ESCAPE FROM HELL

[Reprinted by permission from THE FUTURE, Florida Technological University's student newspaper, May 1978]

By Pan Littlefield
Staff Writer

The past year has been a very good one for graduate placement. As a general rule, the aerospace and management industries can expect something in the $15,000-$17,000 range. A+P's, engineering management, and Boeing have hired two engineers, a manager, and a sales representative. Aeronautical engineering is doing very well and every company currently on campus is hiring for maintenance management.

Three Riddle graduates were hired with starting salaries of approximately $7500 per year. As a general rule, the aerospace and management industries can expect something in the $15,000-$17,000 range. A+P's, engineering management, and Boeing have hired two engineers, a manager, and a sales representative. Aeronautical engineering is doing very well and every company currently on campus is hiring for maintenance management.

At present, co-op students are being employed in Manufacturing Engineering at companies such as Boeng, Eastern, Federal Express, Post, Air Florida and United Engineering students are employed at Post, NAA Longview, Air-Lynx and Government Aeronautics, pilots are employed at Teledyne Flight Academy,

Florida Atlantic University is seeking to hire two types of engineers, and both companies are still interviewing.

Aeronautics has hired one aeronautical engineer and another is being interviewed. Commerce Finance had two management trainees last summer and Marketing is now in the process of making offers to some April graduates.

Aeronautical engineering is doing very well and every company currently on campus is hiring for maintenance management.

One Riddle student is on a one-year graduate assistantship with the University for $10 per hour.

Florida has hired some full-time positions and has hired the third student as a teaching assistant.

One Riddle has hired one engineering student and the New York Times is offering them a very good job.

Avionics has hired one avionics engineer and another is being interviewed.

According to the Marine Corps, Riddle is hiring one graduate engineer and another is being interviewed.

Air Florida has hired two key aviation agents and the New York Times is offering them a very good job.

Florida has hired some full-time positions and has hired the third student as a teaching assistant.

The Career Center offers a service of great value but if you are a student and prospective employer is interested in a graduate hiring, it is best worth contacting the professors for your particular qualifications.

The results of the student survey given last spring have been published and are shown in part on this page. We will continue to print the responses to the various questions posed by students in future issues of the Avion. It was interesting to note that in most cases, these questions have been asked over and over by members of the student body for quite some time. I was pleased the university response might be superficial at best but judging from the input I have received from the Administration for far, a sincere effort is being made to answer the questions in a truthful and realistic manner. Another indication of the Administration's concern about student opinion is the question and answer manner beginning this Thursday in the Command Purpose Page. Now you will have the opportunity to speak out if you have some heartfelt ideas about the way the University is run or a suggestion that would improve academic or campus life. We have been given an opportunity to address the decision maker directly with our problems, it's a great advantage of it. I believe it is the greatest opportunity to change to let's get off the fence and get involved.

TheAvion will be published weekly this summer for the first time. We are critically short of staff in all departments of the publication effort. Specific areas that are hurting are Photography and Reporters. If you have a camera and want to take pictures in and out Chuck Henry. If you are interested in writing, there is no better place to develop a little practical experience. Avion offers cover many interesting angles on campus and in the immediate area. Come in, sit us and explain this opportunity to broaden your horizons and make a little beer money in the bargain.

VICTA Business Manager

LETTERS TO THE EDITOR

What do you do if you're the largest academic school in the country and your facilities are short of a non-profit percentage of the student body? This is a problem that Aubrey Riddell could face if plans do not increase the non-profit percentage with the influx of the "new" students.

In the past some of the most popular returning seniors were to put the girl who is coming into the school transitioning new-English students into the American aviation world, how to set up a jet program, how to use low end gas in school airplane engines.

The "new" aviation student student could be 16, 30, male or female. Homeowners or roommates students come in all shapes and sizes. One of the main goals is to think, fast, thin, or broad-chested. No restrictions we make concerning physical size or diet program. It is a possible that our little friends from Mote Morris would be accepted to the school if at all eligible today.

All of these things are handled by the faculty, staff and students of Embry-Riddle Aviation University. I would like to take this opportunity to express my appreciation to the faculty, staff, and most of all the young men and women who compete for the student body of Embry-Riddle Aviation University. I have worked with the Florida Maritime Council and for the Florida Maritime Council for over three years. I would also like to thank you for your support of the "AVION" for the assistance of the Florida Maritime Council and the Florida Maritime Council for the assistance of the Florida Maritime Council for the assistance of the Florida Maritime Council.

