**NATIONAL AIRLINES SCHOLARSHIP FIRST AT E-RAU**

Students at Embry-Riddle Aeronautical University (ERAU, Daytona Beach) are the first to receive a scholarship established there by the National Airlines Management Club, which presented the scholarship check to Dewey Biddle, ERAU Dean of Aeronautical Studies. Center is Jack Hunt, University President.

"We are extremely pleased that the National Airlines Management Club has taken the initiative to establish such a beneficial and worthwhile program," said Richard E. Quinlan, ERAU's V.P. of Marketing and Development.

Two of the scholarships will be for entering freshmen. Upplementers also will be eligible for two. To qualify, students must complete the scholarship application form. The scholarships will be awarded on the basis of merit.

---

**NOTICES**

**OPEN SENATE SLOTS**

There are a total of three (3) open Senate slots in the SGA at this time, which need to be filled as soon as possible. If you are interested in applying for one of these openings, please submit your application to the SGA office as soon as possible.

The following qualifications are necessary in order to apply:

1. Must be a full-time student.
2. Must have at least 2.0 GPA at the present time.
3. Must be a member of the SGA as a Founder.

**ATTENTION VETS:**

We have moved again! Vets Affairs Office is now located in G Building Room 110. Stop by and see the new office and get acquainted.

**NOTICE**

The Marine Corps invite all students to see an A-4 on display from Oct. 10-11. Students will be allowed to sit in the cockpit. The pilot of the A-4 will be on hand to answer any questions. That's Oct. 10 and 11 on the Marine Flight Line.

---

**FISHING TRIP HAPPENS**

There is a fishing trip on the "Happy Dolphin" for S-RAU members, friends and friends of the local Banana Club (Beverly Bruce, YMCA Ass't. Director in charge for Sierra Club) on October 28.

This is a day's trip which includes bait, tackle and crew aboard the 90-foot "Happy Dolphin" (formerly used for geographical research) out of Fort Pierce (by marshalls of the Lighthouse). To hold your reservation you must have paid deposit of $15.00 by October 15th to apply toward total cost of $25.00 per person. "Free come" policy will hold, of course.

For reservations, call Toni Heid on Ext. 387 at S-RAU, or Bruce Nordfar at 225-1966 any night.

This is the last time of the year for deep-sea fishing! Try all coast!
TO THE AVION READER:

Dear Scott:

Perhaps your working

was in error. After your in-

terviewer went to check de-

scriptions for the campus, you said

"which do you prefer?"

Estimated cost? Funding? As little cash as possible? Why

should you pay any cash at all?

Our school is in a growing

situation. Certainly growing pains are in order but prudence

fulness is more than we can

have. Audience today (Mr.

Mall's) last-minute views

should lead to an increase in student

benefits such as increased li-

brary funding (they do well

but more money would cer-
n

tainly help). or perhaps give

more. Please read more promptly to

bring in some "Big Gun"

advisors and experts for next

semester. Thank you, please, for

not offering suggestions for

the expenditure of MY mon-

ey and give why I have no choice in

the matter.

Egg and potato foods

are again seeing an increase in

food costs. Many students,

including myself, go in to

buy some of that, despite

the caloric values of

egg or potato. The meal

cost should be kept at all

times. I think many other students

thought out of their

 freshmen. Many students complain

about not being respectful or meekness

of the major complaints seen

in the food of every stu-

dent's taste.

One of the main concepts

appearing at the current
time is the quality

of the food.

Many times students,

**NOTICE TO STUDENTS**

- **Name of College or University:** EMBRY-RIDDLE AERONAUTICAL UNIVERSITY
- **Office of the Registrar:**
  - **City:** Embry-Riddle
  - **State:**
  - **Enrollment Certification:**
    - **Name:**
    - **Social Security No.:**
    - **Classes at this Institution during the period from**
    - **Register:**
    - **Date:**

Notice to Students: This certificate must be completed by the Registrar and presented to your landlord in order to become exempt from payment of the 4% rental tax on the living quarters which you occupy. This exemption becomes invalid at the close of the above notice. Notice to Landlords: This affidavit, when properly completed, qualifies the above student to request the 4% quarterly tax exempt for the period indicated above only. This certificate should be retained in your files for a period of three years to support your claim for exemption from the tax.

