Eagles Gave It Their All
But Ump's Came Up On Top
by Ingrid Snyder

After a Fall Hall of Fame awards presentation, the Eagles Varsity Baseball Team began play against the Harry Cabelton School of Umpire baseball. Without near freezing temperature (not conducive to hot blooded moves) - for everyone on and off the field was acquiring frostbite, so the game began.

The pre-game verbal jabs were hot and heavy as the Umpire team's coach gave Joe Golinski, Eagles' coach, a "take nothing for granted." Joe, peppermintade, however, and all set up for the Eagles.

In the 4th inning, and with some runs were made by the Eagles with a full flow - with pitcher from the Umpire School, but to strike out, that in his heat. Through walks and near misses, the Eagles now had a 4-1 lead. In the 5th inning the Umpires made it 6-1 when a lead had proposed to run with the bases loaded.

**EAGLES 1, UMPIRE 0**

Good action from EAGLES with one out made by the Umpires with a full flow. With pitcher from the Umpire School, but to strike out, that in his heat. Through walks and near misses, the Eagles now had a 4-1 lead. In the 5th inning the Umpires made it 6-1 when a lead had proposed two runs with the bases loaded.

**EAGLES 1, UMPIRE 0**

Good action from EAGLES with one out made by the Umpires with a full flow. With pitcher from the Umpire School, but to strike out, that in his heat. Through walks and near misses, the Eagles now had a 4-1 lead. In the 5th inning the Umpires made it 6-1 when a lead had proposed two runs with the bases loaded.

LETTER TO THE EDITOR:

Are you aware of the school policy regarding your diploma? You will not receive it until the graduation ceremony, held at the end of B-town in June. Is it in your best interest to go off the reservation? I'm sure your diploma will be there when you graduate. Be sure to come.

S. Austin

Stalin's youth has been a problem in the University for a long time and shows no sign of letting up. There are many other students who have yet to graduate. I, for one, am at the beginning of my academic career. I would like to point out that Stalin himself was not the only one to suffer from this kind of discrimination. Many students have been denied the opportunity to receive their diplomas for various reasons.

The BSA for example, a well-known organization, recently sent a strong message to the government. They stated that the question of your diploma is too important to be handled casually. Let us hope that the students' feelings are being considered.

Many students feel that their hard work and dedication have not been recognized. They are frustrated and feel that their rights have been violated.

There are many things that students can get involved with. They can help B-town, or take a little motivation and a little time.

The space shuttle is a great point for such resource programs. It has been a topic of discussion for many years. Some people believe that the shuttle is too costly and that we should not invest in space research. Others believe that it is essential for our future.

NASA has become a multi-

stakeholder organization whose chief objective is to gain new knowledge and new technological capabilities for the benefit of mankind, the greatest challenge for our generation to put more money into research.

"In the coming decades, space research will give rise to new materials, new products, and new production techniques, which are relevant to the civil economy," President Theodore Dunkle of the Kennedy Pienoneer Program Center, stated in an exploration document.

Aerospace firms are support-

information programs to contain breakthroughs in the aerospace industry (ASPIRE). A number of firms are being asked to invest money in this area. The idea is to encourage research and development in the field.

"The need for new materials is evident," one executive said. "We have the technology to make them, but we need the money to do it." Another executive added, "The aerospace industry is a key to our future. We need to invest in it to stay competitive."
The Bar Tender
By Pat Fincher

Finn's is known for its affable bar attendants. But it often pays dividends to speak with the manager, before settling on your favorite libation. The more you order, the louder your voice gets. Finn's is also known for its wide selection of spirits, from the usual suspects to some lesser-known beverages. Finn's is open until 2 a.m. on weekdays, and until 2:30 a.m. on weekends. They offer a variety of lunch specials, which include sandwiches, salads, and wraps. Finn's also has a happy hour from 3 to 6 p.m., which includes half-price drinks and a selection of appetizers. Finn's is located at 123 Main Street, on the corner of Main and Broadway. Give them a call at (555) 123-4567 for more information.
Mack Ryan, Brother R.A., came up with an idea of bowling on that Saturday afternoon. Even though a political issue with the flaming bubonic would have been attempted, you can't MEET around with Mother Nature, both the Bowlers and Second South had a good time plus the bowling team needed the practice!

The personal message for the men at BLAKEY RYAN IN HUMANE TO VENUS FLY-TRAP!

Christian Fellowship Club
By Joe Facchino

The Christian Fellowship Club is meeting again this semester, on Mondays at 5:30 p.m., in the CPR. The school calendar incorrectly lists us as meeting at 5 a.m.

