Eagles Gave It Their All

By Jeanie Snyder

After a fine Hall of Fame presentation, the Eagles' Varsity Baseball Team began play against the University of Michigan's baseball team. With temperatures conducive to hot blooded action, everyone on and off the field was anticipating frosty temperatures, and the game began.

The Eagles' bats were hot and heavy as the Umpire team's coach gave Joe Golinski, Eagles' coach, a 'good job'. Joe, however, was set up for the challenge.

In the 4th inning, and with runners on first and second, a hard hit provided two runs with the bases loaded.

Eagles 2, University 0

It is good to know that Eagles' pitcher Dickson was able to pitch through the 5th inning and make it to first base.

Eagles 2, University 0

Good action from Eagles' batter Dickson was seen in the 5th inning. Dickson placed a ball which the University's pitcher allowed to be fielded. Dickson made it to first base.

Eagles 2, University 0

**LETTER TO THE EDITOR**

Are you aware of the school policy regarding your diploma? You will not receive it until the graduation ceremony held at the end of the term in June. Is it in time for you to get it on the day after? I am writing to offer you encouragement and advice. I have received a diploma, and I suggest that you get in touch with the school office to make arrangements for the ceremony.

I hope you will not be disappointed and I wish you all the best.

S. Austin

---

**LETTER TO THE EDITOR**

When we speak of the "Rocket Run Amusement", we think of the student body of the University without regard to the students of the Administration who are currently studying to help us solve their problems. A classic example is the work being done by the American Standards and Procedures Committee. This committee is under the jurisdiction of the chairman Dr. K. R. Johnson. Apart from coordinating activities, the committee makes decisions on student petitions by majority. Too many students are, therefore, taking courses without a proper understanding of the subject matter.

---

**Editorial**

Student safety has been a problem in the university for a long time and shows no sign of letting up. There are many safety regulations in place, but students do not always follow them. It is essential that we all follow these regulations to ensure the safety of ourselves and others.

The BCA for example, is a unique educational organization that helps students to develop their skills and knowledge. It is important that we all follow the rules and regulations set by the BCA to ensure the safety of all students.

---

**Letters**

The space shuttle is a great point for discussion. Many people are concerned about the safety of the space shuttle. However, there are many benefits to using the space shuttle, including the ability to conduct scientific research, explore the universe, and advance technology.

**The Bar Tender**

By Pat Frankel

Did you ever read a magazine article about an all-night bar that you'd love to visit? Well, you've read the wrong magazine if you're planning to visit the bar in this article. The most interesting feature of this bar is that it's not a bar at all; it's a place called "The Bar Tender." Until recently, this establishment was known as a "bar" in the true sense of the word, but now it's become an all-night coffee shop offering a variety of beverages and meals to those who want to stay up all night. It's located on the corner of Main and Ridgewood Ave. — in a place called "Fanny's.""-

Have you ever wanted to know what it's like to work in a coffee shop? Well, now you can find out! At "The Bar Tender," you'll get to enjoy the same atmosphere that you would experience working at a traditional bar, except you won't have to worry about closing time! The staff is friendly and knowledgeable, and they'll be happy to answer any questions you might have about working in the hospitality industry.

AFROTC
By Jim Swartzman

During Corps Training on Tuesday, April 26, 1960, the cadets and staff of Det. 135 were privileged to hear a very interesting address. The lecture was presented by Brigadier General James E. McCarthy. Gen. McCarthy is deputy for strategic space and electronic programs, Air Force Aeronautical and Inertial

Lucas Ryan, Bomber RA. came up with an idea of holding an event that Saturday afternoon. Even though it was quite hot, they all had a good time and met up for drinks at Tailfeather. The best sort of weather.

This week's new happenings are filled with fun. This Saturday's event will be held in the Student Activities Office at 7 PM. Everyone is welcome to attend!

Christian Fellowship Club
By Bruce Johnson

The Christian Fellowship Club is meeting again this week, on Monday at 5:30 p.m. in the CPH. The school calendar indicates that the meeting will be held at 5:30 p.m.

The VAINT AIR COMMAND

AIRSHOW

The largest flight demonstration of World War II bombs, fighters, and missiles will be on at the State of Florida. The show will be held this week, starting at 10 a.m. at the Virginia Beach Park. Details are all on the flyer in the Student Activities Office.

Marine Corps PLA OON LEADERS CLASS AVIATION

The little-timers' touch party yesterday put everyone in a real good mood. There were some really nice girls there and we all hope to do it again. Everybody had a great time especially Gary H. and Delaney E., who claims to have thrown the light.

