## *ACADEMIA*

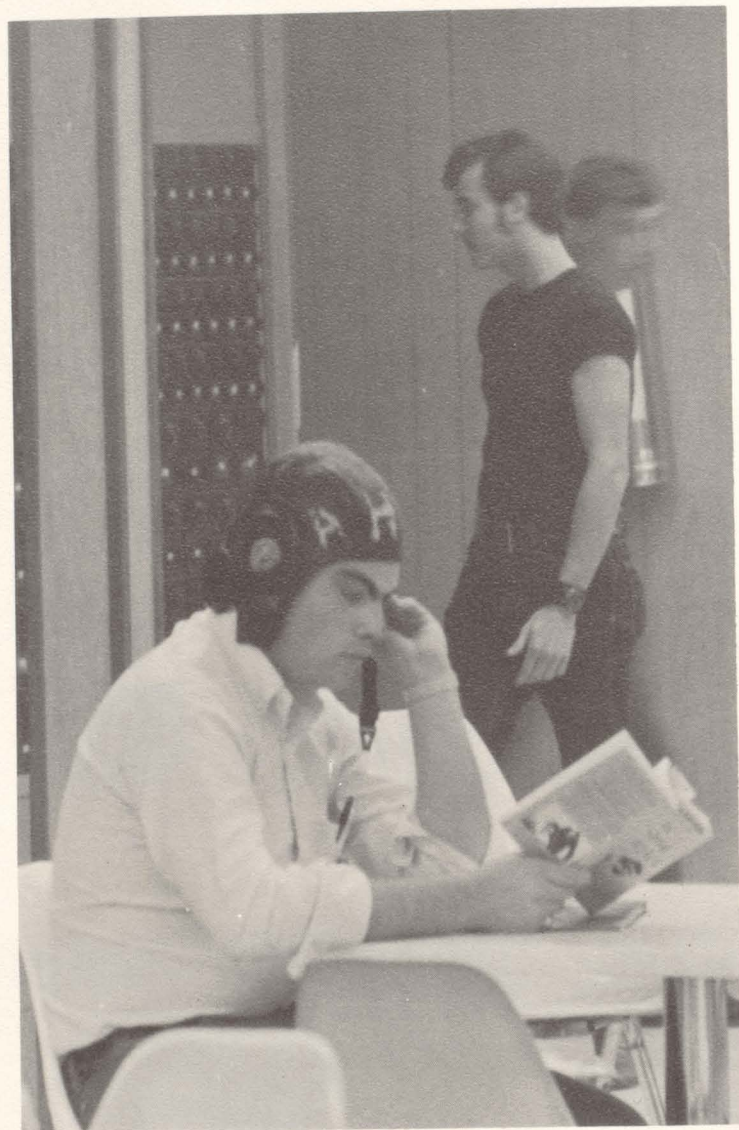

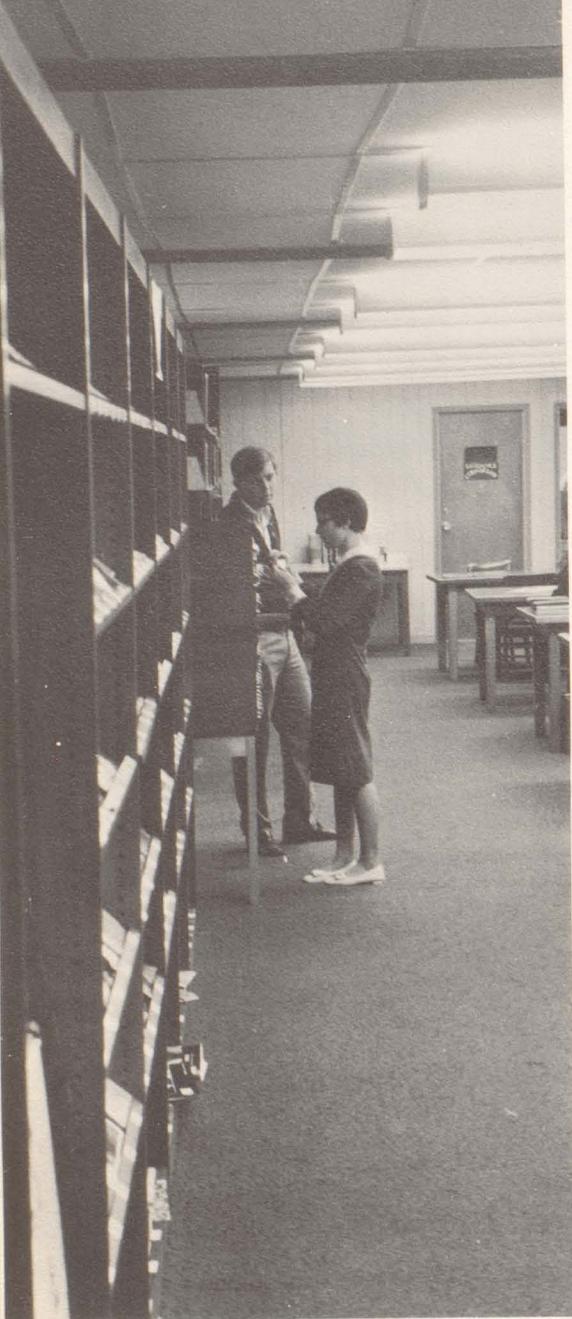

Will they ever offer the courses that I really need?

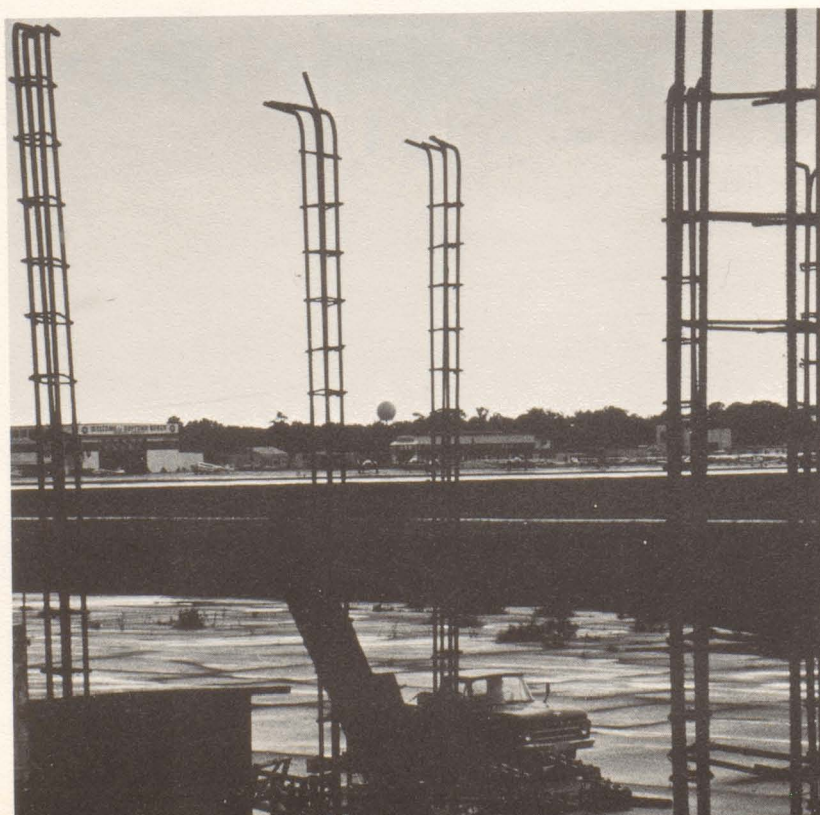

Oh, how many times have I walked up these steps into the unknown?

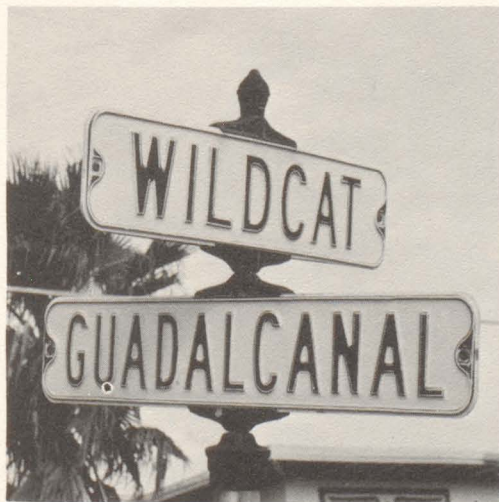

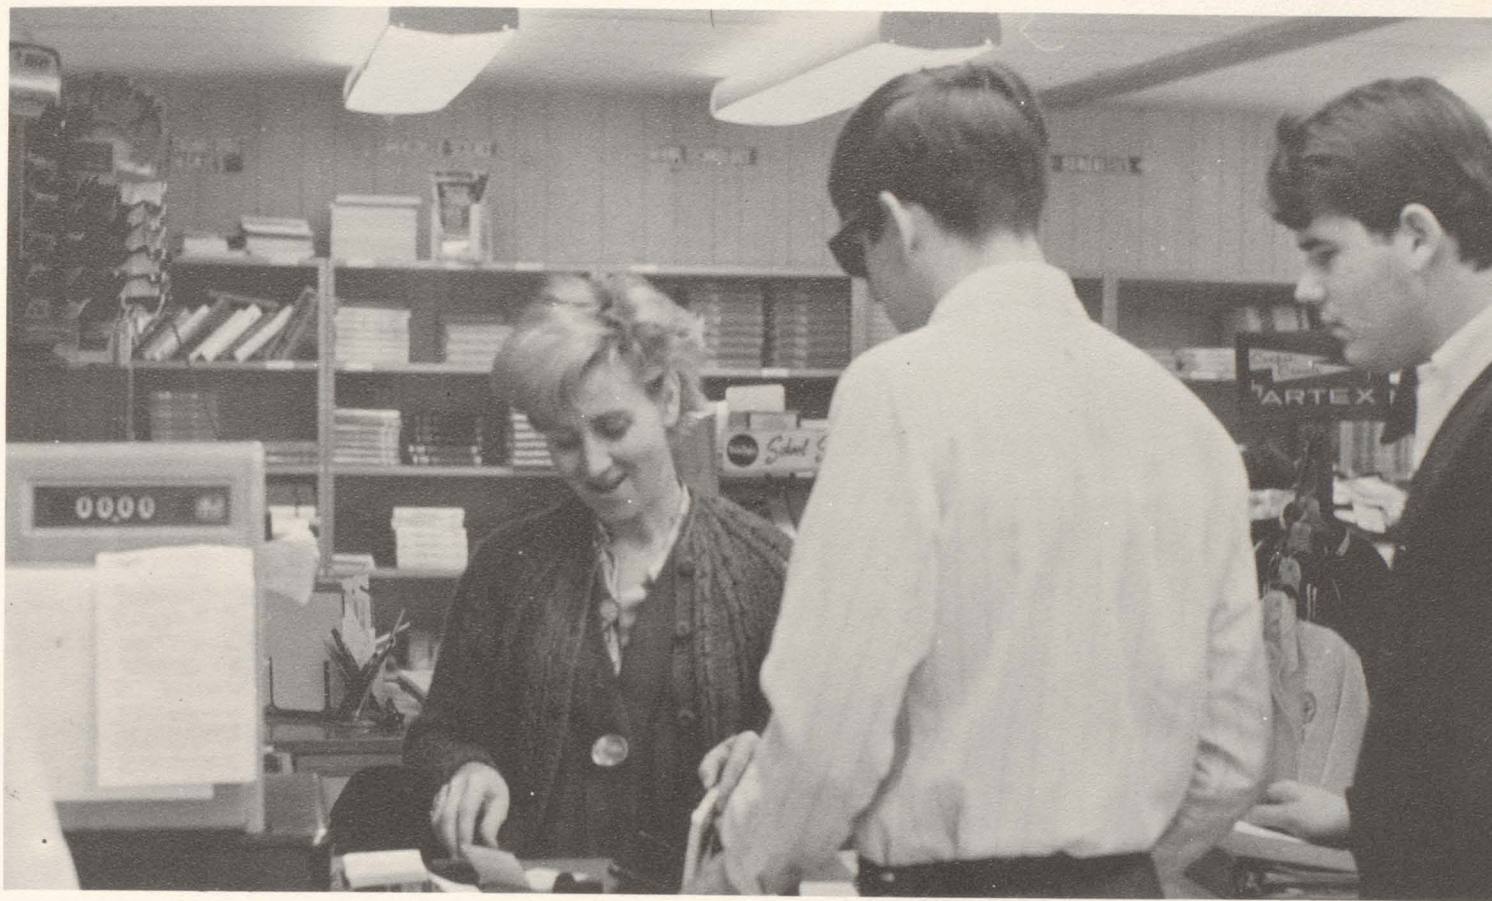

Administration,  
faculty, students:  
unique entities  
bound  
into an educational  
whole.

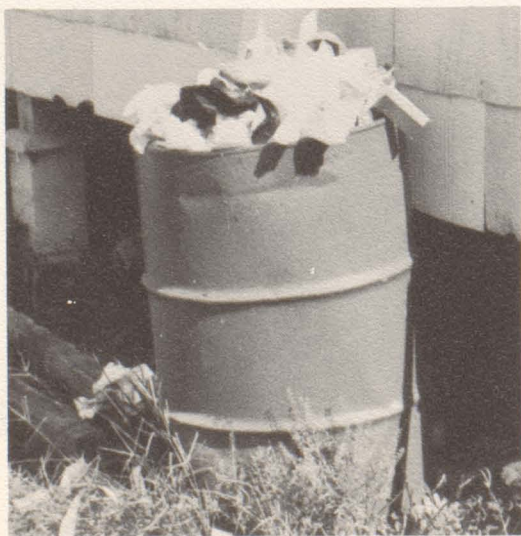

Preregistration by 3:00 P.M.? Never!!

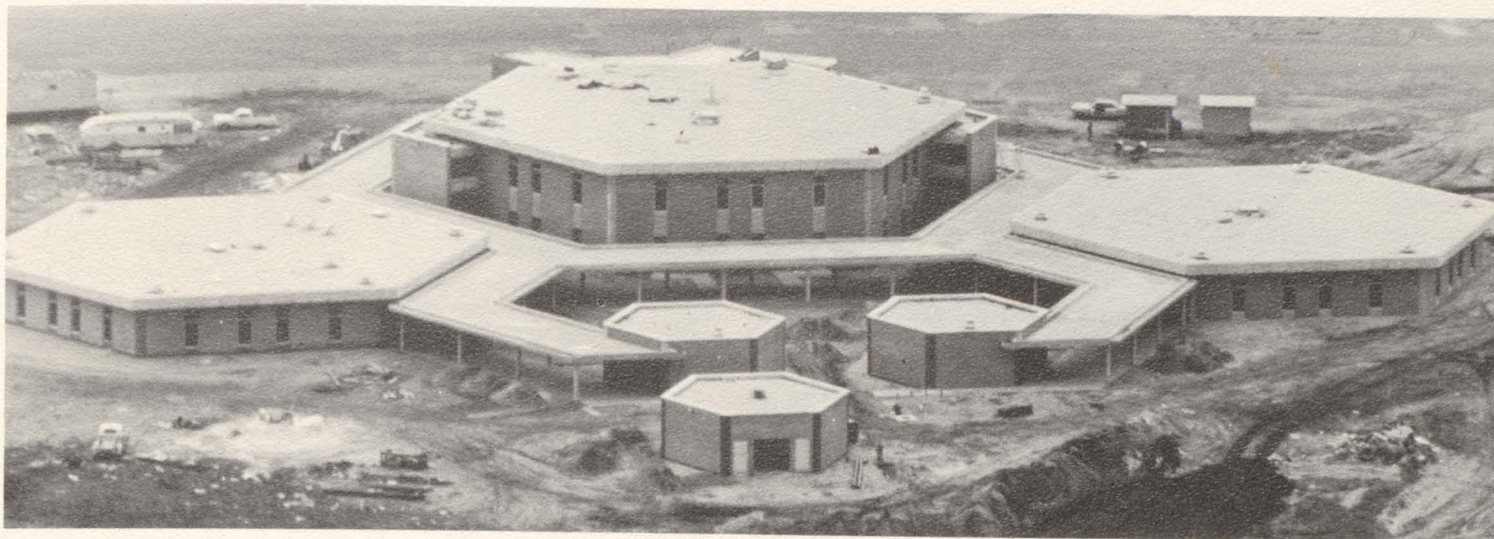

It it were only calibrated

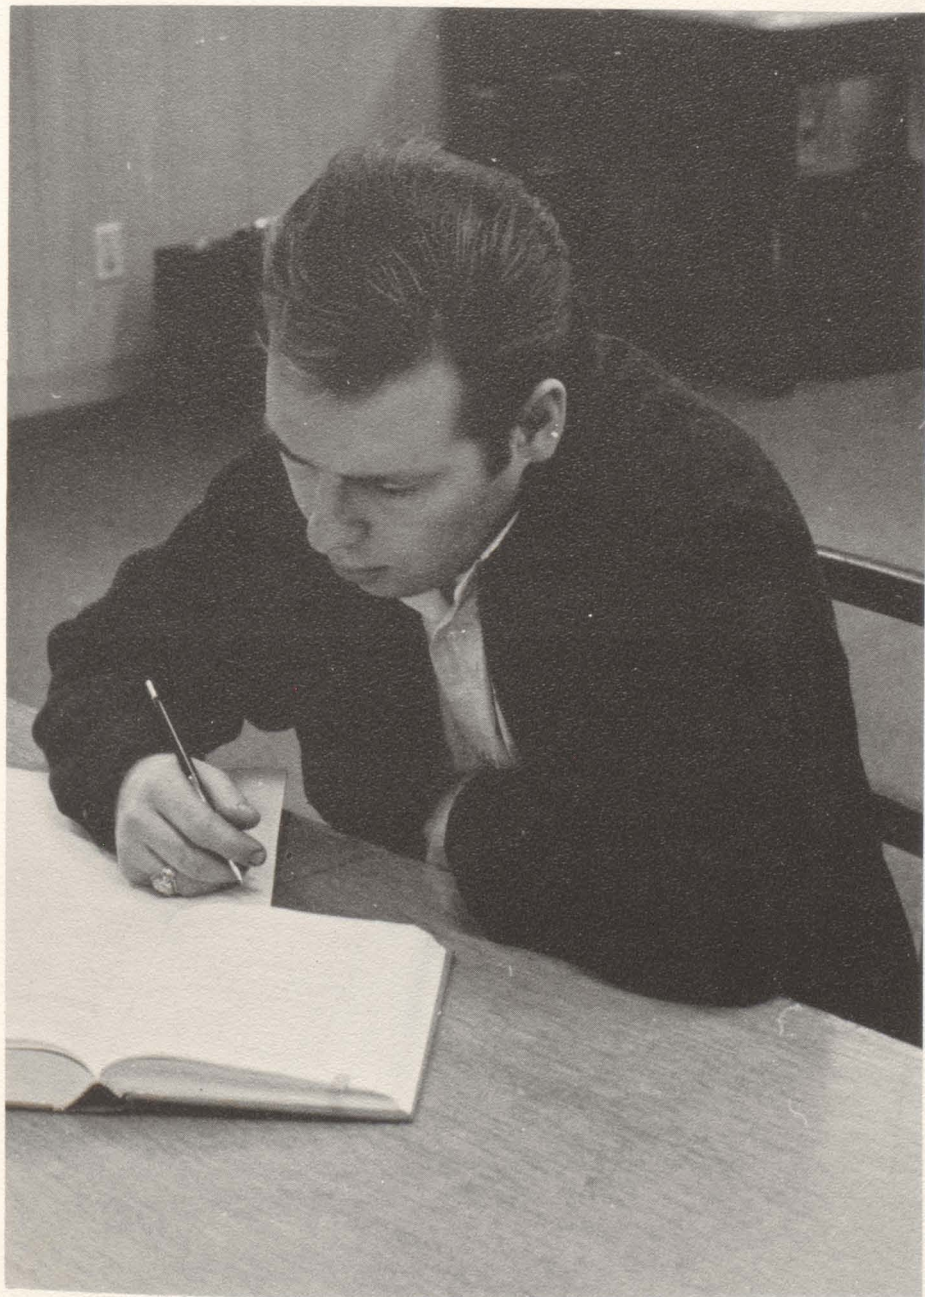

The results of failure!

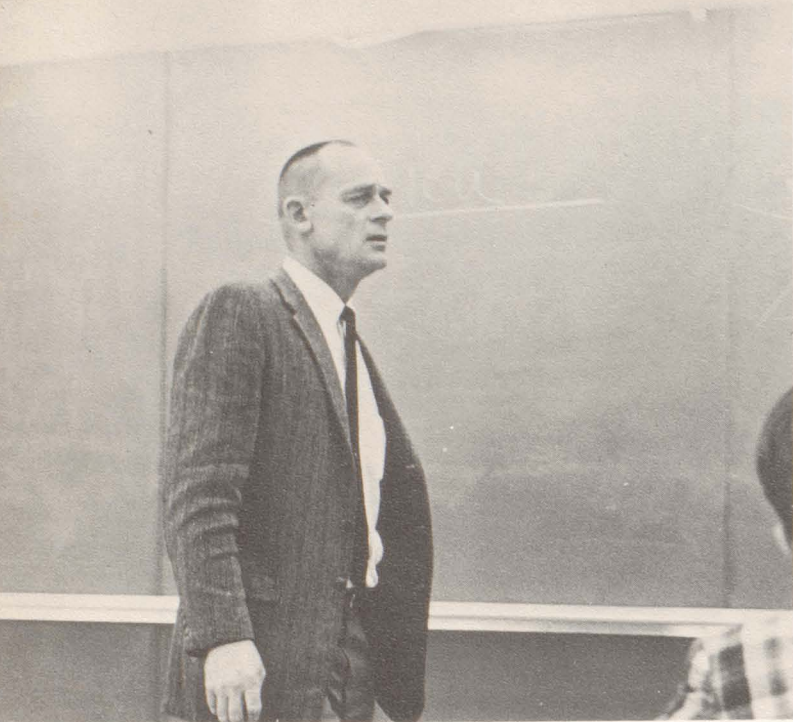

Phase I construction of new campus.

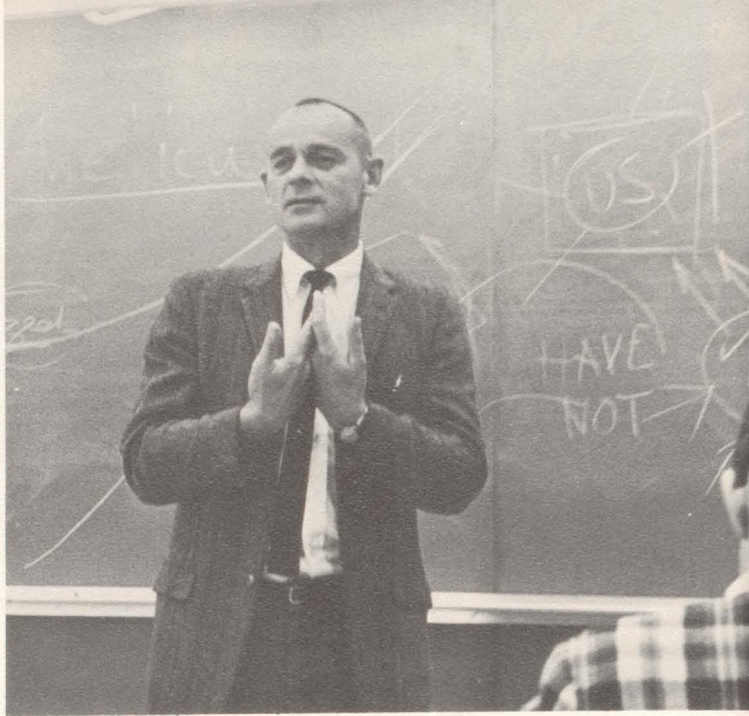

"Oh, woe is me!!"

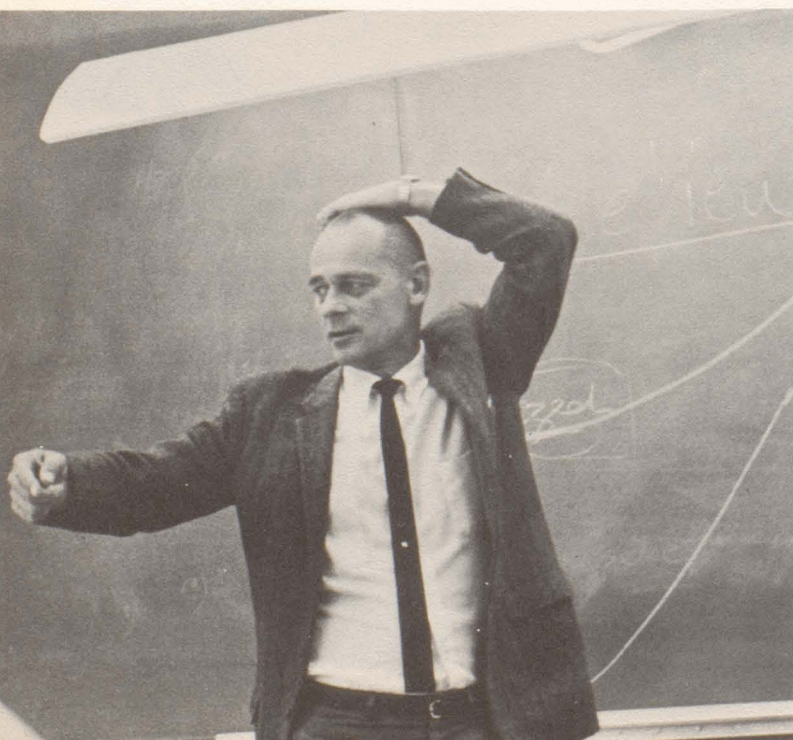

This is Roger Campbell!

