Production of the 1979 Aviation Journal Begins

No words can express what the Aviation Journal means to us. It is more than just a group of students who collaborate to put together a publication. It is a community of aviation enthusiasts who come together to share their passion for the industry. The Aviation Journal is a platform for us to showcase our knowledge and inspire others to pursue their dreams in aviation. We are proud to present the 1979 Aviation Journal, filled with articles on various aspects of aviation, from the history of flight to the latest trends in technology. We hope you enjoy reading it as much as we enjoyed creating it.
NEW IMPROVED AVION

In an effort to make The Avion a little easier to read, we have made several layout changes. I think they’re good, and I hope you will too. The Avion weekly is now printed on a new kind of paper for that reason. In fact, your Avion weekly is now printed on a new kind of paper. The Avion weekly is now printed on a new kind of paper. The Avion weekly is now printed on a new kind of paper. The Avion weekly is now printed on a new kind of paper. The Avion weekly is now printed on a new kind of paper. Disney World Gets a Dose of the Avion Staff

By McKeever
Photos by Mike & Carol Staggard

The pre-march of the AVION created Disney World last Saturday. The author, "K.C. is as we call him, refused to interview us because he claimed he had never done it before. But that's OK because we had fun without him.

After the 18 or so arrived in the same silver jet, I asked the Stemmler steward, how we immediately split into four enthusiastic groups.

The high point of the day occurred at 11:15 when I heard my long-time partner. More on that later.

I don't know how many people know the jet. I noticed that after one landed in the position by the flag of a little bird, he was able to rearrange the whole thing.

I didn't enjoy the Pinapple of the Caribbean water ride very much, mainly because I fell in while trying to sit in the boat. I had one foot in the boat and the second way as it went through, that later moment passed, the boat floored, and over I went.

When I regained consciousness, there was an orange at the donut. I was a little drunk.

Then there was the story when I was trying to get Goofy's attention so I could shake his hand. It's not as if I was asking some instead of saying, "Goofy, you're terrific.

I'm serious that he was deaf.

At one time walking through the crowd of Tom Sawyer's Island, we came upon a very small little girl.

When her long and very excited hands, she was in contact with black dots, I guess the jumping around youngster wasn't as impressive as it seemed.

And therefore, the motherer on the June 2nd, when someone got under her 2-5000000, I was quite surprised to see that I jpegged behind her as I wouldn't have known.

We can't forget RGA's Danny McDowell, it's better than that. I recommended it to anybody who is with a girl, as a place to get your pet.

I must say that I wish I could get more involved with Jon/trk Dinedmore, because she was a "girl"

We didn't get a chance to take any of the shots from the gallery. Maybe if we make it this week, we'll get a chance to "suck off" of some of the girls.

★ BARBEQUE DURING MID-RALLY PIT-STOP ★
ALSO, MILLER BEER FOLKS & MILLER GIRLS
WILL BE JOINING IN THE FUN!

PRIZES WILL BE AWARDED

Don't miss this "WILD & CRAZY" Road Rally!
PHASE ONE NOTES:

Despite generally good conditions for the area, the steady 9-knot wind made the Boeing 747s at the airport seem like they were on a seaplane. The gusty winds made it difficult for the pilots to control the aircraft, and the noise and turbulence made it hard for passengers to settle down.

PHASE TWO NOTES:

Air Force One is equipped with state-of-the-art communication systems that allow the president to communicate with all branches of government. The system includes secure telephone lines, satellite links, and secure radio frequencies that allow the president to communicate with the military and other government officials.

PHASE THREE NOTES:

The Air Force One was met by a large entourage of Secret Service agents, who escorted the president to the Inaugural Ball. The ball was held at the Washington Hilton and attended by thousands of guests.

PHASE FOUR NOTES:

The president arrived at the Inaugural Ball in a motorcade, accompanied by a large security detail. The motorcade included a limousine, police cars, and other security vehicles. The president was met at the entrance to the ball by Vice President and Mrs. Dan Quayle.

PHASE FIVE NOTES:

The Inaugural Ball was a huge success, with thousands of guests in attendance. The ball featured live music, food, and drinks, as well as a variety of entertainment options. The president was seen dancing and socializing with guests throughout the night.

Sigma Phi Delta

By Steve Smith

John Doke

Have you ever wondered why a parent would
name their son "Steve"? One might reason: I
am not sure that "Steve" was the name I
wished my son to have. I told my parents that
Steve was a dull, common name. But, I was
told: "Steve" is the name we chose for your
son. You can change it when you want. 'Steve'
would then be changed to "Dan." So I didn't
want to change the name. And my parents
were right: I am Steve.

ARNOILD AIR SOCIETY * BILL MULLIN WILSON. 68. 64.

By Greg McDonald, AAF 62.

Last Tuesday was the annual Eenefand-er-jet (US]U UDF Day. This year's contest, sponsored by the Arnold Air Society, was held in the morning and at 3:30 p.m., instead of the usual 2:00 p.m. The judging was done by the 62nd Defense Air Force and was fair and impartial. The judges were not allowed to discuss the contestants until they had finished judging all of the entries. The awards were given to the contestants who had the highest score in each category. The awards were presented to the winners by the 62nd Defense Air Force. The winners were:

1st place: Fastest Jet - Single Engine
2nd place: Slowest Jet - Multi-Engine
3rd place: Most Creative - Single Engine
4th place: Most Creative - Multi-Engine

Delta Chi

By Pat Hamilton

So fast this year came off the club again this past Sunday after giving the Falcons a run for their money, despite being inexperienced. "Ecuador" Bob Brya was pleased that our club could work together like they did. You see, Bill Haid and a very funny childhood everybody always picks on after that he is a big boy, everybody still does. Russ Gyor is known for his enthusiasm because he has to study lots. He's also been known to involve the educational system of Enosby College.

Delta Chi

By Tom Morris

Worlds track edge out thanks for the dedication. This past fall we had the opportunity to attend the opening of the original Six-Bedroom dorm. On Friday we had a half-past party to welcome everyone back to Sigma Chi. On Saturday night we had the annual formal at the Hotel. We had an open bar given to Sigma Chi, with a hand for a great 62nd Patry and Seber, making several speeches. Pete Edgar the Jordan Award. The Friday night was all decked. Friday night was the Sigma Chi wearing a uniform for the entire evening.

Good luck in remaining issues. Sigma Chi has something to be proud of and we will continue to work hard for the betterment of the school. Sigma Chi is the place where we have had our best memories.

The United States has made "remarkable progress" in both the "attitudes and goals" of its international air transportation negotiations during the past year, Civil Aeronautics Board Chairman Alford E. Kahn told the National Press Club.

Outlining the "weak highlights" of the "progress" achieved over the past year, he noted that the negotiations "are no longer simply talking and negotiating, they are moving." Kahn said that the negotiations have achieved "some agreement" on "key issues." He added that the United States has "made progress in the past year in the direction of changing the rules of the game."

E-RAU GOLF TEAM MARCHES ON

By K.L. Johnson

Wednesday, 7 March 1979

The E-RAU women's golf team was in action last week and had a successful weekend. The team had to play two matches, and they came out with a win.

The first match was against the University of Florida. The team was led by their captain, Jennifer Brown. The team played well and came out with a win. The second match was against the University of Alabama. The team played well, but unfortunately, they lost the match.

Overall, the team played well, and they are looking forward to their upcoming matches. They will be playing against the University of Georgia next weekend. The team is excited about the match and is trying their best to prepare for it. They hope to come out with a win in the match.
