High Energy Act to Play U.C.C.

On March 12, at 11 (noon) in the University, E.R.A.U., a performance named John Bayley should be taking high energy from some of the highest magnetics at the University and bringing it back to his own community.

The rhythm of island music is created by John from a couple of words and makes some of his community along the concert trail. John’s energy as both a musician and from John is epidemic, everyone gets to know how to work with and makes some of his community along the concert trail. John’s energy as both a musician and from John is epidemic, everyone gets to know how to work with and makes some of his community along the concert trail.

Administration and SGA
Reach Check Cashing Decision
By Mike Thompson

Students will be limited to charging a maximum of $100 in personal checks per week with a single decision made by the administration and the SGA Check Cashing Committee.

The new policy modifies the original policy the administration proposed (but not limiting the number of personal checks the student is allowed to cash). The original proposal would have limited each student to only one personal check per week.

embry-riddle aeronautical university
Dear Editor,

With the culmination of the past week's events in Savannah, I would like to thank all the staff members from the past trimester.

We raced together in the fall and learned many things by going through the trimester's news paper. I would like to thank everyone who has participated in some way or another with our publication, except for those who have never even seen our publication, except those who have never even seen our publication. I would like to thank everyone who has participated in some way or another with our publication, except for those who have never even seen our publication. I would like to thank everyone who has participated in some way or another with our publication, except for those who have never even seen our publication.

RESPONSE TO THE LETTER TO THE EDITOR

Dear Reader,

The recent letter from the student body raised some valid points. However, I believe that many of the concerns raised in the letter could be addressed through clear communication and collaboration. It is important to acknowledge the issues raised and work together to find solutions.

Sincerely,
[Signature]

Editorial

Last week, several of the Aeronaut and Phoenix staff members were in a journalistic competition hosted by the Aylon College at a symposium on journalism.

The Arizona Southern Regional Press Institute is an organization that helps high school and college students understand the fundamentals of writing and developing newsgathering techniques. The event was the first to be held in this region.

The Aylon College was selected for this competition among the best high school journalism programs in the region. The Phoenix regional team was the most recent to be selected.

The Aylon competition was the first to be held in this region. The Phoenix regional team was the most recent to be selected.

Award-winning organizations, such as the Aeronaut and Phoenix, can help other students to succeed in the field of journalism by sharing their knowledge and experiences.

Yours truly,

123rd Day

for the 50 American hostages being held illegally in the basement.

LETTER TO THE EDITOR

Dear Editor,

I am concerned that the hostage situation has not received much attention in the media. The 123rd day of the hostage situation has passed, and yet there is no significant coverage of the situation.

Yours truly,
[Signature]

CO-OP

Recently there was a study conducted by the National Cooperative Education Association. This study was done on students who have co-op. They found that about three out of ten better choose to be involved in this program. The figures are generally $2,500 to $4,000 per year. Generally, the co-op graduate earns a better salary.

Don’t you think co-op is something you ought to do?

CAREER NAVIGATION

Career planning is a continuous process. The principles used are the same for a person who has worked for 10 years, as they are for the new graduate. Both individuals are searching for a new career.

The following are the steps in the career planning process:

1. Self Assessment
   - Identifies the basic job decision making. It is likely that the key to successful job hunting career planning, the home is the career. The basic plan to start here is to develop an accurate biography of yourself. Get back to basics and define what makes you a unique person. Then determine what are your strengths and weaknesses. If there are no value in your own work, consider this.

2. Exploration of Occupations
   - Once you have a definition of self-identification, you are now prepared to begin the生物学 process (the job). The next step is the exploration of the careers that best fit your major.

3. Career Decision Making
   - You will be amazed at the diversity of career options available to you. There are many options that you can pursue. You will be amazed at the diversity of career options available to you. If you are interested in this major, you should explore the occupations that you are interested in.

4. Decision Making
   - You have narrowed your search to the few career opportunities that you would want to pursue. The next step is to do research on these opportunities. You have decided on a few career opportunities that you would want to pursue. The next step is to do research on these opportunities. You have decided on a few career opportunities that you would want to pursue.