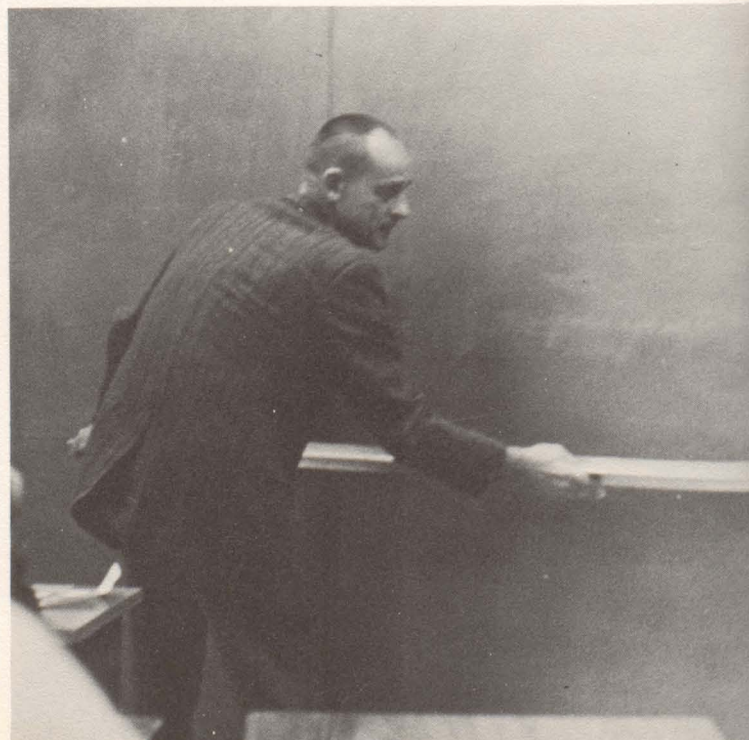

He teaches American Foreign Policy, also.

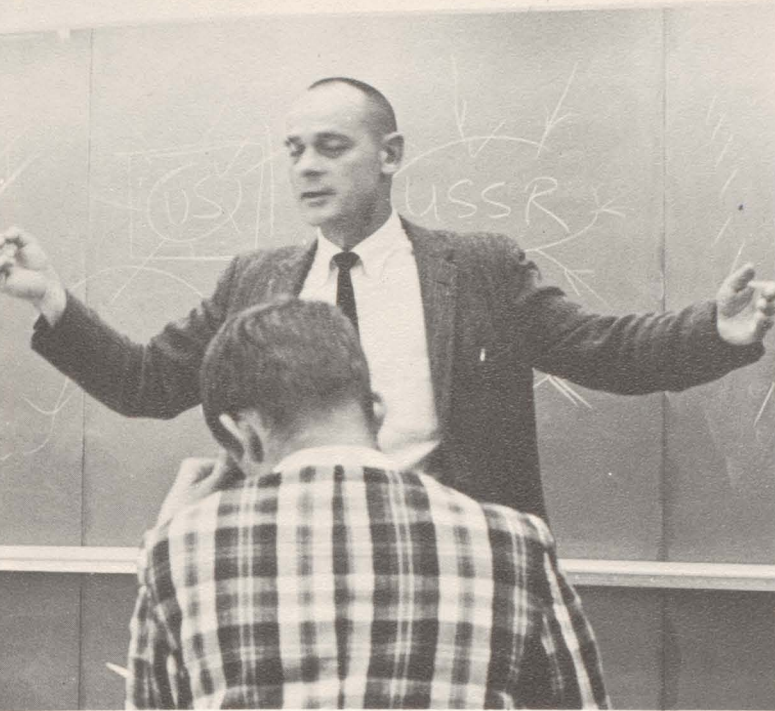

Football Referee Hand Signals

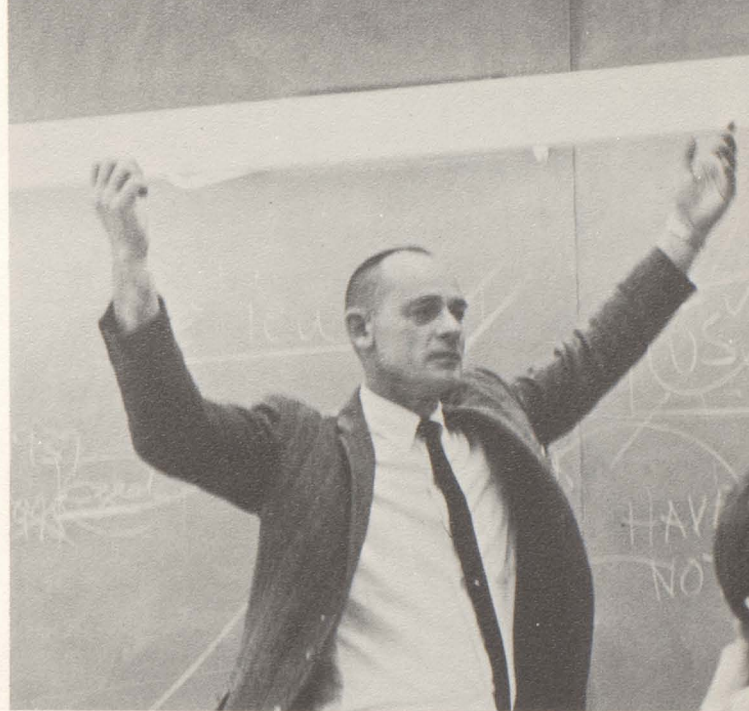

Not to mention Pole Vaulting

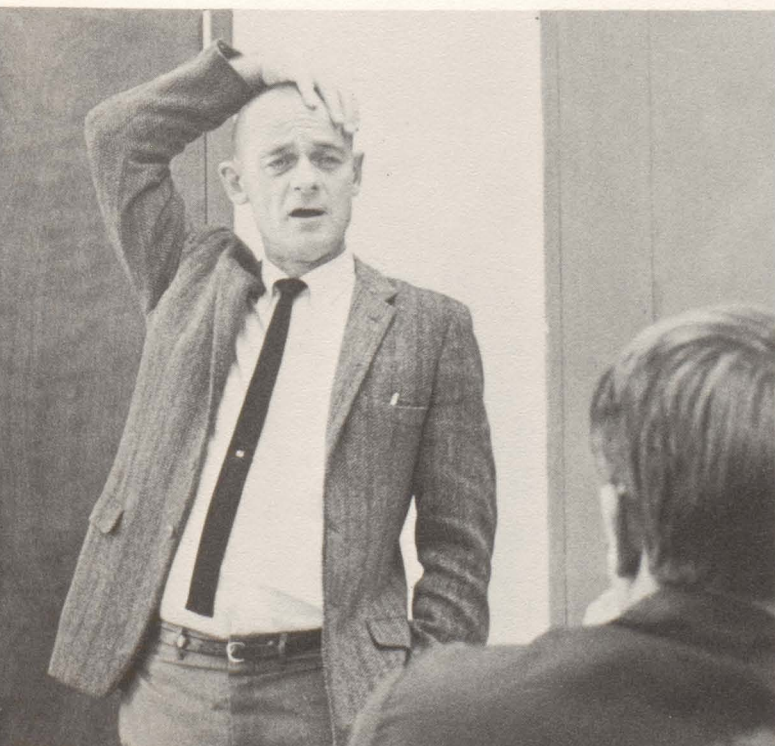

How to conduct a Revival Meeting

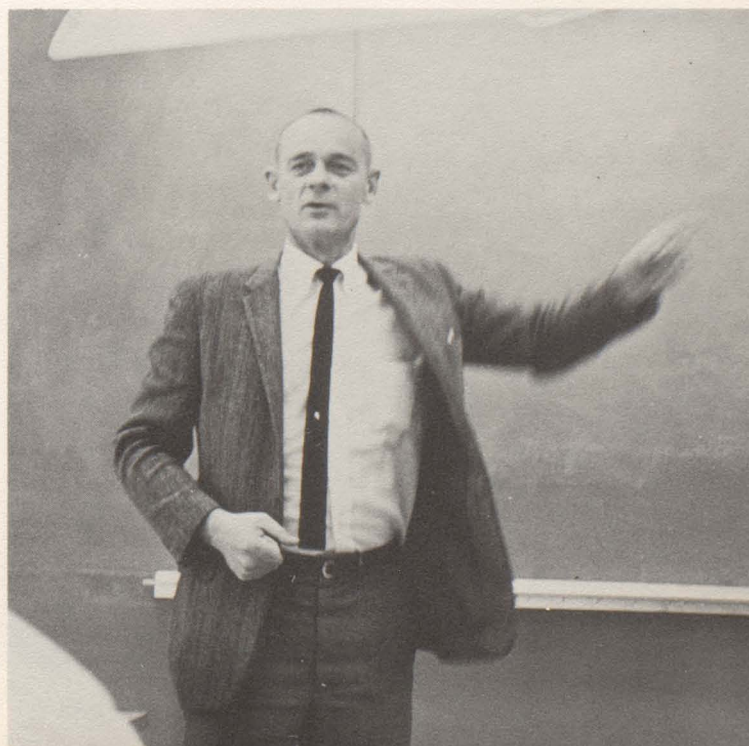

How to lead a band

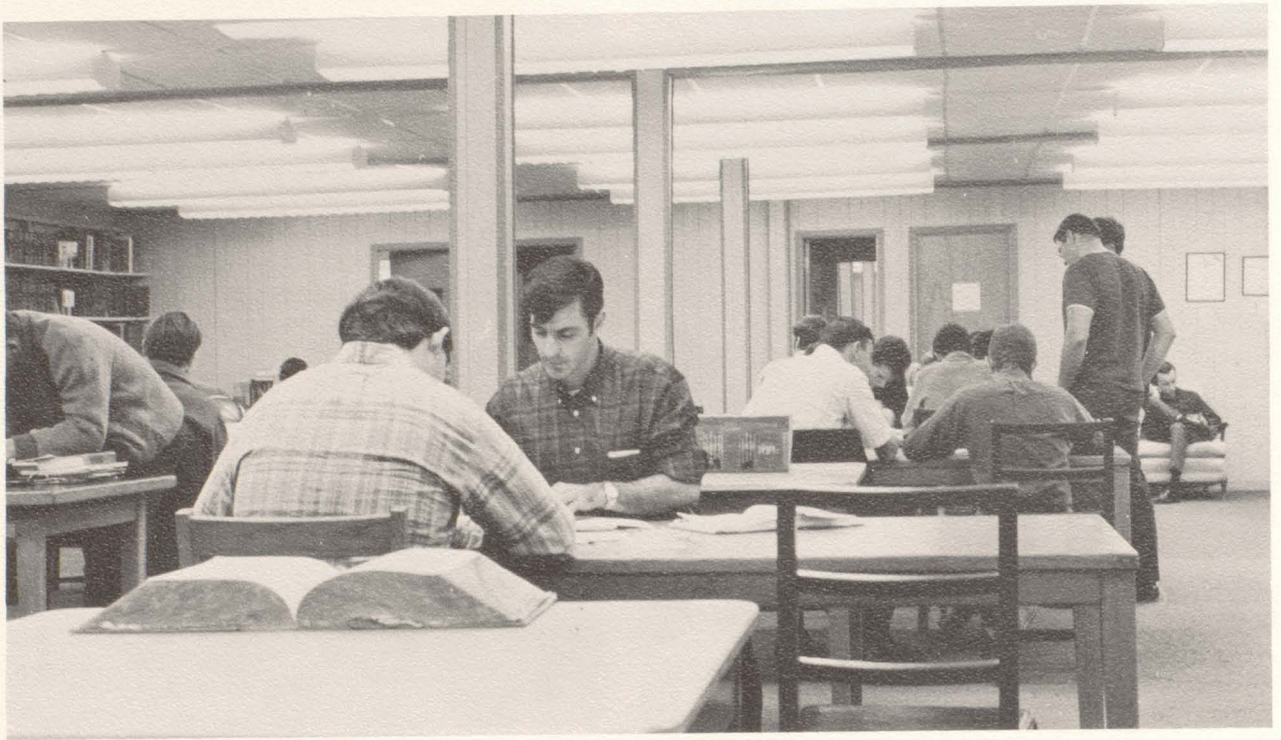

And Excedrin Headache Commercials

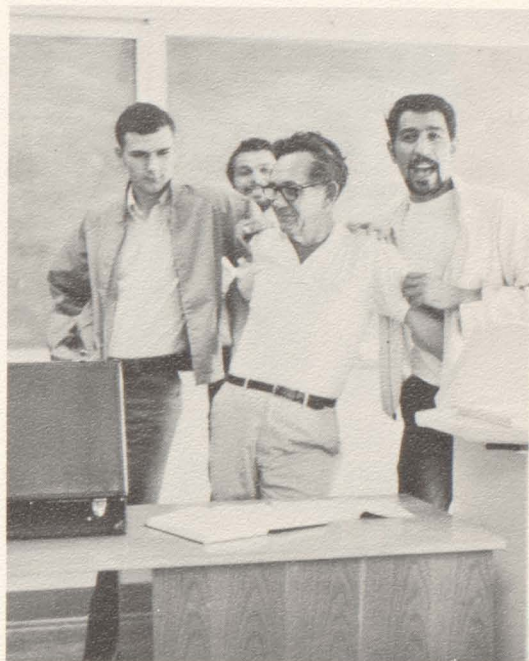

You with the camera. . . .OUT!

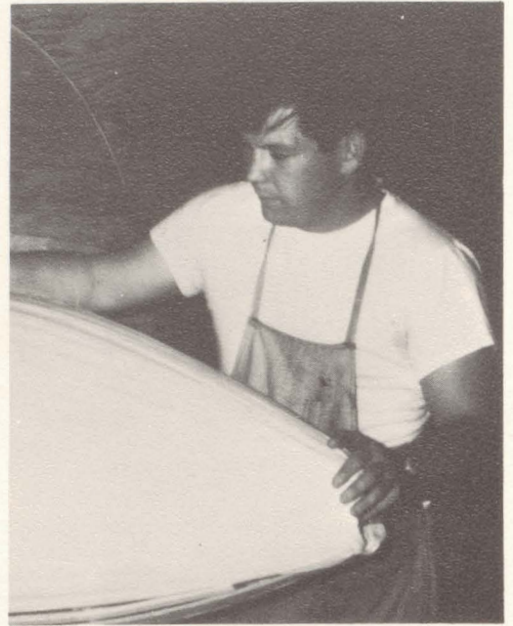

An education—  
designed by the  
Administration,  
presented by the  
faculty,  
and digested by the  
student.

55 minutes later, and 365 throat clearings. . . .

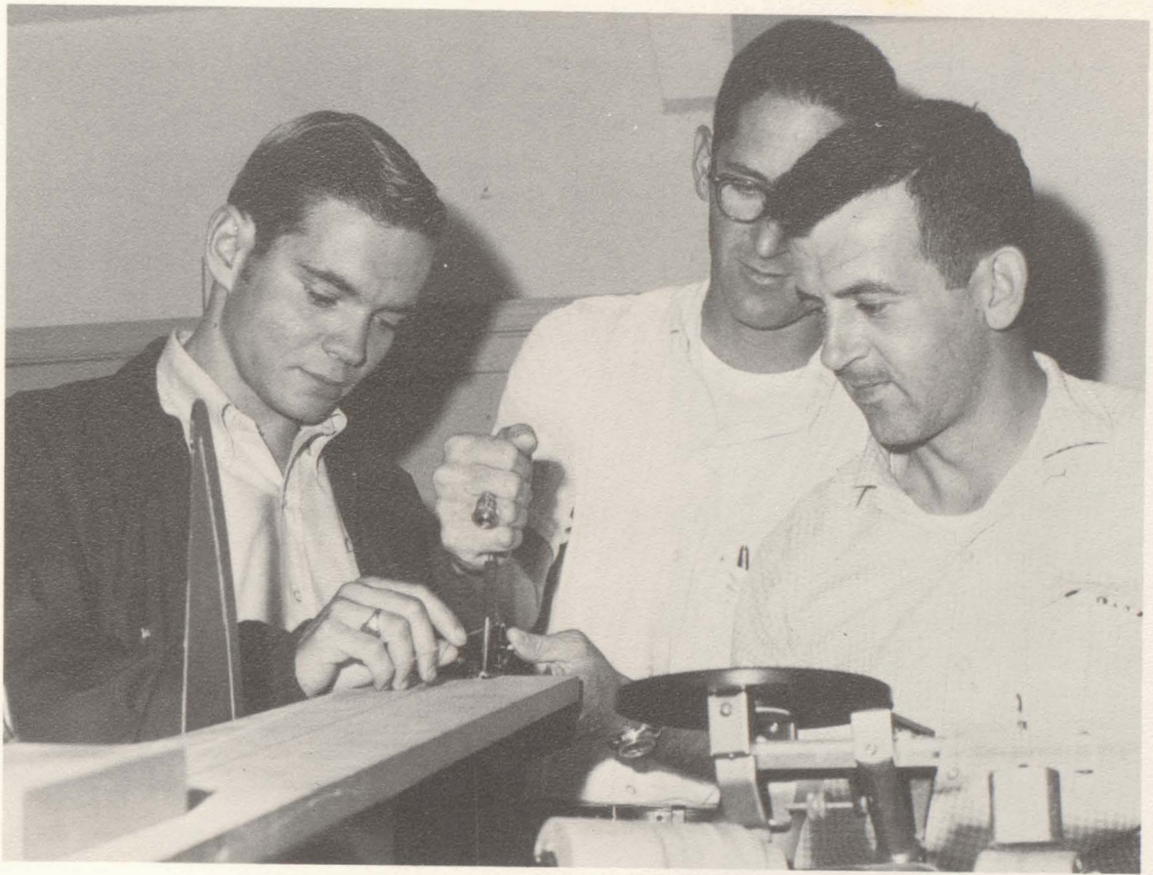

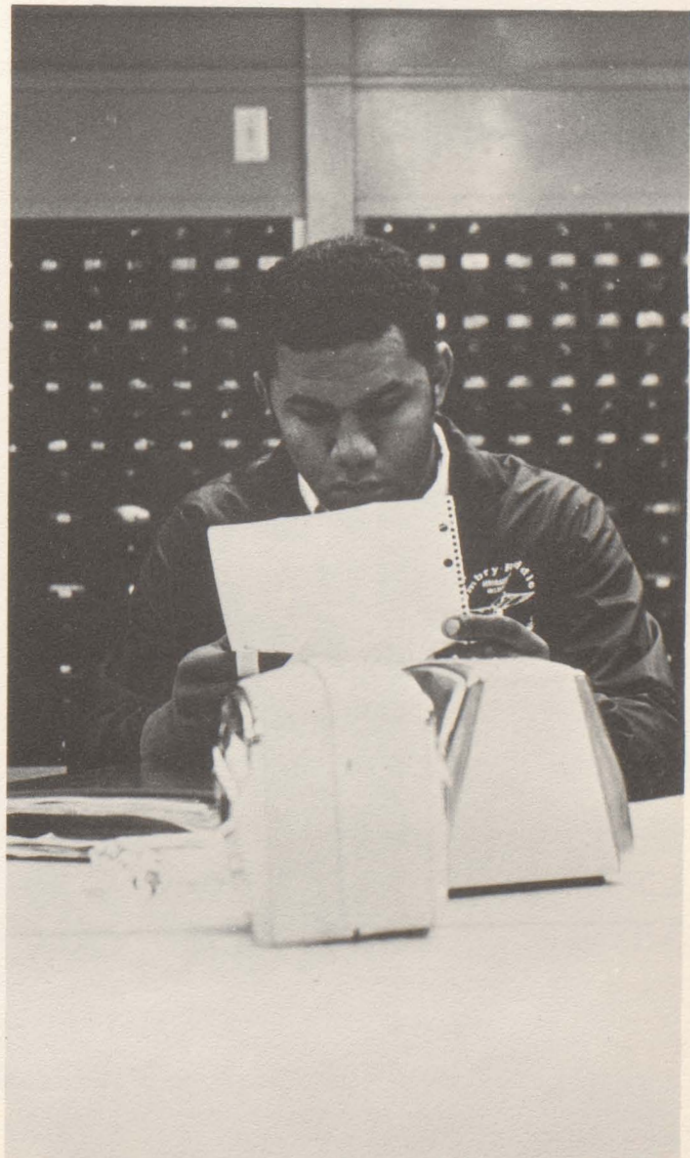

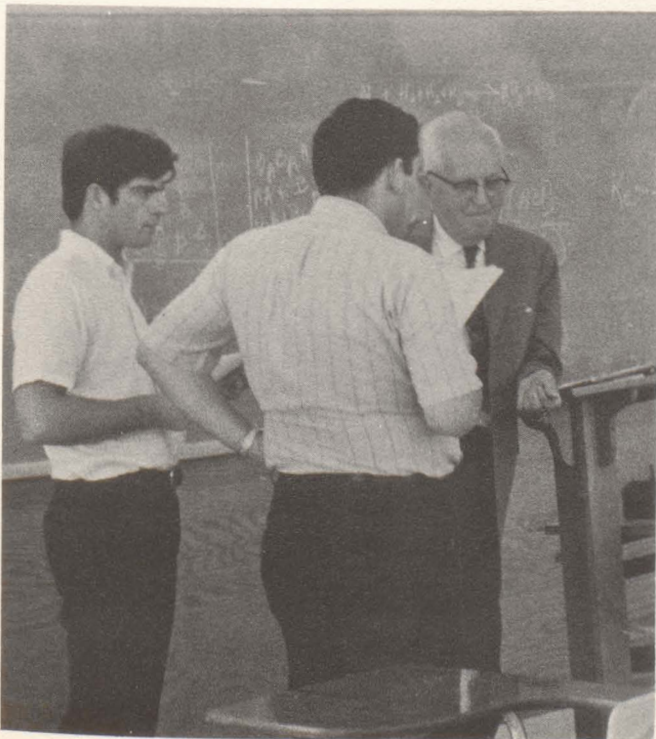

Wind tunnel construction

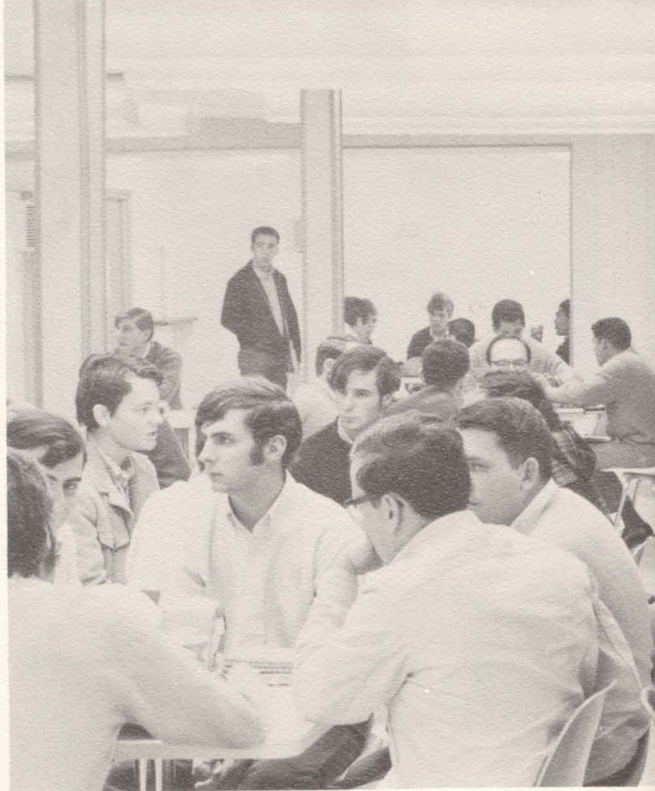

Too often, as  
education is presented,  
students take  
what is needed  
to pass the exam  
and write the paper.  
Searching no further,  
they let  
the opportunity die.

