Gear Up At Ormond
By Ellen Nogueras

On Sunday March 5, 1978 Riddle 64 had an accident. Riddle 64, a Mooney, was being flown locally by a student, an instructor and an observer. After some local air work the last flight was to continue w.h. some practice landings at Ormond Beach Municipal Airport.

The touchdown was normal, without showers from.

While slowing on roll out down the runway, Riddle 64's landing gear failed. The plane was jolted up and tossed from the concrete. The initial assessment found damage to the side of the airplane behind the prop and the engine. The reason for the gear's retraction will not be known until a complete investigation is completed. Unfortunately this is the first time Riddle 64 in the Ormond Hangar has been involved in a problem.

Survey Delayed
The Student Survey on demographics concerning admission and student opinion designed by the Marketing and Advertising Department has not yet been completed.

So far only about one third of the students have filled in the survey. Those who do will be thanked, and those who do not will not be penalized.

Free concert!!!

There will be a free concert on March 19 at the internacional Student Office.

Moue Night

Thursday, March 9, WEU presents ALICE IN PARIS. See what happens when Alice eats the magic cheese on Campus.

Also...

SPEEDY GONZALEZ

WeRU's 2nd Annual Mouse Race

March 17th on the west side of the U.C., the second Annual Mouse Race will begin at 4:00 p.m. Mice will be available at the race.

Get your racing mouse today, don't let that mouse get away with you!!

Traffic stoplight on Clyde Morris Blvd.

If you want a stoplight on Clyde Morris Boulevard, write the Office of Administration, Thomas Kelly, 1030 Podmouth, Ormond Beach, Florida 32070.

This is the only way we'll ever get one.

Announcement

Today, the SGA will be holding a Spring Ring Festival in the University Center from 9:00 a.m. to 4:00 p.m. You could save up to 229.00 on the price of your ring depending on what you order. These special "free" options are being offered on ring orders placed during the festival. So come out and take advantage of this terrific bargain. Ring information is available in the SGA office every day, so stop in and pick up a brochure.

FREE CONCERT!!!

There will be a free concert on March 19 at the International Student Center at 4:00 p.m. with pianist Arvno Hajalma - instructor from Addis Ababa.

Prescott Interview With Pres. Hunt

(Editors' Note: The following interview with Embry-Riddle Aeronautical University President Jack Hunt and the Florida-Courier appeared in the 1978 issue of their town's paper. It is reprinted in the AVION to give the body a better idea of the administration's plan concerning the Prescott campus. The following article will appear in a future issue.)

Embry-Riddle Aeronautical University and the Prescott College Mortgage Trust made an agreement whereby the Florida-based university will acquire the campus and operate the Prescott Aeronautical College campus.

The trust and Embry-Riddle have planned a fund drive to raise the $750,000 to refurbish the 120,000 square foot campus. The cost of the up counts, and a feasibility study has shown that that kind of money is available in Prescott and throughout the country.

In this interview, R-R-AU President Jack Hunt talks about Embry-Riddle's Daytona Beach campus and what the Prescott plan is to do with the Prescott campus.

Q. What exactly is the agreement with the Prescott campus?

A. Embry-Riddle is the mortgage trustee now on the campus and operation of the Prescott College campus for the HUNT. I don't get into the philosophy of ownership. It's too difficult to explain. It was a non-profit expansion in any way. The bottom line is that we own the campus of Embry-Riddle at Prescott.

Q. Why important place have you just out here?

A. This past weekend, six Embry-Riddle students attended the 7th Annual Model U.S. Senate, hosted by Stetson University. The student "senators" assumed the roles of actual U.S. senators and participated in sessions, party caucuses, and committee meetings just as their counterparts do in the real U.S. Senate. This year's event was attended by 54 students from eleven schools throughout Florida and the south.

From Thursday through Sunday, it was "politics at its best." With an awards banquet also to give the model to the senator to Sunday.

Embry-Riddle's delegation was headed by Ray Katz, as Sen. Riddle (D-Conn.), and consisted of five seniors and a lobbyist.