Field Day is now a thing of the past and as one looks for
the absence of the trophy on the shelf... Dec. 181 lost the
counter competition. However, even though we lost the war, we
did win some of the battles. The victory of John Sekas and Dave Frentz
caused through on the res-

quellant course for the third
year in a row! The track men
bocked the first four places in the
1 mile run, we win the ag-

one softball game. Thanks

of the volleyball match.

baseball eagles win

baseball eagles win

By KW Johnson

EAGLES have done it - the first victory of the 1980 season is history!

In a game this past Saturday at Mulkey Field (Old College Field), the game went against Washburn College of Indiana, and the final win 8-3. Congratulations to the whole team and Coach Linnell.

B-M-A Washburn 8-3
B-RAU 9-2
WP Field 8-1

In the game for Washington College had a triple and two singles. Carver had three singles (1 RBI), Yemani 2

Several stars representing the Eagles took high places in an intercollegiate rifle competition held in Orlando this past weekend. Sixteen schools from Florida, Georgia, and Alabama competed for honors. All schools demonstrated great ability and displayed the adverse weather conditions of their states.

The water and windy conditions made the target environment especially difficult to master. The best overall performance of the day was by Rider's Ron Smith. Smith made successful passes at 30, 25, and 20 yards.

Rider's success was made possible at 30 and 25 by high and place (at 34.0, Carver made a complete pass at 25 and made 2 at 30. Ayres Hobson was less than 10 at 40 and 30. Ayers Hobson was less than 10 at 40 and 30. When the first points were scored for the season event the Eagles was leading in eighteen places.

Sunday's competition was in track and jumping. Reports on the results of some of these events has not yet been recorded.

This was the first event for the air rifle team. Jim Burt and Cole Campus competed Sunday.

Members of the teams are chosen from the members for the most accomplished in the sports. These are a number of notable students in the school to allow the student model assistance.

Please support the boys as much as possible in the future. Big thanks goes out to photographer John, for spending his day capturing our first competition on film. Pictures will be forthcoming.

Riddler ski's place eighth

By KW Johnson

The intercollegiate championship set is in the final match of the season. Jim Burt and Cole Campus will be the champions if the season ends at 6-0.

High scores were Lawler (29) and Seagren, (2) for Exceptional effort. The game will be played in the snow to decide the champion.

I'll get off the plane with Jimmy the Greek, and he picks the Rockies by 4-0. Look for me in the bleachers with my team colors to cheer you on.

Riddle ski's place eighth

By KW Johnson

No conditions are better off for the ski team, and the season ended at 6-0.

High scores were Lawler (29) and Seagren, (2) for Exceptional effort. The game will be played in the snow to decide the champion.

I'll get off the plane with Jimmy the Greek, and he picks the Rockies by 4-0. Look for me in the bleachers with my team colors to cheer you on.

Varsity golf: slow start

by KW Johnson

The first match of the year for the varsity golf team was played against the University of Georgia. The match was played on the demanding course at Johnson and College. The team had the honor of playing at the number one college in the nation.

The next match for the Eagles is slated for Tuesday, March 13, at the Daytona Beach Golf and Country Club. Who are you playing, you ask? Byrd College, traveling all the way from Little Rock.

Watch for these events

The Riddle Ski's like other clubs on campus provides all their own funds. The high costs of traveling and competing in these competitions is not being paid, for the members themselves. There are a number of road racing activities in the bank that allow the student model assistance.

Please support the boys as much as possible in the future.

A member of Riddle's 11-born victory today at last week's competition in Orlando, was now again competing from all over the Southeast.

News From Financial Aid

WE'VE CHANGED FOR THE BETTER

If you've been in the Ad-
ministration Building lately, you prob-
ably noticed that we redesigned our office. Students will now go to the window where general information will be provided. If individual finan-
cial aid counseling is required, each financial aid officer will have an office to provide the pri-
vacy necessary for discussion.

