THE AWARD-WINNING NEWSPAPER OF COLLEGE AVIATION

VOLUME 31 ISSUE 2

EMORY-RIDDLE AERONAUTICAL UNIVERSITY

JANUARY 26, 1979

NASA Presentation Monday night

"A Funny Thing Happened On The Way To The Moon," a slide presentation about the National Aeronautics and Space

This Friday night

World trick shot Champ.

Friday, January 26 at 8:00 p.m. is the date and time to remember, as Paul Germi, World trick shot pocket billiards champion makes a special return appearance to the Embry-Riddle campus. Germi performed as exhibition here a couple years ago, and was enthusiastically received as he amazed the audience with a brilliant

display of trick and fancy shots. Paul has made as many as 21 balls in one shot, a Guinness book record. He has won the World Trick and Fancy Shot Competition championships in 1976, 76, 77 and last September he took the 1978 Championship in Sundsvall, Sweden. Don't miss Paul, Friday at 8:00 in the University Center.

NOTICES

RING GRADS
NOTICE

According to the University calendar, students anticipating April 31, 1979 Graduation are required to fill out Graduation Applications no later than Friday, February 23, 1979. Please be advised that No Diploma will be ordered if this application form is not processed by the Records Office. If a student Registered as "Gr-400" Prospective April Graduate - this

does not fulfill the application requirement. Check with the Records Office if you have any questions.

SUMMER GRADUATION? Submit your application two tri-mesters before graduation so that we can help you prepare for a smooth completion. Check with the Records Office if you're having any questions!

New Vtg BOOK STORE hours
Monday thru Friday
10:00-12:00

Administration's work in aeronautics will highlight a day-long program by the space agency Jan. 29 at ERAU.

Throughout the day, the FAA's Vertigo unit will be operating in the University Center. The doctor, induces vertigo, and spins disorienting an experienced test pilot under actual flight conditions. It is important because aid in showing pilots how the mind and body react under these circumstances. Free demonstrations "rides" will be given during the day.

The entire program is free, and open to the public. The ERAU University Center is the first building on the right after entering the ERAU campus off Clyde Morris Boulevard, approximately one-half mile south of Volusia Avenue.

ATTENTION!! INTERNATIONAL STUDENTS

All students who are not U.S. Citizens (including those on permanent resident status) must report his or her address to the Immigration and Naturalization Service before January 31, 1979. This is a mandatory requirement by law.

Alien Address Report forms are available in the International Student Services Office in the University Center. It is important that you stop by and take care of this requirement.

TYPEWRITERS FOR RENT

The SGA is now providing you the students with the availability of electric typewriters to rent out for your personal needs. The typewriters are available for only \$1.00 per day rental charge and a \$10.00 refundable deposit.

Take advantage of this inexpensive new service and save yourself the trouble of bursting around campus asking secretaries to type your term papers. That's easy to operate and there are a special service to you from the Student Government Association NOTICE:

Any people interested in helping to start a swim team and any former swimmers who would want to be on the team, please get in touch with Pat Hassett - Box 2287.

"Pickers" visit Riddle

PUTNAM

an already pleasant performance.

At night, however, my mind focused by the bright lights, I began to wonder what it was that made the Putnam County Pickens such a success. I asked myself, "What is it that makes the Putnam County Pickens such a success?"

After some thought, I realized that the key is not to group

the performers together, but to let them go their own way.

It is the individuality of each performer that makes the Putnam County Pickens such a success.

It is the individuality of each performer that makes the Putnam County Pickens such a success.

Flight Team to Sponsor Organization Day

By Jim Zurek
Avion Staff Writer

Attention all clubs, fraternities, teams, etc. . . . The ERAU Flight Team Club is sponsoring a Campus Organization Day to be held during the day on the 15th or 20th of February.

Each campus organization is asked to create a display which will be judged with all others. Our student activities office is offering a \$50 prize to the best display. Criterion for judging include originality, creativity, and effort. All the displays will

line the inner perimeter of the University Center and each should be manned by at least two members throughout the day.

Campus Organization Day will provide the student body and faculty an opportunity to become acquainted with the extracurricular activities available at Emory-Riddle. Additionally, each group has the potential of recruiting more members who may not have known about its activities, not to mention the added publicity.

