The Examiner / Aviation
Office has introduced the new physical fitness program to the school this past month. The program is as
exciting as my darkest fears that it will be focused around academic work and not
used by students. Faculty and staff of Embry Riddle.
The purpose of Fit-Trail, our new physical fitness pro-
gram, is to promote physical fitness on our Daytona Beach
Delta Expands Service
To Daytona Beach

In response to continuously
increasing travel demand, Del-
a will offer its second direct
round trip service to Daytona
Beach effective June 1, 1980.

In the new service, new
route: Atlanta at 11:00 p.m.,
Daytona Beach at 4:00 a.m.,
and Atlanta at 12:45 a.m.,
with the round trip fare
a total of 704.

Resource Center Implements New Policies

The Learning Resource Center (LRC) has implemented new
policies EFFECTIVELY. These new policies are an attempt to bet-
er the needs of the students and faculty.

- You can now check out materials for two (2)
weekends and three (3) days for vertical
- Materials, resource reference books and magazine
subscribes cannot be checked out.

The LRC has a security system which detects materials
not properly checked out at the circulation desk. If the phil-
osophy of the LRC to have all materials accessible to all stu-
dents. Therefore, when a staff
or "unauthorized" removal of
LRC materials situation arises, all
large身影 subject to an
inquiries are sent to the
Computer department or
remonstered by the
LRC and Deans ofAcademic

The office of the com-
partmentalization of the secu-
rity policy. The security system is designed to
follows: 1. Any student who has ever been
check out materials should be barred from
the circulation desk.

The house on the LRC is
Monday - Thursday: 7:30 a.m.
to 11:30 a.m. and
5 p.m. to 9 p.m. Saturday:
10 a.m. to 9:30 p.m. and
Sunday, 1 p.m. to 9 p.m.
Feminist Movement in Islam

by Iban Budul

The position of women under Islam is unique. The practice of opressed minority among educated, modern western society under the impact of western civilization. The document shows how the "twin concept" of "woman" is totally distorted the image of woman in Islam. It viewed a woman as a part of the family, which is a typical and universal society structure. Thus, the veils, which is one of the most important features of Islamic women, is considered as "rigid" and "strict" to the Islamic men.

Feminism in the West, however, is seen as a way to improve the status of women. It aims to achieve equality for women in society. It is a movement that seeks to promote the social, economic, and political rights of women. Feminism in Islam, on the other hand, is often associated with the idea of women being oppressed. However, this is not necessarily the case. There are many women in Islam who are active in the feminist movement and work towards achieving equality for women.

International Students Corner

by Cipra Sisay

In the last decade, the response of the international student community to the challenges of life in the West has been overwhelming. Here are some of the ways in which they have contributed to the community:

1. Cultural Exchange: International students bring a diverse range of cultures to the university, which fosters a sense of global awareness and intercultural understanding.
2. Academic Contributions: Many international students excel academically, bringing new perspectives and insights to their fields of study.
3. Volunteer Work: Many international students volunteer in community service projects, contributing to the local community.
4. Entrepreneurship: Some international students start their own businesses, contributing to the local economy.
5. Cultural Enrichment: International students often organize cultural events and festivals, enriching the cultural life of the university.

Deep your guard for a minute. Even though you’re in college right now, there are many aspects of the Army that you might find very attractive. Maybe even irresistible. See for yourself.

MED SCHOOL ON US

You read it right. The Army’s Health Profession Scholarship Program provides necessary tuition, books, lab fees, even microscopes during medical school.

Plus a tax-free monthly stipend that works out to about $4,450 a year. (After July 1, 1980, it will be even more.)

After you’ve accepted into medical school, you can be accepted into our program. 

Then you’re commissioned and go through school as a Second Lieutenant in the Army Reserve.

The bonus. Very simple. After your residency, you give the Army one year as a doctor for every year you gave us as a student, and under some conditions, with a minimum scholarship obligation being two years’ service.

INTERNSHIP, RESIDENCY & CASH BONUS

Besides scholarship to medical school, the Army also offers AMA-approved first-year post-doctoral residency training programs.

Such training adds no further obligation to the student in the scholarship program. But any Civilian Graduate Medical Education Program sponsored by the Army gives you an extra year’s obligation for such sponsorship.