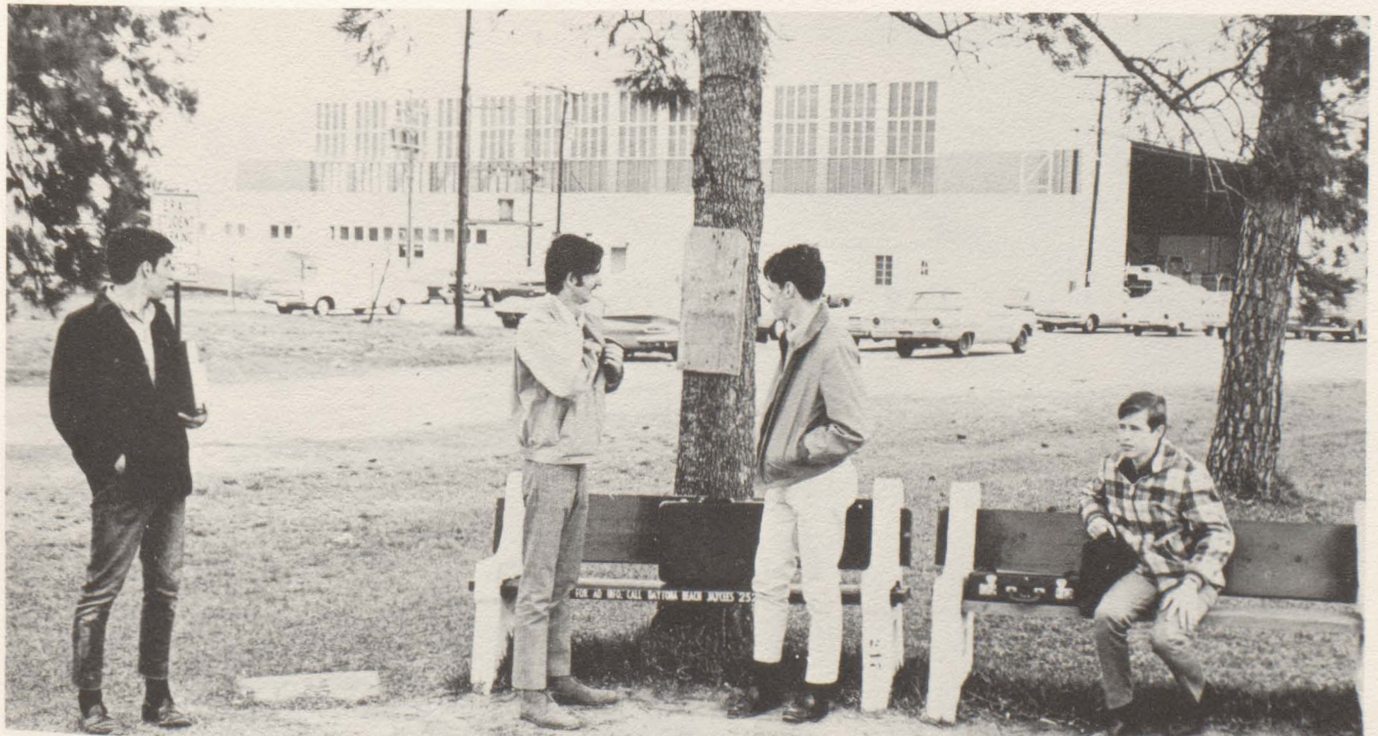

The sound of familiar voices — "Warmth and security"

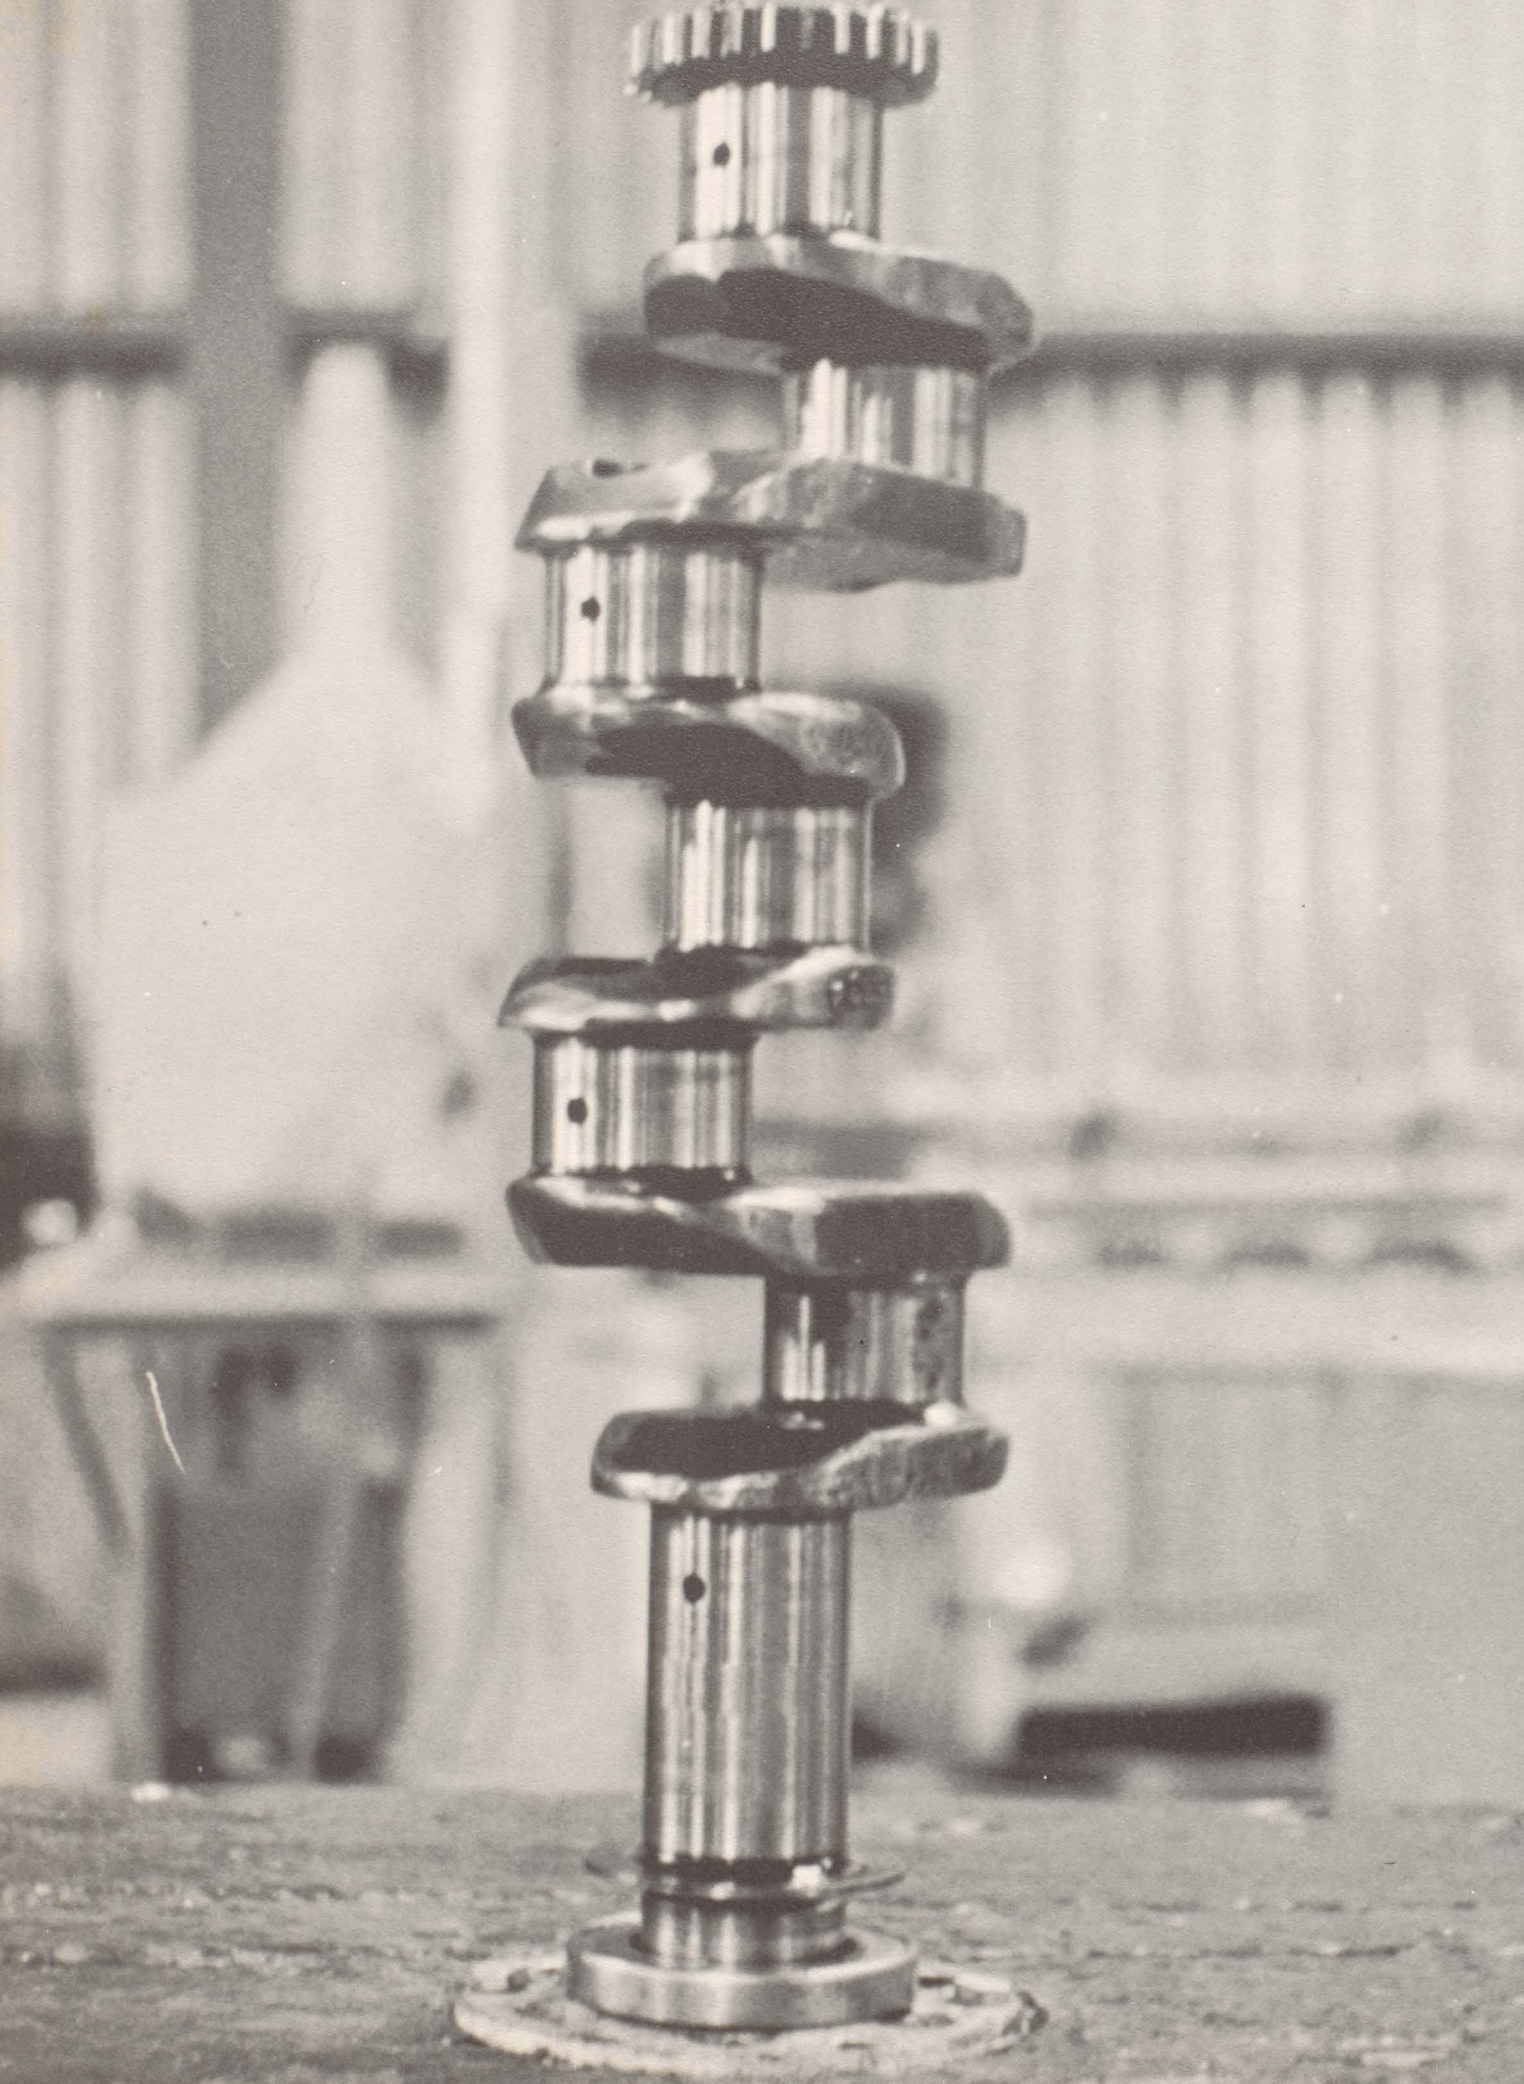

Fixed assets, expenditures, net losses — rubbish.

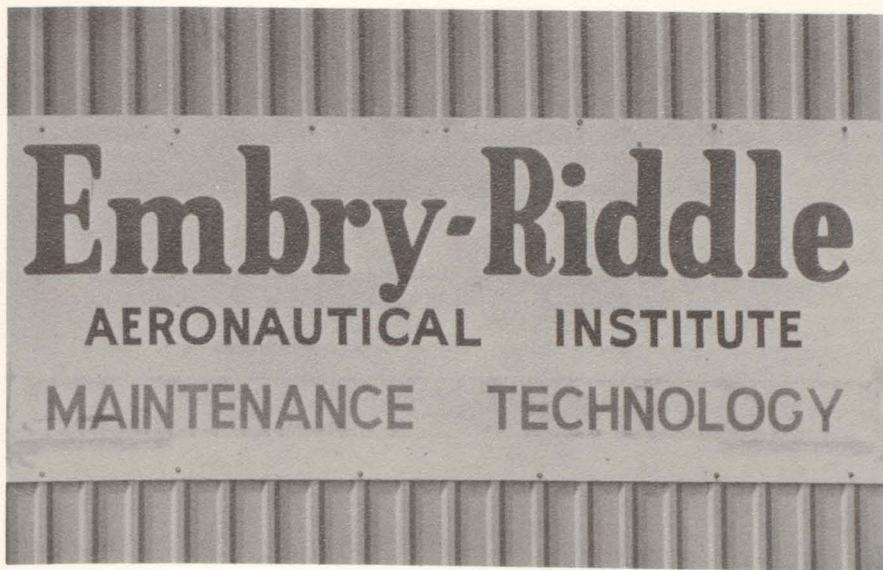

"Ye Olde Bus Stop"

But, Mr. Lehmann, it just doesn't compute!

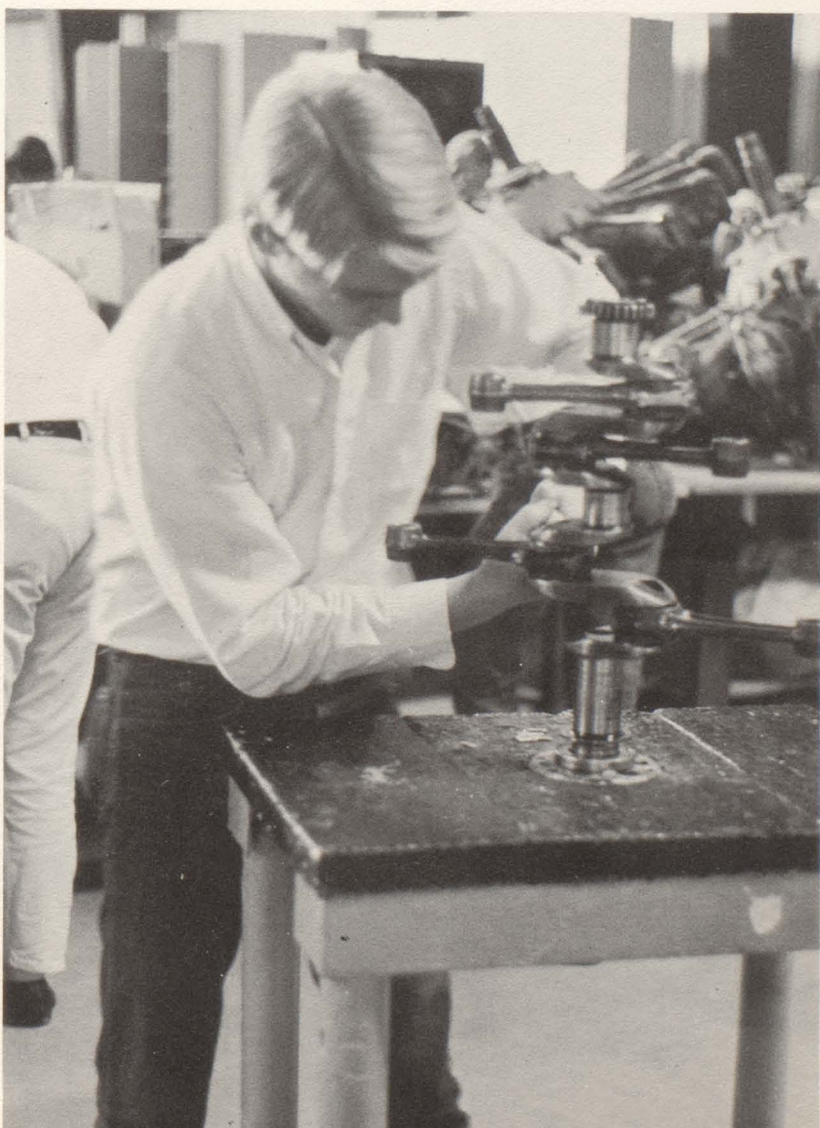

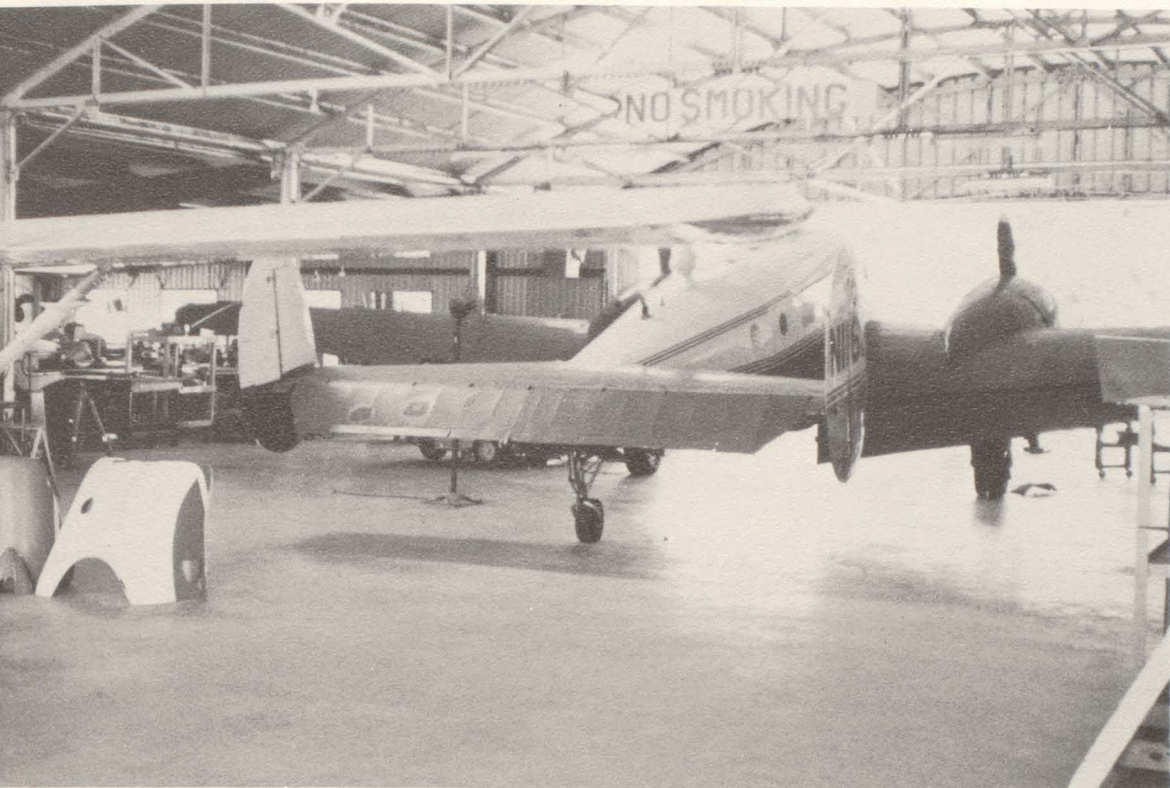

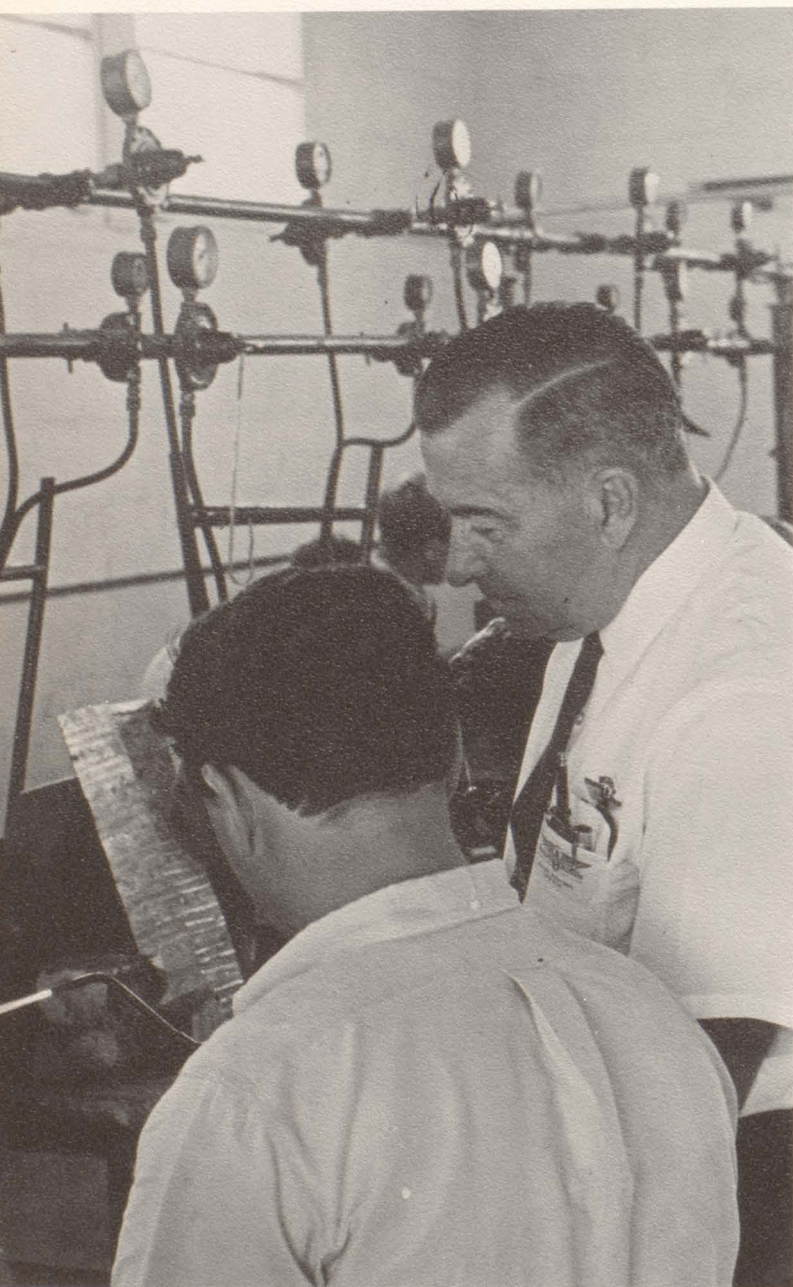

There's more to this than meets the eye.

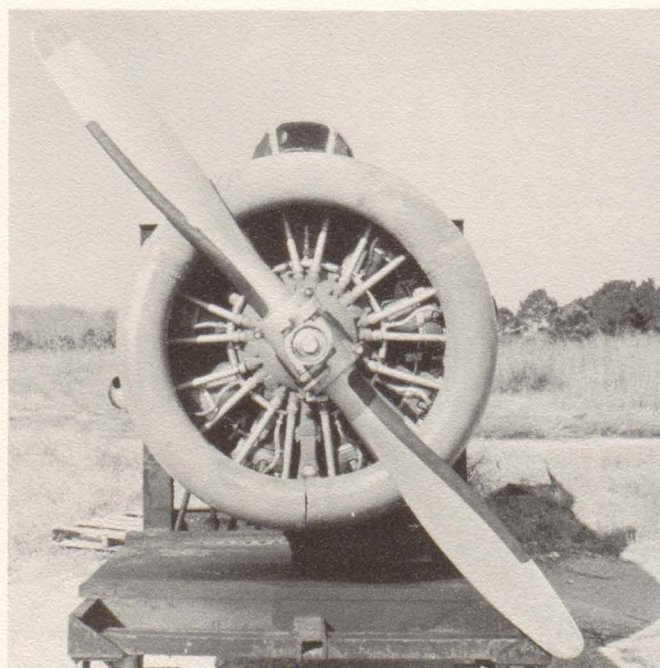

Welding lab. practical

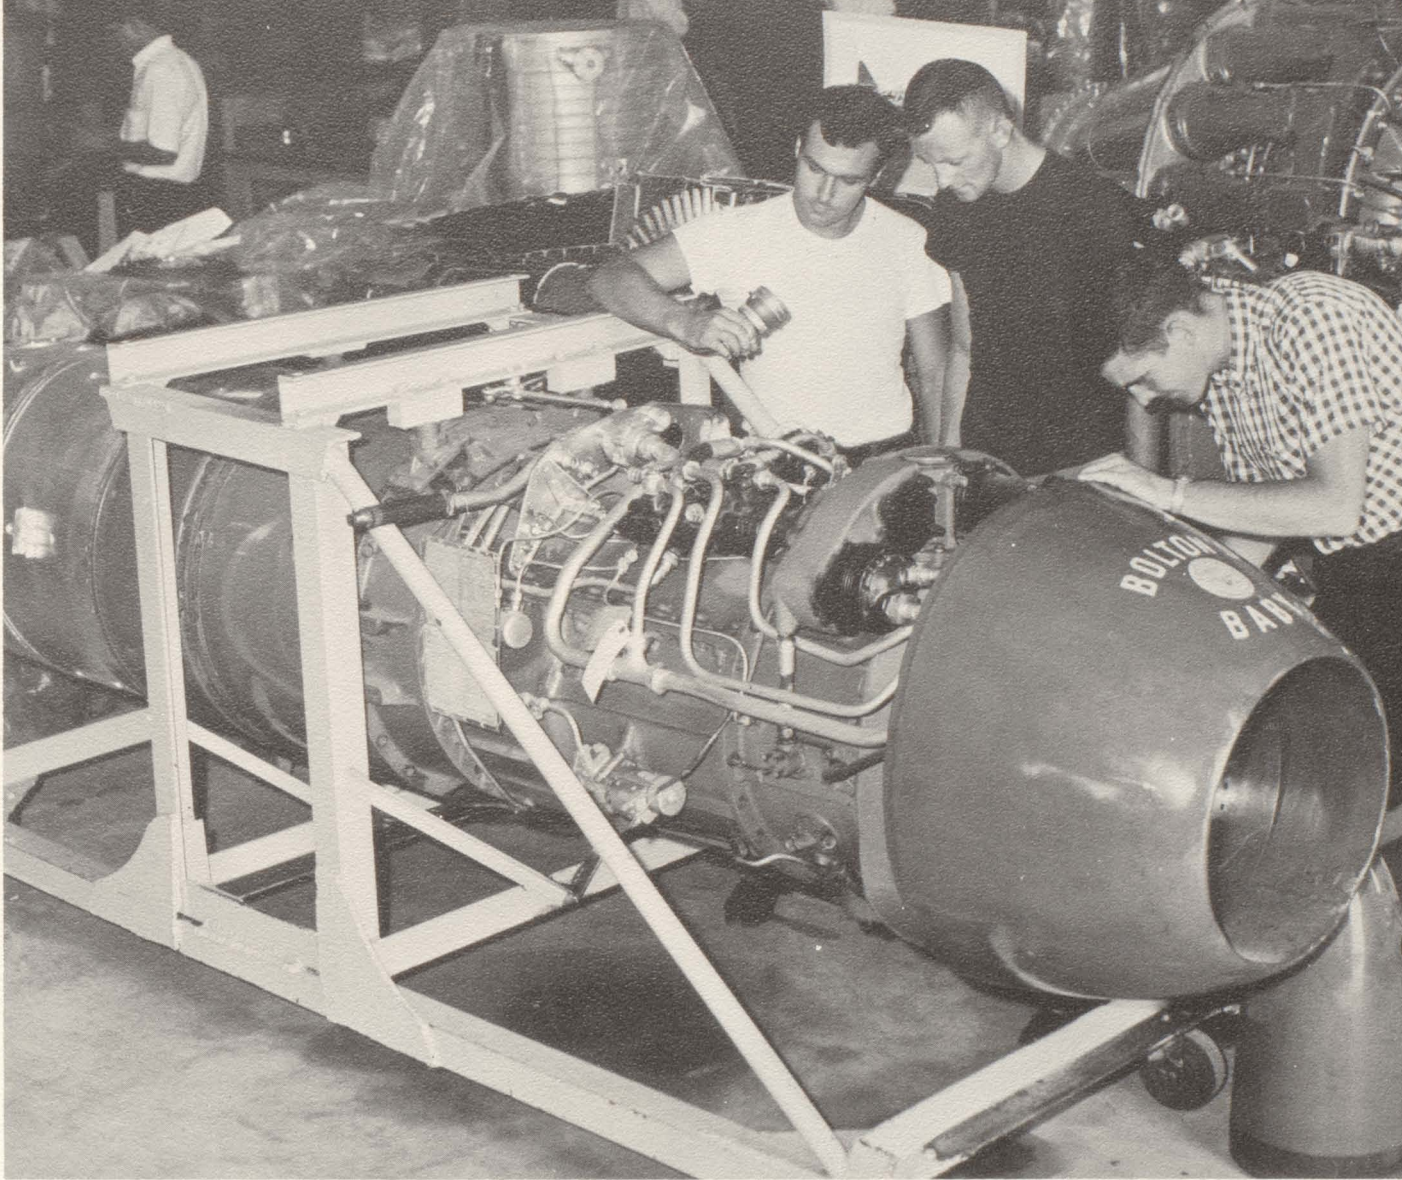

Seamstress training.