**NOTICE TO ALL STUDENTS RENTING OFF-CAMPUS HOUSING**

The State of Florida requires persons who rent or lease their living quarters to pay a 4% rental tax in addition to their regular rent. STUDENTS ARE EXEMPT FROM THIS TAX. To verify that you qualify for this exemption, take the certification form below to the Registrar's Office. Then, present the completed form to your landlord to establish your tax exempt status. Additional forms and further information may be obtained from the Housing Office.

**Frangipani**

By John Wightman

On October 25, 1978, the original horror film to go all the way to the end of the year, Bela Lugosi will be shown at 6:30 p.m. in the University Center. This tale of a diabolical vampire was made in the early 30's, playing it a haunting effect which will undeniably cause chills to go on end. In the Hollywood tradition, the Fuh will receive a red beer happy hour so all Riddle students can be invited vampires with this mock blood.

All of this blood curdling activity is a part of the Red Cross Blood Drive on Thursday October 25, and Friday, October 27. Sponsored by the Sigma Chi Fraternity, the drive, happy hour and a surprise visit from a celebrity all combine to encourage the need by the Red Cross for a goal of 400 pints of blood from Riddle students, faculty and staff. In the past, the Fraternity has collected over 300 pints, but will, this added publicity and fun factor "Frangipani Style", hopes are high for at least 500.

Group blood is not the nagging grump you'd visualize. Actually the entire blood giving process takes 25-26 minutes, the majority of that attributed to paperwork and temperature taking. Anyone over 17 can give blood if in good health. Later, specific requirements concerning flight restrictions will be carefully spelled out for the students and all.

---

**OPINION**

**OVERCROWDING AT E-RAU**

Many students returning to Emory-Riddle this fall feel there is an overcrowding problem here on campus. Whatever gave them that idea? Just because Dorm II wasn't finished, you had to pack on the lawn, eat your lunch there is no aircraft available. Are there reasons to think Emory-Riddle is overcrowded? School has been in session for three weeks now and probably everyone has felt the effects of overcrowding. A large factor in this may be the open admissions program here at Emory-Riddle. For you people who don't know what open admissions means, it means if you're in good health, took EAT tests and have a good high school diploma, you're in. Not exactly the toughest qualifications for the number one private school in America.

Some people, however, feel there is no overcrowding problem at all. President of the SGA, Michael Jaworski, feels we need to keep our admissions open since the high rate of private school background in America today. A degree from a school which is non-sectarian means almost nothing, says Jaworski, President Jaworski also states we are overcrowding problems upon ourselves by not changing off the troops in the cadets where we're through. Have you ever seen an empty table in the cafeteria at noon time?

E-RAU WELCOMES NEW FACULTY MEMBERS

For those of you who were around E-RAU in 1968-69, you might recognize the familiar face of Birgitte Stro- wart. She taught humanetics back in '68 and is currently teaching HU 105.

During these 10 years of absence, Mrs. Stewart taught at Ballad College in Virginia. From 1975 to 1977 she was proud to hold the position of Vice President for the Society of Aeronautical College, who, we believe, is active in 150 college chapters.

Upon his return to E-RAU, Dr. Stewart was impressed with the changes in the last 10 years, particularly in the building, personnel, and student body. Currently, Mr. Stewart is completing his doctorate in communication at Gainesville.

GEORGE KINc

Embry-Riddle has recently added to its staff a number of new teachers. One of the new faculty members, George King, is a 30 year old math teacher. Mr. King is presently teaching a class in the seventh section of MA 105. He is originally from Chicago and received his Bachelor of Science degree in math from the University of Illinois. After college, Mr. King moved to South Africa where he taught high school math for 24 years. In 1972, he returned to the United States where he taught at Patton Lowery High School for six years. During this time, Mr. King served as head of the Math Department, athletic director, and golf and basketball coach.

