## ALMOST \$1/2 MILLION IN NEW SCHOLARSHIPS

Last year, senior University officials convened to form a Debt Reduction Committee chaired by Nancee Bailey. The goal of the committee was to find out how much debt Embry-Riddle students were accruing, where they were accruing it, and ultimately, find ways to reduce it. They found that 91 percent of residential campus students receive some form of financial aid. According to U.S. News and World Reports 2007 college guide, 68 percent of Embry-Riddle's class of 2005 graduated with an average debt of \$52,276, the highest in the

nation. Over \$98 million was loaned to Embry-Riddle students for the 2006-07 year, according to the Office of Institutional Research.

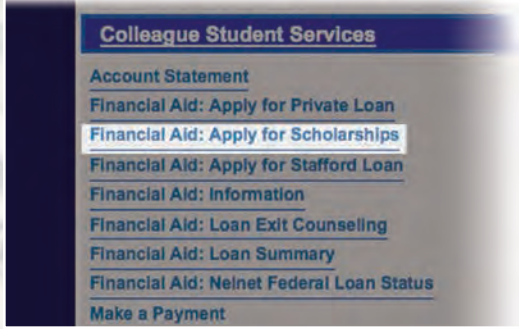

**Over \$98 million was loaned to Embry-Riddle students**

The committee found that this debt was fueled by flight costs and repeating classes. The committee found several ways to deal with the debt, including opening the credit block from 16 to 18 credits for students with a 3.0 GPA. Also, pilots who sign a contract to be flight instructors at Embry-Riddle receive their flight instructor course free of charge. The Flight Department also awards 25, \$10,000 debt reduction scholarships every year to their own flight instructors.

Another way to reduce debt is an increase in scholarships. In February, a link became available on Blackboard sending students directly to an endowed scholarship application for the 2008-09 year and a notice was sent out to all students. Over 300 applied. 168 scholarships were awarded for a total \$490,120.

Criterion by Degree Program	Number of awards	Amount awarded	Percent of total
College of Aviation	46	\$86,200	18%
\$1,873 average per student			
College of Arts and Science	5	\$5,100	1%
\$1,020 average per student

### Register to Vote!

For those who have not yet registered to vote, it is coming close to the deadline. Residents of Florida must postmark or deliver registrations 29 days before an election. Volusia County has posted all pertinent information at <http://www.volusia.org/elections/reginfo.htm#how>. The application can be found online as well as the mailing address or centers, which the application can be dropped off at.

For those students wishing to vote in their home state, information can be found at local counties' websites. Many counties require that absentee ballots must be turned in 30 days prior to an election. Another fast way to find the local absentee ballot is to visit <http://www.govoteabsentee.org>, which will request a ballot from the home zip code entered.

Exercise the right to make your voice count and vote!

### Homecoming Bonus Bucks

In the coming weeks leading into Homecoming in November, many organizations on campus including Housing and Residence Life, Career Services, and SGA, will be sponsoring activities on campus. These events will give students the eventual chance to win thousands of dollars in prizes. At the events, students have the chance to collect Bonus Bucks, which can then be used to bid on prizes at a Silent Auction held on Nov. 12th.

Sponsored by the Office of Diversity Initiatives, a Bonus Buck event will be held this Tuesday at 7:30 p.m. in IC 104. Called "Flipping the Script on Millennial Politics," Aron Christian will be discussing "pop-politics." Looks for these signs to participate.

## Eagles volleyball sweeps Seahawks

NaDean Schroeder  
ERAU Athletics

Junior Savannah Trakes and freshman Abby Hall led the Embry-Riddle Eagles (14-1, 4-1 conf.) past conference rival, Northwood (7-11, 3-4 conf.) on Saturday in three sets, tallying the team's fourth league win of the season (25-15, 25-17, 25-8).

Trakes had 12 kills in the match, seven coming in the first set. Hall managed her 12th game of the season in which she had double-digit kills, with 11 on the afternoon.

The Eagles attackers had a .315 hitting percentage for the match, with 38 total kills. Alana Martinez (6), Jenni Nelsen (4), Corey Dobridnia (4) and Marissa Gonzales (1) combined with Trakes and Hall's kills to equal the team total of 38. Gonzales assisted 26 of the kills, while Kristen Hassett, Martinez and Frassetto each had two assists and Hall picked up one.

Embry-Riddle also had seven service aces on the day, with Hall and Gonzales each tallying three and Julia Frassetto ending set three with an ace on game point. Hall has had a service ace in all but two matches played this season and has had more than one ace in 12 matches. She is currently on an 11-match ace streak.

ERAU also marked the first game this season that ERAU had a side-out percentage of 100, as every-time Northwood received the serve in the third set the Eagles forced a side-out to gain control of the ball and not allowing Northwood to go on any runs.

The Blue and Gold will step back on the court on Wednesday, Oct. 1 at 7 p.m. in the ICI Center, as they host Webber International.

FRESHMAN ABAGAIL HALL SPIKES over Northwood University's setter during Saturday's sweep of the Seahawks. Hall had 11 kills on the day helping the Eagles to their fourth league win of the season. Only Junior Savannah Trakes topped Hall with 12 kills on the day, bringing the Eagles record to 14-1.

# Stories from ERAU's Prescott, Ariz. campus

## McCain affecting flight at Embry-Riddle

Kerianne Hobbs  
Diversions Editor

The results of the coming presidential election may affect more than taxes, healthcare and gas prices for the students at Embry-Riddle Aeronautical University. If John McCain is elected president, the Prescott campus could be placed under a Temporary Flight Restricted area surrounding McCain's Sedona Ranch.

When a president is elected, Prohibited Areas are established over his home and retreats that extend 5,000 feet above ground level with a 3-nautical-mile radius. Prohibited Areas are basically no-fly zones established to protect national security, interest or welfare.

In addition, when the president returns to his residence, a Temporary Flight Restricted area, or TFR, with a 30-nautical-mile radius is in place. This policy was created in reaction to the events of Sept. 11, 2001.

A TFR is used throughout the

country to create a buffer zone around an area that could be a possible target of a terrorist attack, such as the Super Bowl, or a president's home. TFRs are also put in place over disaster areas to protect relief aircraft, or over areas that host activities such as space agency operations or missile testing.

This knowledge has raised concerns that if McCain is elected, his Sedona Ranch could affect the flight program for students at ERAU in Prescott, Arizona.

Depending on what is counted as a house, Sen. McCain has anywhere from 7 to 13 or even more houses. McCain's closest property to the school is located just outside of Sedona.

It is difficult to place exactly where McCain's residence is, but is in the general vicinity of Page Springs and Cornville, AZ, in the Verde Valley between Cottonwood and Sedona. Embry-Riddle falls within the 30-nautical-mile possible TFR of McCain's Sedona Ranch.

When the TFR is in effect, no training, loitering, touch-and-go landings or instrument approaches are allowed. Violations of a TFR result in legal action and could mean severe consequences for the pilot.

David Ruiz is the chief pilot for Aurora Aviation in Waco, Texas. The Waco airport also hosts flight students and falls within the 30-nautical-mile TFR placed over Bush's ranch

in Crawford, Texas.

When asked how the TFR affected the operations of the airport, Ruiz said, "It is a mess. A lot of people don't understand how it works and we see a lot of violations."

Ruiz also commented that the TFR is unpredictable. "We constantly have to check to see if the TFR is in place," Ruiz said. Sometimes the president will only return for one day, others he will return for two weeks. "One August, President Bush took a four-week vacation in Crawford," Ruiz said. The airport practically had to shut down its flight school.

If McCain is elected, and decides to take a four-week vacation at his Sedona Ranch, it could potentially have a devastating effect on flight operations at the Prescott campus.

