Embry-Riddle Aeronautical University

Embry-Riddle Flight Team Competes at Melbourne

By Dan Mihok

The past Friday and Saturday, March 26-27, the E-RAU Flight Team flew down to Melbourne for a practice Air Meet with FIT. Upon arriving we were greeted with the excellent hospitality of the FIT Flying Team and the Alpha Eta Rho Chapter of the school. They provided us with housing, transportation...and a good time!

As far as the actual competition goes, FIT was the overall winner by a point score of 108 to 71. It is my opinion that it seems due to the fact that we had very little practice in some cases. While FIT has been preparing for its winter air meet later this month.

By participating in this event we gained valuable experience in actual competition along with helping FIT learn and perfect their competition coming up later this month.

E-RAU Spring Flings A Big Success

By KJ Johnson

The annual Spring Flying is now underway on the base and this year the event probably is the greatest thing to happen on campus in a long while. Performances by Sunny Days, Deja Vy, German Band, and others were just a few of the events. In addition to the music, several events were held on the base.

One of the highlights of the event was the flight show that took place on Thursday evening. The flight show featured several different aircrafts, including a small single-engine plane and a large propeller-driven aircraft. The pilots performed various maneuvers, including spins, acrobatics, and other aerial stunts. The show ended with a grand finale featuring a formation of four planes flying in unison.

The tight group of pilots that put on the show is made up of several members of the flight team and some of the most skilled aviators on the base. The pilots are passionate about aviation and strive to share their love of the sport with others.

The flight show was a great success, attracting a large crowd of spectators who marveled at the precision and skill of the pilots. The show ended with a rousing round of applause from the audience, who were left in awe of the spectacle.

EAGLES Triumph 8-71

By CF - McVey/George Editor

As unbelievable as it may seem, the Embry-Riddle Varsity Baseball Team has won a dramatic game against Florida Atlantic University. In the bottom of the sixth inning, Eagles' batter Matt Wright hit a two-run home run to take the lead 8-7. The Eagles went on to win the game 8-7 on a walk-off single by Matt Wright. The Eagles defeated the Owls in extra innings, securing the win for the team.

The victory is significant for the Eagles as they continue their season with a winning record. The. Eagles have shown resilience and determination throughout the season, earning their place as one of the top teams in the conference.

A.C. TACHER - Newly authorized flight instructor was selected for Federal Aviation Administration. Test date is available for interested candidates.

Mrs. Foster and Mr. Tacher are experienced instructors with over 10,000 hours logged respectively. Each was trained by FAA instructors in quality standardization before meeting the requirements. Mr. Tacher has operated his own flight instruction business (FAI) and has taught student pilots for over 10 years. Not only did he gain experience in this field, but he has also been an instructing instructor (in FAI) for several years.

A new test is available for interested candidates.
editorial

It’s that time of the year again. Term papers due, fall exams to take, final exams for all in the Student Publications Office, time for the last look at the semester, time to think back on all the people who have helped me try to make the Avian a newspaper worth reading. I would also like to remind you that the Avian is going to need people to fill all positions during the summer; if you haven’t already, sign up with the office before 6:00 PM for our last meeting of the year. Editors for Editor will be

I learned a lot about people, business, management, and about the workings of Emery-Riddle. Most importantly, I learned a lot about myself.

Good bye, and good luck to whoever takes over in the future.

Thanks for all!

Keith Hoblick

LETTER TO THE EDITOR

It seems a student affairs has the end of the decade simmered, even in last month’s. This administration has been... I graduated there three years ago, right? I’m not sure, so I couldn’t write anymore. The last three weeks of the semester, the students and professors have been told some news. Among them was the administration’s intention to expand the number of students and to increase the number of faculty. Among the students, there was a lot of protests against the administration’s decision. The protests were against the administration’s decision.

Good bye, and good luck to whoever takes over in the future.

Thanks for all!

Keith Hoblick

THE INTERFRATERNITY COUNCIL

WWould lie to thank the following people for their help and support of Greek Life: T.B.

Teachers Agree Students

By KWKibish

DAYTONA—Two teachers, Dr. Collie and Mr. Wadsworth, of the International Student Services, University, have been charged with misrepresentation of the student body.

