COMING SOON...

Klyde Morris! +

By Ron Birtka

On November 13 (THIS COMING MONDAY NIGHT?) Comedian Molly Shannon will perform in the University Center. Molly Shannon’s stand-up comedy is known for its biting political commentary and humorous exploration of gender roles. This event is a great opportunity for students to enjoy a night of laughter and engage in a fun and entertaining atmosphere.

THREE - CREDITS - NO TESTS

For all continuing students who wish to improve their understanding of these three critical credits, we offer the following opportunities:

- Take the Insurance Clerk Exam in the University Center, to obtain the Identification document, and
- To get a Visitor’s Clearance Form from the Bunue’s Office.

FOR MORE INFORMATION, PLEASE CONTACT:

David Ditch
Michael Meyer

Please come by the University Center Office as soon as possible.

TV COMEDIAN COMES TO RIDDLE

Letter From Prescott:

On the 25th of November, a student in the Psychology Department will deliver a presentation on the topic of sleep disorders. The presentation will be held in the University Center at 7 p.m. The student is a member of the Psychology Club and is passionate about the subject. This event is open to all students and faculty members. The presentation will cover various aspects of sleep disorders, including causes, symptoms, and treatment options. It is a great opportunity to learn more about this important topic.
O.K., let's get it together.
The AVON needs help getting the news and the student newspaper needs help keeping the students informed. Although the students currently working for the AVON are dedicated and hard-working people, we simply don't have enough bodies to keep up with all that goes on here in ERAU.

With this in mind, I am taking this opportunity to extend an invitation to all of the faculty members to become contributing writers for the AVON. Here's your chance to contribute to the students' side of the story. Tell us some of the problems that you face as instructors. You may be surprised how understanding a student can be when you are making the facts behind a new policy. Tell us about it! Explain the reasons and subtleties of such a program. Don't jut be the ones to build to the points of creating such a negative impression that the idea is defeated before it ever gets a chance to succeed. Use the AVON.

Hopefully, Eagle-Riddle continues to grow. The AVON will continue to attract more and more students, and therefore be able to cover more of the detailed happenings on campus. It would be nice to keep them busy with some work that might accomplish something to benefit the students instead of just being a nuisance. If they can't eliminate the news, then feed it somewhere else. Next time you see that good looking bird or butterfly, from your tentative, unasked-for, unannounced on your tuition money, and keep it the way you like it. Do or how much she wants her job. Complete enough and satisfactory to the students.

QUESTION
What do you think of a 6-day school week? (The school week consists of 3 days Monday-Wednesday and 3 days flying. Either classes M-W-F, flying T-Thu-Sat, or flying M-W-F, class T-Thu-Sat.)

ANSWERS
1. (Pete Gouder) "It's a good idea because they're getting the most out of everything. It's the best way to make it work... They're putting a lot of hours on the planes and stuff and if everything goes right, there won't be any screw-ups like in Daytona."

2. (Ken Palm) "I fly on Saturdays and I think flying on Saturdays is fantastic and here in Arizona."

3. (Ken Palm) "Well, I have classes on Saturdays and I'm not really too crazy about them and maybe some kind of deal where you could go to class every other Saturday would be better."

4. (Dave Lippens) "I don't have classes on Saturday, I fly. I like the idea where you have the whole day to fly instead of just a couple of hours scattered each day. Then it's easier to fit in your schedule, but I'm glad I don't have classes on Saturday. It would be awful accepting not to go."

5. (Dave Lippens) "I like it 0 days a week versus you can't go out and party too much Friday night if you fly Saturday. That's why next time I'll switch my school to Saturdays, so I can go out and party Friday night. I'd rather go with a little hangover to class rather than flying."

6. (John Barry) "I'd rather be flying 2 days a week and taking classes 3 days a week."

7. (John Simon) "You don't get Friday night to go out, but when you have 3 days, you get extra days to do homework and stuff like that—it's better."

8. (Richard Lock) "I like it 0 days a week versus you can't go out and party too much Friday night if you fly Saturday. That's why next time I'll switch my school to Saturdays, so I can go out and party Friday night. I'd rather go with a little hangover to class rather than flying."

9. (Ken Stodd) "I go to classes on Saturday—that's what they gave you most of the time to make sure you come. It's no problem."

10. (Norm Tessier) "I like nothing on Saturdays does't take too much of the time off from Saturdays."

