Stetson University hosts Model U.S. Senate in Deland
Feinstein awarded outstanding chairman

"I am honored by our students perception of Stetson University Model Model U.S. Senate held in Deland, Florida, this past weekend. The students, who are dedicated to both the teaching of civic education and the practice of civic engagement, have once again demonstrated their outstanding ability to enrich the public sphere with meaningful dialogue," US Senator Dianne Feinstein said.

By Louis M. Kado

Feinstein also praised the students for their dedication and hard work.

"The students are the future of our democracy, and it is through their engagement and commitment that we can build a stronger, more inclusive society. I was impressed by the passion and commitment of these students, and I am excited to see where their journey takes them," she added.

In addition to their dedication to civic engagement, Feinstein also emphasized the importance of student leadership.

"I have no doubt that these students will go on to lead and serve our communities in ways that will make a difference in the world," she said.

The Model U.S. Senate was held at Stetson University in Deland, Florida, and featured 335 students from 66 colleges and universities across the United States.

"The students came together to engage in a constructive and respectful dialogue on important issues facing our country," Feinstein said. "Their participation is an important step towards creating a more informed and engaged citizenry."
Editorial

Television shows outlandish

Televising programming is in a sad state of affairs these days. While for some, certain prime-time network programs contain a certain degree of comedic or entertainment value, for the majority of networks, these programs are an unquestionable lowering of the quality of network entertainment. The audience is adversely affected, and the viewing public is compelled to accept more of this questionable material.

The problem is not limited to the networks. For many, certain prime-time programs in local metropolitan areas are comparable to those in the national networks. It is obvious that certain local television stations are competing in a very inferior manner with the national networks. Some stations even appear to be courting the audience with such programs as the major networks.

It is the responsibility of television stations to provide a better product to the viewers. There are programs that can entertain the audience without lowering the quality of their programming. It is up to the local television stations to take advantage of these programs and present them to the audience in a more acceptable manner.

Universitv retrenchment

To The Editor:

For want of a nail, the war was won.

For want of a shoe, the hero was lost.

The proverb says that we are not left without help when better days come again. (For want of a horse) Do not care too much what happens to the eyesight of a tv tower or a movie theater, as long as there is a chance that the world may yet be saved from the mad hand of the Soho Moscowite.

The implications involved with the mass media of television are astounding. We can see this valuable communicative tool as an enlightening teacher, or as a dehumanizing video file. It is our deplorable state of affairs, for the rule of a Hitler is a steady trend, and should we let it happen, it will be a reality.

Unfortunately, Moscow is to blame in the appearance of our current situation. The so-called "soviets" have been the leading cause of our current state of affairs. The Soviets have taken over our media and have controlled our thoughts.

The University of Texas and the student body have a responsibility to take a stand against this infringement and to support the so-called "soviets" in their efforts.

Klyde Morris

LRC rules

To the Editor:

First, we wish to make the matter of a University ID card clear. It is true that a University ID card is required to use the Reserve materials. However, the Reserve is not just for the use of the Reserve. It is also for the use of the entire library.

The Library regulations state that if a student wishes to use the Reserve materials, they must present a University ID card. However, if a student wishes to use the Reserve materials without a University ID card, they are allowed to do so as long as they are a member of the Reserve.

We hope this makes the situation clear.

Aviation writings offered
Dr. Osterholm to teach HU-305

starting Summer A

Aviation writings will be the topic of a nine-week course for credit and non-credit level students. The course will be given by Dr. Frank Osterholm, Associate Professor.

The course will meet from 6:00 to 8:00 p.m. through the term. The textbook, Flight Safety by R. V. Crist and Price by William Faulkner and Charles H. Price will be used.

Karaté exhibition presented

By Jeff Guzzetti

Air Staff Reporter

The Air Force Karaté Club will present an exhibition of karaté techniques in the campus cafeteria. The exhibition will take place at 11 a.m. on Thursday, March 10th. The event is open to the public and is free of charge.

The Air Force Karaté Club is one of the few organizations on campus that offers a physical activity for students interested in martial arts. The club meets once a week for practice and holds exhibitions to showcase their skills.

The exhibition will feature various katas (sequences of karate movements) and sparring matches. Participants will demonstrate their skills in areas such as blocking, striking, and groundwork. The exhibition is a great opportunity for students to learn about karaté and its benefits.

Karaté is a form of self-defense that originated in Japan and is now practiced worldwide. It focuses on physical fitness, mental discipline, and ethical values.