Dr. Collie, a history instructor, has been charged with making false statements in the application for the next fall semester.

Separately, Mr. Wadsworth, a member of the student body, has been charged with making false statements in the application for the next fall semester.

The next week he returned to the student body and said, "I’m ready to order a new pair of shoes. The reason why I didn’t order a new pair was because I couldn’t get a good frame of shoes coming back in style. That’s a way out of the money.

And what about you, Mr. Wadsworth, you know, what kind of shoes you’re going to buy? I’ll be happy to help you."

New School Policy

KWKibish and His Mom

Co-Stands/Alpha People

Emery-Riddle Aeronautical University, will, in the near future, expand its horizons. The recently established student body will now become a full-fledged part of the student body.

The school plans to purchase additional equipment and facilities, including a new student center.

On the matter of the new student center, President Johnson has plans to purchase the property as soon as possible. The new student center will not only bring new revenue but also will provide a better environment for the student body.

UNITED PILOT SLOTS

CHICAGO—United Airlines pilots, members of the Brotherhood of Airline Pilots, are currently negotiating new contracts with United Airlines.

The negotiations, which began last week, are expected to continue for several weeks.

The pilots are demanding better working conditions, higher wages, and more job security.

The airline is offering a variety of concessions, including increased benefits, higher wages, and more job security.

The pilots and the airline are expected to reach a agreement by the end of the year.

Delta Airlines Coming to Daytona?

By Nick Adivos
Area Staff Reporter
Delta Airlines will be serv
ing Daytona beginning later this
year.

This will mark the third time in
three years that Delta has
been considering service to the
airport.

The latest move comes as a
result of the recent decision by
Delta to expand its service to
other Florida cities.

Delta officials said they will
begin service to Daytona in late
1979 or early 1980.

The decision was made after
a detailed study of the market
potential for service to Daytona.

Delta officials said they expec
ted to begin service to Daytona
within the next two years.

The airline will offer flights
from Atlanta to Daytona two
times a day.

The flights will depart Atlanta
at 7:00 a.m. and 11:00 a.m.,
and arrive in Daytona at 7:30
a.m. and 11:30 a.m., respectiv
ely.

The return flights will depart
Daytona at 8:30 a.m. and 12:30
a.m., and arrive in Atlanta at
9:00 a.m. and 1:00 p.m., respec
ively.

Delta officials said the flights
will be scheduled to coincide
with the peak travel periods
for the area.

The airline will offer service
to Daytona on its mainline
jets, which will carry 120 pas
ger.

COMPLACENT. The Saudis, who are sponsored by the Saudi Arabian Airlines, are at the Aviation English Language Training Program and will start next week in the center going on its ninth month. Thirty-five students to the group are living in the EAU apartment complex and the classes are in the shopping center.

Pacemakers Peddle Long Distance to the Cape

Two weeks ago, the Pacemakers enjoyed a "fly in" ride up and down the coast, meeting with distributors and dealers in some of the larger communities. The "fly in" ride took place on Saturday, November 12th, and the students were able to see some of the different designs and styles available to the public. After a successful event, the students were able to enjoy a great dinner at a local restaurant.

Attention Iranian Students

The statement (in duplicate) should be sent to the Iranian Consulate before you leave. The statement should include the following:

1. Your name, date of birth, and social security number.
2. The name and address of your employer.
3. The date of your arrival in the United States.
4. The date of your departure from the United States.

Additionally, if you are applying for a nonimmigrant visa, you will need to provide:

- Proof of financial support, such as bank statements or a letter of financial support from a sponsor.
- Evidence of ties to your home country, such as a letter from your employer or a letter from a family member.

With the document in hand, you may now proceed to the nearest passport and visa office of your home country to apply for your visa. If you have any questions, you may contact the U.S. Consulate General in your home country for further assistance.

We wish you the best of luck on your journey to the United States!
OPERATIONAL NOTES

There have been several instances recently of practice "instrument approach" being made to published, uncontrolled, visually uncontrolled airports causing some interference with VFR aircraft in the traffic pattern. This has been specifically addressed during the current training. You are not to approach, nor descend, nor land at altitudes where you are confused by steady radio or visual cues. The FAA has published special approach procedures for uncontrolled airports. You are to use these procedures as directed.