Officers of each group should gather ideas for their displays from members and sub-

mit the ideas to the student activities office by February 5th or sooner. Displays should pertain to any aspect of your group's activities and goals. The student activities office assist in providing special

equipment and services. Anything goes (almost) so all groups, put on your thinking caps and get rolling! Further information will be dispatched as soon as possible. ALL campus extracurricular groups are highly encouraged to participate and be represented in the first Annual Campus Organization Day.

OPINIONS

EDITORIAL

Last Friday's ACB meeting proved to be exceptionally interesting. For the benefit of those not familiar with the ACB, allow me to explain: The Activities Communication Board serves as a place where the different branches of the SGA fee will be spent. The Avion, Phoenix, Radio Station (WERU), and social functions are all members of the ACB.

After a few hours of calm discussion (nobody threw anything) it was obvious that some of us were going to leave the meeting with somewhat less than what was anticipated.

The Radio Station was the major casualty. They requested \$5,823.10 and escaped with approximately \$1,500.00. This is a tentative figure, as the SGA Senate has the final vote on all budgets. It will be up to WERU to determine

just how to spend this money. Last Fall, the station operated on a budget of \$394.10. If they operate this Spring on a budget of \$500.00, they will still be able to put \$1,000.00 into their escrow account toward the possible future conversion to F.M.

If the Radio Station continues to put money into the escrow account, and the staff supports the leaders of the station, then we may see an F.M. station at Riddle in just a couple of years.

I would suggest that if WERU is interested in moving even faster toward this goal, then they start having as many fund-raising activities as they possibly can.

I wish them the best of

LETTER TO THE EDITOR

Dear Keith,

Ever since I took office last March, I've tried (with our much success) to develop a cooperative spirit within the Activities and Communications Board. The arguing and bickering over budgets has become an accepted format for all ACB Budget Meetings.

However, thanks to you and your staff this spirit of

cooperation may not yet be dead. The special effort the Avion made to present the lowest operating budget I've ever seen is indeed commendable.

May we all learn from your initial gesture. Good luck the rest of the tri.

Michael S. Jaworski,
Pres., SGA

cooperation, however, is boring and tiresome. There is very little joy, very little pay, and never any reward or satisfaction.

In the room where the machines and the workers are, it is violent and appalling. The workers are angry. They are treated poorly and are forced to work in sub-human conditions. They receive no respect and are looked down upon by their management; they are merely something to be dealt with. They are the ugly ones, the damaged ones, the ones that nobody else would hire to do anything else but what they're doing. On the factory floor they work hour after hour, day after day, and often, year after year. But there is much violence and unrest amongst the workers. Hourly wages are minuscule, conditions are poor, and the work is humiliating. In view of these facts, the workers are filled with hatred. The bosses oppress the workers, they skillfully degrade and dehumanize them. They use clever deceptions and scare tactics to keep them "in line". The labor unions are not much better; they're, perhaps, even worse. They cheat the workers by demanding high assessments and give very little in return. The unions also deceive the workers with their masterful usage of applied dishonesty. But it doesn't matter, for the workers are not really people, or at least not in the sense that one thinks of a person as being. The workers are, merely, animals, unimportant, insignifi-

cant entities, or the less fortunate part of the population who must serve the "gray gods" to make barely enough money to survive.

Was it that day he sat eating his lunch on the fender of his battered old car, in the battered parking lot with all the other battered old cars? Perhaps it was that day, in that instant when their eyes met, in that sudden moment he could see the rancorous stare of his clean well dressed supervisor, and he could have killed in that moment. Maybe it was the fact that he could never talk to that petite brunet who worked with "them". She was the best thing he had ever seen in any factory, and she was a great contrast to the other women with whom he worked. But in the factory where he works, just as in life itself, there exists different worlds, with him in one and she in another, and the two never associate. All these things make him immensely angry, but there is more to it than the rancorous stare, or the petite brunet, it's everything. He and the workers are not permitted to eat their lunch on the fine green lawn under the cool maple trees that make up the facade of their building. Rather, they must eat and rest in the back, in the hot dusty gravel parking lot, for they are the ugly ones, the damaged ones, and the pathetic ones, so they must remain hidden from view. It is the culmination of all these things that make his mind and thoughts turbulent, where he can not see humanity or love, only his own violence, and that immense hatred for those bastards in their three piece suits.

sky she passes overhead, and he looks up in silent prayer. It is that magnificent craft which is so unlike anything else of contemporary design. Oh that magnificent craft with her smooth delta wings sweeping back, and her dorsal fin curving upwards to form her rear appendage, her opposite end is bent downward towards the earth. That, he tells himself, is where I want to be, up there away from here. Up there, apart from the earth, where the air is smooth, like glass, and there are no feelings of violence or resentment, but only well being. It must be beautiful to be in an environment where conditions of disorder and vehemence do not exist. But, that magnificent craft, she could make me part of that world. This, he tells himself, is life at the bottom, and that is life at the top. Do the two ever intermix? Will the two ever intermix?