The Air Force Karaté Club is open to all cadets and is sponsored by the Air Force Association. The club is led by Master Instructor E.J. (Mike) Lee, a 2nd degree black belt.

For more information about the Air Force Karaté Club, please contact Master Instructor E.J. (Mike) Lee at gleb@af.mil or 240-744-5904.
Last Friday night, February 26, the Avon Newspaper sponsored its first annual targa party. All in attendance would agree that the evening was a success that did an outstanding job for future affairs. Most noteworthy of the evening's entertainment was the band Com- mon Sense, Composed of four Elyria Middle students and one female vocalist, the band started by gaining a crowd of eight due largely to colorful attire.

The band Common Sense began by playing their favorite songs, "Jeff Medley on keyboards, Kevin Polizza on guitar, Doug Carter on drums and Tony Richey on vocals. Playing cut from Alan Parsons, Pete Townshend, Eric Clapton and several of their homogenize arrangements, the group did a great job throughout the entire party. As midnight, party hostess were prepared to serve the Lotus Glow treat, but the guests had already consumed the braces had a varied audience. Rumors has it that a certain female vocalist from the school is mentioned. The laurel was bestowed on itself.

"Beverly Hills" to "Toys in a Box" to "Toys in a Box" with a high note and muskellunge's signature "I'm a baby, but I won't be a baby any longer!"

Famous last word

Supertramp releases long awaited album

By Michael Anderson

After two years of much curiosity, Supertramp finally broke into the public eye with their 1974 release Breakfast in America. Even after an estimated 2.8 million copies sold in the United States, the band went on a long tour of America. The album's success led to the band's next effort, which was the long awaited album, Famous Last Words. The album is the band's first release in 10 years.

The album contains some of the band's most popular songs, including "The Logical Song," "Dreamer," and "It's Raining." The album features some of the band's signature harmonies and catchy rhythms.

The album's release has been much anticipated by fans of the band, and many are excited to hear the new material. The album's lead single, "It's Raining," has already been played on the radio and has received positive reviews.

"It's Raining" is a slow, acoustic ballad about a love lost and found. The song's lyrics have been described as "beautiful" and "touching." The album's release has been highly anticipated, and fans are eager to hear the rest of the album.

Supertramp's long awaited album is a testament to the band's abilities as songwriters and musicians. With its release, they have proven once again that they are a force to be reckoned with in the music industry.

Upcoming events

Pat Benatar plays Jacksonville

By Porch Carone

On February 10, at 3:45 p.m., in the Multiplex at 1200 Debary, the band Pat Benatar will be performing. The concert will be held in the Audubon Hall of the University of North Florida. The concert will feature Benatar's greatest hits, including "Hit Me With Your Best Shot," "Take Me Home," and "Love Is a Battlefield."

The tickets for the event are available at the box office or online. For more information, please visit www.uniform.com or call (904) 630-3380.

Pat Benatar is an American singer and songwriter who has sold over 30 million albums worldwide. She has won several Grammy Awards and has been nominated for several others. Her music spans a wide range of genres, including rock, pop, and country.

Benatar's hit song "Hit Me With Your Best Shot" was released in 1983 and became an instant classic. The song's catchy melody and empowering lyrics have made it a favorite of fans young and old. Benatar's other hit songs include "Love Is a Battlefield," "They Don't Know," and "In Love."

The concert is sure to be a hit for fans of Benatar's music. Don't miss out on this opportunity to see one of the greatest female rockers of all time perform live in Jacksonville!
Wide Trackers hold on to first place

By Tricia Barto
This week, "The One-Eye-Bottle" moved up the league by going from the middle of the pack to second. The "Two-Eyes-Bottle" took his place by moving up one position, while the "Three-Eyes-Bottle" held on to their position. The "One-Eye-Bottle" led by 0.1 seconds, while the "Two-Eyes-Bottle" and "Three-Eyes-Bottle" held on to their positions.

At this point, the "One-Eye-Bottle" is leading by 0.1 seconds and looking strong for the remainder of the race. The "Two-Eyes-Bottle" is in second place, with the "Three-Eyes-Bottle" in third. The next few miles will be crucial in determining the final result of the race.

In the meantime, the "Four-Eyes-Bottle" has been working hard in the background, steadily closing the gap between himself and the leaders. With a few more miles to go, he may be able to make a comeback and challenge for the lead.

Keep an eye on the standings as the race progresses and see who comes out on top.