Bob Jaworski
United States Maritime Corps

LETTER TO THE EDITOR

President's Corner

Great and interesting things have happened recently. The last few weeks and I feel you should be aware of them. One of the big events was the discovery that the original coffee "creamer", which was impossible to find, are now back in stock. Another event was the winning of a fellow student in a scholarship with a happy smile, and you should be aware that a new coffee brand has changed after he spends a minute with the consumer.

Let's see, what else happened, you have to figure out which clock to go by on work? I have a theory on that, the clock in the UC it for the students themselves (they get to go home 5-10 minutes earlier), the cross in the academic area is for instructors (clocks are set fast, so that you are late coming into class - this gives the instructor something to talk about while warming up for his lecture), they are also set fast on the flightline (the theory for academic complements) - this way you get to eat an "on time" meal, and the clocks in the dorms are all controlled by the sponsor.

Remember the long battle with the opposition? At first, they tried to make us suffer, to make us cry, to scare us, to keep us down. After a few adjustments, they decided to support us and work with us. And then, by mistake, they worked fine for a while, and the student body is working their selves.

The OA Box for university has been renewed and we'll like to say thank you to the places, and say hello. Should you find yourself elsewhere, we have a newspaper to print, a yearbook to pull together, a radio station to operate, etc., etc., etc. A warm welcome to new students, we're glad to have you (the nursery during those quiet summer months).

The annual meeting of the Space Congress was held in Cocoa Beach, Florida this year. The theme of the Space Congress was "Astronauts: The Key to the Future." The meeting was held April 26-28. The theme for this year’s Space Congress: Space, The Next Ten Years. A variety of topics were covered, including: Conferences, technology transfer, mission planning, advanced technology, future programs, and international advances in space transportation. The final day of the Congress featured an open house at Patrick Air Force Base and the world famous flying team, Thunderbirds.

The highlight of the Space Congress was the second day, April 27th. A panel session, titled, "Meet the Astronauts," was held that morning and was open to the public. Four astronauts were the featured speakers. The directors of the Kennedy Space Center, Dr. Lee Shulman, and the Florida Institute of Technology, Dr. Kermit.notice, introduced the four as astronauts Donald K. "Deke" Slayton, John Young, Fred Haer, and Walter "Wally" Schirra.

"Deke" Slayton was one of the original seven Mercury astronauts selected in 1962. More recently, Slayton served as the director of the Kennedy Space Center. Lee Shulman, the Florida Institute of Technology, Dr. Kermit notice, introduced the four as astronauts Donald K. "Deke" Slayton, John Young, Fred Haer, and Walter "Wally" Schirra.

Now that we have a good sample showing exactly how you students feel on the many subjects reviewed, we want to do something positive about issues requiring action. Action is a two way street however and requires you to be equally committed as well as we. We are ready. Are you?

There are NO secrets here. (although some students feel otherwise) so I’ll tell the good with you and work toward improving anything that you felt was a real problem.

Some of the data shows that we need more social activities. E-RAU currently sponsors intramural competition in baseball, basketball, bowling, flag football, golf, softball, volleyball, tennis, and frisbee. In addition intercollegiate competition is available in soccer, baseball, tennis, and golf. Information on the starting times, locations, and dates can be obtained from the Student Activities Office calendar or is available in the Student Handbook. Student Activities Office.

Student Activities Office.

Please remember that we are only trying to improve our programs and are more than willing to make changes if they are needed for individual use to see also available for check out in the Donor Annex.

Beginning in the Fall of 1978 the swimming pool and basketball facility will be open to all students. Plans to increase the athletic program in the area of all wear sports are being formulated.

**What do you call this in Spanish?**

Como se llama esto en español?

**What do you call the other person?**

Como se llama esa persona?

**What does that mean?**

Que significa eso?

The approximate sound should be read as it were English. Of course, the sounds of any two languages are never exactly the same.

**CAREER CENTER ASSISTS YOU THE STUDENT**

The Career Center is here to assist you in several areas during and after your stay at EAU. Initially we would like to orient you to the various facets of our Operations. As theonest program progresses, we will focus on singular aspects of the Career Center.

For opening we're located in the University Center, if you tip your head back while drinking at the PUB you can always see us in the second floor. We are open 8 to 5 and our main functions are in the areas of placing students in part-time and full-time occupational experience. If you are graduating in the next two weeks you should call us. We will help you to find a job, sign up for placement services. If your interest is in the Cooperative Program for the Fall trimester NOW is the time to come and see us. In either case or if you are just passing through please come in and talk to one of our Career Center Officers.

**CAMPUS CLUBS***

The Vet Club would like to welcome all Vets both human and new faces to the campus for the beginning of the Summer Term. We hope everyone had an enjoyable break.