Still he will look up, and he will dream of a better day to come. When he, perhaps,

Keith Kollarik

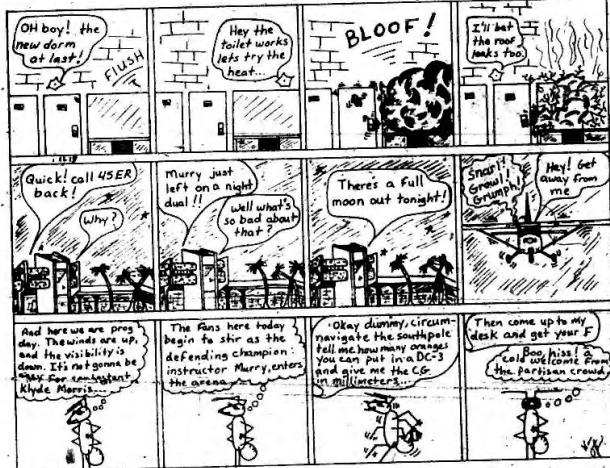

Greetings from the Bottom

By Joe Armetta
Avion Staff Member

In the room where the machines and the workers are, it is gray and dirty. The fluorescent lights reflect off the gray machines made grimy and dingy from the oil. The workers are silent and look sad, for there is very little joy in this room. There is no ceiling, just the rafters and the overhead lighting, the floor is of bare concrete. However, there is far too much pain and despair in this room; the workers are thousands of miles from a decent life, and rewarding employment. Unlike the men and women who command the great machines that fly overhead, the workers are confined to a life of immobility and very little freedom. But, escape from this room and other rooms like it, although not entirely possible, is not entirely

improbable. As long as people dream and believe in their dreams, there is always a way to escape and achieve higher goals, and for one particular worker, the dream of flight is strong that escape from this room has become the most important aspect of his life. At a table in the corner he sits waiting for the call to work. The other workers do not like when he sits, for they are jealous and envious of those who can sit during working hours. But, he doesn't care, for it is only a factory, and nothing matters in a factory, not even life. His job is a simple one. He supplies the factory floor with the materials needed to keep production moving. When production is moving, he can rest, but when production stops, he must work and continue working until the precious production lines are once again in opera-

denies may sign out. It will cost you \$1.00 per day to rent. A refundable deposit of \$10.00 also is required. A new Constitution, redesigning the entire structure of the SGA, is just about out of the oven and will be put before you for referendum shortly.

This SGA is also working on officially identifying areas on campus for future athletic use. Presently, the "campus plan" seems to be a "grab bag" for whoever needs a building or a parking lot first.

These are only some of the items we are working on. We intend to finish our tennis in a "blaze of glory".

This past Friday, the Activities and Communications Board (Avion, Phoenix, Radio Station, Student Activities) budget meeting took place. The purpose was to allocate funds to the four divisions of the SGA. As usual the budgeting results exceeded the amount available, but after several hours of "discussion" the budgets were worked out. These will now be presented to the SGA Senate (after review of the Executive Cabinet) for final approval. The results will be published in next week's issue.

Remember, if you need a typewriter, come see us.

will be at her helm, and there will be no more monochromatic gray, but only the colors of the earth and sky.

At nine thousand feet above the earth he is no longer violent and resentful. He is no longer subject to the chains of his class, but only the euphoria of flight. He is now the master of his ship, as he pilots her across the open sky. He can now experience all the sensations of freedom, as he looks out over the vast lonely sky, and his one companion are the sun and the clouds that form halos around it. Occasionally, in his mind, he goes back to the room where the machines and the workers are, where it is gray and dirty.

He will never come to love or accept that room. However, his hatred for that room is now outweighed by his reverence for the sky. At last he can say "greetings, from the top", but, sadly, he knows, there is another person back in that room who can only say "greetings, from the bottom".

In the clear blue autumn

WHAT'S HAPPENING? ON CAMPUS

The academy award winning movie "BEN HUR" will be shown in the University Center on Saturday, January 27, show time is 8:00 p.m.

