TV COMEDIAN COMES TO RIDDLE

Letter From Prescott:

Dear Mr. Waple,

I enjoyed you visit. I liked the move. I learned a great deal when you asked our question. My science teacher Mrs. Lindsey didn’t know

with was worse a hurricane or tornado. But you did now. I know you don’t like reality. You tell us a lot of things we don’t know. Because you have to know

the pilots depended on you to give them a report.

Thank you for coming.

EDITORIAL

It has come to my attention that the flight-line will start a program of broad-casting the flight student’s grade for the period of the week. In other words, after the flight students have taken their exams on Monday and Friday, they will be introduced to the public. This new policy has come about due to the fact that the student must work to keep his grades up. As a result, the student is forced to work harder and study more in order to pass the flight exam. This is an unfortunate situation, as it places a great deal of pressure on the student and can lead to burnout and stress.

At the same time, the grades will be posted on the bulletin board. This is a good way to keep track of the students’ progress and to ensure that they are working hard. However, it is important to keep in mind that the grades are not a reflection of the student’s intelligence or ability. They are simply a reflection of the amount of effort that the student has put into their work.

In conclusion, I believe that the program of broad-casting the flight student’s grade is a good idea. It will help to keep the students motivated and encourage them to work harder. However, it is important to keep in mind that the grades are not a reflection of the student’s intelligence or ability. They are simply a reflection of the amount of effort that the student has put into their work.

Keith Rennell
APRON News Editor

LETTERS TO THE EDITOR

TO THE EDITOR:

Dear Editor,

I find it troubling that the flight student’s grade is being broad-casted for the week. This is an unfair way to judge a student’s ability and can lead to stress and anxiety. I believe that the student should be allowed to work without fear of judgment.

Sincerely,

Joe Aftmatta

TO THE EDITOR:

Dear Editor,

I am writing to express my concern about the flight student’s grade being broad-casted. This is a very unfair way to judge a student’s ability and can lead to stress and anxiety. I believe that the student should be allowed to work without fear of judgment.

Sincerely,

Henry Smith

LETTER FROM THE EDITOR:

Dear Mr. Aftmatta,

Thank you for your letter. I agree that it is unfair to broad-cast the flight student’s grade. I will make sure that this issue is addressed.

Sincerely,

Tom Buckler

THE ALLENTOWN SUN

O.K., that’s it. The AVON needs help getting the news. The AVON needs help in keeping the students informed. Through the students here working for the AVON are a dedicated and hard-working group of people, we simply do not have enough bodies to keep up with all that goes on here at Embry-Riddle.

With this in mind, I am writing to those of you interested in meeting the students’ needs by joining the editorial staff of the AVON. The AVON needs your help. You can make a difference in the lives of those students who live, work, and study at Embry-Riddle.

Sincerely,

Kurt Kopp

It’s been some of the most wonderful and exciting times of my life at this school and I think that they don’t really care how much or how little it is. Look around your campus and get as impressed as I am.

I’ve read several scenes that make (I wasn’t sure) work in the University Center that seem to mean nothing to me. They don’t care how the students think about the school. But at the same time, I feel that they don’t care how the students think about the school. I think they are trying to be a good school, but at the same time, I feel that they don’t care how the students think about the school.

Every year, there is a big debate about whether the school should be broad-casting the flight student’s grade or not. The debate is about whether the students should be kept informed about their grades or not. I believe that the students should be kept informed about their grades. This will help to keep the students motivated and encourage them to work harder.

Sincerely,

John Smith

As most of you already know, I was at the moss summit C-18 in Cannes for the Board of Trustees meeting on October 21st and 20th. The weekend afforded me the opportunity to spend time with our student representatives and to let them know how much we appreciate their efforts.

Sincerely,

John Smith

QUESTION:
What do you think of a 6-day school week? (The school week consists of 2 days Academic and 3 days flying. Either classes M-W-F, flying T-Th-Sat. or flying M-W-F, class T-Th-Sat.)

ANSWERS:
1. (Pete Gouder)
"It's a good idea because they're getting the stuff out of everything. It's the best way to make it work. They're putting a lot of hours on the planes and stuff and, if everything goes right, there won't be any screw-ups like in Daytona."

2. (Ken Palmers)
"Well, I have classes on Saturday and I think flying on Saturdays is fantastic. I can't do it here in Arizona."

3. (Bill Simms)
"I go to classes on Saturday. That's when they give you most of the tests to make sure you come. It's no problem."

4. (John Simms)
"It's a great idea because they're getting the stress out of everything. It's the best way to make it work. They're putting a lot of hours on the planes and stuff and, if everything goes right, there won't be any screw-ups like in Daytona."

5. (Dave Williams)
"I don't have classes on Saturday. I fly. I like the idea where you have the whole day to fly instead of just a couple of hours scattered each day. Then it's easier to fit in your schedule. But I'm glad I don't have classes on Saturday. It would be awful having not to go."

6. (John Henry)
"I'd rather be flying 3 days a week and taking classes 2 days a week."

7. (Ken Palmers)
"I don't have classes on Saturday. I fly. I like the idea where you have the whole day to fly instead of just a couple of hours scattered each day. Then it's easier to fit in your schedule. But I'm glad I don't have classes on Saturday. It would be awful having not to go."

8. (Richard Lewis)
"I like it 3 days a week, even if you can't go out and party too much Friday night if you fly Saturday. That's why next time I'll switch my school to Saturdays, so I can go out and party Friday night. I'd rather go with a little hangover than fly.

NOTICE
E-RAU HOUSING AVAILABLE FOR SPRING

Housing is available for the spring trimester in the on-campus residence halls and in the Apartment Complex. Currently enrolled students are being offered first opportunity to contract for these vacancies. If you would like E-RAU housing for the spring trimester, fill out a contract at the Housing Office no later than

Alumni News

A ROTC program was recognized by the United States Army Association this year. Maj. Gen. Wallace H. Bunting, the commander of the Third Army Division, presented an engravedillet to Lt. Frederick Uphoff of the 2nd Armor Battalion for his service.

Many of the newly hired teachers and instructors appear never to have taught before and are uneasy in the classroom and have not yet perfected their teaching techniques. Even though teachers have the opportunity for evaluating instruction at the end of the term, they do not have an opportunity for informal feedback from students. They have to wait until the end of the term to receive any feedback.

The University has placed new posts along the driveway between the Academic Building and the Engineering Laboratory. These posts have been installed to prevent parking there, which is preventing a potential hazard. Students should be aware of this to avoid parking in the area.

Opinion on Parachuting

By Gaye St. Francione

Have you ever thought about making a parachute jump? That's right, jumping out of the jump plane and letting yourself out of your own free will! Do you think you'd be able to do it in the world at large? Because, you friend, you're only right in the literal sense of the word "bungee". Being, you know, the same parachute that you'll use to jump out of the jump plane.

No. I'm pretty sure that we're talking about the same parachute that I'll use to jump out of the jump plane.

Perhaps. Perhaps not. I don't know. But what I do know is that the jump plane is very high, and the parachute is very big. So it's safe to say that the jump plane is very high, and the parachute is very big.

Also, the jump plane is very high, and the parachute is very big.

Well, that's true. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.

Okay, okay. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.

Okay, okay. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.

Okay, okay. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.

Okay, okay. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.

Okay, okay. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.

Okay, okay. But what I don't know is whether you have the courage to jump out of the jump plane.

I think you do. I think you have the courage to jump out of the jump plane.