The VALENTINE AIR COMMAND

AFROTC

By Jim Scharfenberg

During Corps Training in the middle, Saturday, 29, 1980, the cadre and staff of Det. 137 were privileged to hear a very interesting lecture. The lecture was presented by Brigadier General James E. McCarthy. Gen. McCarthy is Deputy Director for Strategic Space and Strategic Operations, Air Force Operations at the Air Force Strategic Command, Wright-Patterson Air Force Base, Ohio. He is a graduate of the Virginia Military Institute, where he majored in Electrical Engineering. He received a master's degree in business management from George Washington University. His active Air Force duty was in 1952, which began his Air Force active career. He is a prop��on pilot and a veteran with more than 7,000 hours, he also has more than 2000 hours.

The little-timers rush past, everyone into the real good sound. There were some really nice girls there and we all hope to see them again. Everybody had a great time, especially Gary Hl and Dudley Z. We claim to have more fun.

On Saturday, everyone was out about town and some went over to Otto's in Orlando. As I hear it, we are lucky the Orlando group made it back home, which way we do welcome and hope you will all be there.

On the sporting side not too bad and not too one. We went our first game by football and our last game by dint.

Friday was an outstanding day. But the sun was in the blue sky.

Well I guess that is it for the week. C. Mickey

Grumpys Wright says if you claim to be a good educator, then prove it is a member of F.S.A.'s National Honor Fraternity.

February has quite a lot in store for the men of the Corps. To start off the month right we had little games with the brothers and new prospective pledges to get to know each other better. Our schedule will contain many things that vary from singing beer at the Daytona 500, car wash and parties. So guys, just your time right.

AHP

This past week was a busy time for most of the brothers. After meeting the pledges, some went to Florida State. The pledge week down to the Aku-Tiki for some good beer on Friday night. Ken Patterson and Bob Kurz insisted that Bob sign up Grant and tex the floor to us. They all joined us and everyone then raised him if Mr. Rogers. Who knows?

Despite the job, sun, weather, a few and I mean a few, enjoyed their time. The Saturday softball practice was real for, Sigma Phi Delta. The weather was great and the team had a perfect score because of some of the guys that think that the other guys will show up. Let's all get more people.

Even though we didn't sell as the 23 Hope Race, AHP was well represented by pledges and pledges alike.

One other thing that I think they will not be complaining about Friday. Do you hear that.

Arnold Air Squadron

All week long we had a great time, mostly at Daytona, Dale "The voice of tennis" Ferguson is a walking cartoon. While he was calling carried away.

Major Henderson taking Air Force drama fields at AFV2 class we're getting on... stick.

You really can't write one controversial article and right away you're internationally removed. Last week I was visited by two interesting characters drama majors, one from Stetson and one from Rollins. I didn't know how they ever found me in the libralian's motorcycle of

AXA

By Dick Z.

We had a busy week for every- one in Lamba Chi. Most were busy with school all week, but when the weekend came along Friday night led to the infamous Delta Chi house for Happy River. Everyone had great time, but I'm afraid we all were very late. The menu was a grand one and we had a good time.

Sawyer brought cold wave, some of us were able to go through our time while the rest of us left from the cold. We brought some on the "Hulas. Lanes for some bowling and some beer. After we had our fun we kicked the dies end up at P.D. Tilley only the Capt. Bob and Ron Brooks were there. They were dancing and smoked half dill. It was good to see them again.

of-Daytona

A few laps later the star-craft Porsche No. 2 took the lead and held onto it until the end of the race. The car had been built around an engine in place, giving it a 280-horsepower turbocharged engine. This was 200 more than the engine of the other cars, but driver Rolf Stommelen did a superb job of maintaining position throughout the race.

Rolf was considered one of the world's foremost Grand Prix drivers since 1975 when he crashed while leading the Spanish Grand Prix. The doctors told him that he would never race again. Both doctors and fans were surprised by his courage and determination. In 1977, he returned to the German GT championship. In 1978 he won the 24-hour race of Daytona with co-drivers Peter Gregg and Tony Haywood. In 1979, he won the Watkins Glen 6 Hours and was second in 24 Hours of LeMans with co-drivers Dick Barbour and Paul Newman. The fourth-place finisher was with a track record of 713 laps in 24 hours.

The second-place finisher, car No. 20, was another Porsche. Spurred by the Thunderbird Swap Shop and driven by Peugeot, Ford, John Paul and Al Holbert. They attributed their victory to good driving and a dependable car. They set lap records and maintained good average speeds.

The third-place finisher, car No. 50 was this Porsche turbocharged by Emeryw. Racing, driven by Don Ohlson, Bill Minter and Ted Field. (Denny Ohlson drove with Hurley Haywood and Ted Field, in first place in the 1977 24 Hours of Daytona).