OFF CAMPUS

The Charlie Daniels Band will appear at Peabody Auditorium on Monday, January 29, at 8:00 p.m. Tickets, available at Spec's Music in the K-Mart mall, are priced at \$6.50. The seating is general admission.

The Easter Seals Discothon to be held at the Wobius Mall is scheduled to begin at 7:00 p.m. on Friday, January 26. The event will continue until 7:00 p.m. on Saturday. For further information, contact Stacy Engerman at 255-4568.

MUSIC SCENE

By Dennis Lovency

Due to the ever prevalent popularity of music and the immense multi-million dollar music industry, which together keep people entertained 24 hours a day and the fact that this business is increasing exponentially as time continues, I'll be keeping you music enthusiasts informed of what's taking place within the field over the course of the trimester.

I'll be presenting some interesting historical facts, who's on top of the singles and LP charts for rock, disco, and country, which stores have the best record buys in the greater Daytona area, and several particular points of interest that music lovers wouldn't want to miss. From time to time, special research articles will be presented concerning the operation and production of local

radio stations and what the managing of a record store actually involves. This is not intended to be a technically oriented column but merely here to tune everyone in to the universal station of "Music". I hope you enjoy reading it as much as I do collecting and putting everything together.

Until next week, keep that music playing and that foot moving!

SGA MOVIE SERIES

PRESENTS:

BEN HUR (1959)

Producer: San Zimbalist

Director: William Wyler

Cast: Charlton Heston

Stephen Boyd

Jack Hawkins

Hugh Griffith

The Movie will be presented in the University Center on Saturday, January 27 at 7:00 p.m.

"The most tasteful and visually exciting film spectacle yet produced by an American company."

- Film Quarterly

"A remarkably intelligent and engrossing human drama. By far the most stirring and respectable of the Bible-fiction

pictures ever made... The pertinent theme of the story is appropriately and grippingly conveyed in some of the most forceful personal conflicts ever played in costume on the screen."

Boiley Crowther

New York Times

"A whale of a picture."

The best of Hollywood's super-

spectacles... The script is well

order, and its lines sometimes

sing with good rhetoric and

quiet poetry... sets a standard

of excellence by which coming

generations of screen spectacles

can expect to be measured.

The Running time for this

movie is 212 minutes.

Civil Air Patrol Concludes Banner Year

MAXWELL AFB, Ala. — Nineteen-hundred and seventy-eight proved to be a banner year for Civil Air Patrol (CAP) as the all-volunteer nationwide organization established a new record doing what it has been doing successfully for more than 37 years — saving lives.

During the final week of 1978, CAP units across the nation recorded six saves bringing the unique organization's total for the year to 91. The 91 saves are believed to be an all-time record for the official auxiliary of the U.S. Air Force. Records from early years are incomplete or nonexistent, but the highest number of saves recorded in recent years is 78, in 1968.

Civil Air Patrol was engaged in more missions (892 for 1978 compared to 789 for 1977) and flew more sorties (11,481 in 1978 compared to 8,431 in 1977). Flying hours for 1978 also increased with 24,800 compared to 16,004 in 1977.

The number of "finds" (search objectives located) in 1978 was 468, exceeding by 21 the number recorded in 1976 which was considered a record at that time.

For the third straight year, Colorado led the nationwide organization in lives saved with 28. Twenty one of these were accomplished in early December when rescuers battled extreme weather conditions to save the survivors of a crash of a commercial airline aircraft in the Rocky Mountains. North Carolina was next with 14 lives saved.

California flew the most missions - 100 - with Alaska, the next highest with 85. California also flew more sorties (1,375) and put in more flying hours (2,894) than any other wing.

Civil Air Patrol recorded the saves through air searches for and finding of missing aircraft, lost hunters, prospectors, boaters, horseback riders, children and the elderly; air evacuation of critically ill or injured persons; airlift of needed blood, medical supplies and personnel; and other humanitarian mercy missions.

In addition to its search and rescue operations, CAP also responded to request for disaster assistance from national, local and state officials. These included floods and flooding situa-

tions in Arizona, Kentucky, Missouri and Texas; snowstorms in Indiana, Kentucky, Massachusetts, Michigan, New Hampshire, New York and Ohio and a tornado in Florida.

During these calamity situations CAP supplied emergency communications, helped fill sand bags, assisted in the evacuation of families and household goods from numerous homes, flew surveillance missions over stricken areas, transported supplies and disaster relief officials and contributed a lot of hard work. In all, CAP volunteers contributed 1,650 man-days of work in support of disaster relief activities throughout the United States.