Mr. King is married but has no children. His hobbies are furniture building and fishing. We feel that King is a great asset to the faculty at Embry-Riddle and would like to extend a warm welcome to him.

ERNEST BELLUNGE

Eike Bellung, a native German, moved to the United States in his mid-twenties. In the U.S., Mr. Bellung attended the University of Illinois. He has a Bachelor of Science degree in Math and foreign languages, a minor in computer science, a master's in applied math and a Ph.D. in Math Education.

Dr. Bellung was hired by Embry-Riddle for this fall as Director of the Learning Center. He teaches trigono- metry and college algebra. He is an avid chess player and enjoys water skiing, campfire cooking, and dancing. Welcome to Embry-Riddle, Dr. Bellung, we are proud to have you on our staff.

Welcome to the Sixth Annual Halide River Intertidal Race, better known as the Riddle Regatta. This exciting and innovative race is sponsored each year by the Vets Association of Embry-Riddle Aeronautical University to raise funds for a deserving Halide seen charity. This year, the proceeds of this event will be presented to the Daytona Beach Fire Department Reserve Unit, and your support is needed to carry us through.

The past five regattas have been recognized by the presses and spectators alike as the most exciting events to come to the Halide River area, so come on out and join in the fun. If you miss the race, you will have to wait a whole year to find out what all your friends were talking about.

A. Categories:
   1. Individual
   2. Team
   3. Media
   4. Kids

B. Races, Times, and Route:
   1. Saturday, Oct 21, 1978
   2. Registration and Inspection: 9:00-11:00 a.m.
   3. Race starts at 11:30 a.m.

C. entrance Fees: $3.00 per individual entry. $6.00 per two-man entry. $10.00 per team entry

D. Prizes: 1. A. First, second, and third place trophy will be awarded in each of the lanes, two-man, and individual categories.
   2. The President's Trophy will be awarded for the most unique racing creation, first, second, and third place.
   3. The Media Trophy for first and second place winners in the media challenge category.

This year the Regatta promises to be an even larger event than last year when over 20 teams competed for some 30 trophies. Come on out and enjoy!!

Attention!!!

Can you quiz your dog to see if he is smarter than the average 2-year-old? Can you find yourself scrabbling at a 1,000-piece jigsaw puzzle? Can you keep your child from being a leash tamer? Can you mumble a word in Latin? Can you name the ten signs of the zodiac? Can you talk to a tree without being understood? Can you read a map? Can you expect that you can do all these things? Then why aren't you in Embry-Riddle Veterinary School? The first 350 students to sign will receive a free copy of "How To Win The Dog Quiz Test" by Woodrow W. Tate, author of "Talking to the Car".

RIDDLE CONDUCTS WORKSHOP

About 50 Volusia area primary and secondary teachers got the latest information on aviation educational resources for their students recently when the leaders attended a career planning workshop at Embry-Riddle.

E-RAU offers its Aviation Education Resource Center (AERC) to educators and career specialists of Volusia County as a community service.

AERC is a joint effort of 155 agencies and manufacturers who provide informational material pertaining to aviation in the areas of history, science, mathematics and communications.

Judy Luther, E-RAU Media Services Director, explained that the University provides these materials to all schools in the area, both public and private, elementary through college. The purpose of the program, she said, is to provide educational materials for teachers to use in aviation career education.

AERC materials come in various forms: displays, tapes, 16 millimeter films, books and newsletters. Most materials are borrowed out. However, certain pieces must remain on campus. Speakers will travel to schools to give special talks on aviation history, flying, meteorology, model aircraft and purchasing options of the University may also be arranged.

"The program really takes advantage of students' natural interest in rockets, airplanes and space vehicles," said Luther. "Young people seem to have a particular fascination with flight. Through this program, we hope to nurture that spatial interest and possibly lead students into an interesting, rewarding career." Aviation has become the second largest employer in the U.S., and, Luther said, "Young people should be exposed to the tremendous opportunities that exist in this area."