It is difficult to predict the results of the election or whether ERAU will be affected. School officials are currently working on an initial investigation and researching possible challenges for the flight program in the event of McCain's election.

ly Col. Mosolov's achievements in the field of test flying. Dr. Shirley Waterhouse, University Director of Centers for Teaching and Learning Excellence, then spoke about the other side of

DANIEL SEKEJIMA/HORIZONS

Col. Mosolov: the gregarious and fun-loving man.

She described her trip across Siberia with the Colonel and how everyone in Russia looked up to him as a hero. In fact, at Vladivostok, she could join the Russian military for a party on a military island base. During her talk, the audience could also see a rare picture of Col. Mosolov with Neil Armstrong.

The program was conducted in an interview style. Ms. Waterhouse asked him questions and Dr. Vitaly Guzha, a fighter pilot himself, acted as translator. When asked if there was any single aircraft for which he had a special liking, Col. Mosolov lost no time in answering, "the MiG 21." The MiG 21 was a delta-winged fighter-interceptor and it was the first successful aircraft to combine these characteristics.

Perhaps the best part of Col. Mosolov's career was his key role in the development of the MiG 21, then the most capable aircraft in the world. He was the first pilot to fly this model and he also contributed to its development process by helping engineers perfect the design. He feels that he made the aircraft known to the world and it, in turn, made him famous. He also set the world speed and altitude record in the MiG 21. In 1959, he registered Mach 2.46 in the MiG 21, showing that the air-

craft was ahead of its time.

The story of his speed run is thrilling. One of the biggest problems that aircraft face at supersonic speeds is the quick depletion of fuel. Having flown the required course for the speed run, Col. Mosolov discovered that he had very little fuel left. Although he was at a height of 44,000 feet and at a distance of 125 miles from his home, he had to power off the engine and glide to save the fuel for landing. Descending between 6000 and 3000 feet, the engine did not restart despite his repeated attempts. He courageously decided to attempt his twenty third power-off landing, which could have been dangerous in a delta-winged fighter. He was successful and the world speed record was his.

Upon landing the fuel remaining in the aircraft was just 8L - about 2 gallons. With his characteristic exuberance, he said, "The power-off landing was 'against the book' but the regulations for the speed record did not state that you needed fuel to land!" By protocol, he actually should have ejected from the aircraft.

He suffered a serious accident in a MiG 19 that he was testing. The MiG 19 was the first aircraft in which the entire horizontal section of the tail served as the elevator. Flying above the speed of sound, the aircraft lost control and began pitching violently. The aircraft descended rapidly, losing 15,000 feet in 21 seconds. 300 feet above the trees, Col. Mosolov managed to steady the aircraft. He was badly injured and landed with dysfunctional roll controls. His flight led to the perfection of the newly designed pitch control system.

A second accident put an end to his glorious flying career. The MiG E8/1 prototype that he was testing experienced a compressor failure which tore the engine apart. He had to eject quickly and was injured by pieces of fuselage that had broken off. His arms were broken and he struggled to disengage his leg from the parachute to avoid landing head-first. With head injuries, a compound fracture and badly bleeding wounds, his survival was uncertain.

He had no time to radio his position and his base did not

know exactly where he had gone down. A local man had spotted the parachute and found the Colonel. Putting his sense of duty first, Col. Mosolov got the man to memorize the details of the failure so that the information would reach MiG even if he did not survive. Later flight data showed that he had ejected at Mach 1.78. Fortunately, he recovered although he never could fly fighters again. Speaking about his miraculous recovery, Col. Mosolov said "God must have been with me."

He was also a close friend of cosmonaut Yuri Gagarin, the first man in space. In 2007, Col. Mosolov became a member of the prestigious Society of Experimental Test Pilots (SETP). He is immensely popular in those circles and has friends from all over the world whom he unfailingly invites to Russia.

Despite his phenomenal achievements, Col. Mosolov is simple and humble. Ms. Waterhouse recalls that on their first meeting, Col. Mosolov introduced himself as "a pilot." When he was about ten years old, he had read books on test flying by American test pilot Jim Collins. It was then that he decided to be a pilot himself. Col. Mosolov was full of enthusiasm and praise for Embry-Riddle. He said that the faculty and facilities at ERAU had impressed him.

When asked what advice he had for students who want to join the military, he said that his job was not, primarily, to fight. He said that in the military, students should be prepared to defend their country and liberty but they should not be aggressive. He advises students never to stop learning. He leads by example. He reads voraciously and is teaching himself English.

His interests go beyond flying and aircraft. He served as the President of the Ice Hockey Association in Russia. He also enjoys swimming and volleyball.

You can call Col. Georgy Mosolov a hero, role model or one of the best test pilots. But outside his life in the cockpit, he is a humble and charismatic gentleman, always inspiring those around him.

## Pushing the limits of human capability

Abhinav Rao  
Correspondent

On Sept. 22, Embry-Riddle hosted Russian Test Pilot Colonel Georgy Mosolov. Colonel Mosolov is a legend, having flown the initial evaluation flight of 16 different aircraft. As the Chief Test Pilot of Mikoyan and Gurevich Bureau (MiG), he held speed and altitude records. He is a recipient of the Soviet Union Gold Star, which is equivalent to the United States Medal of Honor.

"Tales of a Russian Test Pilot" was held at the DLC and commenced with an introduction of Col. Mosolov by the Associate Dean of the College of Aviation, Sean Jeralds. He sketched brief-

### Health and Wellness Column

#### Fish Oil for the Masses

Every day people suffer from various ailments such as sprains, joint pains, skin rashes and pain in general. Most if not all of these symptoms can be relieved simply by taking a few hundred milligrams of EPA and DHA. Otherwise known as eicosapentaenoic acid and docosahexaenoic acid, these acids essentially form the basis of cell out our bodies. Every depends on these critical elements for survival. Omega 3 fatty names for these two be found in a wide ucts and supplements. containing Omega 3's inflammation, skin/mood support. But as the benefits of supplementing acids is becoming For instance, a recent suming higher levels of the more complex DHA vs EPA gave participants a better mood, and increased concentration throughout day. Now who among us doesn't want to feel better? Everyone at college is under a constant amount of stress that is exacerbated by exams, family problems, roommate issues, deadlines and general school tension.

Doing a simple google search, websites such as the American Heart Association, Diabetics online and mayo clinic pop up. Visiting any of these sites yields a large number of people who rave about the benefits of regular Omega 3 intake. Now more than ever before, people are eating less and less fish, switching to other more widespread sources of protein. But this is a mistake, fish contain the natural source of Omega 3 fatty acids and are important for cardiovascular health. That's right, not only does it help you look, feel and act better, it also helps prolong your life. Who isn't interested in that? Taking just one teaspoon of the liquid a day is optimum, cheap and can help you in ways you can only imagine. Some people describe it's effects as a drug, but it really is just giving your cells what they need the most: energy.

As a widespread anti-inflammatory, these acids can really help your joints, improve your facial complexion dramatically, and give your skin a sort of "aura" of health. Thinking you get enough of the stuff from your diet? The vast majority of Americans (over 98%) don't consume enough of these fatty acids daily. A deficit will build, which the main factor causing people to feel groggy and tired or in pain. According to wikipedia.com, a recent study found that people susceptible to suicide were much less likely to try and kill themselves after taking regular amounts of EPA and DHA. Finally, as if you need more proof of the positive effects of fish oil, the American Heart Association ranks Omega 3's as the most important element in longevity and prevention of heart disease including cholesterol problems. Take this, and put some vitality back into your lives. Stay tuned, Eagles.

