Coffee House Showcases Student Talent

Wednesday night, Embry-Riddle's first student-directed Coffee House began when the Mount of Companions, C.M.C., and the student body welcomed the audience. The show was a true enjoyment of various talents performed by students. Many of the students had never performed in public before.

The music ranged from folk to rock, including blues, to soft jazz. A poetry group performed a skit, and the audience was treated to a great variety of acts.

Riddle Sheds Bail Bonding Responsibility

Check Cashing Privileges Threatened

As a result, the administrator is preparing to remove student personal check cashing privileges in order to protect the system and reduce costs. Many of the students who cashed checks have not been in contact with the professor who signed the checks.

Check cashing privileges at Embry-Riddle are scheduled to be suspended within the next two weeks to curtail the problem and protect company funds. Since this move is expected to remain in effect, we need your suggestions. If you have any ideas, you should write them down and forward them to the university's administrative offices.

Print Shop Stops Printing Resumes

The print shop on campus was forced to stop printing resumes for students who had not paid for them. The service is provided to students as a convenience, and it is not clear what will happen to resumes that have not been paid for. Students who need their resumes typed and printed now have to look for other sources.

Robert Van Riper, Director of Administrative Services, says that the decision to stop printing resumes was based on the need to reduce costs. He adds that the service was not profitable and that it was costing the university money. Students who need their resumes printed should look for alternative sources.

editorial

Last Saturday night, the Avion staff member and I went to dinner at the Brooksville Restaurant in Clearwater Beach. The family, all the staff members, and some were in attendance for the event. We had a great time while enjoying the food and drinks. The atmosphere was warm and welcoming, making it a memorable experience for everyone in attendance.

ROVING REPORTER

By Alex Vinse

Q: What do you think of Kennedy-Barker with respect to their policy regarding student dress?
A: As a student, I think it is important for schools to have clear dress codes to maintain a professional environment. Kennedy-Barker's dress code is reasonable and fair, balancing the need for professionalism with the comfort of their students.

CARLOS ROQUE

18-Aerospace Studies

1. It's great, I've never had a lot of guys around me before. I can talk to them without having a lot of guys around them. I can relax and not feel anxious.

2. I think it's a good thing for the students to be around other people. I think it's important for them to have friends and to be able to talk to them.

ROSA RAPPOLORE

18-Aerospace Engineering

1. It's very different from other places I've been. I've never been on a campus before. I think it's very interesting. I love the way things are done.

2. I think it's a great place to be. I've never been on a campus before. I think it's very interesting. I love the way things are done.

JAY HARRIS, JR.

1. I think it's a great place to be. I've never been on a campus before. I think it's very interesting. I love the way things are done.

2. I think it's a great place to be. I've never been on a campus before. I think it's very interesting. I love the way things are done.

MR. MULLINS

I want to thank you, Mr. Mullins, for being here today. It is a pleasure to see you. I hope you enjoy your time here with us.

To the Editor:

I have a question for you. I want to know if there is a way to increase the amount of funding for the arts at Kennedy-Barker. I think it is important for our students to have access to art-related activities and events.

THANK YOU!

This coming Saturday is the First Annual K-B Art Fair. I hope you can attend and support our students.

2. I think it's a great place to be. I've never been on a campus before. I think it's very interesting. I love the way things are done.

WES OLSZEWSKI

I want to thank you for your support of the arts. I hope you can attend and support our students.

THE AVION

The Avion newspaper is the official publication of the Kennedy-Barker High School. It provides information and entertainment for all students and staff, and is published bi-weekly. The newspaper covers a wide range of topics, including school news, student life, and community events. The Avion newspaper is an important part of the Kennedy-Barker community, providing a platform for students to express their thoughts and ideas. The newspaper is managed by a team of dedicated students, who work hard to ensure that the newspaper is a valuable resource for the Kennedy-Barker community.

MARRIAGE PREPARATION SET UP FOR COURT

A brief course in preparation for marriage, often called the Pre-Cline Conference, will be offered at St. Paul's Beaver. Last held last church, 303 N. Ridgewood Ave., Beaver Court begins on Monday and Tuesday, Feb. 18 and 19, at 7 p.m.

Another session will be held on May 18 and 20. This course should be taken at least three months before the scheduled wedding.

HAVE A QUESTION? NEED AN ADVICE?

An OPEN Forum sponsored by the Mental Health Association will be held Thursday, February 14th, in the Faculty/Staff Lounge from 1:30 until 2:00 p.m. President, Audrey Bolich, Vice President, Student, Attendees will be on hand to answer your questions. The purpose of this meeting is to open lines of communication among students, faculty and staff. Don't just complain and whine - the OGA can help you.
Here's your chance to put what you've learned to work.

We, as a company, are a leader in fast, exciting field, aircraft, missiles, spacecraft, electronics, automation, and health sciences. But we also realize that our leadership depends on how far our people go.

So, our goal is to provide opportunities for future-minded engineers and computer scientists who want to grow and enjoy a challenging career.

And, we want to talk to graduates and students about their goals.