CAP maintains a fleet of light aircraft which it uses in air search and rescue work, for humanitarian mercy flights, in civil defense operations, and in other emergency and disaster relief activity.

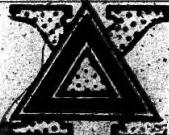

CAP is the only national organization specifically trained and equipped to perform air search. This all-volunteer member force flies three out of four of all Air Force-authorized search and rescue flying hours within the continental limits of the United States.

Air search and rescue and emergency assistance operations are Civil Air Patrol's most active missions, however, it is not totally concerned with such activities.

CAP is equally involved in promoting aerospace education, the study of aviation and space related subjects, for all Americans. Its cadet program, a process of leadership training and motivation for its teenage members, draws the enthusiastic interest of thousands of young Americans.

The more than 60,000 member organization has units in all 50 states, the District of Columbia and Puerto Rico.

National headquarters is at Maxwell AFB, Alabama.

Keep on Rolling

Just because there is no
snow or skating ponds does
not mean there is no winter
sport in Florida. In the sum-
mer the action is at the beach,
but, during the cold months,
it all happens at the roller
rinks, and it seems to be fun
for all, even the beginners.

It's good exercise, a good
place to socialize, and meet
people as you go round and
round to the "uptempo" tunes
of the DJ.

A free bus will leave the
University Center on Wednesday,
January 31, at 6:45 p.m.
to the Starlite Skating Center in
Ormond. Admission will be
\$1.50 which includes skates
for the three hours of skating.
The bus will return at 10:15.

If you get a gang together,
there's bound to be a bunch of
smiles, so sign up in the Stu-
dent Activities office if you
need transportation, or else
just meet us there.

(P.S.) They have great cherry
pop on tap).

Do you want to fly?

If you're always wanted to fly... Most of us remember that
feeling... and for a lot of us it has never gone away.

You're in luck. Air Force ROTC can set you winging. Our Flight
Instruction Program (FIP) is designed to teach you the basics of
flight and introduce flying lessons in light aircraft at a student-
operated flying school.

The program is an EXTRA plus to cadets who can become Air
Force ROTC Cadets. Air Force ROTC Team during the senior
year in college, it is the first step for the career path is going on.
To Air Force Jet pilot training after graduation.

Air Force ROTC also has a scholarship program to pay for books,
fees, and tuition, along with \$100/mo. This is reserved
for the cadet who wants to get his life off the ground... with Air
Force flight. CAPTAIN RICHARD H. MCGRAW

ARNOLD AIR SOCIETY
BILL ROSS WILSON, SS.

By Allan Matzick, AAS Commander

I hope everyone who attended last Friday night's pledge party at Snappinger had an easier time recovering than I did! These things are getting a little crazy lately. A special thanks goes out to Russ Severino for sending the Pizza, that everyone really enjoyed. And don't forget the pizza party this Saturday at 6:00 at Mr. Tee's for all pledges and members.

Arnold Air members are planning a full schedule of conferences, dinners, and service projects for the corps, March of Dimes, and Division of Youth Services, among other activities. If you would like to become a part of all this see Tim Robinson, John Maxx, or myself as soon as possible.

SCUBA CLUB NEWS

By Jim Dunlea

Hello members, Last Wednesday's meeting showed a fine turnout. On hand we had some new members and a few people looking the club over.

Those people that showed interest in the club and sat in on the meeting; you have viewed the general format of our club. With what you have seen, I believe that you'll agree we can accommodate your water-sport interests.

So come on and join. We like to see new faces and you must admit, at \$1.25 a month "The Price is Right."

The Club held it's office elections for this semester. Congratulations to the newly appointed office officials. "May the manure of a thousand whales fill your regulators."

After the usual rigamarole of nonsense, the club settled down to hear V.P. Dave Russell give an informative presentation on diver's hand signals. Dave is looking to standardize these signals within the club. It is to your advantage, "divers," to

almost immediate use of the new "Leak?" signal. Very funny Ron.

Also, a member brought in a fantastic assortment of sea shells which he retrieved from the waters of Okinawa, Japan. Within this colorful collection were a few extremely rare, valuable shells. Most of the members and a "bucketful" of questions for the collection's owner were given. Thanks for allowing the club to view your collection.

This past weekend, some of our divers ventured to the forbidden lands of Peacock Spring. "Forbidden" is its title because it is private property. The cavern makes for scenic diving and most members camped out over the weekend.

