Production of The 1979 Aviation Journal Begins

This Week's Movie:

**SHOUT AT THE DEVIL**

"BIG SCALE ADVENTURE" — LOE ANNIVERSARY

AM EPIC SO VAST IT TOOK TWO YEARS TO CREATE AND A WHOLE CONTINENT TO CONTAIN.

The regular staff of the Elyria and Journal then we called immediately an assembly to establish its next year's publication. The first annual Assembly on May 10, 1978, was an entry into the 2nd Annual Assembly of the publication. We have reached an excellent level of quality, and now are the editors of the Aviation Industry and all the aviation industry leadership. A new level of activity, in the form of a new project and request for additional funds.

Over 1200 copies of the 1979 Aviation Journal will be delivered to the homes of individuals in every state of the aviation industry and to the aviation industry readership. Copies of all editions of the Journal can be obtained from the Aviation Industry Committee. w.
NEW IMPROVED AVION

In an effort to make THE AVION a little easier to read, we have included the layout changes, and I think it’s great and impressive. I have Ed Miller for the effort. If anyone has any other suggestions for improving THE AVION quality and tell me about it. It is my goal to make THE AVION as good as possible.

Another way to help the AVION is to get your friends and family to subscribe. This will help support the magazine and ensure its continued publication.

Like to Spend a Night in Jail?  

This is the story of a college student who escaped from jail and spent a night on the loose.

Letter to the Editor:

Dear Editor,

I would like to thank you for allowing me to write this letter. I have been a subscriber of THE AVION for quite some time now, and I have always enjoyed reading the articles and features that you publish.

I am currently writing a book on the history of aviation, and I have been doing some research on the topic. I came across an interesting article in THE AVION about an aviation project that has been in the works for several years. I thought it would be interesting to share this information with your readers.

The project is called the "Great Air Race" and is being organized by a group of aviation enthusiasts. The idea is to recreate the same race that was held in the 1920s, where pilots from around the world would fly from one city to another in a series of races.

The race is scheduled to start in New York City and will continue through various cities across the United States. The final destination will be Los Angeles. The race is expected to take place in late summer or early fall of this year.

I believe this project will be a great success and will bring a lot of attention to aviation. I hope you will consider publishing this information in your next issue.

Sincerely,

Disney World Gets a Dose of the Avion Staff

The most entertaining Disney World tour this Saturday. The author, a K.G., as we call him, is known to everyone 1097 he claimed to have better things to do but that's OK because we all know that.

After the 18 of us arrived at the Magic Kingdom station, we were immediately split into four enthusiastic groups.

The high point of the day occurred at 11:30 when I found my classmates stepping by. That's ok because I had fun without them.

BATTLEFIELD:
THE-E-RAU PARKING LOT

By Jackie Stovall
Student Publication Secretary

"Your assignment is complete -
your billet is well inside in hotels - a few hours later. When you step into the war zone - seeking victims. You get points for each one you hit on the run - no points for those running on slippery ice."

Try to maintain your speed in a straight line - sliding into your victims. Many times the victim is a dead-end street - they are not on a body of water - they are on the road in front of your vehicle. When you see a victim, you must stop - your reputation will be the result of your visit.

"Somewhere on the road, "

- and then slow down before entering the battlefield. Just as you see the victim, you slow down to almost a standstill in front of them. You have to make your victim realize that you are a part of their life - that you stand in the path of their death. This is a process - the psychological warfare of the battlefield. The victim is the one who you - a real warrior - the unstoppable killer in the Enemy-Raid parking lot - who makes it through the battle and wins the battle of the psychological warfare."

What's the next move?"

ARLINDO AIR ROCKET * BILL HILL WILSON, B 8K. By Hugh McDonald, A 11A.

Last Saturday was the annual Winter Bash held at UQ's Federal Pub. This year's event featured some high quality entertainment, and at a price many expected. But in the end it proved to be an unqualified success.

The Federal Pub, as always, was the scene of an enjoyable night. With its lively atmosphere and varied entertainment, it was a perfect setting for a social gathering.

One of the highlights of the evening was the performance of a local band. Their music was well received by the crowd, and added to the festive atmosphere.

Another feature of the event was the raffle, which provided an opportunity for attendees to win prizes. This was a popular activity, with many people participating and having fun.

Overall, it was a successful evening that brought everyone together in a fun and relaxed setting. The Federal Pub was the ideal venue for this type of event, and it was clear that the organizers had put in a lot of effort to ensure that it was a success.

CAB CITES PROGRESS IN AVIATION NEGOTIATIONS

The United States has made "remarkable progress" in bilateral trade agreements and in its international aviation negotiations. The first and most important of these agreements, the Tokyo Agreement, was the result of a series of negotiations. The second and most important of these agreements, the Rome Agreement, was the result of a series of negotiations. The third and most important of these agreements, the Rome Agreement, was the result of a series of negotiations. The fourth and most important of these agreements, the Tokyo Agreement, was the result of a series of negotiations.
