the school teams yourself and the university as a whole.

LET'S Fill THOSE POSITIONS!

BAT GIRLS NEEDED

Female students interested in being bat girls for the varsity Baseball Team stop by the AVION Office during work hours (except from 11:30-1:30).

POSITIONS FOR TEAM:

Any students interested in being an equipment manager or scorekeeper for the Varsity Baseball Team please leave your name and Box Number in the Student Activities Office.

BASEBALL SIGNUP:

Any student interested in trying out for the varsity Baseball Team contact Joe Golinski at Box 5192 or attend daily practices at 3:30 p.m. at Field No. 6 Expoville off Catalina Drive.

PROFESSIONAL AHP AVIATION FRATERNITY

By Ken Morse
Historian

Welcome back to all AHP members. I hope everyone had an enjoyable Christmas break. At our first business meeting of the trimester, new officers were elected to fill vacant offices left by graduating members, new officers are as follows:

Secretary - Patty Gilbert
Pledgemaster - Joe Filemark
Alumni Secretary -

Graduating in December were:

Craig Hilderbrandt
Bob Gordon
Duana Ducklin
Randy McClain
Cletus Rojas

Events coming up in the near future include our ritual dinner to welcome new pledges, another tour of the Jacksonville ATC Center, and a tour of an Eastern I-1011.

Alpha Eta Rho is a professional aviation fraternity. For more information on what we do, our goals and activities, see a brother, or drop a note in Box 1032.

A special version of the proven Scirocco. Featuring a brilliant Alpine White exterior, flat black trim, competition spoilers, special rally bucket seats in the front, black corduroy upholstery, large tachometer, and a rear window wiper/washer combination. Supply is limited.

And like all our Sciroccos, Sidewinder II features a 1.5 liter overhead cam transverse engine, mounted sideways, that delivers quick acceleration and astounding fuel economy—38 mpg highway, 25 mpg city. (1978 EPA estimates. Actual mileage you may get will vary depending where and how you drive, your car's condition and optional equipment.)

Stop in at our showroom and drive Sidewinder II or one of our other Sciroccos. You'll see why special competition Sciroccos have stormed to victory after victory on the grueling TransAm circuit.