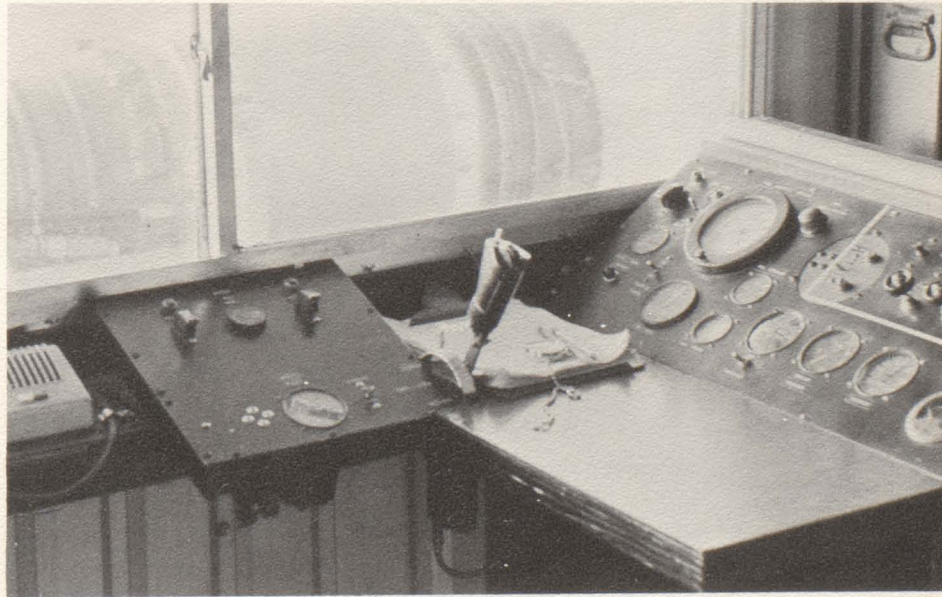

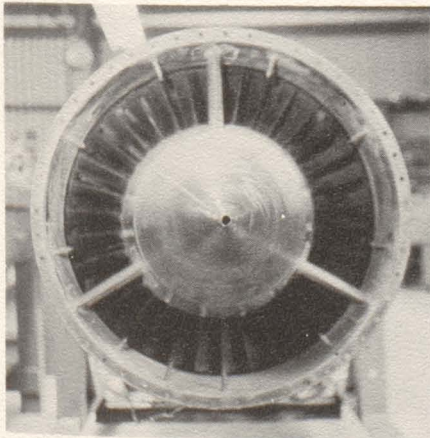

The hours are long and trying, many past experiences are brought to light, to pass the day, during long SL labs, when there's little to do.

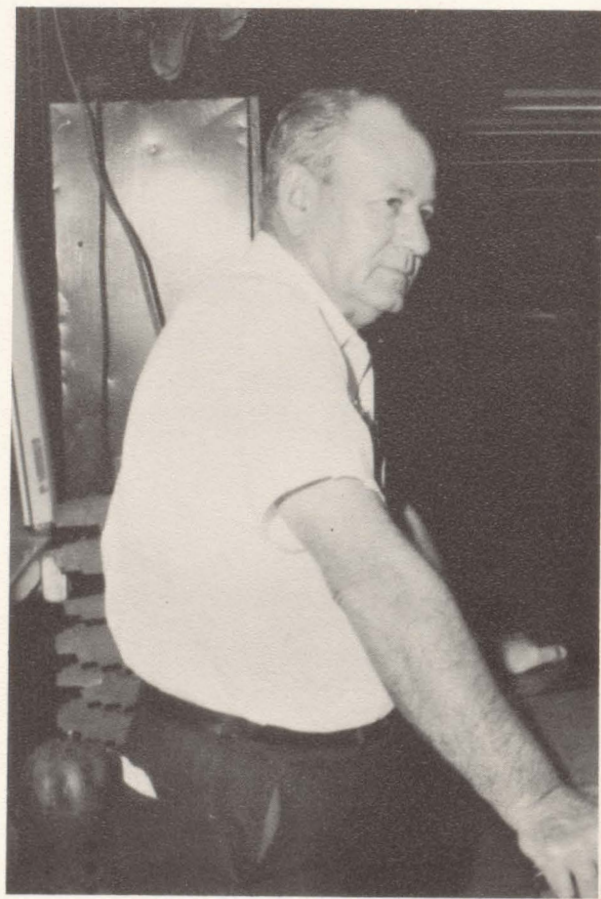

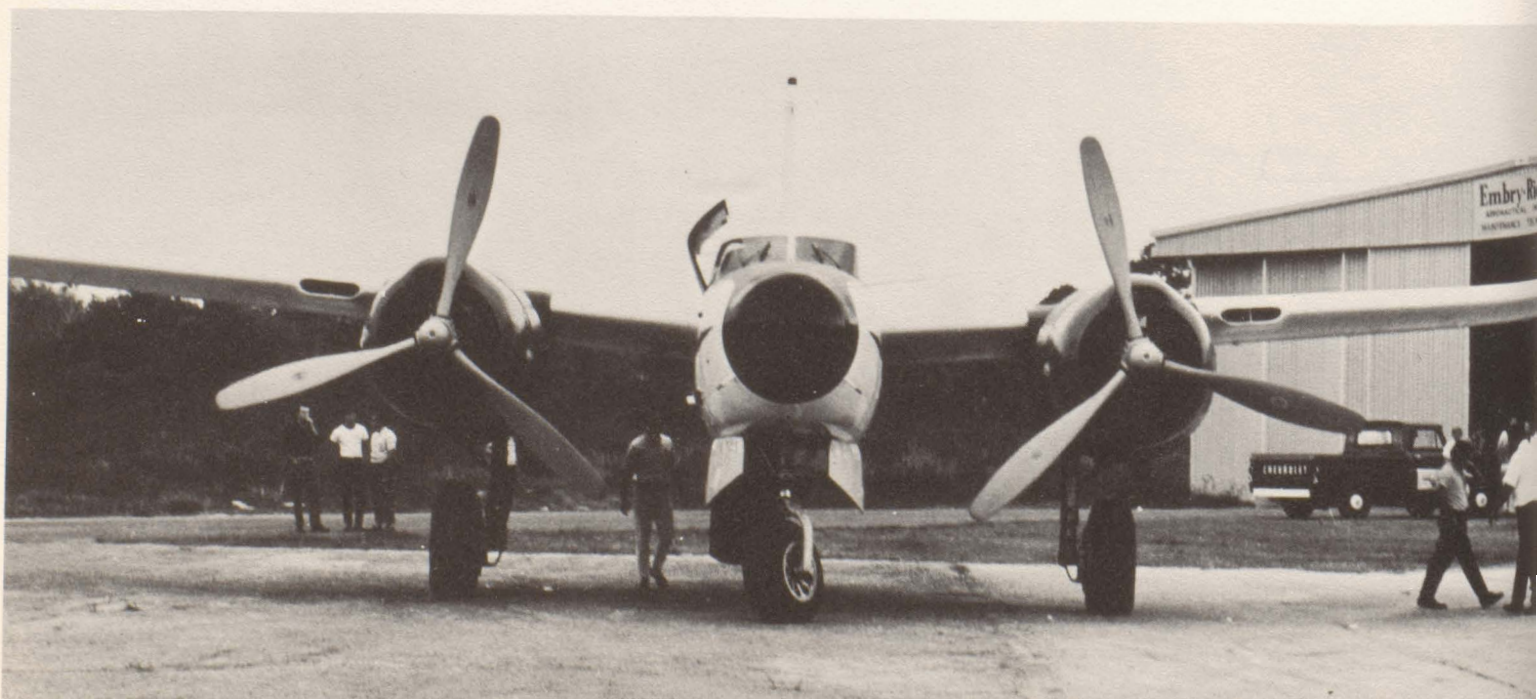

Jumo 004, early '40s.

With student pilots, maintenance never ends.

So that's where you hide — h-m-m.

## HIGH FLIGHT

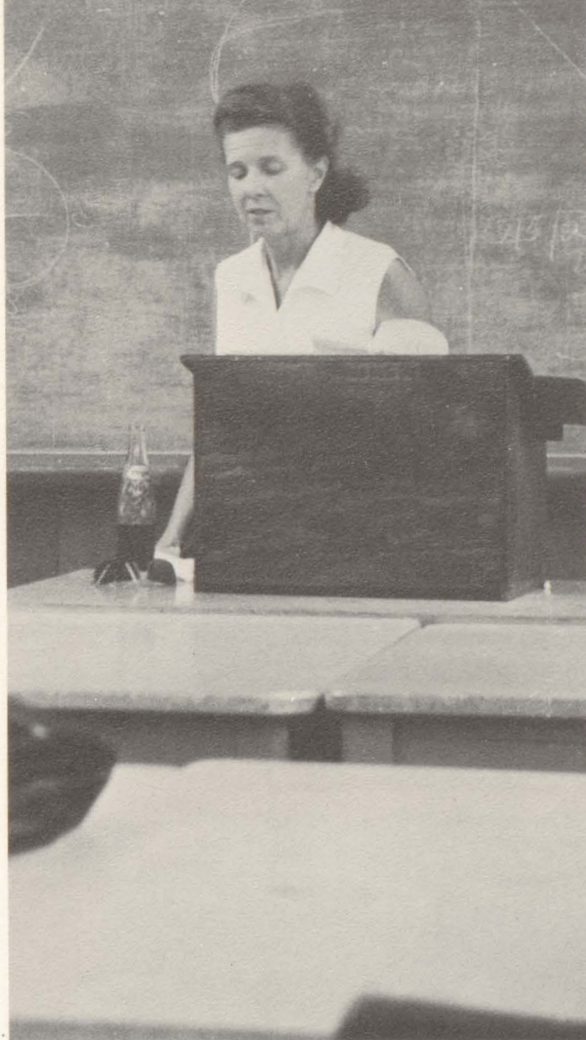

By John Gillespie Magee, Jr.

Oh, I have slipped the surly bonds of earth  
And danced the skies on laughter-silvered  
wings;  
Sunward I've climbed, and joined the tum-  
bling mirth  
Of sun-split clouds—and done a hundred  
things  
You have not dreamed of—wheeled and  
soared and swung  
High in the sunlit silence. Hov'ring there,  
I've chased the shouting wind along, and flung  
My eager craft through footless halls of air.  
Up, up the long, delirious, burning blue  
I've topped the windswept heights with  
easy grace  
Where never lark, or even eagle flew.  
And, while with silent, lifting mind I've trod  
The high untrespassed sanctity of space,  
Put out my hand, and touched the face of  
God.

***FLIGHT***

A typical busy afternoon

Before every flight. . .

Grounded eagles

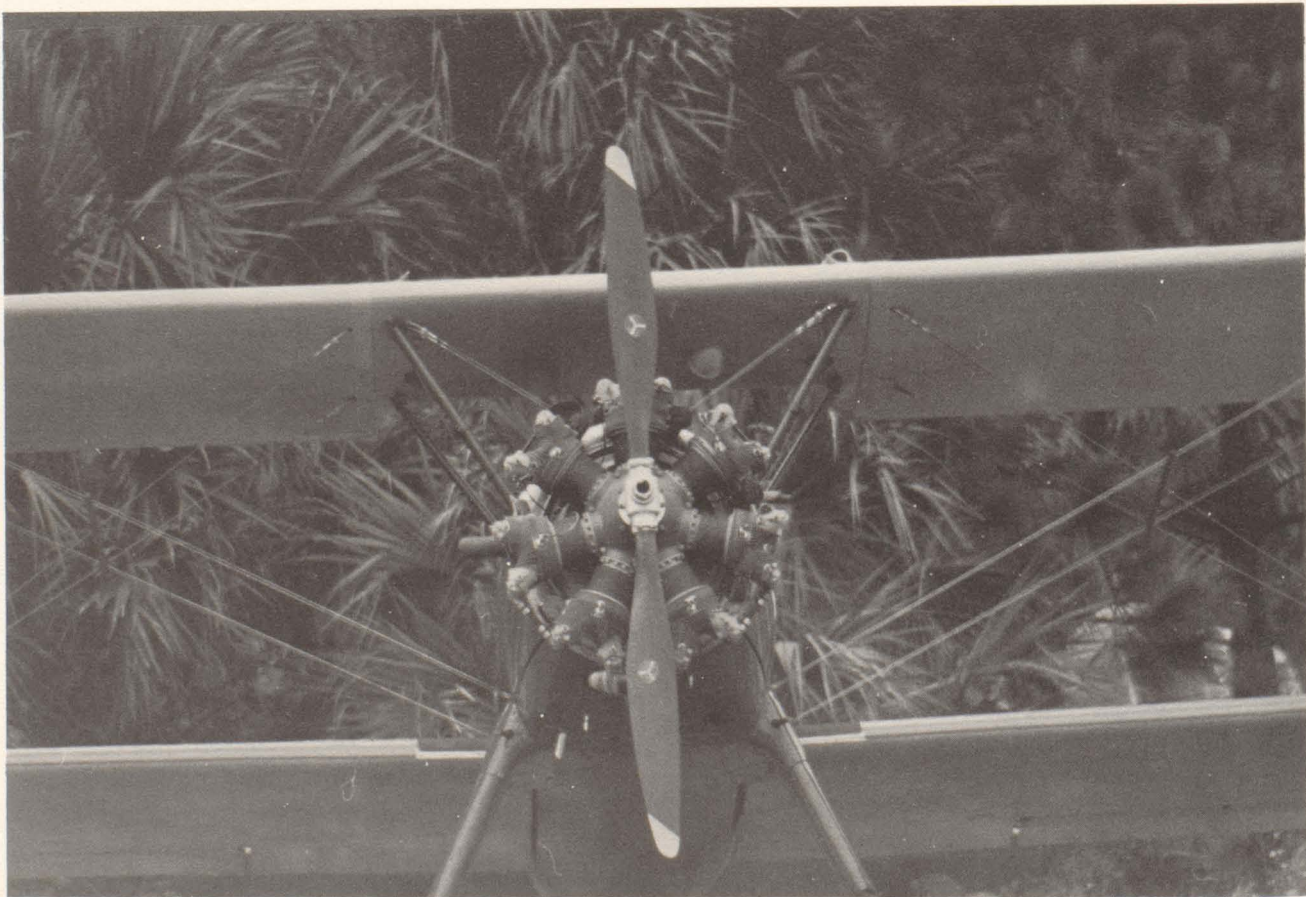

You WISH!!!

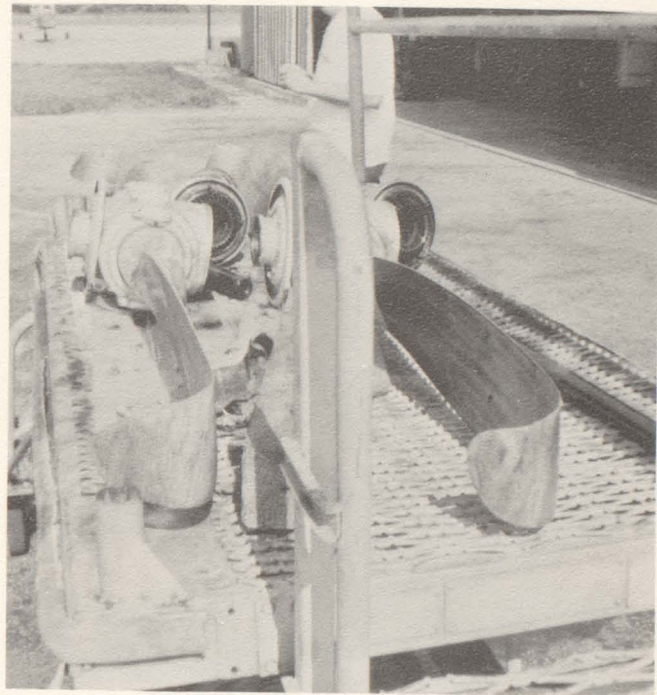

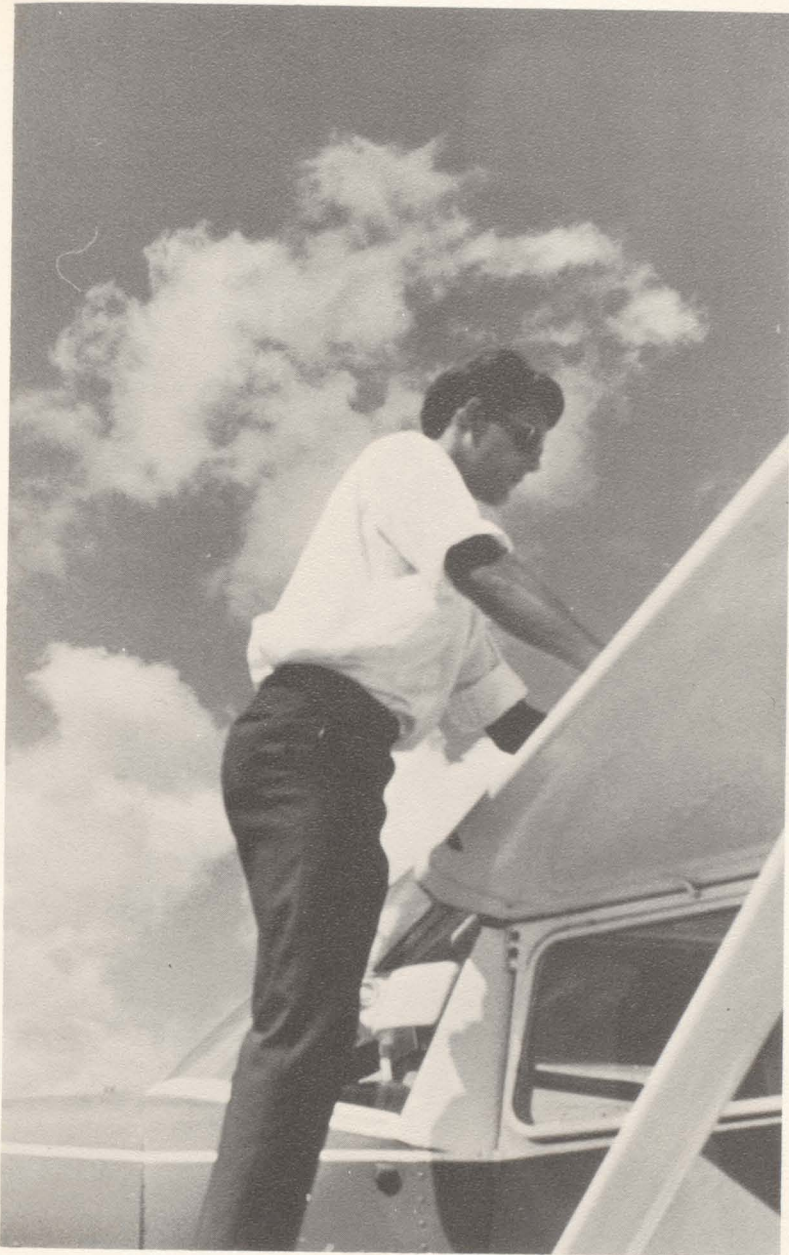

Pre-flight check.

A perfect short field landing.

OOPS!!

Man, that's what I call airbrakes!