## Volleyball picks up another victory in three

NaDean Schroeder  
ERAU Athletics

Savannah Trakes put the Eagles up by two early (5-3) in the first set on a deep kill past the Fire's backrow that stated a five point scoring drive for the Blue and Gold, going up 10-3. On the scoring drive Jenni Nelsen added two service aces to her season total of 27. The Fire kept the home team's lead to five before four consecutive kills from Nelsen, Alana Martinez,

Trakes and Abby Hall, respectively, giving the Eagles a nine point lead. Embry-Riddle had 15 kills in the first set including the game-point won by the swing of Hall's arm, 25-13.

The Eagles' arms reigned down the heat from behind the service line in the beginning of the second set as they quickly went up 5-0 aided by three service aces by Marissa Gonzales. Both Nelsen and Hall aided the Eagles' large lead with aces of their own. Hall also had six of her team lead-

ing 14 kills in the second set.

SEU put the pressure on the Eagles in the third set staying even with the home team until the final three points. Embry-Riddle out-hit Southeastern .233 to .162 in the third set to pick up the team's 13th victory of the season. The Eagles had 42 kills in the match, with Hall, Trakes (8), Martinez (7) and Nelsen (6) contributing the majority.

The Blue and Gold will host Northwood in a conference match on Saturday, Sept. 27 in the ICI Center at 2 p.m.

GRAHAM WETZLER/AVION

(LEFT TO RIGHT) MARISSA GONZALES and Alana Martinez go up for the block on a Fire spike. The Eagles rolled over Southeastern University on Friday, for the team's 13th win of the season.

## Eagles led by Salinas up front

NaDean Schroeder  
ERAU Athletics

Junior Alex Salinas was back at full strength on Saturday as she was the first Eagle to cross the finish line at the FSU Invitational, where she led her team to a fifth place finish.

The team scored 116 points being edged by NCAA DI Florida State by 12 points. The top four teams were all NCAA DI schools, but the Eagles were able to finish ahead of four NCAA DI institutions.

Salinas ran her second best career time in 18:37.72, finishing the race in 12th overall. She was nine seconds shy of tying the school record that she set last season at the Sand Shark Invitational (Oct. 20).

Salinas was followed

closely by Beth McCubbin who finished 14th in a time of 18:44.09. It was the second time in her career that she had finished under 19 minutes.

Finishing just over 19 minutes and in her personal best time was Flo Silva, who placed 15th in a time of 19:01.47. Lori Costello and Kasey Kluge rounded out the Eagles' points scorers. Costello recorded a time of 19:26.92 in 33rd place while Kluge finished 39th in 19:39.99.

Erika Langhauser, Jen Haydt, Emily Cook and Kimber Wille also ran the race, finishing in 42nd, 60th, 64th and 66th, respectively.

The Blue and Gold will take a week off before racing at the Walt Disney Cross Country Classic on Oct. 11. The races will begin at 7:30 a.m.

## Sigma Chi won football

Cameron Radford

### Sigma Chi

Sigma Chi Derby Days are just around the corner! An information meeting was held last week and details were provided, so we hope all sororities are prepping themselves for another exciting event. Sigma Chi would also like to invite everyone out to the house Thursday night for Smores Night. Ask a brother for more details.

The intramural football teams of Sigma Chi have had an explosive start to this year's season, with both Sigma Chi 1 and 2 dominating their first two games of the season. On Thursday night, Sigma 2 played tremendously well against Off in The Shower, easily shutting them out 21-0. After the game, fifth year pledge Nick Weiss remarked that he, "Sees a Sigma Chi 1 and 2 final brew-

ing. A Subway championship if you will."

When Sigma Chi 1 took the field, Weiss' statement seemed more fate than fantasy. Sigma Chi 1 came out strong, scoring almost immediately when a Lamda Chi defender tipped a pass right into Tom Head's hands who took it all the way for the opening touch down. The rest of the game was sheer domination. Head and Matt Sumner each scored a game high 2 touch downs. Taylor Roynon added insult to injury when he scored the games final touch down, bringing the game to an end via mercy rule. Coach Steven Turner commented after the game, "We came out with intensity and dominated from the opening pass. We each plan to carry this momentum on through the remainder of the season and into the post season." Collectively the team only dropped two passes, catching 25 out of 27 passes.

### Alpha Xi Delta

Last week was an exciting one for the sisters of Alpha Xi Delta. The high point was Friday night when they held their Pledge-In Ceremony. Ten wonderful women became New Members of the Alpha Eta Pledge Class of Alpha Xi Delta. The sisters are so excited to have them as New Members of the chapter, and can't wait to help them grow and realize their potential. Pretty soon the New Members will each get a Big Sister to help them through their new member period. Before the identity of their Big Sister is revealed, the Littles will be showered with gifts and given clues to help them guess

who their Big is. The sisters love Big-Little Week and can't wait to reveal their identity to their Little Sisters!

It was also a great week for Alpha Xi Delta Intramural sports. Their volleyball team won their first game of the season on Wednesday. Then on Thursday the ladies of Sigma Sigma Sigma and Alpha Xi Delta faced off as the only two all-female flag football teams. It was an exciting game and both teams played fantastic! In the end, Alpha Xi Delta proved victorious and won their first football game of the season, 21-6. The Alpha Xi's would like to thank everyone that came out and supported them this week, and they look forward to their games next week.

## MED Team helping with campus emergencies

Alex Vergo

### MED Team

Next time you have a medical emergency on campus, you can have peace of mind that help will be less than three minutes away. The Medical Emergency and Disaster Relief (M.E.D.) Team at the Daytona Beach campus, has begun to staff shifts with State Certified EMTs on campus. The totally volunteer organization is comprised of Embry - Riddle students who respond as a basic life support, quick response unit, whose goal is to gain access to the patient in under 3 minutes, and begin life saving care immediately, before EVAC and Daytona Beach Fire Department arrive.

The organization began its inception back in 2005 when three students realized the need for such an organization on campus. After noticing several medical calls where responding units were getting lost on campus and delaying patient contact time, the three decided something needed to be done. After three years of communicating with lawyers, insurance companies, name changes from "Embry-Riddle Emergency Medical Services" to "M.E.D. Team," local fire departments and ambulance services, the team is finally in full time operation.

You might ask why such a team is needed on such a small campus, when there are fully staffed ambulances around the

city, and the reason is simple. An extended response time from three minutes to 6 or 10 with out any care from bystanders can mean the difference between life and death for a patient who is not breathing. Anywhere after 10 minutes for a patient who is not breathing, will more then

Ryan Blackford, Chief of the team. "Provide a professional, quick response and a courteous service to our fellow students, staff and patrons of the school. The students who provide this service are some of the highest caliber of people I have met. They come from all back-

gency medicine and is based off the EMT course itself. Once the student completes the course, he is allowed to ride along side EMTs and assist them with their duties. Students, if they then choose, can go out and obtain their EMT certification from Florida or their home state and come back and be certified to ride on their own.

"The course was awesome, and I learned an incredible amount. But what really appeals to me is the fact that I now know how to properly handle an emergency situation before a higher level of care arrives," said Ciben Edwards regarding the First Responder program.

Not all members are medically riding members however. Students who would rather be involved with the administrative side of things, and not respond to emergencies are also encouraged to join. There are numerous positions in the team such as fundraising, recruitment, community service among others that can use your help.

Students who wish to join can come by the meetings at COA 354 on the first and third Thursday of every month and the next meeting will be held on October 2nd at 7pm. If you have no experience or any experience at all, you are encouraged to come by and see how the team operates. Meetings are about 30 minutes long, followed by training right afterwards, with a guest speaker appearing occasionally. We hope to see everyone at our upcoming meetings.

IMAGE COURTESY WWW.EMS.GOV

likely have irreversible brain damage. Even when the patient is still conscious and alert, a three minute response time, will have a profound effect on the overall outcome of the individual. Once patient contact is made, our EMTs can start to gain vital information about that patient, so when EVAC and Daytona Beach Fire Department arrive, the information can quickly be handed off and transferred without delaying the patients transport to the hospital.

