First Black Four-Star General Remembered

By Debbie Eason
Aeron. Staff Reporter

Through a timely searching of records and registration by the Brothers of the Wind, General Equal, Duke D. James, Jr., the first black four-star general in U.S. history, was honored this past Sunday, February 28, here at Embry-Riddle.

Reluctant guests included Mr. James, the wife of the late Duke D. James Sr, Capt. J. P. Fordham, Capt. J. P. Fordham, U.S. Navy, and Mr. James, the late Duke D. James Sr, Capt. J. P. Fordham, U.S. Air Force, and Mr. James, the late Duke D. James Sr, Capt. J. P. Fordham, U.S. Army.

Guests from the military included Mr. James, the late Duke D. James Sr, Capt. J. P. Fordham, U.S. Navy, and Mr. James, the late Duke D. James Sr, Capt. J. P. Fordham, U.S. Air Force, and Mr. James, the late Duke D. James Sr, Capt. J. P. Fordham, U.S. Army.

Duke D. James, Sr., who had served in the U.S. Army and died in 2017, was posthumously honored with a special tribute at the ceremony. The event was attended by family members and friends.

RIDGE RIDE BOARD NOW ESTABLISHED

The Ridge ice team has finally arrived. Those of you who are not familiar with the team, here is your chance to get to know them and their individual talents.

The team has a map of the U.S. and Florida on the wall and they will be here until the end of November. They have a variety of ice tools, including axes, saws, and chisels, that they use to cut and shape the ice.

All of the members have a unique way of working with the ice. Some of them are skilled in carving intricate designs, while others specialize in creating functional sculptures. The team is committed to sharing their knowledge and passion for ice sculpting with the public.

E-RAU Research Collection Relocated

The E-RAU Research Collection has been moved to a new location in the Library. The collection has been moved from the fourth floor to the second floor of the library. The move is part of the library's ongoing efforts to improve access to its resources.

INTERNATIONAL DANCE INSTRUCTION PROGRAM

The International Dance Instruction Program offers a variety of dance classes, including ballet, contemporary, and jazz, to students and community members. The program offers classes for all skill levels and age groups.

ATTENTION: Please note the Z-RU logo on your badge when entering the building. This will ensure that you are in the correct area.

The Department of Student Life and Development is looking for volunteers to help with the program. If you are interested, please contact the Office of Student Life and Development at 386-704-4444.

The new location is on the second floor of the library, along with the Z-RU logo on your badge when entering the building. This will ensure that you are in the correct area.

LETTER TO THE EDITOR

Dear Editor,

Recently we had the difficult task of judging the Final Round of the 9th Annual Student and Organization Day. We would like to take this opportunity to congratulate the RAU Flight Team and Student Bureau, whose Prime Sponsors for sponsoring this event and to thank the Student clubs/organizations for their excellent participation. Our congratulations also go out to the freshmen and the evaluation of each group was decided by the majority. We would like to congratulate the RAU Flight Team and Student Bureau and acknowledge their outstanding performance.

Keep up the good work, we hope next year will be even more difficult when all 33 organizations decide to participate.

Thank you,

Joe Albertini
Pascale Meyers
Ready Keith

WEBU RIDDLE RADIO

Dear Editor,

I would like to clear up any misconceptions held by you and other students regarding the after-dinner entertainment for the 9th Annual Student and Organization Day.

On Saturday the 9th Annual Student and Organization Day was held at the University Center. The event was a great success, with many students attending and enjoying the various activities available.

The after-dinner entertainment featured guest speakers and a dice game. The speakers were very engaging and the dice game added an exciting element to the evening.

We would like to thank all the students who attended and participated in the event. It was a great opportunity to enjoy the company of friends and to socialize.

Thank you,

Kludge Morris

LETTERS TO THE EDITOR

In regard to the recent article on the local newspaper, we would like to express our support for the concept of reducing student debt.

We believe that the money raised by the RAU Flight Team and the Student Bureau is a significant contribution to the overall financial health of the university. We encourage all students to participate in these activities and contribute to the success of the RAU Flight Team and Student Bureau.

Thank you,

Kludge Morris

The Problems With 'Plastic Money'

By Bob Windows

If you are a student who wants to obtain a credit card, you may find yourself subject to competition from several credit card agencies. However, there are still some considerations you should take into account when you apply for a plastic money card.

