Embry-Riddle Flight Team Competes at Melbourne

By Dan Minne

The past Friday and Saturday, March 26th and 27th, the Embry-Riddle Flight Team flew down to Melbourne, Florida to compete in the EAA Air Meet. At this air meet, they were given the opportunity to fly their aircraft at the EAA Air Show and take part in the race. This was a great experience for them.

As far as the actual competition goes, the team finished in 18th place overall. This is an improvement from their previous performance, which is notable considering the difficulties they faced during the competition. However, the team plans to continue improving and working towards better results in the future.

The flight team flew their aircraft, the North American T-28 Trojan, for both the race and exhibition. The aircraft performed well, showing its capabilities and potential on the flight course.

The flight team is always striving to improve and excel in their competitions. They appreciate the support of their sponsors and the community, and look forward to future opportunities to showcase their skills.

By paragraphe2 in this event, the team gained valuable experience in actual competition along with helping FLL continue with their mission to encourage and develop young students in the STEM fields.

ERAU Spring Fl ing A Big BIG Success

By KJ Johnson

The Bachelor of Science in Aeronautical Science program in the College of Engineering and Computer Science at Embry-Riddle Aeronautical University is a highly customizable degree. It offers a wide range of courses that allow students to tailor their education to their specific interests and career goals. The program is designed to prepare students for careers in the aviation and aerospace industry, as well as for further education.

ERAU offers a comprehensive curriculum that includes courses in aerodynamics, flight dynamics, aircraft structures, propulsion, and systems engineering. Students also have the opportunity to gain hands-on experience through internships, co-op programs, and research projects. The program is accredited by the Accreditation Board for Engineering and Technology (ABET), which ensures that the curriculum meets the highest standards of quality.

ERAU students have the opportunity to participate in extracurricular activities, such as the Embry-Riddle Aeronautical University (ERAU) Flight Team. The team is comprised of students who are passionate about aviation and are committed to competing at the highest level. The team has won numerous awards and recognition for their achievements.

The flight team's success is due to the hard work and dedication of its members. They are driven by a passion for aviation and a desire to excel in their chosen field. The team's success is also due to the support of the university, which provides them with the resources they need to succeed.

The Bachelor of Science in Aeronautical Science program at ERAU is an excellent choice for students who are interested in pursuing a career in aviation or aerospace. The program offers a challenging and rewarding education that prepares students for success in a variety of roles in the industry.
EDITORIAL

It's that time of the year again. Term papers due, tests to take, and for us up in the Student Publications Office, time to get the next issue out the door. I would like to thank all the people who have helped me in my efforts to make this an interesting paper. I would also like to thank you that the Adviser is giving it a new look next year for all the hard work you put into this paper. The next issue will be out in a week or so. I am grateful that you have continued to support us in our endeavors.

The Inter-Fraternity Council

I WOULD LIKE TO THANK THE FOLLOWING PEOPLe FOR THEIR HELP AND SUPPORT OF GREEK WEEK: THF.

RENA BODER - STUDENT ACTIVITIES
LOI LORRAINE - ETC. MOLSON
GREG NELLI - DETH CHI NOTT
MILLER BEER COMPANY
FPM
WERU RADIO
THE AVON
AND A VERY SPECIAL THANKS TO "BILL PURCH (THE MANAGER) FOR HIS EXCELLENT ANNOUNCING JOB!"
AND CONGRATULATIONS TO "ALPHA PHI, EUREKA, SIGMA CHI, DELTA CHI AND LAMBERT, CHI ALPHA FOR WINNING THIS WEEK'S GUEST OVER THE REST EVER!

LETTER TO THE EDITOR

It seems a student crosses the end of the Bridge frequently, even in last fall, how's the administration, for April graduation? There is just one grade, right of all the Senior Class Graduations, with field until about three weeks ago. The students at this meeting were told some interesting facts:

Among these people, you've almost entirely, responsible for planning, organization, titles or no titles have been made up to this point, and still is just undecided what will be the future. Other amusing programs and prices are changing without hesitation, including graduates, one guest only, and having "Terry's" dinner in the gym for the nominal charge of six bucks. The annual Senior Awards Banquet is supposed to be at six and next, and soon enough.

Thanks for your support.

Kathy McVickar

THIE PRES

Attention Graduates:

The graduation ceremonies will be held in the University Center on Saturday, April 11, 1969.

If you may participate in activities and, therefore, receive the honors of your class, you should be at the Student Center and be present.