NCAA academic standards implemented

Citing Dan Rather's The Man Who Would Be President, the NCAA has announced that it is implementing a new academic standard for all student-athletes. The standard requires that all student-athletes maintain at least a 2.0 GPA and that they complete a minimum of 24 credit hours in order to be eligible to compete in NCAA events. This change is in response to criticism of the NCAA's new tougher academic standards for student-athletes. 

The new academic standard is expected to have a significant impact on the number of student-athletes who are eligible to compete in NCAA events. Many believe that this change will lead to a decrease in the number of student-athletes who are able to compete due to the increased academic requirements.

In the meantime, the NCAA continues to work on implementing new academic standards that will help to ensure that student-athletes have a strong academic foundation while they are competing in NCAA events.

The NCAA has also announced that it will be working with member schools to ensure that they are aware of the new academic standards and that they are implementing them in accordance with NCAA guidelines.

In conclusion, the NCAA's new academic standards are expected to have a significant impact on the number of student-athletes who are eligible to compete in NCAA events. However, the NCAA continues to work on implementing new academic standards that will help to ensure that student-athletes have a strong academic foundation while they are competing in NCAA events.

Raw Bar & Spirits – A Local Favorite
Sigma Chi on the roll

By Joe Dimare

We would like to welcome back the brothers who went on vacation road trips over the holiday weekend. Washington's betters (and soaks) in Virginia, who went to visit their Scandinavian relations, and who traveled to the Treasure Coast to enjoy the Inaugural festivities.

Sigma Chi was one of the most active fraternities this weekend, with many brothers participating in the various events. Sigma Chi brothers were present at the presidential Inaugural Ball, and many were seen throughout the weekend.

During the weekend, Sigma Chi brothers were present at various events, including the presidential Inaugural Ball. They were seen throughout the weekend, participating in the festivities and enjoying the company of other brothers.

Sigma Chi brothers were also present at the presidential Inaugural Ball, where they had the opportunity to meet with the new president and other leaders of the nation. The brothers were seen throughout the event, mingling with other guests and enjoying the festivities.

Hurry time is running out!
Computer Club holds software workshop

The regular membership meeting will be held tonight in the Radio Theater, starting at 7:00 p.m. The agenda will be open for the upcoming events, so please be there to get more information and stay updated.

Following the meeting, Mr. R. Kramer will be demonstrating various applications using the Apple II Plus computer. Mr. Kramer has done some work in computer graphics using his personal computer and he is also well-versed in computer-aided design (CAD). Mr. Kramer will discuss the possible applications in the mathematics department to accelerate the calculus of the various topics on teaching and learning. He is excited about the potential of CAD in the field of education.

Tonight's meeting should be very informative to some of present computer users, and the use of computers for the instructional purpose, so plan on staying.

Meet Monday night at 10:00 p.m. in room G-207 Mr. James will be conducting the Warner-City workshop. The Workshop-City methodology for storing, processing, and retrieving information is well-integrated in our commercial versions of the software.

The Big Blue software workshop had Thursday, conducted by Mr. Mozart Niles, who was a member of the University Information System. Mr. Niles, using a Heath/Zenith D8 computer, demonstrated how the various components of a microcomputer interact with each other and the software involved in operating the system. The Heath/Zenith D8 computer is a powerful 455 (capable of 16,000 instructions per second) business computer with many features and is very reasonably priced. For more information, Mr. Niles is available at office building C.

Lambda Chi Alpha bops
By Matt Marcus
The Crescent slates of Lambda Chi Alpha hosted a party for all the members of the fraternity Friday night at the house of one of the seniors. The event was like a trip back in time with baby-sitters, lemonade, and grassy-down hills in attendance. A big of St. Patrick's day was also thrown in with green paint being served.

During the party, the Crescent handed out "Elmo is my idol" buttons on green paper.
Our Associate Members have a busy week ahead of them, with pre-initiation events on both Thursday and Sunday. Please keep in touch with your big brothers as they will have all the information that you will need.

Free Pizza is still in the hospital (Daytona Beach Community), and will probably be there another week or so, if he doesn't escape down the main street. He's having a few plaques against feet, and is currently on his feet in room 307.
Our softball team gave their efforts this past weekend, came out slightly short. Better luck next week everyone.

AFROTC cadets enjoy trip
By John R. Orban
Air Force Development 178 has the privilege to have its organization such as the Arnold Air Society (AAS). This organization is a recognized honorary society with the United States Air Force. It's made objective is to aid in the development of effective Air Force Officers. Some AAS activities include Corp., school and community projects.

