Where did the incentive money go?

Possible Misuse of SGA Incentive Budget Funds

By Kid Anite
and Mitchell Kadon

"Last Fall's Incentive Budget was introduced by the SGA for Mike Twardel. The purpose of the Incentive Budget is to foster an environment that promotes the Incen-
tive and encouragement of students participating in SGA and related organizations in the local com-
"munity. The Incentive Budget funds are to be used for student activities, entertainment, and all other purposes that would enhance the quality of student life and promote the
"development of student leaders.

The Incentive Budget was created to provide student organizations with the opportunity to fund projects and events that they might not otherwise be able to do. The goal of the Incentive Budget is to support student-led initiatives that align with the mission of the SGA and to encourage creativity and innovation among student organizations.

However, earlier this week, some students expressed concern about the possibility of misuse of the Incentive Budget funds. A recent incident involving the purchase of a family dinner has raised questions about how the funds are being used.

The Incentive Budget is a valuable resource for student organizations, but it is important to ensure that the funds are used appropriately and transparently. The SGA should continue to monitor and evaluate the use of these funds to ensure that they are being used as intended.
OPEN LETTER TO THE AIVON FROM A STAFF MEMBER

Dear Editor,

In the two and a half years I have been attending EMU, I have read a vast change in the student newspaper and its readership. This change has definitely been for the better.

The purpose of the Student Publication, as Mrs. Cooper has said, is to give you the general student population's opinion. The Student Publication is trying to bring professionally run organization, but we are not sure if they are doing it. The newspaper is printed in students' homes, is part of the number of student, staff, faculty, or student publication. We did not get around to any of the numerous, of gag, on-campus distri-

In the capacity of a student publication, it is my opinion to help in a support for fashion in both publications and to act as a control factor in the office. In this capacity, I realize that I now have the the general student population's opinion. Whether we like it or not, we must be kept for this editorial.
Pre-registered Fall Students add/drop for Fall Aug 18-2

Students who have Advanced Registration for the Fall 1979 trimester may change their schedule in person only. This will take place on Wednesday and Thursday, August 22-23, at the Student Services Center, Faculty/Staff Lounge from 9:00 AM to 5:00 PM. Please read the following charge of registration instructions before you appear at the registration desk, with your ADD/DROP Card of Registrations.

1. Complete top of form with student number, last name, and middle name, if any. Use black or blue pen and write clearly.
2. Print the registration form with your course numbers and sign.
3. Get the signature of the appropriate advisor (i.e., in the appropriate add/drop area).
4. Read the instructions on the form.
5. Remove completed forms from Faculty/Staff Lounge Wednesday, August 22 and Thursday, August 23, from 9:00 AM to 5:00 PM.

In addition to the above completion of the form, you must have a recent entering verification and a good attendance record. This form will be issued by the Office of the Student Center. If you do not receive it by the end of the week, please contact the Student Center for the appropriate signature.

A. Advanced Deposit Collection: Only students who have Advanced Registration are required to appear at the Student Center prior to enrolling in courses. Students attending at the Student Center must present their identification cards and any applicable identification documents. Students must also complete the appropriate registration procedures.

B. Student Withdrawal and Change of Registration: Students must withdraw from courses prior to the deadline for withdrawal without prejudice. Late withdrawals are subject to a fee.

C. Reminder: Students should check the Student Center for the appropriate signature before enrolling in courses. Students who fail to provide a valid signature will be dropped from the course.

D. Registration for the Fall 1979 trimester is open to those who have not completed their academic requirements. Students who have not completed their academic requirements may apply for registration by contacting the Student Center.

1973 as a lieutenant colonel. Among the airplanes he flew in the T-33, KC-135, B-52, and a Stratofortress.

Another Doc For Flight

"D" Becomes Dr. "D"

Doctor D(imitriou) Chairman of Aeronautical Science

By KW Johnson

Dr. "D," as you probably know, is one of the leading figures in the field of aviation. He is known for his contributions to the field and has been involved in many important projects.

During his three years of service, Dr. "D" was able to do four research projects and a dissertation, which is a good sign. His dissertation was on "Flight Safety." About 300 hours of work was put into this paper, which included information from four main areas: wind-

direction, the military, the FAA, and environmental safety. Dr. "D" also said that although over 40% of all accidents occur in the country, regular accidents in industrial safety, only about two percent happen, but which is a very rare occurrence.

Dr. "D" joined the Air Force at age 18, flew navigation training then pilot training. He served a total of 10 years as a flight crew member and another 10 in a staff job. He went on command tour in Southeast Asia and retired in 1973 as a lieutenant colonel. Among the airplanes he flew in the T-33, KC-135, B-52, and a Stratofortress.

After retiring from the military, he taught high school for a year at Windermere, Fla. He arrived here in 1973, and be
came chairman of the aviation program in December of 1973.

His future plans are to "Repair him at Embry-Riddle because this is where the plane is greased. I like the students, they all wear green shirts."

In the fall Dr. "D" will teach Basic Flight Physiology or "History of Aviation," and General Flight Safety. Who better qualified? Congratulate him, too.