For this upcoming weekend, the proposed dive schedule calls for an ocean dive. As with most of our outings, final plans are made the Wednesday before the scheduled event. Anyone planning to attend should try to make Wednesday's meeting.

As always, anyone interested in taking a look at the club can drop in on the Faculty-Staff Lounge any Wednesday at 6:00 p.m.* See how we operate; if you enjoy swimming, you'll like the club.

*See everyone Wednesday.

AFROTC

By Oko Usan

The Air Force ROTC wishes to welcome everybody back to school this Spring. The corps began with some new ideas and outgoings. Things are changing rapidly. Things are changing rapidly. Things are changing rapidly. The corps are bent on giving the corps a completely new outlook. This article undoubtedly came from the new group commander. Date Faust whose slogan is "Let's stick together and get things going the way they should." His two top aides, Frelinger and Reda are already geared into the system and the coordination is almost perfect.

On Friday, the 12th January, most cadets braved the cold and rain as they flock to the trailer for a social welcome by the corps and settled down to hours of eating and drinking.

Last week on Tuesday, things kicked off in earnest as the POCS are trying to get a few things sorted out in preparation of some upcoming events. With more cadets joining the corps both as GMCs and POCS the bulk of work gets heavier. Over at the command squad this trimester is an unusual team with Kitty Blasdel shouting her head off as a female flight commander. All these are geared towards the field day competition against University of Central (formerly FTU) coming up shortly. With the new attitude of

"either we do it or die with it", we hope to carry the day.

Also coming up shortly is the physical fitness day, the aerobic run, when all male cadets must breeze through 1 1/4 miles in 12 minutes to qualify while the non-males must do it in 14 minutes 24 seconds to qualify.

The entire detachment is now very busy trying to get things set for the base visitation from Maxwell Air Force base, Alabama, of the Inspector General. I use this opportunity to welcome the Inspector General to the detachment and wish him a successful base visitation.

WETS

By Pat Hassett

The first meeting of the trimester was held in the Common Purpose Room on Tuesday night. Among the items which were discussed was nominations for Office of Athletic Director, Book Store Manager, and Avion Writer. Later on, a suggestion to shut down the book store because of lack of interest by club members was made and tabled.

Some members said the bookstore lost too much money mainly because of recent thefts. It was also agreed on that if we had a security force worth a shit the problem would have never evolved.

Initial plans and a committee was set up to get things in gear for the Easter Regatta. Yes, another floating drunk down the river this year!

A new way to bring in new members is for continuing members to bring in another vet and his renewal fee is only \$7.50. Not bad, huh? That guy or gal you drink a beer with or that sits next to you in class, ask them, Hell, drag them to the next meeting.

Associate members voting was held off until next meeting.

Last but not least - our semi-annual welcoming party is this Saturday at Cypress Village Clubhouse this Saturday at 8:00 p.m. Be there!

MANAGEMENT CLUB

By Richard Belotti

The Management Club will hold its first dinner meeting at 7:00 p.m. this Friday, January 26th, at the Chateau Vivon. Our guest speaker will be David Schoathauer, Vice-President of Landrum and Brown. Reservations can still be made by contacting Gwen Holleboe through Box Number 2793. The buffet dinner is \$4.70 per person and casual to semi-formal dress will be appropriate. We are looking forward to a good start this Friday and we hope to see you all there.

The Management Club is still in need of someone to take pictures at its activities, this semester. If you have the equipment and can devote a few hours of your time each month to us, we would appreciate your help. If you are interested, please contact me through Box Number 2566.

I should also mention that the club would like all its members to submit their dues before the 16th of February.

FLIGHT TEAM

By Dan Miltac

E-RAU Foxtrot Tango is rolling! At our last meeting a large turnout along with a hint of enthusiasm combined to form the atmosphere of a winning team. Among the items discussed were fundraising projects, club activities, and a general rundown of the events the team participates in during competition.

If you are one of those Riddle students who has not heard much about the flight team lately, join the club! The Flight Team needs dedicated participants who are willing to expand their aviation skills and interest. Our meetings are on Thursdays at 7:00 p.m. in the Common Purpose Room (CPR). See you on Thursday.