"Our goal is simple," says

grounds, from having run in fire departments and ambulance services back home, to students who heard about our organization, came to one meeting, then decided that they needed to go and get their EMT certification."

The club requires no emergency medical history to join, but rather a will to learn and help people. The team puts uncertified new members who wish to ride on calls through an in house First Responder course that is a crash course in emer-

## Greek life support strong

Joe Gablin

### Inter-Fraternal Council

The Inter-Fraternal Council held an all Greek community service event at the Tomoka

State Park this past Sunday to help clean up hiking trails and a variety of other projects. The event was a success with every fraternity and sorority participating.

The IFC would also like to

congratulate Pat Coleman and all of the fraternities on a successful recruitment week. The week went smooth and many quality men were bid. In the past semester, IFC successfully voted to expand. Many national and

local fraternities submitted information to the IFC on their respective organization. The new fraternity selection process is in progress, and one to two new fraternities could be on campus by this time next year.

## LIFT OFF! Shenzhou 7 升空

Right: Launch tower used for the Long March II-F Rocket. It is the vehicle of choice for the Chinese National Space Agency (CNSA) to deliver their Shenzhou space capsule into orbit around Earth.

Left: The Long March II-F rocket blasts off from CNSA's launch complex, the Jiuquan Satellite Launch Center (JSLC) in the Gobi Desert. On board are the crew of Shenzhou 7. The three Taikonauts lifted off at 9:21 p.m. China Standard Time at mission clock T+ 00:00:00.

T+ 43:33:00

Taikonaut Zhai Zhigang, the commander of Shenzhou 7, made Chinese history becoming the first person to perform an Extra-Vehicular Activity (EVA) in the Chinese Space Program.

For 20 minutes the commander explored the area around the orbiting spacecraft. Zhigang waved a Chinese flag while the public watched from Earth. The spacewalk took place at T+ 43:33:00.

T+ 46:14:00

Shortly after Zhigang finished his spacewalk, the crew of Shenzhou 7 released a mini-satellite from the front of the spacecraft. It contains guidance retro-rockets and two 150-megapixel stereo cameras which will take still and moving pictures of the orbiting spacecraft. It is expected to remain in operation for three months. If it is successful, more mini-satellites will be launched.

T+ 58:27:00

## FIRST CHINESE SPACEWALK 9/27/08 16:43 CST

Mission personnel help Taikonaut Jing Haipeng out of the Shenzhou spacecraft after landing on target in China's Inner Mongolia autonomous region. The three man crew spent a total of two days, 20 hours and 18 minutes in space.

## India to explore moon

Crystal Oakes  
Staff Reporter

China may have launched the Shenzhou 7 late last week, but the Indian Space Research Organization (ISRO) plans on launching India's first unmanned lunar spacecraft, the Chandrayaan 1, on October 22, 2008. The spacecraft will orbit the moon for a planned two-year mission carrying a payload of six Indian and five international scientific instruments, according to Aviation Week last Tuesday. During that time, Chandrayaan or simply "Lunar Craft", will continue to map the lunar terrain and study the distribution of minerals at an altitude of about 62 miles, according to Spaceflight Now. Among the international instruments, NASA has contributed the Moon Mineralogy Mapper, a 15-pound imaging spectrometer nicknamed "M3". The M3 will give higher resolutions as well as better data on the moon's natural resources; but it will also look for direct evidence of water ice near the lunar poles. The last to look for such, as far as the U.S. is concerned, was Apollo (equator mapping) and Prospector (pole mapping).

nuclear fission research. The element is rare on earth, but scientists believe it is abundant on the surface of the moon. It is expected in a few years we can transport it from the moon to run nuclear plants and generate electricity," reported Silicon India last Sunday. Surendra Pal, the program director of satellite navigation at the ISRO also added to Silicon India that a couple of tons of He-3 would be enough to meet the energy needs of the world.

Chandrayaan-1 is cube shaped, solar powered and is

4.92 feet in span. The spacecraft is scheduled for launch on a PCLV C5 (Polar Satellite Launch Vehicle) from the Satish Dhawan Space Center in Sriharikota, India in late October. The launch complex is located on the southeast coast of India. The ISRO is planning on launching Chandrayaan-II upon successful completion of this mission.

For more information, do not hesitate to email Dr. Jayati Datta, Chandrayaan-I's Mission Manager at the ISRO at [jayati@isro.org](mailto:jayati@isro.org)

**THE CHANDRAYAAN LUNAR ORBITER** is scheduled to launch this October. It will survey terrain and analyze minerals on the surface using a spectrometer designed by NASA.

### UPCOMING CAPE LAUNCHES

Oct. 14  
STS-125 Atlantis  
Hubble Servicing  
Launch Time:  
10:19 p.m.

Oct. 31  
Delta IV Heavy  
Classified NRO  
Launch Window:  
12:00 - 5:00 a.m.

Nov. 16  
STS-126 Endeavour  
ISS Flight  
Launch Time:  
8:43 p.m.

Dec. 4  
Atlas V  
WGS SV2  
Launch Window:  
7:38 - 8:48 p.m.

### STS-125 Hubble Servicing Mission 4 Update

Due to Hurricane Ike, the launch date of STS-125 was delayed several times. Johnson Space Center was forced to close for several days while the brunt of the storm hit the Gulf Coast of Texas. This caused the crew of Atlantis to miss critical training sessions. Four mock EVA operations were missed, as well as two practice launch sessions between launch personnel and astronauts and a simulated ascent to practice emergency procedures.

Originally planned for launch on Oct. 10, it has been pushed back four days to Oct. 14th at 10:16 p.m. For each day the launch is delayed, lift off time is moved forward by 30 minutes.

# NASA and USAF join to fund hypersonic centers

Crystal Oakes  
Staff Reporter

What do you get when you combine NASA, the USAF and \$30 million over five years? We get awesome national hypersonic centers for university-level science and engineering research that's what. Some serious study will crack down on three critical areas of hypersonic study: air breathing propulsion, material and structure, and boundary layer control. But they will most likely also include in their studies cryogenic fuel, materials and structures, computer science, and integration of engines with hypersonic airframes. Distinguished ERAU Professor of Aerospace Engineering, Dr. Ray Mankbadi, stated Friday, "We have a team of students in my AE 440 class working on a project on hypersonic propulsion lead by Ms. Lori Costello."

NASA is planning on breaking its own top speed record:

Mach 7 (around 5,000 mph) and then X-43a's Mach 9.8 or 7,545 mph. The X-51 Wave Rider, jet fueled with an air-breathing engine, is expected to set new records in 2009. According to Space News, future applications for such a vehicle will include next-generation space launch and various fast-reaction military systems. Another improvement for the X-51 engine will be in its "easier burning of fairly conventional hydrogen fuel" than the X-43a. The X-51 is a stepping stone to the Blackswift. The Pentagon projects the cost of building the Blackswift demonstrator at \$800 million over the next five or six years, stated the Times Monday.

But why does the U.S. need hypersonic aircraft, considering the cost versus capability? Reason one: Russia and China both have made efforts to create hypersonic, or scram jet, technology.

According to independent Russian sources, the Topol missile was carrying an experi-

mental warhead equipped with its own rocket thrusters and, possibly, with some sort of air-breathing engine; it may be able to penetrate antimissile defenses. In 2007, Aviation Week reported that China already has such segmented solid rocket motor and ramjet capabilities, but scramjets are a much greater challenge. Reason two: It's not easy to get a GPS signal, telemetry information or sending/receiving good images while layers of plasma build up on the exterior during speeds 5 to 10 times the speed of sound. Reason three: we need to see our enemies even if they are highly defended and be able to maintain reusable hypersonic aircraft – not just rockets.