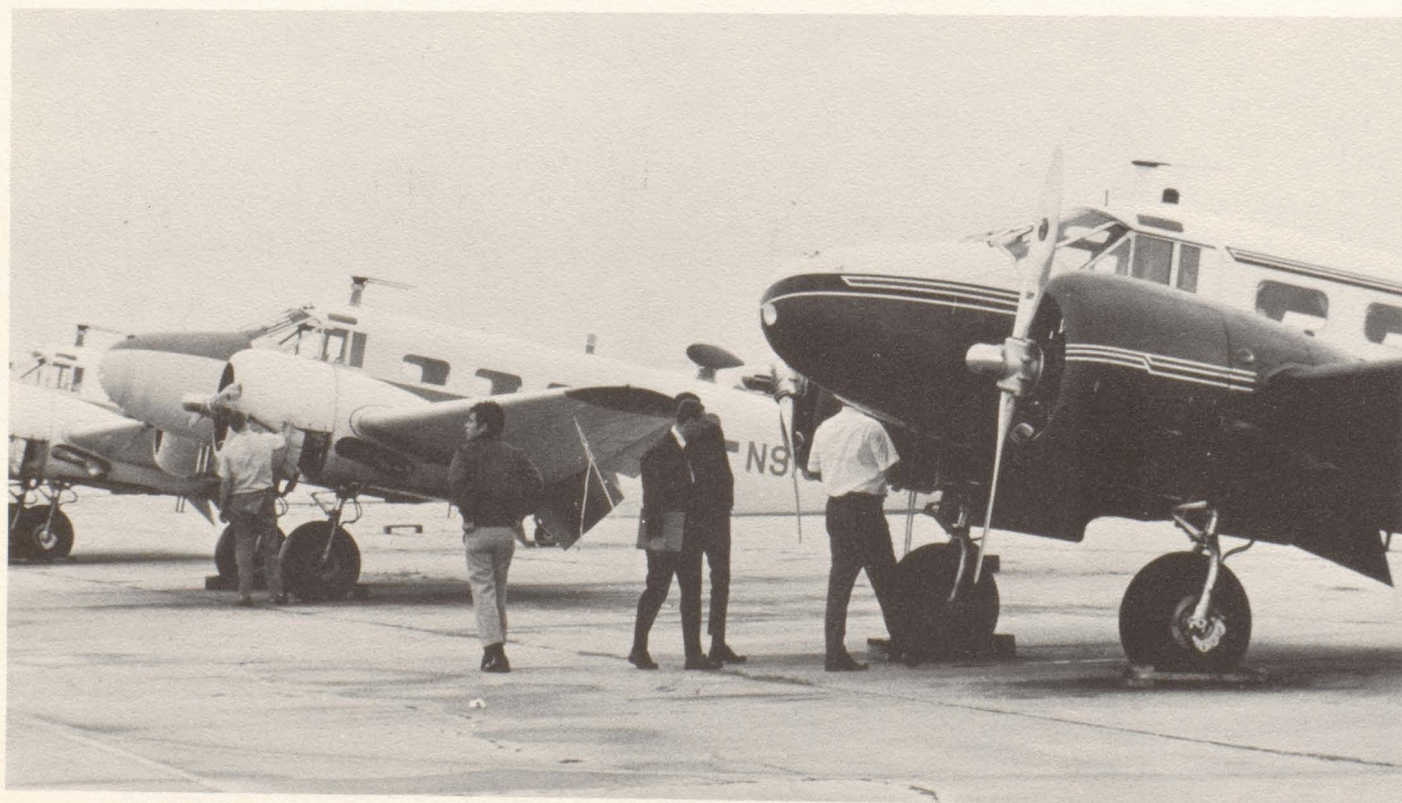

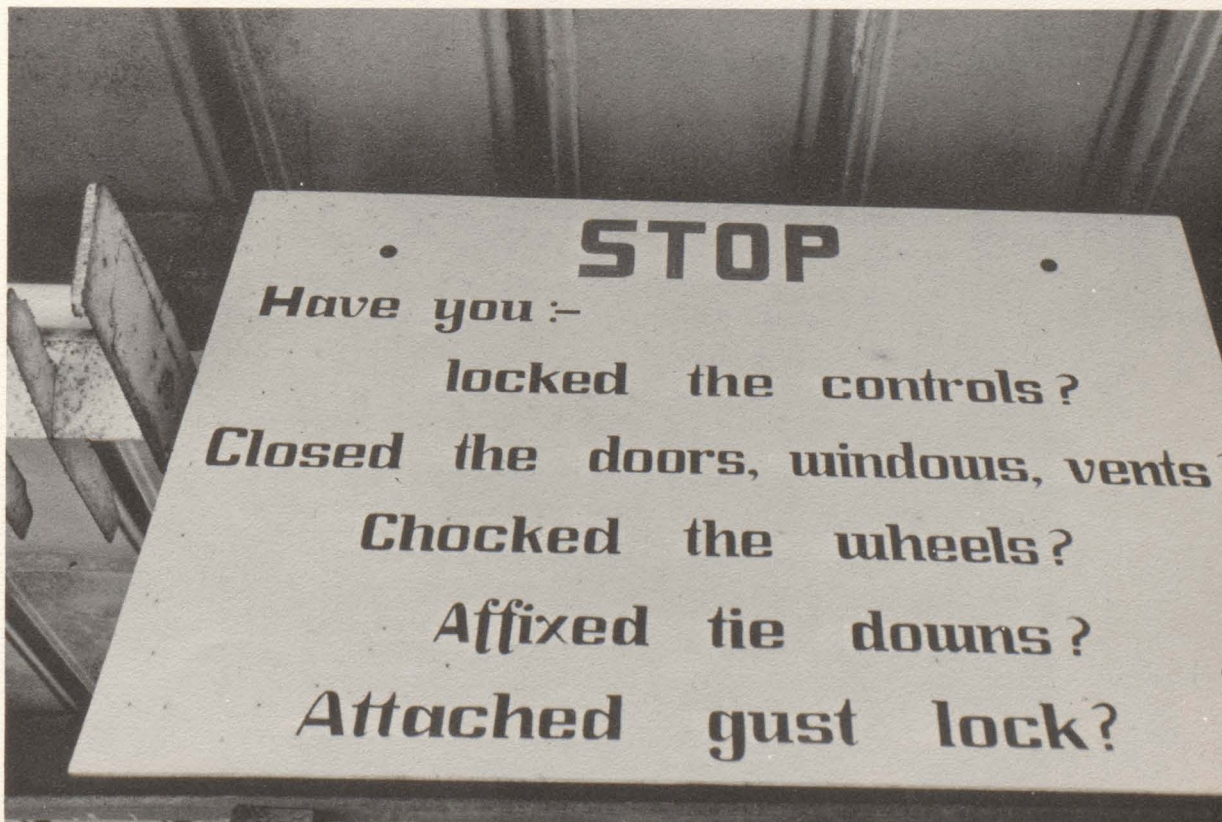

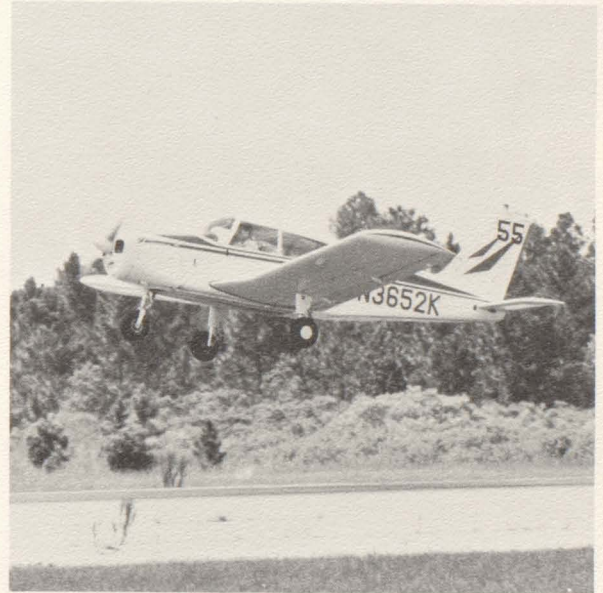

*THEN*

*AND*

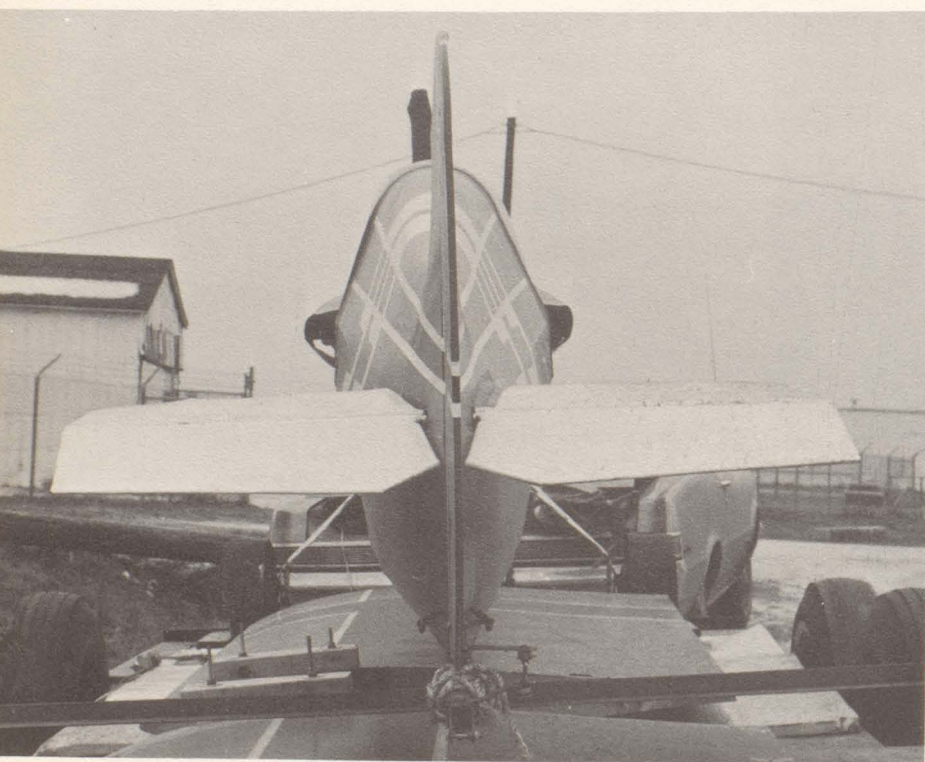

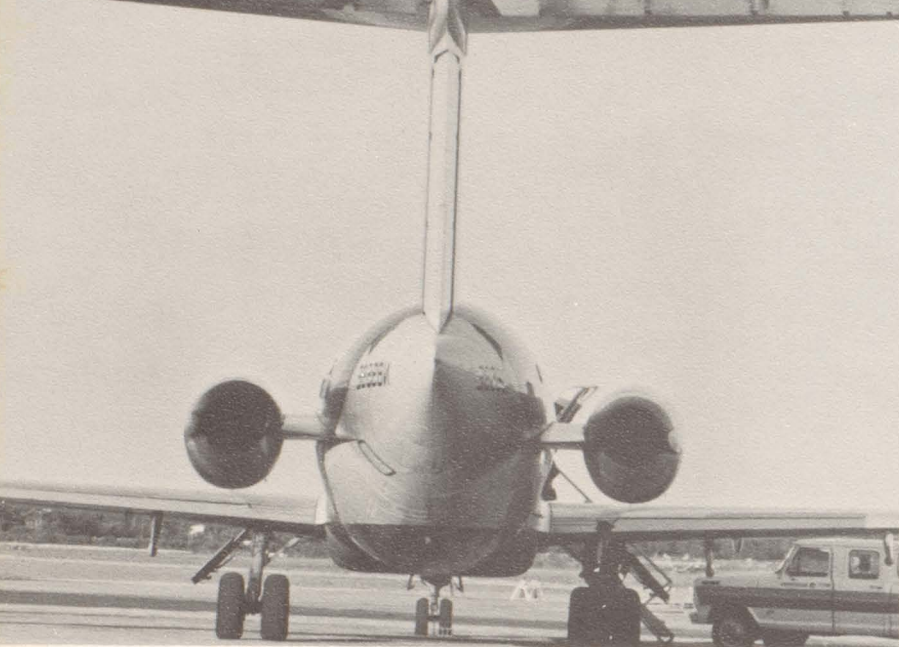

*NOW*

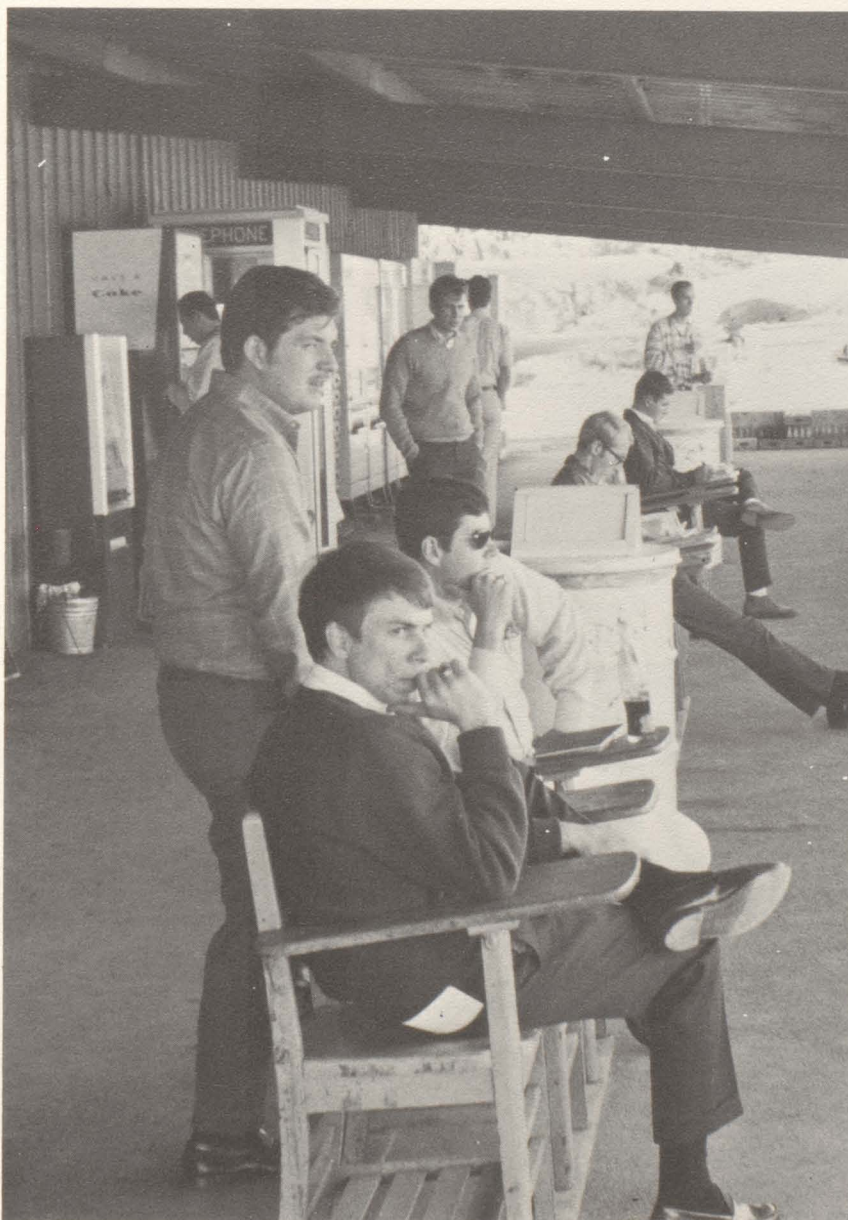

Friday — at last!

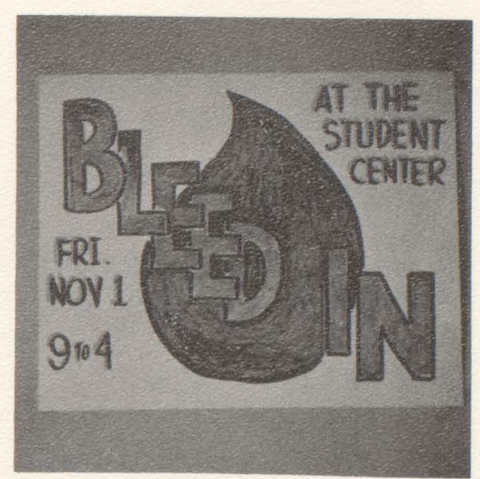

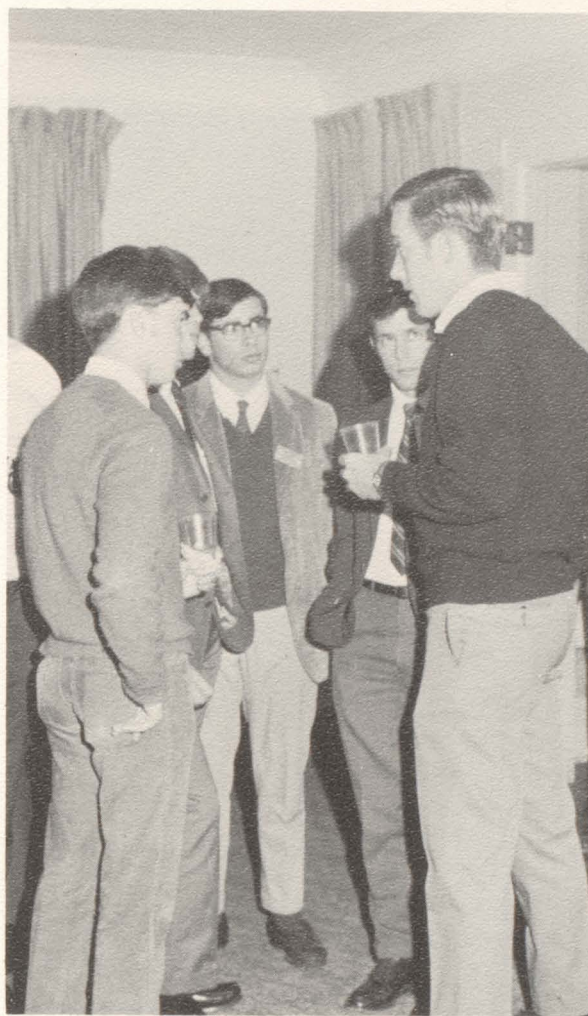

Awaiting the next dual with the instructor.

### HOURS

9:00 TO 12:00      1:00 TO 4:00

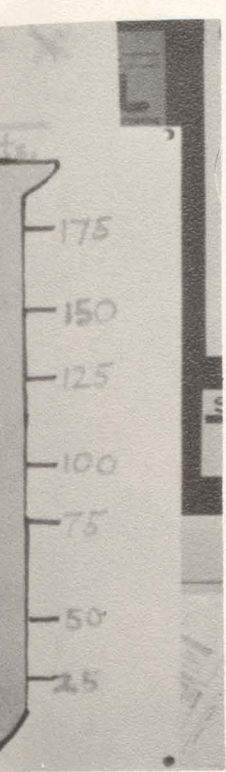

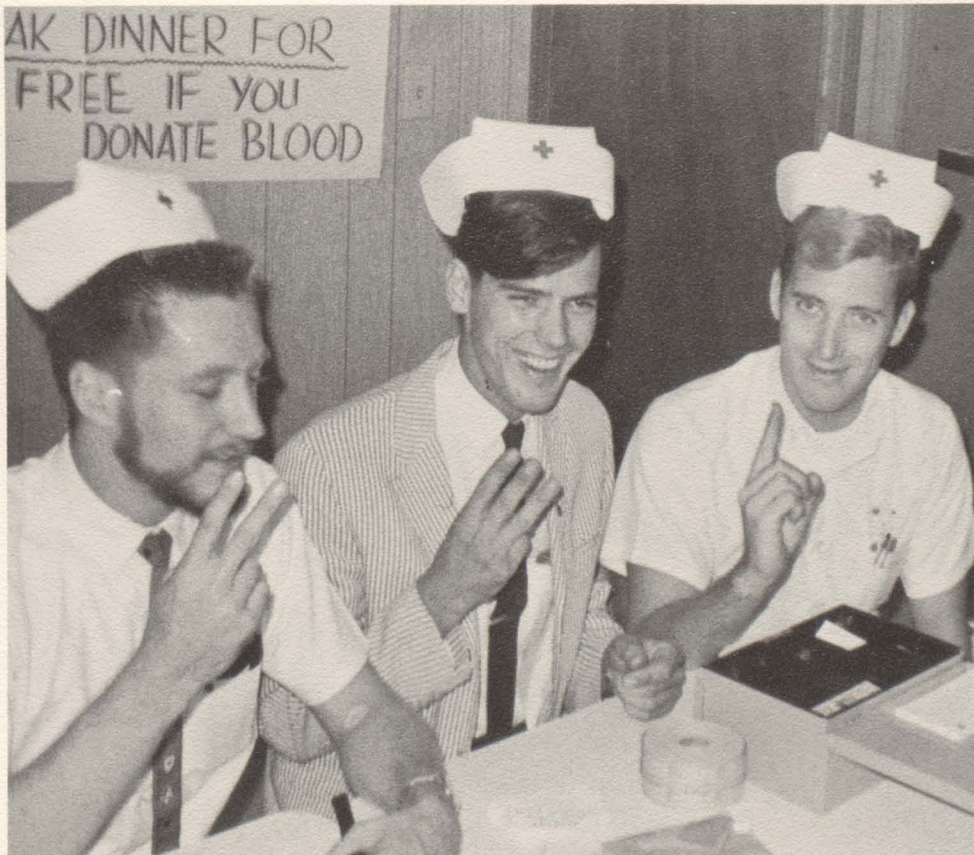

*They asked  
and  
we gave,* The bleedables.

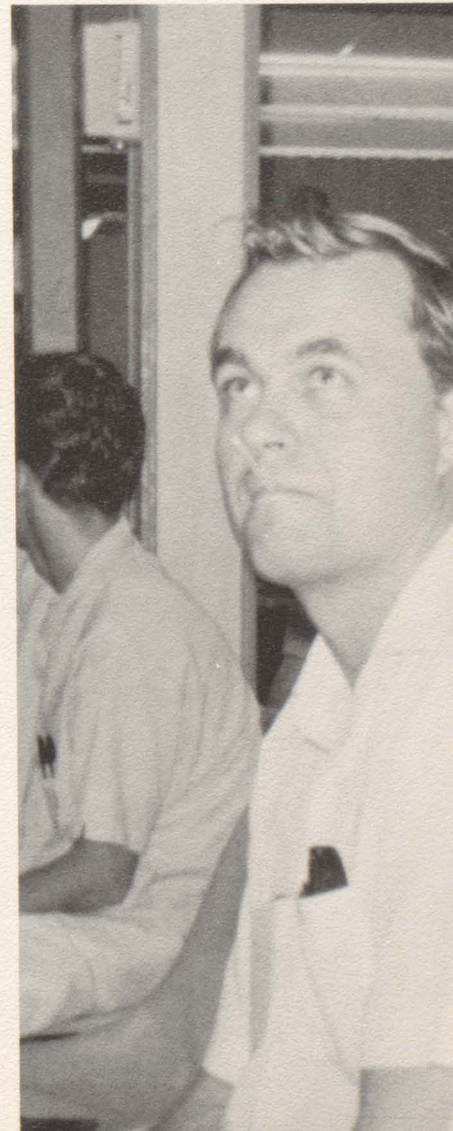

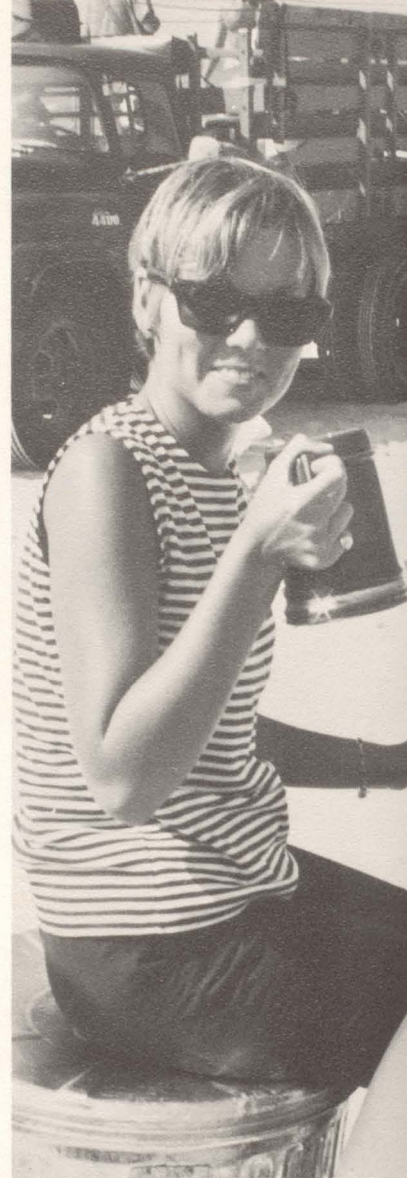

"This will just hurt for a second or two, dear!"

Naughty, Naughty, Naughty.

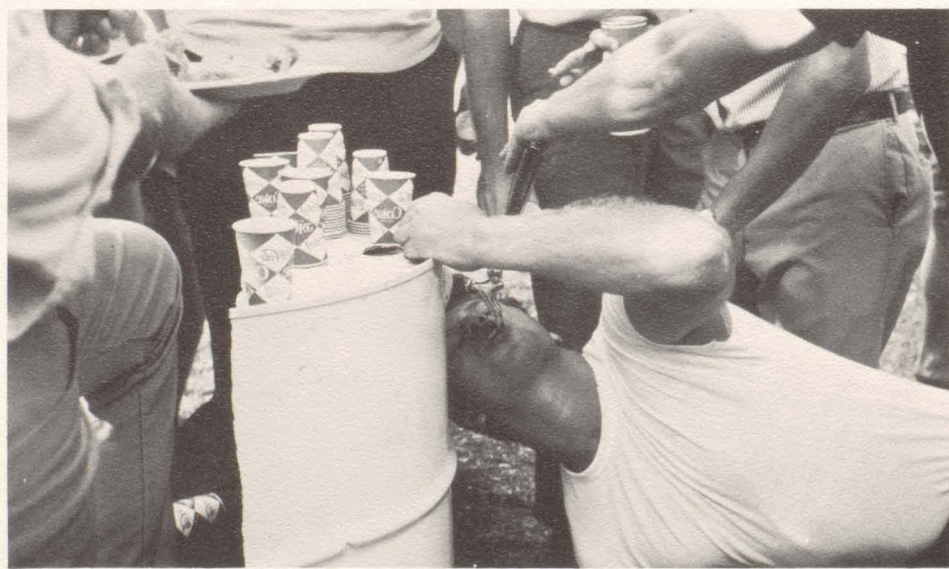

*Barbecues that you'll remember for life.*

Rest, relaxation, and recreation — that's my motto.

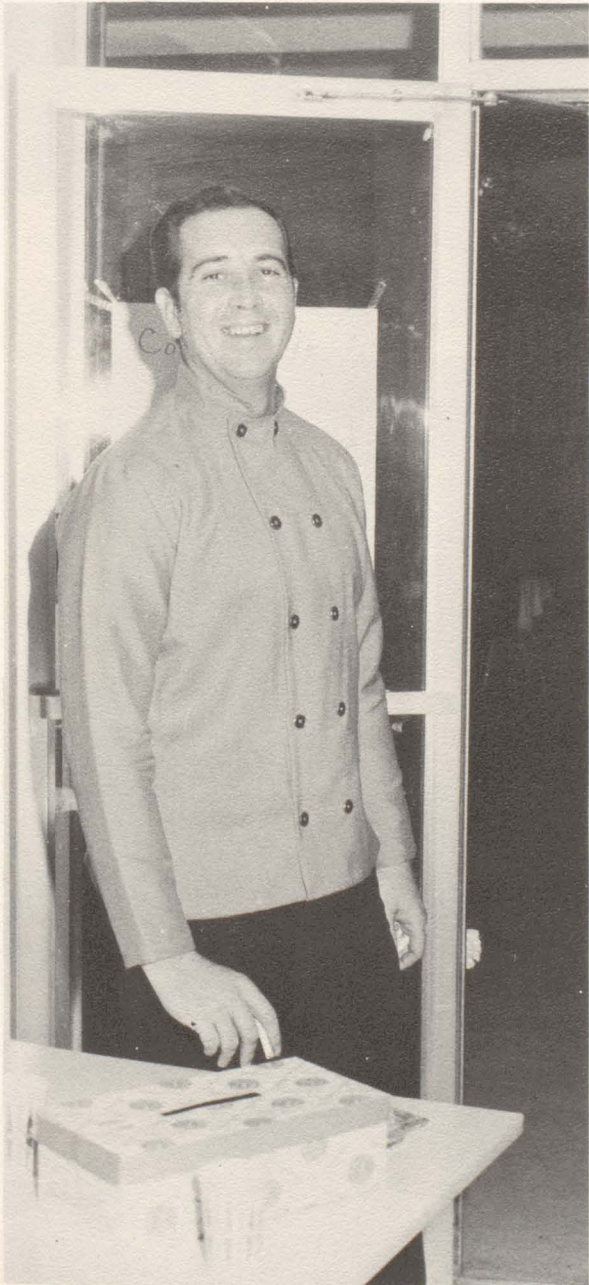

Some guys just don't believe in sharing!

The joy  
of participation  
displayed in  
spirit incognito,  
strengthening  
of human faith,  
and the acceptance  
of self at the entrance  
onto the stage of life.

Hmmm, a real New Yorker.

Oh, Steve, if Roger could only see me now!

