E-RAU Security Goes To Work With New Image

By Jonathan Bailey News Editor

June 17-18

Lindbergh To Work With New Image

By Leon Jordan AVIXN Staff Writer

May 15, Williams, an English major, has joined the faculty here at Embry-Riddle Aeronautical University. Mr. Williams’ primary job is to see that the foreign students improve their skills in English. Originally from Georgia, Williams attended Georgia Military College, where he received both his Bachelor’s and Master’s degrees.

SORRY FOR THE ERROR!

Apologies go out to Mitchell B. Weigel, the author of the COOP story last week. We misprinted your name and just want you to know we’re sorry!”

CANKO TUFF PLANNED

The Daytona Beach Siena Club invites E-RAU students to participate in the activities.

Additional information is available in the Student Activities Office.

June 21, Sat.Cover to Lessons on the St Monica Bead String of approximatley 20 inches. Meet at Sears Air Center, Valotta Talk at 9:30 A.M. Food, drinks, can be used. If you need a ride or can call Jack 677-9566. Leslie, Mrs. S. 6090. Alternate day, Sat.

July 15, Sat. Cover, meet, several are interested in Gift Exchange (Stern Sarns Sat. 10 to 12 at 10). 50% of total and all members are invited. Phone in advance to reserve a slot. Gift must be appropriate for 400-500 dollars. Meet at 10 A.M. at the Sarns House. Call Mrs. T. 603-1344.

BY THE RIDDLE???

For a dollar, a half dollar, dinner, drive or ride. The winner of last week’s Riddle is Matthew degrazer and the correct answer for last week’s Riddle is $21.95.

THANKS TO ALL THOSE WHO TRIED AND FAILED, OR CAME TO THE LINE-UP AND SAW THE SHOW.

BY RIDDLE QUESTION FOR THE WEEK

What is the largest user of money, all in current currency and not in dollars or dimes, but in something you can use to buy things.

THANKS TO ALL THOSE WHO TRIED AND FAILED, OR CAME TO THE LINE-UP AND SAW THE SHOW.
I'd like to thank John Watlinghton for his comments on the "TAKE TIME OUT" column. Student feedback is vital to the success of the AVON. We up here in the Publications office are continually finding ourselves second guessing what you would like to see in print. In more campus news, more general motion information, etc. Your comments are greatly appreciated. Comments can be addressed as letters to the editor or just come up to the AVON office anytime between eight and five and discuss it with us.

Of the six major staff members working on the AVON, there will be three new this year. This will leave the AVON almost completely unWon. We need your help. You don't need any special talent, just a little enthusiasm and a desire to get involved.

My hat's off to the individuals that maintained the reputation of the AVON. A very hard working yeidl force for a campus of this size makes it wonders how we did it. For the students, I want to thank you and your staff and you are welcome change.

By Mike Jaworski
And just 8"x12" world, is the feeling I have seen been "Badgered" by the promi. This is my first

There are several equally important reasons for this: One is that very few of us are ever born on Christmas Day, but we'll be here on June 21st. Another reason, Radio Station, WHOR never was given a Christmas party by mass born, Mr. Chopp, so we'd like to give him one. And finally, it could be a good reason to celebrate Gable 51.56 big day. It'll be a great day with free time, will supply you with the WHOR radio, and a chance to meet some of the WHOR staff, in other words, meet you there.

I want to compliment the E-BAR pre-ponderance f or great work being done on campus. Gentlemen, thank you for that "extra touch." It really enhances the campus.

ALETTER TO THE EDITOR
March 21, 1978

DEAR EDITOR,

I am your average middle Six. I don't care if my grades are bad, I just want to be a real tip. Mrs. Whitlock on request.

By Frank Park

ALETTER TO THE EDITOR
March 21, 1978

DEAR EDITOR,

I am your average middle Six. I don't care if my grades are bad, I just want to be a real tip. Mrs. Whitlock on request.
FUTON-OUT

FOR A GOOD TIME
The S.G.A. is sponsoring two outdoor concerts this weekend, an all-day trip to Busch Gardens on June 15, and a full-weekend camping trip to Highlands, North Carolina from June 14-17. As always, the S.G.A. is making sure that there is something for everyone this weekend.

FOR DINNER
While sitting in the stands, I recommend the Renaissance Restaurant on South Atlantic Avenue (AAA) for seafood. Although the prices are high, you can order with one drink and find yourself in the middle of Disney World's magic, with the sounds of the city in the distance. Those who like Italian food will find the atmosphere warm and inviting.

PULLED OUT

THURSDAY, JUNE 15
U.C. 8:00 p.m.
1. Cash prizes will go to 1st, 2nd and 3rd place. $25, $15 and $10.
2. Registration begins at 8:00 p.m. June 15th or in the Student Activities Office.
3. Single Elimination
4. All sets 60 minutes, 12 point, best 2 out of 3.
5. If necessary, byes will be given.
6. Rules of the contest will be given when you register.

LUNKEN FIELD
Lunken still lives. Lunken field, the old municipal airport at Cincinnati, the original home of Embry-Riddle, still exists on the outskirts of the city. A quick stop there, scheduled air traffic into Cinci, the big rig, Greater Cincinnati Airport across the river, the airport control tower, and you can find the place and there was no other reported traffic in the area when we set down.

TUE. 8:00 p.m.
By Joseph Katz

As my car slowed to a stop, I noticed two large pickup trucks parked in the lot. The driver of one truck was smoking a cigarette and the other was talking on his cell phone. It was hard to tell what they were discussing, but it seemed like they were having a good time.

