A good time was had by all on Sunday by the C.C. teams as students celebrated the Spring Fling.

Three excellent bands played for us starting with the Talibhane-based band, "Lambada," whose mellow modern jazz sound was perfect for starting the day. They played many of their own compositions and all sounded quite pleasant.

Due to illness Big Mama Blue was unable to perform but the band that took her place was by no means a second-rate band. Two bands took over in the afternoon and were a hit with the students.

One of the events of the day was the Missourian's Skydive Mountaineering Band. The band members are skydivers and have seen and done some of the most spectacular jumps in the world. They played a variety of music that was both exciting and relaxing.

Another event was the Spring Fling, which was held on the campus. It was a day of fun and excitement for all who attended. The Fling included a variety of activities such as games, food, and music.

The field day was held on Wednesday afternoon and was attended by many students. The weather was perfect for outdoor activities and everyone had a great time.

Thanks to everyone who volunteered their time. We hope to see you all next year for the Spring Fling and Field Day.

Field Day

By Jonathan Bailey
AVION Staff Reporter

Saturday afternoon saw each member of the Royal Scottish, the Mean Machine and the Demons Devastators battling it out for victory in the annual Field Day competition. There were six teams and each side had a team for each event. The day started off with a bicycle race which was won by the dorm. This was followed by track, both singles and doubles and that too was won by the dorm.

The next event was volleyball. This was a test of three competition and the Hill team won two games of three. After the volleyball came the basketball game which was taken by the dorm with plenty of margin. Anything Goes followed the basketball. The only way I can think of to describe this event is STRANGE.

The teams each put in four people who were each dressed as a woman, one at a time, six balloons were then stuffed into the "Women's" clothing and the contestant then had to do an obstacle course without losing "her" clothing, balloons, end. This event was won by the dorm.

The last event was Devilbert - The Mean Machine - 16. All the teams played well and everyone had fun.

Thanks to everyone for your willingness to volunteer their time. We hope to see you all next year for the Spring Fling and Field Day.

The Riddler???

Congratulations to the winners of last week's Riddler question.

This week's Riddler is: Who is the head of the staff? The answer will appear in next week's issue.
Klyde Morris

"Use ok/2ewki"

**EDITORIAL**

By Dick Bodler

AVION Editor

As this is my first editorial and I don't really have anything to get up on my soap box about I will use this space to spread a little late news and gossip:

The WATS line is again available to students. It is to be used for job placement only, however, and requires Jim O'Brien's approval prior to use.

A source close to the administration assured me there will be no tuition increase in the near future. This brings about the very real possibility that user fees will be instituted for parking and the pool.

If you noticed one of the Riddle cops grinning at you when you pass him it's not because he's a little strange, security is trying to change his image. Would you believe one student received a written apology over an unkind remark? I won't. No letters to the editor this week. I can't believe everybody is happy. I guess it's gotta something to do with only one more week of school. Too bad, I miss seeing that must every week and getting mad at them.

Hope everyone has a nice break. See you on the beach.

ERAU STUDENT APARTMENT COMPLEX OPEN HOUSE

Remember the Racquet Club? Well, the renovations are nearly complete and the new named ERAU Student Apartment Complex is in the final stage of preparation for full occupancy.

To give students, faculty, staff, and friends in the community an opportunity to "preview the project" the ERAU Board of Visitors in cooperation with the SGA is sponsoring an open house on Friday, April 14, from 2 p.m. to 6 p.m. A model apartment will be set up for public viewing along with a reception in the main building. The complex will feature 29 apartment units. Each unit has two bedrooms, a bath, living/dining area, study/lounge area, kitchenette, and private outdoor facilities. The complex also features the "largest pool in Daytona Beach" and will include laundry facilities, recreation areas, outdoor gas grills, snack vending area, private parking and tennis courts. The completely furnished units will be available first to continuing students through a housing contract. The complex will be managed by a student resident manager according to student apartment living procedures.

According to Miss Prat, coordinator for furniture design and acquisition, an effort has been made to furnish the apartments tastefully and competitively with similar apartment complexes in the area.