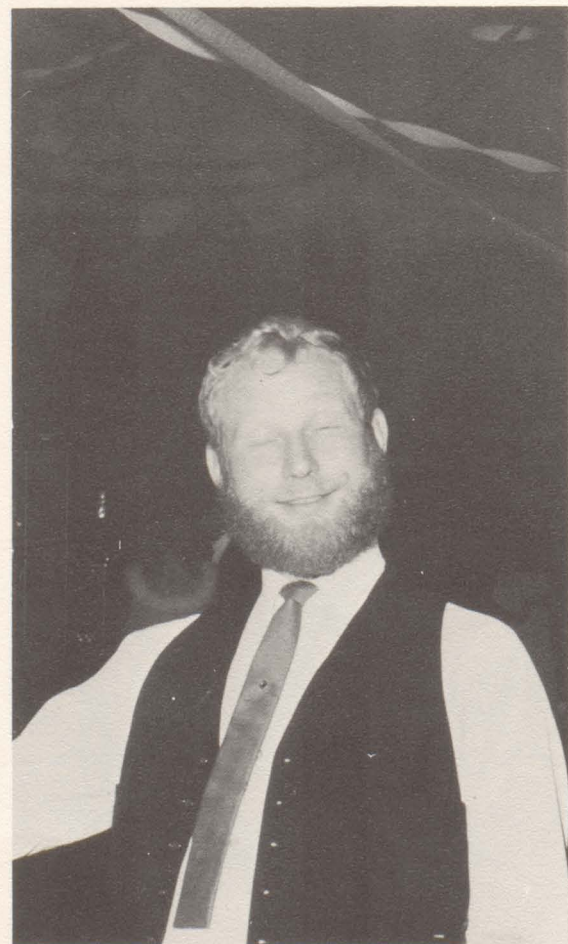

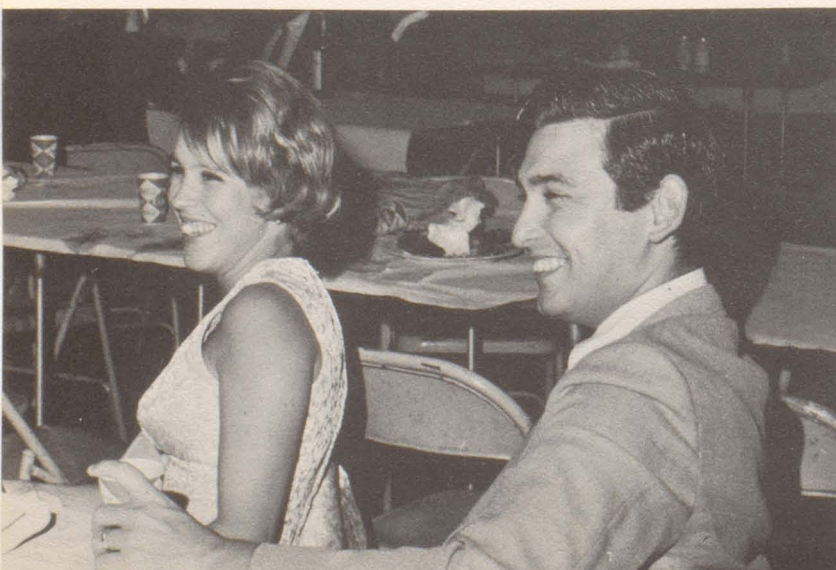

Say Bob what key are we playing in.

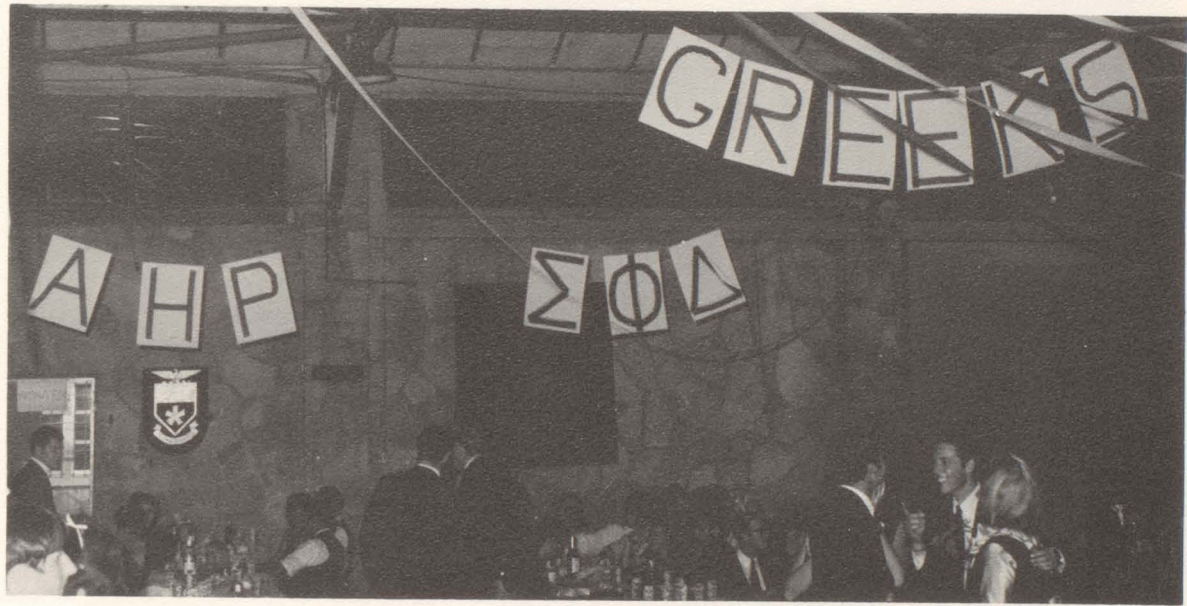

Boy there are some really funny dancers out there.

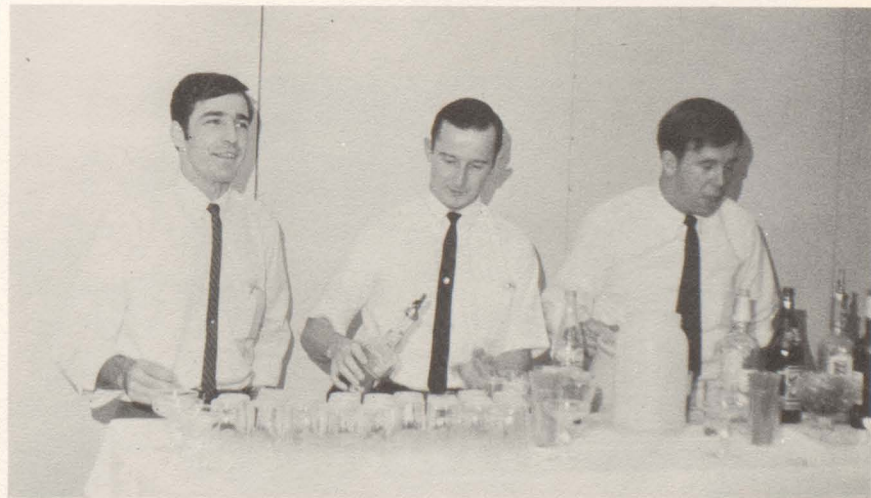

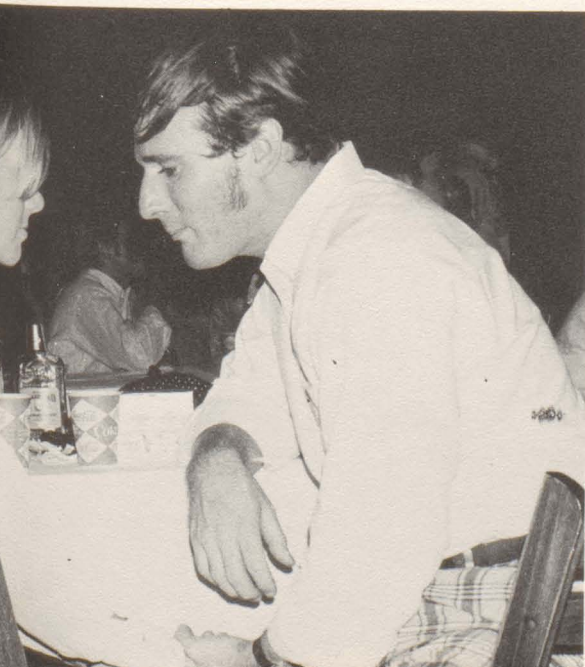

We're NEVER out of Schlitz!

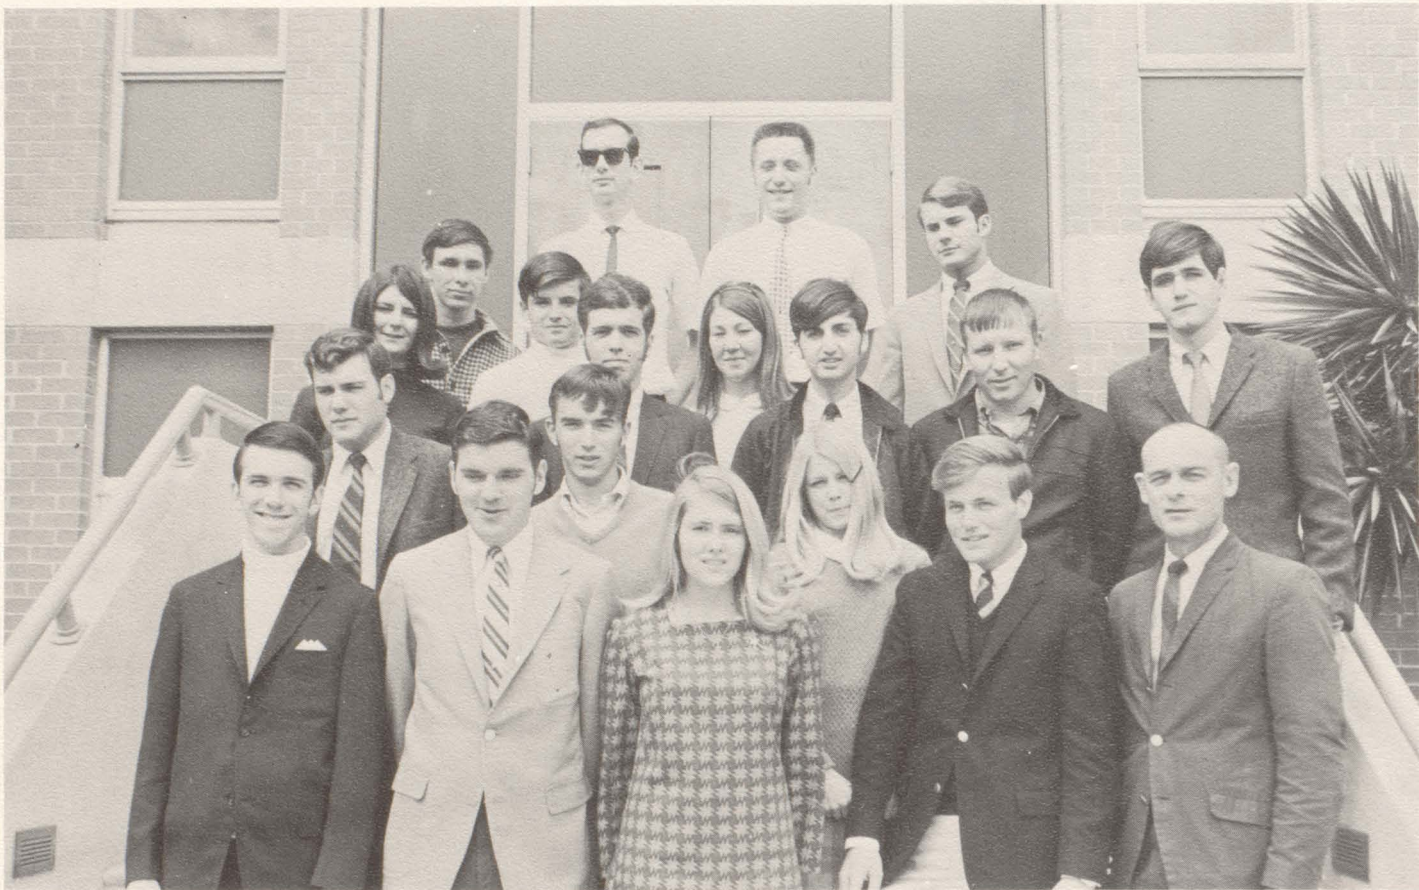

An escape to reality  
and life,  
away from thoughts  
confined to numbered problems  
and assigned pages.

## ***BOWLING LEAGUE***

The morning after the night before.

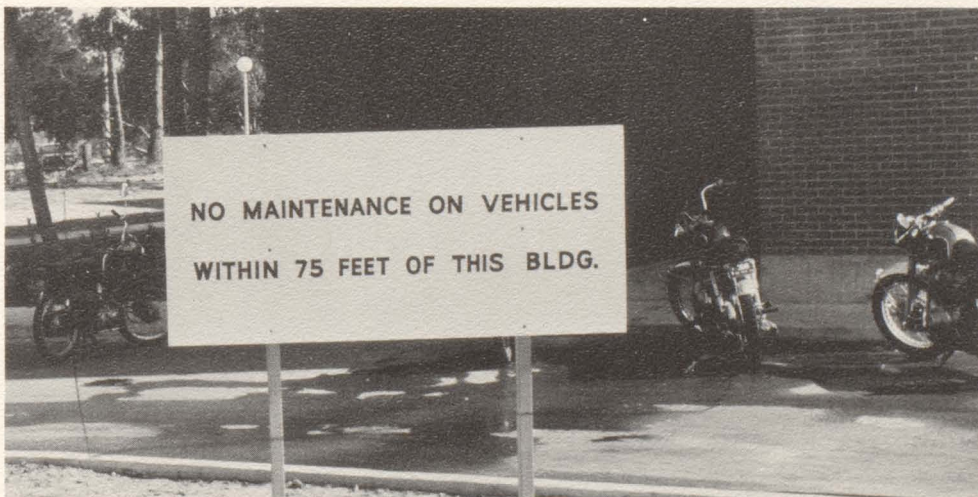

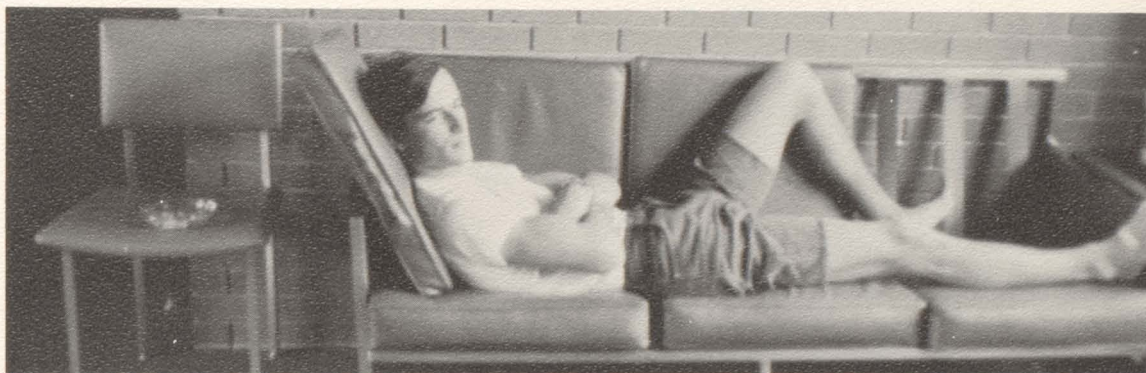

Prerequisite for a great evening. . .

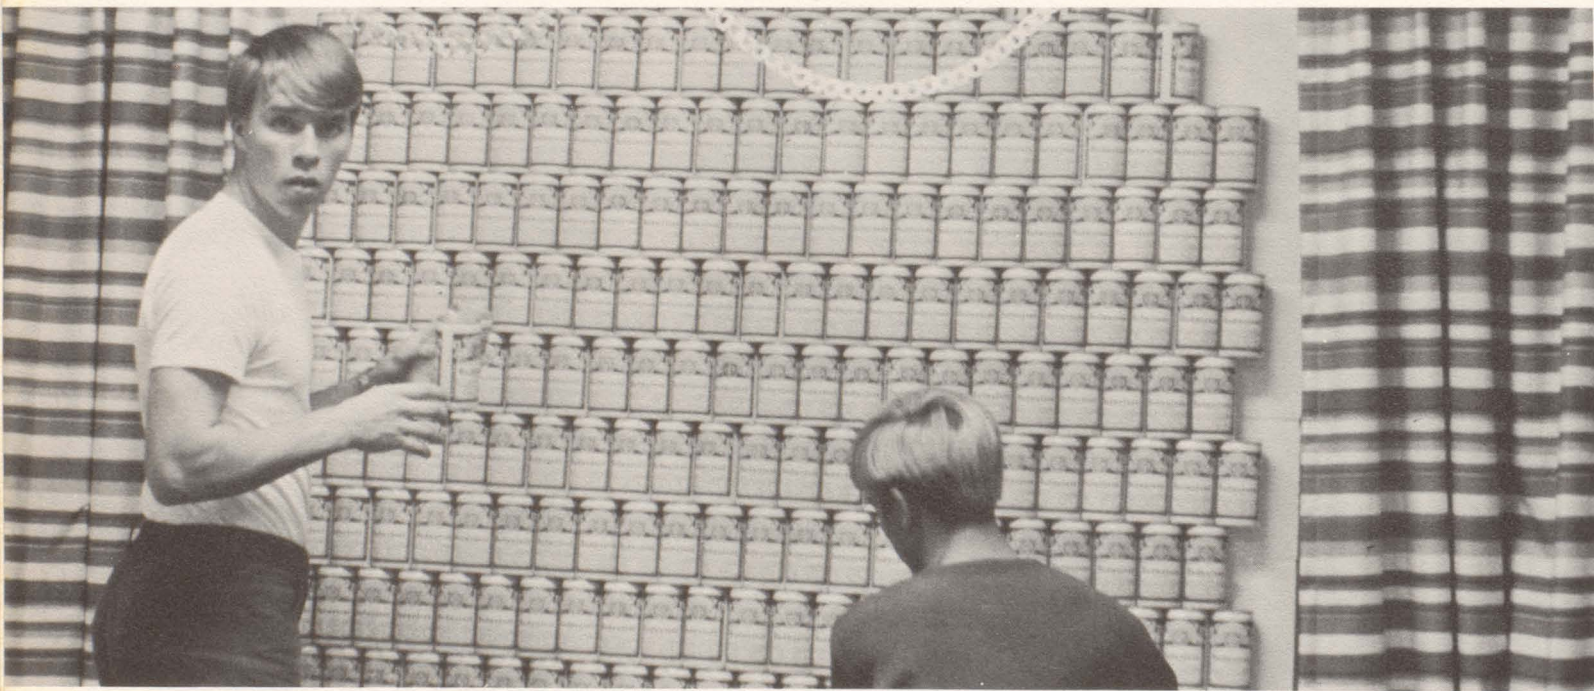

## ***RESIDENCES***

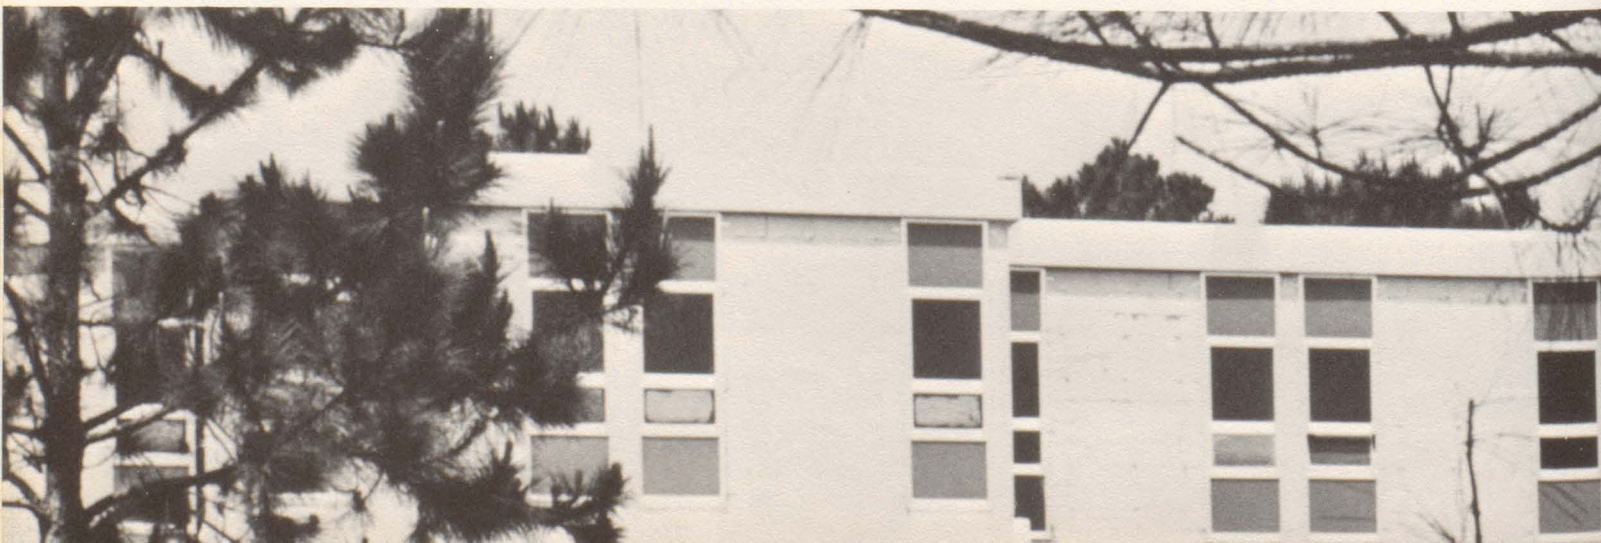

A door, four walls, 3 windows and a place to sleep — “Home.”

“... and every Sunday we have Bud.”

A memory lingers here. Walls enclosed  
create out of a web, a world.

