**SGA OKTOBERFEST WEEKEND**

**PROMISES SOMETHING FOR EVERYONE**

The Student Government Association and E-RAU Vets Club present a jam-packed weekend of "Oktoberfest" events October 20-22, 1978. The events include:

**FRIDAY, OCTOBER 20**
- PUB 7:00 p.m. - 11:00 p.m. - Concert with the "Hungry Six" a real German Oom Pa-Pa Band, German Beer Specials and Sing-Alongs. A great way to kick off the weekend!

**SATURDAY, OCTOBER 21**
- Riddle Regatta - 11:00 a.m. - 4:00 p.m. - This is the annual tube race sponsored by the E-RAU Vets Club. Whether a participant or spectator, don't miss this exciting race down the Halifax River. Registrations begin at 8:00 am across from Massey Chapel - Plymouth, on North Beach St. in Downtown Daytona Beach.
- First, Second, and Third place trophies will be awarded. Categories will be: Individual Fraternity, Team, and Nautical. The Most Unique Riff Design will also receive an award. For Information call the Vets Club at 353-5961, ext. 212 or 355-1183. Minimum age to enter is 18 yrs.

- **SGA Movie - "The Wild Bunch"** - 8:00 p.m., University Center.

**THE BLUEGRASS PARTNERS** - Joe Beatrice - mandolin
Jim Henson - guitar, Preston Meech - banjo, John Thompson - bass

**SUNSHINE BLUEGRASS BOYS**

**RED AND MURPHY COMPANY**

**BLUEGRASS MUSICAL FESTIVAL PRESENTED BY DBCC & E-RAU IN COOPERATION WITH WILD RADIO FEATURING RED AND MURPHY & CO. BLUE GLASS PARTNERS & THE SUNSHINE BLUEGRASS BOYS. THE M.C. WILL BE CONNIE ROSE. DATE: OCTOBER 22, 1978 AT THE E-RAU STUDENT CENTER FROM 1 P.M. - UNTIL. ADMISSION: FREE. BRING YOU INSTRUMENTS. JAM SESSION AFTER PERFORMANCE... Y'ALL COME NOW. HEAR!

**DBCC-ERAU**

**Give Blood and Fly**

By John Washington

A recent change in blood giving policy has given a new boost to the expectations of the Red Cross for their October 20-26th Blood Drive. Now you can give blood anytime after donating, and can fly only 24 hours afterwards. Restrictions for both were 72 hours, severely limiting the number of potential donors. With a goal of 400 pints, the Sigma Chi Fraternity which sponsors the event, is very optimistic for even more.

All organizations on campus are urged to stand together in support of this worthwhile cause. In particular, Lambda Chi Alphas and Sigma Chi have given tremendous support in the past.

The Blood Drive, originally inceptioned in 1972 at Riddle by the Sigma Chi Fraternity, has proved as one of the most successful and longest-running programs in support of the Red Cross in Volusia County. Of course, the support of the entire Embry-Riddle student body is what makes the drive so successful.
WHAT'S HAPPENIN'

Hortons: Workshop for Women: CPR - 5:30 - 7:30 with Stephen Morone.
NASA CELEBRATES 20TH ANNIVERSARY

MASS Transit, a computer program developed for the design of transit systems, is used by the Department of Transportation to improve rail and bus routes and systems, and by the railroad companies to design new lines of freight and passenger cars to carry America's expanding load requirements. It is also used extensively by architectural firms in design skyscrapers and sports stadiums as well as nuclear power and nuclear power plants to generate electricity.

Space computers of unimaginable complexity that evolved from the requirements of the space program are tackling problems that affect all mankind, such things as waste and climate fore...

The Wild Bunch
SATURDAY, OCTOBER 4, 5:00 p.m.

The Wild Bunch is one of four Pickwick's most ambitious projects, imaginatively conceived and rousing executed. It is a fifty-film story about the sewage and the reedy mud, brute and cruel - whose violence will rival 10 or 10 years, whose outcome will have been considered. It is "The performance...-- particularly with William Holden and Robert Ryan - an intimate, and the film is one of the year's top ten," "Time Magazine." Artifice.

Sunday: Riddle Regatta - Saturday: German Band & Beer
Saturday: Riddle Regatta

Bay Area: Bluegrass Festival with 3 bands & 25 kegs of Beer!!