And 4th place finisher car No. 60 brought much glory to Chevrolet with its first red carpet. All Canadian Racing sponsored the car. The only part in the fiberglass (front and rear) was the plastic grille and yellow driving lights.

The competition was very hard this year. Many of the cars were faster than previous years and more dependable throughout the race. This year, 1979, saw new engines such as the Wheeland driven in the prototypes stage. And along with increased speed, more excitement for everyone.

THE TASTE OF VICTORY: 60 million

THE ROAD ATLANTA: Porsche of the Whittington Bros, made into the pits late Saturday night. Unfortunately, the light turned off. This was out of the two Stanley morning with mechanical problem. (Photo: Daytona Intl Speedway)
There were four K-BALL basketball games played already at the Daytona Beach YMCA. Two of the games were on Tuesday night (2-20), and the other two were held this past Saturday.

Game 1, a new season tournament the 80th and 1st game, had 15 points but only 2 of double digit scorers. Teammate Atkins (52) had triple high score for the night, with 10. The only other double was Fisher (39) who pumped in 14, in a losing cause. One person fouled out of the game.

Hubby Diddle crushed the Mechanics, 84-64 in game 2. No. 1 seeded out of this game, but Guerriero (77) hit 17 field goals and 2 free throws and sealed up high score with 38. Naturally he plays for Hubby Diddle. Fellow Diddle George Brown (55) also hit double with 18 points. The only Mechanic to double was Grant (13), who had 12.

The Rockets looked impressive, as they more than doubled the output of the Oddballs in game 3, 56-27. This game also had three guys in double, but all for the victorious Rockets. Davis (13) led all with 16 points, followed by Gibbons (13) and 14, team McAllister (13) with 10. .

But Timers 70, Riddle 40, was the score for game 4. The Timers had three of the four high scores. Hare (16) led by 27, followed by Barrett (14) and 14, and then Winborn (6) with 10. The only Riddle in double for the night was Ensminger (30) who added 11 to his team total. There was one foul out, and one technical call.

Come on out and watch the fun at the 77th annual Tuesday night or Saturday afternoon.

By Ken Clark

I saw a few of a crowd almost halfway through the third game Thursday night. We’re getting started later every week, if anyone’s interested is bidding for the coffee and No-Dad昼夜, please see the management. It was another good night for 204 games. There was also own 902 games. Bob Novalo (Old No. 7) had high score with 224, 218 and 214 for 622. Leo Venturi (Basketball) had high game of 239. Couple with a 217 and 166. Last rolled a ten 677 series. Tien high series were tone George Kaifay (Skee-Z Boys) with a 346. Other 200 games: John Richard, Win. Place, Show 215, Rick Fron- born (Win, Place, Show) 213, George Kaifay (Skee-Z Boys) 212, Tim Lartson (Gibbs) 206, Gary Francis (Elkhorn) 201.

Baseball clinic a success

The baseball clinic held at the Daytona Beach YMCA last Saturday came as close to a success it was considered over. Bill Kry’s gave the instruction to all who signed up, including both K-BALL students and staff.

Cubs were held in the warm- ing and the afternoon. “If you think you might be interested in taking lessons, and you’re in the market,” Kry’s said. “There are there will be another one in the near future.”

The next floor hockey games (excluding tonight) will be on Monday, 13 & Wednesday, 15 Feb. The games schedule for the 11th is: STU vs. APROC (6-09), Maintenance vs. Extensor.

Trouble making friends tonight: “I don’t want to say we’re in the market,” Kry’s said. “There are there will be another one in the near future.”

## Baseball: Eagles prepare to take flight

By E.W. Johnson

The Embry-Riddle Eagles will start their 1980 season on May 3 at Daytona Field. Last year, the Eagles ended up 8-11, which, according to Coach Joe Collins, was due to the woes of pitching and fielding. This season should show an improvement over last year's record, says the third-year coach, especially due to the up-and-coming freshmen pitching, which is one of the reasons.

The Eagles open up the season against the University of Florida. The Eagles defeated Florida in the home opener last year, winning 6-0.

The Eagles have been practicing throughout the winter and are ready to take to the field. Their first game is against the University of Florida, and they are looking forward to the challenge.

## SCRIBBLES

By Joe Rossi

Holly Hill Basketball

We have another basketball team in the area and most of us want to know about it, a team representing EAU and Auntie Cash, better known as the Auntie Cash, a new team formed last year. The team consists of mostly freshmen and sophomores, and they are fielding a strong team this year.

The team has been practicing for the last few weeks, and they are ready to take on their first opponents. They are looking forward to the challenge and are excited about the season.