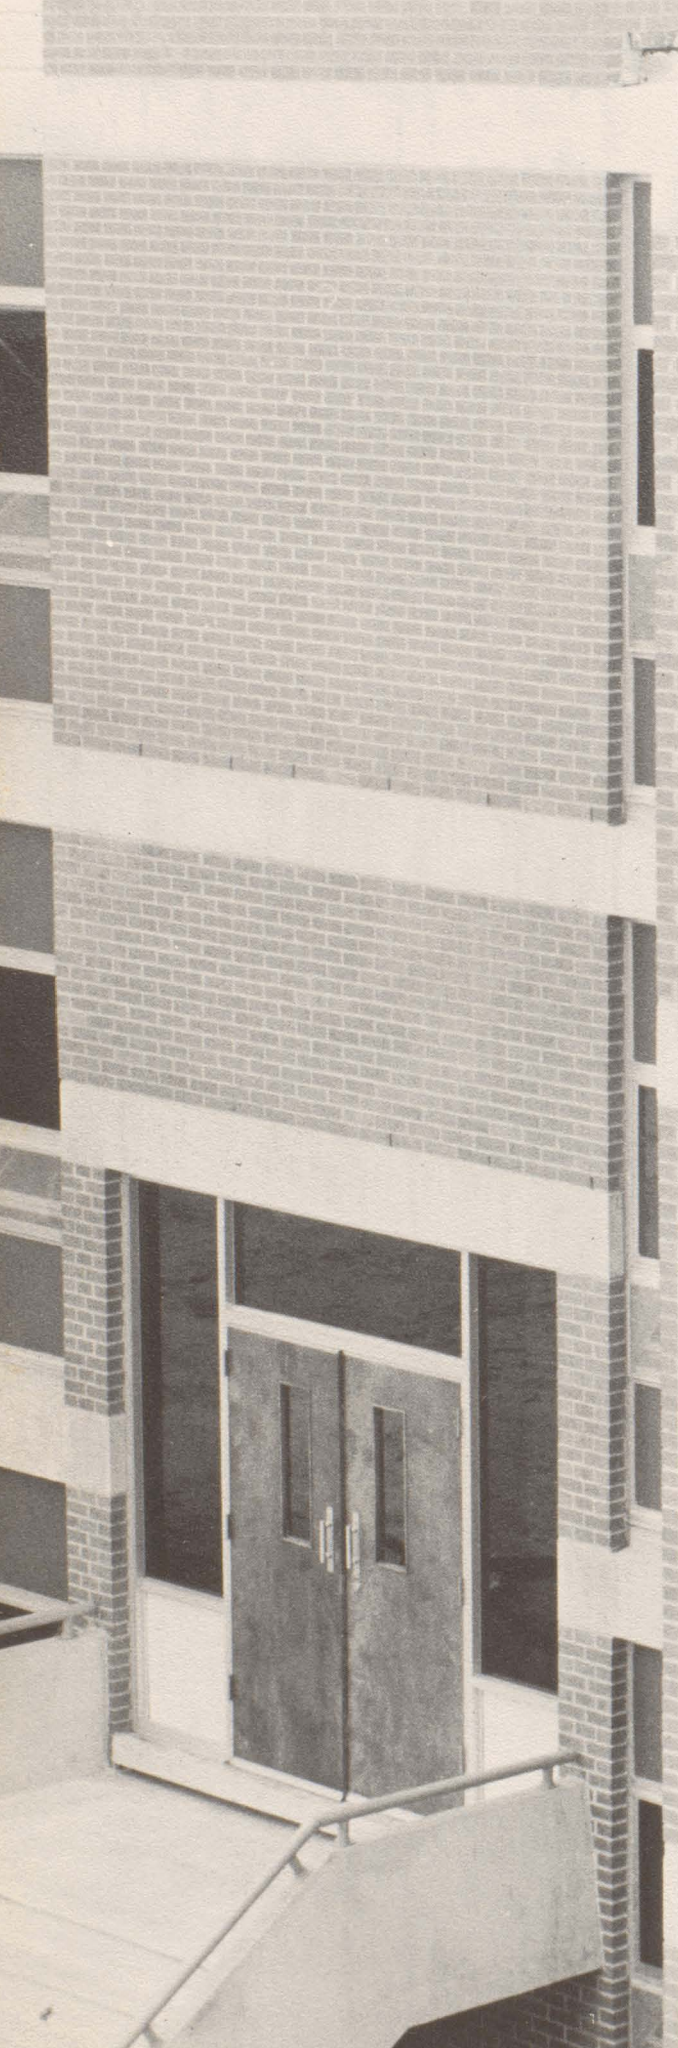

surround ideas and interactions. But some escape to

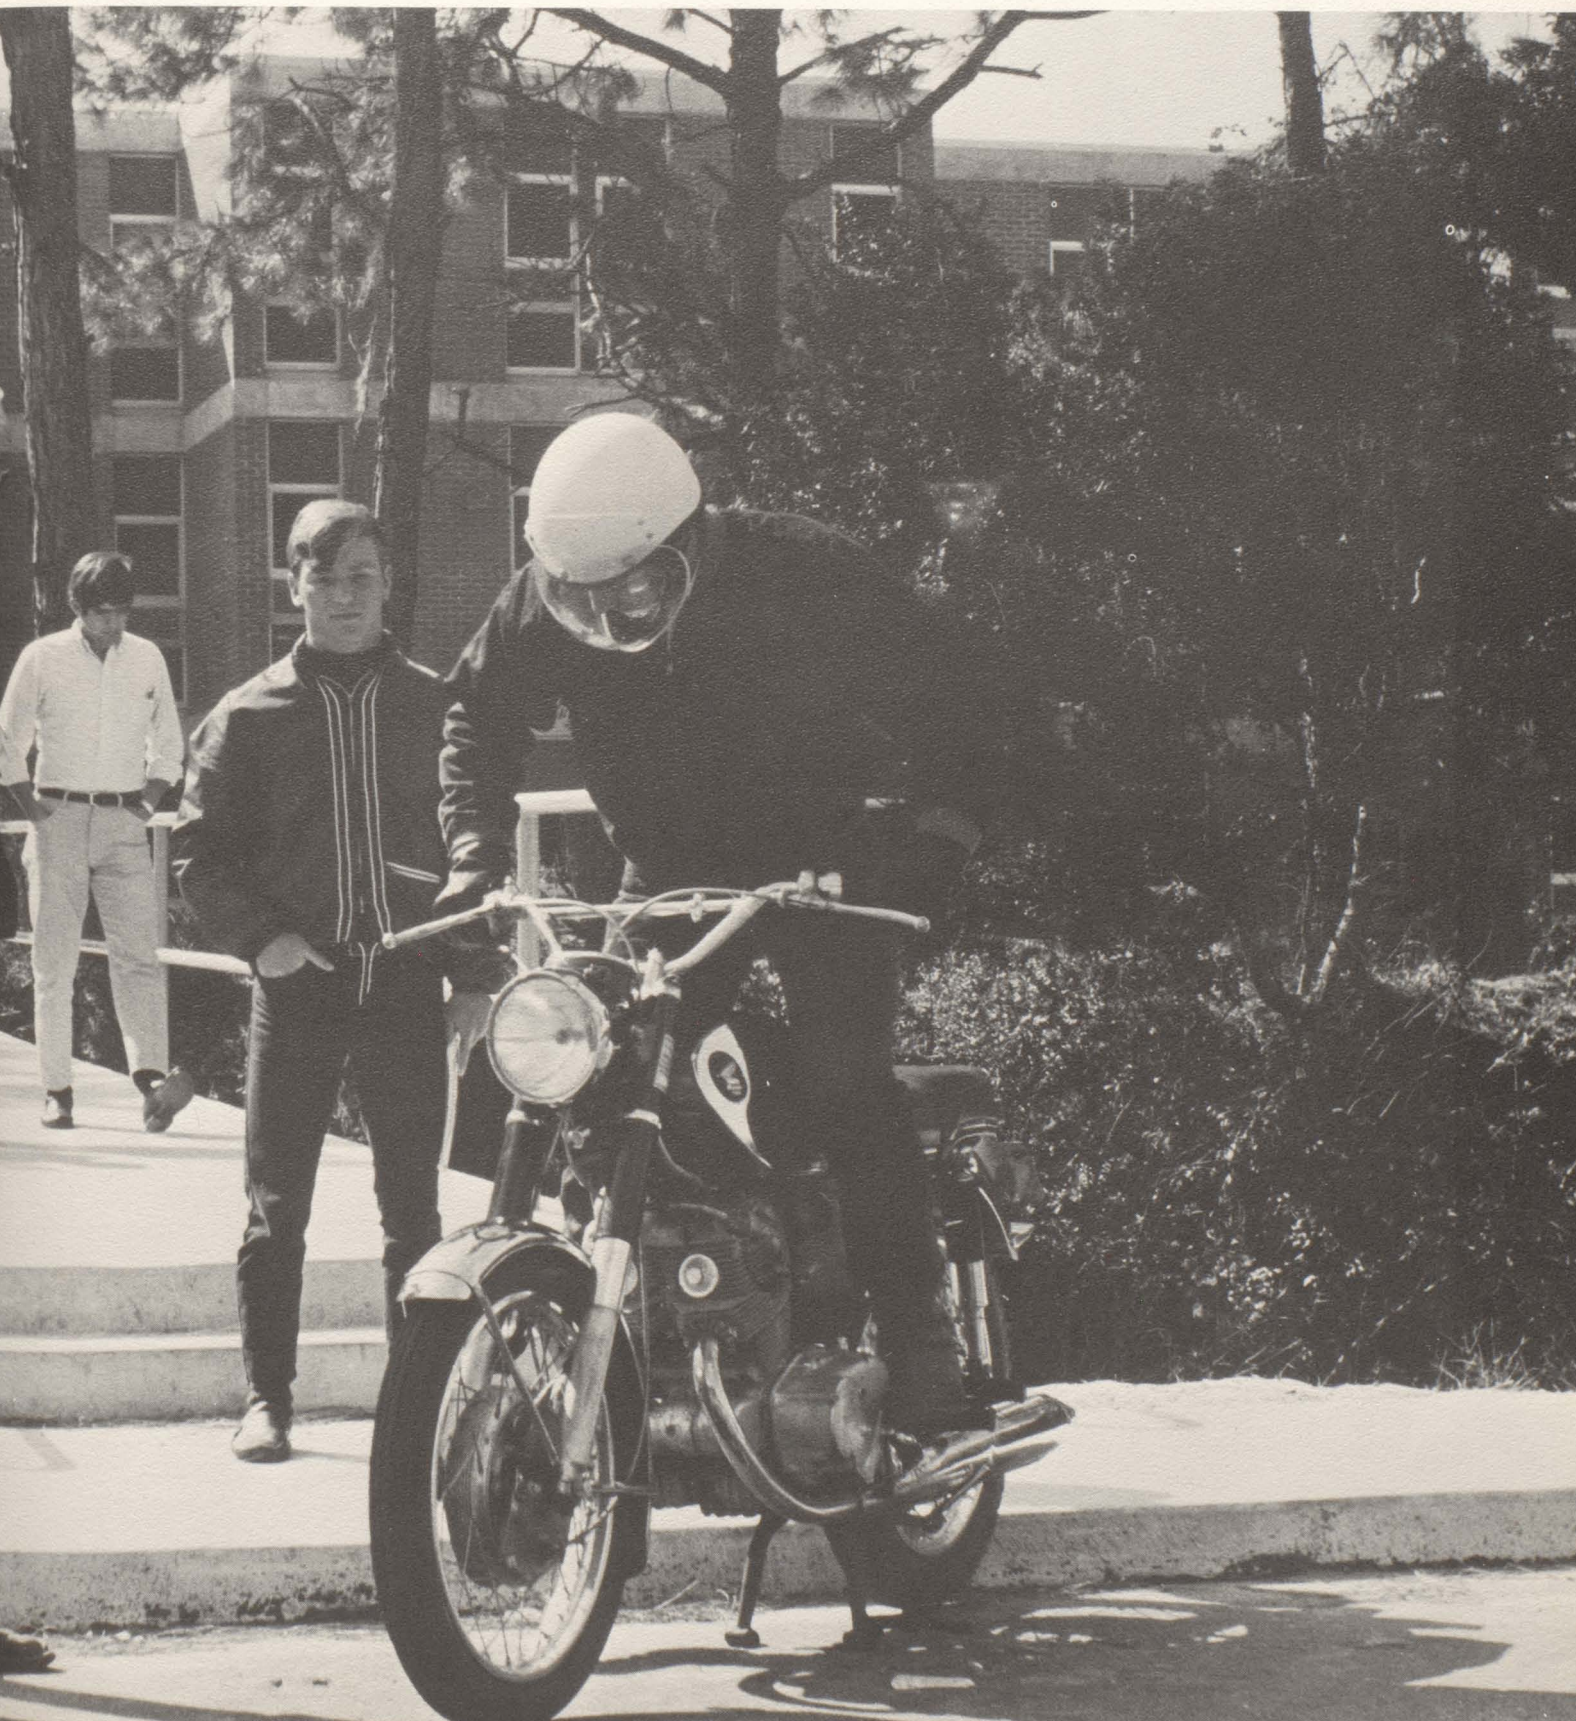

Clustering,  
but really attaining?  
To see through the extraneous—  
so difficult,  
so ingredient to the final molding.

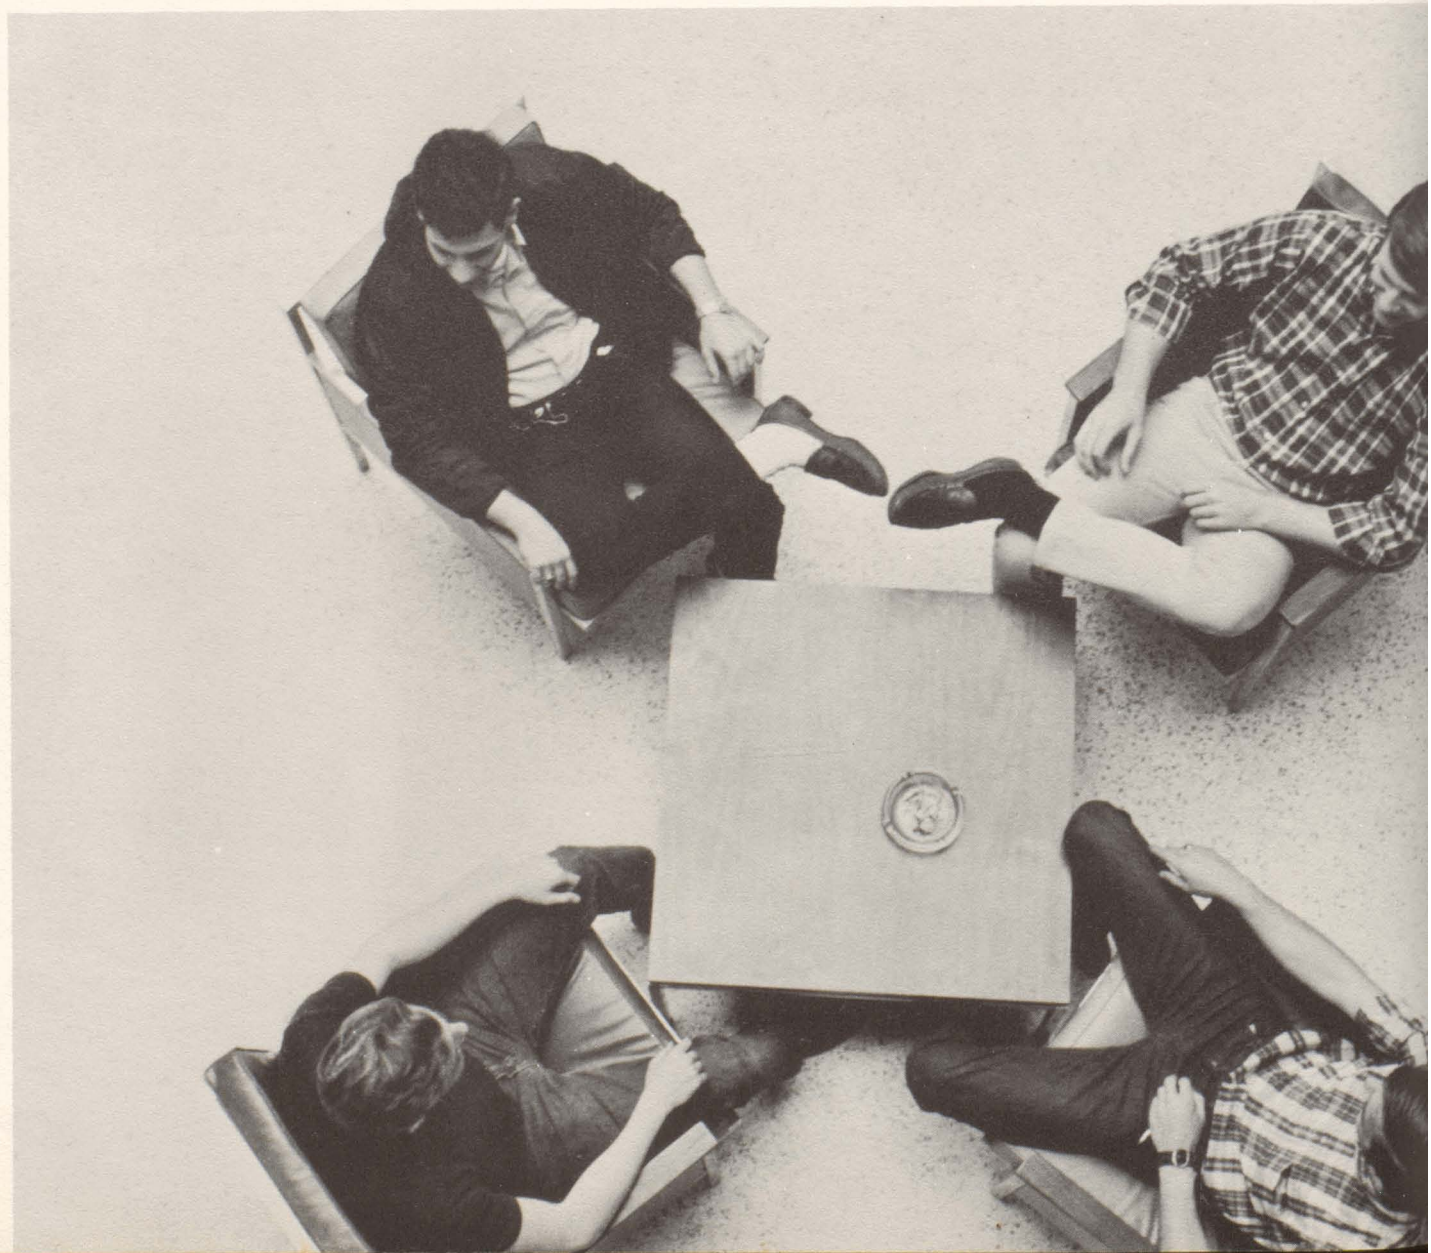

Needed:  
the kindling spark of an idea  
"gung-ho-ism,"  
expression of talent,  
mono and a 3.6,  
application,  
and hard work.

It's your walnetto  
You get it out!!!

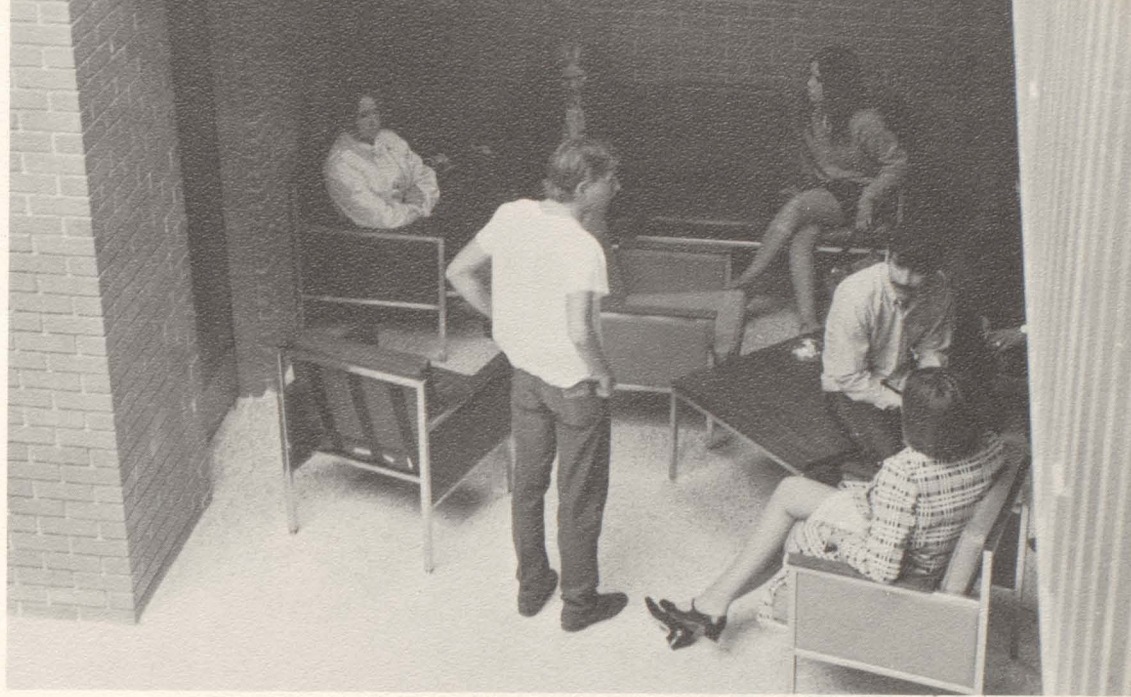

And NOW, Pledge. . .

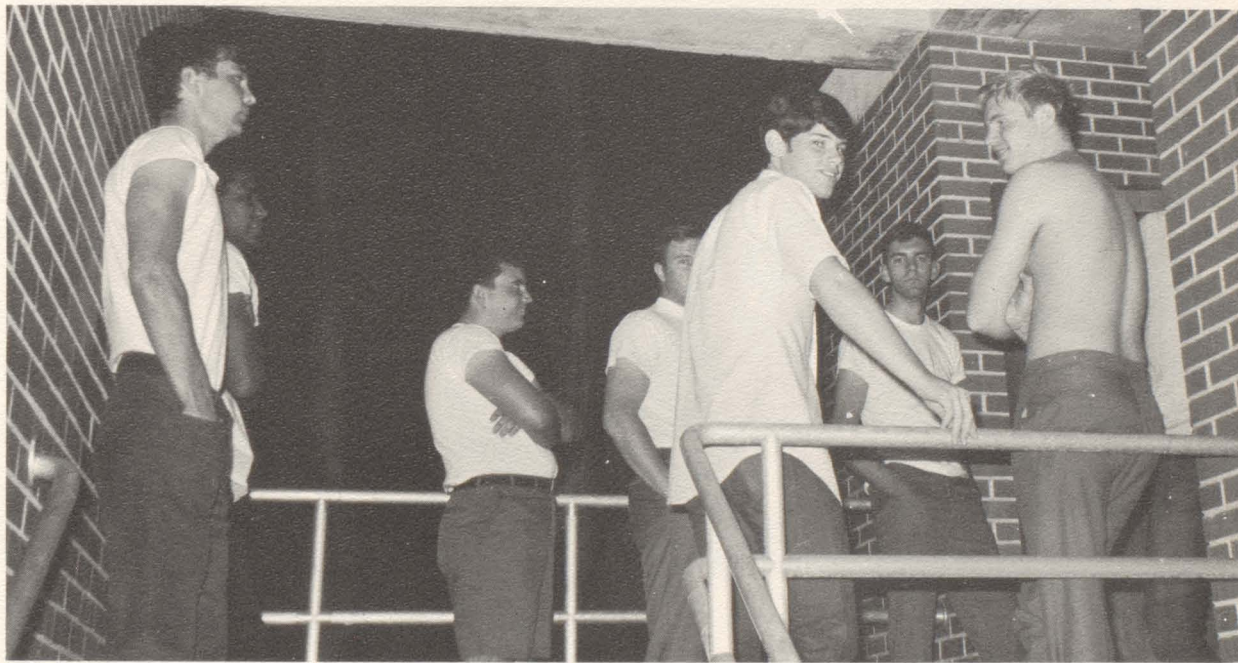

Hey, Sky, do you think Hofstater will ever figure out your human fly act?

A quiet evening  
at home.

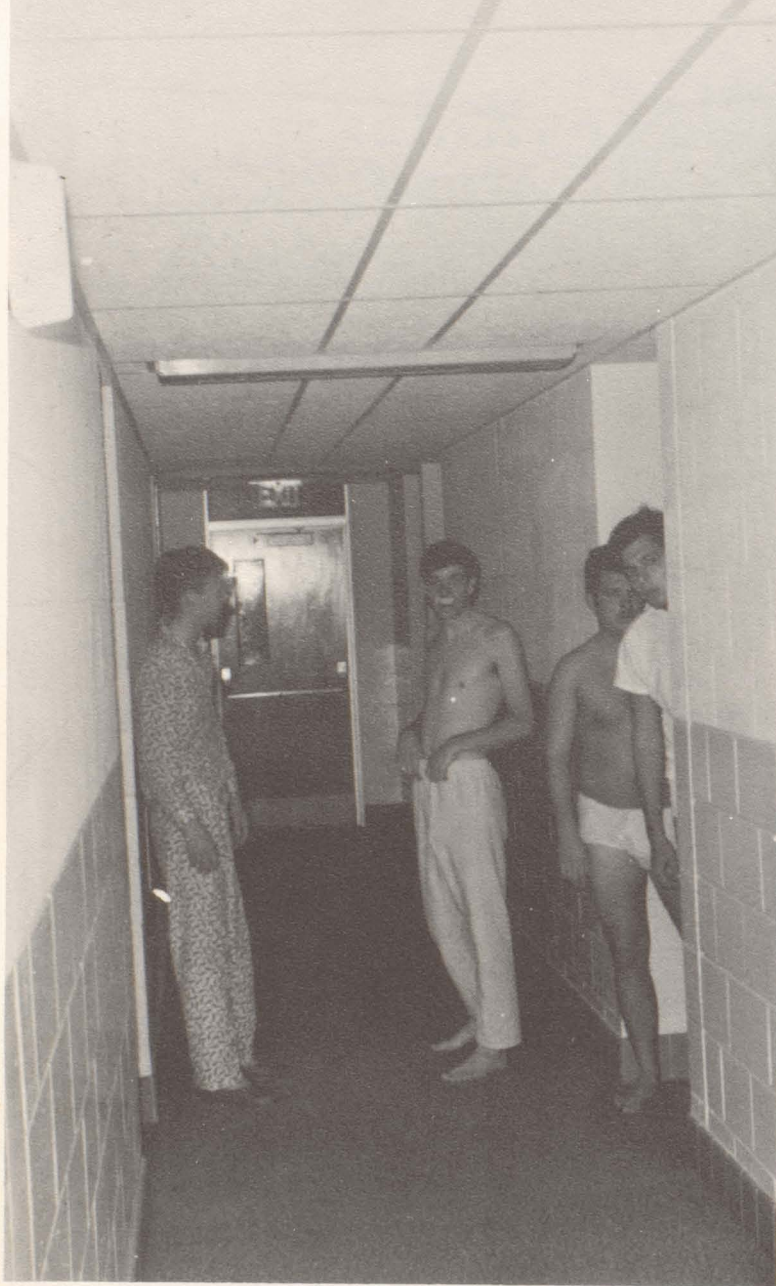

I told Fred  
that skunk  
wasn't tame.

I'll never drink  
that much at a  
party again.

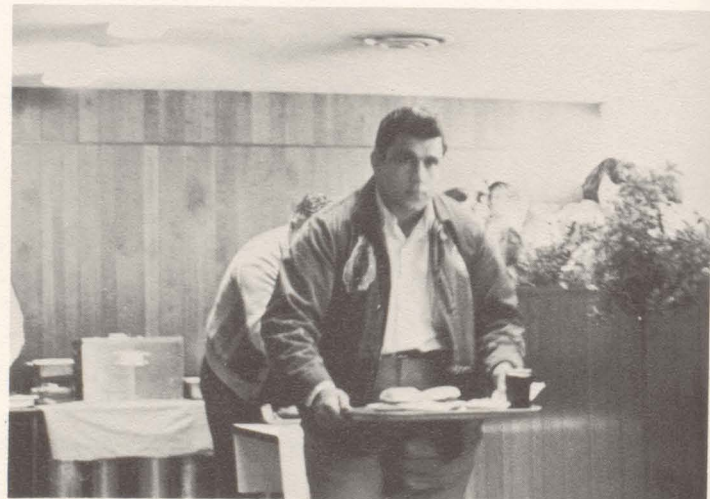

Hey, Charlie, is that the fire bell or the class bell??

Damn glad that fire bell went of. . . almost missed the Johnny Carson show!

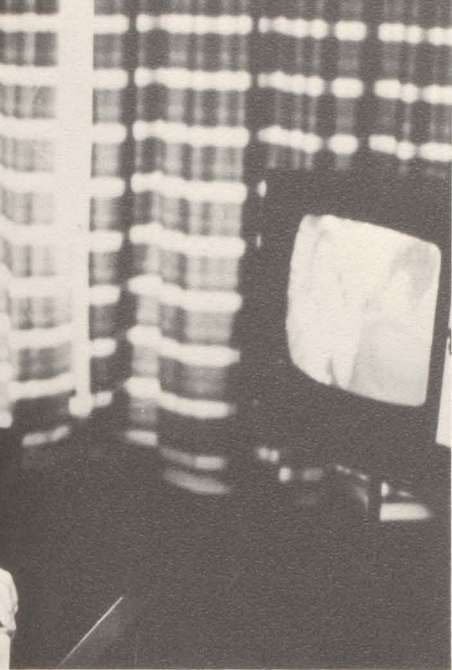

Sure hope no one makes a grab for my extra portion of Holiday Inn food!!

