FOCUS CAST ON PRODUCTS OF MISSION

By J.T. Shaban
AIAA Staff Reporter

July 30, 1979 marked the beginning of a major historic mission mission to the moon. The Apollo 16 landing on the moon in 1972 had done the space exploration. At the Cape Canaveral Air Force Station, Cape Canaveral, Florida, in the same area where the Apollo 11 landed, the Saturn V rocket was launched to the moon.

The Apollo 16 landed on the moon at 4:07 a.m. on April 16, 1979. The landing site was on the eastern edge of the Challenger Crater. The astronauts, John Young and Charles Duke, spent three days on the moon, conducting experiments and collecting samples.

The mission was a success, and the Apollo program was hailed as a great achievement. The landing on the moon was watched by millions of people around the world, and it was a major event in the history of space exploration.

In the years since the mission, the United States has continued to send missions to the moon, and it has also sent missions to other planets, such as Mars and Saturn. These missions have been successful, and they have helped us learn more about the solar system and our place in it.

In conclusion, the Apollo 16 mission was a historic event that helped us understand the moon and its place in the solar system. It was a success, and it paved the way for future missions to the moon and beyond.
Letters to the Editor

It's good to read some real investigative reporting from the Arrow. I was a sated at the time of the award banquet and to the best of my knowledge the Arrow was not involved. The article by Jim Green was well written and informative. It should be read by all who are interested in similar topics.

Once again, the end of the year is here. It has been a hectic summer for the SGA. The Student Government has been working hard all year. What have we done? Where are we today? What is going to happen? And how do we feel about it?

That's the question that's been on everyone's mind. The SGA has been working hard all year. We have been working on various projects, such as the SGA's new website, which has been launched. We have also been working on various events, such as the SGA's annual banquet, which has been attended by many students.

The SGA has also been working on various initiatives, such as the SGA's new logo, which has been designed by the students. We have also been working on various projects, such as the SGA's new website, which has been launched. We have also been working on various events, such as the SGA's annual banquet, which has been attended by many students.

**NEW ERAU Recreation Director Arrives**

Meet our new Recreation Director, Linda Barta-Sherman! She will be responsible for overseeing all aspects of the Recreation Department, including programming, facilities, and special events.

**WOMANS SOFTBALL**

A successful season of softball at Erma Riddle Elementary School has come to a close. The Lady Riddlers ended their season with a record of 12-1, losing only one game.

**The RIDDLE RUNAROUNDS**

A group of students from Erma Riddle Elementary School will be participating in the upcoming Riddle Runarounds event. The event is open to all students in grades 3-5 and will take place on September 21st.

**Florida Bank is People**

**Enjoy the convenience of our full service branch at Clyde Morris and Volusia Ave.**

(in front of K-Mart Plaza)

**Florida Bank & Trust Company at Daytona Beach**

**August Engineering Graduates**

Our Department Division has many new opportunities awaiting our graduates. Major facilities are located in Denver, CO, New Orleans, and Santa Barbara, CA. Currently, there are 365 contracts that involve work in such areas as Space Launch Systems, Defense Systems, Computer Systems, Data Acquisition Systems, Yeast Integration, Space Station, and the new generation Missile System.

**Opportunities Now Available**

We are in need of engineers with experience in the following areas:

- Software
- Test
- Propulsion
- Thermal
- Mechanical
- Electrical
- Structural
- Materials
- Manufacturing
- Industrial Engineering
- Logistics
- In-service Evaluation
- Guidance and Control
- RF Systems and Communications
- Data Handling
- Power Systems
- Payloads and Sensors
- Quality and Safety

COUPON EXPIRES AUGUST 15, 1979

928 Volusia
Begin planning your career as early as possible. Establish goals. Whether you desire a civilian occupation, a military career or a combination of the two.

The Marine PLC (Platoon Leaders' Class) Program allows you to complete pre-commissioning training only during summer training increments. There are no drills or class requirements during the school year. You are paid for your summer training and you are not obligated to military service if you choose not to accept your commission. For pilots and law students, aviation and law programs are guaranteed. Unrestricted officers have a choice of all other fields.

Not everyone possesses the integrity, judgment or flexibility to be a Marine Officer. For those that do, the rewards are great.

Initial obligation is 3 years for unrestricted officers, 54 years for aviators.

Starting salary = $14,500 (unrestricted), $15,800 (aviators).

FIND OUT IF YOU'RE QUALIFIED BY STOPPING BY THE STUDENT CAFETERIA, AUG. 27-30, SEPT. 4-6, SEPT. 10-13, AND TALK TO CAPTAIN H.P. RHODES OR CAPTAIN J.M. YENCHI, UNITED STATES MARINE CORPS OFFICER SELECTION OFFICERS.

Wanted: Get more out of college than just a degree.