ENNIGNCING ENGINEERS BECOME ARMY OFFICERS, TOO.

No matter what your major in college or career plans may be, there are opportunities for you as an Army officer. As one of the largest employers in America, the U.S. Army commissions thousands of college graduates with a wide range of majors each year.

Whether you're seeking a civilian or a military career, the opportunities in the Army are there for both. As you pursue your major in college, pursue Army ROTC. For details, call:

CAPT. Leo L. Laner Phone 255-8616
Sigma Phi Delta

The past weekend was a busy one for the brothers of Fraternity, with various activities scheduled for all three days. Things were well, though, and all four chapters will continue to improve.

The weekend began on Friday evening. At 8:00 p.m., the members gathered at the chapter house for a meet-and-greet. The chapter house was packed with members from all four chapters, and the atmosphere was lively and enthusiastic. The event was a success, and it was clear that the brothers were looking forward to a great weekend.

Saturday's busy schedule included several meetings and events, including a chapter meeting, a chapter dinner, and a chapter social. At the chapter meeting, the brothers discussed important issues and outlined plans for the future. The chapter dinner was a delicious meal, with plenty of food and good conversation. The chapter social was a carefree and enjoyable evening, with members dancing and socializing until the wee hours of the morning. The brothers were all in high spirits and looking forward to the next day's events.

Delta Chi

This past week has been extremely active for Delta Chi as Greek Week wound down into the great, formal, student-holiday book in the sky. This year's paraphernalia of Greek fun was a popular undertaking by the Inter-Fraternity Council, and even though it was the first actual Greek Week put on, it came off with an enormous bang.

The 19th is, of course, the day for the banquet to be held at San Remo Restaurant. Final word on arrangements will also come from Tony too, but it would seem that dockets will begin around 6.

Congratulations to the newly elected chapter officers who will take office following next week's meeting! We are as follows:

Chief Engineer: Bill Sonnenberg. Chief Engineer: Scott Skier (Team Captain)
Secretary: Mike Steininger. Vice-Pres. Jerry Walker
Chairman: Chris Showy
Historian: Rich Swenson

The results of the Sports-Manager writing are in, and as usual, we will have a new slate of officers for next week.

Delta Chi

By Ed

At the beginning of the week, Delta Chi was looking forward to a fun and exciting Greek Week. Unfortunately, the events were not as enjoyable as expected. The chapter's officers were disappointed and didn't seem to have a clear plan for their Greek Week activities. The chapter's members were also disappointed with the lack of coordination and planning.

Waterbeds are strong. Of course we don't recommend parking your car on a waterbed. Waterbeds were developed for one reason only. Support. For years, the water in a waterbed has been known for its unique ability to absorb shocks and provide comfort. Waterbeds are designed to support the body, and to provide comfort for a good night's sleep.

PROTECT YOUR INVESTMENT WITH NEVERWET

How to use this chart:
- Use the best mattress for your needs.
- Use a mattress protector to prevent mattress from getting wet.
- Use a waterbed cover to protect mattress from spills.
- Use a waterbed frame to support the mattress.

RIDDLE SKYDIVERS
By Kevin Keenan

... Spring Fling '79. What a party! Demonstration jumps are always a blast for skydivers, but there is always something special about doing one just after the "home court." A lot of planning and preparation is carried out behind the scenes to get everything right. Air Traffic Control, for instance, is great with airplanes. Jets come and go at short intervals, people declare emergency, anything that happens, ATC simply takes in stride. Until you mention jumpers, there is something about having one mixer overhead discharging lots of little bodies which then come into lots of little gliders of which radar, lights, or transceivers. It's enough to make a controller cross "STAND BY." Permission was finally granted, however, only after some fancy footwork by our club's ace weatherman.