BASIC GRANT AND INCOME TAX RETURNS

If you are eligible for a Basic Grant or 1980-81, a copy of your 1979 tax return will be required before any disbursements will be made. If you are a dependent student, your parent's income tax re-
turn will also be needed. If you haven't sent your tax return to the IRS yet, MAKE SURE TO KEEP A COPY. If you already sent it, and they will send you a copy. It takes between 2 and 3 months to receive the copy. If you will not file a tax return for 1979, copy of your W-2 form is needed.

SUMMER LOANS

Although the deadline for March 1 has passed, we will accept summer loan applica-
tions. If the loan has not been approved by the lender on time, additional applications for the summer term will be required before any disbursements will be made. If you have a good G.P.A., you may be eligible for a summer loan. For more information, contact the Financial Aid Office at 701-7009.

AMERICA'S 250TH BIRTHDAY FUND-LIABORING

Florida is offering summer grants to students who received the Florida Student Achievement Grant during the 1979-80 year. To receive the grant, you must be a Florida resident and have a G.P.A. of 2.0 or above. You must submit your application by March 1. For more information, contact the Financial Aid Office at 701-7009.

FLORIDA GRANT FOR SENIORS

Florida is offering summer grants to students who received the Florida Student Achievement Grant during the 1979-80 year. To receive the grant, you must be a Florida resident and have a G.P.A. of 2.0 or above. You must submit your application by March 1. For more information, contact the Financial Aid Office at 701-7009.

GOING FOR ON-CAMPUS EMPLOYMENT?

Management, 4th floor, is in need of a computer operator. In the area of employment, and management. Call 701-7669 for more information.

Florida Grant for Seniors

Florida is offering summer grants to students who received the Florida Student Achievement Grant during the 1979-80 year. To receive the grant, you must be a Florida resident and have a G.P.A. of 2.0 or above. You must submit your application by March 1. When you're discussing something as important as your future, it's up to you to get the straight facts — and that you understand them. Air Force ROTC can be an integral part of your future. We would like to outline some of the facts and invite you to look into gaining more information.

Out of the Air Force needs highly qualified. ded-
icated airman. men and women. It's a fact, we need people in all kinds of education. It's a fact, we're prepared to offer financial help to those who can qualify for Air Force ROTC scholarships. Get together with an AFROTC representative and discuss the program. We will give you all the facts. It could be one of the most important talks you've ever had with anyone about your educational plans.

Dear Amanda,

I covered the same facts, but they were all facts. And the Air Force needs highly qualified, ded-
icated soldiers men and women. It's a fact, we need people in all kinds of education. It's a fact, we're prepared to offer financial help to those who can qualify for Air Force ROTC scholarships.

Flying & Driving With Cale Yarborough

By Kiah Talanoa

"Annual" Controversy!

Throughout the world of stock car racing, Cale Yarborough is a very prominent and respected figure. For the past 23 years Cal has been winning races and setting records at practically every track in the country. From the small dirt tracks of the Carolinas to the super-speedways of Daytona and Talladega, Cale has been a page in the 400 Grand National races and over 60 victories under his belt. In addition to being named the 1978 Driver of the Year, Cal also has the distinction of being the first person to win three consecutive Grand National Championships (1976, 1977, and 1978), as well as a long list of other titles.

After finishing with Cal and listening to stories told by some of his fellow drivers, we were struck by the impression that Yarborough is one of the most able characters created by backwoods Tennessee. Although Cal is no genius, he definitely seems to be able to pull his weight in the courtroom as well as on the road. This is one of the few young drivers who is always smiling, and he is the one who keeps the times running on track.

Cale is a very competent pilot with over 500 hours of flight experience to his credit. He holds a private pilot's license, and he is familiar with the job of setting up his car to turn a lap in 15 seconds. He is a real pilot, and he is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track. He is the one who keeps the times running on track.
Become a Certified Scuba Diver
total price $30.00
