From the Senate

As regular AVION readers will recall, there was no article published on the front page of last week's paper soliciting student support to fund WEIRU-Radio. There are a number of clarifying points necessary regarding this article. First and foremost, is the fact that the article originated in the Activities and Communications Board Meeting, and went to press without the approval of the Student Senate or the Executive Cabinet of the SGA.

What this means, is that the ACG looked into the funding of WEIRU and reached an independent decision that there would be a shortage of money to support the Phoenix, Avion, Social Functions, as well as funding the capital utility expense on equipment required for WEIRU to go on FM. Because these student activities are funded by the SGA, it was determined by the number of the SGA that would require an increase in SGA revenue for financial needs that would increase expenditures necessary.

One important aspect to remember is that the increase in student enrollment, the income from student fees is increased proportionally. The ACG Advisory Board worked with the Senate on a hypothetical situation concerning the projected budget of the fiscal year 1975-1976. In this situation the various divisions of the SGA (Phoenix, Avion, Social Functions, etc.) were willing to operate next year on a $6 billion deficit. The budget would be covered with the anticipated increase of the fiscal year.

Please keep in mind that it is only one way to solve the infrastructural funding. Additional ways will be investigated before any final decisions on proposed budgets are made. Your support is and will be welcome. Please see your Senators or any ACG member.

Administration Shuddle

The following organizational changes will become effective on the dates indicated. Your cooperation and support in helping those people assume their new responsibilities will be greatly appreciated.

Effective June 10th Mr. Pete Decker will assume responsibility for Product Line Management and Support Systems. In this position Mr. Decker will retain all previous responsibilities associated with the Flight Management System, and will assume the responsibility for Flight Operations and Maintenance.

L.W. Motor, Dean, Academic Affairs wrote, "I would like to take this opportunity to thank Dick Sample for his efforts and many contributions over many years of service to the University."

Employees Get To Know ERAU

Unfortunately for many ERAU employees, there are no further experiences with this university, campus or programs. The addition of a particular building to which they work each day, many of these employees may not be aware of the purpose of the ERPD, as well as the purpose of the university.

The second week is concerned with the physical facilities and the organization of the university.

The third week is concerned with the physical facilities and the organization of the university.

The fourth week is concerned with the physical facilities and the organization of the university.

The fifth and final week is concerned with the physical facilities and the organization of the university.

Emery-Riddle Aeronautical University, located in Daytona Beach, Florida, is one of the leading aviation institutions in the world.

Welcome on board, Dr. Charles R. Fergus on Dean of the College of Aerospace Technology, Dr. Fergus holds an international degree in aerospace technology (AREC, CFIA, AAS, DME, Transportation, and FCC class) certificates. He received his Ph.D. in Electrical Engineering from the University of Illinois in 1974.

Riddle Evaluating Bendix Avionics

Dr. Jonathan Bailey

The Bendix system is in the process of evaluating a Bendix avionics system in one of the school's airplanes. The Bendix system features an ADS (automatic digital system) which allows continuous capture of distance information on a VORTAC after distribution to the ADS. The system features a high-speed processing circuit that has a "sufficient" detection feature. This feature allows for good station reception when most ADS systems fail to receive a signal at all. It is also possible that Bendix while the aircraft is flying over the Riddle range.

Somehow in this paper in someone's social security number. If you are not in the social security number, your airplane is found by the Miller T Shirt, number by the Miller T Shirts, number by the Miller T Shirts.

If your number appears on your T-shirt in the Avion Office.

With your answer, No phone calls please.

This week's question is: What is the name Roy Rogers gave to his ship on the old Roy Rogers TV Show?

The winner of the Riddle quiz will receive one free Negative from the Har-Shar, Har-Shar located in the University Center. All answers must be in person the Avion office, no winners over the phone. Good luck!
The Student Government Fee, written at $4,600.00 fund when available, is never the less an excess of $7,600.00 to the Radio Station since it came into existence.

The $9,800.00 mentioned above can be broken down into two main, $4,600.00 & the initial operating budget, which the S.G.A. fee would be due to handle now, but the second part is $5,200.00 capital outfit for the equipment needed to go on.

It was here that the A.C.B. raised a question as to whether the funds were available and so decided to do what the Senate should have done in the first place and look for an alternate fund source should this be needed. But it was not available from current S.G.A. sources. The A.C.B. having made budget proposals to date, knew from past experience that there has always been trouble balancing the budget each year.

What the senate had done to come up with fiscal year 1979 budget requirements is $6 in inflation factor to last year figures but has done several other accounting and $2 more near $5,000 in student collection for newspapers this year and there will be $90 to $100 more increase this year. The senate will now recommend $9,800 over last year's finances and 6% of that inflation.

The student has figured it out, and felt it has great potential but also that the Senate would be very unwise to commit that $8,000 without first looking for an alternate income of funding the $8,000 capital expenses, perhaps in the form of a grant such as the $800 & grant from Dalve last year or a loan from the school itself which is actually how the Student Government was started.

I would also like to call your attention to this week's President's Come to which Mr. Jaworski states he did not see anything coming out of Senate when there has been a great deal before and Mr. Jaworski also did not bother to find out what the 1979 budget proposals for the yearbook of the newspaper was going to. Mr. Jaworski presented the figure to the Senate on Tuesday in an essay of this fund.

Mike, I have the budget projections for Aviation and Phoenix for fiscal 79 up here if you would care to come up and have a look. I think you will find that you don't have a surplus and in fact have, a bit of a shortage if the Senate obligation $19,600.00 for the next year.