NOTICE
E-RAU HOUSING AVAILABLE FOR SPRING

Housing is available
for the spring trimester in the on-campus residence halls and in the Apartment Complex. Currently enrolled students are being offered first opportunity to contract for these vacancies. If you would like E-RAU housing for the spring trimester, fill out a contract at the Housing Office no later than November 10, 1978.

E-RAU HOUSING FOR SPRING

Available in Student Activities Office

A special trophy will be awarded to the fraternity who's members finish the highest!

Seagrams for the person with the best poker hand!
Alumni News

**QUESTION:** Why is it that Embry-Riddle does not have any black academic instructors or administrators?

**RESPONSE:** From Julia G. Pach, Personnel Services

E-RAU makes every effort to recruit minority candidates in all areas of employment at the University. Only advertising sources which reach the potential candidate, and include both black and white media, the Florida State Employment Service, specialized publications (i.e., the Chronicle of Higher Education), faculty members, and others listing positions are open to accepting minority candidate applications.

**QUESTION:** The University has placed new posts along the driveway between the Academic Building and the Engineering Laboratory. These posts have been placed too near the campus and are obstructing the view. What action will be taken to correct this?

**RESPONSE:** From Fred Williams, Physical Plant Director

The posts which the post and wire poles are not near the walk areas. However, we will be happy to move the wires for those who must on existing alternative routes.

**QUESTION:** Many of the newly hired teachers and instructors appear never to have taught before and are uneasy in the classroom and have not yet perfected their teaching techniques. Even though there is the opportunity for evaluating instructors at the end of the trimester, it is possible for them newly hired instructors to be evaluated by members of the teaching staff within the same department at the beginning of each trimester?

**RESPONSE:** From L.W. Michael, Dean, Academic Affairs

We appreciate the "easiest attitude" reflection in your comments. Many new faculty members are conducted over a year, usually in December or January. However, evaluation and improvement should be ongoing and continuing process. Our faculty suggestion for students who really want to help is for them to ask a list of questions and to show them interest in the class. This will bring out "the best.

"It's not good enough the students should discuss the situation with the appropriate Division Chairman. The Division Chairman can then take action on an individual basis - which may include having other members of the teaching staff within the same department provide assistance.

Gee, Thanks, Mr. Wencel

Dear Mr. Wencel,

I thank you for coming to our school. I really liked the film. You told us lots of things we didn't know. What you told us helped out in class. Thank you very much.

Sincerely,
Shannon Baer

Matt Landblom Chi Alpha has been fairly quiet in the last couple weeks. Last week was our one week of our semi annual rush. As for this week we won't see much, we are not as busy as usual this weekend, so if you are one of the DVS team or plan in on an NFA project and the previous for our guest speaker, had Collins, editor of Flying Magazine. Keep up the good work, Ritual dinner is less than a month away.

Brothers of the Wind
By Mark Phillips

Well the Brothers have been very busy for the past few weeks. We had a roller skating disco with which turned out to be a great success, we are hoping to have people throughout the rest of the year. This past Saturday night we had a major charity function with Delta Sigma Theta Sorority Inc. and Tri Chi Donate. Also our new members are sponsoring a new eatery for a restaurant for two to Miami Florida, Tri Chi on Twenty. We will be at Twenty for a dinner at 2nd Red Lobster, and if you have a case of 2.

As for flag football the Brothers had a very fine weekend. We earned a homecoming in the Village and AFROTC in our Division. We played the Viking Saturday and won by a score of 58, then we played AFR 97 after that we won by a score of 54.

This left us with our play off game, Sunday afternoon against the Big Six which we won by a score of 19 with a touchdown pass from Chuck Henry to Mark Phillips. We play the Coastal Giants next week for the Championship game, see you there.

New Organization

by Glen Russell

WERSU

by Craig Beaudry

Hi, in case you haven't heard we're the newest organization on campus. Our no longer a community of radio. We are an organization designed to set up stations at the student housing complexes.

Other than soccer, we're going to head on over to the most popular radio station. In other words, there isn't much friction (except a few top spots). All we need to consider is the top spot. We've been best friends so far and we've been constantly trying to please the most important person in our organization, the President.)

Also, look elsewhere in this issue's AVROS for more information. As always, feel free to call us.

Take Your Flight Career Straight Up!!

by Gary MacFarland

A bunch of us skiers are excited about trying ski week for a boy hopping of the first time. We are trying to find a few more people to join us.

There are many of us looking forward to the first snow.

Last Friday we had our thank dinner meeting of the studen.