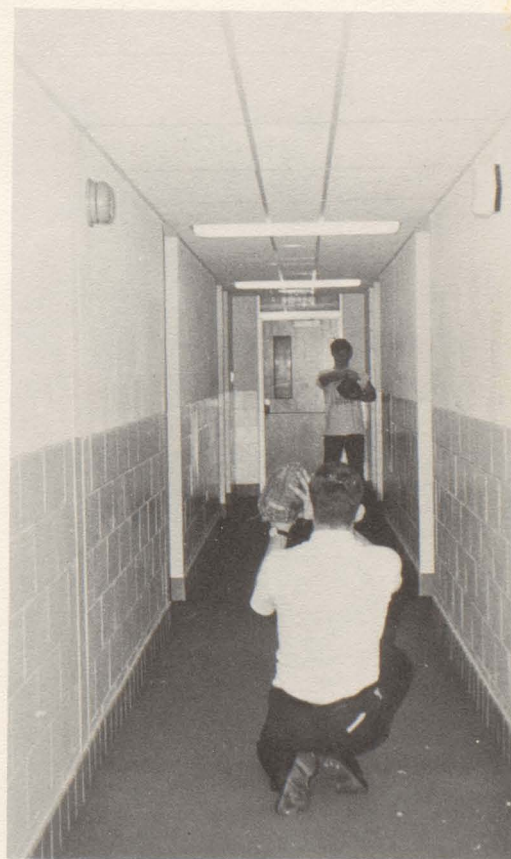

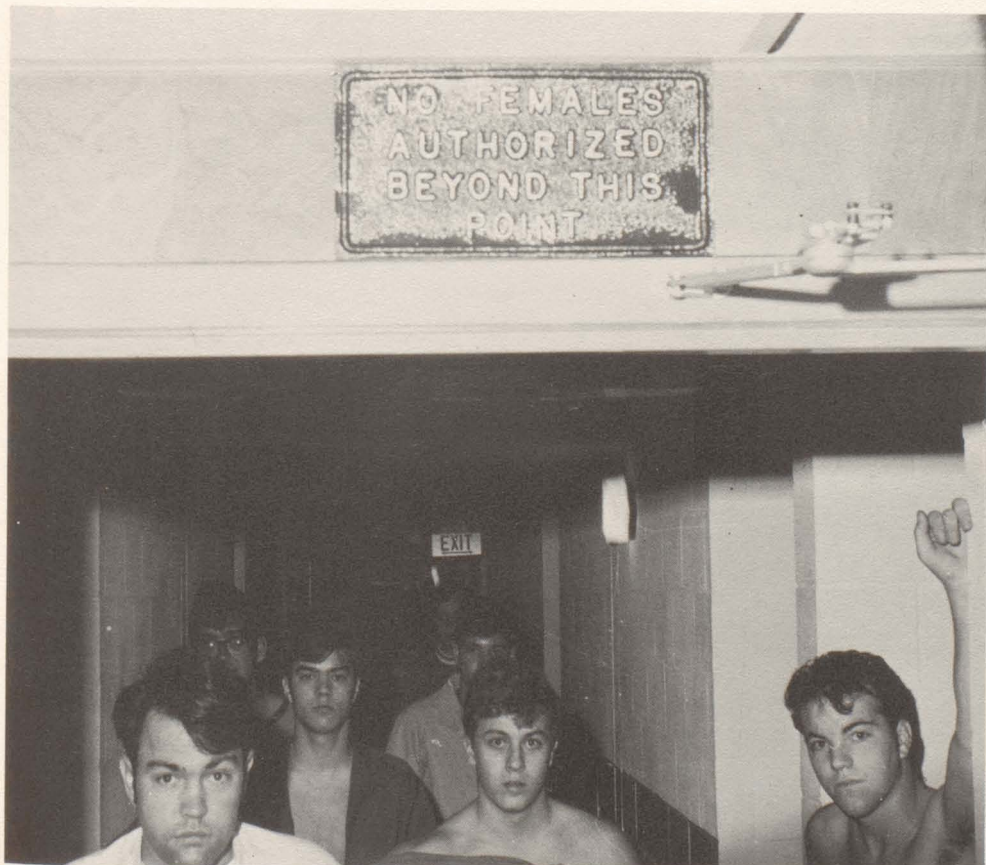

Alright, men, nobody goes to bed until whoever stole Mr. Hofstater's Rubber Ducky from the shower gives it back.

Just like home!

Surprise, you're on candid camera!!

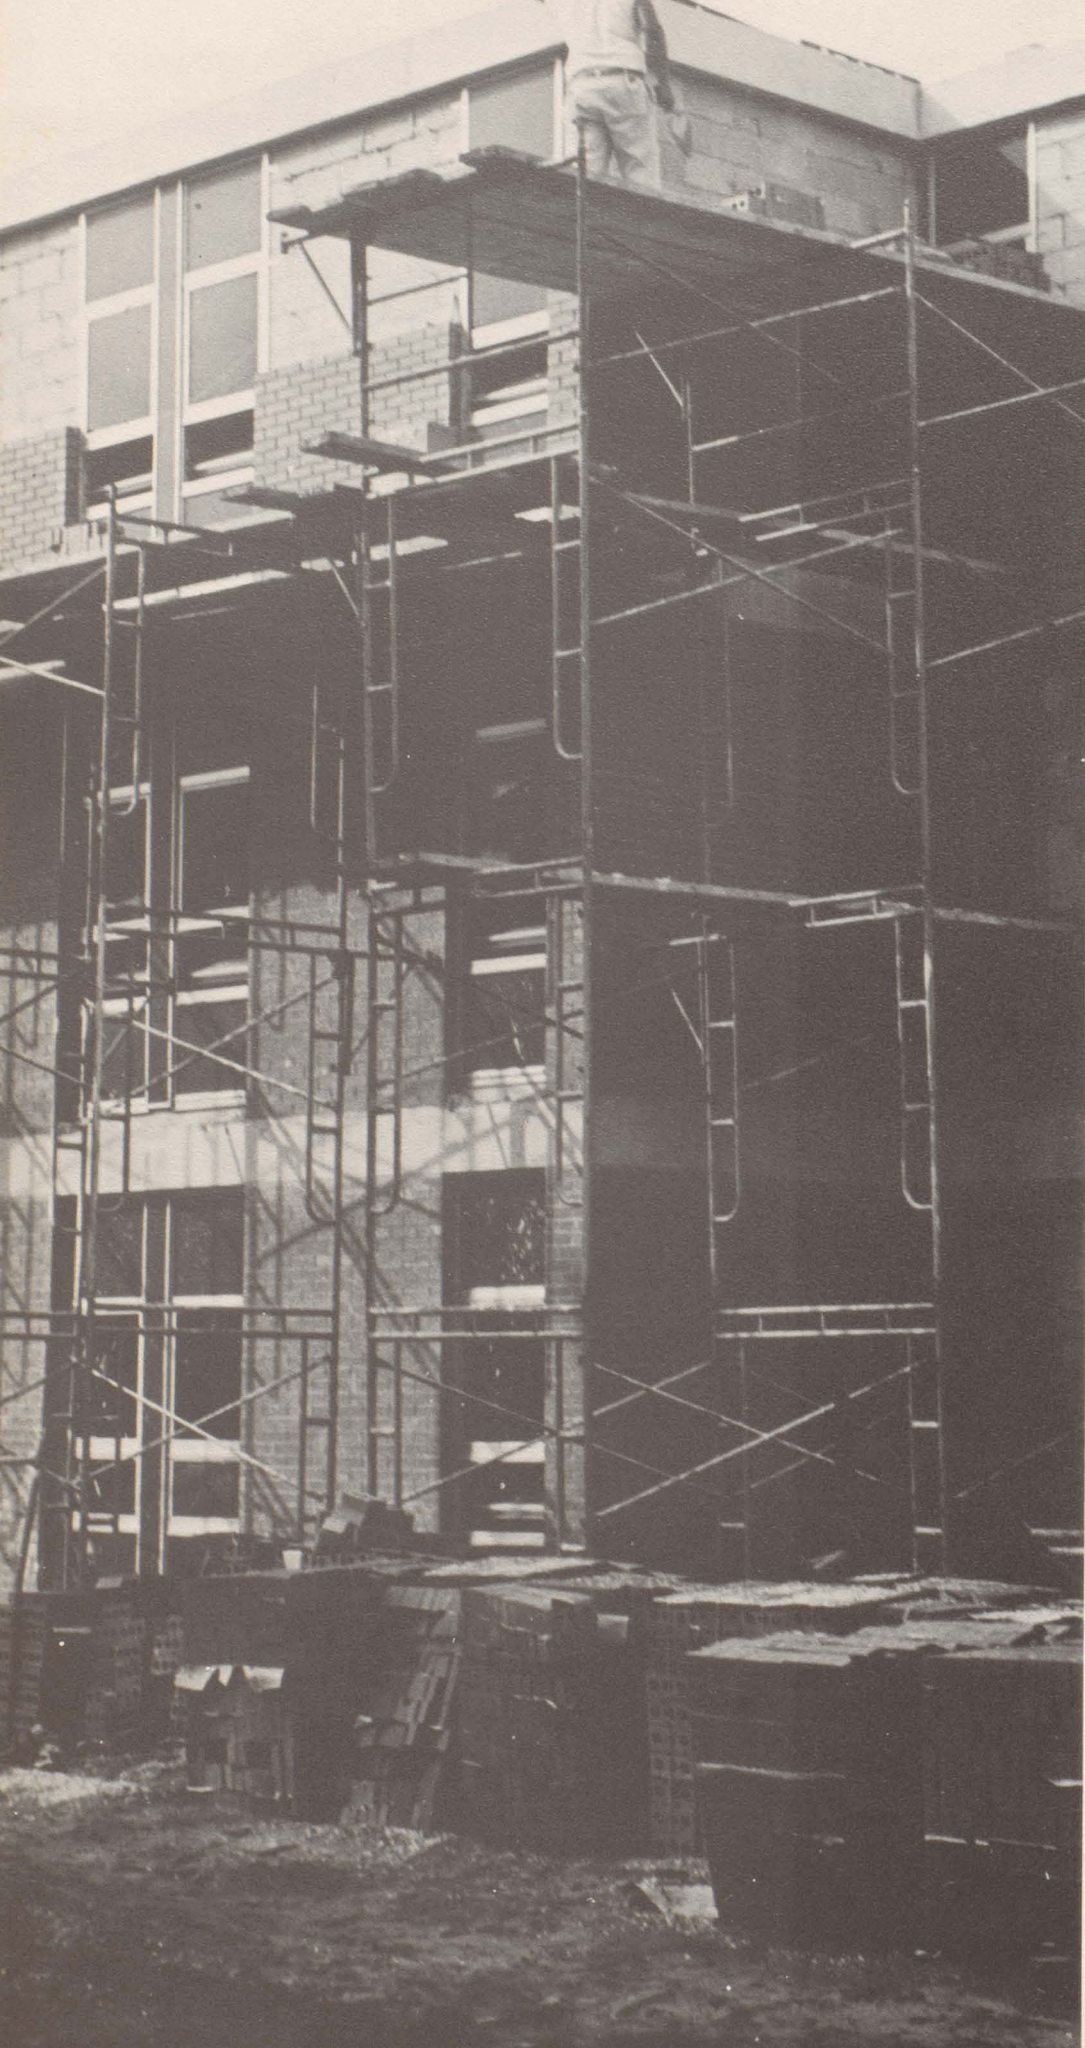

SHAR-R-R-K in the pool!!

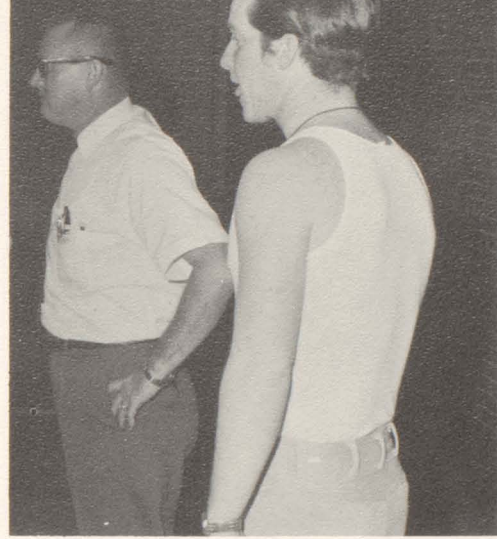

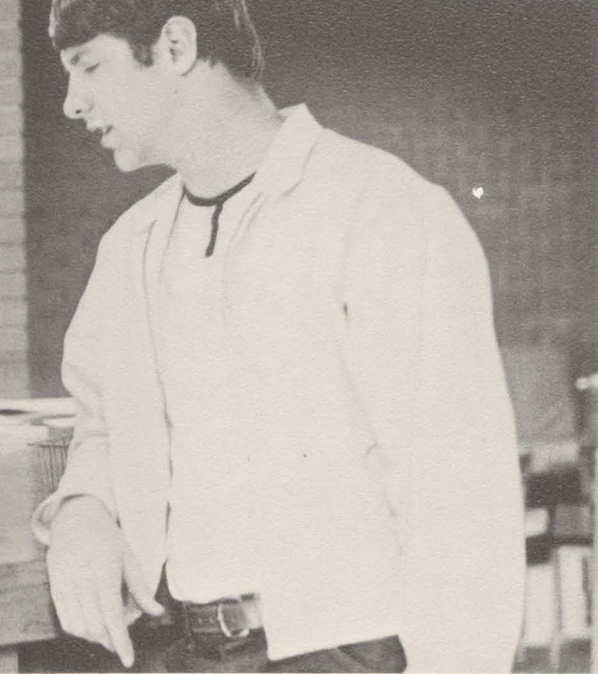

Now repeat after me-----

Parties. . .  
 Noise. . .  
 Confusion. . .  
 Peeping over the rim of artificiality  
 into the beer mug of self-reflection;  
 fog.

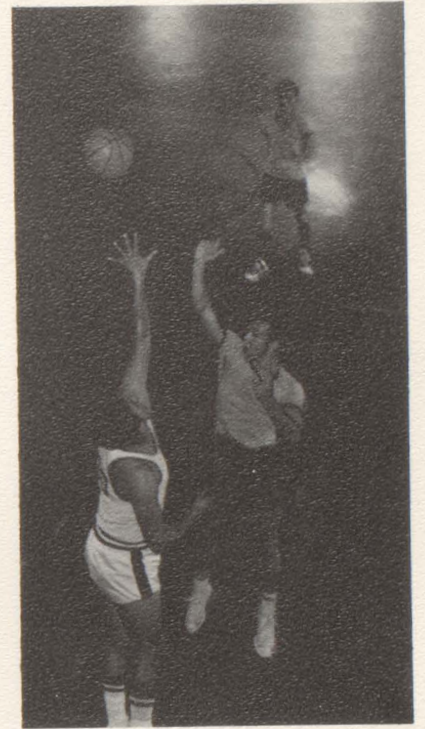

He wants his Ducky!

the pressure is on.

Hey! Watch that hand!!

success—  
a hero to the young  
and the pride of the old.  
Is there more?

Just as Florida and Aviation have grown together, so have Embry-Riddle and Florida Power & Light Company been working together for some 40 years.

Through the years your professionally-trained graduates have held key positions in many branches of aeronautics and have contributed to our state's leadership in aviation.

We salute the graduates and extend to the Institute our best wishes for many more years of continued growth and successful operation.

Lost  
An urge to express  
but how?  
It's useless to tell others  
for what words can describe  
feelings?  
If words fail,  
will I?

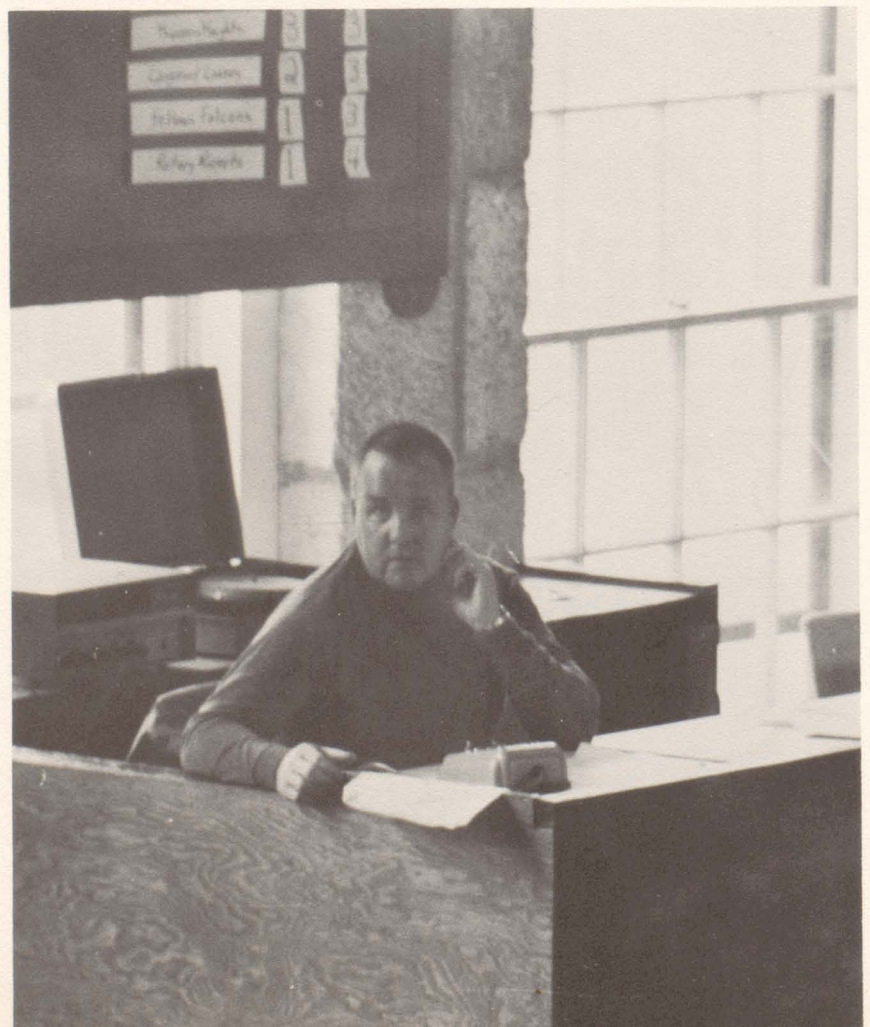

Is fear causing the confusion?  
 Fear of hard work,  
 endless hours,  
 and possible failure.  
 Failure. . .  
 Is understanding and appreciating  
 the trails and successes of others  
 failings?

It's so much  
easier  
to dismiss an idea in time of despair  
and turn toward  
mechanical task.  
Can this  
satisfy  
my unrest within?

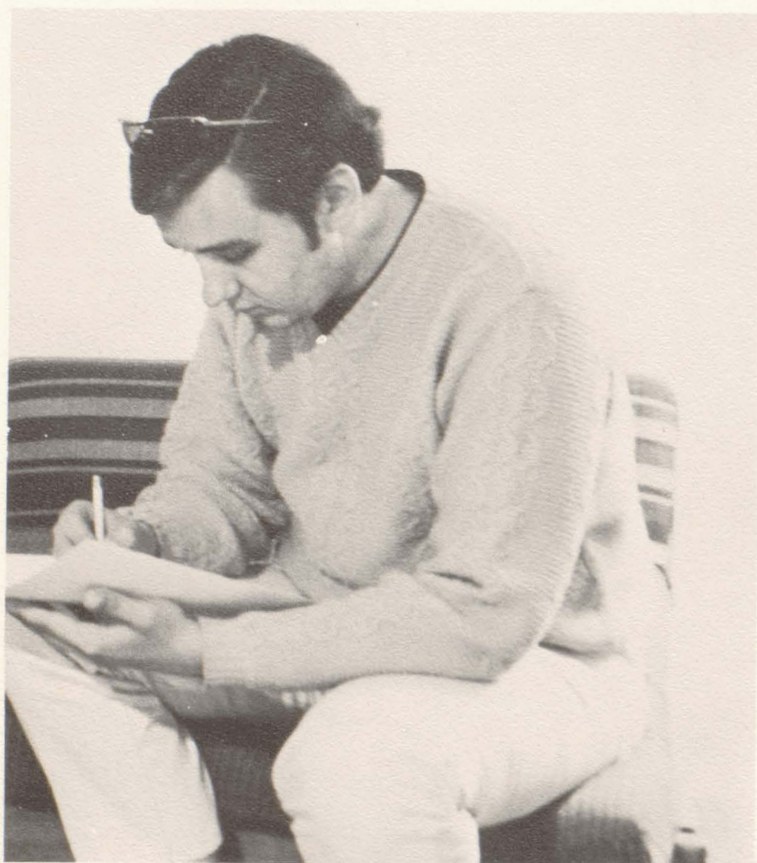

The task is ahead.  
The crowd waits;  
within  
is seen the face  
intent upon trying  
and learning.

"The experience of a lifetime is complete."

Stephen E. Gay  
Editor, 1968-69 Phoenix

What more can one say? The experience seems to have almost been a lifetime. How long ago did we start on this 166 page beast? Two months of spring planning .... summer meetings .... more plans .... some carried out .... Others shot to hell .... then production .... nonproduction .... deadlines .... exhaustion .... two heat waves .... classes cut .... and a missed deadline.

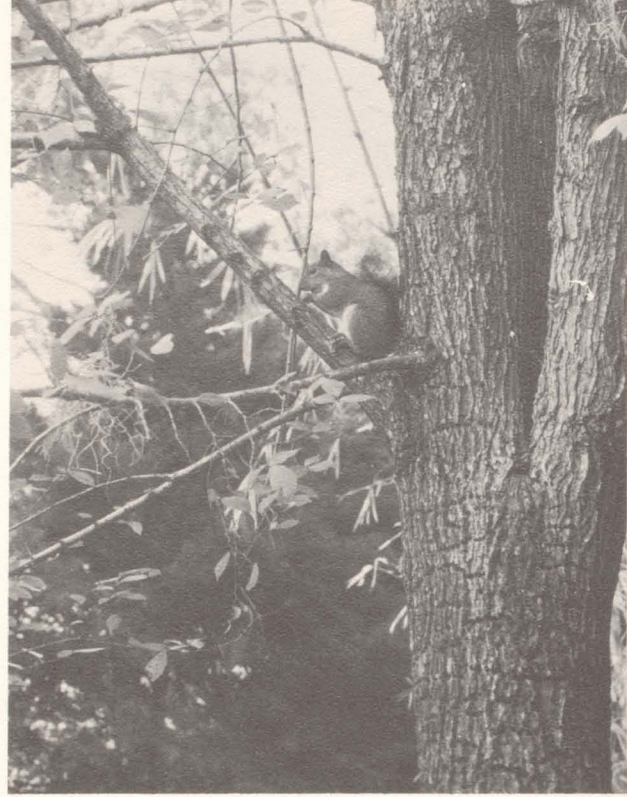

Our theme has been "The Present vs. Future Growth". Its Significance: That through an individual's effort to step above the mediocrity of the group and excel can progress be made. As a staff we have tried to implement this theme through our plans, embodied in the phrase "Creative Innovation". Throughout the book we have tried to do just a little bit more to step from present growth into "Future Growth."

We have made a great number of changes in the 1968-69 Phoenix, some good, some not so good and all of them difficult, especially because of the problems associated with our changing to an entirely different printing process.

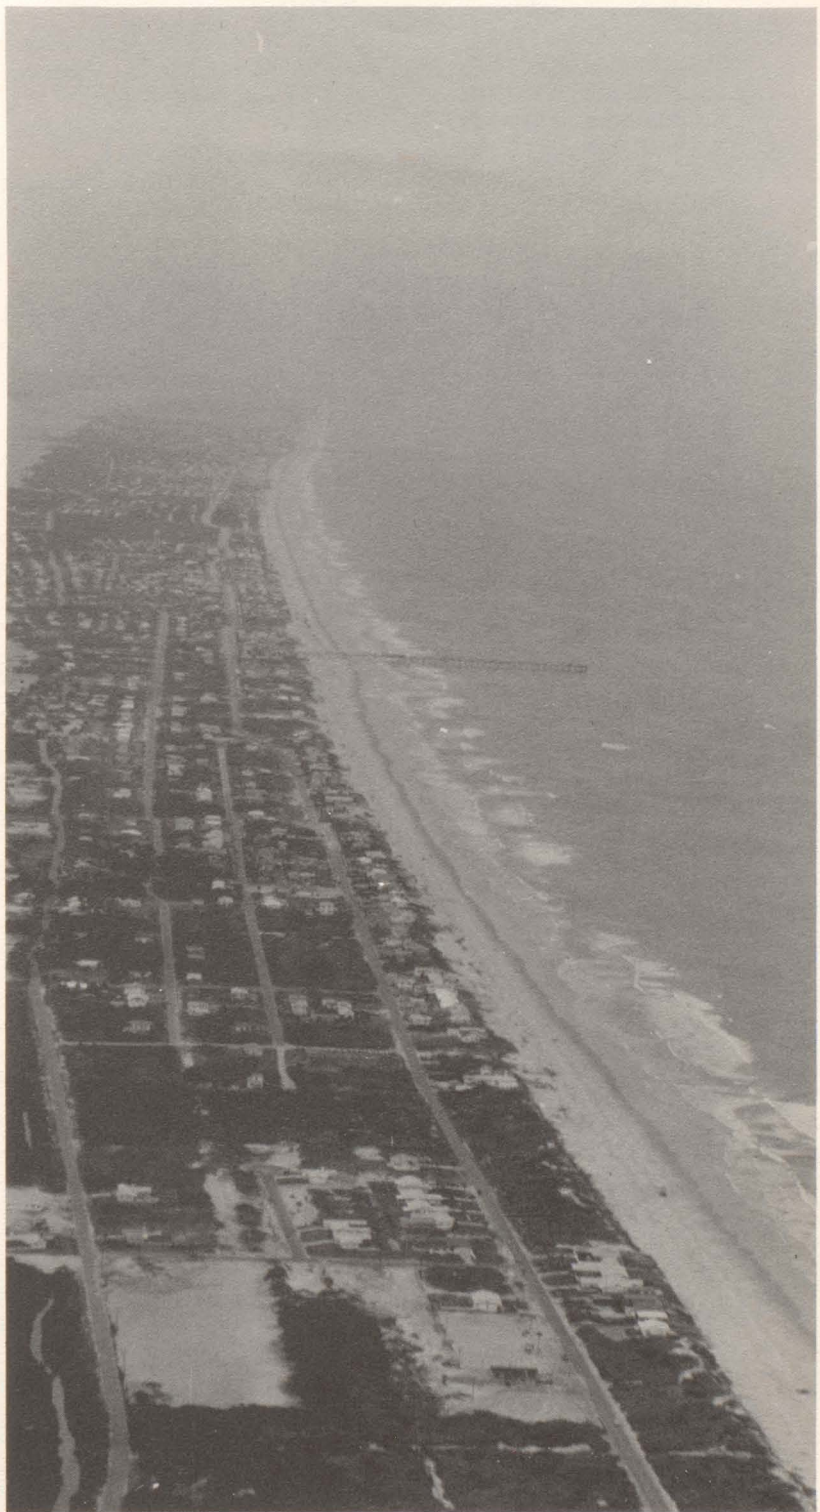

Thanks are in order to the student body; the judges of the 1968-69 Phoenix Queen; to our Copy Editor for restraining us in some of our wilder moments; to Greg Allen, our advisor; to Herbert Mansfield for his assistance and also to John Prosser for his flight time and assistance in obtaining aircraft for our aerial photography.

Alas, I fear words and space have run out.

Stephen Gay