Delta Chi

REMEMBER
CLUBS & FRATERNITIES DEADLINE FOR CLUB PHOTOS FOR THE 1980 YEARBOOK IS TODAY HAVE YOUR ARRANGEMENTS MADE OR YOU WILL BE LEFT OUT

By L.S.

Delta Chi started the week off quietly with an informal Happy Hour Friday night. At the house, Mike Drezdzky, a recent graduate, talked about his years and happy hours. It was his last Delta Chi night out, however, compa-
nied in true Delta Chi fashion.

Friday night saw several new members enter the frat house at Terry House, John Tralby looked pleased to be there. The chapter's new social lounge, the ALA, was the site of the event. The new lounge is a spacious, well-lit area with comfortable seating. The members were enjoying their time in the ALA, taking a break from the outside cold.

The new lounge was a great addition to the house and a welcome improvement. It provided a comfortable space for members to relax and socialize. The ALA also enhanced the overall atmosphere of the house, making it a more inviting and welcoming environment for both members and guests.

Alumni and friends were invited to the ALA opening ceremony, which was a great opportunity for alumni to reconnect with old friends and meet new members. The event was also a chance for the chapter to express gratitude to its alumni for their support and to welcome new members to the Delta Chi family.

Overall, the ALA opening ceremony was a great success. It brought together alumni, friends, and members of the chapter to celebrate the addition of this new and improved space. The ALA is a shining example of Delta Chi's commitment to providing a comfortable and welcoming environment for its members and guests.
By Knoblock

Last Sunday was a great day for softball. Gorgeous weather and a lot of silky. On Field 7: Barren影业 11, The Tears 4; Imagination 12, 4-10; Los Angeles 9, Mother Jugs 2; Flight Text (Great for last week?), Past Timbers 7; Holland 17, Convis 6. Wasted Warriors put a forbid from BOTO, Wandelers 11, Shan- none 7, Hang Time 3, Snowblind 4.

Meanwhile, on Field 8: Grandma accepted a forfeit from Matador. Matador forfeited to the Cast Raters, Pigeon Fever 5, Singles Chix 5; Something Else 22, The Stanoe 4, Sigma Chi -- Delta forfeited to Arnold Air as did Sigma Chi to Alpha Eta Elier, Destroyers JV 11, Glen 16, and Delta was at 4:00 game because the Oddballs had forfeited to The Unpredictable. Field 2 saw five games: Agassiz 8, Pardona- trons 3, Delta Chi 6, Matadors 5; Cherry Pickers 14, Wate Chix 13 (nothing, it seemed), and Hit or Miss 1, West Beach 2. Remember, NO GAMES NEXT SUNDAY FOR ANY ORGANIZATION. The following will be action resumes, when, on Field 7 the Agassiz face Delta Chi (9), Pardona-trons meet the Vole Club (10), Madagans vs. Addison (11), Cherry Pickers vs. Aeromats (12), The Tampa vs. Breton, Bretonsmen vs. Los Impalas (13), The Impalas vs. Past Timbers (14), and lastly Mother Jugs vs. Flight Text (4-00). On Field 8, the eight games will have: Grandma vs. BOTO (9), Convis vs. Wandelers (10), Wasted Warriors vs. Incredibles (11), Standoffics vs. Hang Time (12), The Club vs. Spankentimes (13), Sigma Chi vs. Queens (14), Cast Raters vs. The Standoe (15), and finally at 4:00, Destroyers IV will meet Something Else. Lambda Chi vs. Goodies (9), Pigeon Fever vs. Sigma Phi Delta (10), and Hit or Miss will have a go at 11:00. All five games will be on Field 10.

By Ken Clark

There may be no need for the Hi-Dan commission, it actually got underway at 9:40 p.m. The management seemed to take a cerebral effort to keep us all startled.

Saturday's (Skyhawk-aby) provided some excitement with its 297 game. Armed with a new bowling ball, Bruce cracked out four consecutive strikes. He started into the tenth frame with a perfect game going. Bruce has been percussion. After five or six consecutive strikes, most people become weak-kneed and jumpy. They also discover that their bowling ball seems to weigh thirty pounds. By the way, Bruce, were you that glad that night?

Friday Freeborn (Win, Pine, Show) tallied up nice strike himself. He had a real fine 150 game. That's not a bad score even with the field.

Thursday saw a bumper crop of 200 games. Mark Wilcox (DC-Y) 220, Keith Ander (Old No. 7) 217, Rich Lamb (Flyboy) 215; James Davis (Unknown Bankers) 214; Terry Smith (Win, Plank Snow) 221; Ken Miller (Henderson) 204; Ken Clark (Bull's Eye) 202; George Kite (Bull's Eye) 201; Bob Volodya (Old No. 7) 199.

Thursday was taken over by Bruce Skyhawk's (Skyhawk-aby) with 109. Next highest score was Rich Tech's (Flyboy) 169, followed by Rich Homer's (Win, Pine, Show) 166.

Lindig Blackbird (The Skyhawk) continued his steady bowling and rolled a 153 game for high game for women. Becky (Tennis) (Ferry Road) had a 130, and Caroland Landfør (The Skyhawk) had a 145 game.