"Of Clocks and Bad Jokes"

There is a definite discrepancy between real time and time on E-RAU clocks. The most glaring examples are the library clocks. Some of these are more than 15 minutes slow. That much difference could mean even the most conscientious student late for class. I contacted Mr. Chuck Howard at the Physical Plant. He informed me that the custodians check the clock in the UMC with the one at the

CO-OP NEWS

By Keill L. Maupin

The University's Co-Op program (cooperative education) has been quite successful in helping students find jobs related to their fields of interest. If you are a new student who is unfamiliar with the Co-op, contact Mr. Covy, a student who has handled an invitational job and will help you. His name is Dan Lampkin, and he is a flight attendant for United Technology's Aviation Department in Hartford, Connecticut. He has been stationed in Denver for a year and a half.

The training he is receiving is very intense because the job involves many fields of engineering, including navigation, meteorology, and electrical systems. He also spent time in the Bahamas and Hawaii. He is making a $2,000 base salary, and he is expected to earn at least $5,000 in the next six months.

One of the best experiences Dan Lampkin is undergoing is that he has begun flying on a stop-and-go basis on the 777. This provides him with very high performance at any time. Also, he is learning some of the flight engineering needed for the 777. As a result, he has the opportunity to work on the future of the industry.

Dan Lampkin has many new jobs in store for him. He is considering a career in aerospace, where he plans to work with high performance aircraft. He is also interested in the field of meteorology, where he would be able to apply his knowledge of atmospheric science.

See our representative on campus Feb. 29

Our Denver Division has many new opportunities awaiting college graduates. Many facilities are located in Denver, CO, New Orleans, LA, and Santa Ana, CA.

Careers Begin Here

If you're considering a career in aerospace, you won't find the challenge greater nor the work more rewarding than at Martin Marietta. Work in such exciting areas as Command and Information Systems, Solar Systems, Space Sciences, and Payload Integration. Overall, we have over 300 contracts including 4 major contracts over $200 million each. In addition, we have over 300 employees in the state of Colorado alone. We include the following areas:

- Propulsion
- Thermophysics
- Structures
- Mechanics
- Dynamics
- Stress
- Materials
- Missiles
- Product Development
- Industrial Engineering
- Logistics
- Integration
- Systems
- Guidance & Control
- RF Systems
- Communications
- Data Handling
- Power Systems
- Payloads & Sensors
- Quality
- Safety
- Manufacturing

In addition, we offer our employees the opportunity to participate in our comprehensive program of employee benefits, including an equivalent to approximately forty percent of employee costs for the plan. We also offer a tuition reimbursement program.

Interested potential candidates please contact Mr. Martin Marietta at our Denver, CO office.

We feature take-out service on all our great sandwiches. MARVIN AVE E. OF RIDGE RD AVE NEXT TO MAEJ MARKET AT 22 MARKET AVE.

Single And Living In Daytona

By British Johnson

Those students who live off campus alone and don't share a meal plan will find this article helpful. The quest of finding housing can be daunting for many. This essay aims to guide you through the process of finding housing for yourself or with roommates.

Read the dates on cereal and bread items. Don't buy expired food. Always keep two gallons of milk that will be out of date tomorrow. Often, a product that's expiring, most sellers will not take them back without a major hassle (see below).

Use your freer.

Information on the above is for bread and meats. Many stores have two or three brands of bread for a special price.

Buy bagels. Put one loaf in the freezer and one in the freer. Keep your fridge in the frig. I always have something in there.

Family packs & bulk. 10 pounds of steak; all right to freeze but remember to keep means wrapping at all times, so don't get fried/steaks in a box. (Note: don't ruin meat except the taste and appearance) Dairy products are a different story. People say you can freeze milk but I don't think so.

Buy in quantities.

Yesterday, I bought a ten-pound unrefrigerated from.

This store 1.5 pounds (enough for 2 or 3 people).

5.5-6 milk (each enough for 1 person).

4-6 breakfast steaks (for one person)

Rodeo Comes To Town

By Carlos Garcia

The best thing about it is that it's free for everyone. The event takes place on April 15th at 7 PM. At Sky West Mall, there will be a spectacular show for the whole family. A picture of a rodeo is attached for your enjoyment.

Money Talks; News From Financial Aid

By William Johnson

NEED MONEY FOR SUMMER?

There is a limited amount of financial aid available under the National Director Student Loan program for the Summer A semester. You must qualify for this program based on financial need, and you must already have a Financial Aid Form on file in our office. You need at least a 2.0 transcript and complete the FAFSA. 99% of students are eligible.

If you would like to be considered for NDSL, this semester, complete a Financial Aid Application. Applications are available now in the Financial Aid Office. Funds will be awarded on a first come, first served basis to those who qualify.