NASA is the junior partner in the \$246 million X-51 project with the USAF putting up roughly three-quarters of the funding; but the rest comes from DARPA, according to Space News. The Blackswift should be off of the operating table and onto the runway around 2012.

IMAGE COURTESY NASA

**BOEING X-43 AT MACH 7** at NASA's laboratory. It made its first unfortunate flight in 2000, which exploded by the range safety officer. However, X-43's second and third flight were successful and made it the fastest flying unmanned plane.

## Aircraft of the Week

### Boeing 757

Sporty's **NEW**

# Online Courses

Earning your license or instrument rating has never been easier!

Introducing the first truly complete online flight training courses. Building on Sporty's award-winning DVD courses, these easy-to-use online programs add exciting new features and easier-than-ever navigation.

This is much more than just a video course—it is a comprehensive online training program, preparing you for your written test, oral exam and flight test. Plus, you'll be prepared for real world flying after you get your license or rating. Just like our DVD courses, we guarantee it: if you don't pass all three tests, we'll give you your money back.

#### Features:

- Pass all 3 tests required for your license or rating—guaranteed!
- Get your written test sign-off right from the course
- No software to install and no DVDs
- Works anywhere you have a computer and Internet connection
- Unlimited free updates
- Streaming video—no waiting for downloads to complete
- Progress is automatically saved

#### Interactive Components:

##### 1 Compelling video segments

As always, Sporty's course is packed with hours of clear, full-resolution broadcast quality video, shot in and around airplanes. All of this video is segmented for easy navigation and review, and the course automatically tracks your progress.

##### 2 Interactive test preparation

Included with the course is complete Knowledge Test Prep, with every question made available by the FAA for study. Three modes allow for customized studying.

##### 3 Interactive maneuvers demonstrations

This one-of-a-kind training tool allows you to better visualize flight maneuvers. Includes 33 full-motion 3D demonstrations, covering every required maneuver.

##### 4 Online Training Course Outline

Sporty's exclusive Interactive Training Course Outline tracks not only online course progress, but also ground and flight training progress too. Interactive links allow you to see both the pertinent video segments and the maneuvers.

##### 5 Interactive Practical Test Standards

This feature includes the entire text of the FAA's Practical Test Standards, your guide to the checkride, indexed to Sporty's video course—complete with direct links to the appropriate video segments.

## FACE YOUR FEARS.....

HANNAH BROWN/AVIOW

It's that time of year again. From October 2nd to November 1st each Thursday, Friday, and Saturday night, as well as some Wednesday nights, Universal Studios in Orlando shuts down at 6 P.M. and a small army of technicians comes out and sets up for the thrilling and chilling 18th annual Halloween Horror Nights. This year the event takes on primarily Bloody Mary as well as many other legends and folklore.

The creators of Halloween Horror Nights spun the back-story for Bloody Mary as crazed psychiatrist Dr. Mary Agana. In her twisted world she believed the only way to cure someone of their **fear** is to and over again. The story is that into her ward she would watch glass. When they point of **fear** they name three times saying Bloody the mirror comes of rescuing them them to cure her Halloween Horror

Landon Breazeale  
Guest Reporter

Upon walking immediately immersed into Mary's world, where everything is the opposite of what we know from fairytales to schoolhouses. This year the cast of over 1000 "scaracters" were inescapable as the creators increased the number of Scare Zones and wandering scaracters so guests can go nowhere without running into one of these. The Scare Zones were some of the best that Halloween Horror Nights has produced in years. They have everything from "The Wizard of Oz", that was if the Wicked Witch of the West had won

(it even has flying monkeys.) to Asylum in Wonderland, which assumes Alice was crazy instead of simply dreaming, to everyone's favorite nursery rhymes, only this time there is no "happily ever after". Of course, they also feature the always-startling men with chainsaws walking around the park.

The haunted houses this year featured Scary Tales; fairy tales gone horribly wrong; Interstellar Terror, the first space flight out of our solar system only no one knows what happened to the crew...until now; Dead Exposure, you step into the film of photographer Charlie McPherson's camera with bloodthirsty zombies of the future; Doomsday, based on the movie that few actually saw; The Hallow, where you travel deep into the forest to discover where Halloween came from; The Body Collectors, you go back in time to see what really happened to the people whose deaths were blamed on things like the plague and Jack The Ripper; Creatures, watch the struggle between rednecks and the creatures for AtomiComics Strange Tales battle for earth; and last but not least step into Dr. Mary Agana's psychiatric ward and see how she cures her own **fear** of death in Reflections of **Fear**.

The houses were very similar to those of previous years, predictable and not scary. It is essentially a series of people jumping out from behind corners and curtains to startle without causing mass chaos. Although not scary, the detail and the elaborateness of the set is great, especially that of the Body Collectors, where the set is in a back lot warehouse and everything from the cobblestone streets to gas lanterns create the atmosphere of a dreary 1800's night in the foggy streets of London.

Then there is everyone's favorite part of Halloween Horror Nights, Bill and Ted's Excellent Halloween Adventure. The show parodied all of the major movies and songs of this year as they always do, but this is an election year and the writers cannot leave something like that out of the script. They included "Indiana Jones", "I Am Legend", "Sex and the City", "Hellboy II", etc. as

well as songs like "I Kissed a Girl", "Shake It", "See You Again", so forth and so on. Although it had its funny moments, it would have done well to be about 15 minutes longer and actually have a point to it like previous years have. It was hilarious but definitely lacked a story line.

This year's Halloween Horror Nights had its high and low points

IMAGE COURTESY UNIVERSAL STUDIOS

but the overall atmosphere was a significant improvement on last year's. It was much creepier from entrance to exit than previous years, and with more haunted houses and Scare Zones than ever before it was well worth the trip.

**“W”**

- Coming October 17
- Rated PG-13
- Staring Josh Brolin, James Cromwell
- Oliver Stone's George W. Bush biopic.
- Let's hope Oliver Stone can do Dubya justice.

**“Max Payne”**

- Coming October 17
- Rated PG-13
- Staring Mark Wahlberg, Mila Kunis, Ludacris
- Based on the Remedy Entertainment video game.
- We got to see a pretty badass Marky Mark in "Shooter", so we'll see what he does with Max Payne.

**“Changeling”**

- Coming October 24
- Rated R
- Staring Angelina Jolie, John Malkovich
- A woman comes to suspect that the son returned to her after a kidnapping is not her own.
- With Clint Eastwood directing, this is sure to be an Oscar contender.

**“Body of Lies”**

- Coming October 10
- Rated R
- Staring Leonardo DiCaprio, Russel Crowe
- Based on *Washington Post* columnist David Ignatius's 2007 novel.
- Ridley Scott directs this CIA thriller, hoping for an Oscar.

**“Saw V”**

- Coming October 24
- Rated R
- Staring Tobin Bell, Costas Mandylor
- Forensics expert Hoffman goes on the hunt in order to protect the secret that he is the newest person to carry on Jigsaw's legacy
- It's more Saw, enough said.

**“Pride and Glory”**

- Coming October 24
- Rated R
- Staring Edward Norton, Colin Farrell
- A saga centered on a multi-generational family of New York City Police officers.
- A family cop drama from the director of "Miracle."

# Jason Reeves' new album is for lovers

John W Smith III  
News Editor

The Magnificent Adventures of Heartache (and Other Frightening Tales)

Is it possible for an album to capture every aspect of love and relationships? How could one person perfectly personify the emotional ride that is love and falling for someone? Jason Reeves has done just this; he has created an album that captures its listeners into radio ready hooks that bring them on the adventure of what Renee Harrison of Warner Bros. Records calls, "a contemplative journey of love, hope, heartbreak and renewal." Called the Top Indie Singer-Songwriter of 2007 by Myspace, Iowa native Jason Reeves is quickly finding his new album, *The Magnificent Adventures of Heartache (and Other Frightening Tales)*, into the heart of many hopeless romantics.