But you get a $9,000 annual bonus every year you’re paying back medical school or pre-doctoral training.

So you not only get your medical education paid, you get extra pay while you’re paying it back.

Not a bad deal.

A GREAT PLACE TO BE A NURSE

The rich tradition of Army Nursing is one excellence, dedication, even brotherhood. And it’s a challenge to live up to.

Today, an Army Nurse is the epitome of professionalism, regarded as a critical asset by all Medical Facilities.

A BSN degree is required. And the clinical experience is responsible to match in civilian practice.

And, since you’re an Army Officer, you’ll enjoy more responsibility and authority than most of your civilian counterparts. You’ll also enjoy travel opportunities, officer’s pay and officer’s privileges.

Army Nursing offers educational opportunities that are second to none. As an Army Nurse, you could be selected for graduate degree programs at civilian universities.

ADVANCED NURSING COURSE, TUTITION-FREE

You receive, pay nothing, allowances. You can also take Nurse Practitioner courses and many other specialtynon-Army classes.

The Army. While these programs do not cost you any money, most of them do incur an additional service obligation.

A CHANCE TO PRACTICE LAW

If you’re about to go to law school and are accepted into this program, you should consider a commission in the Judge Advocate General Corps. Because in the Army you get to practice law right from the start.

While other classmates are still doing other lawyer’s research and other lawyer’s books, you can have your own cases, your own clients, in effect, your own practice.

Plus you’ll have the pay, prestige and privileges of being an Officer in the United States Army. With a chance to travel and make the most of what you’ve worked hard to become. A real, practicing lawyer. In an Army Lawyer.

ROTC SCHOLARSHIPS

Though you’re too late for a 4-year, scholarship, there are 2-, and 3-year scholarships available.

They include tuition, books, and lab fees. Plus $100 a month living allowances, if you live away from home, which they’re very competitive. Because besides the tuition and living allowances, you get helping towards expenses, a 4-year, $6,000 ROTC scholarship.

It’s required for an Army Officer.

Stop by the ROTC office on campus and ask about details.

UP TO $700 A MONTH

You may get up to $700 a month from the Army Reserve Officers’ Training Corps.

The Army Reserve Officer’s Training Corps (ROTC) is the Army’s official Reserve program.

You can be an Army Soldier and still be a student in the ROTC program. And, if you’re accepted, you get up to $700 a month to attend college.

It’s called the Simultaneous Membership Program. You get up to $700 a month as an Advanced Army ROTC Cadet and an additional $170 a month (beginning in academic year) as an Army Reserve Officer.

2. He’s a current teacher of mine, so he’s easy to find. He’s special. Because it’s bad to get together with most doctors. They’re just doctors who have schedules and just don’t keep regular office hours.

3. I saw him when I was fresh and it was so long ago that I don’t remember if it was helpful or not.

4. I don’t know who he is, but I can’t find out.

5. I never met him.

WHAT COULD THE ARMY CROSS YOU OFFER LIKE YOU?

A BONUS FOR PART-TIME WORK

You can get a $1,500 bonus just for enlisting in some Army Reserve Units. Or up to $2,000 in educational benefits.

You also get paid for your Reserve duty outside our tour of duty, up to 24 months a year.

And now we have a special program to help you fit the Army Reserve around your school schedule. It’s worth a look.

A SECOND CHANCE AT COLLEGE

Some may find college to be the right place at the wrong time for a variety of reasons. The Army can help them too.

A few years in the Army can help them get their student loans and the money to use it wisely.

The Army has a program in which money saved for college is matched two-for-one by the government. Then, if you qualify, an generous bonus is added to that.

In 4 years of service, you get up to $7,400 for college, 3 years up to $12,100, and 4 years up to $14,400. In addition, bonuses up to $3,000 are available for 4 year enlistments in selected fields.

Add it all together and you gain a career.

But the Army can go hand in hand with your education.

We have these Army opportunities available to you as well as everyone else. You get a bonus.

You get a Reserve Officer is indeed a force for an off-duty, bright person like you.

For more information, send the coupon.

