ANDY WAHLBERG

Wednesday, March 7th – 6:30 p.m. The Fred L. Wahlberg Lecture – Mr. Charles H. Vail

ANDY WAHLBERG

Production of The 1979 Aviation Journal Begins

This Week’s Movie:

SHOUT AT THE DEVIL

“BIG SCALE ADVENTURE”

LOW ANGULAR TIMES

AN EPIC SO VAST IT TOOK TWO YEARS TO CREATE AND A WHOLE CONTINENT TO CONTAIN.

This week the Aviation Journal was in the midst of preparation for the annual publication. The journal is a collaborative effort of students and faculty, providing an opportunity for students to develop their writing and editing skills. The journal includes articles on aviation history, technology, and current events, reflecting the diverse interests of the aviation community.

The next issue of the Aviation Journal will be available in the coming weeks. Students and faculty are encouraged to submit their work for consideration. The journal is distributed to the aviation community at large, and it is an important platform for sharing ideas and insights on the rapidly evolving field of aviation.

In addition to the regular content, the journal also includes a feature on the careers in aviation, highlighting the opportunities and challenges facing those in the field. The feature includes interviews with industry leaders and provides valuable insights for students and professionals alike.

The Aviation Journal is published annually, providing a snapshot of the current state of aviation and a glimpse into the future. The journal is an important resource for those interested in the field and a valuable addition to the aviation community.
NEW IMPROVED AVION

In an effort to make the Avion a little easier to read, we have decided to layout the layout of the paper, I think it's a great improvement, and I think Ed Miller did a great job. If anyone has any other suggestions for layout, I would be very interested in hearing them.

Another way to help this is to come up and work for us. Yes, we have a few people who have not turned in their work for the first time. If you can come up and help us, we would be very grateful.

THE AVION is YOUR Newspaper, and I can assure you that the staff is not happy to be faced with the competition.

CONGRATULATIONS

By Mark Conpons

Embry-Riddle would like to congratulate all of you for your success in the service of education and the community. We are proud of all of you.

LIST OF STUDENTS RECIPIENTS OF AVIAN PAPER CERTIFICATES

Michael Pellea, Edward Jones, Michael Jenkins, Philip Voss, Donald A. Lewis, Albert Thomas, Kurt Braunack, Charles B. Pardoe, Frank Gray, Christopher Green, Robert Walker, Donald Black, and others.

Klyde Morris

Klyde Morris will hold the Mr. Klyde Morris of the University of the South, which is located in the state of Georgia.

Like to Spend a Night in Jail?

By Dale McCall

While the Avion was being printed, several students were preparing for the annual "Night in Jail." The event was a fundraiser for the local Kiwanis Club. The students were divided into groups and were assigned to different locations around the city. The groups would then spend the night in jail, raising money for the Kiwanis.

TO THE EDITOR

Dear Editor,

I have been waiting to write to you about the "Night in Jail" event. It was a great success, and I feel that we should do it again next year.

Sincerely,

Claire Johnson

BATTLEFIELD: THE-E-RAU PARKING LOT

By Jackie Street
Student Publications Secretary

"Your assignment is complete - your brother is under arrest!" - and you start rolling into the war zone - seeking action! You get your orders from your superior, hit the road in your tank and drive to the front lines, where you have a rendezvous with General S. T. Gurney, your superior officer. You no longer have to fight the enemy. You are already winning against them.

The tank moves, the war zone comes alive, and you are a part of the war. You are no longer a student, but a soldier, fighting for your country.

In recent weeks, the tank has been a constant presence on the battlefield. The tank is a powerful weapon, able to destroy any enemy forces in its path. It is a symbol of power and strength, and it is a reminder of the sacrifices made by those who fought in the war.

The tank is a symbol of the nation's commitment to defend its borders and protect its citizens. It is a symbol of the courage and determination of those who fought in the war, and it is a reminder of the sacrifices made for the country.

Sigma Phi Delta

By Tom Horn

Try to see the Sigma Phis again sometime this year. Sig's has a lot of character. It's a great place to have a good time and a good meal. They have a great band and a lot of fun is had in the house. The Sigma Phis are always looking for new members and are always open to new ideas. They have a lot of great events throughout the year. Sigma Phis is a great place to be and I highly recommend it to anyone who is looking for a fun and exciting experience. Sigma Phis is a place where you can make great memories and meet great people. Thank you Sigma Phis for being so welcoming and friendly. I hope to see you all soon!
The guy may take a lunch break while still being within his shift. On average, he would work about 11 hours a week, totaling about 44 hours per week. On weekends, he would work from one to two weeks per month. He would have a few weeks off total. On the weekends, there will be a flight controller with off, so he would have at least one day off. The controller role is also an hourly position. On average, he would work about three to five days per week. From March 10th, he would be able to work from 1:00 PM to 9:00 PM. The controller role is an hourly position. On average, he would work about three to five days per week. From March 10th, he would be able to work from 1:00 PM to 9:00 PM. A ROTC
by Dave Ury

In April 1985, the Kennedy-Richards ROTC Detachment was welcomed to the University of Alabama by Air Force Rotc. The detachment, however, was immediately challenged by the University's administration. The administration was concerned about the military presence on campus, and the ROTC detachment was eventually dissolved.

The United States has made "remarkable progress" in bilateral negotiations over the past year. Ambassador John Kissick and President's Special Envoy for Trade, Michael Korr, have been actively engaged in discussions aimed at achieving a comprehensive air transport agreement. The progress made has been significant, with both sides making concessions that have led to improved relations.

One of the key issues discussed has been the expansion of air travel between the United States and the United Kingdom. The agreement reached includes provisions for increased flights and higher capacity limits, which will benefit both countries.

The progress made in these negotiations is a positive development, and it is hoped that this momentum will continue to build as the two nations work towards a full-fledged agreement.

Head for the mountains.
SOFTBALL

E-RAU GOLF TEAM MARCHES ON

By K.M. Johnson
Sports Editor

Sunday saw the Florida State team lose to Florida State 5-4, but the march of the E-RAU team continued as they defeated the Florida State team 5-4 to advance to the state qualifiers.

The win over Florida State was significant as it ended their winning streak of 13 games. The loss to Florida State was a setback for the team, but they remained optimistic about their chances in the state qualifiers.