Cherven, Sears, American Express and Mastercard are all firms in the plastic money field that makes it easier for you to obtain credit. Credit cards are issued at no cost to the user, and are used to provide a line of credit for students.

Upper-level students think that they qualify for a credit card because of their scholarships and loans. However, these students have different expectations of their credit cards. The financial aid office will not consider your credit card as a loan, but rather as a line of credit that you can use to purchase items that you can afford.

The main drawback with a credit card is that it is easy to overuse. Students often use their cards to purchase items that they cannot afford, and end up accruing large debts.

The American Express Club offers a special application for students, which is "Chip's Credit Card Without Limits." The application is available at the main office of the American Express club, where students can apply for the card. The credit card requires a $1,000 deposit, but American Express will lower the requirements to $500, for seniors with past credit history.

The main advantage of having a credit card is that it is easy to use. You can purchase items that you cannot afford, and end up accruing large debts.

AVION - In The Black and Doing Fine

The Aviation Newpaper staff attacked their fellow students at Stein and Xuan: "We are not a resource to the community, and we are not a resource to Stein and Xuan:" Several students attended the meeting and were angry with the Aviation Newpaper staff for their comments.

The Aviation Newpaper's editor James Newpaper stated that the Aviation Newpaper staff was not a resource to Stein and Xuan: "We are not a resource to Stein and Xuan," and that the Aviation Newpaper staff was not a resource to Stein and Xuan.

As an incentive for the continued good work done by the Aviation Newpaper staff, the staff will be given $750 per year, totaling $750 for the entire year. The money will be used to purchase items for the Aviation Newpaper staff.

The Aviation Newpaper's editor James Newpaper stated that the Aviation Newpaper staff was not a resource to Stein and Xuan: "We are not a resource to Stein and Xuan," and that the Aviation Newpaper staff was not a resource to Stein and Xuan.

Getting an ASE-Sea Rating Can Be Fun

After the figure of the E-RAU's commercial pilot certification course, why not enjoy getting a rating that, although not too use-
ful, is a great deal of fun. The rating I'm talking about is the Airplane Single-Engine Sea. The only prerequisites are a private pilot certificate and an enthusiasm sufficient to fly. If you're not sure your enthusiasm is up to par, once around the lake will boost it to a peak you have never experienced if flying be-

Before the initial flying several years ago, I can vouch for it as my first solo. Looking back all I had to do was to listen all your flying and you'd be flying, and the same feelings as before.

The flight school (Shark-Of-Tail) takes you to about 300 feet above the water around the Waterhamen, Orlando area. The maximum altitude you fly at during the course is about 300 feet, except when practicing stalls and stall recoveries. When you climb high enough to touch the ground, you'll find the learning in the sea plane is flanked on both sides by the wind, much like a seaplane. Another thing new to some of the pilots on their Single-Engine & it's not just like the sailplane. The E-RAU is only tenable by modern day stan-
dards but the feature that it has is the ability to stall, thus giving the instructor and the student an opportunity to learn as well as 'practice'. The student also learns from the instructor and has for an instructor panel, the back of the instructor's seat. So it mental. If the doors are open, they really can add the instructor panel. If the doors are open, they really can add

PLANE CHECK NOTES

When is a Control Zone effective? What does the application of the "Control Zone" mean? If you did not answer "always" and "depending," respectively to these questions, then you probably belong to a group of instructors who have been asking AIRMAN questions on plane checks of late. For it is a fact that a control zone is always in effect, regardless of weather conditions, unless it is specifically designated as only effective during certain hours. When a control zone is so designated, the border will be indicated on the sectional chart, and reference to NOTAMS will be made such as the note at the southeast edge of Sanford's control zone which reads "FPL, 04/05/03/04/05 1100." An example of the hazards that a control zone is to be effective when the weather is flown at 1000 feet or below if it able visibility can be seen by examination of the control zone around Central Beach airport. In fact, the VFR pilot operating in the area near the 67 miles west of the airport with 1,000 feet or below if it able visibility. How the "control zone" means to be designated as only effective during certain hours. When a control zone is so designated, the border will be indicated on the sectional chart, and reference to NOTAMS will be made such as the note at the southeast edge of Sanford's control zone which reads "FPL, 04/05/03/04/05 1100." An example of the hazards that a control zone is to be effective when the weather is flown at 1000 feet or below if it able visibility can be seen by examination of the control zone around Central Beach airport.

What can you do at Northrop?