Roving Reporter: Academic Counseling Examined

By Carl Seltz

The quality of academic counseling is the subject of this week’s report on our campus. Three questions were asked of each counselor:

1. Have you read some of our faculty advisors?

2. If yes, was the help ful?

3. If no, do you know how to find him or her, and would you go to him or her for help?

Do you have the establishment of an academic counseling center? An academic counseling center would be a place where two or three people who are specialists in the field of counseling are available for all counseling and pro-

Joanne Masters, Student Advisor. "Yes, I know who he is, but I don’t know what the qualifications are in the division chairman who is knowledge and helpful.

Nurse, 1978. The following are excerpts from the book: "If you have a question concerning counseling, you can always talk to one of the counselors in administrates and records. I think it’s very helpful."

The curriculum for each program is quite clearly detailed in the school catalog. We are adults and should be able to take responsibility for planning our own academic curriculum. It would be too difficult to know all the requirements for each program. These proposed counselors would help refer the student anyway which is what the student should have done in the first place.

Bill Morley, Sophomore, American University.

1. No, I’ve never met him.

2. I would and have seen him go to the division chairman who was very helpful.

3. I thought he would because he was a known for the other, but the Army program was another and I felt that it would be difficult for someone to wear a cap and

Max Gates, Sophomore, Aviation Administration.

1. No, I really don’t remember.

2. If I saw him at orientation and he wasn’t helpful. He taught a course up at least to my field of study. I had too much trouble to go on I went to the head of the department.

3. "Don’t think we need one, the Army office was the last, but maybe not as an occasion. I was switched program.

Other comments were:

"My faculty advice was very helpful and helpful and was very well be what is going on."

"It usually go to my ASB first because he’s been through it and can sometimes he in the middle of first hand experience."

"In my previous college had an academic counseling center and was not sure what they had on it or how they used it and I had never used it or only on their information."
Giant Sloth to be Displayed This Fall

Two human-sized volunteers helped the experts search for more fossils. These three years of slow and meticulous excavation of the site yielded piles of bones and teeth, which were sent to Yale University for study. The researchers found that the sloth was a member of the family Bradycyphus, a group that includes the modern-day tapirs and peccaries. The fossil evidence shows that the sloth was a terrestrial animal, different from its modern-day relatives that are adapted to a strictly arboreal lifestyle.

By Daley Blake
Ain St. Record

What is 15 to 20 feet tall, eight feet wide, 30 feet long, and weighs over five tons? The extinct animal that occupied this space is now on display at the Natural History Museum in New York City. It is the largest land mammal that ever lived, and its remains were discovered in Florida.

The specimen, known as the Florida giant ground sloth, was found in a cave in the Ocala National Forest. It was 40 feet long and stood 14 feet tall at the shoulder. The animal weighed over 4,000 pounds and had a long, thick tail that was used for balance and protection.

The sloth's diet consisted of leaves, flowers, and fruits, which it obtained by climbing trees. It was a slow-moving creature, spending most of its time sleeping or resting. The sloth's unique adaptations, such as its large size and long limbs, allowed it to forage for food in the trees.

The Florida giant ground sloth became extinct about 10,000 years ago, likely due to a combination of climatic changes and human activities. It is estimated that there were only a few hundred individuals left when the last glacial period ended.

The discovery of this specimen is significant because it provides insight into the prehistoric ecology of the area and the evolution of land mammals. The Florida giant ground sloth is an excellent example of the diverse and fascinating creatures that inhabited the Earth billions of years ago.
HERE ARE FOUR GOOD REASONS WHY YOU SHOULD PICK UP YOUR PHONE AND DIAL YOUR CESSNA DEALER* RIGHT NOW!

1. OUTSTANDING PRICES!
Cessna has authorized Dealers to make outstanding offers on new 1980 model aircraft. Our Dealers have "more room to deal" than ever before. This can mean an outstanding price for you.

2. NEW FINANCE PLANS!
There are more new plans for financing available from Cessna Finance Corporation and your Cessna Dealer, PLUS:
- 75% payments during the first year to reduce cash flow requirements.
- A rewrite option during the first year allows you to take advantage of any drop in interest rates at Cessna Finance Corporation.
- "Wraparound" financing allows you to take advantage of your current rate and term with Cessna Finance Corporation.