Mr. Jim Dunlop, Director of Operations for Federal Express, was our guest speaker. He showed an entertaining film concerning Federal Express and then answered questions and informative suggestions on gifts, jobs, and Starting E. Mr. Dunlop's speech was excellent and everyone appreciated after.

During the meeting Linda Laffoon, coordinator for the Career Center, mentioned Mr. Dunlop on behalf of Federal Express a certificate for our career center. Also, the next meeting will be at 1:00 p.m. on Wednesday in Craig Robinson's Box No. 626, or contacts can be there.

By Glenn Benjamin

If you've been interested, even excited, by the new album coming out of Kansas, then there's a chance you've had good reasons. If you're not, probably just haven't paying attention. Yet flagship has come out with a new album that makes you think of the band's early roots. What's more, the band has come out with five albums each.

Kansas Live will be featured at 8:00 - 10:00 p.m.

Enjoy 140 minutes of one of the most enjoyable bands around.

On the subject of money, WERSU is sponsoring a little thing for a quarterback will yield a turkey, a bag of beer and music. The topic of the evening will range from Kansas history to rock imagery and talk to Neil Young. We have a vast collection but if it's not enough you can probably have your own. We will play it all. This will be your party anywhere, (within limits),

Think about it. Let's pass the atom around!

Opinion on Parachuting

By Gary Steckfuslew

Have you ever thought about making a parachute jump? That’s right, climbing out of the jump plane and letting yourself free fall out of your own free will! Do you think you’ll be able to do that? I doubt it.

Although you might think you could be, you’re only really in the literal sense of the word “in the air.” Because, my friend, you’re not only unprotected, but you’re surrounded by the turbulence of the turbulence of the turbulence of the turbulence of the turbulence. The calculations are based on theoretical assumptions, and the data from the jump plane is not always accurate.

Don’t just think about it, go do it! With over 35 years experience of jumping from 12 to 130, I can guarantee you’ll have thought of everything and I can promise you that you’ll feel great, and probably you’ll even be surprised by what you’ve learned.

However, don’t get the impression that you cannot be saved. In fact, many people who have jumped have been saved. It is all in the planning. If you plan your jump correctly, you can be safe.

Now that I have your attention... BREAK A CAMERA DAY

Dec. 7, Honey!!!

It is your last chance to get your picture taken for the Phoenix.

Pictures will be taken from 8-5 in the CPR, U.C.

The football team completed its season last Saturday. The game marked the end of what was a very successful season, as evidenced by the team’s final 4 and 2 record. Out of 10 games, the team’s record was 7-2-1. The win against the big boys and the overall team performance is truly amazing. The team should be proud of their accomplishments.

Championship Game:
Gentle Giants VS Brothers Of The Wind

The Brothers won a three way playoff Saturday and then beat Big Eight on Sunday. The Gentle Giants handed the Vets their first loss in four years to advance to the championship game against the Brothers of the Wind this Sunday at 3:00 p.m.

SATURDAY RESULTS
Brothers of the Wind..........8
APROC
The Brothers received the punt when APROC fumbled a kick in their end zone for a safety. A few minutes later the Brothers scored on a 45-

yard touchdown. The Vikings were unable to score against the Brothers.

SUNDAY RESULTS
Brothers of the Wind..........21

Vets
The Brothers' first touchdown came on a 25-yard pass from Chuck Henry to Dennis Hasselhorst, for a 25-

yard touchdown. The Vikings were unable to score against the Brothers.

The Vets scored on a 40-

yard pass from Stu Polk to John Ritchie. Dave Mahon attempted a Gentle Giant pass and Bob Allen ran in a touch-
donw from 15 yards out. Stu Polk hit Bob in the end zone for the extra point to get the Vets just one point behind the Gentle Giants.

Paul Cormick threw a 45-

yard pass to Jeff Marks for a Gentle Giant touchdown. Cormick had intercepted a Vets' pass and stumbled but didn't try to cover the Vets drive, although they were behind the whole game, the Vets showed poise and discipline, and calmly walked their way back into it. With 3:11 left to go, Stu Polk hit Mike Streu-

hoffer for a 30 yard touchdown, they missed the extra point through, and the Gentle Gia-

nies kept the ball until time ran out. The Gentle Giants scored again on a five yard touchdown twice in the second half.

How would Shakespeare have played O'Keefe?
With great Wolfe of Atomics,
It is done for knowing a woman's love
It is a lesson in power
Of a valiant hero to a woman.
I am so happy I'm in love and not going down,
How would Shakespeare have played O'Keefe?

O'Keefe's Golden Ale
It's not good to gulp.