Special thanks to those individuals who spent their December break attending Summer camp in Northern Florida and Georgia a job well done. We didn't get you the best presents and even slept well.

Softball will be starting up once again soon. Anyone interested in playing Softball for the Vets should contact Bob Allen at home 252-8541 or in the Admission Office.

There will be a practice Wednesday at 5:30 p.m. at Bones Vota Apartments Softball Field. The Friday the Vets will be having a TGIF starting at 5:00 p.m. at the Barbarie Pit over at the Tobacco Courts behind the Dome. All Vets are welcome and are urged to bring a guest. Stop by and meet the Vets. Beer and Hot Dogs will be served.

The next scheduled Vets meeting will be Friday, May 36th 7:30 p.m. in the Common Place Room.

**SPECIAL PROGRAM**

The Vet Club will be T- Shirt Day so let’s see the Vet Blue on the 11th.

6 p.m. Mike Wilson from 5 - 6 p.m. Hugh Heywood from 6 p.m. - 7 p.m. Hugh Heywood and Mike Wilson will work on the T-Shirts this year. and you want to spin records around town used to generate money for better equipment and records. Most of the money used to run WEU comes from the SCR and we want more of you as a student to come over and check the place out. After all, we're you in WEU.

**בצע**

By Leona Jordan

Believe it or not Embry-Riddle has its very own radio station, WEU, which is a student run operation enabling students to learn about the musical world while here in Daytona – learning about the flying world.

WEU is broadcasting on an open community center into the dormitory on AM 600 with two transmitters ready for use in the new dorm and the ERAU Apartment Complex. Right now there is a shortage of personnel in the station and a shortage of work coming to be done. If you would like to try your hand at a DJ or would like to get some "hands on" experience with the radio equipment WEU wants you. Within a few weeks WEU will be back on the air after a few months of closure while the studio and tower studios were remodeled and improved. Right now there are ten people working at the station as students and general equipment workers. Tune in and listen to your fellow students passing out the sounds. A tentative broadcast schedule has been drawn up in following, Mike Dawson and Frank Pack from 2 p.m. - 3 p.m. Ralph Winterstaed from 3 p.m.

**GET A SPOUSE WITH US.**

CALL: 904-258-9647 ROOM 322

**ARMY ROTC. THE TWO YEAR PROGRAM.**
Facts to remember

This summer the AVION will begin a new section of the paper devoted to on-ground. Since Embry-Riddle students are usually short of both free time and money for parties, myself included, a new column will be written giving into about what's happening around town. Various aspects of leisure life will be included, such as restaurants, lounges, discos, sports, and any other special events. As many places as possible will be reviewed to give you a good idea what it will be like before you get there - prices, atmosphere, menu, location, etc. If you know of a unique place or it's just somewhere that you would recommend to other students, please bring your ideas up to the AVION office on the second floor of the University Center. We hope that this column will help you enjoy and enjoy your free time away from the school to the maximum.

Gail Tworek

INTERNATIONAL FOLK DANCE CLUB BEGINS TONIGHT

DANCE, DANCE, DANCE - Sean Horvath, instructor for Embry-Riddle's new International Folk Dance Club, on the left leads Regina Tarmowska and Elizabeth Montoya right, in a Polka Troyk Folk dance. (Photo by Chuck Beene)

You've learned a Vernalie dance in kindergarten, you've learned a Gavotte dance at a debutante ball, and you've whirled around to a Viennese waltz at a wedding celebration, and a German dance at a wedding celebration. Put them all together and you've got an International Folk Dance. People of all nationalities have been gathering together for dance classes for many years, in Europe, in America, in other parts of the world. Now, with the arrival of the International Folk Dance Club, everyone can learn about another culture.

The International Folk Dance Club began their first dance last Wednesday night following a program of travel and request dancing till 10:00 p.m. The instructional sessions will start at the beginner level. A fee of $1.50 per person is requested for instruction each night.

It is the hope of the faculty advisor, Jules Gendelman, that this activity will become a student managed club open to all students, staff, faculty and the community. The club plans to visit all the major cities and towns in our area to share some of their sights.

Susan Horvath has been folk dancing for over two years. She attended many classes with Charles M. Unckel and learned to work with partners and study the dances in the United States, Brazil, Latin America and Europe. Susan has a receptive and respectful teacher, having learned from world famous instructors. Susan enjoys herself in keeping the dances traditional and authentic. She stresses the importance of understanding your partner by bringing a partner. Most folk dances are performed from a circle or line formation. Bring YOURSELF and enjoy ENTER.

For further information contact Jules Gendelman at Ext. 364.