Second Generation ERAU

By J.T. Shulman

There are some new faces around the UCC, and one of them is Linda Brown. She is a new guidance counselor in the Counseling Department at M.S. Cooper and in Health Services on the first floor of the UCC. As a staff member of the Counseling Department, she has the responsibility of providing counseling to students. Her duties include conducting individual counseling sessions, providing general information about counseling services, and coordinating referrals to other resources as needed.

Linda Brown received her bachelor's degree in psychology from the University of Florida and her master's degree in counseling from Florida State University. She has worked in various counseling settings, including inpatient and outpatient mental health facilities.

In addition to her counseling work, Linda Brown is involved in the administration of the counseling program. She works closely with the dean of the College of Education and the dean of the College of Arts and Sciences to ensure the program meets the needs of students. She also participates in the development of new counseling courses and the evaluation of existing courses.

Linda Brown is available to meet with students who are interested in discussing their concerns or issues. She encourages students to reach out to her if they have any questions or concerns about counseling services at ERAU.

Advance registration - Fall 1979

All students - Do you have your Advance Registration forms for Fall 1979 semester? May we see them at the registration desk in the University Center on both Fall Term; from 1000 to 1800.

In order to eliminate confusion and unnecessary trips to the registration hall, please be sure to make the following pins:

1. Visit the University Center on Monday, August 28. The University Center will be open from 1000 to 1800. Please be sure to bring your Fall Term registration forms with you.

2. All students must show their Division Chairman to secure a registration form.

3. The new registration fee is $5.00. The yellow copy from the student's file will be used to register personnel at the registration desk.

4. Degree seeking students registering for flight.

5. See the registration form and file the student's file copy to registration personnel.

6. Students desiring to register for flight.

7. A new student registration form must be completed for each student.

8. Students desiring to register for flight.

9. Students desiring to register for flight.

The University Center will be open from 1000 to 1800.

E-RAU Student receives newscarrriers' scholarship

The national Л. A. U. of America, the honor society for students in journalism, has awarded the scholarship to the newscarrriers' scholarship to a student at Riddle.

The scholarship is given to students who have demonstrated excellence in journalism and who are registered at Riddle University.

Sablener Makes Longest Flight

The flight from Miami to Paris, a distance of 6,965 miles, was accomplished by a single-seater, the Sablener, on April 6. The first flight of an air vehicle was made by the Frenchman F. A. M. on July 2, 1906.

August Engineering Graduates

In aerospace awaits you at

MARTIN MARIELLA

Our Denver Division has many new opportunities awaiting recent college graduates. Help locate new opportunities by joining us in Denver, LA. Santa Maria, CA. Currently there are 35 openings in the Denver area. We are adding new positions in such areas as Space Launch Systems, Defense Systems, Computers, and SOLAR Systems. Join us now.

Opportunities Abound

Within these areas are many entry- to mid-level positions with quick growth potential. Our employees enjoy competitive salaries, benefits, and opportunities for advancement. We offer a complete benefits package including medical, dental, and life insurance.

CAREERS BEGIN HERE

If you are interested in a career in aerospace, you'll find the challenge greater than the work more rewarding. Contact Martin Marietta.

Applications are encouraged from all qualified candidates, including women and minorities. Please send your resume to the address below.

SIGMA CHI

By Greg Searlston

With B-17 matte under way now, and our annual "Samhain" almost history, the mood of the week somehow began to get a little bit flat.

I suspect that many of you are just about finished with your first week of school. If you are, congratulations! If you aren't, you may be feeling a little bit under the weather. However, there are a few things you can do to make the most of your first week.

1. Make a schedule:
   - Break down your tasks into manageable chunks.
   - Set specific goals for each day.
   - Prioritize your assignments.

2. Get organized:
   - Organize your study materials and supplies.
   - Keep your workspace clean and clutter-free.
   - Use a planner or to-do list to keep track of your tasks.

3. Take care of yourself:
   - Take short breaks to stretch and rest your eyes.
   - Eat healthy snacks and stay well hydrated.
   - Get enough sleep at night.

4. Connect with others:
   - Join study groups or discussion forums.
   - Reach out to professors and classmates for help.
   - Attend campus events and clubs.

Remember, the first week of school can be challenging, but it's a great opportunity to set a strong foundation for the rest of your academic year. Good luck!
E-RAU Dives makes cave safe!

On May 5, 1979 a 23-year-old Orlando man died. The diver was exploring the underground cavern of DeLeon Springs when he was killed. The Orland man left his buddy, the safety line (which is connected), diver inside and out of the cave, and managed to take the roadway, the water flow is negotiable, visibility dropped to zero.

On June 2, members of the E-RAU Scuba Club (Mr. Tice, Buck Griffin, Dave Ricketts and the author) dove DeLeon Springs to investigate a possible area to place a grate. This grate, made from steel, would prevent divers from exploring the safe portion of the area, and thus, to protect the site. Of these to four divers, a mechanical drill was needed to create the holes necessary for the grate to be placed. Eight divers later, on June 20th, the last steel rod was placed, making DeLeon Springs a safer place to explore.

Dave Ricketts, Buck Griffin and Mr. Tice prepare for exploration.