On Saturday night, the brothers went out to dinner and some went out to Ross's in Orlando. So I hear we are

fuzzy the Orlando group made it back. Bob, who was also there, gets to know each other better. Our schedule will certainly mean that we will see more of the outside world.

On the sportz 'side not too bad and not too bad. We won our first game by forfeit and lost our last game by forfeit. Figure that one out! But the Sunday men in blue and red still strike back.
Olympic superstar Bruce "Wolverine" Jenner drove an excellent race but had an early mechanical failure. His newly designed BMW 860, No. 3, had problems in lap 139.

The rear wheel hub locked up and shattered his transmission.

The M-1 is a prototype, 1 of 2. It features aluminum monocoque construction with a 5.6-cylinder, 3.5-liter, 24-valve, 500-hp engine.

After the first 10 hours of the race, only 33 cars were still running. At 2:35 a.m. Sunday, the last BMW retired from the race. And as the sun came up on the stationary cars, the average speed came up with the lead car No. 9 (Billurk Ford), 9th place, No. 2 (Billurk Ford), 10th place, and No. 09 (Whitney Bros.) car No. 19 (Whitney Bros.) was 7th place.

At 11:30 Sunday morning 30 cars were left racing under cold grey skies. The Brumos Porsche Audi Turbo-Carrera car No. 59 developed a crankcase failure. It was having compression and throwing blue smoke. They drove it a few hours while the pit crew and sponsored determined and then dropped a shiny new $5,000 engine (Turbo and left it under one hour. The car fell from 4th place during the pit stop but finished in the top ten, around 2 p.m. Fighter officially dropped out of the race because of mechanical failure.
A few laps later the star-
right Porsche No. 2 took the
lead and held onto it until the
end of the race. The car had
been an engine in practice
and was running with a 2.6-liter
turbocharged engine. This
was 200 cc smaller than the rest of
the cars. But driver Rolf
Stommelen did a superb job
of maintaining position
throughout the race.

Rolf was considered one
of the world’s foremost Grand
Prix drivers since 1975 when he
earned the German GT championship.
In 1976, he won 24 hours
of Daytona with co-drivers
Peter Gregg and Tony
Beyermeister. In 1978, the
Walters team won the
Daytona 24-hour race with
co-drivers Dick Barbour
and Paul Newman. The
Buecher Porsche won with a
track record of 7.15 laps in
24 hours.

The second place finisher,
car No. 38, was another Por-
shce. Sponsors of the
Thunderbird Swag Shop and
driven by Preston, Ford, John,
Paul and Al Holbert. They
attributed their victory as good
driving and a dependable car.
They set lap records and averaged
80.4 mph.

Third place finisher, car
No. 20, was driven by a Porsche
turbo-powered by Swisspace Racing, driven by
Danny Ongais, Bill Auberlen
and Ted Field. Danny Ongais
was the first driver to
finish the 24 hours of
Daytona, in first place.

And 4th place finisher car
No. 89 brought much glory
to Chevrolet with its twin
red Continent. All Canadian Rac-
ing sponsored the car. This
only production part of the
Libertyman (front end was the
plastic grille and yellow driving
lights).

The competition was very
tight this year. Many of the
cars were faster than previous
years and more dependable
throughout the race. This year,
1982, also saw new innovations
such as the Whirlpool driven
BMW 644-1 which is still being
improved in the prototypes
stage. And along with increased
demand, these innovations
are truly making the sport more
enjoyable for everyone.
sports

by KEVIN JOHNSON

So far this season, the Escanaba, Michigan, Varsity Hockey team, the Eagles, have kept themselves a .500 record. And at the end of the first half of the season, the Eagles look forward to the Flight Interscholastic Champions- ships at the University of Illinois in Champaign-Urbana.

Their schedule looks like this:
- 1/5 vs. Bay City Catholic
- 1/6 vs. St. Ignace
- 1/7 vs. Traverse City St. Francis
- 1/8 vs. Grand Traverse Bay

The Eagles are scheduled to play those five teams in the state tournament. Currently, the Eagles are placed second in the state behind Traverse City St. Francis. They are confident about their chances of making it to the state finals.

The team's coaches are optimistic about their chances of success. They have been preparing for this season for months, and the players are eager to show what they can do on the ice.

Although there is still a lot of hockey left to be played, the Eagles are determined to bring home a championship. They believe that with hard work and dedication, they can achieve their goal.

The Eagles are looking forward to the challenge of facing tough opposition in their upcoming games. They are confident that they have the skills and the motivation to succeed. They are looking forward to proving themselves on the ice and bringing home the championship trophy.