Influenced by folk legends like Bob Dylan and James Taylor, Reeves taught himself on guitar and at 23 has already claimed his spot in great music history. Attempting to give more than life to songs Reeves says, "Whether you are writing for a girl or a guy, you have

to capture the voice of the artist singing." Capturing voices is a great statement because on a recent west-coast tour Reeves managed to capture tons of fans as every venue sold-out, singing to his songs. He has managed to successfully tie together writing love notes/love poems and expressing feelings in a song form. If his lyrics were to ever be translated to paper, it would be best read on old burned paper written in old-fashioned ink because his songs seem to be comparable to old love songs. Each song is reminiscent of the 1970s Laurel Canyon scene when falling in love wasn't complicated and meant nothing else but love.

Capturing the attention of Grammy nominated and double platinum artist Colbie Caillat, Reeves and Caillat are very close and have not only established a musical relationship to last a lifetime but a personal bond that seems like family. At one point when Reeves moved out west to pursue his music, the only family he knew was Colbie's. Good for him because Caillat's father helped him produce Reeves' album (Caillat's father was co-producer of Fleetwood Mac's *Rumors*).

Listening to his album is good for any mood you're

in, it brings songs of anger, happiness, love at first sight, goose bumps, butterflies and spoken words that could give John Mayer a run for his fame. It has feel good anthems like "You In A Song" or the dreaded, all too familiar for most song, "Just Friends" a clever song that plays anger to a point without crossing the line. Harrison describes his tracks as "sophisticated portraits of some of life's most vulnerable, yet exhilarating moments." Like his track "Reaching" that flirts with the question of whether to abandon caution and the familiar in order to plunge headlong into the risk and potential reward of the unknown. Songs like "Pretty Eyes", which will leave you of thoughts about the one that you loose yourself in but Reeves manages to bring you back to reality with "Never Find Again" that reminds us that perfection flees more than stays.

This is truly an album, which I am so proud to own. Finally released nationwide with the help of Universal, anyone would benefit from having Reeve's latest album. I'm sure each song could find its way onto movies like 'The Notebook' or 'P.S. I Love You' but in these songs you can truly relate.

# The Academy Is...

John W Smith III  
News Editor

Fueled by Ramen Records powerhouse artist The Academy Is...(TAI) will be venturing out on the Bill & Trav's Bogus Journey Tour and will be making a stop by the House of Blues in Orlando Oct. 3rd. This tour sponsored by MTVu will not only feature The Academy Is... but We the Kings, Carolina

Liar and Hey Monday.

Headlining will be The Academy Is... and after co-headlining the Warped Tour the entire summer they will be supporting their latest release *Fast Times at Barrington High*. After being discovered in 2004 by Fall Out Boy's bassist Pete Wentz, TAI has seen an incredible wave of success despite line up changes. These Chicago natives have toured almost non-stop since their

sophomore album *Santi* came out in 2007 with Fall Out Boy, Armor for Sleep and opening on The Honda Civic Tour. TAI has created an incredible fan base in the pop-punk genre and their supporters continue to grow as they were named one of the top ten artists to watch in 2007 by Alternative Press.

Check them out Oct 3rd, tickets are on sale at \$19 and their latest is on sale for \$10.

# Rendezvous with Rama pleases Sci-Fi fans

Crystal Oakes  
Staff Reporter

## Rendezvous with Rama

Depending on your schedule, it may be difficult to squeeze in a decent read in between classes, walking or after hours. But Arthur C. Clarke's *Rendezvous with Rama*, a classic award winning but thin novel, might be a book worth looking into for any time pressed science fiction fan! With an exobiological theme just short of a space opera, you'll encounter Rama - an asteroid forty kilometers across hurtling itself somehow toward the Sun. Rama is smooth, uncommon for an asteroid's surface and shaped like a cylinder; but unlike Vesta, its day is only four minutes long! Inside the asteroid, a large circular sea initially prevents a team of scientists, led by Commander William Norton, from investigating the phenomenon first-hand. Meanwhile, the Hermians, a bizarre race from Mercury, send a rather large bomb to destroy the threat as political tensions rise. Of course, Earth and Mercury residents perceive the word "threat" differently.

A Near Earth Object (NEO) of this size could obliterate our planet all together and continue on its path toward the Sun where aliens could set up shop. The Hermians want the asteroid gone so as to destroy any possible economic competition to their unlimited energy market - the Sun.

In comparison, not all audiences will have a threshold for pain, that is, for a classic science fiction novel, as our age group rightly wants to be entertained by sound effects, a level of comedy and sometimes visual shock. However, you may quietly cackle at the unfortunate mishaps of a handful of coelenterate's, or the "informal science team." Spoiler warning: Within Rama, crab-spider-like aliens, eventually perceived as biological maintenance robots, will shred apart and eat a whole winged tricycle - entirely indifferent to its alarmed pilot. Secondly, this novel has been around since 1973 but Arthur C. Clarke, one of the few founders in science fiction to affect society through his, died at age 90 in March 2008. Likewise, Hollywood

is finally seeing Clarke's 288 pages as a script for a movie.

In 2009, Morgan Freeman is expected to star in a film based off of the novel also titled *Rendezvous with Rama*; even so, it remains to be seen whether the entire Rama series will be a factor. Don't wait for the movie, read *Rendezvous with Rama* and travel into a world where aliens may have been benign and logical. I'll let you decide why their fossils are inside an asteroid. But don't take my word for it, the Sci-Fi channel has given this novel an "A-".

## 'Entertaining Thoughts' looks at Indiana four

Peter Richardson  
Comics Editor

It has been a few months since Indiana Jones 4 whirled through American movie theatres, and I thought it would be a good time to go back, and take a second look at Indy 4. When I reviewed Indy 4 way back in May, I ended up giving it quite a high score and praised it for channeling the old feel over 20 years later. Many people came up to me later and tried to argue with me that I reviewed it too high and that it really did not feel like the old films. With a few months between then and now, hopefully we can take a glance back at Indy 4 with a much more impartial eye.

Point by point, Indy 4 really did not differ that much from the original films. There was still the hat, the whip, the jacket and the always present grin. There was the girl, the car chase, the improbable escape and the big "explosive" start. While some may argue that the start of the film was really too much, is it really any more ridiculous than a giant rolling boulder chasing Indy down a cleverly placed hallway? Indy 4 had the sidekick, the over the top bad guy, the evil plot and of course the hordes of henchmen who all are inferior fighters to one man with a fedora. Indy 4 had tropic locales, desert locales, hordes of indigenous peoples and even

reference to good ol' Papa Jones. All of the major Indy plot points made a return in Indy 4 and it is only our rose-colored memories that arguer.

Probably the main area I heard the most complaints about was how the movie ended and the over the top supernatural-ness of the archeological objects. While it is true that Indy 4's "magical" moment was slightly more spectacular than the other three,

PHOTO COURTESY PARAMOUNT PICTURES

each film had its own "magical" moment. Remember when an ancient rod somehow shot a laser beam into a perfectly preserved model of an ancient Egyptian city? How about when an ancient golden box somehow shot lighting and melted away an entire base of Nazi's? Maybe you will remember when three missing glowing rocks doomed a small town to famine. Or maybe you'll remember when the same rocks allowed a bald-

ing man to pull hearts out of people who continued to live for a complete suspenseful scene. Lastly, remember how an old guy apparently lived for centuries in some cave to protect a cup, which when James Bond drank from it, cured him of a gunshot wound. The point I am trying to get at is that what makes Indy so great is its ability to slightly stretch the actually universe so that we can sympathize with the main characters and locations while still being amazed and entertained. Each film had its own supernatural element and although Indy 4's was slightly larger due to the computer animation it does not seem to be all that less fantastic than the films before it.