Graduating seniors must be present at the main entrance of the Common House in the University Center on April 11, 1969. Early and on time is essential, as the doors will be closed at 9:00 A.M.

On Saturday, April 11, assemble in front of the University Center, no later than 9:00 A.M., with your rapid, hand, honored, in the Student Center, offices and meet assembled, as the doors will be closed at 9:00 A.M.

In order to observe a comfortable seating arrangement, graduates will sit in the University Center. The chairs are arranged in three rows.

The University will provide refreshments for all graduates after the ceremony.

This is the most important event of your academic life. Be sure to attend.

Klyde Morris

I don't think this is what I expected. If this is your idea of a good time, I don't know what you were thinking. I was looking forward to spending some time with you, but I guess I was wrong.

You're welcome to come here anytime, but I don't think we should be spending our time together like this. I'm not feeling well and I would rather be home alone.

If you need anything, please let me know. I don't want to be a bother, but I think it would be best if we talked about this before we continue.

Happy Easter!

Klyde
Baseball (from page 1)

In the second inning face Jax Watson, the center fielder, threw a man out at the plate who was safe a minute later. In the second inning, on a single to left center, Watson broke up and took off for third. Watson reached two bases and was out at third. The shortstop, who bobbled the ball, relaid it back to the pitcher to throw out the man at third. The pitcher, who was hit by a pitch, sent up a big play. Watson batted out for the first time, but was unable to get a hit. The next batter, who hit a double, was out at second. The pitcher, who was hit by a pitch, stranded two runners on second and third. The pitcher, who was hit by a pitch, threw the ball to the pitcher at third.

Stay Away from the Measles

By: Maurice Bower, R.N., Health Services, E-RAU

During the last several weeks, large numbers of college students will be reporting to the Daytona Beach Health Service with the diagnosis of measles. The disease is highly communicable and can spread rapidly through a community. Therefore, students are urged to be vigilant and take preventive measures to avoid contracting the disease.

Possible Cure for Inflammation Announced

By: Wallace McLaughlin

WISCONSIN-"The De-pen-cen-col, Health Services, and Wisconsin today released infor-ma-tion concerning a new treatment for inflammation.

Assisting by Dr. Zelis, Public and Inflammation, extensive studies were conducted at Emory-Bucknell Medical School in Dayton, Ohio, that led to the development of a new drug. The drug, called "Dr. Zelis' Inflammation Treatment," has shown promising results in the treatment of inflammatory conditions.

Sigma Phi Delta

The past weekend was de- pered a busy one for the members of Sigma Phi Delta, with various social activities scheduled for all three days. Things were well, through, and all had a good time yet another weekend comes to a close.

The weekend began on Fri- day night at some of the brothers' favorite hangouts, and many of them had a good time. In the morning, Delta Chi brothers from Case Western Reserve University were invited to our house for a free kickball game. The brothers were able to get their hard-earned cash to help them make money for their pledge project, and we were able to raise $300.

The evening's meeting con- sisted of the usual vote on whether or not to vote for the current year's officers. Alex was voted as the new Delta Chi intramural sports officer. The club's initiation took place in the living room of the house.

The Delta Chi chapter is housed in a small building in the center of campus. The pledge received a sign from the house. The sign reads: "Delta Chi, we are the best fraternity in the world."

The chapter has been active for over 50 years and has been known for its community service projects. The chapter has also been active in various campus organizations, including the Greek Council and the Interfraternity Council.

Delta Chi

By Ed

This past week has been extremely active for Delta Chi at Case Western Reserve University. The chapter has been involved in various activities, including a social event, a lecture, and a community service project.

On Thursday night, the chapter hosted a social event at the house. The event was open to the public, and many students attended. The event included food, drinks, and a live band.

On Friday afternoon, the chapter hosted a lecture on the history of fraternity life. The lecture was presented by a former fraternity member and was well-received by the attendees.

On Saturday morning, the chapter participated in a community service project. The chapter worked at an elementary school, helping with various tasks.

The chapter is always looking for new members and is open to all students interested in becoming members. For more information, please contact the chapter at 216-368-6321.
When the jump gate pulsed up at 8:20, there was an obvious surprise. Everyone was checking the time and preparing for the jump. The initial reaction was a bit of confusion, as people realized they had been jump-gated. There was a bit of a delay as people scrambled to get into their gear. The jump was scheduled to start at 8:20, but it was 10 minutes late. The jump was well-organized, with the organizers ensuring that everyone was accounted for before the jump began. They were using a computerized system to keep track of all the jumpers. The jump was a success, with everyone jumping safely and having a good time.
