THE OPINIONS EXPRESSED IN THIS PAPER ARE NOT NECESSARILY THOSE OF THE UNIVERSITY OR ITS STUDENTS, AND REPR

LETTERS TO THE EDITOR

In response to the recent article regarding the serious student demon

Let us not forget the importance of maintaining a peaceful and prosperous society. The recent events should serve as a reminder to all of us that we must work together to resolve our differences through dialogue and cooperation. Let us strive for unity and peace in all aspects of our lives.

Let us remember that our actions today will have consequences in the future. We must choose to act in ways that will promote the well-being of our community and the world.

Let us be the change we wish to see in the world. By living with compassion and understanding, we can create a more harmonious society.

Let us not lose sight of the values that we hold dear. In a time of division, let us hold on to the principles that bring us together.

Let us support our local businesses and community organizations. Their contributions to our society are invaluable.

Let us be grateful for the opportunities that we have and work to ensure that others have access to similar opportunities. Let us be mindful of those who may not have the same privileges.

Let us not forget the lessons of history. By learning from the past, we can avoid repeating the same mistakes.

Let us stand together against any form of discrimination or prejudice. We must strive to create a society where everyone is treated with respect and dignity.

Let us be kind to one another, for it is through kindness that we build strong relationships and a strong community.

Let us not hesitate to speak up for what is right. Our voices can make a difference in creating a better world for all.

Let us not forget the importance of education. By investing in our education, we can gain the knowledge and skills needed to make a positive impact on our society.

Let us be compassionate towards those in need. Whether it is through volunteering or donating our resources, we can make a difference in the lives of others.

Let us be mindful of the environment and work to protect it for future generations. Our actions today will shape the world of tomorrow.

Let us not lose sight of the importance of family. Our families provide us with love, support, and a sense of belonging.

Let us be open to new ideas and innovation. By embracing change and progress, we can create a brighter future.

Let us be the change we wish to see in the world. By living with compassion and understanding, we can create a more harmonious society.

Let us support our local businesses and community organizations. Their contributions to our society are invaluable.

Let us be grateful for the opportunities that we have and work to ensure that others have access to similar opportunities. Let us be mindful of those who may not have the same privileges.

Let us not lose sight of the values that we hold dear. In a time of division, let us hold on to the principles that bring us together.

The Problems With 'Plastic Money'

By Bob Window

If you are a student who wants to obtain a credit card, you may find one easier than you think. College-student credit cards are marketed relentlessly and are available even to high school students. And although college students may apply to participate in field and industrial science projects, those times are no longer as common as they were in the past.

The American Express Co. has a special application for students called "Don't Let Lack of Credit Hold You Back!" The application is available in student unions and other places where students gather. If you have a job, you can apply for a student credit card. The annual income requirement is $3,125, but American Express will accept the requirements to 5,800 for seniors with good credit scores. Representative said. Approximately 200 students have been issued these cards. The annual fee is $35, but if you carry a balance of $350 or more, the fee is reduced to $25. The cardholder receives a gift card with each new card. The maximum credit limit is $750, but the credit limit cannot exceed the $800 limit. The cardholder also receives a $10 gift card with each new card.

The Explorer Club Grants Available

The Explorer Club has two main objectives: to help fund new generation of explorers and to establish a foundation of young men and women dedicated to the advancement of knowledge and truth. The club is run by students who are interested in exploring and learning about the world. The club offers grants to help fund the exploration of new areas and the establishment of new foundations.

AVION - The Black and Doing Fine

The Avion Newspaper staff attended the annual meeting of the Southern States AIAA at St. Louis and met with other members of the student newspaper. The staff decided to hold a contest to design a new logo for the newspaper. The contest was open to all students and the winner would receive a $100 prize. The staff also discussed the possibility of starting a new publication, the "Avion News," which would be published once a year. The staff also discussed the possibility of starting a new publication, the "Avion News," which would be published once a year. Getting an ASE-Sea Rating Can Be Fun

After the figures of the E-RAU's commercial pilot certification scheme, who would you enjoy getting a rating that, although not too use- ful, is a great deal of fun? The rating I'm talking about is the Airplane Single-Engine Sea. The only prerequisites are a private pilot certificate and an enthusiastic attitude towards flying. If you're like me, your enthusiasm is up to par, once around the lake will boost it to a peak you have never experienced in flying before.