...and they're off!

The Eagles take to the ice with a determined spirit, ready to fight for their dreams. They are confident that they have the ability to succeed, and they are ready to face whatever challenges come their way. They are determined to bring home the championship trophy and prove that they are the best in the state.
By EW Johnson

The Embry-Riddle Eagles will start their 1980 season on 9 February at Daytona Beach. Last year, the Eagles compiled a 9-10 record, which, according to Coach Joe Gillotta, was due to the influx of pitching staff. This season should show an improvement over last year's record, says of this-year coach, especially due to the up-
coming freshmen pitching, which is for-seeable strong.

The Eagles are an NCAA Division II Ball Club, and for the
end of last season they, along
with Coach Gillotta and assis-
tant Coach Steve Blakemen, won
the city championship for the first time, by defeating Bethune-
Cookman College, two of three
part.

With the 32 player schedule already set for this season, the
clock is ticking for at least
300 season, providing the pitching staff holds out. In
Volkswagen that year, the staff has a 3.37 record.

Coch Gillotta has really
helped the team by pruning inter-
ligent in the team and im-
proving the pitching. The coach
nowthat this enthusiasm has grown
over the years, and the talk of
"Little school spirit" is nothing

A world of careers in Aerospace for tomorrow-minded college graduates.

See our representative on campus Feb. 29

Our Denver Division has many new opportunities awaiting college graduates. Many facilities are located at Denver, CO; New Orleans, LA; and Santa Maria, CA.

Careers Begin Here
If you're considering a career in aerospace you won't find the challenge greater nor the work more rewarding than at Martin Marietta. Work in such exciting areas as Command and Information Systems, Solar Systems, Space Sciences, and Payloads Integration. Overall, we have over 300 contracts including 4 major contracts over 100 million dollars each extending into the 1980's. They include the external fuel tanks for the Saturn V, and the new launch systems for the Evening Star, and Space and Defense Systems including the new generation mobile Minuteman. X

Opportunities Now
Within these areas are many entry level growth positions that offer practice experience and advanced state of the art equipment. Opportunities range from electronics, propulsion, thermophysics, structures, mechanics, dynamics, stress, materials, microwave analysis, product development, industrial engineering, logistics, integration, system guidance, control, RF systems, communications, data handling, power systems, payloads and sensors. Quality. Safety and Manufacturing.

In addition to the on-the-job opportunities the company's comprehensive programs of employee advancement, training and professional development are designed to provide the opportunity for steady advancement into management roles. Such programs include extensive career counseling, in-house career training, in-service personnel training, continuing professional education, and the like.

Interested graduates please contact Mr. John N. Driscoll, Director of Engineering Recruitment, Box 179 (IDE301) Denver, CO 80201.

Single And Living In Daytona

By Brit Johnson

Those students who live off-campus, and can't wait for
the next meal plan will find this article helpful. They are defin-
ing Buying less and eating out. In addition, they are
finding the need for more and more money and you get it.
This article is de-
signed to help you keep your heat and still eat good.

The first thing to keep in mind is the most
important: You will have money and time. This means no extra trips for
the money and the gas with al-
most $1.00. It is a good reason to have a list. The sec-
ond thing to keep in mind is
you don't have to shop. No point in buying a lot of food when you have
ready-meal in the refrigerator.

Some

By law, packages, food has be handl en. Find out what you're buying. The ingredients
you have to order in from a list of contents. (Canned Com-
mixes, etc.)

Rocky Comes To Town

By Carlos Garcia

Rocky is one of the best
movies for an action
lovers for admission of
those who like to see
the story. It is a com-
nedy, action, and thrill
movie that was made
in 1982. It is about a
man named Rocky Bal-
boa who is a boxer and
a family man. The movie
was released on July 19,
and the critics gave it a
three-star rating.

Money Talks; News From Financial Aid

The Rocky Horror Picture Show is a
comedy, rock and roll movie
that was made in 1975. It is about
four college students who are
trying to make a living by
performing burlesque shows in a
theater. The movie was released on
October 31, and the critics gave it
a four-star rating.

Horror At The Sunshine Mall

The Sunshine Mall is a
shopping center that is
located in Daytona Beach.
It was built in 1973 and
is about 700,000 square
feet. The mall has over
100 stores and several
restaurants.

Zeta Beta Tau Fraternity

The Zeta Beta Tau Fraternity is
a social fraternity on the
Florida State University
campus. It was founded in
1931 and has over 400
members. The fraternity
focuses on leadership,
community service, and
broader interests.