AERCs are located primarily at colleges and universities throughout the U.S. "It is especially valuable because we have available the resources of an entire university that is devoted solely to aviation," said Luther.

About 250 included in the teachers' workshop was a tour of the E-RAU Flight Sec, the University's new Aviation Maintenance Technology Center and a hands-on talk by Air Way, a R-RAU Dean of Avia Distinguished, Riddle. Teachers interested in using AERC materials should contact Luther, Kathy Faus or Jon Mathew at 239-5841, or visit the E-RAU Aviation Center, Riddle. A. first building on left off Clyde Street, midway south of Volusia Avenue.

The Marines are coming.

Begin planning your career as early as possible. Establish goals. Whether you desire a civilian occupation, a military career or a combination of the two. The Marine PLC (Platoon Leaders Class) Program allows you to complete pre-commissioning training only during summer training increments.

There are no drills or class requirements during the school year. You are paid for your summer training and you are not obligated to military service if you choose not to accept your commission. For pilots and law students, aviation and law programs are guaranteed. Unrestricted officers have a choice of all other fields.

Not everyone possesses the integrity, judgement or flexibility to be a Marine Officer. For those that do, the rewards are great.

1. Initial obligation 3 years for unrestricted officers, 5 1/2 years for aviators.

2. Starting salary $14,500 to $15,800 (Ground-Aviation)

FIND OUT IF YOU'RE QUALIFIED BY STOPPING BY THE UNIVERSITY CENTER 9-12 OCTOBER, AND TALKING TO MAJOR R. C. Slack OF THE MARINE CORPS OFFICER SELECTION OFFICE.

By Joe Amstutz

DEPUTY CHIEF,AIR POLICING

EMBRY-RIDDLE AERONAUTICAL UNIVERSITY

Daytona Beach, Florida

By Gary MacFarquhar

THE EMBRY-RIDDLE Parachute Club is off to a fantastic start again this year. This year's club is a participant in the Collegiate Nationals entirely without outside support. In addition, we have a number of jumpers who will be competing in the novice style and accuracy categories. With the rest of the fall to polish out skills, we have high hopes for success this December.

In the last two weeks, Day Cunningham, club member and experienced parachute instructor, has trained and put out in excess of 50 first jump students. A large percentage of these students are returning for a second and third jump. Jump and bend to continue and be cleared for free-fall within a few weeks. None of the students put out so far have suffered any injuries and all have agreed that jumping is like nothing else. On behalf of the entire club I'd like to welcome all the new jumpers to the right note of skydiving everywhere. It is with a great deal of concern however, that I cannot report that one student has been injured during this period of training. This is due in part to the extremely serious nature of the injuries. It is strongly urged that all students be careful and safe. This is not a game. It is a serious sport. By Joe Amstutz

A unique phenomenon states that there are about half of one percent of the American population who are subject to such a sport. In view of this, some very posY. ve facts that this is something to be proud of, and pilots should let the candidate know. It is not necessary to tell the whole story. Many, if not most, of the students put out by the club on this will say, "...I never believe in acrobatics in the air. the world of my preference. I am not one of the out-of-the-out, in the point of absolute danger. And all, I know what I am and I'll do what I want."

Another aspect of the pilot syndrome is not so much physical as it is mental. This deals with the syndrome of flying. As defined in the dictionary, flying is merely to move through the air with the aid of wind or weightless, etc. So why remember E.E.C. . Why is there such an air of mystique surrounding it? This part of the pilot syndrome affects a great part of the non-flying population as well as pilots.

The airplane is locked upon as if it were a living, thinking, breathing, just like a (most people are). It is true, a woman, and in its eyes, it's mechanical device capable of atmospheric

This is a very important sociological factor. Therefore, it is a person's need to express his personality as an individual who is a pilot, because of the things that are done in the cockpit. He is regarded as a person who is in the field of aviation, and who is well thought of by everyone. He is not regarded as a person who is a pilot, because of his personality, but as a person who is a pilot, because of his personality as a person. This is a very important sociological factor.