Food Tour

THURSDAY, JUNE 15
U.C. 8:00 p.m.

PULLED OUT

Taking a seat in the front seat of the car, I was greeted by a friendly driver who asked if we were going to the airport. We said yes and he said, "I’ll take you there in my cab." We handed him our money and he got into the cab.

As we drove through the city, the driver pointed out different neighborhoods and landmarks. He told us about the history of the city and its architecture. We were impressed by the beauty of the area.

The driver then drove us to the airport, where we handed him our luggage and he took it inside. He came out with our bags and we were on our way.

Thanks for reading! For more updates and news, follow us on social media.
WW I A/C ENGINES VISIT RIDDLE

WW aircraft engines at Riddle? Not all being flown of course! However, Embry-Riddle has two WW vintage engines on loan from the Smithsonian to be considered.

The engines of the C-10 cylinder Gnôme and a 9 cylinder Le Rhône, were built in France and due to an interesting structural design, their power to weight ratio was an improvement over existing aircraft engines of the time. The design is one employing a stationary radial cylinder and rotating radial cylinder in other words - a marry engine. The engines are distinctly different from the conventional reciprocating engine with its re-arranged cylinders.

SAILPLANE PROGRAM BY TWO GENERATIONS OF SCHWEIZERS

In 1930 the three Schweizer brothers, Emil, Paul, and Bill, built their first primary glider. In 1978 Schweizer Aircraft Corp. at Elmira, N.Y. produced the 2,000th sailplane. Since 1930, the three brothers have been joined by a second generation of Schweizers, Leslie, Stuart and Paul Handy, all aeronautical engineers and will continue the tradition of producing quality sailplanes, aircraft, aircraft components and light metal structures.

The 2,000th Schweizer sailplane is a high performance "Club-35" model, the 9th FAA approved sailplane model designed and produced by the company. Another version, the 3-35, was the first "Total Control" sailplane. In 1979 the National Glider Distance record with a single flight of 110 miles. This ship will be displayed in the National Air and Space Museum, in Washington D.C.

SAILPLANES AND CROP DUSTERS

The two major productions have been the Schweizer factory offer a study in contrast. Shock, aerodynamically clean Schweizer sailplanes, and big, rugged, utilitarian C-18s proved for Granada and New York, come down the lines together. Following WW, the company diversified its production. In addition to sailplanes and the Ag-Cat now in production, the company produces major components: Tib, Trow, and helicopter manufacturers. Companies that BWSA work for include: German, Bell Helicopter, Lycoming, American, Wright, Fairchild, Piper, X Systems, and Martin.

DEALER ORGANIZATION: Schweizer Aircraft is now the first sailplane dealer organization in America. The dealers operate under the trademar, ed, "Soaring Centers of America." The basic requirement for a Schweizer dealer is to have a full-time soaring school which provides introductory sailplane, instruction and sailplane rental. In 30 Soaring Centers of America throughout the country, Schweizer also operates 95 owning school 44, the

Chesapeake County Airport, where sailplane pilot courses and introductory sailplane rides are given. Also, special courses are given for those planning to start a commercial soaring school.

FOR PLEASURE FLYING AND RECREATION: In the nearly 50 years since the Schweizer Aircraft built their first glider, there have been many changes in the sport of soaring. Gliding angles have improved from 1:1 to more than 48:1. Many contests have been won by pilots flying Schweizer sailplanes. They have also set numerous national and world records. For sport, aerial and altitude.

The 2,000th Schweizer sailplane is a historical milestone for both Schweizer Aircraft and North American soaring.

Housing increases bring needed changes and temporary leasing

By Dean Snyder
AVION Secretary

Summer visitors to Embry-Riddle and full-timers in residence bring capacity numbers to the present near - peak summer and even. 450 motel accommodations open for students in early Fall.

According to Robert Van Riper, Assistant Dean of Students, this summer will bring greater numbers of visitors for the Upward Bound, Early Bird, and Sun Seminar programs to come last a few. With their record numbers across the question of where to house these people. According to Van Riper the Dorms will be used to full capacity to accommodate these short-term students.

But there will be a longer term student increase this fall. The Fall Semester enrolls and the new dorm Complex is not expected until mid-October.

Robert Van Riper, in lieu of asking his responsibilities in formal this report that Clyde Morris may find these new dorms better equipped to accommodate them. There will be three rooms in the dorms specially designed to aid handicapped people. "Clyde can be put in one of three," Van Riper says. "Although Clyde didn't get his reservation in on time!"
The Vets enjoyed a fine day at the beach last Saturday afternoon. There will be another such day at the beach this Sunday afternoon. The Turnout was great and the food provided by Dr. O'Conner was beyond what one would expect.

Dorm News

By Peggy Bonner

Well, it's been a while since we've heard from you, but we're back in business. We're back in school and we're all looking forward to the next few months of classes and homework. We hope you're doing well and enjoying your time here.

BOWLING

By Sonny Smith

Friday night was a real high point of the semester. The Sigma Chi's took home the championship trophy for the bowling league. We're looking forward to the next match and hope to continue our winning streak.

Fraternal Corner

By Jon L. Johnson

Little Smith was the high scorer of the tournament, with a total of 235. He was followed closely by several other members of the Sigma Chi fraternity. We're looking forward to next week's tournament and hope to continue our winning streak.

AXA

By Jim

A great weekend for the brotherhood of the Sigma Chi. On Friday night, we had a great time at the Fraternity's annual karaoke night. We're looking forward to next year's event and hope to see you there.