They were Katz, Patricia Nevel, as Sen. Wickers (R-N.C.), Phillip Sehn, as Sen. Durst (D-Ariz.), Charles Poles and as Sen. Schatz (R-Mont.), and Danny McDonald, as Sen. Colby (D-Mass.).

From the floor, they brought several of the ideas on to the discussion stage.

The students were also invited to the Chamber of Commerce in Daytona Beach.

The Senate word was to other student senators: "You've heard the word, now go out and make it happen."
LETTER TO THE EDITOR

Dear Sir,

Recently we learned that Googie Beville, an instructor of the A.M.T. at E-RAU will not have his contract with the school renewed. It seems that the A.M.T. chairman has decided that Mr. Beville is not serving in the best interest of the school. Quite the contrary, Mr. Beville is a highly qualified instructor. He holds a)
Airframe & Powerplant Licenses
b) Associated Inspector's Licenses
c) Flight Engineer's Rating
d) FAA Designee (designated mechanics examiner).

Most important of all, approximately 30 years of experience in the aviation field.

Mr. Beville teaches and has taught many of the more difficult AMT and M7 courses, and in the past several trimesters he has been given many more of the new courses on account of his knowledge and his exceptional teaching abilities.

The chairman's attitude is not renewing Mr. Beville's contract appears to be holding personal feelings interference in the best interest of the AMT Division.

When questioned upon the matter, the chairman answered in an unswayed manner that "The matter is closed and there is nothing more to be said about it." Is this a negative attitude on his behalf? We think not.

We raise the question to Mr. Fidel, who now is the Director of Administration, and has the last say in these matters.

What can be done in this case?: Can you not take any action towards the chairman, who apparently believes that taking care of personal grudges such as this is more important than looking after the interest of the Division or Chair? Should this and other misgaps continue?

The A.M.T. students are infuriated with what has happened to Mr. Beville, and the trust and respect for the present chairman has gone down the drain. We started a petition circulating, and it will be presented to President Hunt and Mr. Fidel.

We want Mr. Beville to remain within the E-RAU AMT division. E-RAU knows about their great quality in programs and instructors. If you let this man go, you are letting a quality instructor go; and the reason: a man in a cozy position, who cannot be moved to a higher quality when he sees it. This is a preview of what is going to happen to highly qualified and experienced instructors, what will it be? Or the best?

The AMT division students want to Mr. Googie Beville's contract renewed, and we want him back as our instructor comes Fall Trimester, 1978.

Respectfully,

Students of E-RAU AMT Division

Kylie Morris

Wednesday, March 8, 1978

Drill and care of the student body that they can cope with the problems of the S.G.A., or at least effectively represent them.

Is interesting to note that there is a fairly representative cross section of candidates. The candidates for the position of senator from the college of Aviation Technology have the only campaign - they're choice. The race for President/Vice-President should prove to be the most interesting due to the personalities involved. I personally hope that the personalities are kept to a minimum, and that the various candidates can steer issue rather than name calling.

In the final analysis, the most important individual in this election is you, the voting student. If you don't vote, you lose! In this past year's election, only about 20% of the student body voted, which is an extremely poor turnout. At least, if you vote, then when you complain about policies of the S.G.A. you will be able to say you didn't vote for that particular politician - "his (or her) opponent would be doing a better job."

End says the polls.

The Petitions are in! The ballot for this year's election is official, and so begins the campaign. This next week we will see 10 days of harlot crowding in the candidate attempt to convince the student body that they can cope with the problems of the S.G.A., or at least effectively represent them.

Minstrel Magic
By Jean Boyder

Down home rural southern humor and wit as master of the spoken word, with a generous measure of good-natured ribbing, was accomplished two and a quarter hours ago - Thursday, March 12 at 7 p.m. (TIME)

The Minstrel Magic, which originated in 1932, is presented each fall by students of the Embry-Riddle College, for the benefit of the Florida Cystic Fibrosis Association.