This year the Senate will receive over $30,000.00 of the student's money, and it is hoped that they will do it intelligently. It should also be noted that all of the above funds come from the $513,000 Student Government, Inc. to the Student Senate.

ROVING REPORTER

By Ralph Kealiir

“WHAT DO YOU THINK OF EMBRY-RIDDLE RADIO STATION—WRUP?”

1. “I think anymore funds directed towards the radio station would go a long way towards increasing the number of students choosing this school.”

Bill O'Connor, Arm. Studies

2. “I think E-R should be offered free to those students who wish to appreciate it.”

Rod Metels, Alg. Studies

3. “I think E-R should broadcast FM to the rest of the campus as well, and since they're funded by FM radio, I think it's a good idea the way it is now.”

Warren Gauld, Arm. Sciences

4. “I think they should broadcast more news, but since I don’t think that’s possible, I don’t think it’s free.”

5. “I don’t know what channel they’re going for, but I’ve never heard it.”

Martin James

6. “I’ve been talking to the student body for about two months.”

Bill DeVan, Arm. Sciences

7. “I’m really not familiar with the radio station. All I know is, I’m just a poor A&P student, and I probably don’t want to pay any increase in fees to support the station.”

Matt Mattson, AMI

8. “I haven’t heard of what they’re doing, and since they’re funded by FM radio, I think it’s a good idea the way it is now.”

Clyde Boggs, Arm. Sciences

Barbados is a land appreciate by many within a long and 14 miles wide, situated on an extreme position along the chain of Barbados, which is one of the four of four to have gained independence, the little Caribbean. The British government granted the independence of the country on November 30, 1966. The island is densely populated with a relatively recent area. The other three independent Caribbean nations are: Jamaica (1962), Trinidad and Tobago (1962), and Grenada (1974).

The economy of Barbados is based on the sugar industry, which is the main source of income. The island is famous for its tropical climate and beautiful beaches, attracting tourists from around the world.

In a world commonly referred to as the “New World,” Barbados is one of the few Caribbean islands that have not been colonized by European powers. The British government granted the independence of the country on November 30, 1966.

The economy of Barbados is based on the sugar industry, which is the main source of income. The island is famous for its tropical climate and beautiful beaches, attracting tourists from around the world.
WHERE I'D LIKE REGISTRATION. BECAUSE IT IS A REGISTRATION'S "SNAP" $100 DEPOSIT FOR
refrain from registering. As soon as the student's application is received, the student is entered into the National Registry Records for evaluation of the student's qualifications or experience. The student will receive his/her life experience credit or the full amount of his/her tuition paid to the Aeronautical System, FAA and YA actions regarding all aspects of flight training, and developing demonstrations, forecasts and working toward the improvement of general aviation's data base.

In addition, GAMA maintains a company employee that is certified to perform the function of business purposes. The student is not required to be on campus to be eligible for the program. The student must complete the program in a timely manner and pass all exams with a score of 70% or above. The student must also complete a course related to the program and pass with a grade of C or better. The student must also be able to attend classes for 24 hours a week.

THE UNIVERSITY

Dean: Robert Van Riper, the newly appointed Director of Housing and Student Life, has provided to the Office of Records and Registration the following information regarding the registration process. The student is required to complete all registration forms in order to be considered for the program. The student must also provide a signed statement indicating that the student is eligible for the program. The student must also provide a signed statement indicating that the student is eligible for the program. By JR

A quiet week for us as most of us aren’t involved in the activities. It is close to finals and most of us (especially me) are not thinking about the study time.

My story for this week is the starting of our Prescott program. We have (at least now) two new associates. With an active member role of only 11, this represents a 80% growth rate, not bad for a group of guys without a house.

We Lambda Chi Alpha are proud of our associate program, which teaches every man a man, but only with the need for “pledging.” We don’t use this more normal citizen approach. From the moment you join our ranks we treat you as Greeks, equally in this way a healthy relationship blooms. Why don’t you come talk to us, we’ll tell you the straight facts. Hey, nine men joined in summer term “A” we must be doing it right.

To all the new associates, we especially thank you for choosing the Lambda Chi Activities Board opposite the elevators for information concerning your first meeting.

All mankind from the beginning of time in all parts of the world have expressed their feeling in some form of dance. In more recent times only about 80% of the population of this earth dance, though there are many who have some direct or indirekt contact with social gatherings. They are related to everything of importance in the life of specific groups of people in the development of our common history.

Full dance from customs, beliefs, emotions, and events related to religion, war, occupation, customs of domestic life, superstitions, rituals, traditions — common dance to people everywhere. Therefore, performing full dances provides leisure time with no cost and is not graph link with the past.

The movements in folk dances are rhythms which are basic to everyone — walking, running, leaping, jumping, hopping, skipping, sliding, and gliding. All forms of dance are derived from folk dance — ballet, ballroom, square, round, etc.

Don’t forget to study for exams this weekend.

CHRISTMAS IN JUNE

The E-RAU, SCU, and WROD Radio (1490 AM) have combined forces to celebrate Christmas in June! You may say, "What's so special about this?"

The only special thing is we have simply "why not?" Jo Sicahi in his summer on duty, talk to the SCU Radio. Leer some good old Christmas music right on the beach, (11/7) 8:00 PM. You can come down on Christmas, catch fire, and (11/7) 7:00 PM. You can come down on Christmas, catch fire, and... go to the Beach. Original "Little Stie!

Fight the "Freda album" by taking a Christmas Break on Sunday, June 30th. Remember, Christmas starts at noon, just south of the Day- dona Hilton Hotel, on the beach.