Shirts will be sold all week during the day in the cafeteria for $3.75 and during Sunday for $4.25!
WHAT'S NEW AT THE STUDENT HOUSING COMPLEX

The next time you hear someone talking about the Racquet Club, you might start asking about the availability of courts. When they tell you that there are no courts — but in fact, they should say the real name of this "club" is the new "E-RAU Student Housing Complex." The complex retains the name Racquet Club unofficially from the days when it was a luxurious resort hotel. Strangely enough, the complex is located approximately three miles west of Clyde Morris on Route 52, was never opened to the public.

Rumors have it that the large family owned the resort and used it as a place where family members would come to get out of the spotlight. That seems rather strange, seeing how the family wasn’t in show business.

Well, those days have come and gone while Riddle has spent a lot of time and money to make the 20 suite complex available to house 116 students. Each suite comes furnished and has 21st-century features. The suites have two bedrooms, two bathrooms, two living areas and small refrigerators, stools and sink units. The price for each student is $596.00 per trimester.

The rectangular complex encompasses a grand courtyard, with one of Daytona's largest swimming pools as the center of attention. This area

also has a grill centered about the courtyard that is available to the residents of the complex.

Inside of the main building, you will find a TV room, the lobby and a game room with pool tables, a fine bar, pool hall, billiard machines and a juke box in the rest of the building. Updates is a recreation meeting room that is available to any student group or club through the office administrator.

The new Student Housing Complex was planned to be an independent complex for upperclassmen, but due to the fact that the present population is 967, male freshmen, the university decided to staff the complex to handle any problems that might arise. The University has done an excellent job in preparing the housing complex for the fall term. They deserve a lot of credit for their efforts. These are still a few things to be finished up, but most good things do take time.

INTERESTED IN PHOTOGRAPHY?

Yes, there is a meeting in the c.p.r. on Oct. 18, 19, 20, and 21. Teachers, faculty, and staff are all invited. No experience needed! Oct. 18 & 19 From 12 to 1 Oct 20 From 5 to 6

GREAT EXPECTATIONS.

Mrs. Atkinson is a graduate of Duke University with a major in Art History. The exhibit will be on display in the lobby of the E-RAU University Center from 9:00 a.m. to 4:00 p.m. Tuesday through Friday and will be exhibited in the Ormond Beach Library in January of 1979.

The exhibit will include a collection of "The Art of the Atlantic" furnished by Mr. and Mrs. Roger Smith, 225 Aragon, Holly Hill, Florida. A family hobby, the collection will include sea shells collected in the Daytona Beach area exclusively. In addition, a collection of shells from all the Florida shores will be exhibited especially by Dr. and Mrs. George McMillen, 125 S. U.S. 1, Ormond Beach.

The final exhibit of the fall trimester will be a series of watercolors by Carol Richardson, 143 N. Beach, Ormond Beach. Mrs. Richardson has studied with Robert Johnson and Fred Meigsmeister of Stetson University. Her paintings reviewed the top award for the Florida Watercolor Society in 1976 and 1977, and the Peabody's Award at the Southern Watercolor Society in 1977. The date of this exhibit will be November 15th, 1978.

All of the exhibits will be on display in the E-RAU University Center from 9:00 a.m. to 4:00 p.m. Tuesday through Friday. 2:00 p.m. to 4:00 p.m. The community is cordially invited to preview all of the exhibits.

$3500.00 de Miami, Caracas, Miami, $105 (1978)
By Gill Twosek

Entertainment Reporter

For dinner! Bring one with a passion for pasta, I have to recommend Mafia's on U.S. 1 at the best Italian restaurant nearby. You can find almost every Italian specialty on the menu, (pasta, mozz, spaghetti, pizza, etc.) and at reasonable prices. With dinner you get soup or salad and a leaf of hot fresh bread included in the price. Dinner are approximately $5 per person and the atmosphere is of the family type. Just remember to watch that waistline!

...for racing! Perhaps on your way to Lake Buena Vista, or if you are just out for an afternoon of fun, step off at the Metro Orlando Grand Prix racetrack. Here you can become a race car driver for a day! You drive smaller versions of the Formula cars and attain speeds of approximately 40 mph and then meet against your friends or the clock. Although it may not sound fast, the winding turns of the racetrack make it seem like the real thing! Your charge is $1.25 per lap, so be careful not to get addicted! You also will have to purchase a special driver's license (under $3) and remember to bring your current state driver's license with you! Again, to get there follow I-4 west and exit at 426. The racetrack is at 601 Semoran Blvd., approximately an hour away.