FRATERNITY CORNER

By Tom Moore

This was an excellent week for Sigma Chi and those who came to our rush party. On Friday the brothers were in full force at the pub for happy hour which later carried over to the Fraternity House for more beer and fun. We all hope that Scott Reiter had an enjoyable ride home after the party! During the smokin' we had the chance to see Scott Ekey sneak out through the back yard but we can't forget Glenn White. What's it like at six o'clock in the morning... in the parking lot after a good party? Thanks to the chapter for helping out with rush this week and good luck to Don Miller with the prospective little sisters. Once again any girls wishing to be little sisters call 252-2277 or stop at 520 S. Ridgewood Ave. and ask for Don Miller, little sisters chairman, anytime!

Last Sunday was another good day at Sigma Chi when social functions put on an excellent superbowl party; thanks Doc. (Mike Flapp). We had beer, hamburgers, hot dogs and popcorn while having one hell of a good time watching the game. Which one this weekend?

This weekend is the Easter Seals Disco-thon at the Volusia Mall which we are giving 100% participation while Tom Moore and Terri Hether dance for 24 hours. We'd like to see everyone stop by and help with support for all the dancers in the event.

We are located at 520 S. Ridgewood Ave. (US 1) and our phone number is 252-2277. Please feel free to stop by or call anytime for information on Sigma Chi and to see what we're about.

Alpha Eta Rho

The Rush party of the Spring semester, last Saturday, turned out to be very successful! Some 60 people were at the River Run clubhouse sampling Cheryl's secret recipe punch (which was very effective!) And the rain outside did nothing to dampen the spirits of us inside! This weekend there will be a caravan down to Lakeland to see the Experimental Aircraft Association's Fly-in! Should be both interesting and fun!

Anyone interested in finding out more about our organization and pledging, please come to the meeting tomorrow, Thursday at 8:00 p.m. in the Common Purpose Room of the University Center! Our fraternity has a simple and inexpensive pledging process, yet the rewards are lifelong! You can get together with people interested in all fields of aviation and take your love of flying above and beyond the ordinary persons!

The Sigma Phi Delta Open House last Friday seemed to have caught many of you unaware. Those of you who missed the extravaganza were sadly unable to partake of the 3 kegs which we Engineers had provided for your enjoyment. None the less, we rose to the occasion and demolished the traditional 40 beers, with little reservation, aided by those who did take the time to learn more about us.

Some of the highlights of the evening included John and Scott's recital of the pledge of allegiance, and a small fire next door. (There were no injuries and little damage involved.) However, the evening hadn't REALLY begun until Oz and Keith pitched a keg through Klingon's second-story window, Animal House style. The keg burst through the pane of wood and glass with a splintering crash and tumbled to the earth below in a glittering shower of glass. Yes, we had a great time!

This Saturday (ENGINNEERS TAKE NOTICE!!!) our invitational rush party is being held at the house (Ridgewood Ave.) at 8:00 p.m. If you need a ride, just call us at 252-2374, and we will be there in no time. Included in the provisions for this party (you don't want to miss it!) are a band, food and an open bar. That means you can come, learn about us, and talk with us as you enjoy the Saturday night activity that you may (or may not) be used to! All of you young ladies are welcome as well - why not look into our fraternity with no obligation entailed? All in all, the evening promises to be another entertaining, informative evening for Delta Chi.

Here is info of our membership. If you'd like some information, just ask one of us!

By P.F.

Actives of Sigma Phi Delta: Oz Alford, Jon Biedel, Keith Columbus, Pat Fazely, George Frawley, John Hawley, Dave Henry, Junichiro Iant, Pete LaPine, Dennis Loveloy, Steve McKenna, Tony Phillips, Scott Resivo, Chris Slaney, Hal Scribner, Bill Sillman, Bob Smith, Mike Steininger, Gary Stetler, John Stokes, Rich Swandy, Jerry Walker with Little Sisters: Sally Silliman and Marsha Luoma.

As far as Sunday's meeting is concerned, ideas were discussed concerning various possible public functions we may be sponsoring! Keep your eyes and ears open for further notices on Sigma Phi Delta car washes, parties and other more fascinating activities. As was said before, we have big plans this trimester!

The little sisters request your support as they sell some beautiful scented candles which really have to be seen to be appreciated. And the price is right as well - \$3.00 without pedestals, \$3.50 with them! They all come in boxes suitable for gift giving, and I'd encourage you to look into this opportunity as soon as possible! Just contact any of us for more information.

The brothers are reminded that clean-up is at 10 AM this Saturday. Mandatory attendance; all are expected to arrive early in the evening as well. Friday is a bus night, and Saturday will be showing the slides he took last trimester. The articles for the newsletter HAVE to be given to me no later than Sunday evening. Please don't forget.