The program was produced by the students of the Department of Communication, and featured a variety of musical and spoken word performances. The event was held in the Rainbow Room of the Daytona Beach Community College, and was attended by a capacity crowd.

Dance Marathon
By Dr. James Jordan

The Student Government Association of Daytona Beach Community College, Embry-Riddle Aeronautical University, and Bethune-Cookman University are sponsoring a Dance Marathon for the benefit of the Muscular Dystrophy Association.

The dance will take place on April 11, 1978 at the Embry-Riddle Student Activity Center. Participants are encouraged to sign up and will last until midnight, approximately 12 hours. The dance is co-sponsored by WETAS Radio and McDonald's.

The purpose of the dance is to raise funds for the Muscular Dystrophy Association and to provide a fun-filled evening for everyone who participates.

Call to Order: The meeting was called to order by President Grimes at 7:00 p.m.

The following members were present: Ray Cornett, Dr. James Jordan, Dr. John Reiner, Tommyneel, and Dr. William Neuzil.

The minutes of the February 22nd meeting were approved as read.

A.M. BUSINESS

1. Old Business

a. A motion was made to approve the minutes of the February 22nd meeting. The motion was seconded and adopted.

b. A motion was made to approve the minutes of the February 13th meeting. The motion was seconded and adopted.

2. New Business

a. The group discussed the possibility of partnering with other organizations to provide additional funding for the School's annual charity fundraiser.

b. The group discussed the feasibility of implementing a new program to provide mentorship opportunities for students.

The motion was seconded and adopted.

3. Training

a. The group discussed the importance of ongoing training for all members of the committee.

b. The group discussed the possibility of partnering with local businesses to provide training opportunities.

The motion was seconded and adopted.

4. Fundraising

a. The group discussed the potential for increasing fundraising efforts through the use of social media.

b. The group discussed the possibility of partnering with local businesses to provide sponsorship opportunities.

The motion was seconded and adopted.

5. Budget

a. The group discussed the need for a more detailed budget to guide decision-making.

b. The group discussed the possibility of partnering with local businesses to provide financial support.

The motion was seconded and adopted.

6. Conclusion

a. The group agreed to continue to work on the above issues.

b. The group discussed the need for continued training and support.

The motion was seconded and adopted.

The meeting adjourned at 7:45 p.m.
FRATERNITY CORNER

SIGMA CHI

By Robert McCullum

Alumni are great, yes, but would also come to Dayton more miles and sometimes months away to attend the biggest social function of the year. Who else would give such a strong moral and financial support. They want us not just to try but to win the biggest contest in the ball game. Our chapter was installed on March 6, 1912. On Saturday we remembered that day by having a special安装 Birthday Party. Due to some unforeseen delays such as unexpected sorority not all of the alumni could make it out of the expected forty. However, a good number came back to reminisce on old times and with the active brothers, pledges, little sisters, were on the dining room, we had about 150 on hand to celebrate the occasion. It is always great to see such a group dressed so well and to be in such a party that only a Sigma Chi could know. The alumni were officially welcomed back to Dayton on Friday night with a cocktail party which in itself was a great success.

The long awaited Birthday Party was held at Valley's Tavoli Valley. Besides the doctors our need we had already been given up an evening cocktail. The one of the north's or the time was presented by our President of the local alumni association, Don Williams. Some people wear very strange clothes, but the presence of tuxedos to such an affair was something that was very good. Being a "cray-cray" guy he managed to have a filling comment for the rest of us.

ANX

"Homey"

This weekend Lambda Chi had the tests for all the new associates and boys with it. They should find out soon what happened to their work for the rest. It's just a guess and placing. Also this weekend Lambda Chi Alpha held initiation for their new Crescent Sister program and of course to announce their name. They are: Jen West, Kitty Russell, and Sandy Drenen. Welcome to the fraternity girls.

Upcoming events that are working at the motorcycle

AHP

by Ron Messer, Historian

AHP's past meeting dealt mostly with finalizing the Road Block and helping how we had a leg of the road before the new future. Another small group was the party of Youth Service tours on March 19th with 20-30 and detention facilities. Also discussed was the trip to the "spring trip" Festival. Perhaps the biggest job working on pledge projects to be presented soon to the fraternity has come.