What can't you do:

Not what you can't do is more important than what you can do. That's the way we teach. Northrop's training programs stretch the whole range from basic engineering to advanced jet pilot training. We have the best facilities and the best instructors available. But our students are what really count. Northrop has trained thousands of men in top jobs in industry. You can be one of them if you're ambitious and willing to work hard.

In our last meeting the atmosphere was very one of disagreement with the meeting being advertised as one in which things are progressing... It seems apparent you should up to start training for the general overall terminal, aircraft recognition, flight control, and noise abatement procedures.

AFROTAC

By Oba Usen

This is the day! The national contest is coming with us here at the University of Central Florida this Memorial Day. The National contest will be held at (date and time). Everybody is invited to come and join us for the event. It is very exciting and everyone is expected to be there.

The event is not only for the pilots but also for all those interested in aviation. It is an opportunity to learn more about aviation and become more involved in the sport. The event will be held at the University of Central Florida and everyone is welcome to attend.

BICYCLING

Thanks to everyone who participated and showed their support. As we look ahead to the future, we are excited about the possibilities and the growth of cycling in our community. We are planning some new events and activities to keep everyone engaged and involved. We hope to see you all out there on the roads and tracks.
E-RAU Allumcon Becomes DBA Operations Employee

Dennis B. McLane graduated in April of 1976. He majored in Airframe Engines and was a member of the Beta Alpha Zeta Squadron. When he graduated, he joined the Daytona Beach Regional Airport as an Airport Operations person.

Dennis has been with the airport for almost a year. During this time, he has been a valuable asset to the airport. He has been involved in the day-to-day operations of the airport and has contributed greatly to its success.

Dennis has been responsible for the maintenance and repair of all airport equipment, including the hangars and runways. He has also been involved in the planning and development of new projects at the airport.

Dennis is an active member of the community and is involved in many local organizations. He is a member of the Daytona Beach Kiwanis Club and is a volunteer at the local hospital.

Dennis is a dedicated and hard-working individual. He is a valuable asset to the airport and the community.

EAGLES: 2nd At Pebble Creek

By Dave Madsall

Embry-Riddle bowling rolled into its 7th week last weekend and there were the usual sharp shooters out there. Bruce McDonald, bowl high game of 217 and right trained his work with 199. Bruce and Mark were among a group of bowlers involved in a couple of 200s.

High average went to Bob Perry with a 587, his rolled nine game of 210 and 229. Larry Thibault was runner up with a 571 series. Earlier Lawson exploded with an outstanding 409 series and a high game of 211. That was some consolation for a bowler who had low games (two weeks ago with a 50.

I was asked tomorrow after this week how long our regular reporter will be away on his pleasure trip. I don't know how long his trip is he bought a one-way ticket.

This week's unofficial bowling standings:
Two Miss 6A: Horak 195 West Wingate 195
Three Bed: 9-0
Surprise: 15-13
Gutters: 11-13
Opis: 1-15
Sundries: 11-13
Rip Express: 13-15
Bar: 6-12
Gutterball: 11-10
Pete A-Girl: 6-10
3 Points: 15-12
Classics: 15-12
301 Club: 14-10
DCF: 15-12
Magnum Force: 15-10

RICK FRENCH scored 50 during the past weekend's games at Pebble Creek. E-RAU's Golf team placed 2nd in the meet.

Photo by Chuck Henry

E-RAU recently travelled to Tampa to match golfing skills with three other schools on the championship Pebble Creek Golf Course. It was the first of a series of meetings against Stetson, St. Leo, and PFF. E-RAU finished second with a team score of 318. Other scores were Stetson - 206; St. Leo - 217; and PFF - 332.

Bryan Winson once again lead the team with a fine 4-over par 80. Bobbie Jerry Reynolds was second with 92. Rick French and Dan Bedford finished with 90 and 91 respectively to hold the team in the tough competition. With only three losses left.

E-RAU was leading the field at 11-over par. Unfortunately, the weary 7th of the long trip and tough course finally took their toll. E-RAU finished 2nd in the meet. St. Augustin, Fairview for a railway match. Unfortunately, the lead will be taken by the services of "Tidegut" Don Bedikoff. He finished with the best score on the weekend. The Eagle golf tournament will be a battle match on March 8-9 at Daytona Beach Golf and Country Club. Everyone is encouraged to come out and watch the Eagles wind up their fall season in many years.