3. EXPANDED DEMO PLAN!
A greatly expanded demonstration program makes it easier and more convenient than ever before to get a demonstration arranged at the time and place best suited to your schedule. Call and let your Dealer know what you want demonstrated and when and where.

4. TRADE-IN APPRAISALS!
Special emphasis is being given to good used aircraft by your Cessna Dealer. Now is the time to call in the information needed for a good trade-in appraisal ... it's the easy, convenient way to get things moving!

MAKE A CESSNA GOLD RUSH SALE ACTION CALL!

IN ONE WAY OR ANOTHER EACH OF THE FOUR REASONS CAN MEAN SAVINGS FOR YOU!

*OR CALL THE TOLL FREE NUMBER AND TELL THE OPERATOR WHETHER YOU'D LIKE A DEMO FLIGHT, A TRADE-IN QUOTE OR FINANCING INFORMATION ... AND CESSNA WILL GET BACK TO YOU, PROMPTLY!

WARM UP AND WARM DOWN

Warming up your body to prepare for any strenuous exercise is vitally important in the prevention of muscular injury and severe muscle soreness. In order to warm-up the muscles properly, warm-up exercises gradually warm the body and prepare the muscles for the exercise program described in this article.

Slowly increase the pace and intensity of the exercise until your body begins to feel hot and warm. Warming up is an essential precondition that your muscles are indeed warm and "ready to endure more intense exercise. Since each person is at a different level of fitness, the amount of time spent warming up will vary with each person. Some people will need at least fifteen minutes of warming up, others will require more time; and some can get by on less.

Since perception is a good indication of your readiness to take more strenuous exercise, let's see how it occurs. Perception occurs when your normal body temperature rises because of the increase in blood and muscle temperatures. This increase is important in order to prepare your muscles properly so that you will not be least likely to sustain injury or severe cramps. Because the flexibility, endurance, and strength exercises you have described stress the muscles, we cannot emphasize strongly enough the importance of a warm-up.

Aside from the prevention of severe muscle strains and injury, a thorough warm-up brings other benefits. For instance, since the blood and muscle temperatures have been increased, the functioning of muscles improves and this will help burn lactic acid is increased during a warm-up, and burning of calories is what you wish in weight loss. Thus, a warm-up would not only be a stimulus to burning it at a more rapid rate but also make the muscles more flexible and less sore.

Therefore, it is a good idea to spend twenty to thirty minutes before an exercise session by running it at 70 miles an hour into a breeze, instead, you anticipate and begin heating gradually up to a comfortable pace. By the same token you should warm down the body in the same way that you warmed up, with a gradual change in the tempo of activity. By using light stretching exercises you will begin to slow the pace naturally, allowing the body to cool off.

During vigorous activity the muscles sustain the circulation of blood. If all activity suddenly stops, the effort could be a pooling of blood in the extremities, which might result in muscle cramps or sudden blanching of the skin. This is why a proper warm-up is so important to include a warm-down in your exercise program as it is to include a warm-up.

One suggestion for a good ending: standing still, slowly rotate your hand-speed, rotate from side to side, and finally sit on your heels for twenty seconds. This could be a good time for your relaxation.

FAU CHESS TOURNAMENT OFFERS $800 IN PRIZES

Student Empire enrolled in Florida college may compete for $800 in prize money to be awarded at the Julius A. Hedlungen Memorial Chess Tournament adjacent to Florida Atlantic University for Friday, Saturday and Sunday, June 17 to 19. The five-round, five-once, un-tied competition is open to teams of four students each and there is no limit to the number of teams competing from each school.

The winning team will receive $400 prize. The second place team will be awarded $300 and third place - $100. Trophies will be given to the individual with the highest score as well as to winning teams and their individual members.

The entry fee is $5 per person. Advance registration is re- quired by the deadline for entries is 4 p.m. on the first day of the tournament.

Registration forms available at special rates at the University Box, Boca Raton. For guaranteed housing, reservations must be made through the University no later than June 3. Registration forms and all information are available at the Student Activities Office of each Florida college.

The tournament is sponsored by the FAU Foundation and funded through a bequest by the late Julius A. Hedlungen.