When the jump plate pulled up over LEAM, it was fairly obvious that something was cooking. The converted crowd below gawked at the appearance of a hugeflower petals spread out mats to the delight of the Crippled A few minutes later, after the wind-sandwiched all with the first two tiers left the airplane. Kevin Keenan was first, followed by Joe Cunningham. Kevin had volunteered to spot for our three jumpers - "...usually the up the airplane over the exit point - but he was overruled by a statement "Hi Hi, no way!" After Kevin's performance at the last drop zone, it was actually suggested that he make this his one时限! With a high seat, thrown out of the airplane upside down, with two pig stopped to his leg. This idea was dropped due to a possible safety hazard.

After they left the plane, Jay and Kevin maneuvered together in a side-by-side formation, then turned and flew toward the U.S. Flag. Kevin then Jay came out of their freelancing operations with the tracking of nylon. The cheers of the crowd could be heard from 2000 feet as first two April Fools started, then the rest. In first, demonstrating his ability to hit the target. Kevin may not been the most aerodynamic, but he turned in a condescending flag. (For all of you who think you've seen it, it ain't no fun and games with us, the professional sky divers!) And just to make his landing light, he landed in the water in the true traditional style of the sport. Things were happening fast by then - in the other three tiers had already bailed from the airplane and popped their inflated chutes. To the accompaniment of John "Violent" Fly-by-night's commentary, Barbara Shutt, Gary Macfarlane, still sweet little. Peggy Telliia was down on the ramp. Both loaded lightly at the same end of the course and Gary glided in next to the beer tent for a quick briefing. Peggy was last down, doing quite a job of it. Two feathers were caught from the plane along with Peggy. 90% of them would reach the ground before she did. She had her eye on the target this time and twang disdainfully to a smooth landing on it.

With all of the April Fool's Day on the ground, the parachutists once more gathered for some more beer, to fry with Gary's spry, vapid-looking men. Another set of sets. A perfect score. No eye, no try, no jump, no parachute, no landing in the tree.

... what a joy! Three of the folks who jumped into the concept Sunday will be trekking into the unsteady at the end of the trial, Barbara Shutt, Gary Macfarlane, and Kevin Keenan will be turning complications, graduates in three weeks. These were to be the last of Riddle Skydive - acrobatics, the week after last weekend. Kees Burekste, Greg Guiles, John McKinley, Norm Dlugos and Randy Kellogg will get their first "Mastii" experience with jumps from the U.S. Discovery, 1979. So, to watch on at future E.R.A. static lines, it's about to be long

This coming weekend will be a spectacle of strange and "wonderful events in Deland, as the ERA club plans to bond a world record. The largest formation of civilian jumpers from the same school was built by skydivers from the University of North Carolina. Our own plan is to fly an all-Riddle-190 formation over Deland this weekend. Be there. Aloha.

GET A SUMMER JOB WITH A FUTURE.

ARMY ROTC
THE TWO YEAR PROGRAM.
SCUBA CLUB NEWS

By Jim Dunkle

Last minute a few days ago, it was announced that the trip plans to Cozumel and the Cayman Islands were being postponed into November due to financial constraints. This is not without a certain amount of sadness, but it could have been worse. The good news is that the cooperation from the students is being handled in a professional manner, and hopefully, we will be able to continue with the trip.

AFROTC

By Ork Usun

Now that we have come to the end of this trimester, we need to take a look back to see what we have accomplished. We started with a new leadership style that proved very effective and morale among the corps was excellent. We had a lot of fun and challenges ahead.

ERAMGTC

MGTC

By Richard Bellotti

The last of this trimester's activities is about to come to a close. We want to extend a special thank you to Dr. Leonard Klingler, Facilities Operations Manager for Eastern Airlines. Dr. Klingler spoke with us about the aurora borealis and how it is unique to that part of the world. We are all grateful to have such knowledgeable people in our midst.

BOWLING

By KW Johnson, Staff Reporter

To start with, last week's competition was a real nail-biter. Jim Harris did not make the cut with a 225 total, leaving the Bouquet Bowl's pinning up. This week, we are looking forward to another exciting game.

SUMMER GRADS

If you would like to receive a copy of the Phoenix '79, you must complete the order form or come by the Phoenix-Avon office by April 13, 1979. The cost will be $1.00 for mailing of the yearbook.