"Take an hour on Friday, April 14 and come down U.S. 92 to the ER AU Student Apartment Complex for a tour by your Board of Visitors, Host/Hostesses, some residents, and some information. The ER AU isn't will be stopping at the Apartment Complex as part of the regular run to the University Center and the Royal Scottish Inn from 5 p.m. to 6 p.m., on April 14. The bus leaves from the front of the University Center at 10 minutes prior after the hour. ER AU continues to go in positive ways. Don't miss this opportunity to see for yourself!"

**DIARY**

I saw my mother the other night, and my life seemed a little brighter. I don't know exactly why she made that statement, but I'm guessing she had just watched a movie and was still thinking about it.

I have no idea what I want to do with my life, but I'm pretty sure I don't want to be a lawyer. I think I'd be pretty good at it, but I don't want to spend my whole life worrying about the fine points of the law. I'd rather do something that makes me happy, even if it's not the most lucrative.

I'm thinking about going to law school, but I'm not sure I want to do that. I think I'd rather do something that's more creative, like writing or music. I've always been good at that, and I think it would be fun to do something that I love.

Jamaica is a Caribbean island, approximately 110 miles long and 50 miles wide. Our population is 2 million, originating from African, Asian, and European ethnic backgrounds. It is literally a melting pot, where our varied people live together, without racial difficulties; hence our motto: "Our Many One People." Jamaica currently enjoys a democratic socialist government, is a predominantly Christian country, and offers free education for the entire population. Kingston, the capital, is really the only urban area when compared to giant metropolitan ones such as the United States. It is the seat of government, the business and commercial center, the main port; the place where you find all theaters; and many of the exotic residential areas. Jamaica is in a position to help you in your next visit. It is a part of the typical Jamaican personality. Jamaica is going to help you in the future. I'm just going to make you a simple day for the 1974 set of Encyclopædia Britannica. Yet anyone with a thirst for excellence and normally developed motor skills can master it. Simply study those fundamentals and follow them faithfully.

CAMPUS CLUBS

The Management Club

By Linda Mayberry

The Management Club held its last meeting for the year at the home of President Los in late Friday. Our speaker, who is a vice-president of Continental Airlines, addressed the membership on the subject of "quality in service." The evening was made even more enjoyable by the special dinner written for him by our creative and thoughtful dining committe.

AF ROTC

By Jon Allen

Last Friday, AF ROTC had its annual Military Ball. Good attendance provided for a very exciting evening. A special feature of the evening was the debut of the latest addition to our cadet corps, Captain Ronald L. de Waard.

There will be no Management Club meetings during the last week of this month as we will be seen everywhere in September. Have a nice "break."

Hawk XP Gets Floats

By Mike Huber

"Many of our recent repayments have been accommodated to triplane gas airplanes, and the Hawk XP will lack nothing for this type of equipment," said Community Leader Mr. John Ross. "With great weight of 6000 pounds and equipped empty weight of 3770 pounds, the Hawk XP will lack nothing for this type of equipment," said Community Leader Mr. John Ross. "With great weight of 6000 pounds and equipped empty weight of 3770 pounds, the Hawk XP will lack nothing for this type of equipment," said Community Leader Mr. John Ross. "With great weight of 6000 pounds and equipped empty weight of 3770 pounds, the Hawk XP will lack nothing for this type of equipment," said Community Leader Mr. John Ross.

We look forward to seeing everyone again next year. Everyone enjoyed the buffet and I hear there was nothing left to take home for snacks.

Jack Hunt At Prescott

"You're going to need to know what you're doing,..." Dr. Elmer W. Proctor, president of Embry-Riddle Aeronautical University, spoke at the University of Arizona for graduate and undergraduate students.

Dr. Proctor's message centered on the importance of education in preparing for a successful career. He emphasized the unique opportunities and challenges that come with working in the aeronautical industry.

"The future of our country depends on the young people who have the vision and the energy to make it happen," Dr. Proctor said. "We need people who are not only knowledgeable, but also innovative and willing to take risks."
STEELERS WIN!