Riddle skiers

It took a summer to do it but they are now more than capable of the riddle. The Riddle skiers are an official part of the University. Membership must show an unbreakable 102 members, yet swelling; the current will be having a club meeting Feb. 13 at 9 p.m. in the German Room. We will select new officers for this season, will be held on Saturdays' open skating or open spill. If you spill on Lake Helen not like Winter, I will have more for you all at the rounds. For all of you who are interested in ice skating please come. The meeting tonight and sign up. I have talked to Greg Morgan and things men and he says he can't get us out there, like tonight.

Volleyball and water polo, dead is dead.

If you want to assemble a team, please let your secretary know. You can get the list around the 1st of March, so head this warning!

Daytona Beach, Florida
Taking Corners At Brands Hatch

By Daniel Karge

The purr of the engine quickly dropped as we hit the yellow flag. It was hard to believe that I was in my old friend, the 'Carmen' and in England. "Take this left, it's a 45 mph corner, then roll over," Chris said from the right seat. "The next 2 miles of road are mine. I have been driving on the left side all of my life and I know Brands would get right-footed faster than ever, especially since we were driving to his place of employment, Brands Hatch Master Racing School Control Division (MRS-SCD)."

Chris had been instructing on the Brands Hatch High Point circuit for a half-hour now as a novice. I noticed that Chris' driving had gotten faster and wider. On each turn he'd break point my shoulder harness locked solid within his seat. His breathing was short and his right foot pressed the floorboards in the corners before Chris' old, Holy Hill, I thought we'd be at ease on the track yet. As we pulled into the pits and parking lot of Brands Hatch, a few driving instructors waved at Chris and we stumbled stiffly within two feet of the fast car. (They are all crazy.)

Brands Hatch short-circuit starts in front of the stand where the high-performance cars sit at right. The starting line draws straight to the right in a downhill, anticlockwise turn which can be a jump if taken wrong. Three narrow hairpins, baffle for drivers who like to jump. For those who don't, there is a short straight with a right kip down, another straight, a long left into a tight, almost extremely tricky right, Omnipath in the starting straight.

Chris said he would take the driving school's Ford Escort (4 cylinder, Acker), European Ford Racing Division design around the track slowly at first and show me the braking points. I jumped in the left seat. Wow. No steering wheel. Those Bricks do things like that. My eyes met mine immediately pressed up the not so integral clutch bar. The foot-

The straight to the hairpin. Hammo. Should I brake? Wait a bit, now. The idle engine was quiet then full burst. Whoa. It was a turbo charged car. A rear view mirror, 200 m.p.h. was all that was left of the car's magic. "Do you remember what was standing and don't overspeed the engine." The right light, it's not too hard to get used to. I feel flying in the left seat of the car was better. Someone knew I was shaking and adjusted the clutch perfectly. I came out of the pit road, with my really full (in the pool on the floor) exhausts, and left. The track seemed to suite itself and the challenge of high-performance driving was to be felt not followed. Corner No. 1 was tough but I was still slow.

A world of careers in Aerospace for tomorrow-minded college graduates.

See our representative on campus Feb. 29

Our Denver Division has many new opportunities awaiting college graduates. Visit John C. Bowers, Denver, CO, New Orleans, LA, and several other major cities.

Careers Begin Here

If you're considering a career in aerospace in my field, you'll find greater not the work more rewarding than you ever thought possible. In such exciting areas as Command and Information Systems, Solar Systems, Space Safety, and Payload Integration. Overall, we have over 200 contracts including 4 major contracts over $100 million, including the 1958's. They include the internal Mission Critical Functions Space Launch Systems, Space and Defense Systems, the new part for mobile Mosaic X.

Opportunities For You

The aerospace industries are many entry level growth positions that offer practical experience in the advanced state of the engineering profession. These include Research, Spacecraft Propulsion, Thermodynamics, Structures, Mechanics, Dynamics, Stress, Materials, Plasma, Optical Sciences, Nuclear Engineering, Space Systems Guidance Control, RF Systems, Communication, Data Handling, Power Systems, Payloads and Sensors, Quality, Safety and Manufacturing. In addition to job opportunity the company is always looking for those with a financial status equivalent to approximately forty percent of the employer's income. They are included in the company's financial and health plan, vacations, education reimbursement, etc.

Interested graduates please contact Mr. Charles H. Fisk, College Relations, PO, Box 179 (963010) Denver, CO 80201.

**Amelia’s Space**

Dear Amelia,

I don’t know if you can help me, but at this point anything is worth a try. I live in a house with a couple of other guys. The problem is that every time I try to study, one of these guys is loud. I don’t like it.

I tried to talk to them but they have been told they’ll have to move to the next door. I have been told they have to move.

Can you help me with this problem?

Sincerely,

[Signature]

Sunday, February 1990

[Amelia’s response]

Dear [Name],

I’m sorry to hear that you are having trouble with your roommates. It can be difficult to study when there is noise around. I would suggest that you communicate with your roommates and explain how the noise is affecting you. If they are not responsive, you may need to involve your dormitory’s Resident Advisor or your college’s Student Life Services.

Sincerely,

[Amelia’s signature]