Douglas Corporation and host an open discussion to answer: Do you maintain your private plane?

- MR. LARRY CARLSON invites all interested persons to attend a meeting on Friday, February 20, and 21, from 2 p.m. to 5 p.m.

Mr. Larry Carlson, chief design and support engineer from the E-RAU's Douglas Division, will be present. He will discuss the various aspects of flying a single-engine airplane, focusing on the Sea rating.

Waterbeds are strong.

Of course we don't recommend parking your car on a waterbed. Waterbeds were developed for only one reason. Giving you the ultimate in sleeping comfort. A warm, comfy, fortifying night's sleep is what a waterbed is all about. They come in a variety of sizes and styles, but more important, when equipped with a SafeWay waterbed heater, waterbeds give you a great night's sleep. To see a waterbed . . . see us.

We do this to drive home a point.

'SUNSHINE' Comes To Riddle Bookstore

Last Wednesday marked the day the exclusive autograph party in the bookstore. The party was honoring John McCollister's recently released "BUZZ." McCollister was chosen along with the Nationalmuseum of the United States Air Force by the editors of the book.

At the party, McCollister was given a huge book of his autograph, which he signed, "I hope that when people read this book, they will remember the things that I have written." He also signed a copy of the book for the bookstore staff, who put together a special autograph party.

The "SUNSHINE" Book is still available at the bookstore and is a great gift for those who love aviation, history, and aviation history in general.

Delta Chi

By Ed

Most all you kids are, or the Delta Chi frats in the past few weeks. From the 15th to the 15th we worked at the race track making a living...make sure to go well-har.

Meanwhile, Greg Diel, Tom Lattie, Carl Halloway, and Chuck Breckhaupt journeyed to Gassaway for the regional convention. Many things were accomplished at the convention including Tom's acquisition of a female. You had he doesn't remember too much. At least you got her address, right Tom?

Daily plans to receive the "Chi" Award for last week. It seems that he wanted a few tickets for some bro's. Personally, I don't believe that naked the covered "Chi", but since we can't much happen during the week of February 15th through the 15th I don't believe the promise that the award ticket can be worth anything.

Easley Riddle Aeronautical University

February 20, 1979
By Dan Miller

In our last meeting the atmosphere was one of total disinterest with the meeting being held in a hall which was completely empty. It seems that people have finally given up trying to start training for the upcoming airmail contract. After the meeting it was decided that we would all meet again on Thursday at 7:30 p.m. in the CBO.

AFROTC

By Ola Umm

Today is the day. Our meeting will be held at the University of Central Florida at Maitland High School playground beginning at 5 p.m. in an annual Field Day Competition. It promises to be a very enjoyable day as both partner and team activities will be featured. Everybody is invited to come and join the fun.

The competition is only open to the airmail companies, although some of the members of the senior class will be represented. We are not in the business, but we are going to try our hand at it. There will be no scoring, of course.

The competition is being sponsored by the Florida Airmail Association and the senior officers of the school will be assisting.

Capt. Lloyd will be there to give us our challenge to the team. As a tribute to the sports event, we will introduce you to your senior Capt. Lloyd.

Capt. Lloyd was commissioned in 1919 through ROTC while obtaining a B.S. degree in Psychology/History from the University of Florida. He was commissioned in the United States Navy in 1925 and served as a midshipmen officer for 16 years in each branch of the Navy. He is a member of the Senior Officers' Association and a member of the South Florida Yacht Club.

BICYCLING

To everyone who participated and showed interest, we are in our exhibit at the Central Park Art Exhibit. We are hoping to win second place, a great number of people showed in the exhibit.

Our event has been a great success, and everyone interested is welcome to this exhibit. We will be there every morning from 9:00 A.M. to 5:00 P.M. and every Sunday from 9:00 A.M. to 5:00 P.M.