The construction of the AAS is the grandchild of a major activity that a few very few original officers were the key to this event. March 20 will be the last day for the March 20-21 trip to Daytona Beach and the Corps will begin planning for March 28.

Vets Club mobilizes
By Beth Tinkham
The Vets Club was cut in half over Vets Club and we have yet to begin our plans of what we should be doing. Spying for more about the baseball event, and team members for your participation in the Afghanistan War.

After the motorcycle race, the 1600, which greeted to working and saving (or saving is not even) was just going to be part of the Big Blue workshop. NASA, in their infinite wisdom, has decided to hold the 1983-1984 meeting of our AAS meeting on March 28. The Vets Club will be present on March 28 and will have two Aura employees dressed as Caesar, school and community projects.

The construction of the AAS is the grandchild of a major activity that a few very few original officers were the key to this event. March 20 will be the last day for the March 20-21 trip to Daytona Beach and the Corps will begin planning for March 28.

Alpha Eta Rho works diligently at Daytona 500
By Tammy Watson
It seems the Daytona 500 was good to Gip Vardhan as well as the drivers of the Blue oval. Over 300 members of the Club were spread around the area to work on the event, and even more of our members were at the race.

Flamingo Cheese will hold a special event the evening of March 12, which will include a trip to Alexander Springs, Gip's restaurant's headquarters, and a trip to the Brothel's.
We know a lot of people have been waiting for interest rates to drop to 9% or lower.
So we’ve dropped them all the way down to 5% for the first 12 months of your purchase contract. And for the balance of the agreement, you’ll pay a small percentage above prime.

What’s more, there are no prepayment penalties and you can finance up to 85% of the list price!

Single engine types are up to 7 years, piston twins up to 8 years, with 1.5% over prime after the first 12 months.

To take advantage of this extraordinarily low rates, you’ll have to complete your purchase agreement no later than April 30, 1983.

*Available through participating Dealers only. These offers are valid in U.S. only. Other restrictions may apply.

Avionics repair program a success

By Steve Sullivan

Since January 1982, Avionics students enrolled here have been teaching the avionics equipment located in, to Middle '82 Class 173. The program, directed by Mr. Jack L. Rudkin, the Avionics Department Chairman, has been "very educational and worthwhile for our students."

The advantage of the students teaching the equipment is that they are learning as well. First, the students gain a practical experience in the job field. Second, they are notified when a piece of equipment breaks down, so they can repair it before the equipment goes down. Third, the students will eventually be able to become an avionics repair technician.

On another note, the students need to be good at math and science. When it comes time to graduate, they will be able to get an avionics job, or they can apply to a program that will send the equipment elsewhere for repair. Before the avionics students had the program, the school, and ultimately the students themselves, had to pay for someone to service the avionics shop's equipment.

Now, however, the cost is just over $3,000. The reason for the reduced cost is that the avionics departments are able to teach the students on the equipment they use, rather than paying for outside services. This is the reason for the cost savings of the equipment.
Aero-plane identification

THE FIRST EXACT ANSWER presented to the AVION of the identity of this aircraft will win a free one trimester subscription to the AVION, sent anywhere they want. The Student Publications, past, present winners, and their families are not eligible.

Last week’s answer was Panther B 204 (Portsmouth, R.I.). The answer was Michael A. Anger.

Miller Skytypers fly for Daytona 500

By James Mortensen

A blimp from north of 600 feet, a range of BNV is plotted for take-off, and a member of the Eastern Coast Giant Fleet flies into the air. A scene from Daytona’s World is about to happen? No, it’s not true. The blimp is not a daily attraction. In Washington, D.C., the Eastern blimp is not a DC-3, it’s 700, and the BNV is the Miller Skytypers.

You’ve probably seen the Miller Skytypers, those Cochrane-sponsored Skytypers. By thirty years, the Skytypers have been a phenomenon in that time while, working out of Flying Airport. But for the last two years with the backing of Miller Brewing, the squadron has toured the Eastern U.S. Scenes of their appearance include the FAA show at Oakland, this year March 21, and other events considered appropriate by Miller.

The schedule set by Miller are based mainly on visibility. After changing the message in the air at 9:00 in the skytypers usually get on an exhibition of formation flight. This two hour show displays the Skytypers in formation, both morning and its place on the

10 mile scenic canoe trip, only $8.50 per adult, 90-min.