Welcome back everybody from everyone over at Delta Chi. 538 Ridgewood Ave. As you remember in our last episode, 14 anxious pledges were awaiting brotherhood. Initiation proved to be a special time for all. Afterwards however, most of the brothers were bit by either the cold or the bug... Hope you're feeling better fellas.

On the subject of rush: there will be a table strategically located in the U.C. able to answer all of your questions about Delta Chi! If you can't get to the table, contact a brother or feel free to call us at 252-9429. We're really interested in your future at Embry Riddle and hope you consider Delta Chi a friend in

the business. We see fraternity life as the key to a fulfilling college education. So Come over. We'll help you with any problem you might have. We would like to have you as a part of us.

Hey, free beer this Friday night at the House. You can't beat that! Plus you can find out what Delta Chi Fraternity life is all about. That's all at the Open House this Friday at 8:00 p.m. "Good times are sure to be in abundance as the spirit flows freely."

Again, if you have any questions or need a ride call us at the phone number. We'd like to meet you.

Until next week... keep the blue side up!

RIDDLE SPORTS

SPORTS UPDATE

By JPTC

WHAT! Embry-Riddle has
no sports! I'll have you know
our Athletic Director has an of-
fice bigger than mine. Of course
mine is a basket, but . . . This
trimester there are eight pos-
sible sports being offered here.
A token amount of credit is
offered for most of them.

Baseball Stars - It may not
be too late to try out for the
Varsity Baseball team here at
E-RAU. Contact Coach Joe
Golinski through the Athletic
Director or go to a practice
session held at 3:30 weekdays
at Riddle Field, near the Expos
Training Complex. Your help
is always welcome!

Stunted Baseball Stars -
Maybe softball is the game for
you? Today at 4:00 p.m. there
is a meeting for coaches or team
representatives alone in the
Administration Building at the E-RAU
Sports Training Complex. Your help
is still needed. Call 258-6936 or contact
E-RAU box No. 5858.

FORE - All you prospective
Arnie Palmers, contact George

Smith in the Accounting sec-
tion of the Administration
Building about the E-RAU Varsity
Golf Team, and tee off.

A KICK IN THE HEAD -
Learn the art of self-defense
with Keith Gallagher in the
CPR every Tuesday - Thursday
from 5-7 p.m.

MEN'S VARSITY TENNIS -
holds practice weekends from
2-5 at the Tennis Courts. Con-
tact Coach Carl Brown for in-
formation.

GIRL'S TENNIS - Coeds,
contact the Athletic Director
for further information.

INTRAMURAL VOLLEY-
BALL - contact the Athletic
Director for information.

SWIM TEAM - As of now
there is not E-RAU Swimming
team or diving team. If you are
interested in starting a team,
contact the Athletic Director.

The Athletic Department
is located in the Dorm Annex
located near the Tennis Courts.
The CPR is located directly
across the lobby from the Post
Office in the University Center.
C'mon students! Let's show
the Administration that we really
are interested in Physical
Education here at E-RAU. At-
tend all our Varsity home
games, matches, opens, and
tournaments and show E-RAU
spirit. Intramural sports serve as
a convenient outlet for pent
up anxieties and frustrations.
Failed another Prog
Check? SMASH the seams on that
softball. You can't get out of
your housing contract? Spike
that volleyball. Have Fun.

J.P.T.C.

SOFTBALL

There will be an organiza-
tional meeting of all team
captains on Wednesday, January
24th, at 6:00 p.m. in the
Common Purpose Room.

Students will form their
own teams and also the cap-
tains of team representatives
will attend the meeting.

Players must be turned in
at the meeting and only teams
with completed rosters will be
scheduled for league play.

All games will be played
on Sunday.

Rosters may be picked up
in the Student Activities Office.

GOLF

E-RAU TEES OFF NEW SEASON

By Rick French

With another trimester well
underway, the E-RAU Varsity
Golf Team is once again gearing
up for a good season. We hope
that this trimester will be as
good as or better than last
Fall's.

After dropping two close
matches to Stetson University, the
Eagles' made their way to
Miami where they faced 17
other schools. When the shoot-

ing ended E-RAU had finished
in 12th place. This was the best
finish the Eagles have ever had.

We are undertaking a more
extensive schedule this Spring.
We plan to have at least four
matches with local colleges. In
addition, E-RAU and Stetson

Tyouts should begin next
weekend.