While I am in no way saying Indy 4 was perfect, overall it was a worthy successor to the Indiana Jones franchise. I do believe it was the weakest film of the four, not because of its ending, but because of the overuse of computer animation, the slightly forced romance and the completely unnecessary side plots of betrayal and lost professors. I think that when future generations look back at the Indy series they will do so as a four part whole. The films share much more in common than many give them credit for and although this latest film disappointed many, I hope they go back in a few years and give Indy 4 another try with a slightly more forgiving eye.

## Great Dorm Room Recipes

Compiled by Amy Treutel

### Easy Onion Soup au Gratin for One

Serves: 1

#### Ingredients:

- 1 1/2 cups water
- 2 tablespoons instant onion soup mix (about 1/2 package)
- 1 slice crusty bread or toast
- 1/3 cup grated Cheddar cheese

#### Directions:

1. Place the water in a microwave-safe casserole dish. Stir in the onion soup mix.
2. Microwave on high heat for 2 minutes until the soup is heated through.
3. Cut the crusty bread or toast into several cubes. Add the cubes and sprinkle the grated cheese on top. Microwave on high heat for 3 more minutes or until the cheese melts.

Roasted Chicken Soup

Serves: 1-2

#### Ingredients:

- 1 garlic clove
- 1/2 zucchini
- 1 carrot
- 6 fresh mushrooms
- 2 green onions, optional
- 2 teaspoons olive oil
- 1.4 cup chopped yellow onion
- 4 cups chicken broth
- 1 cup leftover chopped roasted chicken meat
- 1 teaspoon dried oregano
- 1/4 teaspoon Tabasco, chili sauce, or other hot sauce
- Salt, to taste

#### Directions:

1. Smash, peel, and chop the garlic clove. Wash the zucchini, peel if desired, and cut into thin slices, about 1/4 inch thick. Wash and peel the carrot. Cut into thin slices. Wipe the mushrooms clean with a damp cloth and slice. If using the green onions, wash under hot, running water, drain, and cut into thin slices.
2. Heat the olive oil in a medium-sized saucepan. Add the garlic and yellow onion. Cook over medium-low heat until the onion is tender. Add the zucchini and carrot. Cook for 1 to 2 minutes, stirring. Add the mushrooms and cook for 1 more minute.
3. Add the chicken broth and bring to a boil. Add the chicken. Stir in the dried oregano, Tabasco sauce, and salt. Add the green onions, if using. Reduce heat and simmer for 15 minutes or until the carrots are tender. Taste and adjust the seasoning if desired.

PHOTO COURTESY PBA.ORG

### Chili

Serves: 1-2

#### Ingredients:

- 1 tablespoon olive oil or margarine
- 1/4 onion, chopped
- 1/4 green bell pepper, chopped
- 1/2 pound ground beef
- 1/2 tablespoon (or to taste) chili powder
- 1/2 tablespoon brown sugar
- 1 cup canned chickpeas, with liquid

- 1/2 cup canned green beans, with liquid
- 1 1/2 cups tomato sauce

#### Directions:

1. Place the olive oil and chopped onion in a shallow 2-quart microwave-safe casserole dish. Microwave on high heat for 1 minute. Add the chopped green pepper and microwave on high heat for 1 more minute or

PHOTO COURTESY VCOORMICK.COM

- until the onion is tender.
2. Stir in the ground beef. Microwave on high heat for 5 minutes. Stir, and cook for 3 to 4 minutes, until the meat is thoroughly browned. Remove from the microwave and drain the fat from the ground beef.
3. Stir in the chili powder and brown sugar. Microwave on high heat for 1 minute.
4. Stir in the chickpeas, green beans, and tomato sauce. Microwave on high heat for 10 to 15 minutes, until the chili has thickened. Make sure the ground beef is cooked through. Enjoy hot.

## 'The Hills' Column: Convenient Getaways, But a Mother Always Finds Out

Somewhere in the twisted world that is MTV's greatest reality show The Hills, thousands of viewers and fans have found themselves cultivated in love/hate relationships not only with the beautiful women on the show but in the drama that is their lives.

So back on the roller coaster we go. I'm not quite sure this ride was worth waiting for, seven days to find out that Stephanie Pratt is still as shady as ever? One week and we get a maximum 5 minutes of LC? But whatever, there was plenty of drama to take her place (sorry LC!) How convenient though, LC practically goes into exile without any type of communication, friends go behind her back and everything that could go wrong did, I hope she at least hooked up with some guys from Italy on her vacation.

So as Lo and Audrina see LC off to Italy it was like watching two children watching their Mother leave. It was honestly depressing, but the close ups of Lo and Audrina weren't that bad and not to mention these two would have some much needed bonding time, or would they? So the first piece of drama to hit the fan would be Stephanie asking Audrina if she should go on a date with LC's most recent ex-bf, Doug. Audrina's face was classic, it was one of those are you serious, like how dumb do you have to be kind of faces. I would have given Stephanie the same face, it doesn't take a genius to figure out that if your friends with a girl, you don't date her ex, maybe Stephanie is as dumb and shady as her brother Spencer, after all like brother like sister.

Speaking of Spencer, we saw quite a bit of him, in fact a little too much of him. So in their bonding time at Goa, Audrina and Lo run into team Speidi and it seems that Audrina and Heidi hit it off like high school sweethearts while Lo and Spencer were asking themselves wtf mate? So in there run-in at GOA Heidi invites Audrina to the X-Game party that Bolthouse is putting on, Audrina being nice responds yes and I'll bring Justin Bobby so your loser boyfriend can hang out with my loser boyfriend! So the only thing on the loose lips of Audrina and Heidi is that Doug and Stephanie are going out, and from that Audrina and Heidi decide they need

to have lunch together? Why bother having a lunch when the only thing you'll do is bad mouth good people? So much for that Lo and Audrina bonding time.

Onto the date that started all this drama, the date between Doug and Stephanie; awkward from the beginning, Doug starts out by asking if Stephanie

asked LC if it was okay. Doug, seriously? Not only are you committing date suicide but use your head man, I'm sure a fat kid who is promised cake has enough sense to not eat the cake until its given to him, but if you were that fat kid

Doug, you'd eat it all at first sight and step on anyone to get to it. So the date can't get more uncomfortable right, this is The Hills; there can always be more drama. Stephanie just happens to notice that Brody's (Doug's close friend) mom walks in who just happens to know Stephanie and Doug. And of course the first thing she asks if they are on a date and the reply with a no, but Mom knows best, she always does. So what does Mom do? Calls her son, after all she did just see his good friend on a date.

What a convenient time for LC to return from her vacation.

As mother LC returns home and taps her fingers on her island, roomies Lo and Audrina try to give her the Entertainment Weekly version of the drama that happened when LC was gone. Audrina breaks the news that her and Heidi talked and hanged out. LC brushes that off but it is when Audrina drops that bomb and tells her about that date. LC doesn't brush that off but puts on her best fake smile until she gets the full low down. And the full low down she was going to get from her good friend Brody Jenner. While on a dinner Brody opens with, "I hate to say I told you so" and LC goes from happy to be on a dinner date with Brody to pissed off and hurt once again because her friends can't be loyal to her. I'm kind of having Déjà vu, didn't Jen Bunny hook up with Brody behind LC's back after Jen Bunny was supposed to be her friend? Wow not only is Stephanie like her brother but she's like another traitorous skank, at least Stephanie picked a different guy than Jen Bunny.

Way too much drama for LC to be conveniently on vacation but much like Brody's mom's instinct kicked in, so did LC's motherly instinct. Friends would betray her behind her back and she would find out somehow. Quite the roller coaster this week, but on the up side, at least there was no drama between Heidi and LC.