Don't forget to order your halibut in the SSA, election campaign starts this week, with orders due on Wednesday, March 14th.

SIGMA PHI DELTA

By Joe Philbin

With midterms out of the way and the eight week of school underway, the tradition of Sigma Phi Delta are once again ready to "beef up the social side of life.

As usual, Friday's four hour turnout to be a good week tonight of tennis as the brothers of Sigma Phi Delta will be turned out on the court from 7-9 and 9-11.

Last Sunday, things did not go entirely for the Sigma Phi Delta softball team which was held to an alarming low score tonight. Making it 11-1 over their opponents. Pete Garavito's bat was the star hitting two runs and starting things rolling for the Phi Delt, but the moments just wasn't enough. Afterwards, we all head back to the Phi Delt House, pulled a roll on Coliseum, and discussed baseball strategy for next week.

This all looking forward to next week's game and the giant beach party with Delta Chi, next weekend.

Our next meeting is Friday, March 15, 7:00 p.m. All members are urged to attend to vote on important issues. The meeting will be at the Tanlin's home on the 13th Street at 7:30. Little Sister Martha has been notified to have a full house.

We are very proud of two of our members, Tom Dyson and Mark McFireman, who flew the long crowded skies over their home. They were not at their highest point in the multitudes by Paul Warmack, will be discussing the night flight for tonight. Congratulations, guys.

Hopefully a tradition will be started when "Lookout Below" from Big Daddy's on R2. Our first meeting was a great success and we hope there will be more to come.

Trike and Jenkins

"Lookout Below"

RIDGE SKYDIVERS

By Christopher Meyer

On the weekend of March 11 and 12, the Sport Para Club will be holding a competition weekend. This will consist of accuracy jumping as an event. Friday is 22 miles west of Daytona at 10:00. The Deep Zone is two miles before Eaton just off St. 44.

The weekend was a two event purpose, first, for the competition to see what the club is all about and to enjoy the flying and the membership to see where people are. But more important to get the jumpers, every year when we come, to come out and do it again this time with the new club. This isn't a program, the competition will be for all and very informal. The prize will be based mainly on jumpers in that all can enjoy the prize. The prizes, an old timer ride in Delmar Airport 328 or a dozen 20 skydive from 10,000 feet and jump packs for the Cosm. In the end, so we think, will be a social event at the Deep Zone with beer and joking and discussing the future. The competition will be open and come out and jump.

People wishing to make their first jump, can do so at any time. One day before the event, master Jay Cunningham will be glad to teach. We do have a little attitude about jumping with our gear or with it please come down and sign in at Box 4597.

You go and meet the student. If he doesn't give you what you grew up with, you grow it with a subject to talk about. But you say, "You're not ready to go flying yet. Let's talk about what we have to do to prepare the tower. We have to be able to communicate with the tower so we had better learn how to speak a little better. And while we're going to be flying, it's going to be necessary that we go the plane lowered correctly. Mathematics is a tough subject too. But if you're not what we call the center of gravity and not the weight and balance so we don't crash."

COQUIER: What an interest in aviation be a prerequisite for a student to continue?

HUNT: What are the language place for this case?

HUNT: Long-range plans are used for this case to become a full-fledged four-year university and, perhaps, include a master's program as well. The college will be articulated into the academic curriculum as we grow.

COQUIER: Will it be an aviation-oriented university in every respect? We haven't really decided the specifics of programs that will be offered here. We will not offer here the main aviation technology program which is the mechanics training and maintenance management. We will offer a look see at when to articulate any part of flight training into the program.

We will take a look at whether or not to start articulating foreign programs into the curriculum. We have some ideas of what our students at Daytona Beach who are foreigners and, being in the aviation world, we are constantly being happen here to request any of the specific training activities for developing countries. We had a real responsibility to respond to these programs. Some of these requests could be accomplished, we'll try to do that.