STEELERS LINE-UP:
- Rich Basile, C
- Russ Phillips, 1B
- Steve O'Bohane, 2B
- John Jenkins, 3B
- Kevin Cavanaugh, SS
- Greg Ferth, OF
- Jim Bumgar, OF
- Nelson Solari, OF
- Steve Lemos, OF
- Howard Taylor, OF
- Rowland Wiley, OF

The Steelers softball team won the intramural softball championship by defeating Flight Tech by a score of 13-2. All the games for the hotly contested championship were well played and attended. The fans at the games showed more school spirit than has been seen on the campus for this term. Congratulations go out to all 42 teams that participated in the league and it's a shame there can only be one winner because everyone that participated is a winner.

SCORES FOR THE DAY
- Championship Game: Steelers 13 - Flight Tech 2
- Semi-Finals: Steelers 11 - SCC 7
- Flight Tech over Hang Ten
- Quarters Finals: Steelers 14 - Sigma Phi 8
- SCC 15 - Junior 10
- Flight Tech 14 - Veterans Club 4
- Quarter Finals:
  - Hang Ten 8 - Snowblind 1
  - Snowblind 5 - Barstool 4

E-RAU WINS

ERAU won its final game of the season Monday night defeating Florida Bible in the 9th inning behind Ross Svatich's strong defense and Adrian Martinez's powerful hitting. The winning pitcher was Paul Workman.

**E-RAU - 1980's**

By Linda Meghren

What will Embry-Riddle look like in the 1980's? How does it plan to do so with the interest of students that is expected in the future? I spoke to Mr. Richard Queenan, who is in charge of Marketing and Development, to find the answers to those questions.

The student enrollment for the Fall 1978 trimester, is projected to be 3,200. By the early 1980's, enrollment is expected to approximately 4,100. E-RAU has come up with a building plan which will deal with the larger future.

The campus building plan is divided into three phases. Phase I includes new on campus residence halls, an engineering technology lab, and two additions to the Academic Complex. These three projects are anticipated to be completed by the Fall of 1979. Since Phase I deals with the near future, specific plans have already been drawn up.

On-Campus Student Residence Halls. - The concept for the new dorms will be a design of nine buildings which will be connected by lower and upper level walkways. The interior design of the two story buildings will include 151 bedrooms with adjacent baths to accommodate 450 students. Parking space will be available next to each building. Construction will take 200 days, with "initial housing occupancy," set for October 6, 1978. These buildings will be located to the rear of the present dorms.

Engineering Technology Laboratory. - The two engineering technology laboratories, will be located between the maintenance tech, buildings and the Academic Complex. These two level building will house the wind tunnels (both high and low speed), the smoke tunnel, structures lab, materials lab, and a 150 student drafting and design lab on the first floor. The second floor will have 15 offices to accommodate 20 faculty. The construction of the building is similar to the Academic Maintenance Tech building and will take approximately 150 days to complete. No specific date has been set for this project.

**Academic Phase I Additions.** - Two additions to the Academic Complex. One module will provide classrooms for 45 students and office space for 12 faculty. The second module will provide for 1 a learning laboratory, student study hall, classrooms for 65 students, and office space for eight faculty. Phase II, which should be completed by 1980, includes a dining room extension to the University Center, additional parking, additional residence halls, a physical plant, and a student management building. An administration building will be located next to the U.C. Athletic Field and a field house, with facilities for ROTC, will be built between the U.C. and Clyde Harris.

**MAIL BOXES FALL TRIMESTER**

If you would like to retain your present mail box for the Fall trimester, and see looking for the Summer, just stop by the mail room and complete a change of address form. Please complete this form before Friday, April 14, 1978. If we don't have a hold request for your box, we must give it to another student.

**FRANK HAGUE**

Mail Room Supervisor

**LAST CHANCE**

Any graduating senior who has not filled out a change of address card for the Phoenix mail, please do so immediately. If you fail to do so your yearbooks will NOT be forwarded to you in September. Come up to the Phoenix/Union Office to fill out your card. Thank you.
