# What is Scholarly Commons?

---

- The ERAU institutional repository
  - [Commons.erau.edu](https://commons.erau.edu)
  - Provides open access for university creative works to a global audience
    - Showcases: journal articles, conference papers, reports, presentations, datasets, and videos
    - Archives: university publications, records, and artifacts
    - Hosts: Journals, magazines, conferences, events, open educational resources

# Different Categories of Content

---

- Colleges/Departments/Centers
- Conferences and Events
- Datasets
- Journals and Magazines
- Open Educational Resources
- Student Works
- Selected Works Gallery
- University Archives

# Different Categories of Content

## Two Most Relevant to Faculty Publishing

---

- Colleges/Departments/Centers
- Conferences and Events
- Datasets
- Journals and Magazines
- Open Educational Resources
- Student Works
- Selected Works Gallery
- University Archives

# Collections: Colleges & Departments (Faculty Research)

---

- Faculty Research Collections are arranged by:
  - Campus
    - College
      - Department
        - Chronologically by year published – most recent on top

# Faculty Research in Scholarly Commons

---

- Versions of articles published in journals approved for open access
- Conference presentations
  - PowerPoint, Prezi, or other presentation
  - Video recording or Audio recording
- Papers from a conference proceedings volume
- Unpublished professional documents (e.g., report submitted to the FAA)

#### Abstract/Description

**Purpose** – Employee engagement studies are popular in contemporary research because of the complexity organizations face in nurturing the performance and productivity of multigenerations of workers. The purpose of the current study is to assess association of age and dimensions of work engagement.

**Design/methodology/approach** - In total 181 participants completed the Utrecht Work Engagement Scale (UWES) to measure work engagement including the dimensions of absorption, vigor and dedication as well as demographics. One way ANOVA and post hoc tests were conducted to examine the relationship between age and work engagement.

**Findings:** Employees 50 years of age and older were found to have statistically significant higher work engagement scores than the employees under the age of 50. Statistically significant scores were also found to be higher in absorption and dedication.

**Originality/value** – The workforce is aging with older employees becoming larger populations in organizations. Understanding how age influences employee work

## Selected Works of Barbara S. Chaparro

Professor, Department of Human Factors and Behavioral Neurobiology

I have 28 years of experience in applied Human-Computer Interaction in both industry and academia. Currently, I lead the **Research in User eXperience (RUX) Lab**. I previously served as a Professor and Coordinator of the Human Factors Psychology Doctoral Program at Wichita State University (WSU). I also directed the Software Usability Research Laboratory (SURL), an academic research & consulting lab. My research interests include the study of user experience of a variety of products and systems, usability assessment methods, and mobile computing. I have worked on many contracts from Fortune-100 companies to research the user experience at [read more →](#)

### Professional Service and Affiliations

# Electronic Promotion and Tenure and SelectedWorks

---

- Faculty contribute full-text articles and other creative works to Scholarly Commons
- SelectedWorks harvests other citations from a variety of databases and sources
- Information Technology uses a system they developed to populate the Electronic Promotion and Tenure system with all of the citations from SelectedWorks

# Advantages of Participating

---

- Providing open access to your research opens it up to a global audience
  - Optimized for Google searching
- Ability to track usage
  - Monitor a particular item at any time
  - Monthly statistical reports
  - Additional evidence your research is reaching a wide audience
- Linked to the ERAU electronic P&T system
  - Saves faculty time
  - Saves faculty extra work
- Increases the global research reputation of ERAU

# How Do Faculty Participate

---

- Use the submission link and upload directly
- Send your current CV or other list of publications to the Hunt Library Faculty Support Team at [commons@erau.edu](mailto:commons@erau.edu)
- Benefits of working with the Faculty Support Team
  - A dedicated team member will work with you on current and future submissions
  - Team members research publisher copyright requirements (so you don't have to!)
  - Team members post the appropriate version (also so you don't have to!)
  - Team members create and help you maintain your SelectedWorks page