## Siam Spice; Great Thai food in Daytona

William Sohl  
Staff Reporter

### Siam Spice

Siam Spice poses a modest exterior on the corner of Bay St. and Beach St. A small sign, easy to pass for those who forget their google maps, is all that marks its presence. But it's worth the search to try their quality Thai food.

The atmosphere is exceptionally comfortable with warm colors and tasteful decorating. They wide windows offer a

WILLIAM SOHL/AVON

great view of the water and Beach St. It almost feels like eating outside. The wait staff were all extremely friendly and helpful. I'd rate it among the best customer service I've seen in Daytona.

is enough to announce that. All the vegetables and ingredients tasted fresh and crisp. Our sample tried a panaeng, a red curry with lime and coconut milk, and a yellow curry, packed with fresh carrots and potatoes, along

WILLIAM SOHL/AVON

The value is a slightly more difficult question. As with most Thai food expect around \$13-20 per entrée. Appetizers can run from \$3-10 or more and sodas are \$2 or so. Overall, expect around \$15-17 per person for a party of four. But for that money, you'll get a heaping helping of food. The appetizers can easily be split three to four ways, and entrées will easily leave leftovers.

But what Siam Spice really has going for it is the food quality. The smell upon walking in

with fried wontons and vegetable spring rolls. Everything tasted excellent, with just the right amount of spice and mix of flavors. All this and it's plenty filling to boot. And the menu is wide enough to find something to fit anyone's tastes.

In the end, Siam Spice is a wonderful place to treat yourself to. You'll get a great meal and some delicious leftovers that will be well worth what you put in. They can be found at 101 Bay Street, Daytona Beach 32114.

## Classic Peanuts

ESTABLISHED IN CHARLESTON, IL  
IN 1983 TO ADD TO STUDENTS GPA  
AND GENERAL DATING ABILITY.

# JIMMY JOHN'S®

Since **JJ** 1983

WORLD'S GREATEST  
GOURMET SANDWICHES

Corporate Headquarters Champaign, IL

OK, SO MY SUBS REALLY AREN'T GOURMET AND WE'RE NOT FRENCH EITHER. MY SUBS JUST TASTE A LITTLE BETTER, THAT'S ALL! I WANTED TO CALL IT JIMMY JOHN'S TASTY SANDWICHES, BUT MY MOM TOLD ME TO STICK WITH GOURMET. SHE THINKS WHATEVER I DO IS GOURMET, BUT I DON'T THINK EITHER OF US KNOWS WHAT IT MEANS. SO LET'S STICK WITH TASTY!

*Jimmy John*

**\$4.75**

## 8" SUB SANDWICHES

All of my tasty sub sandwiches are a full 8 inches of homemade French bread, fresh veggies and the finest meats & cheese I can buy! And if it matters to you, we slice everything fresh everyday in this store, right here where you can see it. (No mystery meat here!)

### #1 PEPE®

Real applewood smoked ham and provolone cheese garnished with lettuce, tomato, and mayo.

### #2 BIG JOHN®

Medium rare choice roast beef, topped with yummy mayo, lettuce, and tomato.

### #3 TOTALLY TUNA®

Fresh housemade tuna, mixed with celery, onions, and our tasty sauce, then topped with alfalfa sprouts, cucumber, lettuce, and tomato. (My tuna rocks!)

### #4 TURKEY TOM®

Fresh sliced turkey breast, topped with lettuce, tomato, alfalfa sprouts, and mayo. (The original)

### #5 VITO®

The original Italian sub with genoa salami, provolone, capicola, onion, lettuce, tomato, & a real tasty Italian vinaigrette. (Hot peppers by request)

### #6 VEGETARIAN

Layers of provolone cheese separated by real avocado spread, alfalfa sprouts, sliced cucumber, lettuce, tomato, and mayo. (Truly a gourmet sub not for vegetarians only ..... peace dude!)

### J.J.B.L.T.™

Bacon, lettuce, tomato, & mayo.  
(The only better BLT is mama's BLT)

**\$3.75**

## PLAIN SLIMS™

Any Sub minus the veggies and sauce

- SLIM 1 Ham & cheese
- SLIM 2 Roast Beef
- SLIM 3 Tuna salad
- SLIM 4 Turkey breast
- SLIM 5 Salami, capicola, cheese
- SLIM 6 Double provolone

## Low Carb Lettuce Wrap

### JJ UNWICH™

Same ingredients and price of the sub or club without the bread.

## YOUR CATERING SOLUTION!!!

BOX LUNCHES, PLATTERS, PARTIES!

DELIVERY ORDERS will include a delivery charge of 25¢ per item (+/-10¢).

★★★★ JIMMYJOHNS.COM ★★★★★

**\$7.99**

## THE J.J. GARGANTUAN™

This sandwich was invented by Jimmy John's brother Huey. It's huge enough to feed the hungriest of all humans! Tons of genoa salami, sliced smoked ham, capicola, roast beef, turkey & provolone, jammed into one of our homemade French buns then smothered with onions, mayo, lettuce, tomato, & our homemade Italian dressing.

**\$5.75**

## GIANT CLUB SANDWICHES

My club sandwiches have twice the meat and cheese, try it on my fresh baked thick sliced 7-grain bread or my famous homemade french bread!

### #7 GOURMET SMOKED HAM CLUB

A full 1/4 pound of real applewood smoked ham, provolone cheese, lettuce, tomato, & real mayo!

### #8 BILLY CLUB®

Choice roast beef, smoked ham, provolone cheese, Dijon mustard, lettuce, tomato, & mayo.

### #9 ITALIAN NIGHT CLUB®

Real genoa salami, Italian capicola, smoked ham, and provolone cheese all topped with lettuce, tomato, onion, mayo, and our homemade Italian vinaigrette. (You hav'ta order hot peppers, just ask!)

### #10 HUNTER'S CLUB®

A full 1/4 pound of fresh sliced medium rare roast beef, provolone, lettuce, tomato, & mayo.

### #11 COUNTRY CLUB®

Fresh sliced turkey breast, applewood smoked ham, provolone, and tons of lettuce, tomato, and mayo! (A very traditional, yet always exceptional classic!)

### #12 BEACH CLUB®

Fresh baked turkey breast, provolone cheese, avocado spread, sliced cucumber, sprouts, lettuce, tomato, and mayo! (It's the real deal, and it ain't even California.)

### #13 GOURMET VEGGIE CLUB®

Double provolone, real avocado spread, sliced cucumber, alfalfa sprouts, lettuce, tomato, & mayo. (Try it on my 7-grain whole wheat bread. This veggie sandwich is world class!)

### #14 BOOTLEGGERS CLUB®

Roast beef, turkey breast, lettuce, tomato, & mayo. An American classic, certainly not invented by J.J. but definitely tweaked and fine-tuned to perfection!

### #15 CLUB TUNA®

The same as our #3 Totally Tuna except this one has a lot more. Fresh housemade tuna salad, provolone, sprouts, cucumber, lettuce, & tomato.

### #16 CLUB LULU™

Fresh sliced turkey breast, bacon, lettuce, tomato, & mayo. (JJ's original turkey & bacon club)

## ★ SIDE ITEMS ★

- ★ Soda Pop ..... \$1.49/\$1.69
- ★ Giant chocolate chip or oatmeal raisin cookie ... \$1.50
- ★ Real potato chips or jumbo kosher dill pickle .... \$1.15
- ★ Extra load of meat ..... \$1.75
- ★ Extra cheese or extra avocado spread ..... \$0.85
- ★ Hot Peppers ..... Free

## FREEBIES (SUBS & CLUBS ONLY)

Onion, lettuce, alfalfa sprouts, tomato, mayo, sliced cucumber, Dijon mustard, oil & vinegar, and oregano.