DINOSAURS

This past weekend turned out to be another big one for SCUBA

Saturday night was also invitational. Our special election continued a budding class. This gave the brothers several more chances to meet the correct instead of mistaking drinks. The day was quite successful for the students but they still do not want to become Saturday night was also invitational. Once during the time we can determine to help... 

In our chapter we will hold a Greek Slots party for the brothers, friends, and anyone who can come to see the highlights of the weekend on the social calendar. Let's have a fantastic time.

If there are any questions concerning Sigma Chi or any of our activities you can get more information by calling 325-3277 or just by dropping over. We are located at 525 South Ridgewood. Our door is always open.

The work has been put into the event and even with a couple of hitching blocks turned Saturday into a fantastic evening.

Saturday night we had 325 (strong now) a chance to prove themselves. Luckily we have a little more work to do, but they do just fine. We will be going into brother Bert Harlow and Brother BartJ to work in designing the first model, involving members in the use of marking systems, etc., to be used in marking systems.

Saturday turned out to be a better night with the break time. We won our first game against the Delta Chi, thankfully we can continue this streak for the next. Complete the wish list. No matter how you feel about the Wish List.

Next weekend our sisters will be in the Ridge Regina (hopefully louder).

**CAMPUS CLUBS**

**MARINES PLC**

The Marine Corps PLC is back in full swing. Tuesday the tenth of October the club had a special election the results of the election were as follows: club president is Kevin Shuler; club vice-president is Richard Rame, an aviation maintenance representative with the 4th Marine Afloat SCUBA Society started to grow this past weekend and more than one. We should all be grateful for the success we have had.

This past weekend the special will be the annual service of War of the Finger - featuring Richard Rame as narrator. David Rame, who was against James Rame, was not as successful. The three hours of the presentation was for lunch and dinner and the meeting is at the Municipal building. All interested are encouraged to attend.

Next week the club will be holding the final meeting of the year and will elect the officers and the remaining agenda for the year.

On the last meeting of the day, the SCUBA Club will be participating in the Eddie Rissman Regatta as a team. We are putting our best down on the road as we play coming in at least in first place. It should be a fun weekend for all we will see you there.

Last weekend the SCUBA Club lost on one of our better negatives players. There were six birdies versus two putts. The players had a good time playing and had a good time in the middle of a river. Once inside the course we determined only greens and blues. On the course we started to conclude around the trees and as a result one of the birds fell out of the nest. Personally I think he jumped out on purpose.

**SCUBA CLUB**

By Timmy M. Robinson

It's unbelievable that already halfway through another semester. One of our members, Bob Trenchard, is only two months away from his commission training into the United States Marine Corps.

This past weekend, Bob and many other members of the SCUBA Air Society went to Miami and had a great time. According to Allen, not much was accomplished, but when you're in Miami, you're just expected anything to always be accomplished.

It was the annual Commander's Call, this year located in Miami. There were briefings on the air_sea plans for the year in February in Atlanta, January and dinner meetings, and special guest speakers.

After all of the meetings, our members hit the city of Miami. They found out that the Miami South Beach is a beach where everyone wants to go. Keep it to yourself, this place is a beach where you can swim, dive, eat a lot of good food, and party.

CO-OP NEWS
By Paul Woodruff

The primary capacity for
which I was employed last
summer at Waseca was to
serve as an Airline mechanic
for the facility. Waseca's
airline manager, John Pfeiffer
lived, worked, and was most
recently employed by the
PhiDelta Tau fraternity at
the University of Minnesota.
I arrived grateful for his
valuable instruction in the
aircraft aspects of general
aviation. Mr. Pfeiffer
not only gave me many and
varied lessons, but also
permitted me to supervise
during some basic power plant
work on several single engine
aircraft.

Another valuable benefit
I received was a small amount
of vacations with the PhiDelt
maintenance office paper work.

If business ever was slow, I
would give Mr. Pfeiffer a hand
in organizing and revising the
microfilm plates. Other of
his work included applying
service bulletins and bulletins in
to aircraft and a few other
maintenance oriented tasks.

This summer's practical
experience has begun to
preparation for my career in
aviation. Through the application
of the Maintenance program
for students at Riddle and
Riddle, I have built a strong foundation for my future
at school.

Hopefully the skydivers will
have at least one raft in the
up-coming Eddie Regatta. Stay
tuned for more information on
that raft on this week's world.
Stop in at our meeting one
week from tonight, 7:00 p.m.
in the faculty staff lounge, if
you are interested in getting
involved in the club and jump-
ing.