Further information only taken from the FAU Foundation at (305) 344-6100 ext. 2288.

ROP and DANCE AT EAU

Racing notice, reports, and strange are all invited to play Racquetball at Florida Atlantic University. The advice is to try, tourney, faust, or just pluck it.

Playing time will be Monday afternoon from 4·8 p.m. at the Intramural Building Community College. And playing up these courts are FREE.

For more information, contact the EAU Recreation Office, Daytime Room number 574, or call ext. 999.

QUICK TIPS GIVEN FOR JOGGING

1. Don't push too hard. Recognize your limits and do what feels good.
2. Use comfortable clothes and shoes.
3. The start, do it on a soft surface.
4. Never take a big meal. Eat with it, or at least 4 hours before.
5. Always do some stretching before and after each jog.
6. Keep it flat - if you jog around your limits, don't live around your jogging.

WARM UPS MAKE IT A TWO PART PROCESS

Warm-ups should be in two parts. First, the stretching of your muscles and joints before beginning the actual warm-up. Second, is the actual "warming-up" part, which is the time you get to use while jogging; the cardiovascular center and leg muscle.

This is done by beginning your jog in a slow way allowing your body to become adjusted to new demands you are putting on it before picking up your pace. This will usually take from 5-10 minutes.

REMEMBER TWO DAYS LEFT FOR FACULTY AND ADMINISTRATION PHOENIX 81 YEARBOOK PHOTOS

THEY ARE BEING TAKEN FACULTY STAFF LOUNGE FROM 8-9
Six hot tickets for cool summer nights.

COOL TIME IN THE HOT BAHAMAS!

Do you have any plans for a hot, summer day? Don't miss the opportunity! Visit all the fun at E.R.L.91's 1st Annual Beach Party. Saturday May 21st from 4 - 8 p.m. You can rock 'n' roll to music by "APOGEE", a local group from New York. Enjoy a wide variety of games and prizes. Also, there will be delicious food and refreshments available this day. Single tickets are available with charge by calling in the Banana Beach, 1050, Washington, D.C. 20094.

COOL TIME IN THE HOT BAHAMAS!

The crash of a Comet Citation jet piloted by baseball star Thurman Munson was caused by his failure to maintain sufficient speed during an attempted landing at Akron-Canton airport, the National Transportation Safety Board reported April 16, 1980. The New York Yankee catcher was practicing touch-and-go landings on August 2, 1979, when his plane crashed about 870 feet short of the runway. Two passengers escaped from the burning aircraft, but they were unable to escape Munson from the wreckage and he died from the effects of the fire.

The investigation showed that the aircraft's flaps were up during Munson's last landing attempt, but the aircraft was "down to the bottom," "unusable," and "uncontrollable," maneuvered. The airplane was too low for the aircraft configuration, and the pilot failed to advance the throttle power sufficiently to prevent a stall.

The probable cause of the accident was "the pilot's failure to recognize the need to slow, and the excessive speed required to maintain a stall during an attempted landing." The pilot also failed to recognize the need for a proper stall warning to prevent a stall during an attempted landing. The accident was a stall due to a stall during an attempted landing. The aircraft was too low for the aircraft configuration, and the pilot failed to advance the throttle power sufficiently to prevent a stall.

The probable cause of the accident was "the pilot's failure to recognize the need to slow, and the excessive speed required to maintain a stall during an attempted landing." Holistic Health Program Adopted by Riddle Health Center

Holmes is a hypothetic ap-
proach toward enhancing health,
quantity and, especially, quality of life. A total health approach to
be based on Holmes's model would involve, prevention and main-
tenance. The model is designed to treat the individual as a whole.

My model is designed to treat the individual as a whole -
note, mind, and spirit. A holistic approach to
holistic health care, then, is concerned with not only the physical.

- At Riddle Health Center, we believe in treating the whole person.

- Our approach to health care is holistic - focusing on the mind, body, and spirit.

- We offer a range of services to promote overall wellness.

- From acupuncture to yoga, we have it all.

- Our goal is to help you achieve optimal health.

- Join us on this journey towards better health.

- We look forward to seeing you.

- Contact us today.