The National Transportation Safety Board (NTSB) reported, Sept. 26, that the always dangerous condition of extreme overweight and extreme aft center of gravity caused the crash of a Cessna 402-B at Knoxville, Tennessee, on March 11, 1978.

The plane pitched up uncontrollably shortly after takeoff and then crashed on the runway at McGhee-Tyson Airport. The plane was substantially damaged, but the pilot, the only person aboard the aircraft, was unharmed.

In determining the probable cause of the accident, the Board cited "a loss of pitch and altitude control during the takeoff climb because of the extreme overweight and extreme aft center of gravity conditions of the brand aircraft. But the Board also said the pilot 'manifested poor judgment in initiating the flight with a known overweight condition, and was certainly inadequate with regard to his preflight planning.'"

The Board's investigation also shows the pilot had been told he was overweight by 3,188 pounds. The pilot made no weight calculations of his own, and checked only to determine whether the cargo configuration of the 402-B could accommodate the physical dimensions of the payload.

The Board's investigation also showed the aircraft's center of gravity was 40 inches aft of the gross weight and the center of gravity on the performance of the aircraft.

In renting the pilot for his poor judgment, the Board said they believed that "a prudent and competent pilot" would have been able to issue the safe briefing to the aircraft based on available data.

The Challenger CL-600 to get Goodyear

The Challenger CL-600, which has logged 84,158 hours, was designed for the initial production of carbon fiber. Goodyear, which possesses one of the largest composite brake disks, has supplied them for military aircraft including the F-15. P-16 and B-1. It also will supply wheels and swivel systems for the CL-600, which now is in initial production at Montreal, Quebec.

Weight was a major consideration in the design of the CL-600, and with the wear improvements in carbon brakes, over 10 times better than first generation carbon materials of only four years ago - Cimaron or for carbon.

Steel brake disks would have weighed 58 pounds compared to only 20 pounds for the carbon, and would be provided only 600 landings.

"The Challenger will be equipped with a fully redundant Goodyear anti-skid system which allows to all runway conditions for maximum tire protection and minimum stopping distance."

SOCCER TEAM WINS

By John McCarthy

Last Saturday the Eagles played their first home game of the season, winning 3-0. They had opened against the University of Tampa the Saturday before, losing 2-0, and had lost 1-0 to Florida Southern on Tuesday.

In the first half of Saturday’s game against St. Leo’s, the Eagles had more control of the ball and kept it on the opponent’s end of the field. 60% of the time. Ten minutes into the game St. Leo scored on a forward dribble past the defenders and kicked the ball past the goalie. Two minutes later the Eagles evened the score on a goal by the center ( initials remain anonymous).

At Lott’s, the right wing, threw a pass to an opponent deep in the center and past to handkerchief which kicked it in the goal. St. Leo’s almost scored when a shot hit the goal post and bounced out. Ramharts, left wing, left the eigths and scored an attempt after dribbling down the left side. Riddle scored his second goal when Ted Damoscord scored a corner kick to Kavanagh who assisted on the goal. The goalie, the former center, of the Eagles, and two fullbacks better in the second half.

Both teams played better in the second half and made excellent substitutions. St. Leo’s coach, Mr. George Dalla, playing inside left, altered his lineup. Rifts, who came in as a substitute at right side, missed shots off to both sides, and had the ball stopped by St. Leo’s goalie. Allen Blunt and George Bankhead missed shots off to the right. St. Leo’s almost scored on a penalty kick from 20 yards out, which was saved by St. Leo’s goalie. Brian Meyer, the Eagles’触down, scored when Allen kicked the ball from right corner to handkerchief and headed it in from the goal. They scored again five minutes after when Tom Tassett kicked a penalty shot to handkerchief who tapped it in from 3 yards out.

The Eagles defense was maintained by right fullback Jeff Michelson, left fullback Carl Bocock, center Oldfield, the sweeper, and the goalie. Brian Meyer who had five saves.

On Sunday the Eagles played against Belmont Abbey from North Carolina and with 3-2. Fraser Burke scored on a free kick from 31 yard out, and Pete Kloehnkebich scored a goal in the semi with assisters Ted Damoscords Brian Meyer, the Eagles’触down, and 1-2.

The coach, John Bushey, attributed the losses to lack of experience. The players were too young to know the score in the first two games.

The Eagles next few games are Thursday home against Nova Sept. 21, away against Flagler, Sept. 25, then Oct. 4. Home against Stetson 20-30 p.m.
